The Supreme Court's decision in the Hardyman case will probably serve to settle the question as to whether or not the federal government may enact legislation to protect individuals from violence by private persons where a meeting is held to discuss or consider strictly federal, as distinguished from state or local matters.

Free German Unions Urge Fight for Peace

BERLIN—In a New Year's message to all German workers, the secretariats of the free German trade unions appeals to the German trade unionists to increase their efforts in the fight for strengthening world peace and for the maintenance of peace throughout the world. The "decision of the Brussels conference on the setting up of a German mercenary army should serve as a warning to all trade unionists of the seriousness of war danger and arouse still greater opposition of the rank-and-file trade union members against the warmongers' lans," the message declares.

In conclusion the message emphasizes the necessity of united action of the German working class and all German patriots regarding the question of a united Germany and demands the acceptance of the Premier of the German Democratic Republic Grotewohl's proposal for joint discussions between Eastern and Western Germany.

Appegios AND Gussandos

MUSICAL PROFESSION

There is really only one justification for going into music as a profession—that is the possession of an unmistakable and above average talent for doing at least one thing in music exceptionally well.

Nothing can take the place of native talent; all the hard work in the world will not supply it if it is not inherent in the individual. One is born with it or one is not; it is that simple. The tragic error that so many young people are making these days when the stress in music education is laid more upon studies about music than upon the performance and practice of music itself, is to mistake a love of music for musical talent.

How then, can you know if you have talent? The best thing is to be honest with yourself, and to make sure that you are not deluding yourself get a disinterested and objective opinion from someone who knows the score. This will seldom be a friend or a member of the family, and possibly not your teacher.

If you are a singer and aspire to opera you must reflect that there are only two major opera companies in the nation of 150,000,000 people, and that one of, the San Francisco Opera has a home season of only six weeks duration. Whereas the Met with its long season and long tour for a time encouraged the American singers, the management now has passed into European hands again, and the guiding policy is being shaped on European lines.

If in the light of all these things you are still sure that you are fitted for a musical career, then go to it. Give it the best you've got. You will be happier that way than any other way, and you are pretty sure to find a niche for yourself. It's a hard life, but most musicians seem to think it's worth it."

Egotism in Musicians

In Webster's dictionary, one finds under the letter "E" the word EGOTISM. The definition of this word is stated as being "vanity, conceit." Egotism is a word which should never be in a musicians vocabulary, yet we find that it perists in red letters so vivid that we cannot see the good works done by so many musicians.

Self-esteem should be given all of us by ourselves, but when we get to the place where we do one thing well and gloat in its goodness and glory, that is when we cease to learn or live. I have been acquainted with such musicians. I cannot say that I am sorry because I always hope they will wake up to the facts of life and really live, for the world is going on and is passing them by.

We often wonder why people have to be this way. In a book of psychology written by Travis and Baruch, both professors at the University of Southern California, an explanation is made. They say, "The conceited person is the person who needs to bolster himself up, which is something fundamental—often basic affection—is lacking. He has been disappointed so utterly in his early years that fear of repeated disappointment makes it impossible for him to become deeply involved in any human relationship." Being intelligent a musician should search himself for these unspeakable idiosyncrasies which tend to envelope him.

This does not include all musicians, but to the few it does include may they take heed.

Shifting Tastes of the American Public

No more interesting shift in public taste has been recorded on the American musical scene than the suddent popularity of chamber music. Not long ago the plaything of the snobbish, pretentious and arty elements of the listing public, chamber music within the past few years has discovered an audience as loyal and devoted, if not as populous, as that which supports symphony orchestras.

And while its deveotees are not yet as numerous as those commanded by solo recitals they are much more reliable in their patronage; even many an established recitalist these days would like to be assured of an audience as regular and dependable as those of the best chamber music events. Chamber music may not hold the excitements of symphony or opera, but its satisfactions are in their way no less gratifying. They are simply different, and we may be proud and grateful for the large number of opportunities the Los Angeles public is being afforded to discover these differences.

Lois Towles Makes New York Debut

Of interest of local readers is the following review of the Lois Towles Town Hall Concert November 26. Miss Towles, formerly

vember 26. Miss Towles, formerly of the music faculty of Fisk University, recently returned from the Marguerite Long - Jacques Thibaud Ecole in Paris, revealed playing musical, sensitive, and capable of communicating lyrical sentiment, although long line and sense of climax were frequently missing. These weaknesses were particularly appearent in Franck's Prelude, Aria et Finale, and Liszt's heroic Sonata in B Minor. A Nocturne by Ernest Schellin gand two Debussy pieces were the most successful part of Miss Towles' program. Three Chopin compositions brough the concert to a close.

Roland Hayes, Tenor Carnegie Hall, November 26, Also

Roland Hayes' superb artistry is not news, but it leaves a wonderful impression each time it is heard anew in recital. In his latest New York appearance, the perfect fusion he maintains of words and music—the diction that is always understandable blended with the phrase that is always musically shaped and colored with impeccable stylistic awareness—made each song a separate, treasurable experience.

He opened his program with a noble and moving performance of the chorale, from Bach's cantata Wo Gott, der Herr nicht beiuns halt. The aria Allor che sorge astro lucente, from Handel's Rodrigo, suavely sung, led to Round about the fairy ring, from the same composer's Triumph of Time and Truth, so airily light and graceful in its treatment it had to be repeated. He closed the first group with Beethoven's Adelaide, profound in its conception and varied in mood, with no break in the continuity.

Of the four Schubert lieder Mr. Hayes presented—Die Post, Der Wegwieser, Der Schmetterling, and Nacht and Traume—the last was outstanding for its sustained, quietly lyrical ecstasy, although all were tellingly sung.

A French group including Faure Claire de Lune and Le Voyageur, Chausson's Le Colibri and Saint-Saens' Tournoiement. The rapid melodic line of the last work was taken at a dazzling speed without the loss of a syllable, and as an encore, the tenor sang Danse Macabre with equal brilliance, crowning the performance with a ghostly rendition of the final phrases.

Five of the singer's arrangements of spirituals—one an encore—were presented with touching simplicity and vivid narrative power. His different approaches to the reiterated line, Little Boy, How Old Are You? in that spiritual provided an excellent lesson in dramatic values. Other encores that should be mentioned were Le Reve from Massenet's Manon and Have You Seen But a White Lillie Grow, both exquisitely sung. Reginald Boardman supplied Mr. Hayes with fine accompaniments which he played from memory.

The Museum will not be open Friday nights on regular schedule as formerly, although occasional night openings during the year may be scheduled in connection with special exhibitions.

EUROPE AS I SAW IT

The following is the eleventh installment of a series of articles to be printed by THE CALIFORNIA EAGLE, describing the experiences, impressions, and first-hand knowledge gained by Charlotte Bass on a two-months' tour of three European countries—France, Czechoslovakia, and Russia.

One of the most interesting places I visited while in Georgia, Russia, was a state tea farm. In 1930 this was nothing but a large area of brush, but it was then that the Soviet Government took over and decided that this waste land should be converted into productive acres, and that tea should be raised thereon.

There were about 7000 acres in this one farm in our language. In Russia they use the word "hectare," equal to 2.47 acres. It did not produce very much at first, but by 1932 the amount of tea raised was increased and it has continued to grow more and more ever since then.

WORKERS APARTMENTS on the outskirts of Tbelisi, Georgia, USSR, are so arranged and built that there is a maximum of air and sunlight for all who live there. Constructed by state money, the apartments are used by workers in nearby factories, at low rentals.

Trees were planted along the windward side to shelter the tea plants from the wind. Fruits and vegetables are also raised to some extent, although they are mostly for home consumption.

The life of a tea plant is about thirty or forty years. After this they are trimmed for new growth.

Since this was a state farm, the machinery was owned by the government and the persons employed on the farm were paid by the State. There were about 1200 people employed on this farm. They are paid according to the amount of tea produced. They collect about three tons from each acre. Everything is done very democratically, and the workers make all decisions. The value of the tea is estimated to be about 800 rubles, collected semi weekly. An American dollar is worth about 4½ rubles.

The factory where the tea is processed is a part of the farm. Two hundred men and women work there. This factory at Irgirsk is only one year old, but it was humming with industry when I visited it. It took first place in the amount of tea processed, with a score of 2,600,000 pounds, and won the production banner of honor. There are three engineers, with eight assistants who run the factory. They are all highly educated.

One thing that interested me especially was the nursery connected with the factory. We have nothing at all like that in America. This nursery had thirty beds, each one filled with a little bit of humanity whose mother was working either in the factory or on the farm itself.

All those babies looked healthy and happy. They laughed and cooed as the nurse walked through the aisles, talked to them, and petted them. It really was a beautiful sight.

The machinery for the factory was made in Georgia. So also was the furniture for the nursery, the dining rooms, and the offices used on both farm and factory.

This farm was really like a small town in itself, perfectly self-sufficient, well governed, with the people interested in their work and in their government. Everyone looked so happy and so well. There was no sickly person among them.

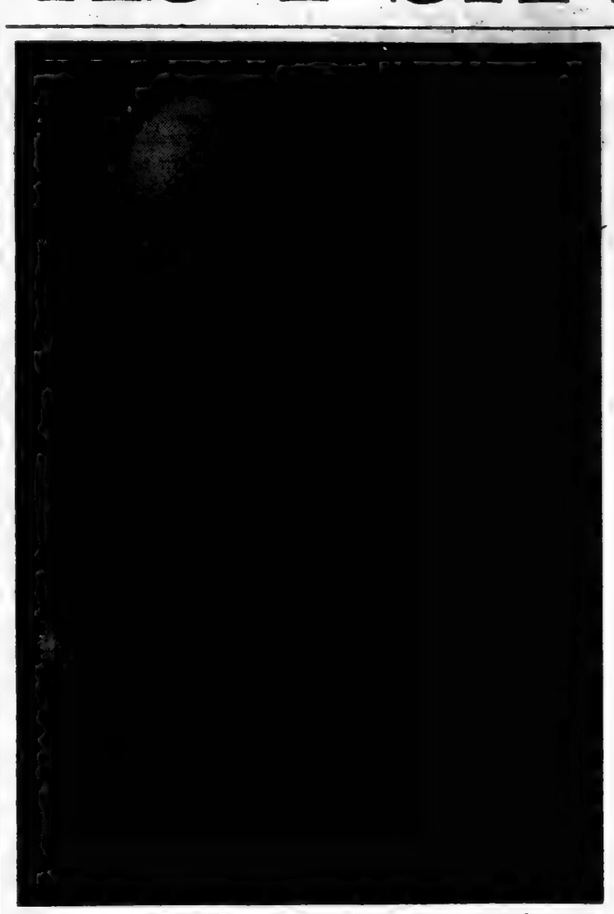
I couldn't help wishing, "Why can't we have something like this in my country?"

I was also very much interested in visiting the various schools, and inquiring about the school system while in Georgia.

One school, a girls' school, No. 23, had an enrollment of 1278 girls. The principal was Madam Mateshvili Tamora, who is also a vice-president in the National Soviet of the USSR. This school had an eleven-year course of study. Girls who graduate here are ready to enter the university or one of the many technical schools provided by the government.

There are 54 teachers in this school, 23 of whom are women. They have a circulating library, a study hall, and large airy classrooms for all the subjects taught — science, literature, history, mathematics, Russian literature, foreign literature, geography, chemistry, biology, etc., etc.

I also visited a boys' school, and watched a group of boys modeling airplanes. They also studied radio, transportation, photography, mechanics, etc.



There were 170 employees here, 120 of whom were teachers. There is no tuition charge in any of these schools. The government pays all salaries, which amount to something like $2,500,000 per year.

There is keen competition among the students of the different schools of the city, in subjects for study as well as in athletics. All the regions of Georgia meet once a year for a conference. They decide here upon a broad policy which they follow in the ensuing year.

(To Be Continued)

CHILDREN of Georgian workers are shown in morning calesthenics at the state-supported school, where trained personnel look after them while their parents are at work. There is keen competition among students in Georgia, both for scholastic and for athletic honors.

MR. A. [illegible], manager of a 700-acre tea farm in Georgia, USSR. About 1,200 persons work on the giant farm, which is a complete community in itself. Factories which process the tea are located on the farm, which is owned by the state, and stores, schools and nurseries are maintained for the workers. In one year, the factory processed 2,600,000 pounds of tea.

News from Europe and Other Countries

TURKISH PEOPLE OPPOSE KOREAN WAR

CAIRO—The local secretariats of the Turkish Democratic (government) Party have been ordered to intensify their campaign to force Turkish citizens to send letters to the government expressing their approval of the government's foreign policy and their desire for "voluntary enlistment" in the Turkish brigade in Korea.

In spite of official announcement, such as the one which claimed 10,000 "volunteers" for Korea, the campaign is reported to be lagging far behind expectations, with even threats proving ineffective.

The disaster of the Turkish Korea Brigade, which lost some two-thirds of its men, has made a shattering impact on public opinion.

In fact, the impact of the Korean disaster has been so great that it is doubted whether the Menderes regime will be able to conceal the growing tide of public opposition by enforced "loyalty mesages" to the government and by mass meetings, with compulsory attenadnce.

A NEGOTIATED PEACE

LONDON—The idea that a negotiated peace must be accepted in the Far East, however painful to prestige, is gaining ground in London. In a letter to the TIMES, Norman Bower, conservative member of Parliament, and two other members of Parliament appealed to the British government to take the initiative to secure such a settlement.

The British government is in a position to do this, they said, because it is "already pledged to the admission of Peking to the Security Council, to the treatment of the Chinese People's Republic on terms of equality, and to the recognition of Formosa as a part of China."

CHILDREN FREEZE TO DEATH

ROME—The Christmas holiday was saddened here by the horrible tragedy of two babies who froze to death in Rome's miserable suburb of Tormarancio, a community of hovels without streets or lights inhabited by poor unemployed families—a living symbol of Italy's degenerated economic system.

A description of this tragedy carried by the democratic press leaves one cold with anger. One of the victims was a month old baby. A reporter who visited the "home" of this child describes the following scene: "Before a dilapidated wood shanty we saw a small group of people waiting under a dense cold rain, their feet embedded in mud. Inside a spectacle of squalor confronted us. A woman whose dark face was set with tears sat in the midst of a group of halfnaked children. It was the mother and little brothers and sisters of one of the victims of misery and cold. The mother in tears told us that at dawn her last born child barely 25 days old had frozen to death in its pallet of rags which served as a craddle. The room was constructed of pieces of box wood. Cold air filtered from every part. After many days of rain the wooden boards were rotten."

ATROCITES IN KOREA

LONDON—The atrocities committed by the Syngman Rhee forces in Korea continue to cause a series of letters to be sent to the press from prominent personalities demanding that the British government take action.

In today's TIMES a letter appears from Cambridge University signed by Viscount Caldecott and three other leading intellectuals. Viscount Caldecott was at one time Lord Chief Justice. The letter praises the action of some British troops in stopping South Korean atrocities and adds: "We suggest it is high time the British government made it plain that Britain will not tolerate these executions." Another letter in the Daily Herald, by Fred Longden, Labour M.P., asks: "Is it not time for us to end the reign of that symbol of Nazism and atrocity, Syngman Rhee?"

CEYLON'S STRUGGLE FOR PEACE AND FREEDOM

CEYLON — Ceylon is a small country, about the size of Belgium, with a population today of nearly seven million. The recorded history of its people dates back 2,500 years. For the past 400 years, however, Ceylon has been ruled by three successive imperialist powers: the Portuguese and Dutch from the 16th to the 19th century and the British for the last 130 years.

Before the British occupation, Ceylon was called "the granary of the East," capable of exporting its staple foodstuff, rice. Today it only produces one-third of its requirements and imports the rest. The British imperialists have systematically reduced Ceylon to a source of raw material and cheap labor for British industry, and a market for British manufactured goods.

A handful of British companies prospered and sent back as profits to Britain each year a sum equal to 80 percent of Ceylon's entire pre-war national revenue. But for the masses of the people, this savage exploitation meant miserable poverty.

Intensified war preparations today have led to a savage attack on democratic trade union rights. Strikes have been made illegal. Strikes in so-called "essential industries" now mean two years imprisonment for all those who take part. Police shooting and terror against the strikers are a common occurrence. Several hundred trade unionists and political workers have been imprisoned. Public meetings and demonstrations require prior permission from the police. Over 200,000 government employees have been denied full trade union rights. Three hundred thousand immigrant plantation workers have been deprived of their right to vote. The working class, supported by the patriotic masses of the people, is fighting back against this policy of war and repression.

Large strike struggles have taken place — one of them involving 300,000 workers—and the demand has been raised that money should be spent on improving the conditions of the workers and not on war preparations. The cooperation in these struggles between the CTUF and the Ceylon Workers' Congress, an organization of Indian immigrant workers in Ceylon, is an indication of wider trade union unity.

The 10th annual conference of the CTUF was held in September, 1950. On American orders, fraternal delegates from the Soviet Union and China were refused visas to attend. Even the representative of the WFTU was asked to leave the country within 24 hours.

Despite the provocations, the conference was a great success. Thousands of workers rallied to its call for peace, national independence, the restoration of democratic rights and an immediate all-around increase in their wages and improvement in their conditions.

MARSHALL PLAN ENDS

LONDON—When the Marshall Plan first began in April, 1948, Foreign Minister Bevin greeted it warmly as "the most generous effort" and as absolutely "without any strings." Now that Marshall aid for Britain has been abruptly ended, the government has been trying to make a virtue out of necessity. Not only has such progress been made that the "aid" is no longer necessary, they say, but they also slyly imply that the country will now enjoy a more independent status. The record of what has been done to England since the summer of 1948 shows how hollow are both these claims.

Instead of assisting British recovery, shipments of steel, agricultural machinery and other equipment originally promised to England were switched to Western Germany. England got what goods United States decided she should have — including Coca-Cola, gangster movies, and in March last year one million pounds worth of dried eggs which had been held in American warehouses for two years.

Any semblance of long-term planning was prevented by granting Marshall "aid" in annual instalments, each time only after prolonged bargaining. Not only use of the "aid" commodities themselves but also the determination of what could be done with products containing any "aid" materials were under direct American supervision. Capitalism had to be preserved at all costs, for, as Paul Hoffman, former Marshall Plan chief, put it—"Recovery" must be "on good sound business principles . . . as I have applied in my own private enterprises."

Americans obtained first claim on all raw materials in the British Empire which they deemed necessary for war stock piles.

List after list of manufactured goods were prohibited export to the Soviet Union and the People's Democracies. Since these industrial goods are Britain's main export commodities, for which the Soviet Union and the People's Democracies offered vast supplies of needed foodstuffs and raw materials, the British standard of living was forcibly lowered by the trade embargo.

In fact, the offer of Marshall "aid" was neither an act of generosity nor was it designed to aid British recovery. It was a double-edged weapon by which the United States carved out a sure market for additional exports and at the same time consolidated its supremacy over its foremost imperialist rival. Actually it did even more, because it forced the rival to become an ally in United States plans for world conquest.

It was no accident that the beginning of Marshall "aid" coincided with the creation of American air bases in Britain. As Churchill later admitted, these bases were designed for planes carrying atom bombs destined for the Soviet Union. The tying of Britain to the American war chariot bodes ill for the British people. Already there have been open admissions that further declines in the British standard of living are directly the result of war preparations.

SIAM, SPAIN'S COUNTERPART

SIAM—Not for nothing is Marshal Pibul Songgram, the dictator of Siam, known as the Franco of Asia. Under his terrorist rule strategically-placed Siam, with its 18 million inhabitants, is being turned into a vast military colony and war base, on the same lines as Franco Spain. To add point to the parallel, a Bangkok correspondent of the reactionary Swiss weekly **Die Weltwoche** wrote that Pibul Songgram, "who today so boldly plays the American cards, collaborated so intensively with the Japanese during the war that compared to him Franco's flirtation with Hitler seems mere child's play."

British interests, which previously held the leading economic position in Siam, have in the last 20 years fought a losing battle firstly against Japanese, and secondly, against American designs. In Japan's military defeat the British saw an opportunity to regain their lost ground, and sought in 1945 to dictate a "tough peace" to the Siamese government which demanded monopoly economic rights, military and naval bases, etc.

However, the United States, which throughout the war took a "soft" line with Siam, managed to maneuver Britain into a position where the peace agreement merely restored Britain's pre-war rights. It provided, however, that control over the chief Siamese export items—rice, tin, rubber and other commodities—should be exercised not by the British, as before, but by an Anglo-American committee which was set up in Washington.

American monopoly mining concerns like the Anaconda Copper Company have been given the right to prospect the natural resources of the country and regulations are being slackened to simplify American investment.

The United States General Electric Corporation is prospecting hydro-electric resources and intends to construct a 30-50 million dollar power project near Bangkok. Both Anaconda and General Electric are connected with Morgan interests. The Siamese government has granted permission for an American bank to be opened in Bangkok with a capital of 500 million dollars—more than the combined capital of all foreign banks there. Whereas before the war only one large American concern was established in Siam, today there are over 70.

The development of Siam as a colony and war base is involving the United States in the expenditure of some 35 million dollars. This sum, the **New York Times** tells us, "is likely to be augmented by new United States appropriations."

CZECH WINTER RESORTS

PRAGUE — During the next three months Czechoslovakia's finest mountain skiing centers will be visited by about 80,000 students from Czech schools and 20,000 from Slovakia ranging in age from 11 to 19 years.

The trips are being arranged by the Ministry of Education as a reward to the students who have shown good progress during the school year and for assistance given to the general construction effort by scrap collections and brigades.

Ninety thousand workers will also spend a week's holiday this winter in some of the largest and most up-to-date hotels in the mountain resorts. One-third of the winter vacation expenses are paid by the workers, two-thirds by the Czechosolvak state.

BULGARIAN VICE-PREMIER

SOFIA — Ivan Mikhailov, the man who led the great Bulgarian anti-fascist people's uprising of September 1923, was elected a vice premier of Bulgaria at the closing session of parliament yesterday.

Mikhailov, following the failure of the uprising and the reign of terror instituted by the Bulgarian monarcho-fascist government, was forced to escape to the Soviet Union where he served 20 years in the Red Army. He is a lieutenant-general and has so far been assistant minister of National Defense.

The Bulgarian National Assembly unanimously passed a law in defense of peace proposed by 51 members of parliament in answer to the manifesto of the Warsaw Peace Congress.

The law forbids war instigation or war propaganda as "the worst crimes against peace and peoples." Whoever, "orally, in writing, or via press, radio, films, theatre, literature and art or in any other way preaches increase in armaments or use of the atomic, hydrogen, chemical and bacteriological weapons or preaches and spreads theories of racial discrimination" will be guilty of making war propaganda.

DON-VOLGA CANAL

MOSCOW—Plans are made to mingle the waters of the Volga and the Don, and to use them to arrigate an area of potentially fertile land the size of Belgium.

The Soviet government has decreed that the canal linking the Don and the Volga is to be finished in 1951, and that by spring of the following year the Don is to be dammed near Tsimlianskaya, creating a huge 100-mile long reservoir from which water will be drawn off to irrigate the territory, lying mainly south and east of the Don, suitable for wheat and cotton crops.

Although many hundreds of miles separate the points where the two great rivers rise, and there is an even greater distance between their estuaries in the Caspian and Azov seas, there is one point where their courses are little more than 50 miles apart. This is where the canal is now being dug.

AGAINST REARMAMENT

When the Foreign and Defense Ministers of the 12 Atlantic Pact countries met in Brussels on Dec. 18 and ratified plans for the rearmament of Germany, the indignation and adamant opposition of millions of women began to express itself in letters, telegrams and resolutions.

The women, many of whom suffered occupation and bombardment of their countries by the Nazi hordes, told why they support Point 2 of the Appeal addressed to the UN by the World Peace Congress:

"We categorically condemn every move made and measure taken to violate the international agreements that forbid the rearmament of Germany and Japan. These moves and measures constitute a grave threat to peace. We urgently demand the conclusion of a peace treaty with a united and demilitarized Germany, as well as with Japan, and the withdrawal from both these countries of the forces of occupation."

The WIDF is calling upon women of all countries to act vigorously against this grave threat to the peace of the world.

NAACP SPOKESMAN

NEW YORK CITY—Gen. Douglas MacArthur has given approval for Thurgood Marshall, NAACP counsel, to make a trip to Tokyo in interest of our Negro soldiers from Korea in court-martials. Marshall is scheduled to leave January 11.

MAYOR TAKES BOX FOR ELLINGTON CONCERT

NEW YORK—Mayor Vincent R. Impellitteri, whose wife will act as official hostess at the Duke Ellington benefit concert for the NAACP at the Metropolitan Opera House on January 21, was among the first to secure a box for the concert in the Opera House's famed diamond horseshoe.

Two other boxholders include Mrs. Christiana Halle of New York and Alfred Baker Lewis of Greenwich, Conn., a member of the NAACP board of directors.

DUBLIN, Ga. — Once Emmett Hall of Dublin, Ga., got a start toward a farm of his own through the Farmers Home Administration, after 26 years of tenant farming, he not only paid out in five years, but went on to buy two additional farms.

A report of Mr. Hall's outstanding achievement was received last week by the U. S. Department of Agriculture from P. H. Stone, State agent in charge of Negro Extension work in Georgia.

NEW YORK—Two large Negro service organizations—United Negro College Fund and the National Urban League—will jointly be represented on the ABC Public Affairs Department series, Negro College Choirs, beginning with the broadcast Sunday, January 7, 10:30 to 11 a.m., EST.

CANADIAN YOUTH DEMAND UN SEAT FOR CHINESE

TORONTO, Can.—A nationwide movement has developed among Canadian youth urging reversal of their government's non-recognition policy toward the Chinese people seated in the United Nations.

A letter, signed by 27 national youth leaders, sent to Lester B. Pearson, Canadian Secretary of State for External Affairs, and Canada's chief delegate to the United Nations, stated, "In the name of humanity, in the name of life, and for our future, we appeal to you to stop this mad drift to war, and to speak up in Canada and in the bodies of the UNO for a policy of peace and friendship with China." The letter also urged the immediate recognition of the Peoples Republic of China.

ST LOUIS BLUES COMPOSER LOOKS AT THE SOUTH

MEMPHIS, Tenn.—Feeble and nearly blind, 77-year old W. C. Handy, composer of "St. Louis Blues," visited Memphis and his beloved Beale Street this week where he told reporters some of his thoughts.

There has been a great deal of "loosening up" in racial attitudes in the South, he said. Better conditions will come when people will accept a man for his accomplishments regardless of color.

"Laws won't change it, it's got to be in people's hearts," said the genial old composer. "But I'm optimistic, I have great faith in Providence and the future. And I have great faith in the South."

TEL AVIV — Reports reaching here indicate the enlargement and strengthening of the peace movement in the Transjordan, the occupied part of Palestine, despite the fact that the whole peace movement there is illegal.

Although the collection of signatures to the peace appeal started late already 2,500 signatures have been collected, and many local peace committees have been established.

The Israel delegation to the World Peace Congress has reported back to three mass meetings held at Haifa, Tel Aviv and Jerusalem.

ISRAEL PEOPLE DEMONSTRATE AGAINST BRUSSELS DECISIONS

TEL AVIV—The decisions taken at the Brussels conference concerning the reestablishment of the Nazi army have made a deep impression on the Israel public.

A large demonstration in the streets of Jerusalem, was headed by mothers wheeling babies in perambulators and with small children carrying posters reading "we want to live" and " we want peace."

The demonstration called for opposition of the Israel government to the reconstruction of the Nazi army, and one slogan read "Israel will not be in the same camp as the Nazis."

DEPORTATION OR KOREANS

SAN FRANCISCO—Sixty thousand Koreans living in Japan are to be deported by the Japanese government, according to circles in Tokyo close to General MacArthur's headquarters.

United States occupation authorities in Japan have been disturbed at the resentment expressed by Koreans in Japan at the American rape of Korea.

PUERTO RICAN WOMEN DEMAND RETURN OF KOREAN REGIMENT

SAN JUAN — A delegation of mothers and wives of soldiers of the 65th Infantry Regiment fighting in Korea called on Governor Munoz Marin at his office here and demanded that their boys be brought home by Christmas.

The women told him they represented thousands "who were unable to make the trip here." They read to him tragic letters from their sons and husbands.

The letters gave a picture of the suicidal adventure they had embarked on, the miserable conditions at the front, the high casualties, the acute suffering of the poorly clad troops, used to semi-tropical temperatures, in the sub-zero weather. They described their inadequate rations and lack of personal necessities.

The governor admitted to the women that their demands were "reasonable" and promised them that he would forward their petitions to "the proper authorities in Washington."

SHANGHAI CHRISTIANS WILL AID KOREA

PEKING—More than 400 leaders and representatives of Shanghai Christian associations held a meeting December 20, pledging their wholehearted support to "defeat American imperialist provocations and safeguard the security of our fatherland."

Wu Yao-tsung, chief of the Publication Department of the National Council of the Young Men's Christian Association (YMCA), called on all Christians to join wholeheartedly in the great resistance movement against U. S. imperialists, and to aid Korea.

On the recommendation of Rev. Wu Kao-tse, a church minister, a committee for resisting American aggression and aiding Korea, under the Shanghai Christian Associations, was established. Telegrams were sent to Chairman Mao Tse-tung, the Chinese volunteers and the Korean People's Army, expressing the solidarity of Shanghai Christians with the liberation, struggle and their determination "to get rid of the American imperialists misuse of Christianity as a means of carrying on their aggressive conspiracy in China."

VIET NAM PEOPLE

PEKING — President Ho Chi Minh of Viet Nam, declared that the "Viet Nam people are determined to fight until final victory for the defense of their fatherland and for their independence" in a Christmas message sent to refugees in Viet Nam.

"On this occasion I have the pleasure to inform you that your turn for repatriation has come," the message stated. "I think this is the best gift I can make to you. Do not thank me for it. Reserve your thanks for French democratic organizations, the Union of French Women, the Union of Republican Youth and others that have cared for you with much solicitude. On reaching France tell your friends and countrymen that the Viet Nam people are friends of the French people, with whom they eagerly desire to collaborate fraternally in peace and on an equal footing. Tell them also that it is French colonialists and American interventionists who have forced war upon the Viet Nam people."

"This war," ends the message, "is hopeless for the imperialists as you have seen for yourselves. The Viet Nam people are determined to fight until final victory for the deefnse of their fatherland and for their independence. Once again I wish you good health and bon voyage."

U. S. PRESTIGE IN INDIA FALLING

LONDON—"United States policies are criticized as being too bellicose and unyielding," says a dispatch to the **New York Herald Tribune** from its correspondent in New Delhi commenting on the state of nIdian public opinion at the present time. "We are accused," says the American correspondent, " of accelerating the drift toward World War Three by involving ourselves too deeply in the ffairs of Asia."

The writer stresses that it is the American policy, not the American people, which is mistrusted by the people of India and describe sthe prestige of the United States in India as being in a "bruised state." He lament that most Indians "fear war more than they fear Communism."

He says "President Truman's atomic-bomb interview though widely misinterpreted, provoked a very sore reaction in India more especially because it was directed towards an Asian situation."

Let Your Heart Move Your Hand

Good advice. But so often we listen in disgust to some of the prattle that seeps through the radio, and we say or think: Why don't they let their hearts move their mouths? Then we reflect dollars control and regulate what is said and how it is said on radios.

But in this editorial we are not talking about dollars. We are talking about dimes.

THE MARCH OF DIMES

It is encouraging to learn that the annual fund-raising drive of the National Foundation for Infantile Paralysis in previous years has enabled this humanitarian organization to do a magnificent job in meeting the increasingly widespread polio challenge.

The people this year, we believe, will understand to a full degree the meaning of the March of Dimes.

While we fight to bring to a successful close the war in Korea, we must also fight on the home front to check the spread of this deadly foe to the health of especially our children—polio.

War destroys the peace. Polio destroys the health. Let us, the people, unite to destroy them.

Edgar Allen Poe once said: "Childhood knows the human heart."

Let the heart now know the need for happy childhoods for our young people—all of them within reach of our generosity. Let your heart move your hand. Join the March of Dimes.

People who have suffered as a result of war know its meaning, too, in suffering in body and mind. While we join in the March of Dimes let us also join the march for the spread of peace—Peace at Home and Abroad.

We Congratulate The NAACP For Its Stand On This Issue

It has been said, and well said, that no stream can rise higher than its source.

When we observe, even casually, some of the appointments made by President Truman, we can but feel that his attitude towards the people he places in high government positions reflects his early associations and training in his native Missouri.

In Missouri, Negroes have been lynched by hanging from a school steeple in a town by the name of Marysville. Negroes are discriminated against in jobs in Missouri. They are segregated in the schools, churches, and all public places.

Some years ago when the editor of this newspaper visited St. Louis, Mo., Negro taxi cab drivers were not allowed to drive their cabs into the railroad station to pick up passengers—a demonstration of just how far-reaching discrimination against the Negro people in Missouri goes.

Out of such an environment Harry S. Truman ascended by two leaps into the President's seat.

Before becoming vice-president of the United States there is no record, even when he was United States senator, to show that Mr. Truman spoke out against racial discrimination.

There is no question but that the National Association has watched these events in the life and background of our President with a critical eye.

Observing many appointments made by President Truman that were inimical to the best interests of better racial relations in the government and the advancement of democracy. When former Gov. Millard F. Caldwell was named head of the Civil Defense program, the NAACP came forward with strong opposition to this appointment.

It called attention to the fact that Caldwell was chief architect of a program of segregation in higher education which was designed to circumvent court decisions which gave to colored people the right to obtain higher education within the borders of their home states.

Such an attitude on the part of Millard F. Caldwell shows a strong endorsement of Jimcro for Negroes within the realm of government affairs.

The NAACP opined that Governor Caldwell in such a position as head of a defense program would not hesitate to put into practice the program he has always followed—that of white supremacy and racial segregation above the safety and welfare of the citizens that the defense office is established to protect.

"If a bomb drops," said they, "we do not want regulations that would require colored citizens to run 10 blocks to a segregated racial shelter when one designated 'white only' is just around the corner."

If that bomb ever drops, it will kill all alike. There is no segregation in death. Not even in the fox holes in Korea. Nor will there be any in that final day in America, if the bombs ever fall here.

Marcantonio's Prediction Comes True

As the little Caesar Vito Marcantonio prepares to leave the halls of Congress in Washington, he reminds his fellow lawmakers that his warning three years ago that the Truman Doctrine which permitted millions of American dollars to be sent to Greece, would not be used to feed the people, restore a stable economy, and institute a democratic government for that country. Instead it would lead to disaster for the Greek people and arm a reactionary government against its own people.

The results of President Truman's aid to Greece are: the average worker lives in a hovel, earns less than 60 cents a day. The budget of the Greek government faces a deficit of billions of drachmas (our dollars).

One-third of the children of Greece have no schools to go to, while American dollars are building air strips and military roads. Democratic trade unions have been all but wiped out, and government officials replace the elected leaders who have been imprisoned and exiled by the thousands, where they have escaped execution.

These are some of the things said to his colleagues by the little fighter upon his retirement from the Congress of the United States.

This Is It

In a country that announces its freedom daily to other parts of the world, it seems out of place to publish this sort of report. But this is it from the Tuskegee Institute.

NUMBER OF LYNCHINGS. According to records compiled in the Department of Records and Research, Tuskegee Institute, I find that two persons were lynched during last year. Recorded lynchings for the past five years were:

1950	2
1949	3
1948	2
1947	1
1946	6
Total	14

One of the victims was Charlie Hurst, white, 39-year-old rolling store operator of Pell City, St. Clair County, Alabama. He wa smortally wounded on February 22 in his front yard by a group of unmasked men. They had come to his home at bedtime and tried to force him into their car. His 19-year-old son, who came to his father's assistance, was also wounded. Hurst had previously told his son that "it looks like the Kluxers are after me." There were no charges against the victim. It seems that the mob got the "wrong man."

The other victim was Jack Walker, alias Jack Kendall, also known as Clinton Walker, a 40-year-old Negro laborer of near Gay, Meridian County, Georgia. His body was found on August 18 in a creek near the Flint river by a group of fishermen. He had been shot to death by three men for whom he worked. Walker is said to have known too much about illegal whisky traffic.

LEGAL PUNISHMENT FOR LYNCHING. During the week of March 16, Greenville County, South Carolina, paid to the estate of Willie Earle, lynched in that county in 1947, the minimum sum of $2,000 as compensation under a South Carolina law providing for such payment.

On April 4, in the Calhoun County, Mississippi, Circuit Court, James Moore, age 20, white, was found not guilty in the slaying of Malcolm Wright, Negro, near Houston, Chickasaw County, Mississippi, on July 2, 1949. Moore claimed self-defense. Wright was a well-respected tenant farmer in that area.

On June 28, in the St. Clair County, Alabama, Circuit Court, Charlie Carlisle, Jr., 24 years old, white, was sentenced to five years in prison for his part in the slaying of Charlie Hurst of Pell City, Alabama, on February 22, 1950. He was later released on a $3,000 appeal bond. Three other men indicted for the same crime were released on a $5,000 bond. Another person was tried and cleared.

On September 7, in the Meriwether County, Georgia, Supreme Court, Warner Hannah and Jack Dunn drew life sentences and Herbert Dunn was given three to five years in prison for the slaying of Jack Walker, alias Jack Kendall, also known as Clinton Walker, Negro, of near Gay, Meriwether County, Georgia, on August 18, 1950. The three men, all white, had entered pleas of guilty.

On November 3, John Wallace, white, was electrocuted for the slaying of William (alias Wilson) Turner, a 26-year-old white tenant farmer of Meriwether County, Georgia, in 1948. Three other men are serving life sentences for their part in the crime.

LYNCHINGS PREVENTED. Lynchings were prevented in at least seven instances—six in the South and one in the North. Of the persons saved from mobs, three were white and four were Negroes.

Must Fight With Truth

We cannot fight propaganda with arms. We must fight it with truth. Enactment of effective FEPC legislation will do more for American foreign policy than all the statements about democracy made daily in our newspapers and propaganda organs.

Gen. George C. Marshall.

RAPHAEL KONIGSBERG

FREEDOM IN THE DAILY NEWS

So much has been said and proved in recent years about the dishonesty of newspapers in these United States that it is almost inconceivable any grammar school graduate believes the myths about "freedom of the press." Certainly the four FDR elections proved that little respect Americans have for their newspapers.

What should give us cause for concern, however, is the fact that few of us recognize clearly the active part the press plays in the whole machinery of repression and destruction of our civil liberties. The press is not an innocent, impartial bystander in the struggle between democracy and fascism.

It is a fighting and willing participant in the subversion of American democracy—which it pretends to safeguard. (Something like a cobra "safeguarding" a lamb.)

A lesson in how the press is used to destroy free government is provided by the experience of the French people. In World War II France fell in less than a month to Nazi hordes. We know now that one of the major reasons was the years of sabotage by the French press, whose publishers had sold out to the Nazis, and used the press to promote Nazi ideology and to disarm the French people intellectually (yes, and spiritually) for the battles ahead.

Similarly, the role of the press in our country is to prepare the public mind for a more-ready acceptance of police state measures. Or, more accurately, to condition the public mind so that the people will not protest and resist fascist advances. This the press does both by the sins of commission and omission.

By unending propaganda for reaction and by betraying its solemn duty to keep us informed and arm us with the truth, the press does its dirty work. By deliberately misinforming its readers and by deliberately failing to inform them about the things they should know to be the well-informed citizens without whom democracy anywhere cannot long survive.

A Case In Point

A current situation which illustrates the inter-relations of the various arms of reaction, and how the press eagerly perverts its mission, is the treatment by the Los Angeles press of the arrest and detention of four local residents for deportation—David Huyn, Miriam Stevenson, Harry Carlisle and Frank Carlson.

Here is a case where fascist legislation, the McCarran Act, is being used in an attempt to deport from the U. S. four good people who because of their services to their fellowmen would be a credit to any nation—while outright Nazis are welcomed to the USA and Truman embraces bloody fascist Franco.

Now, to begin with, if the press were fulfilling its responsibility to its readers, and to its self-announced dedication to the preservation of democratic ideals, would it not have fought against the unconstitutional McCarran Bill? But the press fought for this anti-democratic bill. It lied and continues to lie about the law's provisions and objectives.

Secondly, assume for the sake of discussion that the press made an honest mistake about the McCarran Bill. Wouldn't you think that an honest press would keep the people informed about how it is being administered, and change its opinion when it found that the law was being used only (thus far) to hound progressives from the land, to intimidate all who protest at what is going on in the nation today? Have you heard of any Ku Kluxers or traitorous profiteers being hounded?

And when Americans want to **buy space** to tell their neighbors what is going on, to perform the duty the press is supposed to be doing, the **newspapers refuse** to sell the space—as happened a few days ago when the Los Angeles Daily News refused to accept an ad urging readers to write and ask the immigration authorities to release David Huyn, Miriam Stevenson, Harry Carlisle and Frank Carlson—good people who are being deprived of their freedom.

Thirdly, wouldn't it be reasonable to assume that even a negligent press, if only to keep up some pretense of its claims to fairplay and "freedom of the press," would open its columns to all Americans on an equal basis?

What a foolish question. Of course not. For a press (or radio and movie industries, or the school system, for that matter) that is so deeply committed to the anti-democratic conspiracy being engineered by the economic royalists to whom they have sold out (as did the French publishers) and of whom they are an integral part, will not and cannot be concerned any longer with the pretenses even to lip-service to the "ideal" they have discarded.

For they think "der tag" for which they have been preparing is about to dawn . . . and they shall reap theirjust reward.

POTPOURRI

U. S. MUST GAIN CHINA FRIENDSHIP

CHICAGO — American foreign policy must be shaped so as to view China as a vital friend, says former Vice President, Henry A. Wallace.

He contended that Asia was inevitably headed toward "tremendous agricultural reforms, and industrial expansion. She will not long remain subservient to those who help her, whether it be Russia or the U. S. She will learn what they have to teach and follow her own path. It is essential that long-range United States policies in the Far East, be shaped to meet the rising demands of the Asiatic peoples.

SAN FRANCISCO—The Veterans of the Abraham Lincoln Brigade will hold a mass meeting on Friday evening, January 5, at the auditorium, 150 Golden Gate Avenue, in San Francisco.

The Lincoln Veterans' spokesman stated that the recognition of Spain and our loan to Franco is part and parcel of a pro-Franco campaign which has been carried on for a number of years by a small but powerful minority in this country. This same minority has temporarily succeeded in repealing or emasculating progressive legislation while imposing repressive laws of doubtful constitutionality on the American people.

ANCIENT CISTERN FOUND

JERUSALEM—Pottery from the first Jewish Kingdom to the Herodian epoch was discovered when excavators opened an ancient rockhewn cistern in the northeastern corner of the Church of the Nativity in Bethlehem.

According to reports, the cistern corresponds far more to the "David's Well,, mentioned in the Old Testament than the cistern in western Bethlehem, which is usually claimed to be the historic well. The close connection between the cistern and the Nativity grotto tended to confirm the tradition that the grotto was a subterranean stable. The cistern has seemingly been untouched since the Roman destruction of Bethlehem in 70 A.D.

Make The Rule Work Both Ways

As the new Congress meets this month, hopes are being held that perhaps it **may** do something about civil rights legislation. We have been waiting a long, long time for something to happen along that line.

But there is very little hope anything more will be accomplished in 1951 than there was in 1950, or 1949. The bottleneck is the silly rule in the United States Senate that a member of the senate may talk as long as he chooses on any subject he chooses. In that way—a feature of our government that brought disgrace more than one time in our history—good legislation has been talked to death. The FEPC is one of the most outstanding victims of this rule.

Even the attempt to change this rule has been filibustered to death. The suggestion has been made, however, that some of the filibustering be done by the other side as well as by the Dixiecrats. The resolution that would limit debate **could** be adopted if the progressive forces in the senate—not too strong, but nevertheless strong enough to work miracles if they are united—would definitely decide they are fed up on such childish tactics as talking forever for no reason at all but to prevent a vote on a certain piece of legislation. If these progressives would insist a vote be taken, and would filibuster, too, when opposing forces wax eloquent, peaceful legislation and legislation that will work for the benefit of the citizens of America, and of the world, could and would be adopted.

Let the filibusterers against peace, against civil rights, against the admission of Hawaii and Alaska as states into our family union, talk themselves to death, if they want to. (Statehood for both Hawaii and Alaska has been opposed on the theory that their representatives in Congress might vote for FEPC!)

Let them talk until they drop from exhaustion. When they do that, the little group of progressive Congressmen can and should step in then and demand a vote be taken on ALL the liberal measures ever proposed in Congress, and killed again and again by a "little group of willful men." And they should keep on talking until they and the American people get what they want. It's a poor rule that doesn't work both ways.

LETTERS TO THE EDITOR

(Excerpts from a letter to the Board of Supervisors, the City Council, and the Press by Charles D. Wherry.)

Gentlemen:

I note that the Supervisors have approved a state park, but I say let's have those MUD streets in Watts paved. Those streets are in the city, I have been told. The matter was referred to the City Councilmen of the District. These are the streets named Parmalee, Success, Antwerp, Santa Ana Blvd., near Alameda, from Wilmington and from 108th running to East Imperial Highway.

I delivered mail for the Post Office Dept., Special Delivery, some time ago, and I found these streets to be in a very bad condition here in the city limits, and using the taxpayers' money to build parks and playgrounds in other parts of the city is not at all right. I have asked to appear before the City Council to tell of the great needs for the Eastside area, and I have been refused. I don't know why.

I know that some of the boys that are in Korea today have families living on the mud streets today. Central Ave. from Manchester should be paved to the sidewalk. The churches are fronted with dust, and on Imperial school children have to walk in the mud on their way to and from school, no sidewalk at all.

Our National Affairs

I read in this morning's papers where President Truman frees ex-FDR aide. This man was sentenced to 2 years in prison for ballot box stuffing in Bourbon County in the state of Kentucky. He was sentenced last July 14, the Press said, but now he is free. He was in 5 months, and the colored Lieut. Gilbert was given 20 years in prison at hard labor at the orders of the President. When I sent a letter to President Roosevelt I had an answer in a short time, but now I never get an answer.

The Roosevelts always came to the needs of the people of the world. But those in the White House today don't care.

CHARLES D. WHERRY.

To the Editor

Sir:

There was a reference in one of Mrs. Eleanor Roosevelt's recent columns to an interesting discussion with four distinguished guests from Asia, all of whom agreed that, while the United States had contributed many valuable ideas to their part of the world, it would be well to stress the fact that Asia could help us from the point of view of the spiritual things of life.

That the surviving GIs in Korea are grasping this idea the hard way is made unmistakably clear in the following excerpt from a letter from one of them: "There is no doubt about American superiority in material goods—from aircraft to wrist watches—so maybe it is natural that we have assumed the role of educating the world. However, my experience here convinces me that we should trade even, rather than try to impose BOTH our goods and education on these people. They need the goods all right, but it is **we** who need the education."

Sincerely yours,
MARY PHILLIPS,
Lemont, Illinois.

LABOR ON THE MARCH

By the Staff

A Labor Front, similar to that built in Germany by Big Business and its stooge Hitler, is being created in the United States.

It is being built in the same way—through legislation passed by a Congress and a President controlled by money interests; and the chicken-hearted eagerness of many top level so-called labor leaders to be "respectable" and to perpetuate themselves in soft jobs.

Use of legislation to cripple and destroy unions which still continue to fight for the membership is growing, and everyone who seriously analyzes the labor-busting campaign is alarmed.

Legislation designed to destroy free trade unionism, and which is being used for that purpose every day, includes the Taft-Hartley law, the Magnusson Act, the McCarran Act, the Levering Act in California, the Los Angeles city and county Communist" registration ordinances.

This legislation in most part works through so-called "loyalty" provisions, but its effect is to knock off militant leaders of progressive unions.

Looks at the record. Have any so-called leaders of right unions been molested or affected by these laws? Have the Greens, the Meanys, the Reuthers, the Murrays been touched by these laws? They have not.

Instead, whenever there appears a leader who fights for wages, hours and working conditions, and who believes that union members have a right to have an independent voice in the government—then the government, on all levels from city to national, tries to crack down.

The Taft-Hartley Act did more than any one piece of legislation to destroy the trade unoin movement. Every union in the country opposed its passage, even though the rightwing unions were only "fighting with their mouths."

As soon as it was passed, the holier-than-thou right-wingers broke their necks to comply, and took that as a green light to start raiding non-complying unions instead of organizing the unorganized.

After a bitter fight against the right-wing, the government, and the employers, those non-complying unions were forced to sign the "non-communist" affidavits, in order to be able to continue a fight for wages and conditions. Their refusal to comply was not because the unions were Communist lead or influenced, but because the rank and file realized the danger of letting the camel get his head in the tent.

The Levering Act and other state so-called "loyalty" oaths were aimed directly at unions of public and civil service workers. Their leaders, who had been elected by the rank and file and who had led hard and bitter battles for increased wages for this most under-paid group of workers, were labeled "Red," and workers were forced to sign "loyalty" oaths to hold their jobs as street cleaners and as teachers. Many stuck to their principals and refused to sign the oaths—not because they were Communists, but because they refused to allow their constitutional rights to think and speak freely to be invaded. Qualifications to be a teacher in the University no longer were based on experience and on scholastic ability, but on the person's willingness to swear that he was "loyal."

The "subversive registration" ordinances of Los Angeles city and county have been declared unconstitutional by two judges. Persons who have held offices in Communist party and who have run on the Communist ticket for political office were released. Who is still under arrest and who faces trial?

One labor leader, Gus Brown, who has led a fight that won Los Angeles furniture workers the highest wages and best conditions in the industry in the nation, Gus Brown, arrested in a bitter fight with employers and with a raiding union, has signed the Taft-Hartley affidavit—though under protest and without admitting that the government has a right to inquire into his political beliefs or associations.

The McCarran Act, the great-grandson of the Alien and Sedition Laws, has been used to deport and to threaten with deportation only the leaders of militant unions that fight for the interests of their members.

Right-wing foreign-born leaders in the CIO and AFL have not been molested. They will not be molested as long as they continue to go down the line of little or no wage increases, no political action except to back the old-line two-party system, and as long as they continue to be "respectable."

The Magnusson Act is aimed directly at the militant waterfront unions, the Marine Cooks and Stewards and the Longshoremen in particular. Through the Coast Guard "screening" process, in which the accused has no chance to face his accuser, or even to know the particulars of accusations, men who have worked on the water-front all their lives are refused their jobs.

Look through the union affiliations of those who have been "screened" off their jobs—are there any members of Harry Lundeberg's Sailor's Union of the Pacific? Or of the AFL Longshoremen's union?

A few rank and filers who have dared to get on the floor and oppose policies of entrenched leadership in a couple of the right-wing waterfront unions have been screened off jobs. And when they take their beef to their union, and where else are they to take it, they are told that since they have been screened off, they must be disloyal and therefore they have no voice in their own union.

This is the way the Labor Front was built in Germany. It's the same pattern.

The hope for the American working man and woman, though, is that the militant unions are not taking this lying down, and there is no assurance that those who want the Labor Front will be able to complete its building.

The rank and file of American organized labor has too long had a voice in the affairs of its union and of the nation. At the moment, many of the rank and file are beginning to wake up to the perfidity of their leaders, and here and there we see revolts break out and the boss-loving leadership dethroned.

We'll see more of it as time goes by.

NAACP Secretary Cites Gains In Civil Rights

NEW YORK—Some of the most far-reaching gains ever made in the field of race relations were attained during 1950, Walter White, executive secretary of the National Association for the Advancement of Colored People, said in a report submitted at the Association's annual meeting in the Willkie Memorial Building, 20 West 40th Street, held last Tuesday.

However, he warned, "we face one of the most difficult legislative struggles in American history in the 82nd Congress, where Dixiecrats and conservative Republicants are already ganging up on civil rights legislation. If those forces of darkness succeeed, then the colored peoples of the world may have their last hope of democracy destroyed, because they will not believe that the United States can place democracy above color prejudice."

The gains made last year, Mr. White said, had been won at greatly increased costs, and had also stimulated "a new respect of bigots for the Negro's struggle for freedom." Groups, like the Dixiecrats, which formerly disdained the Negro's effort to secure his constitutional rights have "become more devious in their methods because they now respect those who fight against bigotry, especially since the notable victories won in the United States Supreme Court during 1950," he asserted.

These Supreme Court decisions smashed the color line in higher education in the South, Mr. White said. As a result, approximately 1,000 Negro graduate and professional students have attended state-supported universities in the South from which they were formerly excluded. Segregation of Negro passengers in southern dining cars has been banned by a decision of the Supreme Court. As resistance continues in some states, the fight for complete equality must be continued and stepped-up, the NAACP leader asserted.

"For forty-one years the bulk of the struggle has been carried by the Negroes themselves," Mr. White declared. "It was significant to note that in Ambassador Warren Austins' report to the United Nations on the progress of human rights in the United States more than sixty percent of the specific gains cited were won by minorities, and especially by the Negro. This progress, if properly publicized and continuously accelerated, is the most important means of lessening anti-white feelings in Asia which is one of the chief reasons why Americans die in Korea.

"It is for this reason that the work of the NAACP is vital to the best interest and the continued existence of every American irrespective of race, creed or color." the NAACP official continued. "If the people of the United States awaken to this truth in time, the democratic way of life can be saved. If they do not awaken, Asia, Africa and Latin America may turn in despair to Russia because they have lost faith in the United States for its failure to prove as well as talk about democracy.

Like looking forward to the visit of relatives, we looked forward to the holidays. With the same sigh of relief at the departure of the same relatives after they have overstayed their visit, we are HAPPY the holidays are over, before our health is completely beyond repair.

Believe us when we say that never was a set of holidays more enjoyed than Christmas Nineteen Hundred and Fifty, and New Years, Nineteen Hundred and Fifty-one. But it is a wonderful feeling to know that BOTH are over with the chance to settle down to every day tasks looks good once more. Of course in a few weeks with sleep caught up on and systems set right once again, the urge to go will be upon us, but nothing can equal the Holidays. Hospitality took on a new high.

Delta Sigma Theta Sorority held their annual White Christmas Tree Formal at the Avodon Ballroom and it was one of the prettiest dances we have had the pleasure of attending this season. It was a gala old home week gathering of all the folks you knew and hadn't seen in ages. The women were gorgeous and the men impeccable in their full dress and tuxedos.

Our hostess (and she has been every year since we were a Delta pledge) Ida Lee Harris and her Harry were greeting friends on all sides and extending the seasons greetings to Marge and Harold Smith, Sadie Louise and Dewey Davidson, the David Williams, and Ouida holding up her end of the best dressed women title, simply stunning; the George Grays, Eula Dean Roby (that girl never seems to change and always has the cheeriest greeting of any one we know); Doctor and Mrs. P. Taylor Arthur and Thelma Houston, Don and Julia Walker, Gertrude Gipson and Elledge Pendland (rumors sure want to have these two wed, but Gert says not yet!), Melvin Dennis and his madam whom we haven't seen in years, and so many more wonderful people we would be tearing our hair out to try and remember. Oh yes, had run teasing Paul Hughes and Theo Washington looked like something that they assure us was not; the Persil Lewis' from Santa Monica, but enough not quite. Hazel Washington, Thelma Meigs, Elmer Anderson. (Hmmmm!)

Sammy Franklin furnishing the never ending good music.

J.L. and Argralia Faris had a wonderful little cocktail party before the dance for a few of her club members (Zenith's) who were attending the dance. Enjoying the cozy apartment were Sherman Waters, Spud and Evelyn Cummings, Eula and John P. Earl, Lonnie White and company, and of course your reporter. After the dance they all decided to see if we could make biscuits and so on to our place for the rest.

There were many before and after parties on the night of the Delta Dance.

Sunday evening Smorgasbord at the William Pages, read the invitation. It was wonderful. Althea had about forty of her friends in to say "Hello" and "Happy New Year." The out of town guest list read like the "who's who" in the traveling set: Robert Moton, Jr. Tuskegee Institute, Frank Wright, the printing instructor in that same establishment, Mrs. Lloyd Isaacs, also from Tuskegee, enjoying the California sunshine; Mr. Eddie Dove, Math teacher at Berkeley Junior High, Berkeley, California; Larry Pierce, Berkeley, Calif.; Gladys Wells, Mexico City, Mex.; E. M. Brown, San Mateo; Milton Simon, down from the north with his pretty fiancee, Susan Smalls, to meet the family. He is a member of the Simon Clan, and brother Elwood and his Cordelia were on hand to welcome the prospective new member to the family. Ellen Whitley from as far as Washington, D.C. and a Mrs. McCarthy from New Orleans, made up the out-of-town guest list.

Mentioning the out-of-towners and Washington, D. C. in the same breath, we had a chance to say "Hello" to Eleanor Simpson, home for the holidays from Howard University. Eleanor certainly looks good these days with her very short hair cut and the new figure. Of course we all know she is the daughter of Herbert Simpsons, former owners of the Personal Laundry and Linen Service.

Did we say that Clara Fentress was stunning as usual at the Sunday night supper at the Page's?

La de da but the Infantry Chorus is in town, that is the De Paur Infantry Chorus. George Marshall was doing a little Pop calling at the home of Mabel Hunter, and has promised to come over on their return to town. The Chorus will be round and about the local scene until the middle of January when they will be off for parts far away. Don't fail to hear these marvelous voices if you can.

Infantry reminds us that we certainly had fun at the Officers Club Party given by the 6th Engineer Combat Group of the California National Guard, given at the Torrence Manse this last Sunday evening. Captain O. N. Armstrong, Adjt. Major O. Flowers, Jr., the handsome commanding officer (that's strictly a female point of view, he must have more than that on the ball); Capt. S. L. Armstrong, Intelligence; Capt. U. S. Maxie, Jr., training officer, and Lieutenant C. Clark, supply officer, are the men who head this healthy batch of uniformed pulchritude. Saw Maggie Hathaway, Marian Williams (keeping an eye on her Lieutenant Reggie Williams), Mouse Collins told us that there will be good news soon and to keep an ear peeled for same; and of course Irene Torrence, the lady of the house who has a heart as big as a whale.

Margaret and Irving Cheatham entertained their mother, Mrs. Queen Edwards, who has been out on a two-month visit from New York City with a Christmas buffet for twenty-five of their friends. Enjoying the hospitality were: Thelma Cooper (we only see her now and then and we have promised to go and visit SOON); Sentry Marshall; Hilda Marshall and her mother, Mr. and Mrs. S. Pender; Mr. and Mrs. Herman Moore; the Tom Colliers (she is the everlastingly stunning Zera) and the rest of the guests list. Some time we wonder how we will ever keep up with all the lovely people who go into the social pot-pourri.

Let's don't forget to thank the fine man who cooperated so nicely in helping us to get talent for the Christmas Party, Mr. Leo Davis of the Musicians Local, nor can we fail to give Florence Cadriz Brantly a vote of gratiture. Elmer Fain and Baron Morehead, along with Paul Howard, whom we are happy to see back on foot again after an operation, are a pleasure to deal with.

Please don't forget to send me a title for the column. Just mail it into the office of the California Eagle, care of Wini Orr, Social Editor.

We intend to get started with our Club Calendar right away. We want all the clubs in the city to send in their tentative dates for affairs and if they conflict with other events scheduled for the same date we will let them know. All Clubs will receive notes, but meanwhile sorta post your own that this little Calendar is on the road. Might help to avoid things like two or

Eastside • Settlement • Notes

The Mother's Club of the Eastside Settlement House in conjunction with the California Eagle sponsored a very successful party for the youngsters from the ages of three to sixteen.

Held at the Central Recreation Center on East Twenty-Second street, the party began at three in the afternoon and lasted on thru the early evening until eight o'clock, with both age groups having a wonderful time. There was skating in the dry swimming pool, before dark, and then dancing and playing in the gymnasium.

It was quite a sight to see the boys race in the empty pool on their skates. Those who seemed to enjoy the sport so much were: Carl Smith, Gerald White, Robert Bates, Leon Frye, James Bates, Paul Anderson, Frank Moore, Charles Bates, all fellows in the age range from ten years to sixteen. It seemed to this writer a wonderful way to keep the kids off the streets.

At the afternoon party (for the really young fry) there was close to three hundred kiddies. And at the evening party, for the 'teen-agers' another hundred.

Deepest gratitude is offered the Arden Ice Cream people for the eight units of Diced Cream that were donated; the Peratone Produce Co. for the oranges by the crate; and one wonderful benefactor who insisted on remaining annonomous, but who the kids can't fail to remember each time they buy some of the very good ice cream confection hereafter; and the Bishop Candy company for the five hundred candy bars they sent.

It was an education to see the deaf children from Foshay and Manual Arts High School enjoying themselves just as much as the other young people. There were seven in the group that were under the guidance of the Adult and Parents Educational Group, one of the Eastside Settlement House projects. Their ages ranged from thirteen to fourteen years, and all were Junior High School students. These young people were: Sylvia White, Sarah Saterfield, Robert Johnson, Theodore Saterfield, Ruby Marie Smith and Joyce Ann Patillo.

Since we promised to name a few of the other young guests, who were having so much fun, here are a few we met: William Barth, Reuben Anderson, Jr. Kelvin Jones Jr., Robert Curry, Harry Reeves, William Coleman, and Robert Ryals. Naturally with curiousity being at its highest, and the news getting around here was a newspaper reporter in their midst, we were rather stampeded with the names.

The Mother's Club of Eastside Settlement House is certainly due all the encouragement in the world, and we hope that with the next effort to entertain the many youngsters at the Settlement House, we will have much more help. However we feel that a big beginning has been made and with the help of the California Eagle, next years Christmas party will be a much bigger affair.

Mu-So-Lit Club

The Mu-So-Lit Club held its business meeting at the residence of Mr. Lyman Starks, 1637 East 23rd street. The meeting was opened by singing the Negro national anthem.

After business the club was served a delicious repast. Mr. Starks was assisted by Mrs. Bessie Miller.

The Club held its annual banquet and Christmas party at the Sojourner Truth Home, 1119 East Adams Blvd. At eight o'clock the members and guests sat down to a sumptuous turkey dinner. After dinner Christmas carols were sung, and an interesting program was rendered.

Everyone gathered around the beautiful Christmas tree and received a gift. Visitors were: Rev. Sue D. Kinsey, Mmes. Ruth Gatos, Sadie Jefferson, Marian Davis, Dorothea Champion, Stella Morrell and Pauline Butler, Mr. and Mrs. Frank Trigg of Chicago, and Messrs. Wiley C. Allen and David Dudley.

(Continued from Page 5)

banks of the Colorado River Christmas week end, when Sgt. H. A. Phillips of Willowbrook, California was refused service threatened with bodily harm and ordered out of Fay's Cafe in Phoenix, Arizona, while enroute to Williams Air Base near there. Fay's Cafe is located at 26½ 2nd Ave., directly opposite the city hall, police and sheriff's department in the court house and county building at Phoenix, Arizona, where discrimination in eating places against Afro-Americans has long been a festering sore, and where jimcrow has been fastened even on the elementary school system of the state. Two Afro-Americans were recently arrested in Phoenix and put on trial for requesting service in a downtown restaurant. Both were servicemen who had seen action overseas.

When Sgt. Phillips politely asked Mr. and Mrs. Fay why he was refused service, Mrs. Fay now in the last stages of pregnacy became violent threatening not only police action from across the street but attempted to lay hand on the victim who ordered her to "keep hands off or lose them."

Because of the lack of civil rights law in Arizona, which was first founded by the Spanish Negro explorer Esteranico long before master racism asserted itself there, Citizens of Phoenix have banded together to ask Carl Sims, newly elected Afro-American Legislator to introduce a civil rights law with teeth in the coming legislature. The color line in Phoenix has grown notoriously more since the end of World War II.

Sgt. Phillips, who has travelled extensively on important missions stated that as a result of the incident his morale has been lowered knowing that only in South Africa and in our hearen resaned land such a fake "free world" institution as color line master racism is tolerated. He also stated that it is his belief that the color line in Arizona and elsewhere unless supressed will eventually cost a world situation, with which the Fays and other deslish unmeowers will not be able to cope on a changed earth now roaring onward into the radiant dawn of full equity and justice for all mankind.

—A Friend

Mrs. Charlotta Bass
Los Angeles, Calif.
Greeting:

The Negro Art Theatre wishes to extend to you a most happy New Year.

Our membership wishes to report that we have decided to do three one act plays as our next production. Two of the plays have been selected and are now in rehearsal. The play reading committee is now busy reading other one actors to find a third play to balance our program which we hope to perform the latter part of January.

Our treasury remains intact. At present we have exactly $1,164.25. We hope to further enlarge our treasury and be in a position to start buying our own theatre in the very near future.

Meanwhile a committee has been searching the community for a theatre to perform our next bill. So far our committee has investigated a number of movie theatres, arenas and auditoriums but as yet has not found a suitable place. The greatest obstacle to date has been the exorbitant rentals demanded. However, we are still searching.

It has been suggested by members of the advisory board that in order to defray expenses for our next production, we should concentrate strongly on a benefit show. This is most feasible at the moment and is one of the items which is to be discussed at the next advisory board meeting to be held Monday, January 8th at Miss Laura Slayton's, 1919 South Harvard, at 8:00 p.m.

Sincerely yours,
Negro Art Theatre

Dear Mrs. Bass:

On hearing so much of your good work that is in line with me, I feel we should get acquainted. So I am thus writing you, and sending you some of my writings. They will explain my situation and desires.

I have always been a true friend to the colored people. During the 52 years I have lived in Joplin, I have twice volunteered with firearms to defend the colored in race riots. Though it cost me hardships and financial loss, I am still crusading for equal rights for all peoples of the world.

Cordially,
S. A. OTT

(One of Mr. Ott's articles will be found in **The Nest** in this issue.)

Dear Friend:

May we extend our most cordial and sincere Season's Greetings.

Peace on earth and goodwill to men is not merely a holiday appeal; it remains as the hope and main objective of all mankind.

Letters from two young people in France to the Martinsville Seven follow. Others have been published in **The California Eagle** previously.

ST. GERMAIN EN LAYE.
James Hairston

Dear Friend,

We learnt with indignation of the unjust accusation, of which you and your six comrades are victims.

Please believe that we in France are not duped by the false press directed against you seven which for the racists is just a means of attaining their ends.

All over France, great Peace campaigns are being organized to resist the threat of war. Many of our youth are arrested, one for refusing to fight against the colonial peoples in Indo-China, another for stopping the dispatch of munitions.

So you see, despite the distance which separates us, we have the same ideal—Peace.

you, American friends, and we

We proclaim our solidarity with shall be among the first to engage in any number of actions for the abolition of all racist laws.

Long live Peace and the equality of men.

Fraternal greetings.

NICOLE EDERICH,

Howard Hairston

Dear Friend

A young French girl sends you her fraternal greetings and hopes that these few lines will bring a ray of sunshine and hope in that dark and dreary prison, where men without honor, with only a pile of gold coins for a heart, have hurled you and your comrades. Thus they think they can stifle your voice, but prison walls, land or sea, can do nothing against the voice of Peace and innocent people. The heart of a young girl cannot remain insensible and is revolted by such a shameful and unjust verdict.

My voice, together with that of young girls all over the world, will force a retreat by these servants of a rotten regime, based solely on terror, which also plunders and burns mercilessly in Korea and in Indo-China. Everywhere faced with the growing forces of the Defenders of Peace, their rage and war hysteria are proportionately intensified.

We shall release you, and the racists will yet withdraw again. The men and women of all races, and all countries, will lay low this poisonous beast, so that Peace and justice may triumph.

A special greeting for you from France, Howard, and for your six comrades.

SUZANNE D'HEUREUX,
22 Years Old.
Le Pecq, France.

Dear Mrs. Mass,

This is Ike, one of the Progressive Youth. I had the honor of driving for you one day. And also the privilege of helping put a "Bass" sign on every corner in the 14th. We were so busy on the corner posts and dodging the police that we never did get around to putting the signs in stores.

I am here in Holdridle now. A small town where I lived almost all my life except for the brief period in Boston, Ariz., the Army, and a few years in Los Angeles. . . . I want to write. Poetry and leaflet writing are what I have done. . . . Now I am writing poetry. If the poems are suitable, if they have any human richness in them, if they are politically correct for your paper, I ask that you would extend them to the audience of **The California Eagle.**

Sincerely,
IKE SANBONMATSU.

(Two of Mr. Sanbonmatsu's poems are given in the **"Nest,"** that section of the **Eagle** dedicated especially to young writers. We shall let our readers decide whether or not they have "human richness in them, if they are politically correct.")

GERTRUDE GIPSON

(Dedicated to my readers)

'Twas the night after Xmas, and boy, what a house!
The stockings weren't hung by the chimney with care—
The darn things were sprawled on the back of a chair.
The children were nestled all snug in their bed,
But I had a large cake of ice on my head.

And then at last, I dozed off in a nap,
But the ice woke me up when it fell in my lap.
While visions of sugar-plums danced in my head.
somehow got up and then back to bed.

Then the old devil whistled and shouted with glee
While everything looked lopsided to me.
Then the names that I heard all made me shudder, I felt
like a ship minus a rudder.
'Now Egg Nog! Bacardi! Four Roses and Brandy!
Now Fruit Cake! Cold Turkey! Gin Rickey! and Candy!

'm sticking to water, don't even want ice,
'or there's nothing as tasty or nothing as nice.
The night after New Year may bother some guys,
But I've learned my lesson and brother I'm wise.
'ou can't have your rich victuals, and liquor that's red,
o what goes to my stomach, won't go to my head,
o a big Happy New Year to you and to all;
'm back on the wagon, and I hope I don't fall!

Ink Spots Set Record At Capitol

NEW YORK CITY—Bill Kenny and his Ink Spots celebrated the holiday season by headlining the stage show at the Capitol Theatre on Broadway and smashing all previous Christmas day records at that vaudeville mecca. It is axiomatic in show business that Christmas day is the worst business day of the entire year for all forms of entertainment, so it was a great tribute to the drawing power of the Spots when the theatre put up the SRO sign for the entire day.

Since the opening day the Ink Spots have turned in sell-out houses at every performance and have proven to be show stoppers at every show. From opening note to closing note, Bill Kenny and the Ink Spots are greeted with a clamor of applause that could break the needle on any applause recording machine.

Cancer Funds

Memorial contributions of over $12,000 have been received during 1950 by the Los Angeles County Branch of the American Cancer Society, it was announced by Dwight L. Clarke, in an end of the year survey of activities.

Clarke, who is president of the local county organization, explained that the Society received funds contributed by 1142 families and friends of persons who died from cancer.

Richmans Visit Singing Star

HOLLYWOOD.—The Harry Richmans are in Hollywood from their ranch near Reno to be the house guests of the Tony Martins for two weeks. After visiting the "Two Tickets to Broadway" set at RKO Radio and watching Tony rehearse a dance routine with Janet Leigh for the Technicolor musical, Richman remarked, "Now I've seen everything."

HATTIE NOEL'S NEW DISC A RIOT—HATTIE NOEL'S latest recording "UP WITH THE SKIRTS AND DOWN WITH THE PANTS" to be released soon, is said by record critics to be the funniest waxing in recording history.

Dinah Washington Opens at Birdland

NEW YORK — America's foremost female recording artist, the undisputed Queen of the Juke Boxes and one of 1950's outstanding performers in the entertainment field (Ruth Brown being the other); charming and lovely, delightful Dinah Washington, Mercury recording artist, opened at Broadway's Birdland on Thursday, amidst kleigs, celebrities and pomp. Singing a number of new tunes and many of the old favorites that she zoomed to top rating in her lustre manner, Miss Washington also offered her own arrangement of "I Love You." That one, fellers 'n' gals, is Hit Parade bound.

Percy Mayfield Sizzles On Road Tour

Riding the crest of juke box popularity, Percy Mayfield and his orchestra are enjoying phenomenal successes in Texas, Oklahoma and Louisiana, where they have been playing a series of one-nighters.

Percy's hit records, "Please Send Me Someone to Love" and "Two Years of Torture," are all the advance billing he needs.

Fans have fairly mobbed him at dances and record shops where he autographs copies of his hit songs.

Percy turned 'em away in Houston and Oklahoma City and his appearance in Shreveport on New Year's Eve all but precipitated a riot.

HOLLYWOOD.—Favorite nickname for Jane Russell used by her mother, four brothers and intimate friends is "Daughter." It was adopted when Jane, who costars with Robert Mitchum in RKO Radio's "Macao," was seven and her brothers began to arrive. Her husband, Bob Waterfield, always addresses her as "Jane."

Timmie Rogers Hits Miami

Timmie Rogers sailed into the Celebrity Club on Miami Beach last week and rocked the patrons with his patter and chatter to such a show stopping extent that the management of this popular Miami Beach nitery is now negotiating to hold the ebulent comic over the entire season. This tremendous reception more than justifies the management choice in offering to patrons for the first time, a Negro comic-emcee in the heretofore forbidden area of the beach resort. Timmie's success was a needed shot in the arm to Negro show business and once again vividly proves that an entertainer is as good as his talents regardless of race, color or creed.

Since Timmie's debut in Miami beach area has been echoing with Timmie's surprise tag line, "Oh yeah," which is already the byword in the Harlems of New York, Chicago, Philadelphia and every other large city.

Darnell Tops On Regal Records

With four hit records to his credit, singer Larry Darnell proved to be the best-selling artist on Regal records during the past year, an official of the firm reported. The tunes he turned out that lifted him to the top were "Get Along Somehow," "For You, My Love," "My King of Baby" and "Oh Babe."

Specializing in the blues and rhythm field, Regal ranks with the biggest in the nation. Following closely behind Darnell was Paul Gayten, veteran bandleader, and Annie Laurie, singer.

Pay Your Christmas Seals

"If payment for your 1950 Christmas Seals wasn't on your list of New Year's resolutions, it should have been."

That message was addressed to some 250,000 Los Angeles County families today by Kenneth Hartzell, secretary-treasurer of the Combined Christmas Seal Fund of the Los Angeles County Tuberculosis and Health Association.

"Each year, a number of folks receive and use Christmas Seals, but do not send in their checks or money orders until after the holidays," Hartzell explained. "This year, at least a quarter-million families fall into this category; we hope, before the middle of the month to have heard from nearly all of them. "Although we now have $411,000 of our $500,000 goal, there is no reason we should not reach the full amount."

Checks or money orders should be mailed to the Combined Seal Fund, Box 5735, Metropolitan Station, Los Angeles 55, he said.

The Magnificent Yankee

All major studios by this time of the year have released the picture they deem the most likely contender for the much coveted "Oscars."

Metro-Goldwyn-Mayer just previewed "The Magnificent Yankee," starring Louis Calhern and that wonderful actress Miss Ann Harding.

Now whether or not the "Magnificent Yankee" gets a look in as the "best" story, it's going to be awfully tough to overlook the "best" acting of Mr. Calhern as the sagacious Oliver Wendell Holmes. More than just mention is going to have to go to Emmett Lavery for his beautifully written biography.

It's a story about two people who have carved indelible niches in the law history of these United States. We say "two" people because for fifty-four years Fannie Bowditch was the more or less constant wife and companion to Justice Holmes and her influence was a major thing in his life.

This is another of Metro's "for the entire family" pictures. This major studio is to be commended for the pictures placed before the public in 1950 such as the marvelous "King Solomon's Mines," "The Red Danube," "Annie Get Your Gun," and the hilarious "Father of the Bride." Not only have these afforded good entertainment, rare color photography, and excellent casting, but have shown a discriminating taste in the choice of script.

Now with the release of the "Magnificent Yankee," Metro closes the year and makes the running quite rugged for the other contenders.

Star Was Church Singer

HOLLYWOOD. — Dick Powell's career was launched when his singing voice in a Little Rock, Arkansas, church choir attracted widespread attention and he became much in demand as a soloist. He doesn't sing in "Cry Danger," an Olympic Production for RKO Radio, but must keep a tough, relentless quality in his voice.

SPIKE JONES and his 1951 Musical Depreciation Revue will be seen at Philharmonic Auditorium for two performances January 16 and 17. All of the favorite funsters of the troupe will be with the company.

John Wayne Spurns Double

HOLLYWOOD.—John Wayne, who never asks anybody to do anything he wouldn't do himself, is refusing a double for scenes in which he fights a plane fire with a hand extinguisher and dives head-first into a water-filled foxhole in Edmund Grainger's RKO Radio "Flying Leathernecks."

5 IN A ROW, SHALL WE MAKE IT 6?

Not being an expert on the profound game of football I can only observe, listen to and quote the more learned gentlemen who follow the game much more closely than I do.

But after doing so and after watching Michigan hang the fifth straight defeat on the Pacific Coast Conference by a Big Ten team last Monday in the Rose Bowl, two things have become most apparent to me.

Art Lewis

First, the country's best football is played by the members of the Western Conference, sometimes called the Big Ten. This becomes more and more apparant each year.

Secondly, it is time to give someone else a try at gaining a victory for the west. Cal has thundered and blundered through three seasons now and still there is no Rose Bowl victory. If they are lucky enough to come through again next season perhaps they should play the visitor's Freshman team and let some body else play the varsity. Or perhaps we should do as one scribe (Jack Geyer) suggested . . . put a clause in the pact . . . a Santa "Clause" and GIVE the PCC at least one win because it doesn't look like they'll get one any other way.

COAST SCHOOLS ARE NO WORSE THAN BEFORE

The Coast schools, after being below par during the war years, are today no worse than they were prior to the Big Ten tie up. The only reason that they did not get licked so frequently in the past was that they were not playing against the Big Ten champion.

The Southern and Eastern schools that they were playing against were hot and have not been in the same class with the Big Ten for years. In all probability if Cal had been playing Southern schools in the bowl for the past three years, they would have chalked up decisive victories. Perhaps they would have thundered and blundered against Oklahoma, Kentucky, or Tennessee also had one of these come out this year instead of Michigan but at least they would have been playing in their own class. Those three teams are in Cal's class because they also played comparitively soft schedules. Soft that is in comparison with those played by Big Ten schools.

Therein may lie the principal reason behind the Big Ten superiority. All of the schools are large and play tough games EVERY Saturday.

ONLY FIVE BIG SCHOOLS IN PCC

There are, by comparison, only five really large schools on the Coast. They are Stanford, UCLA, Washington, SC, and California. The other four, Idaho, Oregon State, Washington State and Oregon, are smaller and actually offer little competition to the others. In fact these schools combined have been to the Bowl only five times in the thirty six games and three of these times was in the first six games.

It would therefore seem that if we are to have a strong champion out here, he must play a strong schedule . . . tough games EVERY Saturday. But to do a thing like that is virtually an impossibility since it would almost mean breaking up of the Conference and that isn't very likely to happen. However, strong outside teams could be squeezed in from time to time.

Maybe the big five so called, should join the Big Ten. Then they'd never lose in the Rose Bowl. They'd never get there.

GREAT MICHIGAN BAND DIDN'T NEED THE MINISTREL ACT

There was no comparison between the highly improved Cal band and the Michigan band. The Michigan band out-stepped, out performed and out played the California band from here to Ypsilanti.

But why did they have to come out before those 99,000 people with a minstrel act number? Eight band members came out in black face and pranced and danced like buffoons. This was very much out of taste. Black face comedy should remain entombed in the past. There is no place for it here today.

The Cal band and football team can join with the rest of the PCC members as they pray and hope . . . and say "maybe next year we'll win or maybe the next, or the next, or by 1980 anyway we hope.

Baby Face Jones Meets Herman to Re-open Olympic

Freddie Herman, pal and stable mate of Art (Golden Boy) Aragon, will face Harold (Baby Face) Jones, Detroit southpaw, in the first show of 1951 at the Olympic Auditorium—that will be Tuesday, January 9.

Herman finished his 1950 season at the Olympic on December 5, with a surprisingly strong effort against John L. Davis, the No. 1 contender for the world lightweight crown. In fact, had Freddie been able to save some of his energy for the closing rounds, he would today be the lightweight champion of California.

Freddie started off like a whirlwind, taking the first two rounds by big margins; at the end of the sixth round, the half-way mark, he was well ahead on the points. It looked as though the major upset of 1950 was coming up.

In the closing rounds, Davis staged a desperate rally to grab the verdict and retain the state title.

But the fight established Herman as a definite threat for the crown in 1951—and a threat for the California title, these days, is tantamount to threatening the security of Ike Williams on the world throne.

According to reports which seem well-authenticated, Williams is willing to defend his world title against Aragon here sometime in March, despite the fact that Davis defeated Aragon last summer.

Harold the Baby-Face met John L. Davis twice last year; he lost the first fight, defeated Davis in their second meeting at Detroit on August 8th. In his only meeting with Freddie Herman, last year, Jones suffered a solid defeat at Hollywood Legion stadium.

On The Turf

By GEORGE A. RAMSEY

CALIENTE, Old Mexico—Nearly 9,000 lovers of the sport of kings were on hand for the grand and gala re-opening of new and beautiful Caliente last Sunday. All the new improvements amazed the fans, the new American tote board, the beauty of the infield with the imported geese in the rolling lakes surrounded by the blades of green grass and many flowers was a beautiful picture for the fans.

People from all walks of life were on hand, many of the outstanding jockeys and trainers

GEO. A. RAMSEY

were down from Santa Anita pulling for little Willie Shoemaker to break Walter Miller's record of 388 winners established 44 years ago.

Although little Willie tried with all his mounts the best he could do was to tie the record. Also the fans were given the results of Jockey Joe Culmone who was riding at Oriental Park, Havana, Cuba. As you know by now, they finished in a tie. Both riders had 388 winners.

The feature handicap was won by the longshot He Kuene with the second choice Cuffie finishing second. The winner paid in the mutuels $54.80. The daily double backers of Haste Call, winner of the second race, and Forever After, victor of the third, received $97.60, while the quinela paid $12.60 when the favorite, Bust Out, was first, and Stepin Cacaw finished second.

This Sunday General Manager Walter C. Marty has another fine card of 12 races lined up for the fans. The feature will be the New Orleans at one mile and 70 yards. The secondary, "The Coral Gables" at six furlongs. The future book on the Santa Anita Handicap had plenty of action. The largest bet of the day was $200 on Blue Reading, a 100 to 1 shot.

SANTA ANITA—Alfred G. Vanderbilt's classy little filly, Bed o' Roses, is about the best filly ever to show in the west. She fairly flew over the seven-furlong route to catch the fast-running Special Touch.

Going down the back stretch she was next to last. She began to move when her jockey, Eric Guerin, called upon her and under hard urging came under the wire for the pot of gold by two lengths, paying as the public favorite $4.90, breaking the track record of 1:21 4-5. Her record was 1:21 3-5.

Gold Capitol made a show of his field in the $50,000 California Breeders champion stakes. Laying close to the pace set by Patch, Jockey Ralph Neves gave the son of imported Alibhai his head turning into the home lane and the race was history. Gold Capitol will be the favorite for the derby.

Opening day's handle was $1,424,820. The attendance was 27,000. This Saturday, Jan. 6, the Santa Catalina Handicap for four-year-olds and up will be the main event. It carries an added value of $50,000 and for California breds. The distance is one mile and one-eighth.

A full field is expected to go to the post for the rich event and the winner will be hard to pick. There will be no racing Tuesday, Jan. 9, but racing will resume on Wednesday, Jan. 10.

Good Breakfast

A good breakfast will help you ward off fatigue and headaches and keep your body in good condition. Dr. George M. Uhl, city health officer, said this week.

And by a good breakfast, the health official said he meant one that provided one-third the body's daily requirements.

To show what to put into a good breakfast his department has published a leaflet called "Start Your Day With a Good Breakfast." It is free, he said, to anyone dropping a post card to the City Health Department, 116 Temple Street, Los Angeles 12.

ROY ROGERS "KING OF COWBOYS" AND TRIGGER

Roy Rogers And Trigger In Pro-Bowl Half-Time Activities

Roy Rogers, the "King of the Cowboys," and his famous horse, Trigger, will feature the greatest half-time show in football history at the first annual Pro-Bowl Game in the Los Angeles Memorial Coliseum, Sunday, January 14.

Rogers accepted the invitation of the Los Angeles Newspaper Publishers' Association, who is sponsoring the game for charity, to lead a gigantic 20-minute "Western Roundup" with over 2500 performers.

"This is a chance for Rogers' thousands of fans in this area to see him and Trigger perform as well as watch the greatest group of football players ever gathered for a single game in action," said Paul J. Schissler, the general manager of the Pro-Bowl Game.

The Pro-Bowl contest will be a game to determine the champion division of the National Football Conference, with 31-man squads selected by coaches, sports writers, and fans representing the American Conference and the National Conference.

L.A. Golf Tourney Open to All Races

Opening field for the 25th Los Angeles Open Golf Tournament, Jan. 5-8, Riviera Country Club, has been expanded to 150 players, according to sponsoring Los Angeles Junior Chamber of Commerce officials.

"As a result of contract negotiations with the PGA, the Junior Chamber has added the 64 low qualifiers of the PGA Championship match to the 1951 exempt list," Chairman Hugh Cameron announced.

The addition will result in an exempt list of this year's tourney totaling 122 players.

"In order to keep the door open for players of all races, colors, and creeds, Junior Chamber officials felt that the balance between professionals and amateurs and non-PGA members should be continued as in the past—therefore the starting field has been expanded to 150 players," Cameron said.

Prarie View Bowl Game Ends In Tie

The nation's only Negro bowl game ended in a deadlock Monday as the Bishop and Prairie View College football teams battled to a 6-6 tie.

The teams were evenly rated at the game's start with Bishop holding a 7-3 record for the season and Prairie View a 6-4 record. Both lost to Southern and Langston, two of the top Negro teams in the nation.

Bishop had beaten Prairie View earlier in the season 13-0.

S. C. Basketeers To Oppose Bears

Second place finishers in the Southern Division for the past three seasons, SC's basketball team makes a determined bid for the cherished first spot in a red hot PCC race getting underway this weekend.

The Trojans, who have warmed up impressively against early opponents, engage California's potentially strong Bears this Friday and Saturday nights at the Pan Pacific auditorium. Game times are 8:30 p.m.

Last winter, Coach Nibs Price's Golden Bears had the pleasure of belting Troy out of a tight chase with UCLA's Bruins, so the Trojans will be bearing down this week. They have won nine out of ten games played thus far.

The games will be dedicated to the late Justin M. (Sam) Barry in the way of appreciation for nearly 20 years of service to the University.

Over all time, Price's Cal clubs have been the most troublesome in the Southern Division for SC. Last year's series split at two games apiece maintained California's edge at 54 wins against 49 losses.

Billy Hagler, switching from forward to center, is the hotshot among the Golden Bears. Unimpeded by the elbow injury that plagued him last season, Hagler has returned to his sophomore form.

A new star has risen among the Trojans, who have passed around high scoring honors in a liberal fashion. He is Bruce Bennett, who became the fifth SC player to lead individual scoring this year by popping for 17 points again Washington State.

Preliminary contests between the SC frosh and Trojan jayvees and Fullerton JC will precede both Friday and Saturday nights at 6:30.

Your Host Runs

Your Host, that is building a reputation of being one of the greatest California horses of all time, has been nominated to start in next Saturday's $50,000 Santa Catalina Handicap at Santa Anita. It is billed for the State Championship at 1 1-8 miles. On Trust, Moonrush, Pedigree and Blue Reading will also be prominent among the thirteen named for the event.

Willie Bean Unavailable

Willie Bean, Los Angeles boxer, has been listed as "ill and unavailable" by the recent bulletin from the California State Athletic Commission. He is unavailable for an indefinte period due to injured eyes.

Harlem Globetrotters Head West With 63 Straight Wins

CHICAGO (Special)—Moving into the 1951 portion of their current campaign with 63 consecutive victories registered, basketball's great Harlem Globetrotters will write new headlines during the month of January.

Having taken the middle west and east by storm since starting their twenty-fourth annual campaign last Oct. 27, the Trotters' great "East" unit of Goose Tatum, Marques Haynes, Ermer Robinson, Babe Pressley, Bill Brown and others are heading westward for an imposing stretch of games.

Their itinerary first calls for appearances Jan. 5 at Cincinnati Garden, Jan. 6 at Owensboro, Ky., Jan. 7 at Kansas City Municipal Auditorium, Jan. 8 at Chicago Stadium and Jan. 9 at Kiel Auditorium in St. Louis. Then the Negro cage wonders head for games at Pueblo, Colo., Jan. 12; Denver, Jan. 13-14; Logan U., Jan. 16; Salt Lake City, Jan. 17; Ogden U., Jan. 18 and Reno, Nev., Jan. 19, before moving into California for their regular annual tour of the Golden State.

If they gallop through their intervening games without defeat, that Ogden tilt on the 18th can mark another outstanding milestone in the saga of the wonder team. The Trotters would be gunning for their seventy-ninth victory of the season that evening, which would also be No. 3500 for their all-time record up to that point.

Moreover, the Globetrotters' west unit of Duke Cumberland, Ted Strong, Ducky Moore, Tom Sealy, Bobby Milton, Boid Buie, Sam Wheeler and other aces—formed five years ago to make a place for Trotter cagers returning from World War II and so proficient and widely-received that it has been continued in action—will visit Alaska for a series of games.

On their 1949 invasion of Alaska, the Trotters made history when they played 14 games in five days, many of them at army bases.

Sportscript

By Young Frisco

Ezzard Charles, the world's undisputed heavyweight champion, has been named "the boxer of the year," and where they were when Sugar Ray Robinson, the world's welterweight champion, was winning bouts with such frequency that extra editions had to be rolled off the presses is something else again. . . . Jersey Joe Wolcott's defeat by Rex Layne was the ring's biggest upset, that is, if you want to discount the futile comeback of former heavyweight champion Joe Louis. . . . Then, too, Sandy Saddler won the rubber match thereby annexing the title from Willie Pep, and that one is slated to go a fourth round. If Pep should regain his lost laurels, I suppose the fans will have to be called upon to witness another sensational fisticuffs between the pair. And it might go on into eternity. Who knows?

With the turn of 1951 it looks good on paper for dusty athletes. In track competition, pro, collegiate and amateur cinder path stars lead the field. . . . In baseball, just when everyone had thought perhaps he'd be sent down the river to the minor and, perhaps, back to Negro baseball, figures were released indicating that Hank Thompson, of the N. Y. Giants, is just about the best third baseman in the majors—bar none. . . . It will be interesting to watch Monte Irvin, first sacker of the Giants, this season. Toward the tail end of last year he was wham-a-laming the old apple. I predict that Irvin will be up there among the fence busting group. . . . Basketball? C.C.N.Y. to again win the three titles. . . . In pro football, the Cleveland Browns had it. They should repeat. But be sure to keep an eye on the Los Angeles Rams, N.Y. Giants, and Philadelphia Eagles. . . . Notre Dame should hit back in collegiate pigskin competition. And don't overlook "the new Navy eleven." . . . Hill Prince in the flesh—horse racing, that is. . . . We'll stick our chin out next week and give our selections for major league baseball. We always have luck in picking the correct tail-enders. (Pun).

George Anderson Newly Installed President of the Popular Quakers

The cozy newly purchased home of Mr. and Mrs. Tiny Moore served as the setting for the well planned annual Installation Party of the popular Quakers Club. Organized over five years ago as a Social and Charity club, this organization now boasts of one of the largest memberships in the city.

With members and guests enjoying a feast fit for a king or gourmet delight, the installation took place immediately after dinner.

Eagle Theatrical Editor Gertrude Gipson did the installing with new officers taking oath reading as follows: George Anderson, president; Mr. Bennie Wilson, vice president; Mrs. Charlottie Glover, recording secretary; Mrs. Vernice Robinson, ass't. secretary; Mrs. Arizona Moore, corresponding secretary; Mrs. Grace Boyd, treasurer; Mr. S. P. Johnson, Jr., Sergeant at Arms; Mrs. Frances Brown, reporter; Mr. A. B. Sawyer Critic, and Mrs. Goldie Moore Chaplin.

Mr. George Anderson, the club's capable president, stated that each year members of the Quakers accept some large charitable propect and work untiringly for its success.

Birth of Nation Banned

SAN FRANCISCO. — Following protest by the National Association for the Advancement of Colored People and the San Francisco Ministerial Alliance, Paramount Pictures has withdrawn the objectionable film, "Birth of a Nation," from exhibition in this city.

The film, an old picture which presents a vicious stereotype of the Negro American and at the same time glorifies the Ku Klux Klan and attempts to justify its existence, was withdrawn after NAACP West Coast Regional Director Franklin H. Williams asserted that its "public presentation is odious to a decent community."

Baha'i World Faith

"WHY THIS WORLD UPHEAVAL" is the subject on which Mr. Charles Wolcott will deliver his lecture at the public meeting of Baha'i World Faith, to be held at Los Angeles Headquarters, 331 South New Hampshire Avenue, on Sunday afternoon, January 7, at 3:30 p.m.

These are days of titanic spiritual struggle. A new world is coming to birth. As the old one passes, in passion and violence, have no regrets. Be thankful and radiant, confident that the shining day of human brotherhood is here.

Hear the Word of Baha'u'llsh: "The time fore-ordained unto the peoples and kindreds of the earth is now come. The promises of God, as recorded in the Holy Scriptures, have all been fulfilled. Out of Zion have gone forth the Law of God, and Jerusalem, and the hills and land thereof are filled with the glory of His Revelation. Happy is the man that pondereth in his heart that which hath been revealed in the Books of God, the Help in Peril, the Self-Subsisting. Soon will the present day order be rolled up, and a new one spread out in its stead."

PEKING—The world's largest telephone line now links Peking with Moscow. The citizens of the two capitals began to send messages over this 12,000 kilometer line on December 12.

Jesse Perdue, War Veteran,

Jesse Oscar Perdue, son of Mrs. Belle Perdue, 1364 East 55th Street, died at the hospital for veterans at Sawtelle on November 30 at 5:10 p.m.

"May you find consolation in the knowledge that he served his country and died honored and respected by all of us," wrote R. A. Bringham, manager of the hospital, to Mrs. Perdue.

The Lieut. Col. James M. Beck, Post No. 2651, Veterans of Foreign Wars, of which Mr. Perdue was a member, adopted a resolution extending their heartfelt sympathy to Mrs. Perdue, who is the organizer of the Ladies Auxiliary of the Post No. 2651. "This Post has lost a valued friend and true comrade," states the resolution. "The loss of Jesse Perdue is irreplaceable."

The Knights and Daughters of Tabor, International Order of Twelve, represented by D. D. Holmes and Mrs. Holmes, also offered "heartfelt sympathy" to Mrs. Perdue "in this your hour of bereavement."

"Only God, our Creator, who knoweth all things and who does all things for the best can assuage your grief and give to you the comfort needed to sustain you in your bereavement," wrote Mr. and Mrs. Holmes.

This young veteran who gave his life for his country leaves a host of other friends in addition to those of his Post 2651, those he made in the hospital, and those he made with his mother in the Post Auxiliary. They will miss him, as well as the members of his family and his relatives.

Christian Sc. Text

The Ten Commandments and the value of keeping them daily will be discussed Sunday in the Bible Lesson on "God" in all Christian Science churches.

THE LAST RITES OF MRS. LUCRETIA THOMAS, Thursday, Dec. 28, 1950, from the Zion Hill Baptist Church at 51st and McKinley Ave. Mrs. Thomas was the mother of Mrs. Hazel C. Chambers, the wife of Rev. Timothy Moses Chambers, the pastor of the Zion Hill Baptist. Mrs. Thomas was the wife of the late Rev. T. C. Thomas who pastored the Independent Baptist Church of Ennis, Texas, after her husband's death in 1941, she went to Dallas, Texas where she joined her son-in-law and became an ardent worker in the Good Street Baptist Church which was pastored by him. When he was called to pastor at the Zion Hill she came to Los Angeles, California, with him. Her death was a shock to all her friends although she had suffered for a long period from heart trouble. She was the mother of four children, two boys and two girls. The eulogy was delivered by Dr. C. Sachel Morris, her funeral was the largest held at the above church. The Avalon Funeral Home was in charge, and she was interred at the Lincoln Memorial Park.

Special New Year's Services At Wesley

All the services at Wesley Methodist Church on Sunday will accented the New Year. At the morning worship, 10:50 a.m., Dr. E. W. Rakestraw, pastor, spoke on the subject "The Untrodden Way." His vesper message was taken from the topic "New Life for a New Year."

Music at both services was furnished by the Chancel Choir under direction of Jules Haywood, Minister of Music; J. W. Sanford, organist, presided at the organ. Buell Thomas, tenor soloist of the Chancel Choir, was soloist at the morning worship. Holy Communion was administered at morning worship and vespers.

Protest Meet

Carey Williams, attorney and author of "Witch Hunt," "Prejudice" and "Brothers Under the Skin," and The Reverend Emmer E. Engberg, chairman of the Pasadena Committe for Democracy in Education, will be key speakers at the Troupers Club auditorium, 1625 N. La Brea Ave., tomorrow night, Jan. 5, under the auspices of the Arts, Sciences and Professions Council.

They will analyze and discuss the repressive McCarran Act, the police state law whose repeal is being demanded by labor organizations, cultural and professional groups, church leaders and members and fighters against discrimination and for FEPC.

Mrs. William Dieterle will chair the meeting, also featured by a request repeat performance of "Conceived in Liberty," dramatic production with actors from the Field Theater of ASP.

McWilliams, former California Commissioner of Immigration and Housing Guggenheim Fellow and Past President of the National Committee for Protection of the Foreign Born, will outline actions toward McCarran bill repeal.

"The present fight against the hated McCarran law is in the best tradition of American democracy," McWilliams said today.

He recalled the people's wrath against the British- hated Tea Tax imposed by Great Britain, the people's fight led by Jefferson for repeal of the repressive Alient and Sedition Laws of 1789; the wide - spread revolution against the infamous Dred Scott decision that helped fire the Civil War.

The Reverend Engberg, pastor of the Messiah Lutheran Church in Pasadena, and president of the Lutheran Welfare Council of So. California, will stress infringement of the McCarran Act on basic freedoms as guaranteed in the Bill of Rights and the Constitution.

"No one should be lulled into false security by the fact that the government has moved first against the foriegn-born," Sarajo Lord, executive director of the ASP, said today, urging wide attendance at tomorrow night's meeting and broad demand for the bill's immediate repeal.

General admission to tomorrow night's meet is 75c, 50c to 1950 members of ASP memberships will be accepted at the meeting.

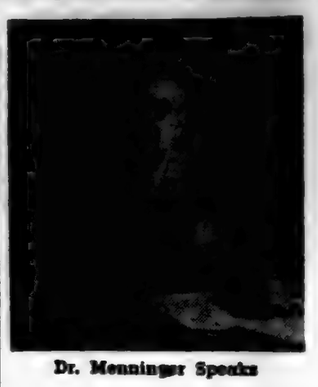
Messiah at Bowen Meth.

Hendel's **Messiah** was rendered last Sunday afternoon at Bowen Methodist Church in an atmosphere of interchurch co-operation. Singers from seven different church choirs co-operated with the Senior Choir of Bowen Church and Nell Plant, their competent director, in rendering the historical oratorio before a large audience drawn from the same eight churches.

Margaret Pett of Second Baptist, and Jean Keele of Bowen, were the soprano soloists. Armanda Nelson and Gertrude Salone of Bowen sang the contralto solos. Frank James of Provident Baptist was the tenor soloist; Oscar Plant of Bowen was the bass soloist; Erma Treasville of Wesley Methodist was the pianist, and Ray Spite was at the organ.

The Bowen Choir, with help from Hamilton Methodist, Zion Hill, New Hope, and Provident Baptist choirs, was very effective. Their rendition of the "Hallelujah" chorus at the end brought the oratorio to a thrilling close.



"Both the fine performance and the interchurch co-operation were a compliment to the hard work and foresight of Nell Plant, who directs the Bowen Senior Choir," commented Rev. John Bain, pastor of Bowen, after the program.

My Concept of Truman's Peace Plan

By S. A. OTT

I listened in disgust, to Tru-nans' radio plea, for everybody o cooperate with him, in his world war for world peace—Now it's really pit-ful, the way he i s deceiving the millions of sincere peace lovers.

Of course he is sincere—But what kind of Peace is he asking you to assist him in acquiring? It must be re-nembered, there are two kinds f peace—A piece of pie—a piece f cake or of property. That's the ind of peace the Truman Wall t warring faction is asking you o help them to acquire. Yes a najority of peace of every essen-al of life we have. Reducing us o sorrows and slavery unto our hird and fourth generation.

Ve millions of peace lovers don't want the Truman kind of peace. Ve want the peace, be still. The eace that's calm — free from ear, want and worry. Free from igh taxes, to carry on unjust, ruel wars. Do you get such free-om by granting Truman's re-uested sacrifices?

Can't you see there is some-hing seriously wrong in our ivilized customs? Why are so nany millions of sincere people o blindly decoyed to their de-truction? I know the cause of ur deplorable condition. And I now the remedy. However I and helplessly alone—87 years f age, not a known living rela-ve. My only income, Old Age ension. Have been keeping ouse and living alone for over 0 years. I have no recollection f a parent, a brother or sister. know not who my parents were r their names. My first, and sad ecollection, was when a covered agon came along and a man icked me up where I was play-g with a little girl, put me in the wagon and drove away. They roamed for many months and settled in the wilds of N.W. Iowa in the early 70's. So I never had a chance of school. There were no schools there. At the age of 14 I ran away from the Otts at night, in the early May. Bare-footed and no coat. Not a cent of money and no place to go. My only refuge that night was with an outlaw in the lonely hills of Iowa.

Had I the money and educa-tion that some of our peace lov-ers have I would in twelve months acquire a lasting peace for all peoples of the world. Or if some person or persons with money and education will join me, I will tell them how. The way is sure, it's simple, it's easy, and costs less than one atom bomb.

If, while traveling along life's mundane journey, there be any kindness or good I can give to any human being, I will give it NOW. I will not defer or neglect it, for I may not pass this way again.

Life holds no blessing like af-fection. Its sole purpose is to wait, and watch and to help in every time of need. Earth has none else that can supply its place. Gold is Vanity. Void is Ambition and Wealth, an Empty Glitter, without Affection—Love.

For the above was I born. And its welfare will I ever live and work.

PEN PALS CORNER

By BARBARA ANDERZA

Kids . . . have ya heard the news? Yep, that's right Made-lene Hemper and Frank Arnedo have tied the knot. Ain't that swell? Just in case you'd like to, maybe, talk to her and get a few pointers on how she did it, you might call RE. 3-2818. . . . Went to the Conaty Dance last Wednesday nite. The little belle of the ball was Ophelia Craw-ford. In her beautiful white for-mal with that lovely smooth brown skin of her, why she stole the heart of just about every male present. . . . I imagine you are all simply thrilled to death that school has reopened. Keep up your spirits kids, June is al-most here. . . . You know some-thin, I'm gonna ball that Creeper out, he didn't even give me a scrap of news. . . . Ronald Clark you had better pick up, Bar-bara's gettin' kind a fed up with you. . . . Audrey Springs has now declared herself free, boys. Nope, I ain't gonna tell ya her number, but you might call Carl Yarker, LO. 6-7002. I'm quite cer-tain he knows it. . . . Know some-thin, kids, I'm just nutty about that ole boy Reynold Burbank. Ain't that somethin? . . . This week I received quite a few calls about that Hunter Hancock or-deal, and according to the re-sponse, just about everyone agreed. In case you didn't get a chance to read last weeks col-umn, I'm referring to the vulgar-ity shown in one of the shows of which he was master of cere-monies. . . . Tip Bailey is trying to rob the cradle. Ask him about it. She's only about 12 years old. . . . Found out from an authentic reference that Beverly Guano and Johnny Semanna are about to reconciliate. . . . Ain't seen Bill Thompson in a long time. If he's dead, he could at least send me an invitation to his funeral. . . . Wilma Belle and Victor Clark are really gettin' chummy. Vic's in Japan ya know, and she, if I'm not mistaken is in Frisco. What's that ya say? Mary Wal-ton, yes her heart still belongs to Nat. . . . Gals, your lashes will really flutter when you see Landry Du Pree. I'm tellin ya, he's really the pebble on the beach. . . . According to Donald McAllister, no girl could love him half so much as he loves him-self. Of course, he still claims Nellie is the apple of his eye. . . . Last week I made the wrong guess about Joan Southern's age, it's eighteen instead of seven-teen. . . . Just wondering how Gwynne Burris is getting along. . . . Caught a glimpse of Francis Fort, during the Christmas vaca-tion. That gal is really on the ball. . . . I don't mean to be spreadin' scandle, but if you had seen Loraine Mouton and Elmer Matt last Wednesday nite, you would be shocked out of this world into the next. There were just thousands of chairs, but no not that. Loraine had to sit on his lap. That's only half of it, you can well imagine what the rest is like. . . . Say buddies, how many New Years resolutions have ya made. Remember, the more you make the more you break. Why not make one and try to stick to it. I have a pretty good idea for one. Let's all try to do our very best work everyday in school. We won't try to live by the year, but just by the day. Try it, it seems much easier. . . . Saw Opal Wright last week, not with one but with two boys. Greedy little devil huh? . . . Haven't heard from Frank Pitts in a long while. Spose he's still livin'.

LOVER MAN

He's a Manual graduate, 25-year's-old, 6 ft. tall, 187 lb., black hair and olive complexion. He's on the Pro-Football team. Now, ain't that swell. You want to know his name don't you. Well, I'll tell you at the end of the column. Don't be a stinker and peek.

LOVER GIRL

Her name is Miss Cecilia Edith Lyons. She's one of the most pop-ular girls at Conaty. I'm tellin ya she looked like the fairy queen at the Conaty Christmas Ball. Her escort, Allen, of course. For her measurements, your guess is as good as mine. Because she has those darling dimples, and is plumb full of personality, she'll go a long way. .

Walter Thompson is a dream of a boy. Has a terrific voice and I even have his phone num-ber. It's RE. 3-9391. Call only between 2 and 4 as he is a workin man. Forgot to get his age.

Lover man's name is Woodly Miller.

Well, ain't got much this week, chillin, but I'll see ya next week.

CE. 2-9822. Barbara

Dear Barbara:

Sorry I haven't written in a long time but I've been busy. Well I have some news for your next column.

Ophelia Crawford is trying to make another play for Arvey Lyans. What's Jewelle Hardy go-ing to say this time?

Why is it that Lare Hamilton can't get any boys out at Dorsey?

It seems as if Shirley Alex-ander and Paul Bruce have gone back together after a slite quar-rel.

Why is Ethel Carrere still hanging on the corner talking to Kinnie Price? Doesn't she know he goes with Juanita?

The 3 play girls Shirley Iruine, Vivian Robinson and Shirley Alexander sure looked sharp downtown Tuesday. It's a wonder that they didn't have a crowd of boys following them as usual.

Quite a few boys are saying how well they like Vivian Robin-son in that grey jersey dress, and Shirley Alexander in her Christ-mas suit. Especially with a hat an!

Well that's all for now.

Wife of Mayor of Seoul in Address

On Friday morning, December 15, the students of Morehouse College were visited by Mrs. Ki Poong Lee, wife of the Mayor of Seoul, Korea, who addressed them in Sale Hall Chapel.

The distinguished South Ko-rean visitor is director of the Lit-erary Department and Professor of English literature at Ewha Women's University, located in Seoul. She spoke to the men of Morehouse about the work of this school and about her coun-try. On the latter subject, Mrs. Lee stated that the much-talked-about 38th Parallel which divides South Korea from North Korea is an artificial, militarily im-posed division which, since 1945, has established a cleavage be-tween a once homogenous people who would like nothing better than peace and unity and who have the same language, cus-toms, and traditions.

IPP for Rent Control

The Jefferson-Western Club of the Independent Progressive Party submitted a letter to city, county, state and national offi-cials urging reinstatement of rent controls, strengthening of agencies charged with enforce-ment of rent control legislation to enable them to deal adequate-ly with any existing violations and inequities, and initiation of a program for building low-cost housing free of any restrictive covenants.

The letter was inspired by re-ports from residents of the 63rd CD in Los Angeles of rent in-creases ranging up to 100%. The area is one in which there is a large number of low-income families and members of minor-ity groups. It was felt that per-sistence of the differential be-tween supply of and demand for adequate low-cost housing war-rants retention of rent controls.

The letter was sent to Mayor Fletcher Bowron, Councilman Don Allen, Councilman Vernon Bennett, Councilman Geo. F. Cronk, Supervisor Raymond Darby, Supervisor Leonard Roach, Assemblyman G. Delbert Harris, and Congressman Gordon McDonough, all of whom repre-sent residents of the 63rd CD.

A-W Hospital Comm.

Formation of a business and industrial committee to aid in raising funds for St. Augustine-Westview Hospital was an-nounced last week by Postmas-ter Michael D. Fanning, chair-man of the hospital board.

C. B. Tibbetts, president of the Los Angeles Steel Casting Com-pany, will head the committee. Other members are: Joseph G. Gorman, vice president of the Los Angeles Transit Lines; C. M. Fitz-gerald, district superintendent of the Juliman Company; Harry G. Johansing Jr., insurance execu-tive, and E. T. Foley, Pasadena businessman.

The new committee, the Post-master said, will urge large busi-ness and industrial organiza-tions to set up subscription drives for the hospital.

St. Augustine-Westview Hos-pital will be built at 5334 South Main Street. It will be the city's first non-profit, non-sectarian, inter-racial hospital.

Poem to My Negro Brothers and Sisters From an Asian-American

Hunger, our hearts, for dignity.
Conflicts incurred lost liberty.
Wounds we tend, remain in our minds.
Tears that flow lie like rope and chain.
Our fight for peace and decency
Bind us together, my Negro brothers.

Your Robeson I love as I love our Mao.
For your people I feel a warmth as deep.
Your culture,
Your songs,
Your history,
Like ours they glow.
They link us together, my courageous brothers.

Shots through the window, lynchings and riots,
Flames engulfing our hopeful dreams,
Mass jailings, mass beatings, mass slaughter by
Police of the State. Blood flows and gleams.
These are much alike to us,
So it unites us more with every blow.

To show our kinship further,
Call our Asian brothers
Who like our African brothers
Lived enslaved for centuries.
Now struggling,
Now fighting,
Now revolting,
Victorious,
Crushing the forces of tyranny!

Oh, let them know—they who oppress and exploit us,
Inseparably united
That we, Asians and Negroes,
Throughout the world,
To victory,
To glorious revolution
Go onward!
IKE SANBONMATSU.

TOMORROW

Look at my nephew,
Innocent,
Warm with love, joy and laughter.
Happiness of two years,
Beautiful!

Look at our tomorrow.
Socialism,
Brotherhood,
Equality.
Filled with warmth.
Happiness and laughter,
Beautiful and abundant.

See him dance!
Hear him voice joys yet unheard!
Singing, building socialism!
IKE SANBONMATSU.

Margaret Sheridan New Find

HOLLWOOD — Howard Hawks, who is producing "The Thing", (from another world) for RKO Radio, believes Margaret Sheridan may become a comedienne of the Carole Lombard type. Although Margaret plays a straight dramatic role in the Hawks picture, she has shown between scenes a remarkable flair for lighter acting.

McKinley Boy Scouts Meet

The initial meeting of the McKinley District Committee of Boy Scouts presided over by Mr. Jeffre B. Roberts, district chairman, wa sheld Dec. 14, at the home of Mr. Edgar Bishop, district chairman of activities. The District Committee was installed the previous week at the annual meeting featured by an address by Judge Turney Fox, presiding jurist-elect of the Superior Courts and a vice president of the Los Angeles Area Council of Boy Scouts of America.

Officers present: Bob Kelley, Director of Field eSrvices; Robert Willis, district executive; John T. Johnson, chairman of Organization and Extension; Brady Carpenter, District Commissioner, and members at large Marvin Stallings, Raymond Miller, Arthur McNeely, and John Moreland who assisted in the initial planning for the district program designed to carry Scouting to more than 1,000 boys on the East Side of Los Angeles.

District Chairman Roberts announced that recruiting of qualified volunteers to fill remaining vacancies in the organization would continue and that training programs had been set up for the volunteers.

He pointed out that reservations for the annual meeting program of the Los Angeles Area Council, January 22, 1951, were limited. The Council President, John K. Northrop, announced that General Jimmy Doolittle had consented to be the principal speaker.

Resolution Unchanged

I am a television set dialing to you.
When I am talking—
When I am walking—
When I am thinking—
When there are tears of joy in my eyes . . .
When sadness is a wingless bird brooding on my shoulders.
I am ever dialing to the colors of your moods—
The vermillion warmth of your anger moving me to love in defense.
The oranges and yellows of your joy—
Revealing the high spirits in your voice
With the gladness of bells ushering in the New Year . . .
The greens and green-blues of your moods—
As when you are sleeping—
Or in moments I am unable to fathom your thoughts . . .
And the blue and violet hues that pour
From the Spring of your mind—
In soft, calm and soothing streams of
Comforting words and restful phrases—
Massaging my thoughts—
When they are tense and worried.

Yours truly,
L. S.

Xmas at Val Verde

The Los Angeles County Department of Recreation at Val Verde Park played host to the entire community and its children by presenting a very successful Xmas play and program.

Santa, in the person of Mr. Ed Myres, was present to give out candy in stockings, fruits and nuts, and various gifts; no child in the community was neglected. The play of the Nativity was offered with sound effects and symphonic musical background.

Co-sponsoring this gala event was the Val Verde Improvement Association under the capable leadership of Mr. Phillips (S. T.) and the Los Angeles County Adult Education Group. This event was coordinated and directed by the Recreation Director of that area, Mr. L. Perdue.

Heat of August

By CARCON NONPAREIL

I was walking down the street in the hot August afternoon. The sun was blazing down upon the asphalt streets. I reached the corner where the old man was selling newspapers. He was no more than five feet tall. Age-hardened, dry, and glazed skin. White. Eyes blue, burning in intense color. Clothes: a blue shirt and striped necktie. Dirty. An old tweed coat even in the heat, once green, turning brown. Dirty. Baggy trousers, an apron of brown canvas. Clean. An armful of newspapers. Calling out headlines in the heat of late day. There were wrinkles in the old man's face. He wore a greasy, spotted felt hat. I could not see his hair, but I suppose that it was changing colors, from grey to white maybe.

I started to cross the street, got half way and turned around, going back to buy a newspaper from the old man. "A **News,**" I said, and he gave me the paper. I handed him a dime, and he turned back to my hand three pennies change. He looked at me.

Up, down, my face and my eyes. My skin. He looked down at the sidewalk, quickly. He looked at my shoes. Unpolished. Holes in them where the stitching had broken loose. I had no way to explain to him that these were my old shoes, the worst ones that I owned, shoes that I wore only to work. And what kind of job? A very bad job that I detested every minute. But why should I explain anything to this old man?

He looked at my khaki trousers and T shirt. He chuckled. Casting his blue, burning eyes at my face, he chuckled at me. I thought: What is wrong with this old bastard? Why does he laugh at me? I bought a paper from him.

Old Man, "You know, a colored woman gave me a dollar th' other night. Saturday night. I was selling papers here in front of the market." He paused, looked at me, continued: "She was going inside the market. When she got out of the car, she started to step onto the curb, but she couldn't step high enough."

"What happened?"

Old Man, "The heel of her shoe caught the curb. On the concrete. She was falling. Flat, and I saw her. I saw that she was a nice colored woman—well dressed, prob'ly well educated. Pretty, and you could hardly tell there was any color at all in her skin. And being an old man, as old as an old man is I am, I knew I knew I couldn't let her fall flat on the street. You know, fall flat. So suddenly I reached out both my hands just as she was falling and caught her."

"So—she didn't fall?"

"And do you know what she did? She said, 'That was certainly a nice thing you did. I might have fallen here. People would have thought me drunk.' And I said to her, 'They would not have thought that.' And she said, 'But that was no nice of you. I'll be out of the market in a little while and I'll see you then.' So when she came out of the market, she bought a paper from me. You know, the Sunday papers are fifteen cents. And she handed me the fifteen cents rolled in a dollar bill. She told me to keep it, it was for me, for the thing I did just a little while ago that was so fine. I was glad to get the dollar, and I was glad I had helped her. And she was such a nice colored woman. Why should people think her drunk if she had fallen?"

I crossed the street and continued home, leaving the old man standing on the corner watching me and waiting for an answer to his question.

TO ASSIST YOU IN MAKING WISE DECISIONS

SAGITTARIUS
November 21-December 20

If you were born under the sign of Sagittarius, you are highly developed intuitively, and a born idealist. You are so naturally prophetic by nature that you can nearly always discern the outcome of a project at its start.

Your mind is swift in action, so much so that you often show impatience with those slower in speech and thought. You are naturally jovial, buoyant, and happy and seek to enjoy life to its fullest extent.

You attract many devoted friends. You usually require plenty of outdoor exercise and frequent walks in the fresh air. You are most congenial with persons born under the signs of Leo and Aries.

There are many other important factors that will help you through the years revealed in your daily horoscope, why not send for your 1951 reading today.

• • •

N.P. I read your column daily and find it quite interesting. Will you please help me with my problem. Should we settle down here, or go to her home town?

ANSWER: Probing into the matter I find that you and your wife have been separated for quite some time, and now the question arises as to whether you should quit your job and go where she is to find employment or, remain where you are and let her come there. Although you do not have any definite place to live in just now, I still think the best thing to do is for her to come there as soon as you do find suitable living quarters.

• • •

S.A.J. What steps should we take?

ANSWER: A careful analysis of your question indicates the fact that you are interested in buying a car and are wondering just how you can manage it without any capital. It may be quite hard, for it is really necessary to have your down payment or, a car to trade in. However, you might contact a loan company for further information.

• • •

Mrs. H.G.D. What must I do to get along?

ANSWER: Your Lucky Stars and Guilding Planet indicate many changes taking place in your life. And I feel that you may find things going along much easier for you. Don't get discouraged, for so many interesting things are revealed that your life will surely be a much happier one.

• • •

B.B.G. Is he untrue to me?

ANSWER: Concentrating upon your question I find that he is indeed quite fond of you. If you were to dismiss your doubts and suspicions you would find your home life much happier.

HAPPY MOTORING

The Los Angeles Police Department, in noting the thousands of automobile accidents during the ten-day holiday period, put in a plug for the almost un-noticed and almost forgotten **safe** driver.

"He is, we hope, the great majority of our motoring public," says the LAPD, and sends him this New Year's message: Happy Motoring in 1951.

Judge TKO's Former Pug In L.A. Rent Gouge Case

John Thomas, former top ranking lightweight prize fighter, dropped a decision and the entire "purse" of $1,115 to John Q. Public in a default judgment entered against him by the referee, Federal Judge James N. Carter, who ruled the retired pugilist had collected overceiling rents from a tenant living on relief.

The Thomas case was the "main eventer" as nine judgments totalling $4,346.65 were entered against landlords accused of rent violations, it was announced today by Abe I. Levy, chief of the litigation section of the Los Angeles Defense Rental area of the Office of the Housing Expediter.

Judge Carter ordered the "purse" of $1,115 in the Thomas case refunded to John Q. Public through the Bureau of Public Assistance as a result of the ex-fighter collecting $75 per month from his county-supported tenant when the legal ceiling was only $33. When the woman tenant moved to another unit in the Thomas building, she was charg-

Jim Crow on Increase in CIO Unions

Growing awareness of Jim Crow in the CIO by Negroes is reflected by the New York Amsterdam News, Harlem's big-circulation Republican newspaper.

A signed article by Carl Lawrence leads off with:

"Although the CIO has been repeatedly lauded for its fight favoring civil rights and the FEPC, growing fear was expressed this week that top leaders of the CIO have decided to appease the Jim Crow South by slowing down activity in the North's black belts."

A request to Murray's backscratcher James Carey for comment on the situation brought a blast.

". . . Trying to find fault with the CIO is awful. You and your paper are following the Communist line," he shouted over the telephone.

The newspaper story pointed out that the only Negro holding an important office at CIO headquarters is George Weaver, assistant to Carey.

Murray's own United Steel Workers, Lawrence wrote, does

RAILROADS MUST HIRE NEGROES AS FIREMEN

CHARLOTTE, N. C.—The United States Fourth Circuit Court of Appeals reversed this week a lower court decision which gave railroads the right to not hire Negroes as firemen.

The original suit, filed in United States District Court of Virginia by Willie J. Relax and others against the Atlantic Coast Line Railroad and various railroad brotherhoods, asked the

Segregation at Home Projects Banned by City

City councilmen this week unanimously approved an ordinance banning discrimination or segregation through race, color or religious faith in all community redevelopment projects such as Bunker Hill.

The ordinance, proposed by chairman Ernest E. Debs of the planning committee, sets up a policy of non-discrimination in housing and business units to be erected by private contractors on land bought or leased from the city.

Debs explained the ordinance could only declare the intent of the council and could not specifically instruct the Community Redevelopment agency to put the policy into effect, but when the agency submits proposed project contracts for council confirmation, such non-discrimination clauses can be inserted either by the council or the agency.

Service Man Insulted as SP Watches

Name of "The Crow's Nest" in Oxnard should be changed to "The Jim Crow's Nest" following the experience of James Love, Sea Bee construction driver, who was refused service there last week.

Love was returning from Fresno to Port Hueneme with a white sailor friend, Carl Lewis, when the two of them stopped in at the Jim Crow's Nest.

Lewis called on the bartender to serve them, but the bartender ignored him. After some time, the bartender approached Love and told him he couldn't be served. He said the boss told him not to serve any Negroes.

"We've had trouble here before, and we don't want any more," the bartender said.

Members of the Shore Patrol were present in the bar, but they took no action.

After Lewis and Love left the place, Lewis returned and tried

Hearing Held For 'Alien Land Law' Defendants

A hearing was held January 2 challenging the constitutionality of the California Alien Land Law affecting the now famous cases of Fujii and Masaoka. The Japanese-American Citizens League, militant Nesei organization, contends along with Judge Thurmond Clarke that "the Alien Land Law is directed against persons of Japanese ancestry solely because of race."

Though the State insists that racial discrimination is not the case, evidence submitted by the defense allegedly shows that Japanese are more largely affected than any other group.

It is expected that Attorneys Al Wirin and Loren Miller in their arguments for the defense will touch upon the United Nations Declaration of Human Rights, which has been used to supersede any state law.

DR. RALPH J. BUNCHE, Director of the United Nations Trusteeship Division, received the Philadelphia Cotillion Society's Diamond Cross of Malta award which was presented to him last Friday night (Dec. 29) by Marion Anderson. He is being congratulated by Miss Anderson at Convention Hall in Philadelphia. Looking on is Municipal Court Judge Herbert E. Millen, General Chairman of the Cotillion Society. Miss Anderson received the Society Amtrhyst Cross of Malta in 1949.

People in Willowbrook District To Have New Health Center

Plan Drawn And Donated By Walter G. Merritt Of Berkeley, California

It's a new and modern Health Center for Willowbrook, to be built in 1951 as a result of a donation of free services by the versatile designer, Walter G. Merritt of Berkeley and Los Angeles, through the Los Angeles Urban League.

This modernistic building will be erected at 11725 S. Compton and will replace the four-room cottage serving the community at present. Sponsored by the County Health Department, the building which will cost approximately $25,000, will be built of Redwood and stucco and will have about 2500 square feet of floor space. Among the services to be housed in the new structure will be a baby clinic for mothers, a health office for treatment of skin and other ailments and facilities for immunization.

Merritt, whose original desire was to be a Civil or Structural Engineer, held his first position in this field with the Pacific Coast Company of Alameda, California. From there he switched to the Architectural branch of the Engineering field at the suggestion of the late F. Harvey Slocombo, former Bay Area Architect. This new field offered him a chance to combine the dual interests of Art and Engineering in one profession.

He served in the capacity of senior design engineer during the war with the Permanente Metals Corporation and the Kaiser Company Inc. He also acted as supervisor with 25 engineers and draftsmen under him. He served as president of the Architectural groups of the Technical Engineers, Architects and Draftsmen's Union, Local 89, of the San Francisco Bay Area.

City Council Passes Ordinance Sponsored By LA Urban League

Another phase of one of the Los Angeles Urban League's community propects was realized on January 3, when the L. A. City Council passed an ordinance designed to prevent racial discrimination in the Urban Redevelopment projects.

George A. Beavers, insurance executive and chairman of the Urban League Home Building and Finance Committee, said that this legislation marked the end of months of planning and work by the League and all member agencies of the Los Angeles County Conference on Community Relations. The ordinance was presented to the Council by the Urban League early in 1950.

Joseph W. Walker, Urban League Health and Welfare Secretary, praised Attorneys Loren Miller and David Ziskind, who

Civil Rights Congress Head Sees Victory for Democracy

William Patterson, executive secretary of the National Civil Rights Congress, is not disturbed by the hysteria and the witch hunts that are sending many Americans to the mad house.

Mr. Patterson himself will stand trial for contempt of Congress in the near future. Arguments on his case will be heard January 27 and after that date for his trial will be set, a trial that grew out of his refusal to answer all questions which a hostile congressional committee asked him, where he was insulted by being called a "black s.o.b." The man who insulted him, however, went scot free—he was a southern U.S. senator.

In spite of all this, however, Mr. Patterson has the calm assurance that all will turn out all right. He feels that way about America. And about the world in general.

"Forces in America are fighting desperately to bring Fascism to this country, in order to strengthen our policy abroad, he admitted at a press conference held Wednesday in the Clark Hotel. "But the American people," he went on, "always respond in the right way in the time of any crisis."

He cites as an example the time when the Alien and Sedition laws were imprisoning their victims for daring to think—and speak—against the government of John Adams.

"The people came forward then," he said. "They elected Thomas Jefferson president, and those nefarious laws were repealed."

Those laws of a century and

Negro GI Featured in Collier's

Lead story in this week's Collier's magazine is an article on Sgt. First Class Arthur Charles Dudley, who won the highest military award yet given a Negro non-commissioned soldier in the Korean fighting.

Sgt. Dudley was awarded the Distinguished Service Cross, the nation's second highest military award, for his bravery and conduct in the front lines.

He is credited with killing 53 of the enemy, 50 of them in one engagement.

The Collier's story was written by Bill Stapleton of Los Angeles.

Most Critical Period Since Emancipation, Says Council

"This is the most critical period for us since emancipation," reads a call by the Negro Labor Council to a Los Angeles county-wide conference on fair employment practices, Saturday afternoon, Feb. 10, at the 28th Street YMCA.

"The Negro people are 10 per cent of the population . . . at the same time they constitute 25 to 40 per cent of the present unemployment," the call reads.

"The employers are applying the old rule of 'last hired, first fired.' They are forcing Negro workers into unskilled, menial, and lowest paid jobs."

It is pointed out that the aim of the employers is to divide the Negro people from within and to prevent the growing unity of Negro and white workers.

"We have the power to change this condition," the Negro Labor Council states.

"What we need for success are unity and organization. We believe the Negro workers are the indispensable backbone of the struggle of the Negro people to defend their liberties.

"We believe the one thing that the enemies of labor fear most is the unity of Negro and white workers."

A fighting program to be put into action calls for:

Marshall To Report McArthur Confab

SAN FRANCISCO.—Thurgood Marshall, nationally famous civil rights attorney, will report on the results of his conferences with General Douglas MacArthur at a public meeting in San Francisco upon his return from Tokyo, it was announced this week by Franklin H. Williams, regional director of the National Association for the Advancement of Colored People.

Mr. Marshall is leaving for Tokyo this week to confer with General of the Army Douglas MacArthur concerning charges of widespread courts-martial of Negro servicemen in Korea. Marshall is expected to land in San Francisco en route to his New York office approximately February 11. "Immediately thereafter he will report his findings to the citizens of the Bay Area at a public meeting," Mr. Williams stated. "The date and place of such meeting will be announced through the press as soon as Mr. Marshall's schedule is fixed."

Marshall, who is the special counsel for the NAACP, was granted permission to come to Tokyo by a cablegram from General MacArthur.

Women Win Right To Serve As Barmaids

ALBANY, N. Y.—The right of women to earn their living as bar maids has been upheld in a New York State Supreme Court. Justice Philip Halpern granted an injunction which prohibited further picketing of the bar and restaurant operated by Mrs. Edith A. Wilson in Buffalo.

Mrs. Wilson had charged in a petition that although her barmaids were excluded from membership in the AFL Bartenders' League, the union was seeking a closed shop agreement with her. Justice Halpern ruled that picketing of Mrs. Wilson's bar must stop unless the barmaids are admitted to union membership or the AFL affiliate modifies its demands for a union or closed shop.

OPEN LETTER TO THE JEWISH COMMUNITY COUNCIL

The public has been informed that a committee of the Jewish Community Council has recommended, after six months of hearings, that the Jewish Peoples' Fraternal Order be expelled from your Council—on the grounds that the JPFO does not have "definitely Jewish objectives" and that its conduct is "detrimental to the character, interests, and purposes of the Jewish Community Council."

We are told also that part of the proof of these charges is the fact that the JPFO sponsored a program by Paul Robeson, great spokesman for the Negro people and for democratic America. Having attended your "hearings" I know that they were marked by the red-baiting and undemocratic bias so characteristic of the Un-American Committees.

It is very difficult, gentlemen—after the murder of millions of people of all faiths and colors in the last war launched by the fascists, caused in part by such betrayals of democratic principles and the welfare of the people as your committee's conduct represents—to speak calmly about what you are doing. But I shall try.

I may assume from the reasons you give for the expulsion of the JPFO that you believe your actions better serve the interests of the Jewish people and the whole community of Los Angeles (for surely Jewish citizens don't live in a vacuum) than do the actions of the JPFO. Let us see if this is so.

Is it not true that by damning so great an American as Paul Robeson, you as Jews are making common cause with racists, with the enemies of the Negro people, who are by their very nature your enemies and America's enemies? Since when is aiding the white supremecists good for the Jews, and for other Americans?

Is it not true that by adopting the fascist technique of anti-communism, used by Hitler and the discredited Un-American Committees, you are joining with those who are subverting our Constitution, as the Supreme Court has just affirmed? Since when is the undermining of democratic rights good for the Jews, and for other Americans?

Is it not true that by collaborating with the racists and Un-Americans you are helping the nation's misleaders who are rebuilding a Nazi Army and are murdering Asian people who (as did the Jews for centuries) are seeking dignity and freedom? Since when are nazism and colonial exploitation good for the Jews, and for other Americans? Do you really mean to support a program that makes Nazis brothers-in-arms of Jewish youth in an army for "Western Civilization?"

LA Teacher Asks Aid For Homeless Italian Waifs

Some 150 homeless waifs, living in a ruined building in Italy under the care of four nuns, today looked forward to a brighter future—because of a Los Angeles teacher. The teacher, Blase Donadio, 2106 Eighth Ave., last August went to Italy on an all-expenses-paid trip via TWA Airlines, won on the CBS "Earn Your Vacation" program.

When he visited his home town of Francaville sul Sinni, Potenza, Italy, he found the orphans huddled in a broken-down building cared for by the Sisters who supported them by begging daily for food and clothing. When he asked the Mother Superior, Suora Maria Storari, what she does when the children become ill, she replied, "Then we pray and beg harder than ever."

Donadio, on his return, pledged himself to help. He sent what he could, then he was invited by Walt Framer to appear on the CBS "Strike It Rich" program in New York. He could not go to New York, so a stand-in, Jeannette Davis, singing star of the Arthur Godfrey Show, "stood-in" for him and won $500, which was

Cop's Beating Worth $1750; How About Private Citizen?

LOS ANGELES (NPB) — Citizens of this extra large hamlet, who have long felt the lash from arrogant cops, yesterday detected a further note of irony in the size of judgment dealt by a Superior court judge in favor of a beeg strong cop who claimed he was beaten when he went to a westend house to quell a disturbance. The court granted the badly huffed up copper the handsome sum of $1750 to assuage the bumps he allegedly sustained on head and buttocks during the brief affray.

Countless numbers of citizens who have felt the heel, the heavy thump of fist and even the boot tilted unceremoniously at estly, and with apparent cause, besaught the courts to grant them damages they sustained at the hands and ffet of irresponsible cops. But, to no apparent avail. Even where these same citizens have sustained property damages, have the courts been reluctant to compel cops to compensate owners or lessees for their losses.

Currently on file in the courts, a typical example of marauding tactics often resorted to by angry cops, is the case brought by landlord James P. Carter. Carter, who lives next door to the piece of real property he owns at 4712 Hooper Avenue, complains and asks the courts to have the three

'Scottsboro Boy' Faces Detroit Murder Frame

NEW YORK—One of the nine Negro "Scottsboro boys," the story of whose long years of persecution by American lynch-justice, dating from the early 1930s, has become notorious, has again been arrested—this time by Detroit police, on a frame-up charge of murder, which supposedly took place in a brawl at which he was not even present, witnesses claimed. He is Haywood Patterson, author of the world-circulated book "Scottsboro Boy," which gives a gripping account of the horrible police brutality exercised by police and guards in the courts and prisons of the south.

PLAN NEW ACTION TO SAVE MARTINSVILLE 7

RICHMOND, Jan. 4—In a last-ditch effort to save the lives of seven young men of Martinsville condemned to die for the alleged rape of a white woman, attorneys for the National Association for the Advancement of Colored People, were today formulating plans to file a petition for a writ of habeas corpus in the Federal District Court here.

The petition, similar to the one filed in the Hustings Court of the City of Richmond last summer, will be based on the contention that the men are the victims of a systematic discrimination which imposes unequal sentences upon Negroes convicted of rape, in that only Negroes have been executed upon conviction of this crime.

The decision to seek a remedy

The SIDEWALK

(Continued from Page 1)

Surely you can't maintain at this date that your ac-
ns serve the Jewish people and the democratic commun-
of Los Angeles. That being the case, the only other
ssible interpretation is that you believe your actions will
ve your personal interests best. Let us see . . .

Didn't the Jewish misleaders in Germany try such
ctics, as they helped create Hitler? They insisted that
y had to follow in the footsteps of their ruling class
d out-German the Germans. They even organized a
wish Nazi Legion and offered its services to Hitler. But
tler at least was consistent, and these Jews landed in
concentration camps along with their less-privileged
llow-Jews—though a bit later.

Have you not learned that the fascist beast cannot be
peased? You must know this, not only from the expe-
nce of your coreligionists in Berlin, but also from your
n experience here in Los Angeles. I'm told that in the
l of 1937 certain local Jewish leaders proposed that the
st way of meeting the threat posed by the local German
nerican Bund was to buy a recreation center and present
o the Bund as a gift from the Jewish community.

In 1951 you may "prove" to American fascists that
u too can red-bait and purge Jewry of non-conformists,
d you may gain some time for yourselves, but not much.
r the fascists are insatiable, and when they demand
re proof of your purity, which of your fellow-Jews will
u then throw to them? Will it be your competing busi-
ss associates? Will it be unloved relatives?

Do you think that the Jewish people will allow you
lead them meekly into crematoria?

I am a member of that other minority which has too
en been betrayed even as you are betraying your fellow
ws.

So it is with a feeling of great remorse and an under-
nding that I witness you Jewish leaders seeking to
eak ranks and scatter your strength. By so doing you
t only betray your own people, but mine also. The Ne-
o people who have suffered in the debasing school of
very have been persecuted because of their color and
e look to you for inspiration and encouragement to
rk the path that leads to liberty and freedom.

You leaders of the Jewish community cannot be con-
dered naive actors. Not after all that recent history has
ught all intelligent men and women. You cannot even
given the benefit of the doubt. You know full-well what
u are doing. Your conduct must be considered a betrayal
your fellow-Jews, of your fellow-Americans, and of our
mocracy.

You will not agree—and so I challenge you to call a
blic meeting and debate the question:

RESOLVED: That such actions as expelling the
JPFO from the Jewish Community Council does not
serve the best interests of the Jewish people and dem-
ocratic America.

I will take the affirmative. Will you call such a meet-
g and let the people judge your actions?

He was reminded that it cost

"No-o," he answered that ques-

Mr. Patterson believes the Progressive Party, or a party similar to it, will eventually lead the American people to victory, the same as the newly organized Democratic Party led the people to defeating the Alien and Sedition laws in the days of Jefferson.

Mr. Patterson closed the interview with a warm tribute to Mrs. Charlotta Bass, editor and publisher of **The California Eagle.** He spoke of her as one of the great women of America, and of the world.

Mr. Patterson will speak in the Embassy auditorium on Sunday, at 8 p.m.

Love, a service man, didn't want to move in reprisal for the Jim Crow treatment by suing under the California state law.

If a civilian, however, were to receive the same kind of treatment at Jim Crow's Nest, they could sue and according to often-established precedents, collect from the owners of the joint.

Love had served seven years in the Navy. Last November he re-enlisted in the Sea Bees.

To Plan Fight Against Anti-Labor Legislation

Los Angeles trade unionists have been called to a county-wide conference Friday, Feb. 2, to plan and take action for repeal of anti-labor legislation of all levels of government from county to federal.

Under the sponsorship of the Trade Union Defense Committee, delegates and observers from most of Los Angeles' unions will meet in the Case Hotel Conference Room, 1106 So. Broadway, at 7:30 p.m., Feb. 2.

Action will be launched for the repeal of six anti-labor acts.

The Magnusson act, by which maritime workers are "screened off" their jobs with no opportunity to defend themselves or even to know who has accused them.

The Taft-Hartley "slave labor law."

The Smith Act, which makes it illegal to think or speak except in conformity with those in authority.

The Levering Act, which requires so-called "loyalty oaths" from all state employes, from teachers to janitors.

The McCarran Act, now used in efforts to deport aliens, but so written that native-born citizens and American organizations can be persecuted if any action taken coincides with ideas expressed by any organization listed as "subversive."

The Los Angeles City and County Registration Ordinances, which at the present time is being invoked only against a trade unionist, Gus Brown of Furniture Workers local 576.

A call to rthe conference issued this week stresses the importance of "united action to ensure a victorious fight for wage increases and against a wage freeze; for shorter hours of work and not the extension of the work week; for the right to strike and for the repeal" of anti-labor legislation.

"Local and state fair employment practices legislation with enforcement powers.

"The right of Negro workers to jobs and to be promoted in accordance with their skills and to the seniority that has long been denied them."

The council declares that white union members have the duty to help Negro trade unionists in this fight.

"In this present crisis we Negro trade unionists recognize this program cannot be realized without full support and assistance from our white brothers and sisters who understand that the fight against discrimination is the key to protecting and strengthening the entire labor movement."

"This forty-first annual meeting of the National Association for the Advancement of Colored People in session January 2, 1951, protests and condemns the above-mentioned nominations and appointments," the resolution stated, "and pledges to continue an unrelenting campaign for the enactment of civil rights legislation by the Congress and for complete equality for the Negro minority of our nation. To this end we shall use all weapons available, including political action, and we call upon our membership, friends and cooperating organizations to mark the above-described events in evaluating the 82nd Congress and the record which shall be made between now and the Presidential election of 1952."

New members elected to the National Association Board of Directors are: Benjamin E Mays, Dr. Jesse Leonidas Leach, and Samuel Williams, of Atlanta, Ga., Flint, Mich., and Maplewood, N. J. respectively.

Fear Found To Be Stronger Than Hunger

SAN FRANCISCO — Psychologists at the University of Califofrnia have found that fear is far more compelling than the promise of a full stomach.

Experiments conducted by Lee S. Christie, lecturer in psychology, have revealed that rats when placed in an uncomfortable position, will overlook the prospect of a tasty reward in order to get out of the position.

According to psychologist Christie, fear is man's worst enemy, and it supersedes even the promise of a tasty dish on a hungry stomach.

not have a single Negro on its 41-man executive board.

Walter Reuther's UAW 21-man executive board is all white.

"Take the New York CIO Council, for instance," Lawrence writes:

". . . There are few Negro delegates elected to this body, and although the argument is that this is not being done by design, CIO council meetings now offer a strange contrast to the past when Negroes served as active, vocal delegates and officers."

court to void the agreement. The district judge dismissed the case and Mr. Relax appealed the case.

Judge Parker's decision noted particularly that the Brotherhood of Locomotive Firemen had urged that Negroes be excluded from employment as firemen because thye were nonpromotable to engineers. But the court said "no railroad in the United States has ever employed a Negro as an engineer." "Because railroads do not permit Negroes to hold engineer's posts is no reason that the bargaining agent representing them should use bargaining power to deprive them of desirable positions as firemen which railroads permit them to hold."

Funds for Polio Victims

Los Angeles County needs a minimum of $1,500,000 for medical care alone in the treatment of polio victims, it was announced as the campaign for funds known as the March of Dimes is about to begin.

As of today there are 108 patients in iron lungs in the county, and hospitals in the county have had to extend credit to the L. A. chapter for the care of polio patients until February 1.

The March of Dimes will begin officially on January 15 and end January 31.

A mighty good friend of the family budget, your telephone offers more service than ever—at bargain rates.

WHERE EVERY DAY IS BARGAIN DAY

Your telephone gives you more for your money than in 1940

1. When you buy almost any of the things you use every day, it seems that the prices you pay have just about doubled in the last ten years. But this pattern of inflation doesn't hold true with your telephone. For in spite of higher costs of furnishing telephone service—wage levels that have doubled, materials that have shot up sharply—telephone rates have increased far less than the cost of living.

2. Every time you use your telephone today, you get a most unusual bargain. Two ways. Rates have lagged far behind the increased prices of most other things. And the amount of telephone service they buy has practically doubled. Today, on the average, you can be connected with twice as many telephones as ten years ago. You can call more of the people you want to call. More can get in touch with you.

3. In these days, when our nation needs a strong and efficient telephone service to help speed the job of defense, that service is available—and at bargain prices. And you can be certain that all of us at Pacific Telephone will keep right on working to build your telephone's value still more—to make it a still better servant for you. And for our nation.

EUROPE AS I SAW IT

The following is the eleventh installment of a series of articles to be printed by THE CALIFORNIA EAGLE, describing the experiences, impressions, and first-hand knowledge gained by Charlotta Bass on a two-months' tour of three European countries—France, Czechoslovakia, and Russia.

LEMON HARVEST IN ADJARIA — Lemon, orange and mandarine plantations cover about 29 thousand hectares in Georgia. There was none before the Revolution.

Perhaps the most interesting part of my experience in Georgia, Russia, was the visit to Gorkey, the birthplace of the man Stalin.

Gorkey is a small but picturesque town. It nestles at the foot of what looked like one of those volcanic constructions from which nature at times belches forth a wicked stream of lava.

But oh! that Gorkey is a peaceful little village surrounded by state and collective farms. One of which I visited was an apple farm. I had never before seen so many apples in one place.

I was shown the little cottage in which Stalin was born and lived during his early childhood.

The story the inhabitants tell of Stalin's early life and the present, for that matter, differ in every detail from the stories we hear in our world about the great revolutionist who became the leader of the Russian people, and the head of the Russian government.

The Georgians take great pride in revelwing the history and traditions of their country which they trace back a thousand years, producing documentary evidence.

They tell how Stalin rose from rags to leadership, not because he wrapped himself in luxury, but because he heard the cries and groans of the poor and distressed people who had been beaten and starved under Czarist rule, as he had been, and so went to their rescue.

They tell how Stalin had been imprisoned in Siberia for fighting for their liberation, and of his first meeting with Lenin in 1905 and the fight for liberation of the Russians from slavery to freedom started.

In Gorkey I visited the shrine where the art, tapestry, silver, and household furnishings of Napoleon were hidden by his nephew after the death of the famous French general. I also visited a Jewish synagogue more than 400 years old, which is still operating and serving a membership.

The people of Georgia are neither Jew nor Gentile. Just people. They are a warm-hearted, friendly sort, and I had and have no reason to believe they are enemies of the United States.

ATHENS PRISONERS APPEAL TO U. N.

A deeply moving call of help to the United Nations has come from hundreds of women prisoners of the Averoff prison in Athens. The appeal is accompanied by a Memorandum which gives documented evidence of the terrible privations suffered by exiles on the isle of Agios Evstratios at the hands of their fascist jailers.

"Already imprisoned for 6 years" says the Appeal of the women, "there are 760 women in Averoff prison, 540 in Patras, 400 in Kallithea, 600 exiled and about 300 in the other Greek prisons..." The Appeal goes on to describe the primitive conditions in which the women and even their children are forced to live, without any catering for even their most elementary needs. It ends with a heartfelt cry for solidarity to win their liberation.

SAVE THE TELENGANA

The Indian Supreme Court has rejected the appeal of the 17 innocent, mostly young peasants of Telengana, who were sentenced to death for their participation three years ago in a peasant's struggle for land in the Sate of Hylerabad.

Once before these young people were saved from execution by the protests of people all over the world, and their case eventually referred to the Indian High Court. They can be saved.

The W.F.D.Y. Secretariat has wired Pandit Nehru requesting him to intervene "to prevent this iniquitous verdict being operated."

POLES PROTEST

Over 700 resolutions from Poland have been sent to the French Government and French Military Authorities protesting the arrest and imprisonment of Henri Martin, the young French sailor, who demanded peace in Viet Nam. They were sent by Polish youth, who although separated by hundreds of miles are linked with a bond of friendship and the spirit of internationalism with all the democratic youth of the world who are for peace.

CHINA—YOUNG WORKERS

Young workers are actively supporting the patriotic emulation drives now underway in Northeast China.

Reports of achievements have been pouring in from almost every youth league committee in the factories. League member Li Wan-hsi, a foundry worker has increased his efficiency ten fold as a result of a new method which he and three other young workers invented. One locomotive brigade entirely composed of young workers has pledged to reach the target of 200,000 kilometres perfect running.

BRITISH YOUTH AGAINST TRUMAN'S DECLARATION

The feeling of revulsion affecting the British people as a consequence of President Truman's threat to use the atom bomb on Korea and China has found deep expression among the young generation. At Bristol University, the chairmen of Liberal, Communist, Socialist and Labour societies wired Prime Minister Attlee insisting that the atom bomb should never be used.

Pointing out that war on China is the aim of U.S. millionaires, the National Committee of the Young Communist League issued a call to 18 year old lads who were registering as conscripts, stating, "that it is a crime and a shame that British lives are being wasted in Korea," and makes the call for support for the proposals for disarmament and a peaceful settlement in Korea made by the great Warsaw World Peace Congress.

ATOMIC WEAPON MUST NOT BE USED

President Truman's threat to use the atomic bomb has provoked a powerful movement of indignation from wide sections of the French people. A huge demonstration of Paris students has demanded the prohibition of the atom bomb and the peaceful solution of the Korean and Viet Nam conflicts. Strikes have taken place in a number of work places, signatures petitions are circulating and many protest deputations have been to the U.S. Embassy.

GERMAN YOUTH TO FIGHT REMILITARISATION

Eight thousand functionaries of the Free German Youth (F.D.J.) including 2,000 from Western Germany, met in Berlin at an important conference addressed by the General Secretary of the Socialist Unity Party of Germany, Walter Ulbricht and Erich Nonecker, F.D.J. President. Calling for the strengthening of "the common defense-front against remilitarisation of Western Germany and West Berlin, Erich Honecker showed how this was already taking place and quoted the example of Lower Saxony, where the Young Men's Christian Association, trade union youth, Nature Friends, Scouts, High School youth, young unemployed and young boxers have issued a common resolution greeting the declaration of the Foreign Ministers of the Soviet Union and People's Democracies, and in particular the proposal for the creation of an All-German Constituent Council.

NEGRO OFFICER APPEALS

JAPAN—Lt. Leon A. Gilbert, Jr., Negro officer facing 20 years imprisonment on a Jim Crow court-martial charge, has written from a U. S. Army prison in Japan to William L. Patterson, national executive secretary of the Civil Rights Congress, appealing to "all fair-minded democratic people which our country contains" to continue the fight for his freedom.

Expressing heartfelt thanks to the CRC "for coming to my assistance in my time of need," the imprisoned Negro officer declared, "I must continue to appeal, as all small men do, when confronted with matters beyond their small sphere to organizations or persons powerful enough to help them find justice . . . if such a thing exists for us."

In his reply to Gilbert, Patterson, who himself is facing a year's imprisonment for refusing to turn over CRC records to the House Lobby Committee, stated, "Negro and white America will continue fighting, Lieutenant Gilbert, until you have been completely exonerated and freed. Just as our organized people's pressure won a commutation from your death sentence, increased demands by the people for your freedom will force the government to set you free."

WORLD YOUTH OPPOSES MACARTHUR'S ARMY

PARIS.—Youth in many countries are opposing being dragooned into General Douglas MacArthur's armies, the headquarters of the World Federation of Democratic Youth here reports.

Chilean youth have organized protest meetings against sending troops to Korea and are covering the walls of the military barracks with militant peace slogans in Santiago and other cities. The student organization has held many meetings in schools, where well-known professors have taken a stand against the Korean war.

The decision of the Costa Rican government to send soldiers to Korea brought a vigorous protest from the League of Revolutionary Youth, who issued a statement demanding "not a single Costa Rican soldier for American aggression in Korea."

The Confederation of Mexican Youth has protested to the United States government against the imprisonment on frame-up charges of American youth of Mexican origin, as a means of forcing them to enlist for service in Korea. The organization also called on the Mexican government to intervene to win freedom for the falsely imprisoned youth. The opposition to becoming MacArthur's mercenaries in Korea of 1,500 young Canadians woh deserted the Canadian Brigade, which is being trained by U. S. officers at Fort Lewis, Washington, is noted by the W.F.D.Y.

CANADIAN YOUTH

TORONTO.—Youth are playing a prominent part in the campaign across Canada for recognition of the People's Republic of China and the seating of its delegates in the United Nations.

In the past fortnight 27 youth leaders have written Canadian Minister of External Affairs (Foreign Minister) Lester B. Pearson asking him "to speak up in Canada and in bodies of the United Nations for a policy of peace and friendship with China."

During the Christmas shopping rush in downtown Toronto, a youth peace demonstration took place and thousands of shoppers received "Ban the Bomb" leaflets. Peace demands have also been put forward by Manitoba Province's Young Liberal Association and the University of Toronto campus paper "Varsity."

ANTI-SOVIET WAR DISASTER FOR CAPITALISM

NEW YORK.—William Z. Foster, national chairman of the U. S. Communist Party, told the 15th convention of the party, which concluded here December 30 after a four-day session, that capitalist spokesmen know that their system "is desperately sick and that they do not know how to cure it."

This panic and alarm, Foster warned, are impelling Wall Street's capitalists to the fatal gamble of another great war. "They strive to achieve through world war what they have hitherto been unable to win through policies of economic penetration, political intimidation, atom-bomb diplomacy and cultivation of civil war in China, Greece and Korea."

"This," he said, "is the reason they declared the state of national emergency to militarize the United States and also through their domination of the United Nations to rush the capitalist countries of the world into an anti-Soviet war." Such a war, if Wall Street could launch it, would be even more disastrous for capitalism than the cold war which American imperialism has been deliberately waging "with such unfavorable results," Foster emphasized.

CARDUI

WARMONGERS IN CONFUSION

"A new extreme isolationism is being born of the defeatism that now horribly pervades this confused city."

The city is Washington; and the authors of the statement are Joseph and Stewart Alsop, the blue-eyed boys of the State Department. They have gone a very long way indeed from the brigand optimism of several months ago, when MacArthur's victories in Korea seemed to them to be a solution for all of America's problems. Today they have to admit that "all over Washington, in the lobbies of the Senate and House, among the more tremulous policy-makers, and even in the recesses of the military staff the same subterranean muttering is going on."

The Alsop brothers thus summarize the ideas crystalizing in today's Washington:

"Our allies cannot be depended upon. We have not the power to carry the burden of world leadership alone. We must contract our commitments (the new catchword). We must abandon first Asia and then Europe to their fate. We must retire into our own hemisphere, which we can defend. So goes the story."

On December 20 Ex-President Herbert Hoover stepped up to the microphone to tell Americans that, in their own interest, they should get out of Europe and the Asian mainland and concentrate on making the Western Hemisphere the "Gibraltar of Western civilization."

THE LIBERATION OF SEOUL

SEOUL FRONT.—Seoul, capital of the Korean Democratic People's Republic, was liberated at noon by the Korean People's Army and the Chinese volunteers who launched a new offensive along a broad front in central Korea on December 31 and smashed the enemy's defense lines with lightning speed. The Korean People's Army and the Chinese people's volunteers entering Seoul were warmly welcomed by the citizens.

Seoul was liberated for the first time on June 28, last year, but it was occupied by the American invading troops on September 30. During the three months' occupation, the Seoul population suffered terrible slaughter at the hands of the American troops and their puppets.

Besides liberating Seoul, the Korean People's Army and the Chinese people's volunteers have in their new offensive also liberated four towns, including Kaisung and Pochun to the north of Seoul, and Kapyung and Chunchun in central Korea.

The powerful offensive of the Korean People's Army and the Chinese people's volunteers is unfolding southward as the American invading forces and the Syngman Rhee puppet troops flee in confusion.

"MARTINSVILLE SEVEN" AGAIN FACE EXECUTION IN UNITED STATES

WASHINGTON.—The "Martinsville Seven," Negro frame-up victims, are again in imminent danger of execution, following the United States Supreme Court's dismissal of their second appeal.

The seven Negroes were convicted of rape by an all-white jury in trials which lasted only a few hours and were conducted in an atmosphere of race hate.

Nationwide protest last November halted the judicial murder of the frame-up victims, which had been set for November 17 and 20. The Civil Rights Congress, which has conducted their defense, has called for a big new protest to the governor of Virginia.

APPEAL TO WEST GERMANS

BERLIN.—The people of the German Democratic Republic are writing personal letters to their friends in Western Germany, appealing to them to struggle for peace and the country's unity. President Karl Moltmann of the provincial Assembly of Mecklenburg, has addressed such a letter to Lord Mayor Hensler of Dortmund, West Germany, who was a fellow-inmate with him in a concentration camp under Hitler's regime, which says:

"I remember the terrible period from April to May 1945. Thousands of martyred people went on the death-march from Sachsenhausen to Schwerin. You also were among them and a number of your friends, who are today holding important positions in the western part of our fatherland. At that time we vehemently discussed the future of Germany. Everybody, Comunists, Social Deocmrats and Democrats expressed the opinion that these horrible things must not happen again. They thought the policy of the former Social Democracy was wrong, and that there is the necessity to build up working-class unity.

"All Western German workers and all peace-loving people, I am sure, would be thankful to you if you would remind yourself of your duty. Do not let millions of workers' sons shed their blood in an American war. The end would be worse than in 1945.

"It is not too late yet. Do understand this and defend yourself. The workers and all true German patriots will support you if you struggle for the peace and unity of our fatherland."

U. S. SLAV CONGRESS

NEW YORK.—The American Slav Congress in a wire to President Truman denounced the Brussels decision to rebuild Hitler's Wehrmacht. "This reckless war-provoking step constitutes a grave threat to peace and the welfare of the American people and the peoples of Slavic and other European countries whose lands only a few years ago were devastated by the same Wehrmacht which the United States government is now recreating in scandalous disregard of the sentiments and opposition of all freedom-loving nations and of the German people themselves," the wire stated.

The organization called for the immediate reconvening of the conference of foreign ministers of the United States, the Soviet Union, Britain and France "for a new effort to find a peaceful solution of the German problem by the creation of a united, democratic and peace-loving Germany."

SLAV-LABOR FOR U. S.

NEW YORK.—The United States government is already planning to "import" several hundred thousand Latin-American workers to meet the demands of the "national emergency" recently decreed by President Truman.

MIRACLE HAIR PRODUCTS TO BE DEMONSTRATED

The miracle hair products that are unquestionably the zenith in hair improvement, will be demonstrated fully on Monday, January 15, from 4 to 10 p.m., in the new offices of the Lempagran Hair Products Co., 4020 So. Central Avenue, main floor of the Elks' Bldg.

Entire Family Invited

During the grand opening everyone is cordially invited to witness a complete demonstration of this amazing hair product and see before your very own eyes the unbelievable results obtained in using Lempagran Hair Products. All questions will be answered so that you also will agree at long last that here are the greatest hair products which meet every test.

To My Many Friends:

I have used about everything on the market trying to make my kind of hair look and appear presentable, without any satisfactory results. The different preparations that I used either left my hair unsightly stringy straight, having to pack it full of grease, or it turned a dirty rust red in color. I finally gave up the idea of trying to improve the looks of my hair, and had it all cut off, permitting it to grow out naturally as my photo shows.

My lucky day was when I happened to hear about Hair Marvel. Now I keep my hair looking good without a lot of expense, bother, or grease. I do my hair myself about every three weeks, that is as often as I have it cut. It only costs me about a dollar a month to keep my hair the way I like it. No one thinks that I use any kind of hair straightener, as my hair has the appearance that nature did it.

One of the delights of using Hair Marvel is the surprising fact that the hair does not change its natural color by its continual use. As a matter of fact the longer you use Hair Marvel, the better the hair appears to be. Just follow the directions for pleasing results.

Sincerely,
(Signed) JAMES L. WARD

Pepsi-Cola Trains Nine

NEW YORK CITY, N. Y.—The Pepsi-Cola Company in continuing to maintain its established top position as an example among American industires in integrated employment patterns, this week completed an extensive sales orientation program for nine of its national sales representatives. This marks the first instance in the soda beverage field, that Negroes have been given an opportunity to obtain the entire fundamentals of the bottling industry.

Pepsi-Cola went into the forefront years ago in taking cognizance of the "Negro Market" by endeavoring to make sure that the benefits of its activities were available to all segments of our society and its leadership still remains undisputed. These benefits included the Pepsi-Cola Scholarship Program, Pepsi-Cola Servicemens' centers, Youth Canteen program, and an integrated employment policy in the Pepsi-Cola Company.

Boyd Holds Key Position in Pepsi-Cola Organization

The parent company and home offices of Pepsi-Cola are located in New York City. In 1946, the Pepsi-Cola Company, considered one of U. S. industry's miracles of modern business, chose Mr. Edward F. Boyd, native of California and alumnus of the University of California, as Assistant Sales Manager, Mr. Boyd, formerly of the Federal Housing Authority and the Community Relations Project, co-sponsored by the National Urban League and the General Education Board of the Rockefeller Foundation, built a field sales force of national sales representatives.

Besides selling to existing accounts and opening new accounts for Pepsi-Cola bottlers throughout the United States, his salesmen erect display work, engage in public relations and promotional activities in these communities. Mr. Boyd points out that, after the first of the year, some of his sales staff will operate from the Regional Pepsi-Cola offices assisting bottlers, others will cover the college and school activities of the nation, and others will continue to carry on field sales work from the home office.

The YMCA's annual "Learn to Swim" campaign for youngsters is one of the countless activities sponsored by the Association throughout Los Angeles. Varied programs, including boys clubs, athletics, camping and social activities, are guided by trained personnel and volunteer workers in 23 community branches. Last year more than 100,000 individuals took part in its program.

Realty Board Elects

At its first meeting of the year, the board of directors of the Golden West Real Estate Board elected the following officers for 1951:

H. A. Howard, president; Clarence O. Enclish, vice president; Clyde Broadnax, vice president; Lovell Steward, secretary; Lobelia Dingee, financial secretary; Bernard C. Herndon, treasurer; Emily A. Johnson, parliamentarian; and Allen C. Woodard III, chairman, board of directors.

A vote of confidence was extended the past president, Mrs. Emily A. Johnson, for her very fine services, which included the sponsoring of the Home Show held at the Elks Auditorium.

Plans are now being made for the annual installation banquet to be held at the Wilfandel Club on January 31.

Cues for the Cooky Jar

By BETTY BARCLAY

Easy to make, easy to eat, but mighty hard to keep on hand—that's the way it is with a good batch of cookies! But if you're trying to plan ahead, and you have a good hiding place for your cooky jar, here are a few tips on storage.

Store all kinds of cookies in tightly covered jars. Soft cookies keep well if you add a piece of fresh bread, an apple, a lemon or an orange to the cooky jar. Crisp cookies should never be stored with soft ones or they'll grow limp; but if that happens, it's easy to "crisp" them up again by heating them in a moderate oven for a few minutes.

Here are three recipes for cookies both soft and crisp—and they're so tasty you'll have to put a lock on the cooky jar! First, a brand-new recipe for a delicious soft cereal cooky with a nutty lemon flavor:

Lemon Bran Wafers

- 2 cups sifted flour
- 3 teaspoons double-acting baking powder
- ½ teaspoon soda
- 1 teaspoon salt
- 1 cup 40% bran flakes
- ½ cup shortening
- 1½ cups sugar
- 2 eggs, unbeaten
- 1 teaspoon grated lemon rind
- 1½ cups buttermilk
- 1 teaspoon vanilla

Sift flour once, measure, add baking powder, soda, and salt, and sift again. Add cereal flakes. Cream shortening, add sugar gradually, and cream together until light and fluffy. Add eggs and lemon rind and beat well. Add dry ingredients, alternately with buttermilk and vanilla, beating well after each addition. Drop from tablespoon on greased baking sheet and bake in moderate oven (375° F.) 15 minutes, or until done. Makes about 3½ dozen cookies.

Here's another cereal cooky that's crisp and crunchy:

Salted Peanut Cookies

- 1⅓ cups plus 2 tablespoons sifted cake flour or 1½ cups sifted all-purpose flour
- ½ teaspoon double-acting baking powder
- ⅝ teaspoon soda
- ½ teaspoon salt
- ½ cup shortening
- 1¼ cups brown sugar, firm packed
- 1 egg, unbeaten
- ¼ cup milk
- 1½ cups raisin bran
- ¾ cup chopped salted peanuts

Sift flour once, measure, add baking powder, soda, and salt, and sift again. Cream shortening; add sugar gradually and cream together until light and fluffy. Add egg and beat well. Add flour, alternately with milk, mixing well after each addition. Add cereal flakes and peanuts and blend. Drop from teaspoon onto greased baking sheet. Bake in moderate oven (375° F.) 8 minutes, or until done. Makes about 4 dozen cookies.

Here's a cooky that's chewy and an asset to any cooky jar.

Coconut Date Bars

- 1¼ cups sifted cake flour
- 1¼ teaspoons double-acting baking powder
- ½ teaspoon salt
- 1 cup sugar
- 2 eggs, well beaten
- 1 tablespoon melted butter or other shortening
- 1 cup finely cut dates
- 1 cup shredded coconut
- 1 tablespoon hot water

Sift flour once, measure, add baking powder and salt, and sift again. Add sugar gradually to eggs, beating thoroughly. Add shortening; then add dates and coconut, mixing thoroughly. Add flour, alternately with water, beating well. Turn mixture into two greased 8 x 8 x 2-inch pans, spreading batter thinly. Bake in slow oven (325° F.) 30 to 35 minutes. Cool. Cut in 2½ x 1-inch bars. Remove from pans. Makes 4 dozen bars.

IWO Policyholders Committee

NEW YORK—Formation of an IWO Policyholders Protective Committee to fight liquidation of the International Workers Order, a 20-year old fraternal insurance society, was announced last week by Herman A. Seligson, acting secretary of the new committee.

The committee's first action was a policyholders' gathering at Albany Monday, January 8. Delegations called on Governor Dewey, Superintendent of Insurance Bohlinger, who brought the liquidation proceedings against the IWO, and members of the State Legislature.

On the Albany delegation were Gold Star parents whose sons are buried in IWO plots, elderly members of the Order, war veterans, miners, laborers, a cross section of the IWO whose policyholders come from low-income groups.

In announcing formation of the policyholders committee, Mr. Seligson declared that resentment and opposition to the liquidation proceeding is intense throughout the Order's 162,000 policyholders. Letters and phone calls arrive from elderly people who fear that they could never replace their IWO insurance; bedridden persons who depend wholly on IWO sick benefits; laborers who simply cannot afford any but the low-cost insurance which the IWO offers; Negro people who have found that only the IWO insures Negro and white at the same rates.

The liquidation proceedings have been attacked by IWO officers as "an attempt under cover of red-baiting to confiscate illegally the property of policyholders and turn them over to the insurance monopolies."

This policy-setting ordinance which places Los Angeles among the nation's progressive cities in this regard states: "No discrimination or segregation with respect to the sale, lease, sublease, transfer, use, occupancy, tenure, or enjoyment of any land in a redevelopment project based upon race, color, creed, racial origin, or ancestry."

The Urban Redevelopment Agency has already committed themselves by letter to adhere to the established policy of the City Council. This means that such projects as the Bunker Hill and others to follow shall find it necessary to adhere to the abovementioned policy.

witness at an enquiry into police brutality in the case of a Negro woman who was recently viciously beaten by Detroit police. His arrest on the murder charge came only a few days before the opening of the trial.

As is widely commented here, this arrest serves a two-fold purpose: not only to silence Patterson from exposing the notorious activities of Detroit police against the Negro people, but to enable the FBI to return him to the south, to face a charge of escaping from a southern prison after 17 years of a 75-year-sentence in the "Scottsboro Case" frameup. During the past summer Patterson was arrested by the FBI in Detroit for extradition to the south, but only a nationwide campaign by civil rights and progressive forces prevented the American racists from sending him back to southern lynch-justice again.

The American Civil Rights Congress, which is investigating this latest frameup, expects, as in all anti-Negro frame-ups, to find positive proof that Patterson did not commit the latest crime of which he is accused.

Driver of the Year

For averting a serious traffic smashup in heavily congested traffic, truck driver James A. Buford, 32, Western Truck Lines, was unanimously chosen California's Driver-of-the-Year by the Motor Truck Association of Southern California.

Mr. Buford was traveling along with the heavy inbound traffic on Atlantic Boulevard in Lynwood early in June of last year when he felt his truck bumped on the right side. Slowing down, he observed a sedan with the driver slumped over the seat.

Seeing that the driverless car was headed for heavy traffic, Buford rode herd on the car with his truck for more than a block, finally slowing it down and bumping it into some heavy machinery where slight damage was done. Examination showed that the driver of the car had died from a heart attack.

● Cop Beating

(Continued from Page 1)

cops who committed vandalism in their efforts to make an arrest upon the occupants, did:

With great force and malice, break, tear, rip and smash, furnishings, walls, windows, etc., and cause damage in excess of $700.00 during the process of a raid. This is the picture portrayed in the itemized statement filed here Monday: Damage to house walls, doors and glass, $200.00; broke seven windows, $75.00; one straight backed overstuffed chair, $24.00; two kitchen window shades, $6.25; two four piece bedroom sets, $200.00 and one nine piece dining room set, $225.00.

The cop who got the handsome set of damage from four persons he said ganged upon him and gave him a sound thrashing for interfering with a party they were enjoying in their own home, appears to be no greater than any other police officer or fireman who gets hurt in the pursuance of his paid duty. Yet, there he has it. But, what about citizens and property owners like Carter? Must he and others forever have to pay through the nose, merely because a cop has whims and breaks up his home? Time will tell.

Gilbert and Sullivan In the Lime Light

L. A. Conservatory Production Successful

Of the many operattas written by Gilbert and Sullivan the Light opera department of the Los Angeles Conservatory chose on last Tuesday evening, a two act operetta, "The Pirates of Penzance."

It is always interesting to say the least to view at any time the work of a school that puts out singers in mass production, however the cast was well chosen in that the best students evidently were used.

Robert Gurnee as Frederic possessed one of the few resonant voices of the evening. Mary Fercana portrayed a convincing and sincere Mabel. Miss Fercana's lovely coloratura, it was felt should be shown off in some other production of a heavier calibre. The riot of the entire staging was Robert Karlin as the Major General. It was evident that he has experienced training in dramatics due to the fact that each comical movement was perfectly coordinated, which made up for his lack of a powerful voice. Harold Rudnick as the pirate king did in the opinion of this writer an excellent job as an actor and a singer.

English in itself is difficult to sing due to the fact that its vowel sounds do not always coordinate with the tones the voice has to sing. Diction is always important, and more emphasis should be put on it. The text was not always coherent and as a result some of the story was often lost.

The conductor of the orchestra it can be stated has possibilities, but this was just not his night to have the instrumentalists follow him.

When young people are starting out in the operatic field it is often the case that they do not throw themselves in the mood of the play. Such was the case too often during this play. Forgetting the audience is often necessary in order to put over an idea. "The play is the thing."

Last, but certainly not least was Cecil Doty one of Independent church choir's solists. It is easy to see that Mr. Doty's voice is improving along with his acting.

The evening I might say was not worthless, and it was readily seen that the audience enjoyed the entire performance. Watch for more of the Conservatory's presentations in the future.

PEN PALS CORNER

By BARBARA ANDERZA

This week, dearies, I really have a scoop. Here it is, Byron Bisco and Jeanette Washington are honies. . . . Suspense, who's ahead in the Center episode? . . . Betty Hudson lost her voice and missed a good chance with a certain boy. . . . Opal Wright and Kenny are only goin' to that Manual Prom. . . . Carl Yarber is really in a dither, he can't decide who to take to the Manual Prom. I could certainly give you a suggestion, Carl. . . . Constance Proter must have fallen in love with Texas, she hasn't even come back for school. Still vacating; can you beat that? . . . I'm still wondering about Leroy Williams. Haven't heard from him in a long while. . . . Guess who Beverly Guano is thinking seriously about? No, that isn't him, it's Wendell Williams.

Lover Gal

Lover Gal of the week is Miss Margie Johnson. Her ambition is to be a surgeon. The age is 15. The school she attends is Conaty, short for Catholic Gals Hi'. . . . Surprise . . . surprise, she's got an older brother, and, Oboy, is he cute. Want to know the phone number, don't you? And I suppose you'd like to know her brother's name. Because of my Christian disposition I shan't hesitate to inform you. The brother's name is Lawrence Johnson, and the number is RE 2-2195. Audrey Springs, who is them socks for, honey chile? . . . Wanted—a morbid lookin' character for Mammie Pitts. If you fit the description please call RI 7-2219.

There seems to be a slight bit of competition between Jody Clark and Buster. Ain't gonna tell who the other person is. But if the shoe fits, wear it. . . . Goldie Toomes really did look snazzy on her Conaty dance picture. Hate to say just what I looked like. The graveyard atmosphere of Lincoln Cemetery has been transferred to 117 and Bandera St. That is, since Alvis Andrews moved. . . . What's happening between Shirley Matthews and Bernard Bruce? . . . Who's Donnella Ross goin' to the Prom with? This is really a mystery. . . . There's a little gal called Carmelita Winters who has all the little boys just about droolin' at the mouth. . . . Caught a little peek at Daisey Watson with Gary Greene. I suppose this is a hint that they're back together again. . . . What's Jeff gonna do after Leo Hamilton, Guy Blackburn and Gary Greene leave, is they gwine to have a track team? . . . Even though Elmer didn't win the Mister Los Angeles title, Loraine claims he's still her mister. In fact, now and always.

Suspense . . . suspense . . . who's to be Jeff's prexy for this coming semester? . . . Gee, but there's stiff competition between William Runford, Aaron Roberts, and Herbert Avery. Cross your fingers and maybe your favorite will win.

Oh, yes, Reynold Burbank and I would like to announce our engagement, which is to take place ??? Huh, think I'd tell you? Well, I will tell you when it's all over. Just thought I'd tell you so you wouldn't be shocked. . . . The romance between Wilma Bell and Victor Clark is still goin' strong.

Memories Cast Long Shadows

Persons who have held memberships in the Second Baptist Church for at least 20 years remember that in the early twenties following the pastorate of Dr. H. D. Prowd, the Second Baptist Church called a new pastor. That new pastor was Dr. T. L. Griffith, of Topeka, Kansas.

The new pastor's family was composed of a wife, two sons, and two daughters.

Among the four children, one, Miss Anna Mai, was especially gifted musically and easily took her place in Los Angeles as one of its favorite song artists.

But Miss Griffith and the other three Griffith children restricted their activities to work in the Second Baptist Church, and their devotion to the church did not cease after the passing of their parents.

Before the death of her parents, however, Miss Griffith was married to Virgil Morrow. But this did not diminish her devotion and service to the Second Baptist Church.

At present Mrs. Morrow directs the great chorus of the Second Baptist Church, and her husband sings in the choir.

This comment was provoked by Mrs. Morrow singing the solo in the anthem, "Ho! Everything that Thirsteth," last Sunday morning at the regular church service.

The power, range and sweetness of Mrs. Morrow's voice carried one back to the time when the new pastor came to the Second Baptist Church, and with him came his talented daughter.

Until last Sunday it had been quite a spell since Mrs. Morrow had been observed or heard in solo roles. She has developed one of the finest choruses in the city. So last Sunday was a heartwarming experience for not only the members but also the visitors of Second Baptist.

Seldom does a pastor make the same type of contribution to a church and community as did Dr. T. L. Griffith.

His name and memory lives today, and are engraved in the hearts of all who cherish faithful service, honor, and dignity in the religious profession.

The Voice Of The People

The sermonette from a little newspaper published in Texas is a sounding board radiating the state of the world.

The writer makes this forthright statement:

"When I look at the state of the world, I am reminded of what Mark Twain prophesied, for it fits very well into the present situation.

"The loud little handful as usual will shout for war. The pulpit will warily and cautiously object, at first.

"The great big mass of the nation will rub its sleepy eyes and try to make out why there should be a war and will earnestly and indignantly say: 'It's unjust and dishonorable and there is no necessity for it.'

"Then the handful will shout louder. A few fair men on the other side will argue and reason against the war with speech and pen, and at first will have a hearing and be applauded.

"But it will not last long. Those others will outshout them, and presently the anti-war audiences will thin out and lose popularity.

"Before long you will see this curious thing: the speakers stoned from the platform and free speech strangled by hordes of furious men who in their hearts are still at one with the stoned speakers, as earlier, but do not dare say so now.

"And the whole nation, pulpit and all, will take up the war cry and shout itself hoarse, and mob any honest man who ventures to open his mouth. And presently such mouths will cease to open.

"Next the statesmen will invent cheap lies, putting the blame on the nation that is attacked, and every man will be glad of those conscience-soothing falsities and will diligently study them.

"And thus he will thank God for the better sleep he enjoys after this process of grotesque and self-deception."

On this he comments:

"In times such as these the individual has no choice but to offer non-violent civil disobedience to all laws he considers immoral (selective service act and income tax laws are two excellent examples of barbaric immorality). He must also oppose those laws which he feels deny the right of the individual to follow the dictates of his conscience."

We suggest that you not only read this document, but also study it as a word picture with great meaning.

The 82nd Congress

Despite the fact that American soldiers are wading in blood on the battle fields of Korea, the Koreans—old men, women and babies—are dying of starvation and exposure as they seek refuge from the slaughter from the air and ground forces engaged in the bitterest battles known to history, politics "as usual" is nevertheless the main order of business before the 82nd Congress.

As it opened its first session last week, no time was wasted in getting down to the business of politics—in the worst sense of the word. The GOP-Southern Democratic coalition flexed its tongue muscles in a show of strength, while the somewhat weak-kneed supporters of the administration stood on the sidelines looking on.

The very first act by the new Congress was the restoration of the former life-and-death control of legislation which the Rules Committee held up until a couple of years ago.

The little plain people who vote these betrayers into office fail to understand that under this old-new setup the Rules Committee not only regulates the flow of bills to the floor of the House, but also can pigeon-hole any legislation its few members dislike.

It was the Rules Committee in this form that in previous years blocked the passage of anti-lynch and anti-poll tax measures, and no doubt will continue these insidious tactics in order to deny certain citizens full and equal rights prescribed by this great American statement:

"We hold these truths to be self-evident; that all men are created equal, and that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed."

Some of these measures that would benefit the down-trodden, persecuted people in our nation will get no farther than these same old dusty pigeon holes.

But this 82nd Congress will spend days, weeks, and even months tearing apart and putting together again our so-called foreign policy, and imposing higher taxes on the already tax-burdened American people—always with time out to stem the tide of Communism.

The Martinsville Seven

Letters, telegrams and phone calls to Gov. John S. Battle, Richmond, Va., urging that he grant "freedom for the innocent Martinsville Seven," is an appeal of the Civil Rights Congress that is being broadcast over the country. Even across the world, and many are the persons in France, Belgium, Poland, China, who are writing and asking that these boys be set free.

With the denial of review for their case by the U. S. Supreme Court, executions for these innocent Negro victims of a white supremacy frame-up are automatically set for February 2 and 5. Only a stay by Gov. Battle or a court order can delay the executions.

The CRC has asked for 100,000 signatures on petitions to be sent to the governor by January 31. The charge against these seven boys is that of rape of a white woman who has since disappeared. They were found guilty by an all-white jury in a series of quick one-a-day trials despite flimsy and contradictory evidence by the woman.

"The Supreme Court's indifference to the rights of Negroes," said William L. Patterson, CRC executive secretary, in commenting on the case, "approximates the drive against Jewish people in Germany under the Nazis."

"American labor — all people—should understand that this blow against Negro rights places labor's rights, and the rights of all Americans, in jeopardy."

Write — everyone — to Gov. Battle, Richmond, Va. Tell him what you think about this case. Demand the release of these innocent victims of white supremacy and injustice.

Who's Lying In School Board Quiz?

Evidence given in the L. A. School Board's examination of alleged irregularities in certain school civil service examinations indicate one thing, at least —that someone is not telling the truth.

Not telling the truth in this examination becomes perjury if the matter is taken before the courts, as is very likely to happen.

Bias of J. Paul Elliott, personnel committee chairman, towards the two accused supervisors, as well as towards the witnesses that support their denial of irregularities, is noticeable in the hearings.

Superintendent A. J. Stoddard also is apparently on the si deof thoseaccused of shennanigans.

On the other hand, the six witnesses who originally charged that cheating was allowed to some taking the civil service examinations have been browbeaten and cross-examined at length. They have been allowed to make no statements of opinion or to state conclusions and how reached. They have been held to strictly legalistic answers by Elliott, who is an attorney and who might be looking ahead to his day in court on the case.

Witnesses who say they knew of no irregularities are encouraged to theorize about the matten and to express personal opinions.

The two accused supervisors seem more at ease during this investigation than they did during one conducted by the personnel committee a month ago. At that time, the supervisors refused to answer questions on the grounds that their answers might be self-incriminating.

In the current hearing, however, the supervisors are willing and anxious to chat about the charges. They deny all accusations categorically, and they explain away apparently difficult points with ease and assurance.

The accusers, some of whom were reduced to tears by the harsh cross-questioning, have agreed to submit to lie detector tests to prove that they are telling the truth.

This would be one way to establish the facts in the case.

It is wide-spread opinion of those interested in the case that the school board's duty is to try to find the truth about the charges, rather than to treat the complaining witnesses as though they were the ones being accused.

¼ Every opportunity to cast doubt on testimony of the six accusing witnesses was taken, and the general tack taken by Elliott and Stoddard seemed to be that the accusing witnesses were guilty of perjury—and that it was their task to prove they were innocent.

If the six witnesses who charge irregularities and the two supervisors and their 12 witnesses were all given lie detector tests, then the School Board and the general public would have some basis to determine who was making false statements.

We urge that such tests be made and the truth of the matter be brought into the light of day.

RAPHAEL KONIGSBERG

NAZIS TEACH AMERICAN GENERALS

Plans are afoot to foist universal military service on America's youth. Spokesmen for the corporations, the Administration, the militarists, have been harping on the theme that universal military service is essential to our security . . . and that all youth owe their country some time in the armed forces.

That is the pet theme, for instance, of Ike Eisenhower, who is going forth to lead Nazi soldiers, among others, in a new crusade for the "Free World." And Congressmen, secure in their age and well-paying jobs, very impatient for the sacrifice, are insisting that the induction age be lowered to 18 years.

These propagandists, however, have not told the American people that their plan for the regimentation of our youth is based on the ideas of General Heinz Guderian, Hitler's chief of staff, who did so much to bring death to so many of America's youth in the last war.

On February 10, 1950, the U.S. News & World Report stated that the plans for universal military service were based in part on the plans of Gen. Guderian—who boasted that his plans were the bible for American military officers. Groundwork for presentation of the Guderian plan to the public was laid with the appointment of Gen. George Marshall as Secretary of Defense.

We must differentiate first between universal military service and universal military training and selective service. They are not the same. Universal military service would conscript every American of 19 years (maybe 18 years) for at least 24 months, regardless of physical, mental, educational or marital status. Only the totally disabled or insane would be exempted. Higher education, in most cases, could not begin until after completion of the service. All youth would be subject to overseas service. (Shades of Korea!)

Not all physically qualified youth would be sent into the armed forces. Some of them would be trained in "civilian defense" jobs under army supervision, and would be subject for assignment for factory work, still under military supervision. This would create a "scab army" available for duty at any plan. (What a threat this could be to organized labor!)

The years 18-21 are among the most impressionable of youth. Knowing what we do of the anti-democratic ideology of our militarists and their basic inhumanity (look at McArthur in Korea, and Gen. Clark calling for an "army of killers") we must realize that the effect of such military indoctrination of our youth will be a real threat to the very existence of democratic government in the USA. Remember what Hitler did with and to the German jugend.

Military Dictatorship

A fundamental concept of the Nazi Guderian plan, favored by our militarists, is to eliminate all layers of civilian authority between the President and the military. That this points to a clear and present danger of military control of the American government is evident from what the generals have been doing since the end of the last war. They have already infiltrated many levels of our government.

In May 1950, Drew Pearson reported "on the eagerness of the military to encroach on the civilian branches of the government. A lot of things have been going on which the public doesn't know about, all pointing toward more and more military rule."

This is proved not only by such blatant interference even in the conduct of our foreign affairs (it's Mikado McArthur who's been dictating our policy in the East), and such criminal warmongering as that of the generals yelling for "preventative war," but also by such moves as making generals college presidents.

It is reported, further, that American generals are much taken with the notion of establishing an American General Staff, similar in structure to the hated German General Staff which brought so much tragedy to Germany and the world. This is something the American people dare never permit, at the risk of losing their liberties and all control of their government.

So, our militarists have come full circle! From fighting the Nazis in a war against facism to aping Nazi methods in what must be a war against democracy and their own people! Nazi generals teaching American generals how to "save democracy." There you have the fruit in all its evil of the Truman Doctrines, the Marshall Plans, and the "crusades to contain Communism."

Something to Think About

A very brief article in "Labor Reports" gives these startling facts.

The ratio of Negro physicians to the total Negro population is 1 to 3,377. The ratio of all physicians to the entire population is 1 to 750.

Medical schools graduate approximately 5000 students per year, but only about 145 of these are Negroes.

Out of the 1,500,000 hospital bads in the United States, only 15,000 can be used by Negro patients.

White males can expect to live 53 years, as compared with 52 for Negro males, and white females 67 years, as compared with 55 years for Negro females.

America Must Score in Upset

We are in serious trouble. We are in such serious trouble that **the odds are against our being able, as a nation, to survive.**

We may well ask ourselves, "How did we get into this fix?"

The answer is sort of complicated, but it is clear that we are badly outnumbered because we failed to continue to develop our democratic tradition.

We put the Bill of Rights and the Constitution and the Declaration of Independence in the Freedom Train and gave them a ride. In the process we thought of these documents as showpieces. In short, we failed to live, really and truly to live, as though we believed that all men were—and are—equal.

That's why we are now being taken for a ride ourselves—a ride that's been arranged by international gangsters disguised as governments.

We behaved as though we thought that the colored peoples of the world were not our equals. Witness the lynchings. Note the poll taxes. Observe the low educational budgets for Negroes. Look around and see the many evidences of segregation. Remember, too, our Exclusion Acts.

Even after the scourge of Hitler, we discriminated against his victims. We may have opened the doors of the concentration camps, but we didn't give them any place to go.

The Statue of Liberty remained just a picture on a post card!

So we are in serious trouble. We are in serious trouble because we are outnumbered. We are outnumbered because we didn't let a lot of people join our team.

We are outnumbered because we let our bigots, our Southern white supremacy zealots, embarrass our foreign policy.

It may still not be too late.

There are close to 400,000,000 people in India. There are 450,000,000 in China. All these millions of people, even those in China, would be on our side IF—

They will be on our side, even today, IF we are willing to accept them as fellow human beings, as equals. That goes also for the 80,000,000 in the East Indies, and the other millions all over the world who happen to be colored.

If for no other reason at all, except that of our own survival, we must make friends of these people. We must have them on our side.

But we will get them on our side only if we pay no attention to the mouthings of our bigots.

And there must be more than that. Much more. Our foreign policy must be a living demonstration of our ability, of our willingness, to **treat all men of good will as brothers.**

Dear Sirs:

Thanks for the publication of my poems. I can never express the real meaning of the joy you have given me in putting my work before the public. Enclosed you will find a few of my recent poems.

Dear Mrs. Editor:

To whom does the UN belong?
Does it belong to kings?
Does it belong to presidents?
Does it belong to diplomats?
Or does it belong to the people of the world? If it does belong to the people of the world, its primary obligations and duties are to safeguard the lives and possessions of the people.

In view of what has happened in Korea, I ask myself how can I, a common working man, have faith or hope or even respect for the UN, when it becomes a partner to armed atrocity and barbarism.

When in the name of the UN villages, towns and cities are bombed, burned and destroyed, and native men and women and children are killed, wounded and deprived of their homes.

I conclude that armed force does not belong to UN.

Little old David.

David Leon.

This is a copy of a letter I sent to the Secretary General of the United Nations:

To the Hon. Secretary General of the United Nations, Trygve Lie:
Dear Sir:

I am aware of the enormous demand on your time, especially now that such important decisions must be made and such necessary steps be taken so as to balance or offset the very grave situation that has occurred in Korea.

I am also aware of the vast difference of the stations of life that you and I hold, and because of that I will ask your pardon.

But I also know that you are for the United Nations. You have so stated on many occasions. And I feel sure that what I shall say hereafter will convince you that I, too, am very strong for the UN.

So it is because of our common faith in the ideals of the UN that I take this liberty to write to you. I have read that you **intend** to ask the members of the United Nations for a standing army, a United Nations army.

That would indicate your intention is to build a UN that would win the peace by armed force, and in turn to compel the world to respect the UN through force.

If that is so, then we are for a different kind of UN. I visualize a United Nations for peace, not by the sword.

A United Nations without armaments or army that kills.

A United Nations without warships or submarines.

A United Nation without A or H bombs.

A United Nations that will never be turned to tyranny.

I visualize a United Nations that can and will win the respect of the multitude of the people throughout the whole world by conviction.

I visualize a United Nations that can and will ultimately win the peace through peaceful means only.

The UN should have an honorary army gathered from all parts of the world.

An army whose pens are mightier than all the swords. A tireless army working for a lasting and just peace, convincing the multitude of people in the convictions of the UN peace covenants.

Very respectfully,

David Leon.

Dear Sir:

On behalf of the Foundation, I want to extend our deep thanks for the way your paper has supported the Chest X-Ray Survey. It has been in progress in Los Angeles County since last March 22, and to date 1,816,242 chest x-rays have been taken of persons 15 years of age and over.

The Survey was to be completed December 30, but a two-week extension was granted, meaning that it will come to an end the end of this week, January 13. We hope to make it two million chest x-rays taken by next Saturday.

Even though this Survey is the biggest of its kind ever undertaken in the United States, to make it a real success we must top that two million mark in the few days remaining. Many, many other people still have not had their chest x-ray, for one reason or another. They have simply kept putting it off. Or

LABOR ON THE MARCH

The period in which we live will go down in labor history as the "Big Frameup." The mass attack by government forces, at the dictates of giant corporate interest, on labor and on its honest leadership has never been equalled.

Passage and attempted enforcement of a string of anti-labor laws, on all levels of government, has made it easy to frame any union man who is within pointing distance of a steel pigeon.

Among the laws that are being used with considerable effectiveness are the Taft-Hartley law, the McCarran act, the Magnusson act and California's own Levering act. The heart of all of these acts is a "loyalty oath."

Only proof of disloyalty needed under these anti-labor laws is the out-stretched index finger of an anonimous stoolpigeon. In most cases the "disloyal" person does not even know who pointed or what the pointer said.

He is given no chance to defend himself. He is simply told he has no job, or that he must leave the country or face 10 years in prison.

Victimes of the bgigest frameup of the period has been, of course, Harry Bridges, leader of the longshoremen's and warehousemen's union. Despite continued exposure of prosecution witnesses as paid perjurors, despite continued evidence that disproved government "facts," Donahue went ahead with the trial, and a biased judge cinched his arguments, for the jury. Bridges was declared guilty of perjury in his application for a passport.

But others have been framed and are being framed now. Every honest leader of a militant determined to win wages, conditions and peace for its members and its members' children runs the constant risk of a knock on his door at midnight.

What of frameups in the past?

Here in the west, the trumped-up persecution of two labor leaders have become more than a part of our labor history—they have become part of the labor history of the world.

Those two men were Tom Mooney and "Big Bill" Haywood.

Tom Mooney, who was organizing street car workers at the time, was charged with causing the explosion that killed ten people during an anti-labor parade staged by business men in San Francsico in 1916.

Photographic evidence and oral testimony placed Mooney a quarter of a mile away from the explosion—but the Chamber of Commerce framed him with perjured witness and a stacked jury. Only the intervention of President Wilson, after world-wide pressure was brought to bear, changed an order for execution to a life sentence in prison.

After 23 years in prison, Mooney was pardoned by California's Governor Olson. He died in 1942, his health wrecked by imprisonment.

"Big Bill" Haywood, militant leader of the Western Federation of Miners (forerunner of the present Mine, Mill & Smelter Workers union) was framed by a stool pigeon for the Mine Owners Association.

Harry Orchard, later proved a psychopathic liar and a degenerate, "confessed" that he had killed Frank Steunenberg with a bomb at the orders of Haywood.

Haywood and two other leaders of the union were arrested in Denver one midnight in February 1906, and forcibly taken out of the state to Idaho where they were kept 15 months before their trials started.

Although the Mine Owners tried for two months to select a jury that would hang Haywood, he was finally found innocent.

His defense was handled by Clarence Darrow, world-famous Civil Rights attorney.

During his 11-hour closing address to the jury, Darrow gave a warning, in which if names were changed, should be heeded today by those who are framing and persecuting union men:

". . . You who think you can crush out the feelings and the hopes and aspirations of men by tying a noose around his neck, you who are seeking to kill him, not because it is Haywood, but because he represents a class, don't be so blind, don't be so foolish as to believe you can strangle the Western Federation of Miners when you tie a rope around his neck.

"Don't be so blind in your madness as to believe that when you make three fresh new graves you will kill the labor movement of the world."

START HABEAS CORPUS PROCEEDINGS

NEW YORK, N. Y. — On the basis of former Lieut. Leon Gilbert's letter appealing for a continued fight for his freedom, Civil Rights Congress attorneys have requested the full record of his court-martial from the Judge Advocate of the U. S. Army.

Purpose of the request, William L. Patterson, CRC Executive Secretary, explained, is to look into the possibility of starting habeus corpus proceedings on behalf of the imprisoned Negro officer. Gilbert ,originally was sentenced to death by a jim-crow court martial in Korea for allegedly refusing to obey an order. His sentence was recently commuted to twenty years imprisonment.

they are afraid the x-ray will show an unhealthy picture and they want to hide from the true facts, unaware they are endangering the lives of their families.

These x-rays are something the public is entitled to. The people already have paid for the service through their payment of taxes and purchase of Christmas Seals.

We would be extremely grateful if you would hit this thing hard this final week. Any assistance you could give us through your editorial columns would be gratefully appreciated.

The problem is really a serious one. You'll note in the enclosed fact sheet that tuberculosis "ranks FIRST among the death-causing communicable diseases in Los Angeles County." It is extremely important, for the health of everyone in the county, that the Survey is successful. The fact that there are only a few days left to get your chest x-ray must be made known to everyone. A streamer across the top of your front page announcing this fact would make the hardest possible impact on the citizens of your community. The situation is serious enough to warrant its use.

Please find enclosed a copy of our release telling of the location of the x-ray machines throughout the county these last few days. We have 22 machines in operation, including one in each of the eleven Sears, Roebuck & Co. stores in the county. The Sears people have tied in with us to help promote the closing chapter of the drive as a public service.

Thank you very much.

Sincerely yours,
GUS V. VIGNOLLO,
Director of
Public Information.

With just a few days left in which to get a chest x-ray without charge in the mass x-ray drive, the Los Angeles County X-Ray Survey Foundation urges everyone who has not yet been x-rayed to have it done immediately. This campaign to detect previously unsuspected cases of tuberculosis will definitely end on Saturday, Jan. 13.

Mrs. Charlotta Bass, Editor,
Dear Mrs. Bass:

I have regularly read your SIDEWALK and now your EUROPE AS I SAW IT, and am in accord with your demands for reform.

I wonder whether you have discovered the booklet, THE CREATIVE REVOLUTION OF JESUS (1950), in which (page 56) the author says:

"When the above tests are applied, it becomes apparent that none of the existing social systems can be accepted by Christians as being satisfactory. . . . The mixed economic system prevailing in the United States is far indeed from being satisfactory. Its stimulation of covetousness and greed, its unashamed appeal to self-centeredness in economic competition, its class-consciousness and appeal to class interests, its mal-distribution of wealth and income, its vast concentration of economic power in the hands of a few, its corruption of political democracy for private advantage, its materialistic standards of success—all these stand condemned by every basic principle of Jesus' way of life. Christians must never equate any particular social system with the Kingdom of God on earth. Every existing system falls far short of the Christian way of life."

I would like to present you with a copy of this book.

Yours cordially,
ALTON L. HALL.

(Thank you very much. We shall be very glad indeed to receive a copy of that splendid little book.—Editor.)

To the Editor:

All my life I have heard about famine in China. As a child I contributed my pennies in Sunday school, along with millions of other American children, toward relief—rice—for the starving children of China.

Now, at the end of the first year of the Peoples Republic of China, comes word in an official report by its vice chairman, Mme. Sun Yat-Sen, that famine has been defeated in China! For the first time in history a recipe has been found to prevent little children from starving to death!

By what reasoning do we conclude that just because we do not like their recipe for boiled rice they must give it up?

The U. S. News & World Report of December 22, proclaims: "There are lots of ways to fight a war against China," and describes at length U. S. plans of "limited" war: "Harassment and aid for dissident forces within China are probably the least that Mao can expect. The idea of limited war, of causing whatever trouble can be caused . . . and some shooting is openly discussed . . .to starve Mao's ports, buy off his generals, arm his Chinese opponents, **do everything to stir up unrest and revolt.**" (Bold face mine.)

Is this the "righteousness" Mr. Truman had in mind when he said in his Christmas message: "We should pray for a peace which is the fruit of righteousness"?

Sincerely yours,
MARY PHILLIPS.

Attention Mrs. Charlotta Bass—
Dear Mrs. Bass:

Though my subscription expired 10-13-50, I have not received from your office a "please remit" yet. Let me thank you for this kindly consideration and warn you that it is not good business. When one gets as old as I am, a prompt reminder of delinquency is always timely. The enclosed Postal Money Order is dated December 29, 1950, which shows old people even forget to send a payment, sometimes even though the Money Order has been bought or the check drawn, it is no less true when I say The California Eagle has become my favorite Negro weekly. And, it is no les strue when I say: It makes me mad not to get it until Monday when it is published the previous Thursday.

With thanks, in advance, for not having to get "mad" any more, this year, because of the Eagle's late delivery, I am

Yours for world peace and plenty,

My dear Editor:

May I take this opportunity to state that the poetry of Ike Sanbonmatsu which appeared in the Eagle, issue of January 4, under the heading: "Poem to My Negro Brothers and Sisters from an Asian-American," was, in my opinion, certainly worthy of inclusion.

While I do not profess to be a literary expert, I do feel that after having my own works appear in over 25 domestic and foreign publications, I am qualified to express a competent opinion.

Sanbonmatsu's poetry expresses conviction, positiveness, revolt against tyranny and bigotry and a hope for the future. Above all, it expresses unity with all those people and forces striving to bring about collective security. He has reached the stage of development where he recognizes that ideological kinship transcends skin pigmentation and points of geographical origin. You might express to him my good wishes if and when convenient.

JOHN HENRY OWENS.

Learning that a vast tract is to be cleared in South Carolina, U. S. A., for the erection of a huge hydrogen bomb plant—that every house and barn, every store, school and church in the area, will be razed and five villages obliterated—the Women's International Democratic Federation has written to the women of these villages expressing sympathy, saying, "this makes us feel close to you — because many of us, too, have had our homes destroyed.

The letter follows:

Paris, France

Dear Friends:

We do not know you personally, but we are writing to you because we have heard that your homes are going to be destroyed to make way for a hydrogen bomb factory, and this makes us feel close to you—because many of us ,too, have had our homes destroyed.

Let us tell you who we are and why we are writing to you. Our organization is the largest women's organization in the world. We have 91,000,000 members, who live in 59 different countries, from China all the way to Canada, and from Iceland to Africa. The reason ours is the biggest women's organization in the world is that we unite women of all religions, races, and all countries, both capitalistic and Communist, who want peace on earth, who are willing to work together in spite of whatever different opinions they may have, in order to end war and make a happy life for their children.

We read in the paper about what is happening to you, and saw the picture of the sign that was put up outside of Ellenton—"It is hard to understand why our town must be destroyed to make a bomb that will destroy someone else's town that they love as much as we love ours."

We decided to write to you to tell you we agree with that sign.

Millions of the members of our organization have had their home towns destroyed in the last war, have seen their children mangled and buried under the ruins, their whole families wiped out. No one who has not lived through the horrible massacre of a bombardment can imagine how terrible it is.

This is what is happening to the mothers of Korea today.

Women who have suffered such things can never forget them, and will never stop fighting for peace.

This is why women all over the world were shocked when they read that President Truman declared he was considering using the atom bomb in Korea. They know that this would mean the beginning of a new and more horrible world war, in which millions and millions would die, in the United States as well as in Europe and Asia. They cannot see why the people of Korea and China and every other country should not be left alone to choose the kind of government they want. They do not think the Chinese had to get any "foreign orders" before they decided to get rid of the gangsters and racketeers who have robbed them for ages, and set up their own form of democracy.

The Chinese people want to be left alone to develop a good life in their country. They do not want war.

The Korean people want all foreign armies to leave their country; they want to be left alone to heal their wounds and to rebuild their country. They want the war to end, too.

Then who wants war? Only a tiny handful like the du Pont de Nemours munitions company, who makes tremendous profits from death.

Before the war the du Pont company was connected with the German I. G. Farben Co., so that they worked both sides of the street. They made money out of the death of every soldier on both sides, out of the suffering of every woman and every child, out of the destruction of every village. Now they plan to make millions wiping out more towns, beginning with yours.

The American people do not want war, either.

But the women of other countries have learned that it is not enough just not to **want** war. We have to **fight against it**, too. We have to raise our voices to the heavens to cry out against everything that prepares for the slaughter.

That is why we ask you to join with us in **protesting** against the destruction of your homes for such a sinister purpose. Make your voices heard in Washington.

Women throughout the world have read about what is happening in Aiken and Barnwell counties and their eyes are upon you. They cannot believe that you will not protest against replacing your happy homes and farms with a factory intended to make the most horrible weapon of destruction known to history, which, **if you and we together do not prevent it**, can wipe out the entire human race!

It is up to us. Join us in our fight for peace. Send delegations to the President and to your Congressmen. Write letters to the press. Make your voices heard!

It is not too late to prevent war. The millions who do not want war have the strength of righteousness. If they are united, they will triumph over the warmakers.

We hope that you will write to us and tell us what you are doing in our common cause, to save peace.

Very sincerely yours,
M. Vaillant Couturier,
General Secretary.

Native Californians Club Observe Silver Anniversary At Annual Open House

On Sunday, December 31, 1950, the Native Californians held their Annual Open House at the beautiful home of the president, Mrs. Vera Franklin, 2627 Raymond Avenue, Los Angeles. This affair celebrated also the completion of 25 years as a club, and with almost 50% of its membership able to trace affiliation with the club within the first year of its organization.

Mrs. Grace Phillips, the artistic little chairman of the Homes and Gardens Committee, made the most of the striking features of the lovely Franklin home, and with white, pink and red poinsettias and holly made the rooms pictures of Christmas cheer and gaiety.

Chairman of Ways and Means, Mrs. Bessie McCaskill, with her committee, used the red and white motif for table recorations and refreshments. In the receiving line were the President, Vera Franklin, beautiful in pale yellow brocade, Mesdames Lauretta Butler, President Emeritus, Ceeil Jones, Chaplain, Lonie Taylor, Vice President, and Maggie Shepard, Secretary.

The club held its Christmas dinner following the receiving hours. A feature of this intimate gathering was the presentation of a beautiful Sun-Tan leather brief bag to the Secretary, Maggie Shepard. Presentation was made by Lauretta Butler, with hearty applause from all of the members, and to the complete and happy surprise of the secretary.

Other members of the Nativ Californians include Mesdames Zelma Boyd, Yola Brinson, Estella Broady, Bessie Burke, Isabelle Yancy, Naomi Dorsey, Theresa Hardwick, Ethel Hampton, Grace Hooks, Viola Jackson, Ann McArthur, Adele McGruder, Erma Perry, Irene Phillips, Gertrude Gordon, Hattie Wilson and Anita Wright.

Boule Held by Zeta Phi Beta a New Orleans Hit

NEW ORLEANS, La.—The Social Calendar of the Zeta Phi Beta Sorority was filled with spicy entertainment with other Greeks and local organizations serving as hosts and hostesses. The local sorors and their friends spared no pains in planning and effectively entertaining the Zetas during their stay in New Orleans. On Tues. evening, December 26 Soror Gertrude P. Jimson and Frater Jimson were host and hostess to the out of town Zetas upon their early arrival to Boule.

The Social Courties continued at 10:00 Wednesday, December 27, at the "Get Acquainted" which was held at the local YWCA with the following chapters of the sorority serving as co-hostesses: Mu Zeta, Baton Rouge.; Beta Epsilon Zeta, Shreveport; Beta Kappa Zeta, Lake Charles. This affair was conducted in typical Marda Gras style with delicious refreshments.

"Coffee Hour" was featured by the Sigma Gamma Rho Sorority, while the "Coke Bar" was conducted by the Alpha Kappa Alpha Sorority. The Phi Beta Sigma Fraternity also entertained their National sisters with a "cocktail party" at the Hayes Chicken Shack. On Friday at 10:00 p.m. the Zeta Sigma dance was held at the spacious and beautiful new Rosenwal Gymnasium at Broad and Calliope. The feature of this gala occasion was the "Grand March."

The closed Zeta banquet was held at Hayes' Chicken Shack and Restaurant at which time awards were presented. Other social courtesies included presentation of flowers by Sigma Gamma Rho, Sigma Shadows, Alpha Kappa Alphas, local Zetas and friends.

The Grand Basileus Dr. Nancy R. Woolridge was the recipient of unlimited courtesies and flowers, and gifts.

As far as hospitality, it seemed as if New Orleans Zetas, other Greeks, and organization, and friends really know what to do, when to do, and where to do that which made Zetas enjoy a grand and glorious Boule with entertainment being just another major part of the program.

ZENITH CLUB CLEARS UP 1950 BUSINESS

Eula Earls, president of the Zenith Social and Charity Club, called a business meeting to clear up the 1950 calendar of the Club. Held at the home of Wini Orr, the club reporter, a majority membership attended.

Mutual praise was exchanged on the successful New Year's Eve party which the club had at the new home of the corresponding secretary, Christabel Morris. Each club member brought an extra couple as guests of the entire club and a wonderful time was had. Horns, hats, and other favors were enjoyed by the seventy funmakers.

Satisfaction was expressed at the thanks received from the Eastside Settlement House on the receipt of the four hundred bags of candy and nuts the girls sent over along with fruit, for one of the parties held at the Settlement House. Incidentally this is the adopted Charity of the Zenith's.

Secret Pals were exchanged and a vote taken on the three new members to be accepted by the club.

The eNighborhood Community Church, Rev. H. Mansfield Collins, pastor, was transformed from its usual setting into a spacious, flower-decorated reception room, for a "A Tea of Honor" which was held.

The general chairman and assistant, Mrs. Dorothy Buckner, Mrs. Willie Mae Cowans; Mrs. Florence Hickock, chairman of decorations and her helpers, caused everything to be at its best, as the receiving line of graceful evening-attired matrons, Mrs. Ruth Bujol, Rev. Geraldine O'Connor, Mrs. Belle Riley (the honoree), Mrs. Florence Hickox, Reverend Ona B. Russell, Mrs. Thelma oJnes, Reverend Lewella M. Evans, Mrs. Dorothy Buckner, Mrs. Amelia D. Collins, Mrs. Willie Mae Cowans, Mrs. Mary L. Parker with mascot, little Patricia Williams, made an additional picturesque setting.

An oriental lace table-cloth, with sparkling glass and silver set-ups, huge center piece of the rarest flowers with numerous birds of Paradise, dainties of many varieties in correspondence with the occasion, had hostesses, Mrs. Hester Wilson who poured tea, and Mrs. Jane Eldridge supervised the punch. Mrs. Mable V. Davis, that efficient person as Mistress of Ceremonies, gave a short but beautiful program; prayer, Rev. G. F. Evans; instrumental solo, Miss Emma Miles; greetings from the People's Independent Church of Christ, Mrs. Valera French; solo, Mr. John Hale, accompanied by our artist of music, Mrs. Margaret Hale; greetings, Mrs. Kathryn Mitchum, assistant executive secretary of the Women's Political Study Club; remarks by Rev. H. Mansfield Collin and Mrs. Amelia Collins.

Response by honoree, whose face outshone the beauty of the "Honolulu" wired orchid which she wore, a gift from the Women's Christian Fellowship of our Western Region. A large number of the city's best were participants of another historical evening.

EAGLE 'FAMILY' ENJOYS EVENING

Unveiling another of her hidden talents, Charlotta Bass, editor and owner of the California Eagle newspaper, entertained her staff with a home cooked Turkey dinner and all the trimmings.

With no one knowing how she found the time to prepare the delicious meal, which she insisted on serving herself, Mrs. Bass graciously saw to all her guests' individual comfort.

Around the beautifully decorated table the guests sat down to a "family" style dinner, and it was just that. The California Eagle family. Poinsettias were the theme and good fellowship and plenty the predominanting features.

Mrs. Bass extended greetings to Margaret Edwards, Minnie Etz-Wilder, Gertrude Gipson, Ellege Pendland, Pauletta and Anton Fears, Bill and Nellie Slaton, Arthur Lewis, Atty. Herbert Simmons, and Wini Orr.

Socialiting

with WINI ORR

Well, it looks like we are going to settle down to the New Year and have plenty to kep us busy the next twelve months.

John Brewer called us to say he is the chairman of the March of Dimes program for our area and what could we do to suggest something to help raise the quota in the district. Our suggestion was to support the National Council of Negro Women at their dance at the El Sombrero Ballroom the last Monday in this month and if we could, maybe we could get together a variety show for those who will not be "dance" minded, but who might have a dime for the most wonderful cause a dime can be spent, the National Infantile Paralysis Drive.

As befits the week after Christmas and the New Year Day the past seven days was more or less quiet. Practically all of the social clubs have started to outline their 1951 Calendars and have held election of officers and cleared up all old business.

New business that we might mention is the fine set up that our good friends Alfred Johnson and Emory Pradia have ventured into. No reason why the team should not be a good one, the prize winning kind, that is. Alfred knows service and Emory knows that cooking. So in your rounds be sure to look in on them at the Clover Club on West Manchester, oLts of luck to them.

It is really nice to know we are reaching the people and just as proof we have the very lovely note from Rita Burney, wishing us all the luck (and we will certainly need it) in our new position. Then there was the MOST complimentary telegram from Ouida Williams on our TEN REPRESENTATIVE BEST DRESSED WOMEN. If we keep getting queries we will do the unusual and re-run the article. We think it is pretty good and the selection of women couldn't be better.

Maurice Saunder's (the gal with the magic cooking ability) is back in the public eye, having taken over the little Meal-in-a-Box business from Hester Guidry.

Hester is resting and playing the grand dame these days after some rather grueling years in business. Ted Hughes is seeing to that.

Please, when sending in news to our desk, include the reporters telephone number. It will help to check dubious spelling of names and sometimes we just might want to get in touch with the club, on the double.

Here tell our Gertrude Gipson was the recipient of a mighty fine Christmas present from the man in her life, a Duplex building, no less.

The Royal Syndicators hold their annual Semi-Formal at the Elks Ballroom this Saturday night. As usual it will be one of the best attended affairs. Just in case you are wondering who the Syndicators are:

De Melvin Dennis, Balfour Gland, D. Webster Curtis, Vince V. King, James N. Reese, Paul Brown, George Allen, William J. Mills, LaFrance Brown, Raymond S. Christian, Moody Dandridge, Sidney L. Des Vigne, Jr., Walter M. Goodlow, D. Overstreet, Frank Eagleson, Lucas J. Harris, Curtis D. Howard, Jack Jones, Charles E. Patterson, Jr., Emerson Smith, Claude L. Shipp, Julius Wesson, Solly Wilson, John B. Wynne, and Frank W. Underwood.

Cookie the Florist, even with all the doings to celebrate his anniversary in business (fifteenth, that is), sent out the cutest desk calendars wrapped in "greetings" to all his customers. The guy deserves the best as that is all he gives.

The names for the column have started to come in and we had better set a deadline on them and let it be the thirty-first of January. Please get all suggestions on the way. Thanks to Miss A. Barnes all the way from San Diego. Thanks to the local contributors, but especially to those from a distance. All will get condiseration and our panel of judges will help us choose the most ear plea[illegible]

Looking over the advance news, we also saw the letter addressed to the "Eagle's Nest" from Bobby Charles Reedburg, and congratulating us on our appointment. Thank you Bobby, and I might add that I like those verses and the ideas you sent in to the Nest.

Well, Ernest Bendy has done it again. To all the hundreds and hundreds of customers who patronie his populzar place, "Dynamite Jackson" is a "Jolly Good Fellow," and well he might be. The annual Paradise Christmas Party was held at the Alpha Bowling Club this past Monday night and there must have been eight or nine hundred persons who attended. The cheer contained in the eight cases of assorted liquors and the turkey and FOUR huge hams helped to make the party a big success. There was dancing and much socializing. Can't begin to name the many we said "hello" to before we got inside the door good, but can't miss the chance to say it was a pleasure to see Lewis and Mrs. Cates out. They happen to be one of our favorite couples.

The Special Activities Committee holds its monthly meeting tonite at the N.A.A.C.P. office. All members know to be there at eight. Lilly Montgomery has things to discuss.

We will call it "thirty" for now, and keep us posted.

Jack And Jill Club Coeds Host Brilliant Affair At Golden State Tearoom

The holiday season was observed by the smart high school and college members of "Jack and Jill" club last Wednesday at the Golden State tea room when an exclusive "holiday fun" party was given in their honor by the parents.

The sparkling and festive decorations gave just the right touch to the charm and bearty of the semi-formal affair. Billowy turres, chiffons and crisp taffetas in delicate rainbow shades seemed to be favorites among the girls.

To name a few participating were Sandra Shields, Mary Ann Baumann, Barbara Grant, Marianne Hamilton, Myrtle Davenport, Arline Provost, Richmona Dunn, Ann Bradford, Chris Lawson, Delores Roberts, Camille Roan, Gloria Hunicutt and others.

On hand also were Noland Johnson, Roger Gomez, Brandon Bolan, Kelly Williams, Stanley Provost, Kendall Jackson, Carl Clay, Marcus Tucker, Charles Smith, and many others too numerous to mention.

Scribe Apologizes for Omissions

DESK CLEARANCE:

Note: Due to the rapid pace of the Holiday week-ends, your very new Social Scribe was forced to overlook some of the wonderful affairs that came in. It it isn't too late we would like to bring them to the attention of our readers.

The Herbert N. Collins entertained in their Buckingham Road home with holiday festivities. Taking the form of a New Year's dinner, with all the appropriate fixings, H. A. Howard started the celebration with his "secret formula" for the best in egg-nog. Those enjoying the evening were: Dr. and Mrs. Craig from San Francisco; Mr. and Mrs. J. Hutton; Mr. and Mrs. Ferninand White, Chicago, Ill.; Mrs. Leona Simons, New York; Mrs. Nollie DeGrue; Mr. and Mrs. Alvin Hatcher; Mr. and Mrs. F. Anthony; Mrs. Roberts, New Orleans, La.; Mr. and Mrs. Walter Ferdinand; Mr. and Mrs. Leroy Jones; Mr. and Mrs. George Keller; Mr. and Mrs. H. A. Howard; Mrs. Margaret Lee Edwards.

Then we find the Urban League Guild elected the following members to serve in office for the coming year: Julie Carasco, president; Judy Cozzens, vice president; Helen Maupin, recording secretary; Olive Stocking, corresponding secretary; Katherine Miller, treasurer. Their meeing took place at the home of Mrs. Clementine N. English, and installation was made by Atty. Bernard Jefferson.

Seems in our haste we have overlooked the notation from the Norman Zuerchers cocktail party that started with the holiday whirl of things. Guests were the Harold Maxwell's; Eddie Marshall's; Porter Lawson's; Lee Lockridge's; Connie Holmes; Joseph Cardlton, Wally Hunter, Frank Patterson, and Nathaniel Washington.

We see that Miss Mamie Eberhardt, a pianist of no small talent from Chicago and Boston is spending the winter in Los Angeles, and it at the Watkins Hotel.

This one seems to have been a little before our taking over, but we certainly wish Mr. Leon S. Smith of Long Beach a very belated Happy Birthday. His brother and sister-in-law, the Lymon L. Smith's of Somerset Drive in this city, entertained him with a Mexican dinner, and in to enjoy the gay bachelor's natal day were: Mayme Butler, Rhea Clayton, Janice Clayton, Helen Hicks Blodgett, and the Lemon Smith's.

The Cosmopolitan Chess Club is asking for new members. Seems this is a young folks club and meets every Wednesday evening at the Club House, 2180 West Adams. Noteworthy is the fact that the 1950 championship was won by a young colored student, Sammy Morrow, and is the first Negro to hold the honor in the Club's history.

Looks like we have just caught up with ourselves and we hope to keep on the ball from here on.

Gay-La Club Recital

The Gay-La Club presents Dorothy Speights and Mary Alice Stebbins in joint recital at Philanthropy Hall, 1419 S. Wilton Place, in the near future.

Dorothy Speights is from Los Angeles, and is well known. She is being presented in concert at the Philharmonic Theatre in February. From there she will go to San Diego, San Francisco, Chicago, Boston, New York, and then to London, England, in the Croydon Hall, May 10.

GROWING CRISIS REVEALED IN NETHERLANDS

THE HAGUE—Growing deterioration of the Netherlands economic situation was unanimously admitted by the Dutch press in the new year's surveys. The papers point out that during the past year prices of foodstuffs and other consumption goods rose on an average of 20 percent. The biggest increases were in meat, butter, coffee and rice and prices are still rising.

The Marshall Plan and armaments program, the papers state, led to the loss of markets, a foreign trade deficit of more than 1,000 million guilders and to an acute crisis in agriculture as well as in the textile, leather and fish industries.

More than 110 million kilograms of vegetables and fruit have been destroyed to keep prices up. Growing unemployment forced more than 25,000 farmers and workers to migrate to Australia and South American states in search of work.

POLAND STARTS NEW YEAR WITH PRICE CUTS

WARSAW—New reductions of prices of a large number of general consumption and capital goods in Poland were announced by the minister of trade on New Year's eve. As a result of higher productivity and the favorable influence of the currency reform the following price reductions operate as from January 1:

Pork meat by 10 percent, sausages and smoked meats by 5 percent, soap by 10 percent, pork fat by 5 percent, footwear from 10 to 20 percent, leather goods 13 percent, electric bulbs 20 percent, window glass 17 percent, metal foundry products 29 percent, electric machines and transformers 25 percent, tractors, lorries, trailers and motor pumps 14 percent, tires and tubes for lorries, tractors and cars by 24 percent, technical textiles 15 percent, technical and industrial paper and cardboard 28 percent.

1950 OUTPUT HERALDS PROSPERITY, PEACE FOR CZECHOSLOVAKIA

PRAGUE—Last year the Czechoslovak people ate more than in 1949, industrial wages increased by 26 percent, and there was a new series of price reductions on the "free" (unrationed) market, statistics just released show. The rapidly rising standard of living is connected with the successes achieved in the industrial plan, which was 100 percent fulfilled, President Klement Gottwald pointed out in his New Year's message to the people. Production in the heavy industry sector alone has increased by 15.4 percent in comparison with 1949; and that of heavy machinery by one-quarter, or by half again as compared with 1948.

The per capita industrial output for 1950 was 80 percent higher than before the war, an indication of the great advance in the industrial level throughout Czechoslovakia, the president emphasized.

Not only in the urban centers, but in the countryside, have there been notable successes, particularly in the transformation of small farming to cooperative farming in vast areas, resulting in an increase of 5 percent in agricultural output. The socialist sector of agriculture now includes 22 percent of the entire agricultural area.

Remarkable progress—35 percent increase—has also been made in the building industry, and 12 percent more flats were built compared with last year.

Foreign trade is maintaing its level.

CHINA OVERFULFILLS 1950 ECONOMIC PLAN

MUKDEN—People of the northeast have overfulfilled their 1950 task of economic construction, and the provocative American bombings have resulted in greater enthusiasm for production.

Alongside the increased production has gone a steady improvement in the standard of living of the workers and peasants. During 1950 the purchasing power of the people rose by 32 percent in the countryside and 20.5 percent in the cities. Prices in the northeast have in the main remained stable.

The total value of publicly-owned industrial output increased by 100.15 percent, compared with 1949, exceeding the plan by 1.8 percent, while the output of farm products increased by 44.1 percent, overfulfilling the plan by 3.4 percent.

In State-owned trade, purchases rose 178.7 percent compared with the previous year, while sales increased by 112.4 percent. The sale of cloth alone equalled 226 percent that of 1949.

Cooperatives also showed a great development. Membership increased by 127 percent over 1949, retail trade by 494 percent, exceeding the plan by 25.8 percent, and purchases increased by 394 percent, overfulfilling the plan by 7.4 percent. Cooperative economy has become a great power in the life of the people in the northeast and is making rapid development.

Privately-owned industry and commerce have also developed owing to the development of state-owned economy and increase in the purchasing power of the people. The value of production output in private industry in Mukden during the third quarter of the year rose by 232 percent compared to the first quarter, business capital increased by 208 percent, industrial capital by 194 percent, and trade turnover by 126 percent.

RADIOS RESTRICTED

SOFIA — Titoite authorities have clamped down restrictions on sales of radio sets in Yugoslavia, according to the Belgrade press. Radios can be purchased only on permits from the bosses of the so-called "trade unions," which in practice means that they are issued to Titoite supporters only.

NEWS FROM EUROPE AND OTHER COUNTRIES

(Continued from Page 3)

This revelation was made by Glenn E. Brockway, representative of the Federal Bureau of Employment Security in San Francisco, who declared that about 90,000 workers could be recruited in the United States colony of Puerto Rico alone.

He added that an "undetermined" number could be obtained from Mexico and other Central and South American countries.

REPEAL MCCARRAN ACT

NEW YORK.—Thirty-two prominent Americans including two Nobel Prize winners, six bishops and leading educators and scientists have announced the formation of a national committee to repeal the McCarran Act. They have been joined by over 1,000 others from every state.

The committee spokesmen, John B. Thompson, dean of the Rockefeller Memorial Chapel University of Chicago, and Robert Morss Lovett, former acting governor of the Virgin Islands, explained that the committee grew out of countless letters since the passage of the McCarran Act urging them to lead a movement for repeal.

Representative Adolph Sabath of Illinois district has introduced a bill to repeal the McCarran Act. The committee intends to launch a campaign in Congress to fully support this measure.

U. S. COST OF LIVING

NEW YORK.—The cost of living in the United States has reached a record height, according to official statistics the government has released. While workers are already paying 20 per cent more taxes, with even higher taxation to come, prices rose steadily in the months following the Korea invasion. Price tickets in shops, department stores, haberdasheries and restaurants are changed almost every day with the prices of commodities and foodstuffs rising by the hour.

The price of eggs rose 38 per cent, milk 11 per cent, bread six per cent and beef eight per cent in the last three months. Bus fares are now a third higher than four weeks ago.

The purchasing power of the dollar in terms of food is now only 44 cents compared with 1939. The official cost of living index now stands at over 187, against 100 in 1939. Haircuts went from 85 cents to one dollar. Corporation profits are the highest in history, reaching a total of 50,000 million dollars.

KOREA NEWS BANNED

NEW YORK.—As the result of pressure from William Barrett, the State Department's chief public relations official and head of the National Board for Psychological Warfare, the top-ranking director of the Department of Public Information of the United Nations Secretariat, the Norwegian Tor Gjesdal, has imposed a censorship on all news and reports concerning Korea passing through his department.

Informed sources at Lake Success quote Assistant State Secretary Barrett's statements to the effect that American military circles are seriously worried at the effect caused by the publication of defeatist statements, letters and petitions sent to the United Natoins Secretariat by individuals and organizations on the subject of Korea.

U. S. MONOPOLIES TO CONTROL WEST GERMAN INDUSTRY

THE HAGUE — The United States government with the help of big monopolies is preparing complete American control of West German industry, the Dutch paper, De Vaarheid, states in an article on the situation in Western Germany.

Some time ago discussions of a secret nature were held between the secretary of commerce, Charles Sawyer, his right-hand man, William Harrison, and representatives of the largest American monopolies in a small town in the state of Georgia. The main topic of discussion was the increase of private American investments in West Germany's steel industry.

The participants of the meeting agreed that the main condition of American capital investments in West German industry is the handing over of control over German shares to American shareholders. It was resolved that American investments in companies like Deutsche Edelatahlwerke, Ruhrstahl A.G., Bochumer Verein and others must amount to 51 percent.

At present representatives of General Motors, Ford and General Electric companies are trying to seize a large part of the shares of companies like Vereinigte Stahlwerke at Dusseldorf, Krupp Works at Essen, Mannesmann concern and others.

"LOST" GERMAN POW'S SERVING IN U. S. ARMY

BERLIN—The German Democratic Republic news agency ADN quotes reports from United States authorities in Steglitz (American Zone) that the United States High Command is using former German prisoners of war in the United States army.

According to incomplete reports, at least 6,000 German soldiers who left prisoner-of-war camps in the United States have entered American military service. This is in accordance with the American policy of bribing fascist and declassed elements from Europe to serve in the American forces for a specified period with the promise of possible granting of United States citizenship.

MAGAZINE BANNED

BERLIN—British authorities in Western Germany have banned the illustrated magazine Der Stern for having published an article on the excesses of luxury enjoyed by the British, American and French occupation officials at the expense of German taxpayers.

GUNS-BEFORE-BUTTER POLICY SENDS BRITISH PRICES UP

LONDON—As a result of the armaments drive and the policy of guns before butter, prices have gone up in Britain during the past year. Clothing, food, furniture, coal, fares, pots and pans and cinema seats are some of the things which now cost the British people considerably more than 12 months ago and not a day now passes without some new price increase being announced.

During 1950 the price of many fods rose, especially butter, bacon, pork sausage and rabbits. The price of woolen clothing especially is rising at an alarming rate.

A housewife buying a pair of large sheets had to pay one pound 18 shillings 10 pence at the beginning of 1950 and two pounds 15 shillings 8 pence by the end of the year.

NEHRU TO PRESENT PEACE PLAN

LONDON—Indian Prime Minister Pandit Nehru is to place before the conference of Commonwealth Prime Ministers in London, a "three-point peace plan," according to the London Daily Mail.

Nehru's three points are said to be: The ending of hostilities in Korea; full recognition of the Chinese People's Republic; and the promotion of world peace by cooperation with the Soviet Union.

The report adds that Nehru "has let it be known once more that he and his government are not interested in any far-reaching defense proposals for insuring the armed security of the commonwealth. India's policy remains one of neutrality, which will be enforced immediately should there be a world war."

BRITISH STUDENTS WANT TO STAY IN IUS

LONDON — Fifteen thousand six hundred thirty-two British university students voted "yes" and 18,806 "no" in the referendum conducted on the question: "Is it your belief that the best interests of the British students will be served by the continued membership of the National Union of Students (NUS) in the International Union of Students?"

The referendum followed the decision of the governing body of the National Union of Students, the NUS Council, to continue affiliation, and it was precipitated by the resignation of executive leaders of the NUS who did not agree with the decision.

Many unions, including large and powerful ones such as that at Birmingham University and the London School of Economics, boycotted the referendum by a decision of the general meetings of their students. They declared the holding of a referendum to be unconstitutional and unnecessary, as the students, through their elected representatives to the NUS Council, had expressed their desire to remain affiliated to the IUS. Some 70 percent of the British students did not take part in the referendum.

In any case, the referendum has only a "consultative" value, as the final word on affiliation will be pronounced by the NUS Council meeting in March this year. The Council is the only meeting which has the power to alter the present position.

YUGOSLAV PEASANTS RESIST TITOITE "COOPERATIVES"

SOFIA — Yugoslav working peasants, who are forced to slave for the profits of the rich kulaks in the so-called "labor cooperatives," are in revolt against this new form of exploitation invented by the Titoites, judging from reports in the Titoite press.

In Macedonia, where it is admitted that the poor peasants work in these kulak capitalist enterprises for less than 80 dinars a day—hardly enough to supply their families with bread—the "cooperatives" are being abandoned en masse by the peasants.

It is reported from other parts of the country that "cooperatives" have disintegrated.

Efforts to mobilize the peasants for "voluntary" unpaid labor are meeting with resistance, which is assuming a mass character.

In Istria, peasants who refuse to join the village labor brigades have been mobilized for forced labor in the mines. During the past few weeks all the peasants under the age of 60 in the village of Revenie have been mobilized for work on a railway line.

TURKISH UNEMPLOYED SUFFERING FROM STARVATION

SOFIA—The Turkish newspaper Houriet, describing the terrible plight of thousands of Istanbul's unemployed relates the case of a family which is living on cooked grass. The paper quotes a letter to its editorial office from Mehmed Kadri Aladja who has a wife and child and who has been seeking a job in vain for the last 12 months.

Mehmed Kadri Aladja says that at first he managed to exist by selling all his furniture but added: "At present all of us are starving. We cook and eat the grass we pick in the field. We sleep under a mulberry tree and use a ram's hide for a bed.

The unemployed worker concluded in desperation by offering to sell "any part of my body which would be of some value to medical science."

PRESERVING "WHITE SUPREMACY" IN N. RHODESIA

LONDON—A remarkably frank admission of the methods employed by British imperialism in Northern Rhodesia to hide their unbridled exploitation of the people under the guise of racism is contained in an article by Patrick O'Donovan in the Sunday Observer (Dec. 24, 1950).

"An unnatural state of affairs exists in the colony of Northern Rhodesia," O'Donovan writes. "The Colonial Office, while taking full responsibility in parliament and before the world for what happens here, has lost the power to effect anything of importance without the consent of the white minority," who in their turn violently control the colony.

O'Donovan attributes "this remarkable state of affairs" to the work of one man—Roy Welensky, ex-barman, prize-fighter and war-time "Director of Manpower" in Northern Rhodesia who must be consulted on any proposals made in London concerning the future of the African colonies.

While still playing on the "white versus black" theme for justification for this blatant policy of exploitation, O'Donovan is forced to admit the real motivation of such a policy—to maintain British control of the "rich and turbulen copper belt, which is the fifth copper producer in the world and on which the prosperity of Northern Rhodesia depends." More than 60 percent of the white settlers on this copper belt are Afrikaners from the Union of South Africa, and this is causing the British great uneasiness. "It is not known how many (of the Afrikaners—ed.) are in sympathy with Malan's Nationalist Party," O'Donovan adds.

O'Donovan devotes a couple of sentences to the fate of the African people. "Office political policy follows in industry what appears to be the invariable white policy in Africa; Africans have no chance of approaching the better paid jobs," nor does he see any chance of anyone now in control guarding the African's interests.

NEW ATOMIC FURNACE TO BE BUILT IN CANADA

OTTAWA—A 35 million dollar atomic furnace—key instrument in the whole atomic process—is to be built at Chalk River, in the province of Ontario, the Canadian government has announced. The furnace will be far more powerful than the one at present in use at Canada's Atomic Research Station.

Owing to the strength of the peace sentiment in the country, Trade Minister C. D. Howe, in making the announcement said that the furnace would be used to promote Canada's "outstanding position" in peaceful atomic development. It is well known here, however, that the primary concern of the Chalk River station, where full military secrecy prevails, is with phases of atom bomb construction.

ARMAMENTS

WASHINGTON—United States armament deliveries to Europe last year amounted to 725,000 tons, including 1,600 tanks and 750 heavy guns, according to a Pentagon report just published. From March, 1950, until the end of the year, 478,000 tons of war material were shipped to Western European countries and 187,000 tons to Greece, Turkey and Iran.

Native Californians Club Observe Silver Anniversary At Annual Open House

On Sunday, December 31, 1950, the Native Californians held their Annual Open House at the beautiful home of the president, Mrs. Vera Franklin, 2627 Raymond Avenue, Los Angeles. This affair celebrated also the completion of 25 years as a club, and with almost 50% of its membership able to trace affiliation with the club within the first year of its organization.

Mrs. Grace Phillips, the artistic little chairman of the Homes and Gardens Committee, made the most of the striking features of the lovely Franklin home, and with white, pink and red poinsettias and holly made the rooms pictures of Christmas cheer and gaiety.

Chairman of Ways and Means, Mrs. Bessie McCaskill, with her committee, used the red and white motif for table recorations and refreshments. In the receiving line were the President, Vera Franklin, beautiful in pale yellow brocade, Mesdames Lauretta Butler, President Emeritus, Ceeil Jones, Chaplain, Lonie Taylor, Vice President, and Maggie Shepard, Secretary.

The club held its Christmas dinner following the receiving hours. A feature of this intimate gathering was the presentation of a beautiful Sun-Tan leather brief bag to the Secretary, Maggie Shepard. Presentation was made by Lauretta Butler, with hearty applause from all of the members, and to the complete and happy surprise of the secretary.

Other members of the Nativ Californians include Mesdames Zelma Boyd, Yola Brinson, Estella Broady, Bessie Burke, Isabelle Yancy, Naomi Dorsey, Theresa Hardwick, Ethel Hampton, Grace Hooks, Viola Jackson, Ann McArthur, Adele McGruder, Erma Perry, Irene Phillips, Gertrude Gordon, Hattie Wilson and Anita Wright.

The Club Mother, Mrs. Laura Young was unable to attend having spent the holidays with her daughter, Mrs. Doris Morris, in Seattle. Miss Gloria Jetter and Miss Friese furnished music on the piano during the afternoon.

Boule Held by Zeta Phi Beta a New Orleans Hit

NEW ORLEANS, La.—The Social Calendar of the Zeta Phi Beta Sorority was filled with apicy entertainment with other Greeks and local organizations serving as hosts and hostesses. The local sorors and their friends spared no pains in planning and effectively entertaining the Zetas during their stay in New Orleans. On Tues evening, December 26 Soror Gertrude P. Jimson and Frater Jimson were host and hostess to the out of town Zetas upon their early arrival to Boule.

The Social Courties continued at 10:00 Wednesday, December 27, at the "Get Acquainted" which was held at the local YWCA with the following chapters of the sorority serving as co-hostesses: Mu Zeta, Baton Rouge.; Beta Epsilon Zeta, Shreveport; Beta Kappa Zeta, Lake Charles. This affair was conducted in typical Marda Gras style with delicious refreshments.

"Coffee Hour" was featured by the Sigma Gamma Rho Sorority, while the "Coke Bar" was conducted by the Alpha Kappa Alpha Sorority. The Phi Beta Sigma Fraternity also entertained their National sisters with a "cocktail party" at the Hayes Chicken Shack. On Friday at 10:00 p.m. the Zeta-Sigma dance was held at the spacious and beautiful new Rosenwal Gymnasium at Broad and Calliope. The feature of this gala occasion was the "Grand March."

The closed Zeta banquet was held at Hayes' Chicken Shack and Restaurant at which time awards were presented. Other social courtesies included presentation of flowers by Sigma Gamma Rho, Sigma Shadows, Alpha Kappa Alphas, local Zetas and friends.

The Grand Basileus Dr. Nancy B Woolridge was the recipient of unlimited courtesies and flowers, and gifts.

As far as hospitality, it seemed as if New Orleans Zetas, other Greeks, and organization, and friends really know what to do, when to do, and where to do that which made Zetas enjoy a grand and glorious Boule with entertainment being just another major part of the program.

ZENITH CLUB CLEARS UP 1950 BUSINESS

Eula Earls, president of the Zenith Social and Charity Club, called a business meeting to clear up the 1950 calendar of the Club. Held at the home of Wini Orr, the club reporter, a majority membership attended.

Mutual praise was exchanged on the successful New Year's Eve party which the club had at the new home of the corresponding secretary, Christabel Morris. Each club member brought an extra couple as guests of the entire club and a wonderful time was had. Horns, hats, and other favors were enjoyed by the seventy funmakers.

Satisfaction was expressed at the thanks received from the Eastside Settlement House on the receipt of the four hundred bags of candy and nuts the girls sent over along with fruit, for one of the parties held at the Settlement House. Incidentally this is the adopted Charity of the Zenith's.

Secret Pals were exchanged and a vote taken on the three new members to be accepted by the club.

The Zenith's thank their public for the support given them throughout the past year and hope to sponsor worthwhile affairs for the enjoyment of their charities, along with a hearty wish for prosperity in the New Year.

EAGLE 'FAMILY' ENJOYS EVENING

Unveiling another of her hidden talents, Charlotta Bass, editor and owner of the California Eagle newspaper, entertained her staff with a home cooked Turkey dinner and all the trimmings.

With no one knowing how she found the time to prepare the delicious meal, which she insisted on serving herself, Mrs. Bass graciously saw to all her guests' individual comfort.

Around the beautifully decorated table the guests sat down to a "family" style dinner, and it was just that. The California Eagle family. Poinsettias were the theme and good fellowship and plenty the predominanting features.

Mrs. Bass extended greetings to Margaret Edwards, Minnie Etz-Wilder, Gertrude Gipson, Ellege Pendland, Pauletta and Anton Fears, Bill and Nellie Slaton, Arthur Lewis, Atty. Herbert Simmons, and Wini Orr.

Socialiting

with
WINI ORR

Well, it looks like we are going to settle down to the New Year and have plenty to kep us busy the next twelve months.

John Brewer called us to say he is the chairman of the March of Dimes program for our area and what could we do to suggest something to help raise the quota in the district. Our suggestion was to support the National Council of Negro Women at their dance at the El Sombrero Ballroom the last Monday in this month and if we could, maybe we could get together a variety show for those who will not be "dance" minded, but who might have a dime for the most wonderful cause a dime can be spent, the National Infantile Paralysis Drive.

As befits the week after Christmas and the New Year Day the past seven days was more or less quiet. Practically all of the social clubs have started to outline their 1951 Calendars and have held election of officers and cleared up all old business.

New business that we might mention is the fine set up that our good friends Alfred Johnson and Emory Pradia have ventured into. No reason why the team should not be a good one, the prize winning kind, that is. Alfred knows service and Emory knows that cooking. So in your rounds be sure to look in on them at the Clover Club on West Manchester, oLts of luck to them.

It is really nice to know we are reaching the people and just as proof we have the very lovely note from Rita Burney, wishing us all the luck (and we will certainly need it) in our new position. Then there was the MOST complimentary telegram from Ouida Williams on our TEN REPRESENTATIVE BEST DRESSED WOMEN. If we keep getting queries we will do the unusual and re-run the article. We think it is pretty good and the selection of women couldn't be better.

Maurice Saunder's (the gal with the magic cooking ability) is back in the public eye, having taken over the little Meal-in-a-Box business from Hester Guidry.

Hester is resting and playing the grand dame these days after some rather grueling years in business. Ted Hughes is seeing to that.

Please, when sending in news to our desk, include the reporters telephone number. It will help to check dubious spelling of names and sometimes we just might want to get in touch with the club, on the double.

Here tell our Gertrude Gipson was the recipient of a mighty fine Christmas present from the man in her life, a Duplex building, no less.

The Royal Syndicators hold their annual Semi-Formal at the Elks Ballroom this Saturday night. As usual it will be one of the best attended affairs. Just in case you are wondering who the Syndicators are:

De Melvin Dennis, Balfour Gland, D. Webster Curtis, Vince V. King, James N. Reese, Paul Brown, George Allen, William J. Mills, LaFrance Brown, Raymond S. Christian, Moody Dandridge, Sidney L. Des Vigne, Jr., Walter M. Goodlow, D. Overstreet, Frank Eagleson, Lucas J. Harris, Curtis D. Howard, Jack Jones, Charles E. Patterson, Jr., Emerson Smith, Claude L. Shipp, Julius Wesson, Solly Wilson, John B. Wynne, and Frank W. Underwood.

Cookie the Florist, even with all the doings to celebrate his anniversary in business (fifteenth, that is), sent out the cutest desk calendars wrapped in "greetings" to all his customers. The guy deserves the best as that is all he gives.

The names for the column have started to come in and we had better set a deadline on them and let it be the thirty-first of January. Please get all suggestions on the way. Thanks to Miss A. Barnes all the way from San Diego. Thanks to the local contributors, but especially to those from a distance. All will get condiseration and our panel of judges will help us choose the most ear plea[illegible].

Looking over the advance news, we also saw the letter addressed to the "Eagle's Nest" from Bobby Charles Reedburg, and congratulating us on our appointment. Thank you Bobby, and I might add that I like those verses and the ideas you sent in to the Nest.

Well, Ernest Bendy has done it again. To all the hundreds and hundreds of customers who patronie his populzar place, "Dynamite Jackson" is a "Jolly Good Fellow," and well he might be. The annual Paradise Christmas Party was held at the Alpha Bowling Club this past Monday night and there must have been eight or nine hundred persons who attended. The cheer contained in the eight cases of assorted liquors and the turkey and FOUR huge hams helped to make the party a big success. There was dancing and much socializing. Can't begin to name the many we said "hello" to before we got inside the door good, but can't miss the chance to say it was a pleasure to see Lewis and Mrs. Cates out. They happen to be one of our favorite couples.

The Special Activities Committee holds its monthly meeting tonite at the N.A.A.C.P. office. All members know to be there at eight. Lilly Montgomery has things to discuss.

We will call it "thirty" for now, and keep us posted.

Jack And Jill Club Coeds Host Brilliant Affair At Golden State Tearoom

The holiday season was observed by the smart high school and college members of "Jack and Jill" club last Wednesday at the Golden State tea room when an exclusive "holiday fun" party was given in their honor by the parents.

The sparkling and festive decorations gave just the right touch to the charm and bearty of the semi-formal affair. Billowy turres, chiffons and crisp taffetas in delicate rainbow shades seemed to be favorites among the girls.

To name a few participating were Sandra Shields, Mary Ann Baumann, Barbara Grant, Marianne Hamilton, Myrtle Davenport, Arline Provost, Richmona Dunn, Ann Bradford, Chris Lawson, Delores Roberts, Camille Roan, Gloria Hunicutt and others.

On hand also were Noland Johnson, Roger Gomez, Brandon Bolan, Kelly Williams, Stanley Provost, Kendall Jackson, Carl Clay, Marcus Tucker, Charles Smith, and many others too numerous to mention.

Parents too, were in on the fun with Canasta and Bridge being the popular games. Mrs. Elois Davis, president of the L.A. chapter, dropped into exchange New Year's greetings with the parents.

Noticed among the many parents were the popular Kelly Williams, George Canadys, and Rufus Portwigs. Not seen socially often was the charming school principal, Edna Cohen, with niece Juanita Rodriquez.

Credit for this most brilliant and successful affair given to date for the group, goes to Mesdames: Cleoth Provost, serving as chairman; Helen Hamilton, Ethel Provost, Gladyce Peyton, Angie Bell Nicholas, Corona Baumann, Alberta Stanley, and Amelia Hunicutt.

TITO'S JAILS CRAMMED WITH PATRIOTS

The prison is packed with Communists and anti-Tito resistance fighters. The same report said that the majority of the people rounded up in Slovenia by the fascist police for opposing the Titoite regime are sent to concentration camps where they are forced to work 10 to 12 hours daily at hard physical labor.

Scribe Apologizes for Omissions

DESK CLEARANCE:

Note: Due to the rapid pace of the Holiday week-ends, your very new Social Scribe was forced to overlook some of the wonderful affairs that came in. It it isn't too late we would like to bring them to the attention of our readers.

The Herbert N. Collins entertained in their Buckingham Road home with holiday festivities. Taking the form of a New Year's dinner, with all the appropriate fixings, H. A. Howard started the celebration with his "secret formula" for the best in egg-nog. Those enjoying the evening were: Dr. and Mrs. Craig from San Francisco; Mr. and Mrs. J. Hutton; Mr. and Mrs. Ferninand White, Chicago, Ill.; Mrs. Leona Simons, New York; Mrs. Nollie DeGrue; Mr. and Mrs. Alvin Hatcher; Mr. and Mrs. F. Anthony; Mrs. Roberts, New Orleans, La.; Mr. and Mrs. Walter Ferdinand; Mr. and Mrs. Leroy Jones; Mr. and Mrs. George Keller; Mr. and Mrs. H. A. Howard; Mrs. Margaret Lee Edwards.

Then we find the Urban League Guild elected the following members to serve in office for the coming year: Julie Carasco, president; Judy Cozzens, vice president; Helen Maupin, recording secretary; Olive Stocking, corresponding secretary; Katherine Miller, treasurer. Their meeing took place at the home of Mrs. Clementine N. English, and installation was made by Atty. Bernard Jefferson.

Seems in our haste we have overlooked the notation from the Norman Zuerchers cocktail party that started with the holiday whirl of things. Guests were the Harold Maxwell's; Eddie Marshall's; Porter Lawson's; Lee Lockridge's; Connie Holmes; Joseph Cardlton, Wally Hunter, Frank Patterson, and Nathaniel Washington.

We see that Miss Mamie Eberhardt, a pianist of no small talent from Chicago and Boston is spending the winter in Los Angeles, and it at the Watkins Hotel.

This one seems to have been a little before our taking over, but we certainly wish Mr. Leon S. Smith of Long Beach a very belated Happy Birthday. His brother and sister-in-law, the Lymon L. Smith's of Somerset Drive in this city, entertained him with a Mexican dinner, and in to enjoy the gay bachelor's natal day were: Mayme Butler, Rhea Clayton, Janice Clayton, Helen Hicks Blodgett, and the Lemon Smith's.

The Cosmopolitan Chess Club is asking for new members. Seems this is a young folks club and meets every Wednesday evening at the Club House, 2180 West Adams. Noteworthy is the fact that the 1950 championship was won by a young colored student, Sammy Morrow, and is the first Negro to hold the honor in the Club's history.

Looks like we have just caught up with ourselves and we hope to keep on the ball from here on.

Gay-La Club Recital

The Gay-La Club presents Dorothy Speights and Mary Alice Stebbins in joint recital at Philanthropy Hall, 1419 S. Wilton Place, in the near future.

Dorothy Speights is from Los Angeles, and is well known. She is being presented in concert at the Philharmonic Theatre in February. From there she will go to San Diego, San Francisco, Chicago, Boston, New York, and then to London, England, in the Croydon Hall, May 10.

GROWING CRISIS REVEALED IN NETHERLANDS

THE HAGUE—Growing deterioration of the Netherlands economic situation was unanimously admitted by the Dutch press in the new year's surveys. The papers point out that during the past year prices of foodstuffs and other consumption goods rose on an average of 20 percent. The biggest increases were in meat, butter, coffee and rice and prices are still rising.

The Marshall Plan and armaments program, the papers state, led to the loss of markets, a foreign trade deficit of more than 1,000 million guilders and to an acute crisis in agriculture as well as in the textile, leather and fish industries.

More than 110 million kilograms of vegetables and fruit have been destroyed to keep prices up. Growing unemployment forced more than 25,000 farmers and workers to migrate to Australia and South American states in search of work.

POLAND STARTS NEW YEAR WITH PRICE CUTS

WARSAW—New reductions of prices of a large number of general consumption and capital goods in Poland were announced by the minister of trade on New Year's eve. As a result of higher productivity and the favorable influence of the currency reform the following price reductions operate as from January 1:

Pork meat by 10 percent, sausages and smoked meats by 5 percent, soap by 10 percent, pork fat by 5 percent, footwear from 10 to 20 percent, leather goods 13 percent, electric bulbs 20 percent, window glass 17 percent, metal foundry products 29 percent, electric machines and transformers 25 percent, tractors, lorries, trailers and motor pumps 14 percent, tires and tubes for lorries, tractors and cars by 24 percent, technical textiles 15 percent, technical and industrial paper and cardboard 28 percent.

1950 OUTPUT HERALDS PROSPERITY, PEACE FOR CZECHOSLOVAKIA

PRAGUE—Last year the Czechoslovak people ate more than in 1949, industrial wages increased by 26 percent, and there was a new series of price reductions on the "free" (unrationed) market, statistics just released show. The rapidly rising standard of living is connected with the successes achieved in the industrial plan, which was 100 percent fulfilled, President Klement Gottwald pointed out in his New Year's message to the people. Production in the heavy industry sector alone has increased by 15.4 percent in comparison with 1949; and that of heavy machinery by one-quarter, or by half again as compared with 1948.

The per capita industrial output for 1950 was 80 percent higher than before the war, an indication of the great advance in the industrial level throughout Czechoslovakia, the president emphasized.

Not only in the urban centers, but in the countryside, have there been notable successes, particularly in the transformation of small farming to cooperative farming in vast areas, resulting in an increase of 5 percent in agricultural output. The socialist sector of agriculture now includes 22 percent of the entire agricultural area.

Remarkable progress—35 percent increase—has also been made in the building industry, and 12 percent more flats were built compared with last year.

Foreign trade is maintaing its level.

CHINA OVERFULFILLS 1950 ECONOMIC PLAN

MUKDEN—People of the northeast have overfulfilled their 1950 task of economic construction, and the provocative American bombings have resulted in greater enthusiasm for production.

Alongside the increased production has gone a steady improvement in the standard of living of the workers and peasants. During 1950 the purchasing power of the people rose by 32 percent in the countryside and 20.5 percent in the cities. Prices in the northeast have in the main remained stable.

The total value of publicly-owned industrial output increased by 100.15 percent, compared with 1949, exceeding the plan by 1.8 percent, while the output of farm products increased by 44.1 percent, overfulfilling the plan by 3.4 percent.

In State-owned trade, purchases rose 178.7 percent compared with the previous year, while sales increased by 112.4 percent. The sale of cloth alone equalled 226 percent that of 1949.

Cooperatives also showed a great development. Membership increased by 127 percent over 1949, retail trade by 494 percent, exceeding the plan by 25.8 percent, and purchases increased by 394 percent, overfulfilling the plan by 7.4 percent. Cooperative economy has become a great power in the life of the people in the northeast and is making rapid development.

Privately-owned industry and commerce have also developed owing to the development of state-owned economy and increase in the purchasing power of the people. The value of production output in private industry in Mukden during the third quarter of the year rose by 232 percent compared to the first quarter, business capital increased by 208 percent, industrial capital by 194 percent, and trade turnover by 126 percent.

RADIOS RESTRICTED

SOFIA — Titoite authorities have clamped down restrictions on sales of radio sets in Yugoslavia, according to the Belgrade press. Radios can be purchased only on permits from the bosses of the so-called "trade unions," which in practice means that they are issued to Titoite supporters only.

NEWS FROM EUROPE AND OTHER COUNTRIES

(Continued from Page 3)

This revelation was made by Glenn E. Brockway, representative of the Federal Bureau of Employment Security in San Francisco, who declared that about 90,000 workers could be recruited in the United States colony of Puerto Rico alone.

He added that an "undetermined" number could be obtained from Mexico and other Central and South American countries.

REPEAL MCCARRAN ACT

NEW YORK.—Thirty-two prominent Americans including two Nobel Prize winners, six bishops and leading educators and scientists have announced the formation of a national committee to repeal the McCarran Act. They have been joined by over 1,000 others from every state.

The committee spokesmen, John B. Thompson, dean of the Rockefeller Memorial Chapel University of Chicago, and Robert Morss Lovett, former acting governor of the Virgin Islands, explained that the committee grew out of countless letters since the passage of the McCarran Act urging them to lead a movement for repeal.

Representative Adolph Sabath of Illinois district has introduced a bill to repeal the McCarran Act. The committee intends to launch a campaign in Congress to fully support this measure.

U. S. COST OF LIVING

NEW YORK.—The cost of living in the United States has reached a record height, according to official statistics the government has released. While workers are already paying 20 per cent more taxes, with even higher taxation to come, prices rose steadily in the months following the Korea invasion. Price tickets in shops, department stores, haberdasheries and restaurants are changed almost every day with the prices of commodities and foodstuffs rising by the hour.

The price of eggs rose 38 per cent, milk 11 per cent, bread six per cent and beef eight per cent in the last three months. Bus fares are now a third higher than four weeks ago.

The purchasing power of the dollar in terms of food is now only 44 cents compared with 1939. The official cost of living index now stands at over 187, against 100 in 1939. Haircuts went from 85 cents to one dollar. Corporation profits are the highest in history, reaching a total of 50,000 million dollars.

KOREA NEWS BANNED

NEW YORK.—As the result of pressure from William Barrett, the State Department's chief public relations official and head of the National Board for Psychological Warfare, the top-ranking director of the Department of Public Information of the United Nations Secretariat, the Norwegian Tor Gjesdal, has imposed a censorship on all news and reports concerning Korea passing through his department.

Informed sources at Lake Success quote Assistant State Secretary Barrett's statements to the effect that American military circles are seriously worried at the effect caused by the publication of defeatist statements, letters and petitions sent to the United Natoins Secretariat by individuals and organizations on the subject of Korea.

U. S. MONOPOLIES TO CONTROL WEST GERMAN INDUSTRY

THE HAGUE — The United States government with the help of big monopolies is preparing complete American control of West German industry, the Dutch paper, De Vaarheid, states in an article on the situation in Western Germany.

Some time ago discussions of a secret nature were held between the secretary of commerce, Charles Sawyer, his right-hand man, William Harrison, and representatives of the largest American monopolies in a small town in the state of Georgia. The main topic of discussion was the increase of private American investments in West Germany's steel industry.

The participants of the meeting agreed that the main condition of American capital investments in West German industry is the handing over of control over German shares to American shareholders. It was resolved that American investments in companies like Deutsche Edelatahlwerke, Ruhrstahl A.G., Bochumer Verein and others must amount to 51 percent.

At present representatives of General Motors, Ford and General Electric companies are trying to seize a large part of the shares of companies like Vereinigte Stahlwerke at Dusseldorf, Krupp Works at Essen, Mannesmann concern and others.

"LOST" GERMAN POW'S SERVING IN U. S. ARMY

BERLIN—The German Democratic Republic news agency ADN quotes reports from United States authorities in Steglitz (American Zone) that the United States High Command is using former German prisoners of war in the United States army.

According to incomplete reports, at least 6,000 German soldiers who left prisoner-of-war camps in the United States have entered American military service. This is in accordance with the American policy of bribing fascist and declassed elements from Europe to serve in the American forces for a specified period with the promise of possible granting of United States citizenship.

MAGAZINE BANNED

BERLIN—British authorities in Western Germany have banned the illustrated magazine Der Stern for having published an article on the excesses of luxury enjoyed by the British, American and French occupation officials at the expense of German taxpayers.

GUNS-BEFORE-BUTTER POLICY SENDS BRITISH PRICES UP

LONDON—As a result of the armaments drive and the policy of guns before butter, prices have gone up in Britain during the past year. Clothing, food, furniture, coal, fares, pots and pans and cinema seats are some of the things which now cost the British people considerably more than 12 months ago and not a day now passes without some new price increase being announced.

During 1950 the price of many fods rose, especially butter, bacon, pork sausage and rabbits. The price of woolen clothing especially is rising at an alarming rate.

A housewife buying a pair of large sheets had to pay one pound 18 shillings 10 pence at the beginning of 1950 and two pounds 15 shillings 8 pence by the end of the year.

NEHRU TO PRESENT PEACE PLAN

LONDON—Indian Prime Minister Pandit Nehru is to place before the conference of Commonwealth Prime Ministers in London, a "three-point peace plan," according to the London Daily Mail.

Nehru's three points are said to be: The ending of hostilities in Korea; full recognition of the Chinese People's Republic; and the promotion of world peace by cooperation with the Soviet Union.

The report adds that Nehru "has let it be known once more that he and his government are not interested in any far-reaching defense proposals for insuring the armed security of the commonwealth. India's policy remains one of neutrality, which will be enforced immediately should there be a world war."

BRITISH STUDENTS WANT TO STAY IN IUS

LONDON — Fifteen thousand six hundred thirty-two British university students voted "yes" and 18,806 "no" in the referendum conducted on the question: "Is it your belief that the best interests of the British students will be served by the continued membership of the National Union of Students (NUS) in the International Union of Students?"

The referendum followed the decision of the governing body of the National Union of Students, the NUS Council, to continue affiliation, and it was precipitated by the resignation of executive leaders of the NUS who did not agree with the decision.

Many unions, including large and powerful ones such as that at Birmingham University and the London School of Economics, boycotted the referendum by a decision of the general meetings of their students. They declared the holding of a referendum to be unconstitutional and unnecessary, as the students, through their elected representatives to the NUS Council, had expressed their desire to remain affiliated to the IUS. Some 70 percent of the British students did not take part in the referendum.

In any case, the referendum has only a "consultative" value, as the final word on affiliation will be pronounced by the NUS Council meeting in March this year. The Council is the only meeting which has the power to alter the present position.

YUGOSLAV PEASANTS RESIST TITOITE "COOPERATIVES"

SOFIA — Yugoslav working peasants; who are forced to slave for the profits of the rich kulaks in the so-called "labor cooperatives," are in revolt against this new form of exploitation invented by the Titoites, judging from reports in the Titoite press.

In Macedonia, where it is admitted that the poor peasants work in these kulak capitalist enterprises for less than 80 dinars a day—hardly enough to supply their families with bread—the "cooperatives" are being abandoned en masse by the peasants.

It is reported from other parts of the country that "cooperatives" have disintegrated.

Efforts to mobilize the peasants for "voluntary" unpaid labor are meeting with resistance which is assuming a mass character.

In Istria, peasants who refuse to join the village labor brigades have been mobilized for forced labor in the mines. During the past few weeks all the peasants under the age of 60 in the village of Revenie have been mobilized for work on a railway line.

TURKISH UNEMPLOYED SUFFERING FROM STARVATION

SOFIA—The Turkish newspaper Houriet, describing the terrible plight of thousands of Istanbul's unemployed relates the case of a family which is living on cooked grass. The paper quotes a letter to its editorial office from Mehmed Kadri Aladja who has a wife and child and who has been seeking a job in vain for the last 12 months.

Mehmed Kadri Aladja says that at first he managed to exist by selling all his furniture but added: "At present all of us are starving. We cook and eat the grass we pick in the field. We sleep under a mulberry tree and use a ram's hide for a bed."

The unemployed worker concluded in desperation by offering to sell "any part of my body which would be of some value to medical science."

PRESERVING "WHITE SUPREMACY" IN N. RHODESIA

LONDON—A remarkably frank admission of the methods employed by British imperialism in Northern Rhodesia to hide the unbridled exploitation of the people under the guise of racism is contained in an article by Patrick O'Donovan in the Sunday Observer (Dec. 24, 1950).

"An unnatural state of affairs exists in the colony of Northern Rhodesia," O'Donovan writes. "The Colonial Office, while taking full responsibility in parliament and before the world for what happens here, has lost the power to effect anything of importance without the consent of the white minority," who in their turn violently control the colony.

O'Donovan attributes "this remarkable state of affairs" to the work of one man—Roy Welensky, ex-barman, prize-fighter and war-time "Director of Man power" in Northern Rhodesia who must be consulted on any proposals made in London concerning the future of the African colonies.

While still playing on the "white versus black" theme for justification for this blatant policy of exploitation, O'Donovan is forced to admit the real motivation of such a policy—to maintain British control of the "rich and turbulen copper belt, which is the fifth copper producer in the world and on which the prosperity of Northern Rhodesia depends." More than 60 percent of the white settlers on this copper belt are Afrikaners from the Union of South Africa, and this is causing the British great uneasiness. "It is not known how many (of the Afrikaners—ed.) are in sympathy with Malan's Nationalist Party," O'Donovan adds.

O'Donovan devotes a couple of sentences to the fate of the African people. "Office political policy follows in industry what appears to be the invariable white policy in Africa; Africans have no chance of approaching the better paid jobs," nor does he see any chance of anyone now in control guarding the African's interests.

NEW ATOMIC FURNACE TO BE BUILT IN CANADA

OTTAWA—A 35 million dollar atomic furnace—key instrument in the whole atomic process—is to be built at Chalk River, in the province of Ontario, the Canadian government has announced. The furnace will be far more powerful than the one at present in use at Canada's Atomic Research Station.

Owing to the strength of the peace sentiment in the country, Trade Minister C. D. Howe, in making the announcement said that the furnace would be used to promote Canada's "outstanding position" in peaceful atomic development. It is well known here, however, that the primary concern of the Chalk River station, where full military secrecy prevails, is with phases of atom bomb construction.

ARMAMENTS

WASHINGTON—United States armament deliveries to Europe last year amounted to 725,000 tons, including 1,600 tanks and 750 heavy guns, according to a Pentagon report just published. From March, 1950, until the end of the year, 478,000 tons of war material were shipped to Western European countries and 187,000 tons to Greece, Turkey and Iran.

Virtue Is Next Drama on S. Maugham Thea.

NEW YORK — Virtue remains triumphant, according to W. Somerset Maugham. At least, his views on the subject will be heard and seen in "Virtue," the aptly-named drama next to be televised on "The Somerset Maugham Theatre," which will be presented by Tintair, the home hair coloring, over KTTV, CBS affiliate in Los Angeles, Wed., January 10, at 10:30 p.m.

The citation, presented by Mrs. Vivian Carter Mason, vice president of the Council and head of the Norfolk Chapter, in Washington, D. C., reads as follows:

C., salutes and commends you for distinguished services to your fellow men."

Charles Lampkin Gets Role In "Five"

HOLLYWOOD.—When Charles Lampkin won an amateur contest on television he had no idea that it would lead to his being cast in one of the most important film rôles of the year. He did not know that Arch Oboler, famous for his radio series "Lights Out" and "To the President," was watching as he read the James Weldon Johnson classic "Creation."

So impressed was Oboler with Lampkin's reading that he immediately got in touch with the television studio and in a short time had signed him to do a featured role in Oboler's screen play "Five."

Lampkin, a native of Alabama, has long been identified with the theatre in Ohio and New York. He is a pianist, singer, composer and lecturer. Best known for his lecture recital "From the Bosom of the Congo," Lampkin is an authority on the folk-lore, idiom and music of the Negro.

Flames Make Record Debut

NEW YORK.—Two new recording names make their debuts on the Columbia label this week with the release of new platters by the popular instrumental-vocal trio, the Three Flames, and blues singer Ollie Shepard and his orchestra.

The Three Flames, who have achieved great popularity on radio and television as well as on personal appearances throughout the country, disc debut for Columbia with their waxing of "Succotash Baby" coupled with "Sky Full of Sunshine," original compositions by George (Tiger) Haynes, Averill Pollard and Roy Testamark.

Shepard, the man who sings the blues at the piano with his own jump combo, bows on the Columbia label with his waxing of "Crazy With the Blues" paired with "Big Fine Automobile," both of which are his own compositions.

Ivory Joe At Oasis

Ivory Joe Hunter opens at the Club Oasis, 3801 So. Western Ave., Monday night, January 15, with his band, which includes Vernon Slater, Eddie Walker, Jimmy Holland, Bobby Osdin, John Leftridge and Frank Demanguex. Scat Man Crothers will also be appearing at the famed club, brought back by popular demand.

Ivory Joe's father was a musician and his mother a singer. He comes from a family of 14 children, all of whom either sing or play. It is usually assumed that he is called Ivory Joe because he plays piano, but actually that is the name his parents christened him. Ivory Joe started playing piano when he was very young, and his sister used to spend most of her time dragging him out of the neighborhood spots, where they enjoyed his playing so much even as a boy.

His first break was in radio, and he became known as "Rambling Fingers." When he was older he started working in clubs. Although the money wasn't big, his pleasure was when he'd move from one job to another and find that his audience was filled with many of the same faces.

OH BABE! . . . The platter that has pushed right up to the top of the juke box parade is handled nicely by the terrific combo of Roy Milton.

LUCKY TONY

HOLLYWOOD — Tony Martin started the New Year off right on the set for RKO Radio's Technicolor musical, "Two Tickets to Broadway," by receiving a $50,000 check from RCA Victor for accrued royalties from his record sales during the past three years.

A SURE THING: Herb Lance was last year's up and coming male vocalist. The boy's sensational rise to stardom was one of the year's highlights in the entertainment world. "Tell Her That I Love Her," a popular tune last year was Lance's number that had the gal's swooning Sinatra-like. A Columbia Records artist, Herb has made the Hit Parade with "The Loneliest House on the Street."

Rare and exotic choreography, rarely viewed by Western eyes, will be seen in a Japanese geisha girl version of the "Madame Butterfly" tragedy, as danced by Tokuyae Hanayagi. Last season's surprise spectacle, the savage Watusi war ritual, will again be danced by the Alexandra Bokhara African Dancers.

Since its inception here four years ago, the Festival has won unstinted praise of all critics.

Jimmy Grissom Platta A Solid Hit

Jimmy Grissom, local boy who has made good in spite of his many bad breaks, deserves as much credit as a praise agent could give him, for at the present time Jimmy has one of the hotest records on the juke box selling like mad. The song "Once There Lived A Fool." Surely most of this credit is due John Dolphin of the Record Shop of the same name, who found the boy and pushed him every step of the way.

JOE LOUIS "TALK" REVIVES

Following Joe Louis' four round TKO of Freddie Beshore in Detroit last week people all over the country but especially in the motor city began buzzing about how he resembled the Brown bomber of old, saying that "Louis did more damage in four rounds than Charles could do in fourteen," that "if he had been fighting Charles that he would have been champion again," etc.

Others were sayings that "Charles had softened Beshore up for Louis," "he wasn't fighting anybody," "Louis is too old and being only human, he's got to lose sometime—and he'll lose again to Charles."

Art Lewis

One went so far as to say that Charles is shaking in his boots and won't give Joe another fight, that is not for a couple of years when Louis is fat and out of shape again, and then he'll step in and beat him again.

However, championships aren't won with words but these words and others all point to the same thing. Joe Louis will go on fighting men that he can beat and will meet Charles again for the championship in a fight that should attract over a million dollars. Then, after losing badly again, he will "retire" for the third time but this time as a very wealthy man.

So for a wealthy Louis (and Charles) let's talk it up. Who do you think will win if and when they meet again?

CHARLES NEAL IS A SEAL

Charles Neal, local baseballer signed last week by the San Francisco Seals, is slated to report to spring training on April 1 at Healsburg, Calif., it was learned this week.

Neal went to Phoenix, Ariz. o try out for the Seal's team two weeks ago and was signed on the second day. Out of about seventy hopefuls only two were signed by the San Francisco scout, Mickey Hader.

As reported in the EAGLE last week, the twenty year old left-handed first baseman played for Los Angeles City College last season. He has recently been playing for the Culver City Palms, class double A semi-pro team, and is the only Negro on the squad.

Neal attended Manual Arts high school here in Los Angeles where he was a three-year letterman. He also lettered in basketball. In 1948 he made the regional all-American Legion team and upon graduation was selected to the Herald's Hearst tourney team. He then entered LACC and became one of their better players.

Usually a player signed by a triple A team such as San Francisco is assigned to a class C or D team for the first season, but Neal has been assigned to a class B team, Yakima, Wash., of the Western International League. He was told that if he made good the first few months he might be brought up to the parent Seals. Neal is the second Negro to be signed by the Seals lately. This still leaves only three teams in the Pacific Coast League without Negro personnel, namely Sacramento, Seattle and Hollywood.

SHORTS ON THE PRO-BOWL GAME'S EASTERN SQUAD

Those who have predicted that Paul Brown would be coaching U.S.C. in 1951 have been proven right. But Brown, although he's wearing a U.S.C. sweat shirt this week, isn't coaching the Trojans at Bovard Field. He's working there with his American Conference squad for the Pro Bowl Game this Sunday.

Brown claims the four top defensive men in football on his American Conference squad. They are tickles Al DeRogatis and Arnie Weinmeister and Halfbacks Otto Schnellbacher and Em Tunnell, all of the New York Giants. Brown knows whereof he speaks. The Giants were the only team to defeat the Browns this year, licking them twice in defensive battles.

• • •

Pat Harder, at 5'11" and 205 pounds, looks like a scat-back beside **Marion Motley**, 238-pound, 6'1" fullback of the Browns, but the former Wisconsin ace now playing for the Cardinals is giving the Cleveland star a real battle for Sunday's starting role.

• • •

Bill Willis was a late arrival at the American Conference camp. He was selected as the outstanding player on the Cleveland Browns' championship team this year and was honored last week at a luncheon in that city.

• • •

The American Conference team will use a "talking offense," installed by Brown to make it easier for the players to learn the signals in the short practice time available. The quarterback will talk out the play in the huddle each time instead of using numbers.

• • •

Joe Geri, ace tailback of the Pittsburgh Steelers this fall in their single wing attack, is not out of place in Brown's T-formation attack as he played right halfback at Georgia in same formation.

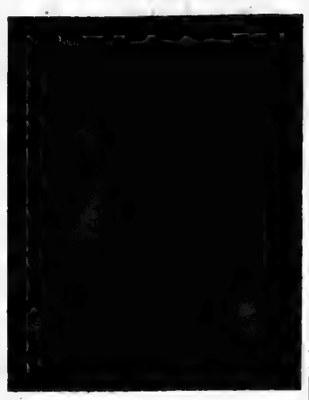
Sale Of Chicago Giants Startles Negro American League Confab

CHICAGO—The sale of the Chicago American Giants by J. B. Martin, owner of the club for the last 12 years to Winfield Scott Welch, a baseball veteran for 30 years, was the most startling news to emerge from the annual Negro American League winter meeting here last week.

According to Martin, Welch and a group of prominent businessmen purchased the team two days before the meeting. The exact purchase price was not revealed but it was generally estimated to be in the neighborhood of $50,000.

Martin said the combined duties of serving the NAL as president and operating the team were too heavy. After being assured by league members that he would again be elected president, he decided to sell.

Welch, who started out as a player with the New Orleans Crescents in 1922, will be owner and president of the Giants. Now a resident of Chicago, Welch said he was able to swing the deal after forming a syndicate of local businessmen who were anxious to see the American Giants continue to operate.



Welch started playing professionally with the New Orleans Crescents, his home town club. In the early 30's he was named manager. During his long career he has piloted the Birmingham Black Barons, Cincinnati Crescents, New York Cubans and Chicago American Giants. He managed the latter team in 1949.

During the winter he is secretary for the Harlem Globetrotters baseball team.

STAN BURRELL

BUD SCHAEFER

Pictured above are STAN BURRELL, star center of the New York Rens basketball team, and BUD SCHAEFFER, who plays guard for the Boston Whirlwinds. These two will be seen in action next week as their teams are scheduled to meet the world famous Harlem Globetrotters.

Globetrotters To Play Three Games In Two Days In L. A.

Those world-renowned Harlem Globetrotters, greatest entertainers in sports, will be seen in action here at the Pan Pacific Auditorium, twice on Saturday, January 20th, and again on Sunday afternoon, January 21st.

They will play both Saturday afternoon and evening.

Two new teams—new insofar as Los Angeles is concerned—accompany the Trotters this year: the New York Rens, now in the 27th year of their existence, and the newly-formed Boston Whirlwinds, coached by the basketball immortal, Dutch Dehnert.

The fourth team will be the Philadelphia Sphas, crack Henrew quintet which made a terrific hit here last year.

A couple of months ago, the Globetrotters completed a full-length feature film on the Columbia lot here, it will be released in the near future. Indications are that it will smash all records for pictures of that nature.

Between the games, there will be interesting vaudeville and circus acts, including Ray Wilbert, Jacques Cordon and others.

The Trotters will really trot this year, their schedule will keep them busy until September, and includes tours to Europe, South America, North Africa and other far-off spots.

As evidence that they are still "box office magicians," in their first two games of the 1950-51 season the Trotters played before a total of 37,000 cash customers—19,000 in the Chicago Stadium on their opening night, 18,000 in Madison Square Garden the following night.

Popular old-timers like Goose Tatum, Marques Haynes, Ermer Robinson, Babe Pressley will be on hand, with some fine new faces.

Tickets are on sale at the Pan Pacific Auditorium, the Southern Calif. Music Company, all Mutual agencies, all Harris & Frank stores, and the Pasadena Winter Garden.

The Trotters will return to Los Angeles on February 2nd, for their annual visit to the Shrine Auditorium.

On The Turf

By GEORGE A. RAMSEY

SANTA ANITA—Your Host, the pride of California's thoroughbreds, turned in one of his best-of-career races in the $50,000 added Santa Catalina Handicap last Saturday, before a crowd of more than 38,000 lovers of the sport of kings. And what made his victory so great was that the saddle slipped and Jockey Eric Guerin, who had the mount, did a desperately masterful job in guiding the game colt home first.

GEO. A. RAMSEY

Fans will remember that this colt was the favorite in last year's Kentucky Derby and misfired, but the way he came around the leaders in a fast move at the far turn in the Santa Catalina stamps him as one of the greatest thoroughbreds ever bred in the golden west.

Carrying 130 pounds, he set a new track record for the 1⅛ miles. Time was 1:48 1/5. As the public favorite his backers received $4.00. His owner picked up $32,450. The crowd wagered $2,099,528 on the eight-race card.

With no racing Monday and Tuesday, the fans will get back in action on Wednesday. This Saturday, January 13, the San Pasqual Handicap for three-year-olds and up at 1 1/16 miles will be the feature attraction. It carries an added value of $50,000 and a large field of the best horses on the grounds will go postward in this rich event. Alfred G. Vanderbilt and the Calumet Farms horses will be hard to beat.

NEW CALIENTE in Old Mexico — Hi Kuene, the Hawaiian-bred speed burner, brought joy to his many backers in the feature attraction at Caliente last Sunday when he was up in the last stride to score a very close nose victory. It was three noses on the wire.

Made favorite by the fans on his easy victory two weeks ago, the son of Moanalua fairly flew down the home stretch for his well-earned victory, paying in the mutuels $5.00, $3.60, $3.00.

The secondary was won by Mankcubantam, who scored his second straight at the border course. Also favored by the fans he paid $5.80. The daily double combination of Top Drawer, winner of the second race, and More Heels, victor of the third, paid $53.60, while the quinela backers of Love's Arrow and Rush Bull, who finished in that order, received $64.40.

The books took a bad beating when Good Things just rolled home. A killing was made on Carnie Bear, a first starter at the New Caliente track. Watch for Miss Caliente and her gondola soon.

Basketball on TV At Loyola High

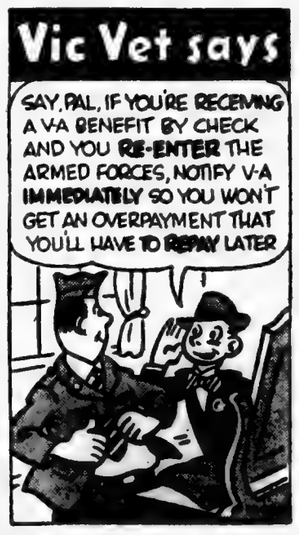
The fast Triple A hoop contests being played Tuesday and Thursday nights at the Loyola High School gymnasium, Venice Boulevard at Normandie Avenue, are now being televised by KFI-TV, it was reported by the Los Angeles City Recreation and Park Department and the Municipal Basketball Association, sponsors of the league.

With sportscaster Lyle Bond describing the action, the feature game of the Tuesday and Thursday twin bills are telecast at 9:20 p.m. The first games of the double-headers get underway at 7:30 p.m.

There is no admission charge for the contests, and the public is invited to se the hard-fought tilts in the comfortable Loyola gym, according to the Recreation and Park Department.

John L. Davis "Ill"

John L. Davis, boxer from Richmond, Calif., has been listed as "ill and unavailable" by the recent bulletin from the State Athletic Commission because of an injured nose. This action was taken Jan. 6 and will prevail for an indefinite period.



101 Points By Jefferson Ties City Record

By defeating Garfield 101 to 18 Tuesday, Jefferson High school tied the all time city basketball scoring record set by Marshall in 1945.

It was the most lopsided game in city prep annals and ended the regular season for the undefeated Democrats, who have won the Southern League title.

J. C. Gibson, 6-foot 7-inch center, led the scoring with 33 points with Mack Taylor and Alvin Sutton contributing 22 and 20 respectively.

Half time score was 53-13. Garfield made only 5 points in the second half, which also may be a record.

Charley Salas To Face Young Elmer Beltz At Olympic

Charley Salas, who soared away up yonder in the pugilistic ratings by defeating both Ike Williams and John L. Davis last year, risks his hard-won eminence at the Olympic Auditorium Tuesday night, when he faces youthful, hard-hitting Elmer Beltz.

At the start of 1950, Salas was just another fighter, his chief boast, that he had never been knocked out. He had lost quite a few decisions in his career. Every now and then he'd come up with a nice win, but as a whole his record was nothing to set the river afire.

Then, last summer, came the report from Washington that Charley Salas had soundly whipped the great Ike Williams, lightweight champion of the world. Folks out here, who had seen Williams successfully defend his title against Enrique Bolanos three times—twice via kayo—simply refused to believe it.

Last month, at Hollywood Legion Stadium, Salas was paired with John L. Davis, Oakland ace, and generally recognized as the No. 1 contender for Ike Williams' title—even though it will probably be Art Aragon who gets first crack at it.

And what happened to John L. shouldn't happen to a pooch. He was whipped, and soundly whipped. Salas, the NEW Salas, simply would not be denied. And he fought an aggressive, colorful scrap. Thus, during 1950, Charley Salas defeated both the world lightweight champion and his foremost contender, John L.

Elmer Beltz is only a kid; he holds wins over Tote Martinez, Chief Archie Whitewater and other good boys. He lives up to his name, too—Beltz really belts. He'll be in there winging for victory via kayo. A win over Salas, right now, is like money-in-the-bank.

Bruins Face USC At Pan In Two Games

In the wake of another record-breaking basketball weekend in splitting with Stanford, 78-73 and 71-74, at Palo Alto, Coach Johnny Wooden's Pacific Coast Conference cage champions tackle the University of Southern California this Friday and Saturday at Pan Pacific Auditorium in the first cross-town meeting of the year.

The Bruins, currently averaging 73.6 points tilt in 12 starts, teamed up in the Indian opener to rack up a combined total of 151 points to break the mark set by UCLA and SC when they totalled 142 points in the 1949 season opener.

Topping UCLA's scorers was sophomore Dick Ridgway, who hit for 42 points to bring his season total to 188 and a 15.7 average per game. The budding star teamed at forward over the weekend with junior Jerry Norman, whose 33-point weekend brought his total to 161 and a 13.4 average.

Stanford's win on Saturday broke an eight-game win streak the Uclans had piled up against Everett Dean's quintets since January 7, 1949.

Against the cross-town Trojans, UCLA will be facing the current leaders of the Southern Division flag race. SC trimmed California twice, 61-49 and 68-44 last week.

The Bruin-Troy series stacks up as a game of fast break against the traditional SC ball-control game. This will be the first meeting, however, between Wooden and SC mentor Forrest Twogood. Although SC leads, 62-24, in the 23-year-old cage series the Bruins lead, 5-3, during Wooden's two-year regime at UCLA.

Probable starters are:

10 Don Eby	F		Dick Ridgway 54
16 Bud Doty	F		Jerry Norman 52
19 Bob Boyd	C		Gene Williams 32
6 Tom Riach	G		Eddie Sheldrake 75

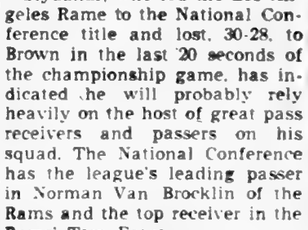
Pro-Bowl to Feature Greatest Collection Of Stars in History



The greatest collection of football talent in the history of the grid game converged on Los Angeles last Thursday as the all-star squads from the American and National Conferences of the National Football League reported for practice for the first annual Pro Bowl football game in the Coliseum next Sunday.

Head Coaches Paul Brown of the American Conference and Joe Stydahar of the National Conference called twice daily practices for their charges for the first five days of the ten day training period.

Stydahar, who led the Los Angeles Rame to the National Conference title and lost, 30-28, to Brown in the last 20 seconds of the championship game, has indicated he will probably rely heavily on the host of great pass receivers and passers on his squad. The National Conference has the league's leading passer in Norman Van Brocklin of the Rams and the top receiver in the Rams' Tom Fears.

Brown is blessed with some crushing power runners in his own Marian Motley at fullback with Elmer Angsman and Pat Harder of the Cardinals also available. Otto Graham, who quarterbacked the Browns to the world championship for the fifth straight year, is available at quarterback with Jim Hardy of the Cardinals, Harry Gilmer of the Redskins and Charlie Conerly of the Giants on hand, too.

So powerful is the personnel on the two squads that qualified observers have commented that no more than three players from all the teams in the various bowl games this year could make the squad on either club.

Detroit's Latest Fight Sensation Brings Back Memories Of Joe Louis

DETROIT—Back in the early 1930's Detroit was, figuratively speaking, the breeding round of promising young boxers. More good young fighters were developed in the Motor City between 1932 and 1938 than in any other city.

Such stars of the boxing ring as Joe Louis, Holman Williams, Dave Clark, Milton Shivers, Howell King, Clinton Bridges and Lorenzo Pack were the fistic products developed in the gymnasium at Brewster Recreation Center.

While Joe Louis proved to be the brightest star developed by that fiery little instructor, Atler (Kid) Ellis, the others used their flailing fists and boxing skill to take them far down the boxing road.

Following closely upon the heels of this aforementioned illustrious group came Jimmy Edgar, who but for the untimely turn of world events—World War II—and a later eye affliction, might have become the middleweight champion.

There was a lull in the development of boxing talent in the Motor City for a spell, but three years ago Eddie Futch, one of those young fighters who came along at the time of Joe Louis, discovered in Lester Felton a youngster with promising ability. Felton is now one of the ranking welterweights in the country.

A New Star Is Born

But right now Detroit fight fans are turning their attention to a new pugilistic discovery—21-year-old Embrel Davidson, a Detroiter by way of East St. Louis and Columbus, Ohio. Davidson has been living in Detroit for a little over 17 months.

Since turning professional in 1949, the husky youngster with power-laden fists, has had 14 fights, winning 12 of them by knockouts. His latest victim was Ralph Schneider, New York heavyweight, who was knocked out in the first round of a scheduled 10-rounder in Detroit's Arena Gardens, three weeks ago.

Two weeks before putting Schneider to sleep, Davidson stopped tough Steve King, New York heavyweight, in the tenth and final round of a bout in Flint. He dropped the rugged easterner with a terrific left hook, and put him out for the count with a sledge-hammer right.

Davidson, a well-knitted youngster who has a slight resemblance to Joe Louis, was born May 16, 1929, in East St. Louis, Ill. After completing the ninth grade, the Davidson family moved to Columbus, Ohio.

Embrel, who towers 6 feet 1 inch and tips the scales at 205 pounds, played basketball and baseball while in high school. He was a catcher on the baseball team.

He started fighting while in the army. It was after his return from duty in the European theater and while he was stationed at Fort Eustis, Virginia. A heavyweight was needed for the fight card, so Davidson was picked because of his size. He went on to win the camp championship by defeating James Simpson.

The hard-hitting Davidson had nine amateur fights before turning professional, winning all of them. Most of his pro fights have been in Detroit, Windsor, Ontario, and Flint, Mich.

Davidson has only had two 10-round bouts, winning one on a decision, and stopping his opponent in the final round. He beat Jimmy Carollo in 10 rounds and stopped Steve King in the tenth.

He has won most of his fights by knockouts before the sixth round. He has to his credit four one-round kayoes, two two-round knockouts, two three-round victories and one five-round belting out.

The youngster has a very good left jab, a terrific left hook, and packs plenty of power in his right. He shuffles in like Louis.

"He should develop into one of the best heavyweights of the day," says Eddie Futch, who has been training him. "He has punching power in both fists."

Davidson is managed by Frank "Geech" Loftis of Detroit who is firmly convinced he has the next heavyweight champion under his wing.

EMBREL DAVIDSON, Detroit's promising young heavyweight who has won 14 straight fights since turning pro, 12 by KO.

Pioneers Feted by Mr. Brooks

Mr. Charles Brooks entertained Pioneers with a real Christmas party assisted by his daughter, Mrs. Louise Wilson, cousin Margaret Hoggatt, and daughter, Wonder Hoggatt. The tree was loaded with gifts for everyone, even though with our large attendance we remembered our faithful shut-ins, and they remembered us.

Sister Cora Buck called and greeted us over the phone, our Chirstmas message was given by Rev. J. A. Green during our social hour, and a delicious repast was served. We applauded our efficient host and hostess.

We adjourned with greetings for the new year, which brought sadness to four pioneer homes. The deceased sister of Ella Moten, Hattie Mays, Bro. John Brookins, and the son of our president, Mannis Smith, Mr. Daniel L. Smith.

The Pioneers extends sympathy to all the families. Tuesday night, Jan. 16, we will meet at the home of Mrs. P. H. Herbert, 246 E. 47th St.

Church To Celebrate Tenth Anniversary

The Thirty-Fifth Street Mennonite Church, located at 3315 South Normandie Avenue, is preparing to celebrate its tenth anniversary which marks an era of marked progress in bringing Christ especially to the children of the community.

Brother H. Shoupe, co-founder of the church and pastor is also chairman of the Southwest Community Committee, Los Angeles Youth Project.

This little church is identified not only by its unique position in dealing with youth and children in the community, but has assumed the responsibility of purchasing a camp which is located near the park in Val Verde, California. Both the camp and church are assets in their respective locations. The camp, which is ideally located and well equipped, is also available for use by other churches, adult or youth groups. Its development is in the nucleus and it could possibly become the most beautiful and completely equipped church-owned camp in the city.

As for the church, its growth is slowly mounting. It stands as a monument of Christian Endeavor. Ten years ago, an old and delapidated building, which was an "eye sore" to the community, was razed and in its place the Thirty-Fifth Mennonite Church was erected and dedicated to the purpose of teaching man a better way of life.

A most hearty welcome will be extended to anyone wishing to visit the church and camp.

'Sacrament' Christian Science Subject

The importance of spiritual worship of God and of secret communion with Him will be stressed in the Sunday Lesson-Sermon on "Sacrament" in all Christian Science churches.

This declaration of John is the Golden Text: "The bread of God is He which cometh down from heaven, and giveth life unto the world."

A Bible selection from Matthew's Gospel (21:12-14) relates that "Jesus went into the temple of God, and cast out all them that sold and bought in the temple, and overthrew the tables of the moneychangers, and the seats of them that sold doves, And said unto them, It is written, My house shall be called the house of prayer; but ye have made it a den of thieves. And the blind and the lame came to Him in the temple; and He healed them."

A correlative citation from "Science and Health With Key to the Scriptures" by Mary Baker Eddy says: "Whatever materializes worship hinders man's spiritual growth and keeps him from demonstrating his power over error" (4:32).

Kadimah Temple

Rabbi Franklin Cohn will speak at Friday evening services January 12 at 8:30 p.m. at Kadimah Temple, 1057 North Stanley Ave., on "Famous Texts of Judaism." Cantor Harvey Goldstein, assisted by the Temple Choir, will chant the services.

Final plans have been completed for the first annual Concert and Recitation Evening of Kadimah Temple, to be held on Thursday, January 25, at eight p.m. at the Temple's home, Stanley Hall, 1057 North Stanley Avenue.

Howard DaSilva, celebrated actor of stage and screen; Miss Gale Storm, Universal-International star; and Cantor Harvey Goldstein, also known as Glen Harvey, will share in the program, which will present stories by Sholem Aleichem, famous passages from the Bible, and a full concert program.

Drive for Peace

CHICAGO.—A drive for peace was launched by the People's Church of Christ and the Metropolitan Community Center, South Parkway at 41st Street, Chicago, Jan. 5 to 7.

Several hundred young people were in attendance. They came from the major states in the country, and united in common action to prevent World War III.

The consensus of opinion was that "we young people don't claim to know all the answers. But we do know that we would be soldiers in the biggest and deadliest war of all times, if there is another war. We refuse to accept this fate. That is why we insist on being heard. To speak our minds, to act together for the future, to decide what should be done—this is our right."

The statue of a Negro Virgin Mary and Child was used in Brussels, Belgium, recently in a ceremony commemorating the war dead of the city.

SUCH PUBLIC CONFIDENCE is not won by words. Actions are the only reliable symptoms of sympathetic sincerity. And that is what you get in a CONNER-JOHNSON service, whether it is one of utmost simplicity, or the most elaborate.

Consult us about our recommended pre-payment plan of funeral expenses, with no obligation. It costs only a few cents a day.

WHY SO MANY VOLUNTEERS IN WAR SERVICE?

The why—is "FEAR." There are many thousands that detest and abhor war, that vounteer, because they realize that if drafted they would have to serve in the war, or in prison. But if they volunteer, they might get favors.

Under the present system, each draftee stands helplessly alone, to choose between either to serve in the war, or to serve in prison. Now.

Suppose you peace lovers, millions of you, that signed peace petitions, that the Wall St. War Mongers only smiled at, would have bound your selves together in a binding pledge, to go to the aid of any and all draftees that would refuse to serve in the war, in the killing of his fellow being, destroying property.

With such a defense organization as large as your peace petitioners, would cause 90% of draftees to refuse to serve in the war. And with you peace lovers millions of you standing with the hundreds of thousands of draftees, what could the Wall St. War Mongers do? They would be in the same position, the draftees are now in. They would have to choose to stop wars, or fight them alone.

Now don't say it can't be done, for it can be done and it's the only adequate way to acquire lasting peace for peoples of the world. For the great majority of the people of the world detest war, and desires lasting peace. All we need is to bind ourselves together in a binding peace pledge. Then use mother wit and common horse sense. Such would have more power than the Atom Bomb. For such power would outlaw all war bombs.

Consider the C.I.O.—When John L. Lewis said the word. The Union defied the Wall St. Government, why? Because the C.I.O. Unionists are bound together with a binding oath. No.

We peace lovers can have a larger organization than the CIO and as binding a pledge. And with such an organization, all labor unions would join with us.

So let's get together and use our time, energy and money in a safe, sure way. United we can acquire lasting world peace.—Divided in so many falling methods, we multiply millionaires, billionaires, paupers, and cruel unjust wars.

Now with as small a fee as one dollar a year, we would have ample means, not only to go to the rescue of draftees, but to the aid of any person or persons wrongly imposed upon.

For the above was I born, and in its cause will I ever live and work.

WHY SUCH DISCRIMINATION?
By S. A. OTT

The Democratic party, and their candidate workers, every day, week and month during their campaign, express their opinions of the Republican party. Sometimes with vilifying and unbecoming words, trying too convince the people that their democratic U. S. Government is right, and that the people should vote them into power, and overthrow the Republican Party U. S. Government.

Now the Republican Party dittos the above in their campaign. —Each party freely and unmolested, express their opinions in bold and daring words — But when the Communist party leaders (some of our best tax paying citizens) express their honest, sincere views, they are arrested, given framed up trials and sent to prison. And all other communists threatened with same treatment, depriving them of the freedom given to the Democrat and Republican parties.

I ask: WHY such unconstitutional discrimination? Why do we working class and common class have to pay such enormous taxes to carry on such a discriminating practice? Also to pay the un-American acitivities committee hundreds of thousands of dollars each year to carry on such unjust witch hunting and persecuting and prosecuting innocent communists?

Surely the Communist leaders have the same constitutional right to speak their views, as have the Democrats and Republicans. Yet the un-American Activities Committee, or the law never interferes with the Democrats or Republicans expressing themselves.

Why so? You see, Wall Street owns both the Democrat and Republican parties. It makes no difference to Wall Street which party wins. The only time Wall Street takes an interest in a campaign is when they believe a certain candidate will be easier handled by them. Wall Street owns and dictates to both parties.

The only interest of the candidates of either Democrat or Republican party is the big salary they get and not in the interest and welfare of those that produce their big salaries. And their campaign promises are void of truth and sincerity.

But when the Communist party begins to awaken the producing workers of the world to the deplorable conditions the Wall Street parties have brought about.

—The Wall Street Democrats and Republicans join together 3 in 1 Trio to destroy the Communist Party, the only party the Wall Street faction can't buy off or control. The only party that's one hundred per cent for the welfare of All Peoples of the world. The Communist Party is ordained to destroy the Wall Street grafting faction—(Not our Washington, Jefferson and Lincoln Free Government)—instead of Wall Street destroying them.

I never belonged to the Communist party. I have never been at one of their meetings. However, I see no justice in arresting them and imprisoning them. Give them the same freedom of speech you give the Democrats and Republicans. And if they can convince the majority of the people their system is better than the Wall Street System—O.K. Settle it in peace with the majority vote. If the masses are not satisfied they can vote a change next election. I am well convinced that the Working Class and the Masses are not Satisfied with the High Tax, Warning System. Why not Reason together and settle it with our votes, instead of Costly Courts and Cruel, Unjust, Bloody Wars?

POEMS WITHOUT TITLE
By Iko Sanbonmatsu

And the rhythm of the shovel
Digging and building,
Working and creating.
The rhythm of the hoe.
Hacking and plodding
The life-killing weeds.

And I want to write about
The songs of the workers.
And the flow of their poetry
From what they say.
I want to copy down
That beautiful language
Of those in human struggle.
And their glorious achievements.
The workers.

"CONFUSION"
By Bobby Reedburg

Serene I await the coming
morrow.
To abide with my heart my
body's sorrow;
I await the nights of joy and
bliss.
To embrace your heart and
linger on your kiss.
To look back on all the days
of hatred and strife,
To banish love and this
wreched
thing called life.

IN 49

I wonder if there'll be more of
What I saw last year—in 49?
Wages were lowered and that's
pretty low
And the jobless were more
jobless.

Four and one-half millions
unemployed
Praying, hoping, dispairing
each day.
A job, any kind, so long as its
a job
Desperate—needy they wait
each day.

And the growls of little
stomachs crying
For food
For milk
For meat.
But the only answer they can
get
Is silence, a sob, a dejected
tear.

And acres of cantalopes
Plowed under in July,
Acres of lettuce plowed under
in November
'N tons of potatoes destroyed
by the owners
While waves of hunger grows
and kills
A child of Cottonwood,
Avondale
Elroy.

MY PART OF AMERICA

My part of America
Is the one of sweat and
rumbling guts.
Know what I mean?
Well, that can of corn
Do ya know where that came
from?
Do you know the rhythm of
the planting,
Hoeing.
And picking of that corn?
And from the field how it rolls
in trucks to canneries,
Weighed in,
Unloaded,
Sent through the rhythm of
cutters and trimmers
Canned,
Shipped,
Delivered,
And sold?
Well, it's done by people,
By their sweat and rumbling
guts.

IRISH BANK CLERKS' STRIKE CONTINUES

DUBLIN — The bank clerks' strike in Ireland entered its third week on Monday. The Bank Clerks' Union is determined to continue the strike and not to yield to the government's and bankers' pressure and blackmail.

Up to now the bank clerks were paid 190 pounds a year on entry to 711 pounds in the 21st year of service. Women's salaries were even lower. On entry they received 190 pounds a year and in the 20th year they were getting 400 pounds.

The union wants the maximum raised to 968 pounds for men and 605 for women with higher starting salaries.

TRANSPORT STRIKE

DUBLIN—The road transport strike in the south and southwest of Ireland continues. The railwaymen's strike also goes on and the workers are refusing to handle oil and petrol supplies in sympathy with the railway strikers. Bus drivers in Limerick have joined in the strike in sympathy.

Dublin dockers, in solidarity with the strikers, have refused to unload a ship carrying a cargo of railway sleepers.

CULTURE

Some individuals contend that if they're too perfect and correct they do not seem human enough to be accepted by the others in their group—that they must be slangy and slipshod in order to fit in and have a good time.

What they need to learn is that culture has to be applied properly and evenly to obtain the desired effect. If we will just compare those that took on at least a touch of culture from our own group, we will find that they have emerged into success or prominence.

There is no reason to imagine knowledge is heavy and stuffy when there is no playground in the world so inviting as that of the mind.

• • •

R.B. Dear Prof. Herman: I have read your column and found it very interesting. I am asking you to help me solve one of my problems. Does this man mean me any good?

Answer. Concentrating upon your question I find you are quite fond of this person and want to know if his feelings are the same for you. I'm happy to reveal that this person thinks a lot of you and finds pleasure in your company. If you both continue to try and make the other happy, you may reap great benefits.

• • •

M.C. I've been married for a year and I would like to know if I am going to have any children in the near future.

Answer. I would suggest you and your mate consult a good physician concerning this matter and he will determine the possibilities.

• • •

M.P. Would the man I am writing to make me a good husband? Could you tell me where to locate my husband. I would like to get a divorce. I lost some money Monday. Can you tell me where I lost it?

Answer. Only one question is answered in the column due to the limited amount of space. If you will write in for a private reply I shall be more than glad to help you.

• • •

R.B. Who printed the first English translation of the Bible?

Answer. The first English translation was made by William Tyndale in 1525. This translation came from the Hebrews and Greek originals. The earliest complete English Bible was prepared by Miles Coverdale and appeared in 1535.

• • •

M.I. Should I invest my savings into the business my brother and I have considered?

Answer. Your lucky stars and guiding planet indicate you and your brother are ambitious young men. An investment of this kind would be profitable.

• • •

T.S. What should I do?

Answer. Concentrating upon your problem I find you have your family to consider as well as your education. I would by all means continue to school since you have only one year left. I feel certain after you explain your desire to complete your education you and your family may reach an understanding.

• • •

TRIALS

Has your faith ever been tried to the limit? Have you felt that you cannot endure any more suffering and sorrow. On the other hand, have you realized that thru trials and tribulations, great lessons are taught.

R.T. — Dear Prof. Herman: I have been reading this wonderful book over and over and have derived so much consolation from its pages that I just want to tell you about it. I trust you will print this so that others may know what a wonderful book this "With God All Things Are Possible," is.

• • •

M.L.—What will happen to our family now?

ANSWER—A careful analysis of your question indicates the fact that you have to move and since there are so many small children in the family it will be hard to find living quarters where they don't mind children. You are wondering if your family will have to be separated. It seems that one of your loyal friends will aid you in locating another house, you will hear from this party within the next few days.

• • •

L.G.—What does the future hold for me?

ANSWER: Your Lucky Stars and Guiding Planet indicate many interesting events, too numerous to mention here. I do feel that you should obtain your daily Horoscope, so that you may plan your future activities wisely.

• • •

J.U.—Will we get married soon? When will he come back? Is the work he is now doing steady?

ANSWER: Only one question is answered in the column due to the limited amount of space. I do feel, however, that marriage may enter into your life soon. It seems that your boy friend is trying very hard to save and plan with that thought in mind.

• • •

C.H.—Will I ever be wealthy.

ANSWER: According to your Zodiacal Sign, you are destined to live a full and rich life. You may not reach the stage of riches you desire, but there will be an abundance of many things that makes life harmonious.

ELAJC Elections

Political aspirants on the East Los Angeles Junior College campus take the spotlight January 11 for the student government elections.

Candidates for associated student offices and men's and women's governmental offices will speak in a special nominations assembly. This will be followed immediately by the general election. Booths have been set up in the student activities room for voting on the following candidates:

Associated students' president, Dan Domine and Andy Griffin; vice-president, Duane Webb and Delmer Lunde; councilman for rules and jurisprudence, James DeGrado; interclub chairman, Ray Chavira; social chairman, Beverly Platt; finance chairman, Bill Brewster; councilwoman for women's athletics, Diane Willenberg; councilman for men's athtics, "Doc" Inman.

Running for associated women student offices are Edith Rich and Joy Laten, president; Janelle Sampler, vice-president; Barbara Thomas and Rosa Salazar, secretary-treasurer; and Louise Anderson, historian.

Candidates for associated men student offices are Cary Clark, president; Frank Donato, vice-president; and Paul Lambros, historian.

"Sales Tools You Didn't Know You Had" will be the title of a sales institute talk by Robert J. McAndrews, managing director of the Southern California Broadcasters Association, on January 18.

The institute is sponsored by the Sales Executives Club of Los Angeles, the Advertising Club of Los Angeles, the Greater East Los Angeles Chamber of Commerce, the United States Department of Commerce, the Bureau of Business Education, and ELAJC.

GRADUATING CLASS

The East Los Angeles Junior College winter '51 graduating class will christen the new 22,000-seat college stadium January 21 at 3:30 p.m. with its baccalaureate services.

Eugene Blake, minister of the Pasadena Presbyterian Church, will give the message to the graduating class.

Commencement exercises of the class will also take place in the stadium on January 26 at 10:30 a.m.

Judge Thomas J. Cunningham, Los Angeles Superior Court judge, will be the principal speaker. He graduated from UCLA and is a retired army officer.

Tobacco Salesman

Carl Peterson, recently appointed special sales representative for the R. J. Reynolds Tobacco Co., the makers of Camel Cigarettes, was visiting in Los Angeles last week. He is the first Negro west of the Mississippi to be appointed to such a job. His duties will consist of advertising, sales promotion, public relations affairs.

Mr. Peterson is a native of California. He attended the University of Southern California, majoring in marketing and salesmanship.

January Blood Quota

The January quota for the Los Angeles Regional Red Cross Blood Service Center this week was set at 15,500 pints—8,000 of which are "earmarked" for military use in Korea.

The Red Cross will depend largely upon the donations made at the regional headquarters, 925 South Western Avenue, due to the fact that bloodmobile visits have been curtailed because of inventory action of business houses, industrial plants and other large organizations.

Hiring of Children Under 18 Banned

Employment of children under 18 in certain occupations in connection with mining, other than coal, is illegal under a new hazardous occupations order issued by Secretary of Labor Maurice J. Tobin, which became effective last week.

This includes all work performed above or below ground in underground or open-cut mines and quarries, clay pits and sand and gravel operations; at or about placer mining operations; dredging operations for clay, sand or gravel; or borehole mining operations; in or about all metal mills, washer plants or grinding mills reducing the bulk of extracted minerals, and at or about any other crushing, grinding, screening, sizing, washing or cleaning operation performed upon extracted minerals except where such operations are performed as a part of a manufacturing process. The coal mining industry is covered by a law which went into effect in 1940.

IPP MEETS

The first 1951 meeting of the Los Angeles County Executive Board of the Independent Progressive Party will be held this evening (Thursday, Jan. 11), at 8:15 at the county office, 2206 South Vermont Ave. Among the items to be discussed are: Fair employment campaigns, municipal elections, reapportionment, rent control, peace campaigns, and organization, administration, finances.

The IPP has been actively engaged in helping the strikers at the Modeline Furniture Co. Contributions of food, etc., will be appreciated.

SALES TAX UNFAIR

The California Legislative Conference, Eleanor Raymond, executive secretary, has written to the members of the Los Angeles City Council opposing the proposed sales tax as "a grossly unfair, undemocratic tax," that will bear heavily upon those least able to pay.

The CLC proposes instead of a sales tax that the Council "increase valuations on the large office buildings, industrial establishments and speculative properties. Tens of millions of dollars can be added to the revenue in this manner."

Southern Hospitality

By BETTY BARCLAY

North, South, East or West—everybody loves Southern hospitality, no matter where they find it, especially when traditional Southern food is served. And what could be more in line with this popular tradition than spoon bread, piping hot out of the oven? Serve it, instead of potatoes, with ham or chicken gravy. So light, fluffy and tasty—no wonder spoon bread is a favorite dish on both sides of the Mason-Dixon line!

Wheat Meal Spoon Bread

- 2 cups milk
- ¾ cup wheat-meal
- 1½ tablespoons butter or margarine
- ¾ teaspoon salt
- ¾ teaspoon double-acting baking powder
- 2 eggs, well beaten

Scald milk in top of double boiler. Add cereal gradually, stirring constantly. Then cook over boiling water until thickened. Remove from boiling water. Add butter, salt, and baking powder. Add hot mixture slowly to eggs, stirring constantly. Turn into greased 2-quart baking dish and bake in hot oven (425° F.) 45 minutes, or until done. Serve at once. Makes 6 servings.

Note: You may substitute 2 cups milk and 1 cup water for milk in above recipe.

Wheat Meal Spoon Bread with Frankfurters. Dice 2 frankfurters, saute in butter or other fat, and add to spoon bread mixture before turning into casserole.

Wheat Meal Spoon Bread with Sausage. Cook ½ pound sausage meat and drain well. (Or use about 1 cup cooked, crumbled sausage meat.) Substitute sausage fat for butter in above recipe. Decrease salt to ½ teaspoon and add ¼ teaspoon sage. Add crumbled sausage meat before turning into casserole.

Say You Saw It In The EAGLE

Say You Saw It in The EAGLE

An Answer to Walter White's Smear of Paul Robeson

SIDEWALK by c.a.h.

Mr. Walter White,
Executive Secretary, National Association for the Advancement of Colored People.
Mr. dear Mr. White:

I have just read your article entitled, "The Strange Case of Paul Robeson" in that beautifully illustrated slick paper magazine, "EBONY."

And I am getting the feeling that "EBONY" is slick in more ways than one.

There are so many serious problems in our world today that tend to confuse, disturb, and even unbalance the minds of some of our people that, according to my way of thinking, need the attention you have given this Robeson story.

I can't refrain from questioning your motive or the influence responsible for it.

In your introduction you state: When Paul Robeson declaimed in Paris in 1948 that American Negroes would never fight a war with Soviet Russia, he scared some American whites into a state from which they have not yet fully recovered.

A half-statement like this, Mr. White, is equivalent to a half-truth.

Here is what Robeson actually said from the official record:

"I am bringing you the message of the Coordination Committee of Negro Peoples of Colonial Countries who desire to live a decent life, to work out new programs for their own emancipation as opposed to the programs put forth by the enemies of peace—programs which would lead only to renewed slavery.

"We have the firm resolve to fight for peace. We do not desire to go to war for anyone against anyone. We are against those who would restore an imperialist Germany and set up a fascist regime in Greece. We want peace with Republican Spain. We shall support peace and friendship with Soviet Russia and the popular republics.

"At this hour, when those who have accumulated great wealth want to subjugate the peoples of European countries, the American Negroes know full well that their fight for freedom is also for the freedom of white peoples."

Anything there about Negroes not fighting if there should be a war with Russia?

The method of chopping up statements or paragraphs to make them fit the pattern we want, is the Hearst-Pegler style.

I can speak my "PEACE" without fear of intimidation or a jail sentence.

I am not a card-carrying Communist, nor any other kind.

I consider myself a good American citizen, and I believe my mind is still pretty well-balanced and that I am capable of drawing lines and making decisions.

The United States is my native land. I have lived here all my life, with the exception of a two months' European trip last August and September, 1950, which included among other countries, Russia.

You say, Mr. White, that this declaration that Negroes would not fight on the side of the United States in a war against Russia, created panic among some whites and caused them to become watchful of their Negro neighbors.

You state that "Today many people have ceased to think in terms of liberals versus reactionaries, or Democrats versus Republicans, when it comes to Negroes, but instead ask categorically, 'How do you stand on Paul Rob-

Progressive Party Blasts American Foreign Policy

IPP Head Writes Letter Urging Leaders Speak Against Policy

The following are excerpts from a letter sent to 6 leading farm and labor leaders by Progressive Party Chairman Elmer A. Benson on the Korean situation. The letter was sent to Alan Kline, American Farm Bureau president; Philip Murray, CIO president; James Patton, National Farmers Union president; William Green, president American Federation of Labor; John L. Lewis, president United Mine Workers; and M. W. Thatcher, manager of Farmers Union Grain Terminal Association.

"Regardless of differences on various issues in the past, it seems to me that the time has come for our leading farm and labor leaders to speak up against our frightful foreign policy that is leading to World War III and that is destroying the social and econmic gains farmers and workers have won during the past twenty years.

I am suggesting a four-point program around which agreement should be possible at this time.

The delegation has been called by Civil Rights Congress in protest against alleged brutal treatment of Wesley R. Wells and Jerry Newson, death-row inmates at San Quentin.

JAY AND MARY KAYE cling to their mother, Mrs. Jean Field, in Superior Judge Harold W. Schweitzer's court after the judge ordered them delivered into the permanent custody of the father, who deserted the family 10 years ago. The father, who left the family three weeks after the birth of the second child, sued for custody on grounds that her political views were objectionable. Mrs. Field had taught her children that all people were equal, that discrimination and jim crow were evil things. She told them that President Truman was wrong in supporting the Rhee dictatorship in Korea and wrong in sending American soldiers to fight and die in a war in which the United States should not have interfered. Marking the first time in the history of American courts that children have been taken from parents because of political beliefs, Judge Schweitzer's decision ignored Mrs. Field's record as a good mother and awarded the protesting children to the father, who took them back to Oklahoma, heart of Jim Crow America.

A prospectus for the committee opens with, "We have come to the conclusion that both national and world events demand that the Negro people together with anti-jim crow white people and all minorities, make a determined effort on a broad popular base to abolish the national policy of Jim Crow."

It charges that the American Jim Crow policy is fostered, advocated and protected by the national government.

Judge Gives Children To Father Who Deserted Family Ten Years Ago

Mrs. Jean Field is a young mother of courage and democratic convictions. Ten years ago, at the age of 22, and less than three weeks after the birth of her second baby, she was deserted by her husband, with the terse explanation: "I no longer want the responsibility of a wife and children."

Since then she has carried on valiantly alone. Her little family has been a closely-knit unit, held together by love, gayety of heart, loyalty, and mutual trust. Her two children, like herself, are intelligent, friendly people. Mrs. Field believes in racial democracy, has taught her children to respect all peoples. When her son Jay, 13, wanted to bring home colored playmates, she said, "Of course."

In all these years their father, in Oklahoma, has shown little interest in his children, seldom even answering their letters. Until he entered the army, during the last war, he had contributed just $6 in all to their support during that time. When, however, he requested last summer, that they visit him in Oklahoma, their mother consented, receiving from him a promise to return the children to her by September in time for the opening of school. Mrs. Field bought their airflight tickets at her expense, and saw them off at the airport.

From then on, her letters to her children were intercepted, and she was unable to reach them. Their Oklahoma grandparents.

Patternson Calls For Repeal Of Anti-American Laws

Pulling no punches, calling a spade a spade, William Patterson, executive secretary of the Civil Rights Congress, held up the regime ruling at present in the United States to the scorn of an enthusiastic audience at a meeting held in his honor in the Embassy Auditorium last Sunday evening.

Paraphrasing the state of the union message of President Truman, Patterson pointed out that the danger voiced by the President that is threatening America, does not come from the USSR, as President Truman said, but from within America itself. Notably the officials now in power.

"Who is responsible for the murder of the Negro in San Pedro?" he asked. "Who is responsible for the four men on Terminal Island? For the Hollywood Ten? For the others im-

Kidnap Rap Dropped by High Court

Prison walls seemed a bit thinner today for Melvin C. Kennedy, former used car salesman, as news came that the District Court of Appeal had reversed an armed robbery conviction of the Los Angeles County Superior Court rendered against Kennedy May 19, 1950.

Judge Wm. M. Byrne found Kennedy, Elbert Mack and John Foster guilty of kidnapping and robbing Morris E. Hoier, a truck driver for the Simon-Levi Distributing Co., of $1400.00 worth of liquor last January, 1950.

At the trial the prosecution contended that Kennedy acted as the brains of the trio in executing the bold daylight holdup. Kennedy's attorney, Walter L. Gordon, Jr., appealed the conviction contending that the evidence

Restrictive Covenants Banned by High Court

LOS ANGELES (NPB)—The decision handed down by the U.S. Supreme Court which virtually outlawed racial restrictive contracts connected with the sale of real property, got its first real validity test here in a recent state superior court rulings. Despite the supreme court rulings, race minded property owners have insisted that covenants entered into by home owners not to sell their property to specified persons of differing racial identity were valid contracts which the state courts were bound to uphold.

Efforts of white property owners to collect damages from their neighbors for the sale of race restricted property to Negroes received a setback last Friday when Superior Judge Daniel Stevens sustained objections to the legal sufficiency of such complaints.

Judge Stevens' decision was rendered in sustaining a demurrer to suits filed over property sales in the Lejmert Park district. Sellers of the property represented by Attorneys Loren Miller and Edward C. Maddox, rested their claim of invalidity of the complaints on United States Supreme Court decisions outlawing court enforcement of race restrictive covenants. That decision also prevents collection of damages from white sellers, they contended.

Filing of the damage suits in local courts followed close on the heels of a decision of the Missouri supreme court in which it upheld the validity of such litigation. First to be sued was the late Oscar Reichow, former owner of Pacific Coast League baseball club, who was sued for $180,000 because of the sale of his Leimert Park home to a Negro family. Similar suits were filed in successive sales fro damages in varying amounts.

The only other court known to have passed on the claim was a federal district court in Washington, D.C., where it was held that damage suits for violation of race restrictions are impermissible.

While expressing the opinion that the complaints in the suits before him were inadequate to present the point, Judge Stevens gave attorneys for the plaintiffs thirty days to amend their pleadings if they so desired.

Courtroom observers were of the opinion the cases will ultimately find their way before the California Supreme Court. They also pointed to differences between Missouri and California laws as additional reasons why the Missouri decisions has no practical effect in this state.

Prior to the Supreme Court decision on race restrction suits which was handed down May 3 of 1948, California upheld the right of courts to issue injunctions to enforce the racial covenants and at the time of the decision upwards of a hundred cases were pending in the local courts.

Sailors' Raid Will Flop, MCS

MCS President Bryson Charges Jim Crow Practiced By SUP

MCS President Hugh Bryson, now in Wilmington, California, where he addressed the crew of several ships including the luxury liner, SS President Polk, round-the-world vessel which arrived here last night, stated in answer to many inquiries from the press in reference to the raid by Harry Lundeberg, SUP-AFL Secretary:

"Lundeberg like Curran of NMU-CIO hasn't a chance with MCS members. In the first place the Sailors Union of the Pacific doesn't allow Negroes in their union halls or union. MCS is the only seafaring union on the Pacific Coast that does not discriminate—and acceptance into membership of any qualified cook, or steward, regardless of race, creed, or color is out policy.

"Mr. Lundeberg will never take this democratic American position, and therefore will never get the support of any MCS member, because we believe in and fight for "liberty and justice for all," and for the principles contained in our great United States Constitution and Bill of Rights.

"The Lundeberg announced raid," continued Bryson, "is contrary to the best interests of the membership of both the MCS and the SUP, and is certainly contrary to all principles of trade unionism. Only the shipowners will profit from such divisive tactics, and only the seamen, longshoremen and general public, particularly those associated with and dependent on the Maritime Industry will lose.

"It's a fact, though, that his "drive" as that of Curran, will peter out before it gets started, because MCS members will stick with MCS as they have for the past 50 years," concluded the Union's statement.

It was also learned that the crew of the SS President Polk was unanimous in their condemnation of the NMU raid in a stop-work meeting addressed by both Bryson and Wilmington Port Agent Joe Johnson this morning.

Thoroughly convinced that the young man had only fired when the deceased was menacing him with a knife, Taylor has prepared for trial on a plea of self-defense.

Spears, who had voluntarily surrendered to Newton station police early the next morning after the tragedy, told both them and his counsel that the tragedy had developed from an argument, started by Cochran, over whose seats had been of the "cheap" class at the Olympic fights earlier that night. He explained that from nagging and ridiculing him, Cochran had grown so angry as to threaten to "kick him around."

As he lunged towards him as if to put his words into effect, Spears said he ran behind the bar and snatched out a revolver kept there as protection of the business place. He fired in Cochran's general direction he declared, the bullet striking him in the heart and killing him almost intsantly.

Going then to the home of a friend, Laurence White, he had remained there that night to rearrange his affairs, then gave himself up.

It is pointed out that effects of jim crow goes far beyond the confines of the Negro community.

"For instance, it is because of jim crow that millions of Negroes are deprived of . . . a decent education, but it is also because of jim crow that millions of white people get scarcely more . . . especially in the deep south."

Growing jim crow practices is compared with conditions in pre-World War II Germany

"In the United States, jim crow keeps the south a solid core of reaction, through which races are separated, people are kept backward, and senators and congressmen from this section . . . wield a balance of power which holds back social, political and economic progress."

Sponsors for the committee will be sought among individuals instead of organizations.

Suit Against Glendale Legionnaires Before U.S. Supreme Court

WASHINGTON — Major civil rights issues were involved in hearings before the United States Supreme Court Monday and Tuesday, January 8 and 9, in Collins vs. Hardyman, the suit arising from the attempt by a group of Glendale, Calif., Legionnaires to break up a political meeting in La Crescenta, Calif., Nov. 14, 1947.

Attys. A. L. Wirin and Loren Miller sought to establish Federal protectian for the right of assembly for discussion of national issues which has heretofore been reserved to state and local authorities.

The statute under which the suit was brought was enacted in 1871 to halt Ku Klux Klan activities in the South.

Although the suit, which seeks $100,000 damages, was confined to a claim that a Federal civil right was involved, Justice Robert H. Jackson at one time interposed the question as to whether or not Congress did not have power to protect all peaceable assemblies regardless of the subject under discussion.

Basing their positions on their interest in freedom of speech, the National Association for the Advancement of Colored People and the National CIO filed briefs as friends of the court on behalf of Hardyman.

A report to the citizens of the Bay Area will be made by Marshall at a public meeting to be held somewhere in San Francisco upon his return from Japan, it was stated by Franklin H. The tickets were issued this week.

mentality who has no business in the 20th century far east that desires independence and reforms. Let us recall that MacArthur is the man who helped 'solve' the demands of hungry World War I veterans by shooting them down. Furthermore, he can hardly be regarded as an objective observer of Far Eastern social problems because of his relation by marriage to the J. P. Morgan interests and because of his own great holdings in minerals, industries and land in the Philippines.

"(2) Cease fire and negotiate a peaceful settlement in Korea.

"(3) Demand that Acheson abandon the Ku Klux Klan foreign policy begun by Dixiecrat James Byrnes of arming corrupt, fascist-type governments all over the world.

"(4) Demand a new foreign policy based on the rights of the people of each nation to determine their own form of government without outside influence and on a oplicy of world disarmament among all nations.

Let us remember that 'silence is consent' and that therefore blood will be on our hands if the worst comes to pass due to our own silence. Let us realize that the war crowd is the same crowd that is seeking to destroy labor unions, co-ops, our farm programs and civil rights here at home and that they will succeed with their evil domestic program to the extent that they succeed with their evil foreign policy.

Commenting on President Truman's Friday night broadcast and his declaration of a national emergency, C. B. Baldwin, secretary of the Progressive Party, said:

For four years the President and his co-authors of the "get tough" policy have promised it would bring peace, while for years it has been bringing us closer to world war. Today thousands of American soldiers in Korea are paying with their lives for the failure of that policy. Their safety and the security of America cannot be won by proclaiming a national emergency.

The Progressive Party believes that the best defense of America is peace with China. We again urge mediation of all outstanding differences between our two countries based on a cease fire, looking toward the withdrawal of all foreign troops from Korea, an end to intervention in Formosa, and the seating of the representatives of 475 million Chinese people in the United Nations.

"They promised the repeal of the Taft-Hartley law," he said, "a law that would prohibit the poll tax, lynching, that would give us low-rent housing, FEPC, medical care, Federal aid to education, curb monopoly profits. They did none of these things. They gave us instead the McCarran Act, the greatest, and worst witch hunt in our history. They gave us war. They gave us taxes beyond endurance. They will continue to do so unless we stop them."

"That man lies," he declared, "who says the black man is fighting for the democracy in Korea, that is denied him in his own home. If he fought for the same thing here, he would be lynched."

"But we must fight here," he added. "Fight for real freedom, for first-class citizenship that is ours by right. Repeal the McCarran Act, the Taft-Hartley law, the Smith Act, give freedom to the Hollywood Ten, free Eugene Dennis, give a Federal FEPC, end Jimcrow everywhere, outlaw the KKK, outlaw the atom bomb."

Robert Robinson told the story of how Sam Jones was beaten to death by two policemen in San Pedro, after they had stopped the car in which he and a friend were riding. A resolution was adopted unanimously, calling for a thorough investigation and for the full penalty of the law upon those guilty.

Mrs. Frank Carlson, wife of one of the four held without bail at Terminal Island, told of the conditions there. Harry Carlisle, David Hyan and Miriam Stevenson are the three others so held, charged with being a danger to America, and so subject to deportation.

Beulah Richardson recited a poem she had written in honor of Paul Robeson. The warmth and beauty of the poem, as well as the poise and perfect diction of the young poet, won repeated applause.

Sam Remos gave an interpretative dance, while David Wolf behind the scenes read the words that gave meaning to the dance.

William Alcon, of the United Electrical Workers, presided.

A banquet honoring Patterson was held at the Nikabob Restaurant Friday evening, at which more than $700 was raised to help in the fight of the CRC against political imprisonment. Robert W. Kenny, former attorney general, was master of ceremonies, and Ben Margolis, prominent labor attorney, was one of the speakers. Many other celebrities attended.

The SIDEWALK

(Continued from Page 1)

eson?' in order to find out exactly what the Negroes' political beliefs are."

You, with many others, question why Robeson, so wonderfully talented, would sacrifice a profession that netted him an annual income of $200,000.

First on the question of fear on the part of the whites you mention.

That poses this question: If one lone Black Man, according to your reasoning, who stepped out of line to protest Jimcrow treatment of Negroes in his home-land, could develop, as you say, a tiny following and create such a furore, what would happen to the Ku Klux Klan, the lynch mob, the humiliation and the persecution of the Negro people, if a few thousand of us would give up some of the millions we earn and share our benefits with the starving black brothers living in poverty, subject to the lynch mob?

Truly, Mr. White, one lone voice can do little. But one great chorus in one loud voice might soften the hearts, or even change the minds of the Rankins, McCarrans, and Thomases who occupy cushioned seats in the Congress, and pass laws that deny Black and White people their rights guaranteed them by the Constitution.

Then as to Paul Robeson's political beliefs.

There is nothing contrary to American tradition in Paul Robeson's decision to lay his profession on the shelf for a season—for this is what he proposed—and go among the people, both Negro and white, speaking and singing for Democracy—that Democracy that will make us, the American people, a free people.

There is nothing strange nor Russian-tinted in the sacrifices made by Robeson. He is not the first American who was willing to be a martyr to a cause.

John Brown was so sure that slavery was a religious cancer that would eventually destroy the people, that with a tiny following he attacked Harper's Ferry and laid down his life for a cause he believed was right.

Frederick Douglass, escaped from slavery, could have lived in England in comfort, but he chose to come home and fight with and for his Black brothers, still in chains.

Yes, Paul Robeson, too, went to Europe where he was received, applauded, and I may add, adored. He could have lived in England or Russia, but like Douglass he loved the homeland and his people best.

I have heard him speak and sing, I presume, as many times as the great Walter White has. At no time have I ever heard Paul Robeson utter a word that could be construed subversive or directed at the overthrow of this government.

And I wish to add that during a ten-day visit to Russia last summer, I heard no word nor saw any activity that caused me to feel or believe that Russia was planning to make war on the United States.

Everywhere I went, in schools, factories, farms, and churches, Russian men, women, and children expressed a desire to be friends with my country.

In the case of the 22 Negroes who went to Russia in 1932 to make a motion picture, I learned from Wayland Rudd that only 19 of them returned to the United States and three of them remained in Russia. You made the miscalculation, Mr. White, of saying ALL came back.

In Moscow, Mr. Rudd operates a movie theater. He is a producer. He is married, has a son and daughter, loves Russia, but has no ill-will towards his native America.

I have heard Robeson speak and sing in New York, Chicago, Philadelphia, Los Angeles, and Hollywood. At all times Paul Robeson was the perfect gentleman.

It seems to me, Mr. White, that the Hollywood incident in which you say Mr. Robeson became excited in explaining his political views, as well as the occasion of the presentation of the Spingarn medal in 1945, are incidents with one meaning on your part: to smear the reputation and attack the character of a great American who, so unlike most highly reputed Negro leaders, has given all to and taken nothing from his people.

Truly, Mr. White, you do not think this sort of slanderous story in EBONY will be helpful in building Negro morale.

You suggest that Robeson has been moving backward, instead of forward. But in the same mood you criticize him for, as you say, before his "political conversion"—which only he and perhaps psychologists understand—starring in a Hollywood film, "Tales of Manhattan" and other such pictures which he himself later helped to picket when he came into a realization that such stereotypes of the Negro held him up to scorn and ridicule.

Robeson then not only turned his back on such productions, but also advises others in the movie world to insist on proper portrayal of Negro characters in the movies.

It seems to me that here are some of the finest and most unselfish demonstrations of a forward turn in a man's life.

Robeson's philosophy is that neither character nor intellect should be measured by skin color or pigmentation, but by a man's genius and ability to achieve the high rank in good citizenship on a basis of equality which spells freedom.

Negroes in this country, if they propose to continue as such, or in any other country, will never gain the respect of other racial segments or achieve white unity by attempting to hold any member of the racial group up for ridicule, as you have tried to do in this slick EBONY article.

But you can't do this, Mr. White. The Black people in the NAACP which you head, will repudiate your leadership.

We must preserve our country. But to do this, it is not necessary to sacrifice our human dignity and honor.

The people, especially that minority of which I am a part, and you, Mr. White, (?) are tired of being kicked around by the white supremists and Dixiecrats who hire Negro bosses to kick other Negroes around.

The Negro people want the same kind of freedom of movement that white people enjoy.

I ask you, why did the State Department deny Paul Robeson a passport to go to Europe in 1950? Other American citizens travel up and down Europe at will.

I noticed some weeks ago when Thurgood Marshall, representing the NAACP, applied for permission to investigate the treatment of Negro soldiers in Korea, only by your intercession was the permission granted.

How does this stack up in your estimation? This is not true freedom. This is the thing Paul Robeson is fighting. This is what every true American should fight. And would if we Americans were not so confused by our leaders, white and black some of whom are paid to bring about this very confusion.

EUROPE AS I SAW IT

The following is the eleventh installment of a series of articles to be printed by THE CALIFORNIA EAGLE, describing the experiences, impressions, and first-hand knowledge gained by Charlotta Bass on a two-months' tour of three European countries—France, Czechoslovakia, and Russia.

GABRIEL D'ARBOUSSIER is one of the outstanding figures in the World Peace Conference. He presided jointly with Jean Lafitte in Prague at the Peace Committee which arranged for the Second World Peace conference, scheduled to have been held in Sheffield, England, but being refused, was taken to Warsaw, Poland. Mr. d'Arboussier is highly respected by the French people, and is popular in all Europe. Mrs. Gabriel d'Arboussier and the two d'Arboussier children, at whose home the editor of the Eagle spent several delightful hours while in Paris.

A Bird's Eye View of Paris

At any time and for any occasion a visit to Paris, France, is a most interesting and intriguing experience.

All my life I had heard so many stories about what goes on in Paris. Some of them caused me to imagine that Paris, the center about which all France revolves, was a sort of Paradise. Others that it was a very wicked city, where only people who planned to make h--- their home went for experience, excitement, and gaity.

The opportunity came, so I visited Paris in the summer of 1950.

While in the French metropolis I lived at the Imperator Hotel, at 70-80 Rue Beaubourg.

I had met some fine people from France at the conference in Prague, and made contact with them in Paris.

My first experience in Paris was a luncheon at one of the city's popular cafes.

Present at this most delightful affair were: Dr. Du Bois, Jean Lafitte, Georgette Lafitte, Mr. and Mrs. Fletcher, Abbe Boulier, Mrs. Elizabeth Moos, Laurent Casanova, Fernande Guyol, secretary-treasurer Peace Conference; Borsari Palamede, Brazil; George Fehoaltea, Mr. and Mrs. Fensulteu, Wahe; Betty Millard, and Mrs. C. A. Bass.

This luncheon experience turned out to be the bright side of Paris life.

A tour around Paris soon revealed that all is not well in Paris. Parisians have not yet recovered from the ravages of World War II. They are restless and greatly disturbed by the rumblings of what they considered World War III.

There is great poverty in Paris, and housing conditions are deplorable.

When I asked some of the French people about the benefits derived from the Marshall Plan, they advised me that it had been harmful rather than good. That under the Marshall Plan in France, wages were lowered and prices hiked.

Housing conditions in Paris, as I have said, are deplorable. In some instances families of four or five are living in one room, cooking on coal oil stoves when they can get the oil. Old people visit the market places, picking up scraps of half-decayed fruits and vegetables in order to subsist.

France, as I saw it, is wrestling with two emotions: whether to pursue its original course of no racial or color line, or to adopt the American way of discriminating against dark people.

I attended a celebration commemorating the life, sacrifices, and death of Danella Casanova in a German concentration camp, and a meeting which was a fight for peace centered around the surviving women and children of Lidice, Czechoslovakia.

The village of Lidice was razed to the ground by the German Fascists. All the male inhabitants from fourteen years on, were killed. I had the supreme pleasure of visiting and eating lunch with the family of Gabriel d'Arboussier whom I also met in Prague. Mr. d'Arboussier lives outside of Paris.

He was born at Djenne in French West Africa, January 14, 1908. His father was French of noble ancestry, having served in important administrative positions in Africa and having also served as Governor of New Caledonia. His mother was African, counting among her ancestors important chieftains allied to El Hadj Omar Zoll, who fought for many years against French penetration.

Gabriel d'Arboussier was raised in Africa and at the age of 10 came to Europe to continue his education. His principal studies were mathematics and law.

In 1931, he returned to Africa as employee of the colonial administration. In 1938, he won highest graduation honors at the Graduate School of Colonial Administration and after one year of preparatory service in Paris, returned to Africa in 1939. Although mobilized, he remained in Africa from 1939 to 1941.

It was during this period that he began his political activity. He successfully campaigned for the Constituant Assembly in 1945 where he served as reporter for the Commission on Colonial Problems of the Assembly. (Reporter is the equivalent of spokesman or member of a Congressional Committee who introduces the results of the Commission's work to Congress—Translator's note).

In 1946, together with Felix Houphouet Boigny, Ivory Coast Deputy, he organized "Le Rassemblement Democratique Africaine" (Democratic Union of Africa). He married Antoinette Neves, half-caste like himself, from the islands near "Cap Vert" (Green Cap) and from this marriage have come three children—2 daughters, Gavina and Anta—and one son, Henri Amadou.

Elected to the Assembly of the French Union (consultative body for all the French Colonies—in France the word 'colonies' has been replaced by the word 'Union —Translators note) was designat Vice-President of this Assembly.

Gabriel d'Arboussier was among the original signers of the Appeal for the World Congress of the Defenders of Peace held at Salle Pleyel in Paris in 1949, was elected and still serves as Vice-President of this world-wide movement.

News From Europe and Other Countries

CEYLON PEACE CONGRESS

COLOMBO — Well over 30,000 persons were present t the closing session of the Second All-Ceylon Peace Congress, which concluded at Matara, South Ceylon, on December 24th.

The two-day conference, which was attended by over 1,500 delegates from all Ceylon, was preceded by weeks of activity throughout the Island, explaining the aims of the peace movement and the meaning of the decisions of the Warsaw Peace Congress. A peace caravan, led by members of the Ceylon Federation of Democratic Youth, travelled the 100 miles from Colombo to Matara by foot in ten days, explaining the objects of the movement and collecting over 2,000 signatures to the peace petition en route.

The conference was opened by a leading Buddhist priest, the Reverend Buddhadatta Ther, and several Buddhist priests were associated with him on the platform. The Reverend Narawila Dharmaratana presented the report of the peace committee.

The congress unanimously approved the peace decision taken at the Warsaw Congress, and pledged "to mobilize all the peaceloving people of Ceylon in support of these aims, and to prevent the use of Ceylonese manpower and military bases for wars of aggression by imperialist powers against Asian peoples."

The conference elected a new peace committee, comprising representative public figures.

The delegates and visitors were entertained with national dances and other cultural entertainments. One of Ceylon's leading Sinhalese poets, Alwis Perera, chaired the progressive poets' forum in which young poets recited poems on "peace."

In an interesting "devil-dancing" ceremony the warmongers, as the "devils," were driven out through the blessings of the "gods."

Among those who addressed the conference were the mayor of Colombo, members of parliament and trade union leaders.

YOUTH AGAINST REMILITARISATION

PRAGUE — A "Youth Action Committee Against Remilitarisation" was founded in Hof (American zone) with the participation of representatives of the Free German Youth, the "Falcons" (Social Democratic youth) and other youth organizations, the World Federation of Democratic Youth announces.

Outstanding personalities, among them the ex-Lord Mayor of Hof, Dr. Wagner, have declared themselves ready to support the Committee and to take an active part in the fight for peace. In a call issued by this Committee, all men are asked to refuse weapon training and not to obey call-up orders for the mercenary army of the imperialists. Furthermore, the youth have set themselves the aim of winning all the peace-loving inhabitants of Hof, particularly the youth, for the support of the Committee and active cooperation in the fight against remilitarisation.

USSR BUILDS RIVER FLEET

MOSCOW — A large fleet of river vessels is being built in the Soviet Union so that full use can be made of the internal waterways system, said the Minister of the river fleet Shaskov in an article published in **Pravda.**

A series of huge new inland ports are to be built, Shashkov writes. The largest will be at the mouth of Northern Donets, equipped to handle the loading of 4,000-ton vessels in a few hours. Other large ports are projected for Tsimlianksaya on the Don and Kalach on the Don. The Rostov port is to be reconstructed. Numerous shelter harbours are to be built on large inland seas which the vessels will have to traverse and where storms are likely to arise.

At the Soviet Union's oldest shipyards a fleet of large new luxury liners for river use is to be built. They will run between Moscow, Rostov and perhaps on to the Black Sea coastal resorts. With cabin space for 500 passengers, salons and swimming pools, these diesel electric ships will be considerably faster than the highly popular river steamers now in use.

Other lines will link the Black Sea with Archangel and Leningrad.

Altogether, the building of the link between the Volga and the Don will connect 30,000 kilometres of waterways of the Volga and North Russian basins with the Black Sea, compared with 13,000 kilometres of Dnieper and Don Basins now linked with it.

DENMARK, SWEDEN OPPOSE U.S. PLANS

COPENHAGEN — American notes to Denmark and Sweden demanding their support in the planned American action to brand China as an aggressor nation have caused considerable misgivings in both countries. In Denmark the government has called a meeting of the parliamentary Foreign Affairs Committee to discuss the note, but even the reactionary press displays a complete lack of enthusiasm for the American demands.

The Conservative government paper, Berlingske Tiddende, which has until now defended every American step in the Far East, warns against the use of the Acheson Plan in the United Nations General Assembly in this case because while "in June 53 nations voted fo rthe action (against Korea) it will not be possibel to mobilize as many as that when the question is about China."

BRITISH FEAR IN PERSIA

LONDON — Anxiety is being expressed in the British Foreign office over the increasingly tenuous hold on Persia. These anxieties have been reinforced by the Persian governmental crisis over the question of renewing the Anglo-Iranian Oil Company's agreement.

The chief factor which disturbs the Anglo-American diplomats and oil moguls is the considerable improvement in relations between Persia and the Soviet Union which took place recently.

The Financial **Times** states that "even a Persian peasant" can grasp the fact that the supply of military equipment from the U.S. and Britain means removing men from the land to handle it, "whereas an offer to buy wool, sheepskins, and fish must provide him with a better standard of living."

TALKS ENDORSE RENAZIFICATION

BERLIN—As the talks began at Petersberg, near Bonn, between imperialist powers and Western German on the building up of the German army, the Western occupation authorities continue their policy of using ex-members of the Wehrmacht, the SS and Gestapo for this purpose, placing them in key positions in public offices and in their intelligence services.

Participating in the talks on the question of the German "contribution" to American war plans in Europe with representatives of the United States, Great Britain and France are Nazi generals, Hans Speidel, once Rommel's Chief-of-Staff, and Adolf Heusinger who played a prominent part in the campaign against Russia. At the same time it has become apparent that the French occupation authorities are using the Nazis for their intelligence service. Two ex-SS officers Hagen and Nosek who were active collaborators of the Gestapo in Paris during the war and on whose orders hundreds of French citizens were tortured to death were not put by the French occupation authorities on the list of war criminals.

DANCE GROUP OVER 65

NEW YORK CITY—At a special performance, "The International Revue," presented by the Friendly Neighbors at the Educational Alliance Club, the Modern Dance Group of the Salvation Army Red Shield Club gave a splendid interpretation of the Lord's Prayer. The remarkable thing is that the members of the Modern Dance Group are all over 65 years of age. The Modern Dance Group is under the direction of Charles Christian, Program Specialist of the Red Shield Club.

DILEMMA FOR PAKISTAN

WASHINGTON — Even Pakistan, regarded as the most promising United States stronghold in Asia, is having difficulty in reconciling the American demands with the needs of its own foreign and internal policy. This is the considered opinion of Harold Stassen, president of Pennsylvania University and a Republican Party leader, who has recently returned from a tour of the East.

Stassen was sent on his tour as an unofficial "roving ambassador," with instructions to pay special attention to Pakistan. His mission was to boost American prestige, which has reached an unprecedented low as a result of events in Korea.

In his talks with Pakistan Premier Liaquat Ali Khan, Stassen insisted that the Pakistan government must wage incessant war on all "dissemination of dangerous opinions," and that it conduct a broad propaganda campaign to "restore confidence in Western democracy."

The State Department is dissatisfied with the Pakistan government's failure to fulfil its "commitments" to the United States, particularly in supporting United States decisions and their execution in Asia countries, and on the issue of the reorganization of the Pakistan army.

In answer to Stassen's insistence that "promises are not enough" and that "the time has come for Pakistan to take concrete action on the Korean issue," Liaquat Ali Khan pointed out that while he and his government accept the "anti-Communist" role of the United States government, Washington's policy is nevertheless ever more frequently coming into conflict with the national aspirations of the peoples.

This is making it very difficult for the Pakistan government to declare itself in full solidarity with the implications of the American policy in Asia, Liaquat Ali Khan protested.

EMPIRE PRIME MINISTERS ALARMED AT UNITED STATES BELLIGERENCE

LONDON—Alarm at the dangerous situation created by the American warmongers in Asia is rapidly spreading. At the Conference of "Empire Prime Ministers" it became clear that no united support of U.S. policy could be achieved, and the latest American attack on China at the United Nations is regarded by most of the prime ministers as a serious blunder.

Today's "liberal" press publishes statements by such notorious anti-Communists as A. J. Cummings and the Duke of Bedford, calling for a peaceful settlement with China. The News Chronicle's leading political commentator, A. J. Cummings, refers to the People's Government of China as being 'firmly in the saddle" with "control of the greater part of China," and says that "there are no signs of popular hostility to the regime." This New China, he stresses, "will only talk, if he talks at all, on equal terms." Cummings advocates opening such talks rather than "bring exhausting large-scale war inevitably nearer."

In the Manchester Guardian the Duke of Bedford writes a letter which pays striking tribute to the Warsaw Congress. "Reliable people who were delegates from non-Communist countries report a far more sincere desire for peace among the members of the Warsaw Conference," he writes, "than we have been led to believe could possibly have existed." He urges the British Government to accept, and not reject, every Soviet offer of negotiation.

Outside of Britain also more voices are being raised against the plans of the American warmongers. Reports from Sweden, for example, state that the latest American proposals have had a very cold reception.

Writing in America itself, Walter Lippmann, in the New York Herald Tribune, reviews the Far Eastern situation with a high degree of realism. The result of "all-out war with China," he writes, "is not an agreeable thing to contemplate." He refers to America as having "impossible choices" in the Far East and attributes this to American failure to recognize that 'Red' China is a great military power in the Far East, and that nothing can be settled within the sphere of China's historic interest without the participation of 'Red' China."

CHINA REJOICES FOR SEOUL

PEKING—The news of Seoul's liberation on January 4th was celebrated with parades, meetings and joyous demonstrations throughout China. It was past midnight when Peking received the news on the 4th, but soon joyful students with torches were marching through the streets in celebration, despite the heavily falling snow.

The next morning workers, students and women paraded through the streets bearing huge portraits of Chairman Mao Tse-tung, Commander-in-Chief Chu Teh, and General Kim Il Sung, while the national flags of China and Korea waved over the capital.

On the same day Tientsin presented another joyous scene as paraders packed its thoroughfares while red flags waved atop the snow-covered roofs of its buildings. Shanghai, Hankow, Hengyang, Canton, Chagsha and other major cities also rejoiced. An excited postman in Wuchang wrote the bold characters "Celebrate Seoul's Liberation" on his mail bag. He said: "I will run and distribute the mail as fast as I can so that everybody may know the exciting news."

ALIBI FOR VIET NAM

PARIS—French government leaders are continuing to prepare an alibi for defeat in Indochina and at the same time open the way for direct United States military intervention as United Nations troops.

The minister for the Associated States, Jean Letourneau, who has complete charge of the war in Viet Nam, is reported to have told the Council of Ministers early last week on his return from Indochina that the French troops could "hold their ground" if the Chinese did not "intervene." If they did "intervene" the question of Indochina would have to be raised in the United Nations, he said.

Letourneau was repeating the line taken recently by French the American spokesmen in order to explain the coming defeat of the French forces and then on the wholly fictitious basis of Chinese "intervention" to prepare the way for United States intervention.

U.S. MEETS IN BERLIN

PRAGUE—The International Union of Students is holding its executive committee meeting in Berlin January 13th to 18th. Its agenda will consist of: (1) the results of the Second World Peace Congress, (2) the strengthening of the unity of the international student movement, (3) the World Festival of Youth and Students, which is also to be held in Berlin next summer.

The I.U.S. Secretariat has invited representatives of the National Student Unions of France, Canada, Australia, South Africa, Norway, Finland, Sweden, Denmark, New Zealand, Scotland, the National Student Association of the United States and the General Association of Students of the Free University of Brussels, to take part in the discussion at the executive meeting. Many of these organizations are not members o the I.U.S.

In calling the meeting, the I.U.S. has declared that particularly this time students can make an important contribution to peace by increasing understanding between students of different countries.

AMSTERDAM — Forty workers of a prominent building firm here stopped work immediately when they learned that the cases they were unloading in Amsterdam port contained not only building material but also ammunition. Truck drivers of the same firm abandoned the freight and drove empty cars away. Employees of two other companies also refused, even when double wages were promised.

LIDICE LIVES AGAIN

The village of Lidice, which was to be obliterated by the Nazis is now awakening to new life. After the liberation of our country in 1945 by the valiant Red Army, our working people started at once to build Lidice anew. In the west plain, where here and there a tree shows its lonely solhouette against the sky, once stood a village alive with the happy laughter of children. Today it is a picture of desolation. The great memorial where are inscribed the names of all these innocent men, women and children killed by the Nazis is a drastic proof of the bestiality of a fascist policy.

But not far away from this place of ancient tragedy new roads are leading to freshly built habitations, surrounded by pretty little gardens, where a new and happier life is already taking root. There, where criminal fascism undertook deeds of destruction, the new regime of Czechoslovakia, the People's Democratic Republic puts all its efforts into new constructions.

This place is already becoming the happy home of 140 women and 16 children of Lidice, who have returned there to live. This new home of theirs, grown out of so inhuman a suffering, stands now on the solid grounds of a new and just social order—socialism—which offers the people more joy and happiness than they had ever experienced before.

While warmongers in Europe and overseas hold council whether or not the atomic bomb should be used against the Korean people, the women of Lidice call all honest people:

"Let never another Lidice happen, neither in Czechoslovakia, nor anywhere else in the world!"

THEIR CALL MUST BE ANSWERED!

TURKEY PLAYS LEADING ROLE

CAIRO—Turkey, as the strongest military power in the Near East, has been allocated a leading role in the American East Mediterranean bloc project which calls for a military alliance of Turkey, Greece, Israel and the Arab countries under the aegis of the United States, Telepress learns from highly responsible sources in the British Embassy here.

The American plans provide for preparatory courses for instructors to serve in the Syrian, Lebanese, Greek and other armies. These instructors will be chosen from the ranks of Turkish officers. The teaching staff for the courses will include American officers and former Hitlerite generals.

NEGRO LIBERATION MOVEMENT

NEW YORK—Delegates to the 15th U. S. Communist Party Convention hailed with a three-minute standing ovation the declaration of Benjamin J. Daivs, member of the party's national committee, that "the Negro liberation movement is objectively a movement for peace and against war, and the working class and other peace forces must, for the sake of peace, give this movement the mots determined and uncompromising support in any and all its aspects."

Davis said that the contribution the Negro workers and masses are making to the struggle for peace comes not from "just another section of the country's population," but "from a people whose right to self-determination and nationhood in the Black Belt where they are a majority is denied by the very imperialism which is supposedly 'liberating' another colored nation from so-called 'Communistv tyranny.' We must expose this pious fraud, and find a way of expressing to the world, in keeping with the present period, the demand that the Wall Street 'liberators' free the Negro nation imprisoned on the American mainland.

SOUTH AFRICAN URANIUM

CAPE TOWN—The South African Department of Mines has announced that South Africa has entered into an agreement with Britain and the United States for the sale of uranium produced in this country.

Uranium, basic element required for American atom bomb production, is found in practically all the gold mines of the Transvaal and the Orange Free State, and investigations have been proceeding for some time to discover whether it can be economically recovered.

WEST GERMANS GO TO SOUTH AFRICA

CAPE TOWN—The flow of immigrants from West Germany to South Africa continues uninterrupted, despite denials that Nazis are being allowed to enter the country.

In the middle of December 50 German girls to be trained as pupil nurses arrived in South Africa by air. A further 120 girls will be arriving shortly. All were recruited in the Western Zone of Germany.

A German nurse who personally received the Iron Cross from Hitler is now a resident in the Witwatersrand, married to a miner there.

Attempts to recruit mining trainees in the Western Zone of Germany received a set-back recently when the German authorities refused to allow any of their youths to leave the country. Conditions in the South African mines were unacceptable, they said.

VIRGIN ISLANDS LEVEL OF LIVING

The Virgin Islands provide a good example of how electric power can help promote agriculture and improve health and living standards, said Administrator Claude R. Wickard of the U.S. Department of Agriculture's Rural Electrification Administration last week in New Delhi, India. He was speaking before a sectional meeting of the World Power Conference.

Wickard said that as a result of REA loans, substantial improvement has been made in the economic activity and level of living of the people of the Virgin Islands during the three

To My Many Friends:

I have used about everything on the market trying to make my kind of hair look and appear presentable, without any satisfactory results. The different preparations that I used either left my hair unsightly stringy straight, having to pack it full of grease, or it turned a dirty rust red in color. I finally gave up the idea of trying to improve the looks of my hair, and had it all cut off, permitting it to grow out naturally as my photo shows.

My lucky day was when I happened to hear about Hair Marvel. Now I keep my hair looking good without a lot of expense, bother, or grease. I do my hair myself about every three weeks, that is as often as I have it cut. It only costs me about a dollar a month to keep my hair the way I like it. No one thinks that I use any kind of hair straightener, as my hair has the appearance that nature did it.

One of the delights of using Hair Marvel is the surprising fact that the hair does not change its natural color by its continual use. As a matter of fact the longer you use Hair Marvel, the better the hair appears to be. Just follow the directions for pleasing results.

Sincerely,
(Signed) JAMES L. WARD

● Children Weep

(Continued from Page 1)

shocked at the democratic beliefs of the children, scolded them and tried to alter their views. But the children remained steadfast. When the Korean crisis arose, Jay telephoned to his mother halfway across the continent to ask her to interpret things for him. The long letter she wrote back in answer, was kept from him. Instead, the father sued for custody of the children on the grounds that her political views were objectionable.

Only when he was ordered to produce the children in court, was their mother able to see them again, or did they for the first time become aware that a barrier had been erected between themselves and their mother. When they learned of this, they pleaded with her to take them home, away from their father.

Harrowing experiences, shocks and confusion, now took the place of the life of normal happy family relationships in an atmosphere of good will. They were brought to Los Angeles and kept in the Juvenile Detention Home. When Superior Judge Harold W. Schweitzer read Mrs. Field's letters to her children, discussing social and political questions with them and even daring to disagree with Mr. Truman's now discredited policies in Korea, he swept aside all evidence of her magnificent job as a mother. On the basis of her letters alone, he took them from her, giving total custody to the father who had deserted them ten years before.

In the courtroom, as the children clung to their mother in anguish, the judge refused her the one day with them for which she asked, cynically stating, "Children always cry when they leave their parents." When she pleaded for ten minutes, he ordered that they be taken from her by force if necessary.

Mrs. Field then released the weeping children from her arms, and within ten minutes they were whisked away from her sight. As they were led from the courtroom, she cried after them, "Never forget your mother. Never forget what I have taught you of what is wrong and what your father has done to me."

These are typical extracts from the two letters on the basis of which Judge Schweitzer took Mrs. Fields' children from her:

"Dear Jay and Mary Kaye: The letters you have written me are the nicest I've ever received from anyone. I hope you find time to write some more. I know you are having a very happy time, and that makes me happy. Just remember, children, you, too, have an obligation to conduct yourselves in such a manner that those around you may also be happier for your presence. . . . I am sure you are doing that.

"The weather here has been swell, not too hot, yet "sunshiny". I haven't had time to get down to the beach though.

"Jay, I am sending you some newspaper clippings on the Korea situation. Read them at your leisure, and remember this. . . . Rhee, the head of the South Korean puppet government, was never elected by the South Korean people. He spent his life from 1919 to 1945 in the U.S. and was put at the head of South Korea by the American military, he was never elected by the people, and in an election held in South Korea two months ago he and his entire cabinet were overwhelmingly defeated.

". . . The U.S. can drop all the bombs we have, but weapons of war can never kill an Idea. . . . Never be discouraged, and never let anyone confuse you into thinking that the interests of those who control this government are the interests of the people of this nation. . . . Our rights are set forth in the Constitution, the right of freedom of speech, press, and assembly, and the right to keep political beliefs or affiliations to ourselves."

". . . Have you had an opportunity to sign the Peace Petition yet? One and one half million people in the United States have already signed."

". . . Goodbye my pride and joy. . . . All my love."

Some indication of the attitude of the people who instigated this court action is contained in a complaint to the court by the grandfather of behavior of young Jay Field while visiting in Oklahoma:

"Jay . . . also showed a great admiration for Jackie Robinson, Larry Doby ,and Luke Easter, all Negro baseball players, but seldom spoke words of praise for other celebrities of the white race on the national or American baseball teams. He spoke very critically of the laws of Oklahoma regarding the segregation of white and colored persons in their attendance in theaters and other places of amusement, and in railroad trains, streetcars and in schools. In that connection, he said the Negro race was as good as the whites and entitled to the same privileges . . . and stated that some of his best friends were colored boys."

Mrs. Field has not heard from her children since they were taken from the courtroom of Judge Schweitzer in Los Angeles.

This is the first time in the history of American courts that children have been taken from a parent because of political beliefs.

Aware of the dangers from such judicial arrogance and presumption, a committee has come into being to follow up this matter. It is composed of social workers, psychiatrists, writers, and plain citizens. It can be reached by telephone at GR. 0172 or at 1850 North Western Avenue.

West Coast Longshoremen To Continue Fight

LONGVIEW, Wash—West Coast longshoremen will continue their fight to protect their traditional right to work lumber cargo.

This was the instruction given to the Coast Labor Relations Committee of the International Longshoremen's and Warehousemen's Union last week in the opening sessions of a coastwise Longshore, Shipclerks and Walking Boss conference being held here in the dispatching hall of ILWU Local 21.

The nearly 80 delegates to the conference elected James S. Fantz of Local 8, Portland, as chairman, and Harry Rice of ILWU Local 40, Portland, as secretary.

Other items on the agenda of the conference include report and action on the Coast Guard screening program, the current attacks being made against the hiring hall, the proposed national economic stabilization program of the federal government and the functioning of the welfare plan under the present Longshore and Shipclerks agreements.

Action on protection of the union's ship and dock jurisdiction followed almost a full day of reports and discussions about the raiding attempts of the Sailors Union of the Pacific against steam schooner work and the many court injunctions, NLRB moves against the ILWU and other matters pertaining to the C-Trader.

The Coast Labor Relations Committee was voted authority to continue to lead an effective fight to defeat the raiding attempts.

The committee also was instructed to take necessary steps to negotiate a new steam schooner contract at the earliest possible time.

A comprehensive study of cancer, the book will be distributed free to nurses practicing in Los Angeles County as a service of the local branch. Aimed at acquainting nurses with the basic facts of the disease and aiding them in rendering better care of cancer patients, the book was recently published by the American Cancer Society as part of a national cancer control effort through professional education

Wild Doves Come To City

Wild doves come to the city to rear their young, and their plaintive note is heard on every side. Symbol of peace and innocence, they would be friends of man, even though harried by fowlers.

Envisioned through smoke of battle, ruin and odor of death, what prospect for world peace offers those who mourn?

Asia, aflame with revolt against evil systems, seeks peace to heal her wounds and time which to build. China's workers plan against flood and build highways, and her patient farmers seed reclaimed land to feed the people. No longer are her children sold or starved. Korea, brutally wrecked as Christendom shuddered, sees her children appeal to heaven for pity as they seek food and shelter in the ruins. Soviet Russia, victim of savage imperialist warfare, trains her workers to divert rivers and to make desert and wilderness bloom with harvest while her children chant hymns of peace in modern schools. From the East, whence arose the dawn of civilization, comes the vital message that each must give his neighbor the consideration he would wish himself.

Europe, fertile field for kingcraft, war and dominance of cunning Jesuits, demands change and reckoning. Statesmen, soldiers and priests devour the substance of the people and combine to crush aspirations of workers and to deny the future of their children. Demand for peace grows stronger and racial supremacy is passing.

Africa stirs throughout her vast boundaries to end colonial exploitation and white supremacy. Long the prey of slave-traders, Negroes proclaim to the world that her children must not be doomed to hopeless toil with literacy denied. Message of world brotherhood spreads and brings hope. No brutal force or inspired fear may avail to stay progress of Africa to freedom.

America, once hope and inspiration for the world, what of your guarantees for thought and action? Shall arrogant white supremacists defy law and substitute the violence of mobs to burn and murder? Have not Negroes earned full rights of citizenship by merit through years of civil discrimination? And those of the minority groups? Shall workers of alien birth whose productive labor has added to the nation's wealth be shamefully imprisoned or banished. Dense poverty and vile slums deny full lives to neglected children, and crime, prisons and wrecked mentalities fill the land. Publicity, usurped by capital, pours from press and public office a smog which poisons the air of freedom. What harvest threatens from these evils? Awake, my people, cleanse the temple from corruption and drive ou the money-changers!

My country, land of ideals, shall ruthless age offer you as sacrifice upon the altar of sordid war? Are demands for justice always to be answered by terror or by war? If man fail in parenthood shall not women also share in responsibility? Let the mothers look to Mother Nature for example! Do mother birds expose their young to cruel birds of prey? Or thrust them from the nest ere they have strength to wing their way abroad? Shall thin veneer of culture justify mothers if they give their sons to slaughter?

Through scenes of horror and despair looms the pitiful face of a little child pleading for life and love and right to opportunity.

Long ago prophets inspired for the welfare of humanity, gave the solemn message to the nations, "A little child shall lead them."

From every land the people stretch forth the hand of brotherhood, demanding peace and protesting slaughter. World unity of Labor assures the future of the child, bringing social change. Mammon shall no longer have power to turn men against their brothers.

The gentle wild dove, whose innocence and plaintive call inspires thought of peace, also needs protection for the young.

Coroner Names Eastside War Disaster Aides

One of the first steps taken by an agency of the State Defense set up to insure a measure of precaution in event of a shooting war, came in the form of an announcement from the Los Angeles County Coroner's office, that the three districts in the Metropolitan area of Los Angeles had been mapped and disaster centers identified and properly alerted.

Principal centers will be located in hospitals, sheriff's substations, numerous police stations and mortuaries throughout the city. All morticians have been designated from the beginning as a committee of one in event of sudden disaster. This fact means that the scores of Negro owned mortuaries are to play an important role in the over all disaster program.

Zones in which a majority of these Negro mortuary centers are located, are No. 9 and No. 19, roughly the area comprising the Watts-So. Los Angeles district, Bell, Firestone, Florence, Huntington Park(Lynwood, Maywood, and Paramount. The three mortuary centers there are, South Los Angeles, Smith-Williams and Joe Lewis mortuaries.

Located in zone No. 19 bounded on the north by Aliso Street and extending along Main to Compton to Florence Ave., ordinarily is bounded on the west by Broadway and the South by Slauson. In this large area, mortuary disaster centers headed by Negroes are those of Angelus, Avalon, Connor-Johnson, Peoples, A. J. Robers and Metropolitan mortuaries.

Each disaster zone will meet to appoint a coordinator and assistant coordinator. Zone No. 9 met Wednesday night for that purpose. Zone No. 19 will meet in the next ten days to elect or appoint its coordinator and assistant coordinator.

ties, and to get tubes for the small portable radio that often was his group's only contact with the outside world.

However, after telling his mother what equipment he wanted airmailed to him, Lt. Lang with her and to reassure her that he was all right.

In order to get the call through, wires had to be pulled by high-ranking officers in the vicinity of Seoul. Lt. Lang had been given permission to go to Seoul to try to find the parts and equipment he needed, but the war-torn city had none of them.

It took forty-five minutes to get the call through from Korea to Santa Barbara.

Value Your Health More Than Riches

Some folks think that fine clothes and fine, big houses are the most important things in life, but these things really don't mean too much if a person doesn't feel well enough to enjoy them. Most folks don't realize this, but Mrs. Lucy Braswell, of Route 2, Stone Mountain, Ga., realizes it very well. Mrs. Braswell takes HADACOL, and by taking HADACOL she found she is helping her system overcome deficiencies of Vitamins B1, B2, Niacin and Iron, which HADACOL contains.

Here is Mrs. Braswell's own statement: "I have been sick for some time with stomach disturbances. I began taking HADACOL and I have been taking it about six weeks. I am so much better and much stronger. I will continue to take HADACOL. It sure has helped me. I tell my friends about HADACOL. I can't praise HADACOL too much. I am 59 years old."

Good News

The new year of 1951 finds the Los Angeles Department of Water and Power in excellent shape to supply all the city's water and electric demands for the next several years, according to Samuel B. Morris, general manager and chief engineer. In addition, the department is busy planning for future needs—for the Los Angeles of 1961, 1971, 1981.

Last year, the Department supplied 119 billion gallons of water to over 400,000 customers; 3½ billion kilowatt hours of electricity to 670,000 homes, businesses and industries. It also was ready to supply these two vital necessities to the tho thousands of newcomers who made Los Angeles their home in 1950.

Cities May Act To Save "Rent Control" Now

WASHINGTON—A warning was issued this week to American communities by a Democratic House leader that they had better act quickly if they want rent control after March 31.

Chairman Brent Spence, D., Ky., of the House Banking committee, said Congress will not have time to pass a brand new rent control law before then.

March 31 is the date when controls automatically die except in communities that vote to keep them until June 30 under the "local option" feature of the present law.

President Truman told Congress in his economic message yesterday that he will ask for an up-to-date rent law as an anti-inflation weapon.

The largest city to vote for decontrol is Los Angeles. About 1000 cities and towns, including Chicago, have voted to continue rent controls until June 30. About 1500 cities and towns have done nothing.

Tenants Ask Moratorium On Evictions

Rent increases of from 200 to 300 per cent and more by Los Angeles landlords brought a request from the city council to the city attorney as to what power the city had in declaring and enforcing a moratorium on evictions.

The action followed a request by the Los Angeles Tenants Council that the city fathers take some action to stop wholesale evictions that will start next week when 30-day eviction notices become effective.

Councilman G. Vernon Bennett urged either a moratorium or an extension of time on the evictions so that people would have a chance to look for other quarters. Bennett made the motion to refer the matter to the city attorney.

Councilman Edward R. Roybal said he had received many complaints in his district and that tenants there had had rents raised from $32.50 a month to as much as $87 a month.

Maxwell Miller, head of the tenants' council, said that 500 eviction actions had already been started, and that more than 5,000 complaints have been received by his office.

Exec. Meeting Golden West Real Estate

The regular meeting of the Executive Board of the Golden West Real Estate Board was held at the office of the president, H. A. Howard, on South Avalon Blvd. Main item on the agenda was the annual installation Banquet which will be held at the Wilfandel on Wednesday evening, Jan. 31. Program chairman Allen C. Woodard has secured a very fine speaker for the evening along with an excellent musical program. Mr. Howard has outlined an unusual program for the Golden West Real Estate Board for the new year, which will be interesting as well as educational to all Board members.

Among the many successful activities of the Board was the participation in the successful fight to end restrictive covenants; the campaign for legislation to raise the requirements for becoming a real estate broker, thus raising the standards and the workable multiple listing system. The Board has also participated in community welfare service assisting such worthy projects as the YMCA, the Red Cross, the Outdoor Life and Health and others. Members are congratulating Lobelia Dingee and daughter, Dorothy Price of the Guaranty Realty Co. on moving into their new office on West Jefferson Blvd.

Ministers Support Plan for Low Rent Public Housing

Unqualified support of the new 10,000-unit low rent public housing program of the Housing Authority of the City of Los Angeles was expressed this week by the Interdenominational Ministerial Alliance. In letters to Mayor Fletcher Bowron, the City Council and the Housing Authority Commissioners, the ministerial group congratulated the city government for its support of the program.

"Low rent public housing is vitally necessary to the future of our city," the letter to the Mayor pointed out, "and the plight of the family of low income which cannot afford decent private housing is becoming increasingly a source of concern."

The group of prominent ministers deplored the "obvious attempt to harass the work being done," and stated that there are "many, many people in this city who are happy that you have taken a forthright stand on public housing and that you have been unmoved by the propaganda which has been loosed against this program."

The Alliance assured the City Council that "your overwhelming support of the program of the Housing Authority of our city is encouraging to everyone who believes that representatives of the people have the responsibility to 'promote the general welfare.'"

It is "almost unbelievable that there are those who argue in favor of retaining the slums and substandard homes which infest our city," the Alliance told the Council.

"As a result of your action," the letter to the City Council concluded, "Los Angeles will become a better city—more of its citizens will share in the heritage which is the right of all Americans."

The Interdenominational Ministerial Alliance is composed of 108 ministers, representing 12 different denominations with an aggregate membership of approximately 75,000. The Reverend G. W. Reed is president of the group.

Jointly Held In Slugging, Robbery

Jose Spivey of 2850 W. 30th Street, was frequently advised during childhood," to avoid bad company. His failure to do so on New Years Day, Dec. 31, landed him in jail with Pedro Diaz, Enrique Cortez and Jas. McFarland, on a charge of having beaten and robbed Jas. R. Watson,. Spivey, who was represented by Atty. Curtis C. Taylor, when he, with the other, were arraigned in Dept. 41, on Jan. 9, denies any part in the crime.

According to his story told police, Watson, a caretaker at 1818 W. Fuller street, had met the four young men at a cafe at 2nd and Main street on the night in question. They got him into their car, at 5th and Main, he declared, then beat him and robbed him of his wallet with cash and his watch. They then throw him out.

However through cross questioning Taylor drew the admission from Watson that he was very drunk, and actually did not know who struck him. The counsel also secured a statement from officer Sawyel of the Newton night patrol, that Spivey had no money on him when he searched them all, but that Cortez did have a considerable amount. Spivey explained to Taylor, that he was merely a passenger in the car, and had not touched any of Watson's possessions.

NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

The chart above shows what happens to each dime you contribute to the annual March of Dimes now under way throughout the nation. Almost eight cents of the dime is used to help pay for patient care for all those who need assistance—four out of every five stricken. A little over one cent of the dime goes for professional education and scientific research aimed at finding a cure or preventive for polio. A little less than a cent is spent on all other services. In 1950 the National Foundation for Infantile Paralysis paid an estimated $20,000,000 for patient care, with many millions still owing at year's end. Chart is based on 1949 records.

EDITORIALS AND COMMENTS

THE CALIFORNIA EAGLE

"All Out Or Get Out"

"All out and become Public Enemy No. 1."

"Get out and regain world friendship in '51."

There are a few people left in the world who are able to see straight while the vast majority depend upon others to see for them.

The people who roll around in swivel chairs, and rest their clumsy feet on plush carpets, plan and make wars but never do any of the fighting.

It's high time that the parents and relatives of the men and boys who are being butchered on the battlefields of Korea, call on the Congress of the United States, now in session, and demand an explanation as to who is running the government.

We learned early in our study of civil government that the government is the voice of the people.

We say, "Let the people speak!"

The answer to this is a multitude of protests of our present behavior in Korea, flooding our desk from Monday until Saturday.

Here are a few of them.

A letter from James F. Lincoln, president of the Lincoln Electric Co., Cleveland 1, Ohio, to the editor of **The Cleveland Press.**

And this is the letter:

"There is much question at the present time as to what should be done about the mess in Korea. Has anyone thought of approaching the matter in a perfectly honest and straightforward way?

"First, admit that we are the aggressors, and that we have no business invading Korea or any other country. Second, bring back our army to America. Third, pay for the damage we have done in Korea.

"In order to do this, the following program would be necessary:

"First, impeach Truman as a warmonger who ordered the invasion of Korea by illegal action, without reference to Congress who, under our constitution, only can declare war.

"Second, if the dangers of invasion from Communistic Russia are in any sense true, which is doubtful, build up our home defenses and don't weaken ourselves by a war on the other side of the world.

"Third, go to China and Russia, after showing our honesty by the above action, and tell them we are not war-like; that the one thing we want to do is to live at peace and in cooperation with all nations. State the fact that the invasion which took place was contrary to the desires of the majority of the American people who, under our representative form of government, should have, and will in the future have, control of our acts.

"In doing this we will not lose face, we will not kill our sons, and if we are fearless in our honesty, we will achieve a lasting peace with all the world.

"Yours very truly,

(Signed) J. F. Lincoln"

And from the Winston-Salem (N. C.) **Journal** written by a class of 17-year-old senior high school students as a result of a round-table discussion of their futures, comes this statement:

"Will We Have a Future?" they ask, and this is the answer to their own question:

"Many a youthful brow wrinkled as the lips uttered darkly 'What future?' We are being cheated of our future, our right to live, to love, to worship, laugh and die. It is not pleasant to be young today with such a future in sight. To think of graduation night with the girls going home to weep as the boys march off to kill and be killed makes our laughs hollow and die in our throats. We youth beg and plead for peace and a chance to live."

We turn to the daily press. From its columns where we could hope and even expect a plea for peace, we get instead:

"Chinese put up only a token fight in Suwon before fleeing north. Allied fleets raked them and mowed down at least 150 troops."

To the Americans, the British, the French, the Dutch, and all foreigners in Korea, we say: "Get out."

Any people other than the Koreans have no legal rights in Korea.

In our country we are questioning and even imprisoning those of our citizens who are of foreign birth, while we move into Korea and accuse the Koreans of invading their country, as we rejoice over our murderous acts. Is Christian America's conscience dead?

What is the quality of mercy? In one picture soldiers trample beneath their feet bodies of the dead parents of weeping babies. In another they put cowboy boots on a little Korean waif, and dubbed "Peter Rabbit" one of the homeless, parentless Korean orphans.

More of this and God will surely grow angry. For He has said in His written word: Vengeance is mine. I will repay.

A Little Child Shall Lead Them

Children of Czechoslovakia clearly expressed their desire for a lasting peace at a recent party held for orphans and child victims of the last war by the "Union of Fighters for Peace," a state organization uniting political prisoners from the Second World War and all fighters for freedom.

Ten-year-old Helena Leflerova from Lidice spoke on behalf of the orphans, giving her own experiences of the disasters of war:

"About five years ago, I returned from a two-year stay in a Nazi concentration camp. My native town is Lidice, which was wiped off the map in 1942 under Nazi occupation. Only 16 children out of 98 who were deported by the Nazis, returned after 1945, their health having greatly suffered. The remaining 82 children, between the ages of four and 14, were killed in Hitler's gas chambers."

The children presented a resolution in which they appealed to the people of the world to prevent a new war.

"The last war," they wrote, "deprived us of our mothers and fathers and destroyed our homes. We spent our childhood behind barbed wire or amidst bomb explosions. That is why we do not want any more wars, knowing that this is also the wish of all our little friends in Canada, the Belgian Congo, Argentine or Korea, France or Vietnam. We request you, mothers and fathers of the entire world: Work for peace, for a sane life, for a happy future for us and our children. Join the ranks of the fighters for peace."

Shall we not follow where these children are so definitely leading?

Shortage Of Manpower

Senator Hubert H. Humphrey (D., Minn.) has proposed to President Truman that he appoint a Fair Employment Practices Commission similar to that of World War II. He said it was absolutely necessary to put a halt to discrimination in defense industries.

"Many American citizens are today unable to contribute their skills and abilities to defense production solely because of their color or religion or national origin.

"Discrimination is inexcusable in a democracy because it violates the principle of human dignity and equality upon which democracy is based. It is damaging to our efforts to achieve a free world and to persuade the millions of colored peoples in the world that democracy rather than totalitarianism will meet their needs best."

Then, as a crowning argument for this FEPC promised to American Negroes for years, he offers this: **"We face a critical manpower shortage."**

And that seems to be the sum total of all arguments for justice, for the end of second-class citizenship! "We face a critical manpower shortage!"

Well, so be it. We had been hoping —vainly, we know—that at long last the 15,000,000 Negro citizens in America would some day attain real American citizenship because of the sense of justice in the American people, and in the Congress composed of the representatives of the American people.

But since that sense of justice seems to be lacking, and if those 15,000,000 Americans can attain their right to full Americanism only because there is a "shortage of manpower," and they are needed badly in the factories to help manufacture the bombs, the rifles, the shot and shell necessary to kill their brothers of almost the same color, although of another race, in foreign fields, then let every man and woman of Negro birth in America insist that that right be given them before they lift one finger to produce anything in the United States.

There is a manpower shortage! Let that shortage continue until men are recognized as men in America!

Are You a Real American?

You are not, and cannot be a real American citizen unless you exercise your right to vote—your right to elect those who are supposed to represent you and to carry out your wishes.

And you cannot vote in the Los Angeles April 3rd elections unless you are a registered voter.

Deadline for registration is Feb. 8—and that's not far away.

There are six classes of persons who must register before Feb. 8 if they want to vote on April 3.

They are:

1. Those who have moved since last registration.
2. Those who have changed their names.
3. Those who want to change political affiliations.
4. Those who did not vote in the 1950 primary or general elections.
5. Those who have never registered before.
6. New residents who have completed one year of residence in the state and 90 days in the county.

Where? Or How?

Someone has asked where the enemy would drop atom bombs in the Los Angeles area if full global war starts.

This question is food for thought.

Our answer is that they would be dropped in the industrial areas—where the poor people are forced to live.

Instead of asking where the A-bomb might be dropped, however—we would rather ask:

"How can the people of the world keep the peace?"

TIME FOR COURAGE

This is indeed a time to try the souls of men and women—and it is understandable that some of us are having a very difficult time deciding what our responsibilities are.

Faced with what they consider the evidence of the overwhelming strength of American fascism, some of our neighbors are saying: "What's the use? Reaction's in the saddle. What can you do but go along, try to ride it out?" Such a view indicates a serious misunderstanding of the situation.

The misunderstanding, an over-estimation of the power of American fascism, is based on a false premise: that the rulers of this land are as strong as they appear to be on the surface. They are not.

Let us examine several of their operations and see for ourselves if they are as strong—and if their strength is an invincible —as their posturing and propaganda have painted them.

1) It is clear to every thinking person today that in resorting to war preparations and actual warfare, the administration and the corporations for whom it speaks are not acting to improve the welfare of the common people (thus insuring the nation's security), but are doing these things only to save and increase their own profits and power. Even Wall Street spokesmen admit repeatedly that our economy is very shaky and that war orders are essential to stave off a major depression.

When we relate the weakness of United States economy to the even more rotten economic structures of the other nations in the "Western world" we get a fire-class picture of vast weakness, not strength. It is a truism that without real and broad economic strength you cannot have real—certainly not permanent—political power. Therefore, where America's rulers should be the strongest they are the weakest.

2) The efforts of Truman's administration since its inception to force thought control on Americans, to suppress all distant—plus the official terror directed against labor leaders, minority leaders, and other responsible citizens—certainly are no proof of its confident strength. Quite the contrary. A government which was in the right would be confident of and would be supported by the devotion of its citizens—and would not need to regiment their lives and thoughts. Thought control and official terror are proof positive of the administration's weakness. It fears the people.

3) Will anyone in his right mind assert today that American imperialism's aggression in the Far East, and elsewhere, proves its overwhelming strength? (Not even Taft and Hoover.) Can any government be considered strong, the bankruptcy of whose foreign policies has been so exposed as Truman's in Korea? Whose military forces and leadership has suffered such setbacks? Whose actions have lost it the support even of most of the anti-democratic "allies" it has over the globe? The questions answer themselves.

People Want Peace

Perhaps the most striking revelation of the weakness of the nation's rulers—of their unfitness for leadership and of their complete moral bankruptcy—is offered in the report they wrote for Truman on the state of the nation.

They know the American people want peace, that we don't want our sons slaughtered on foreign fields to insure greater profits for the Morgans and MacArthurs—and they offer us only the prospects of more slaughter in other foreign lands.

Truman and his associates know the people want peace, the chance to raise their families in security, to give them healthy minds and bodies, to build homes and schools and hospitals—and he says we must prepare for war.

According to the nation's quislings, the America of Jefferson and Lincoln, of Roosevelt and Robeson, is to find its "true destiny" in becoming a police and making war endlessly. Wasn't it Mussolini (remeber him?) who said that war was the highest form of civilization? And wasn't it Hitler who proclaimed that his nation would find peace through tanks and planes and bombs? How invincible did these two misleaders prove to be?

Those Americans among us who are confused and frightened must see that fascism can never mean everlasting power. By its very nature it is its own sure grave digger. It cannot last long. (This is not to say that it isn't dangerous and powerful while it lasts or that the price of defeating it will be cheap.)

We must understand that those of us who give up the fight for democracy too easily are helping the fascists, are casting our lot with the fascists—and will inevitably go down with them. While those Americans who hold out, who fight back, will inevitably win —and attain the real power in this nation.

STATE BAR

SACRAMENTO — Members of the State Bar of California now have an opportunity to enter the field of public personnel administration. The State Personnel Board is seeking qualified candidates to fill a vacancy in the position of Associate Legal Personnel Examiner in Sacramento.

The functions of this Examiner are to compile civil service examinations, and evaluate qualifications of applicants in the legal and related fields.

PRIVATE AGENCIES SELL JOBS

Private employment agencies in the United Stotes are sabotaeuring our National Defense, by selling jobs in war industries at high excessive fee's, the private employment agencies are returning to "The Slavery Auctioneering" of jobs one must buy in order to become part of the National Defense emergency working force, no true American should have to buy his right and honor, in order to work, all employment agencies that charge fee's for defense jobs, should be closed up for the duration of this National Emergency.

McGEE CLEARED

Patrick D. McGee (R.) is in the clear so far as his election to represent the 64th Assembly District in Sacramento is concerned. His election was contested by Eldon Markwort on the ground that McGee had not lived in the District long enough to be a candidate. The court ruled that his expressed **desire** to live there, although he was forced to go to Harvard, Mass., to attend a law school due to overcrowding in UCLA, was sufficient to establish his residence.

WORTON TO GET JOB

City Council members are appeased in the Bowron-Worton little matter of a job for Worton.

Mayor Bowron wants Dr. Worton to head the top civil defense job. Seems that Councilman Ed J. Davenport objected, and the usual battle was on the City Council.

But now, so they say, the fire has died down. Only the members are smoldering, and Mr. Worton will get the job.

Low-interest State financing of farms and homes for veterans rose more than 50 percent during 1950 over the volume of purcahses for 1949, Director of Veterans Affairs D. J. Callaghan, Jr., reported this week.

As of the end of 1950, a total of 46,004 veterans of both World Wars have been assisted by the "Cal-Vet" purchase plan to acquire their own farms and homes. An additional 175,000 California veterans have established eligibility, but have deferred actual purchases.

REPORT ON WHITE HOUSE CONFERENCE

Charlotte Neely gave a first-hand report on the Mid-century White House conference on Children and Youth at the January meeting of the Women's Division of the Democratic Party held in the Hayward Hotel last Tuesday afternoon. The means of preventing juvenile delinquency was stressed.

Miss Ethel Bryant has been appointed Assistant Field represetative in the 14th Congressional District by Congressman Samuel W. Yorty. The 62nd Assembly District of the Democratic County Central Committee adopted a resolution commending Mr. Yorty for this appointment, and the full Committee meeting last week, concurred.

LETTERS TO THE EDITOR

On that first Christmas in Hawaii back in 1948, there were only two Davises. Now it looks as if this little island is spilling Davises into the Pacific. . . . First there was Bonnie, a blue Persian cat who got into the family in March, 1949, at the age of six weeks and who therefore has certain seniority rights. . . . Then on Aug. 15, 1949 ,along came Lynn Makaleka who surveys the planet with the wisdom attained in nearly 17 months of worldly experience. . . . Any outstanding production virtually demands a sequel. In order not to disappoint the eager public, all necessary work was completed leading to the unveiling on Nov. 9, 1950, of Mark Kaleokualoha. With some seven weeks behind him on Christmas Day, he is taking this world of mountain and ocean, palm tree and sandy shore in stride. . . . And so there are now five Davises to back up a wish for a really Merry Christmas and a most successful 1951.

From Mark Kaleokualoha, Lynn Makaleka, Bonnie, Helen C. and Frank Marshall Davis.

As soon as they get old enough they'll read the EAGLE and learn about a real fighter!

TO WHOM IT MAY CONCERN:

I am writing, not as a member of some group, but as a common American voter. There was a time when common voters looked upon themselves as the Sovereign Power in America. I wonder what they think NOW!! As for me, I am chagrined and disappointed by the foreign policy, and the acts of this government. I am ashamed and heart-broken to think thatI, an American voter, am being held responsible by the decent people all over the world, for the pious hypocrisy of Truman, the subversive crimes of Dulles and the arrogant butcheries of McArthur.

The people of this country would not tolerate for one hour the present disgraceful state of affairs if they had any way of knowing the truth about what has happened. Most people want to be loyal in their government, and to elected officials, but when vicious criminals and gangsters are pushed into official power by fraudulent campaigns of lying publicity, financed by the stolen money of anti-American, anti-social, un-Christian racketeers, then loyalty ceases to be a virtue and becomes a world disaster.

Who are these Moguls who control newspapers, radio, television, and all public information? Why allow them to mold the thinking of honest, loyal people? Where are their credentials? Who administered a loyalty oath to them? Who guarantees their fitness to teach? Why should WE who have the power to stop it allow ourselves to be smothered in a "smog" of lies?

We are bewildered by this deluge of distorted, twisted, misleading verbiage, and too many of us accept it as the reporting of news. Innuendoes, suggestions, dramatizations, and tricky associations of a hideous reality with what we accept as something fine are poured on us every hour. Why to we allow the most courageous and best qualified leaders of thoughtto be jailed, while imposters, and liars, and paid trouble makers run loose? Why do we allow criminals who ought to be in jail pose as judges and get the respect of those who know nothing of their background? Is this the "DEMOCRACY" we are supposed to be loyal to? Is this the "American Way" that a suffering world is told about? Hundreds of honest young people who study English in other countries write honest, wholesome letters about this. How can they be answered. How can WE, the voting, SOVEREIGN CITIZENS, justify ourselves?

This thing has polluted our schools, our churches, our public institutions of all kinds, and our local governing bodies until we live in a MAD HOUSE! We send pamphlets to each other. We cry on the shoulders of each other, but we seem to be completely ineffective when it comes to organizing for action.

Well, I, for one, can send out this letter to see if anybody agrees with me. If there is encouraging response, we can go farther. We can start a roll-call or register and find out who is disgusted enough to ACT in some small way. We can take inventory of skills and abilities and qualifications. We can find what equipment may be available for TRUTH TELLING, such as printing equipment, sound recording mechanism, public address apparatus, motion picture projectors, cameras, sound trucks, ets., etc.

Here is a man who has access to a lot of trustworthy information, but he is not a native-born citizen. He is, however, a citizen of the world, and that is of greater importance. Here is another who is qualified to render a lot of service, but his face happens to be black. So what! He must be accepted for his ability to

LABOR ON THE MARCH

By PENN

Sober thought and a little research covering the last year and a half, during which the CIO "pudged" the leftist unions brings the conclusion that the crime of the leftist unions was not adherence to any "Moscow line," but that they insisted on following the line of interracial leberalism which the CIO followed before it got fat and greedy.

The once-great CIO, now down to about two-thirds of its former strength, was built on two main principles.

One, that of industrial unionism—the theory that all workers in an industry should be organized in one union instead of being broken up along craft lines, the traditional structure of the AFL.

Two, that workers of all colors, creeds and religious beliefs should be organized into the union, without divisions based on color and without any second-class union citizenship of any kind.

The first principle is being followed to some extent, although much time and money are being spent by Pres. Phil Murray and his buddies of the Association of Catholic Trade Unionists to raid already organized workers instead of concentrating on new organization which would strengthen the CIO and the entire labor movement.

It is the second principle, that of non-discrimination, that has been abandoned—except for occasional lip-service—by the CIO top brass, who rule the affiliated unions with an iron hand.

Only the unions which have been "purged," the leftist unions, have all maintained the original interracial composition, and that from the top down.

Not only on local levels but on international levels, Negroes are found in high offices and in positions of trust and responsibility in the leftist unions.

With so few exceptions that a three-toed sloth could count them on his fingers, there are no Negroes in top spots in the CIO. Only Negro holding an important position in national CIO that comes to mind immediately is George Weaver, assistant to Secretary-Treasurer James Carey in Washington.

Locally, the one example of a high office held by a Negro is that of Arthur Morrison, who is the regional director for the United Packinghouse Workers.

Unions that were purged from the CIO, without exception, were those which refused to fall in line with the CIO policy that developed under Murray, Reuther, Carey and Haywood, and which opposed the Marshall Plan, fought for peace, and opposed the building of a labor front in the United States.

Once the purge was complete, CIO twisted to conform with America's traditional policy of segregation and jimcrow.

And there are plenty of documented facts to prove that CIO has become a jimcrow, white-supremist, dictatorship ruled by a handful of top brass.

Despite the fact that more than a third of Phil Murray's own Steelworkers are colored, there is no Negro on the union's 41-man executive board.

Walter Reuther, auto workers czar, has a lily-white executive board of 22 members.

Present policy of national CIO is to organize jimcrow unions in the south.

Politicians who publicly state as their platforms that they will see, if elected, that "your mother and sister will never have to work alongside a colored person," have been supported by CIO-PAC in the south.

A police commissioner who advocated setting up ghettos for Negroes in Birmingham was supported by a CIO organizer there.

Negro delegates to the Maryland convention, and others in the south, were required to make jimcrow reservations.

CIO union halls in South Carolina hav jimcrow toilet facilities, and in some southern towns, heads of Operation Dixie, the alleged organizing drive, refuse to allow colored workers to meet in the same halls where white workers meet.

The National Maritime Union, headed by president-for-life Joe Curran, has jimcrow hiring halls in Houston, Texas.

Locals of the United Auto Workers in the south are riddled with Ku Kluxers. In some cases the bed-sheet boys have gained such control that they can refuse to vote assistance to other CIO strike funds when the locals involved have a majority of Negro members.

Here in Los Angeles, we find auto manufacturers who have no Negro working in the plants; and no effort being made by regional office crass to enforce a beautifully written "no discrimination" pledge by national UAW.

What unions in Los Angeles take up the fight when Negroes are intimidated, beaten, framed and killed by trigger-happy police?

Stop and think a minute.

That's right, the only unions that ifght for equal rights and human dignity for colored people are those that have been purged by the CIO—because they fought for the things for which CIO once stood.

We draw no conclusion here. We have presented the facts, and let Murray and his stooges try to deny them.

CHRISTMAS PARTY

NEW ORLEANS — There were no Santa Claus, reindeer or Jingle Bells' at what was called an interracial, "thoroughly Catholic" Christmas party for 60 youngsters by members of the New Orleans Commission on Human Rights, a branch of the Catholic Committee of the South.

The party was held in the gymnasium of Xavier University. A small Christmas tree was decorated with Catholic-type Christmas cards, but the center of interest was the Christmas Crib set up in a corner of the gym.

NEGRO FARMERS SHOW PROGRESS

WASHINGTON, D. C. — Negro farmers are showing definite progress in land ownership and crop diversification, said Field Agent T. M. Campbell in a talk last week before the quarterly staff conference of Extension Service, U. S. Department of Agriculture.

The agents throughout the South have succeded in helping colored farmers acquire nearly 7,000 acres in family-sized farms ranging from 40 to 80 acres," Campbell said.

CHILDREN OF MIGRANT WORKERS

One step toward improving the opportunities of the children of Negro migrant farm workers has been taken in New York State, says the December issue of Extension Service Review, a U. S. Department of Agriculture publication.

With the aid of Prof. H. E. Thomas, rural sociologist of Corell University, a 4-H club was established last summer for the migrant children who came to the King Ferry, N. Y., camp, largest migratory shelter center in New York State. The 80 youngsters who enrolled in the club took part in four types of projects. The boys learned to grow gardens and raise swine, while the girls carried out projects in cooking and sewing.

NEGRO BUSINESS CONFERENCE

WASHINGTON, D. C.—The U.S. Department of Commerce will sponsor the sixth conference on the Negro in Business in the main auditorium, March 29-30-31. Plans for the conference have already been formulated.

Persons attending will include professors of business administration from Negro colleges and universities, students of departments of business administration, prominent businessmen, market specialists, and Government specialists. It is expected that delegates from The Virgin Islands and the Republic of Haiti will attend and participate in the conference discussions.

ENVOYS TO POLAND RESIGN OVER ISRAELI GOVT.S PRO-WAR POLICY

WARSAW — Israel's envoy in Poland, Barzilaj, has asked for release from his post in protest against the pro-imperialistic and war-mongering policy of his government and its support of United States aggression in Korea.

Nearly all the diplomatic officials of the Israeli legation in Warsaw, among them the Counselor of the Legation, Ukhmani, Secretary Dagan and Attache Kopyt have also tendered their resignations for the same reason.

HOUSING CRISIS IN ITALY

ROME — The Italian people start the new years with rent increases that went into effect on January 1. House rents are up 80 percent while rents for shops and offices went up 100 percent.

Family budgets are also threatened with new price rises in food and rates for postage, telephones, electricity and gas.

The housing situation is further aggravated by the complete freedom given the landlords to evict tenants. In Rome alone it is estimated that over 2,000 families face eviction from their homes this winter. Some of these homes are tumble-down shacks like the ones in which two infants froze to death on Christmas eve.

Despite all propaganda statistics of the Italian government regarding new housing—including the so-called Marshall Plan "aid"—this sector represents the major failure of Italy's government. From the national requirement of 22 million new roms, only 139,000 have been constructed of which only 77,000 are suitable for living quarters, most of them being luxury apartments.

The rearmament program will provide further pretexts for the do-nothing policy about housing. Among the government's first steps in carrying out United States rearming directives will be the freezing of all loans and credits for housing. Italy could construct 6,000 rooms thus giving homes to tens of thousands of people for the cost of building a single plane.

SAVE MARTINSVILLE 7

MARTINSVILLE, Va. — Branding the refusal of the United States Supreme Court to review the case of the Martinsville Seven as another example of the official governmental policy of maintaining the Jim-Crow oppression of the Negro people, the Committee to Save the Martinsville Seven called upon all freedom loving people to organize mass pressure upon Gov. Battle to reverse the verdict by granting freedom to the Martisville Seven.

The Committee pointed out that this decision "in effect not only upholds the death sentence for the Martinsville Seven, but also upholds the discriminatory use of the death penalty against Negroes in "rape' 'and other cases.

The Committee further stated that "this action by the Court once again proves that the people cannot put any faith in the courts of Virginia and the nation. These courts perpetuate and refuse to challenge the Jim-Crow system that keeps the majority of Negro people in 40c wages, slums ,segregation and oppressed conditions."

The statement ends with the "urging of a steady stream of petitions to the Governor's office to let him know that the American people want freedom for the Seven Martinsville Men."

DIFFICULTIES MOUNT FOR EMPIRE CONFERENCE OVER WAR PACT

LONDON — The conference of the British Commonwealth Prime Ministers, meeting in London, will have one major item to discuss — the Americans' demand, backed by Britain, for the creation of a military alliance in East and Southeast Asia, directed against the Soviet Union, New China and all liberation movements in that vast area.

However, even before the conference starts it is meeting with very considerable difficulties. One of those invited, Pakistan's Premiere Liaquat Ali Khan, made it known that he is not attending the conference, the reason being that Attlee has refused to include the dispute between Pakistan and India over Kashmir on the conference agenda.

On the other hand all reports both from Delhi and London agree that Nehru at least for the present is not willing to enter into any military agreement which give the impression that India had openly aided with the Anglo-Americans against the Soviet Union and New China. In particular he would not allow Indian ports and airfields to be used as Anglo-American military bases, as has been asked by the United States.

Prime Minister Louis St. Laurent of Canada, who is aware of the Canadian people's desire to keep their country away from any major military entanglements in the Far East, comes to the conference with his hands more or less tied because, as the Manchester Guardian puts it, "Canada is today so much at the mercy of the United States economically that its government, while it wants to avoid the charge that it is subservient to Washington, cannot afford to oppose outright the policies favored by the Truman administration."

RAILROAD MESSAGE OF DEMOCRACY

NEW YORK—By displaying an interracial car card, eight transportation systems operating from New York have undertaken a human relations program under auspices of the Roman Catholic Interracial Council, the Metropolitan Council of B'nai B'rith and the Protestant Council of the City of New York.

Copies of the card were supplied by the Institute for American Democracy, Inc., a nonprofit, non-sectarian corporation which conducts human relations programs in 150 cities. The card used here reads:

"True Americans accept people on their individual worth . . . regardless of their name, religion, color or occupation. Do you?"

Railroads displaying the card are the New York Central, New Haven, Jersey Central, Staten Island, Erie, West Shore, Lackawanna and Long Island.

MEXICAN GOVERNMENT PASSES POLICE STATE CODE

MEXICO CITY—The Mexican congress has just concluded its sessions with the passing of amendments to the penal code seriously restricting democratic liberties.

The amendments were presented to the Senate by President Miguel Aleman and passed the following day with the single dissenting vote of Senator Juan Manuel Elizondo, the Miners' Union leader and vice-president of the Popular Party.

One amended penal code article provides two to 12 years in prison and 1,000 to 10,000 pesos fine for a Mexican national or a foreigner "who in spoken or written form or by any other means conducts political propaganda among foreigners or Mexican nationals disseminating ideas, programs or patterns of action of any foreign government which disturb the public order or affect the sovereignty of state."

Needless to say this article is unlikely to be applied against those disseminating such propaganda on behalf of the United States government. However, it could be used against the peace movement, trade unions, and any democratic groups criticizing government policies.

This article also provides the same penalties for anyone inciting "acts of sabotage or those which tend to break down the general economy, to paralyze illegally public services or basic industries or to subvert the institutional life of the country.

Several labor leaders pointed out that this can be used to outlaw strikes. The only political party that publicly opposed these amendments was the Communist Party. Dionisio Encina, the Communist Party general secretary, branded these amendments "frank and total assaults on the guarantees and rights which the constitution grants to the Mexican people."

Senator Juan Manuel Elizondo of the Popular Party based his criticisms of the amendments on purely legalistic grounds, stating that the amendments constitute emergency measures and since no state of emergency has been declared 'they are unconstitutional.

THAILAND GOVERNMENT CONNIVES WITH KMT REMNANTS IN ESPIONAGE

PEKING—The reactionary regime of Thailand is conniving with the routed troops of Chiang Kai-shek in the vicinity of the Burmere frontier, to carry out espionage work in Thailand against the New China, according to news from Bangkok.

The news states that Chiang Kai-shek's remnant troops in Mongsit on Burma's border sent a representative to a place in Chien Rai province on Thailand's border asking the Thailand government for permission to set up a radio station in the country in order to make contact with Taiwan. This was permitted by the government at the end of Novemmer. Afterwards, Chiang Kai-shek's agents in Bangkok also asked for permission to set up an "office" so as to collect intelligence about New China. This was also approved by the same government.

ANTI-SOVIET BLOC

ALEXANDRIA—The arrival in Rome on Monday from a visit to Washington of Abdel Rahman Azzam Pasha, general secretary of the Arab League, is connected heer with current moves to establish a reactionary anti-Soviet war bloc in the Middle East and East Mediterranean.

Following his discussions in Washington with top officials of the State Department, whefe he is believed to have been told of the need to end the state of war with Israel as a prerequisite for the formation of the bloc, Azzam Pasha will discuss other aspects of this question with the Italian government.

The Israel government is said to believe that Turkey can play an important part in bringing about peace with the Arab countries in order to solidify the reactionary alliance in the Middle East.

Other recent moves towards the formation of a Middle East bloc included the recent visit to Egypt of the Greek monarcho-fascist Premier Venizelos, who had talks with Egyptian Premier Nahas Pasha and acting Foreign Minister Ibrahim Pasha.

He declared in an interview with the French language paper, La Bourse, Egyptienne, that he wished to see the conclusion of the Mediterranean Pact linked with the Atlantic Pact which would include Greece, Turkey, Italy, Yugoslavia and the countries of the Middle East.

Besides the political, military and strategic preparations for the Mediterranean bloc, attempts are being made to reconcile the varying ideologies of the reactionary forces in this area.

HELSINKI—From the beginning of the year drastic price increases went into effect in Finland. Rents are up 20 percent, textiles of Finnish make 28 percent, gas and electricity 10 percent, petrol 18 percent, alcoholic liquors 37 percent, cotton and cotton products by 25 to 30 percent and newspaper subscriptions 12 percent. In spite of the price increases nothing has been said about increases in wages.

TB IN PUERTO RICO

SAN JUAN — Shocking revelations concerning tens of thousands of victims of tuberculosis were made by the newspaper **Pueblo.** These patients do not receive medical treatment. There are 40,000 tubercular persons on the island, while the government cares for only 824.

"The colonial government does not hesitate to dedicate huge sums of money to build luxurious tourist hotels which cost more than $8,000,000," comments the newspaper, "although it does nothing for the TB patients."

GROWTH OF AGRICULTURAL COOPERATIVES IN CZECHOSLOVAKIA

PRAGUE — Writing in Lidove Noviny, People's News, here this week, Czechoslovakia vice-minister of agriculture, Jiri Kotatko, states that Czechoslovakia may view with satisfaction the past year's development and growth of its unified agricultural cooperatives—a growth which guarantees a promising future.

This was made possible because the agricultural workers took to heart President Klement Gottwald's statement of 1949 that Czechoslovak agriculture was far behind its industry and distribution, which was taking great strides toward socialist forms of production and work. Therefore it was particularly necessary for unified agricultural cooperatives to speed up and improve their work. By the end of 1950, Czechoslovakia had almost 7,000 unified agricultural cooperatives. In other words, every second village has its agricultural cooperative. About 50 percent of these cooperatives have organized themselves into a higher type of cooperative, introducing joint cultivation of land and plowing up boundary strips, which formerly separated the innumerable small individual holdings. Over 200,000 farm-holders participated in this program, which now includes one-quarter of all arable land.

SHANGHAI BUSINESS CIRCLES SUPPORT CONTROL OF AMERICAN ASSETS

PEKING (NCNA) — Shanghai business circles have issued numerous statements supporting the Government's order controlling and freezing American assets in China. Shanghai General Trade Union Council also states that the workers of the city unanimously support the measure.

The statement of the Shanghai Industrial and Commercial Association says: "We firmly support this step and, with the close cooperation of our scientists and technicians, we will devise methods of manufacturing appliances and raw materials which formerly were imported from America."

The International Trade Merchants Association states: "In supporting the measure adopted by the Central People's Government, we call on our colleagues who are working in American enterprises to fulfil the Government's instructions and protect these assets from disruption."

The Shanghai Bankers Association "enthusiastically upholds the measure." The bankers say: "We will help the Government in the specific work of controlling U.S. assets and freezing U.S. funds in China."

115 AMERICAN-OWNED COMPANIES IN SHANGHAI PLACED UNDER MILITARY CONTROL

SHANGHAI — In addition to taking over control of American-owned Shanghai Power and Telephone Companies as reported by Telepress yesterday, 113 more American-owned companies here have been placed under the Shanghai Control Committee since December 30, New China News Agency reports.

The workers of these companies have given their full support and assistance in carrying out the transfer.

Among these companies are the Underwriters Savings Bank for the Far East; the Texas Company; Standard-Vacuum Oil Company; Henningsen Product Company; Elbrook Incorporated; Anderson, Meyer and Company; China General Edison Company; Kofa Pharmacy; the Far East Alcohol Distilling Company; Hankeson Motors Bakerite Company and X-ray and Surgical Instrument Company.

On the morning of December 30 the workers of the Shanghai Power Company put up posters and set off firecrackers to welcome the setting up of the provisional control committee. Cheng Wan-Li, commissioner of military control, called on the workers to develop the spirit of patriotism and further speed up production. Yang Yu-ken, representative of the trade union of the company, expressed, on behalf of all the workers, firm support for the Government measure and a cordial welcome to the control personnel. A similar ceremony took place in the Shanghai Telephone Company.

On the same day, the authorities of the trade department of the East China Military and Administrative Committee called together the representatives of more than 80 American import and export firms in Shanghai, warning them not to destroy or transfer properties within three days.

INFANTICIDE CARELESS—That is the scientific name generally tagged on to a child death when it is killed in a home accident, according to the local child safety committee. Non-traffic accidents are the leading cause of child deaths today. Photos illustrate some of the most common causes of accidents (left) letting a child near worn light cords (center) permitting a child to get near lawn mowers, home appliances and other machinery with exposed moving parts (right) leaving a youngster unattended in a bath even for only a moment. A campaign to promote child safety is being sponsored during January by the Childrens Hospital, Los Angeles Chapter of the National Safety Council and Prudential Insurance Company.

Here is an old gentleman with a marvelous background, technical training, the wisdom of years, and a printing plant but he does not see too good. Here is a man who sends a hard-hitting bit of vedse which begins: "Over the land of Morning Peace (Korea) our civilizing bombers fly"—

Here is a woman whose parlor has been the meeting place for dozens of small groups of "choice souls" for many years. Here is a man who printed and distributed hundreds of copies of THE PARABLE OF THE WATER TANK, by Edward Bellamy. It is a lesson in economics which should be taught in every school in every land. Why do we not see that it is done? Here is an army man of high rank, but retired, who is willing to make a very valuable contribution. Here is a man who goes out and shovels mud in order to get dollars to pay printers so he can distribute booklets that direct us to important events and utterances of our own American history, that are now almost unknown. Here is another man who gets out pamphlets on American history, but is subjected to insults and jailing for so doing. This last can go on and on.

QUIT doing the bidding of the WAR MAKERS. Quit repeating, parrot-like, their false propaganda and their lies, thus indorsing them with your own good names. Let's get together and start OPERATION HOUSE CLEANING! You can manage to eat like you do on wash day. Let's get those printing presses, sound trucks, tape recorders, cameras, projectors, and short wave radio sets manned and into action on this OPERATION HOUSE-CLEANING! Dear Friends:

As we enter a new year, may I on behalf of the entire NAACP express our gratitude to you as fellow soldiers in the fight for freedom. The victories of 1950 could not have been won without your help.

The NAACP will continue to grow in strength and effectiveness as the chief protector of the rights of Negroes, other minorities and freedom for everybody in proportion to our ability to work and fight together against the common enemy.

We wish for you continued and increased power and prosperity in the year ahead.

Ever sincerely,
Walter White,
Executive Secretary

Dr. Johnson is the past National President of the Sigmas and whenever in the city makes it a "must" to visit with friends who stop at Theresa. Greeks Celebrate Pan Hel's 10th Anniversary

It was a festive occasion, and a serious one as well, when the "Greeks" of Los Angeles Pan Hellenic Council celebrated Pan Hel's 10th birthday last week.

The Council now embodies a membership of almost 200, representing the eight Greek letter organizations. The Council is urging a more active participation in answering the needs of the community.

L. A. Greeks are at present asked to lend their full support to the March of Dimes campaign. Suggestions were made for monthly forums to discuss health, housing, education, and other needs of the community. Each Greek should register for at least one day's volunteer service, it was decided.

The excellent panel speakers were moderated by Kappa Tom Bradley, and are as follows: Alpha, Robert House; AKA, Audry Jones; Delta, Emily Woods, Sigma Gamma Rho, Delphine Severins; and Omega, Allen C. Woodard III, Zeta and Phi Delta Sigma were unable to attend.

Gaynell Miles was chairman for the occasion. AKA Ruby Jackson was chairman for the anniversary event; master of ceremonies, Clayton Moore; Alpha and master of music, Jester Hairston; and Mrs. Eddie Mae Armstrong, publicity chairman.

Emergency Soup

By BETTY BARCLAY

A phone call warns you of unexpected company for dinner. The day turns cool and something hot is needed for the children's lunch. No matter what the emergency, here is a recipe for a soup that will solve your problem. The addition of the Lea & Perrins Sauce gives a surprising extra flavor to the emergency dish. By the way, keep this sauce on hand for fish, meat and vegetable dishes—as well as soups.

Emergency Soup

2 potatoes
2 onions
Milk
2 tablespoons butter
1 tablespoon flour
1 teaspoon salt
2 teaspoons Worcestershire Sauce
Chopped parsley

Peel the potatoes and onions and cut into small pieces. Put into a saucepan, cover with water and simmer until they are soft enough to be mashed with a spoon. Rub through a coarse strainer and mix with the water in which they were boiled. Add enough milk to make three cups and bring to a boil. Stir in gradually the butter rubbed with the flour and salt, and continue to stir until the soup thickens slightly. Cook over boiling water until time to serve. Add the Worcestershire Sauce just before serving. Strain, if necessary, and garnish with chopped parsley. Left-over vegetables may be cooked with the potatoes and onions, or peas or string beans may be used as a garnish.

The March of Dimes annual campaign to raise funds is off. For the first time in the history of the drive we here in the Central District have been called upon to do our share. We manage to raise money for any of our pet projects and this certainly is one of the most deserving to come along.

In our district we have Mr. Lorenzo Bowdoin of the Angelus Funeral Home as general chairman; Mrs. Gaynelle Miles heads the Women's Division; John W. Brewer is promotions head; Paul R. Williams, our noted architect, treasurer; Marjorie Green, secretary; Gilbert W. Lindsay, co-chairman with Mr. Bowdoin.

The postal zones covered are 11, 18, and 7. So far some thirty-two thousand letters have been sent out to individuals by this committee, and we understand Ann O'Ferrel had a big hand in getting this accomplished. Her organization, the National Council of Negro Women, is sponsoring a dance on the twenty-ninth o fthis month at El Sombrero (and the management has graciously donated the ballroom for the affair). Don't forget it.

While the Drive lasts we will be reminding our readers constantly of the necessity of doing all we can to contribute to this annual drive.

Some kind of a bug or something has had hold of us these past few days and we really have had to stay close to the house and our bed, but with "dead line" staring us in the face an effort at recovery had to be made.

Right in the middle of our little session Dolphin of Hollywood held open house for the press and we had to hear about it from our pal, Gertrude Gipson, so we can only refer you to her column.

Noel Scott and Jay Loft-Lynn were First Nighters at the opening of the Broadway hit "Kiss Me Kate" which opened at our own Biltmore Theatre. Among the sepia artists who are with the show are Bertha Powell, Bobby Johnson, Ernest Brown and Chas. Cook. We always take Jay's word for gospel about these things and he says this is really a good one. We intend to see it as soon as we can.

Gee, nice note in the morning's mail from our good friend Anita Shumate. She is Mrs. Lincoln Shumate, and it comes to us that we heard 'Nita had read some of her original little poems at one of the recent Women's Medical Guild meetings. She has a fine talent and we hope some day to see some of her little poems in print. Pretty girl, too.

Mr. and Mrs. J. C. Thornton, of East Forty-third Street had as their house guests over the entire holiday period, Mr Thornton's sister, Bernice Elliot and her little grand niece from Bonham, Texas. The Thorntons went all out to make this first visit to California a memorable one. Little Janet will remember the Rose Parade on television a long, long time.

Libby Clark installed the members of Les Petite Femmes in their new offices this past Sunday, with dinner following at Bit O' Sweden, on the Sunset Strip.

We wanted so badly to attend the reception honoring the Board of Directors, Advisory Board and Mrs. Erla Carter of Morristown, N. J., given by the incoming president of the Eastside Settlement House, but whatever it was that has had us feeling so awful had us then. Nevertheless our congratulations to Mrs. Betty Johnson, the new president.

We might just as well mention now how honored we feel at having been elected to serve on the board of the Eastside Settlement House during the coming year.

Talked with Mary Johnson, one of the Ten Women and it is her Alfred that is a partner with Emory Pradia at the Clover Club with the food concession. Seems they are about to put on a series of events to acquaint the public with this new spot, but don't want to get too far out until the police start to act a little differently. We all know how they watch and ambarrass people who attempt to practice a little democracy, particularly where mixed groups gather. Well in this instance it is no different, what with the plain clothesmen shaking down guests and asking questions. We saw one big uniformed cop walk into one of our other spots the other evening and just stood, first inside one door and then the other. He should have felt much out of place as the people were well behaved and tending strictly to their own business.

The Royal Syndicators had an all out affair at the Elks Ballroom at their annual semi-formal dance. Talk about a potpourri of society, to name a very few we had a chance to say "hello" to: Hazel and Herbert Simpson (she looked like something out of a fashion mag in black velvet and a full length honey blond Mink coat); Captain and Mrs. Jimmy Akes, Allen and Marion Robinson (he declares that his fourteen month old son has just been accepted in the S.C. Law School); the Charles Andersons; Mary Ellington Cole; Millie (Show Boat, T.V.) Bruce; Lillian Lomax; Mabel and Artie Stokes;

Immediately after the receipt of the news confirming NAACP Special Counsel Thurgood Marshall's trip to the Korean war front, the Los Angeles branch, Dr. E. I. Robinson, chairman, contacted Walter White requesting that Marshall report to the citizens of Los Angeles on his investigations of the mass court martials of 24th Infantrymen in Korea upon his return in February.

The Los Angeles branch NAACP is pleased to announce that Marshall will report on his investigations at a mass meeting on February 16, 8 p.m. at the Second Baptist Church, 24th St. and Griffith Ave.

All citizens of Los Angeles are urged to reserve this date.

Preparing Flavorful Meals

By BETTY BARCLAY

Have you ever wondered while dining at a favorite restaurant or hotel, what magic the chef possessed? Dishes you had eaten in scores of places, had an added "something" in this particular "spot." Clearly, the chef was a wizard.

Really, he is merely a man who understands the secret of seasoning or the importance of flavor. Ask him to reveal his magic art and he'll pobably wink mysteriously.

But the art of seasoning is no mystery. It merely consists in using the correct mixture of spices to bring out the natural tang of your food. For years Lea & Perrins Sauce has been used in the finest hotels and restaurants. Probably your favorite chef uses it regularly for meat, fish, soup and vegetable dishes—and there is your "secret." Keep a bottle of this Sauce in your kitchen as well as on your table. You'll find that it is a great enhancer of flavor.

Here are two simple recipes calling for this magic flavoring agent. Try them—SOON:

One-Dish Pork Chop Meal

6 pork chops
1 tablespoon shortening
2 teaspoons salt
2 tablespoons grated onion
1 tablespoon Worcestershire Sauce
1 can tomato soup (condensed)

Brown chops in shortening until golden brown, season with half the salt. Combine remaining salt, onion, Worcestershire Sauce, tomato soup and water. ½ cup lemon juice or vinegar
½ cup salad oil
2 teaspoons onion juice
1 tablespoon Worcestershire Sauce

Wipe dry and broil on each side. Serve with sauce made of 3 parts melted butter blended with one part Worcestershire Sauce.

NACGN To Disband After 42 Yrs. Service

After 42 years of work in the interest of Negro nurses, the National Association of Colored Graduate Nurses, announced last week through its president, Mrs. Mabel K. Saupers, that it will vote to terminate its activities at a final conference to be held hereon January 26, 1951. As far as it is known, the NACGN will be the first important national organization composed predominantly of Negro members to terminate its work because it feels that its program of activities is largely no longer necessary.

Full integration of Negro nurses into the nursing profession as a whole has been the goal of the NACGN during its 42 years of work.

When the NACGN was founded in 1908 Negro nurses were unable to secure education or jobs in most parts of the United States. Prior to World War II out of a total of 1,200 schools of nursing, 20 of which were for Negroes only, they were admitted to only 14 of the others. At present, largely through the work of the NACGN and under the leadership of its former executive secretary and present president, Mrs. Staupers, the number of schools of nursing admitting all qualified students regardless of color has increased from 14 to 330.

The number of state nurses' associations not admitting Negro nurses has been reduced from 17 to 5, in addition to the District of Columbia. This was largely the result of an amendment to the constitution of the American Nurses Association in 1948, which stated that all Negro nurses barred from Joining the state associations could join the national body on an individual basis. Negro nurses have also been integrated into the staffs of hospitals, public health agencies, military and veterans services in unprecedented numbers.

PROGRESS OF MUSIC IN NEW YORK'S UPTOWN CHURCHES

Music as a fundamental part of the church, both spiritiual and cultural, has been firmly established for centuries, and it is encouraging to note the interest our churches are showing in selecting thorough proficient musicians for the administration of their musical programs in places other than Los Angeles. From, friend Nora Douglas Holt, Music Critic for New York's Amsterdam News comes the following:

Throughout the New York area, competent choirmasters and organists are found in most of the churches (a situation not prevalent in Los Angeles) whose knowledge of the gravity of their position is based on specific study in the field. Sunday programs are generally good and we have even seen instances where the choirmaster has been selective enough to choose anthems which bear directly upon the subject of the minister's serman theme (big joke eh?) Senior, junior, children and gospel choirs provide singing participation to a large body of the membership along with hymn-singing by the entire congregatoin. A singing church is a happy and contented church, at least it should have that effect.

This preface was not intended as a dissertation, but we would like to drop a hint that too often the choirmasters and organists are underpaid (only in a few instances are musicians in L. A. churches paid what they are really worth), while the engagement of a paid soloist or mixed quartet is still a novelty.

We have noted a commendable interest in church concerts where young musicians are given the opportunity to prove their potentialities for the concert stage, and the decorum of such concerts has improved immeasurably—such as proper settings, adequately tuned pianos, orderliness of ushers, permitting latecomers to enter only between groups of songs, and the most important, starting on time. The latter is still a problem in most uptown presentations and should be handled by the minister of music rather than "by committees who are often too lenient. IT IS A MUST FOR ALL CONCERTS TO START ON TIME.

The recent appointment of three choirmasters to positions in the leading churches here in New York shows good judgment and careful screening, and they are proficient enough to serve with dignity and rewarding service.

FREDERICK HALL, CAGO, chairman of the Department of Music at Alabama State College, has been selected by the Rev. B. C. Robeson, to serve as Choirmaster and Organist for Mother Zion AME Zion Church, 146 W. 137th Street, while on a year's leave of absence to work on his doctorate at Columbia. He is a graduate and has degrees from Morehouse College, Chicago Musical College and Columbia degrees from Morehouse College, Chicago Musical College and Columbia Teachers College. As a Rosenwald Fellow, he studied in Europe and while doing research in native music and folklore in British West Africa, was made a Fellow of the Royal Anthropological Institute. He has been director of Music at Clark College, Gammon Theological Seminary, Morris Brown and Dillard University in New Orleans.

GEORGE LEONARD MATTHEWS, M.S.M., FTCL, for more than thirteen years the choirmaster and organist of Mother Zion Church, has accepted the invitation of the Rev. Charles Y. Trigg to become the Director of Music at Salem Methodist Church, 129th Street and 7th Avenue, where he will be in charge of all choirs with a paid quartet and a Senior Choir of 80 voices.

He is a graduate of Union Theological Seminary, M. S. M., and passed examinations with honors as a Fellow of Trinity College, London, England. He has continued advanced studies with Dr. Norman Coke-Jephcott, organist of the Cathedral of St. John the Divine, and has appeared as concert organist and conductor of choral works at Carnegie Hall, Madison Square Garden, at local churches, and outside of the metropolis. He will begin his choral directorship and organist on a few four manual Casavant Organ, recently installed at a cost of 40.000.

EandH

DR. LAWRENCE PIERRE, M.S. Th, FTCL, noted choirmaster and concert organist is director of the Pierre-Royston Academy of Music and is well known in the musical circles of this and other cities. He was appointed to the position of Minister of Music and Director of Music Activities at Bethel AME Church, 52 W. 132nd St., by the Rev. Richard A. Hilderbrand, new minister in charge. Dr. Pierre received his Ph. D. at the University of St. Louis and holds membership in the London Society of Organists, American Musicological Society, and the American Guild of Oragnists. He studied organ at the Paris Conservatory at the Guilmant Organ School.

EIGHTH NOTES

Thanks to Girl Friday, adequate coverage will appear on the page of the De Paur's Infantry Chorus magnificent presentation last Saturday night in the Philharmonic. Thanks to Jester Hairston for the fine invitation to appear at a reception recently held for Mr. De Paur. We regret that a busy schedule made both events impossible.

The Music Department of the People's Independent Church of Christ will continue with its new series of Fourth Sunday musical vespers with an All Solo Concert Sunday, January 28th at 7:00 p.m. when the Cathedral Choir soloists Gwendolyn Harriel, Mary Louise Jones, Jeanne Jackson, Cecil Doty, Thurston Frazier, and Jay Loftlynn will present selected solo renditions of sacred and secular works by popular composers.

February 18th the Cathedral Choir of the church will present Johannes Brahms "The Requiem" in Pasadena's First Methodist Church in memory of the late Dr. Karl Downs, former pastor of Scott Methodist Church there and president of the Samuel Houston College, Austin, Texas. Members of the Pasadena Civic Symphony will accompany.

Palm Sunday, March 18th the Cathedral Choir presents Claude Debussey's "The Prodigal Son" in costumes with ballet.

Part One of J. S. Bach's "The B-Minor Mass" will be presented by the 60 voice vocal group, under the direction of Albert J. McNeil, Minister of Music, with Fannie Benjamin at the organ, on Sunday afternoon, June 3rd.

Appegios and Glissandos

On Saturday evening last the Los Angeles Philharmonic Auditorium was shaken with the magnificent vocal productions of the Leonard De Paur Infantry Chorus. The thirty-two men of unlimited vocal ranges sang with versatility and poise to an audience that will long remember the pleasurable experience given to them.

Of the first group "Credo" which had two parts and included "Crazy Medicine" along with "The Unknown Warrior Speaks" gave the audience a taste of the chorus's splendid vocal production and ease. Folk songs of Latin American people headed the second group. Two arrangements of De Paur, "Corrido de Cananda" and "De Handsome Man" (a calypso song), were the two most outstanding numbers in this group to this writer. I might add at this point that it was hard to choose the numbers most outstanding in that all were in perfect harmony and vocal coordination. Of the World War II songs, a unique arrangement of "Waltzing Matilda" opened the third group. "De Chant de Liberation," a French presentation, along with the unforgettable "Rodger Young" and a song by the Chinese composer Chiang Ting-Hsien ranked second to none.

Luther Sexton, formerly of the original "Carmen Jones" cast sang the solo in "Sweet Little Jesus Boy," which left the audience in a state beyond oblivion.

"Ave Maria" and a Yiddis song, "A din toire mit gott" wer outstanding in the fifth grou This group was especially goo

The only criticism this write has to offer that would be un favorable is the obvious discolor ation of tone quality often pro duced by the second tenor sec tion, leaving one with the feelin that the section was harsh i delivery.

May it now be said that Leo nard De Paur has at hand group bordering on perfectio and if it continues as such wil be the leading group of the entir world.

With this information there must be a check for $3. And you are in the contest.

the Boise Mitchels from Santa Monica; the Edward Petty's; Cecil Parks and his pretty wife; jovial Walter Goodlow, one of the Syndicators and his madam enjoying his own dance to the fullest; De Melvin Dennis; Walt and Mrs. McGowan; Sy Westbrook; Myrtle Fortune and her husband (oh, yes, Myrtle said not to forget the B.V.A.'s annual Ground Hog Day Affair, it is always so much fun); and if we attempted to name the other two thousand guests you know where we would wind up.

You won't believe it but over to the Otis Hays home the other evening the highlight of the evening was watching Hop-A-Long Cassidy on Television. As a matter of fact the installation party of Les Dames didn't get under way until the exciting Hoppy was off the ether. Children? Well hardly, Maceo Sheffield, Elledge Pendland, Otis Hays, Maidie Norman and her husband who plainly let it be known it was a forced issue, and myself. (It was just right for me, I keep hoping to see Hoppy re-load one of these days).

Seeks To Annual Marriage

Because she later learned that the man she married in a ceremony at Yuma, Arizona in 1948 was not legally consumated, Mrs. Jennie V. Taylor of 1495 West 35th Street, has decided to ask the courts here to annull her marriage to John J. Taylor.

Atty. H. Leonard Richardson filed the suit on behalf of Mrs. Taylor last Friday in Superior Court. The complaint states that the couple married in 1948 and separated here January 10 of this year. The couple have no children.

In 1949, the couple went through the legal motions of obtaining a divorce. But, according to the present suit, they agreed to settle their differences and called off the proceedings. The present suit by Mrs. Taylor seeks restoration of her maiden status.

FERRUCCIO TAGLIAVINI, master of bel canto singing, and one of the greatest tenors of the day, will be presented in a concert at the Philharmonic Auditorium, Tuesday evening, January 30, at 8:30 by Mary Bran, manager. Tagliavini recently appeared with the Los Angeles Philharmonic, and was so overwhelmingly received, that the "no encore" rule had to be broken in order for the concert to continue.

It sent out questionnaires to all broadcasting outlets directing them to give detailed information about any regular racing programs they may carry, including the source from which they get the race results and other data.

The commission made clear that it is not concerned with the occasional broadcast of major turf features, such as the Kentucky Derby, but rather with regular daily racing programs which might be of aid to illegal bookmakers.

Clarence Henry Moves Right Along

Cloutin' Clarence Henry did all right for himself last week in his Madison Square Garden debut. He knocked his opponent, Ornelio Agramonte, down in the first round and saw the count reach seven as the bell sounded. Henry was not able to put him away in the next round but he went on to finish strongly and win a unanimous eight-round decision.

Art Lewis

As a result of his fine showing, Henry has been promised a bout with the winner of the Bob Satterfield-Elkins Brothers match slated for tomorrow night in New York. Satterfield last May scored a sixth-round KO over Lee Oma, the gent recently stopped by Ezzard Charles in 10 rounds.

Matchmaker Al Weill of the International Boxing Club said that he planned to make the match for late February or early March. All of which makes us wonder what happened to the proposed Henry-Charles title fight for Los Angeles. Perhaps his handlers finally woke up and realized that while Henry may be of championship caliber he is not ready for a fight with the champion.

While it is true that he has lost only one fight since turning pro, the fact remains that he has not fought too many top-notch contenders. That is something that he must do before he is ready for Charles.

Agramonte, Henry's victim last week, meanwhile is slated to meet Joe Louis in Miami on Feb. 7. Louis has also been mentioned for a Feb. 23 bout in San Francisco with Andy Walker. All of which seems to bear out what I said last week—that Louis will go on fighting men that he can beat and will meet Charles again in a million dollar fight.

At any rate, the Louis-Agramonte fight will give us some line on how good our boy Clarence Henry is.

Stydahar Has Won His Letter

Although Joe Stydahar's National Conference team did not win the Pro-Bowl game at the Coliseum last Sunday, Jumbo Joe, too, has done all right for himself as his first year as a head coach. After all he twice came within two points of beating one of the top (if not the top) coaches in America, Paul Brown.

His National Conference champion Rams lost 28-30 to Paul Brown's Cleveland Browns for the championship and then his all-star National team lost to Brown's American Conference team 28-27 on Sunday. Not bad for a freshman, especially since he was severely criticized at the start of the season and had had no previous experience anywhere as a head coach.

But he showed that he knew what he was doing when he cut off several players and used the exhibition games as a proving ground for his men. Even though they won only half of their early games, when the regular season opened, he was ready.

The Rams were ready, too, and proceeded to win the divisional championship.

So even in defeat let's say hats off to Jumbo Joe Stydahah.

The Eagle Eye

Sherman White of Long Island University is the first basketball player to reach the 1,000-point mark in the school's history. He has scored 1053 points in 63 games over the past three seasons. White began his college career at Villanova and now plays both as center and forward for LIU. . . . Indiana's Bill Garrett is the only Negro playing basketball in the Big Ten Conference this season. . . . UCLA has two, Gene Williams and Bobby Pounds, on their Pacific Coast Conference championship team.

Monte Irvin signed his 1951 New York Giant baseball contract last week and thus became the first Negro player to come to terms this year. Salary figures were not disclosed but it is assumed that he got an increase over last season when he played both right field and first base for the Giants. He is scheduled to fill the latter position this year. . . . The Giants can field an almost all-Negro infield this season with Artie Wilson at short, Rafael Noble catcher, Hank Thompson at third and Irvin at first. The first two are both rookies—up from Oakland.

Nearly 50 possible candidates for the University of Southern California football coaching job have been named by press, television and radio representatives to date but you can bet that Paul Brown won't be the one to land the job. They couldn't stand such a broad minded man over there. Just think of all the good colored players that he might bring with him from Ohio . . . The Rose Bowl was the only major bowl game to feature Negro players this year. Wes Bradford, Lowell Perry and Tom Johnson were the three that contributed to Michigan's win over the blundering Bears.

Joe Bostic in his New York column says that the Big Ten couldn't help but want to renew the Rose Bowl pact with the PCC since "they've been made to look like pigskin plutocrats while feasting on the softest touches anybody ever had." This statement should arouse someone out here.

Your Host, the great California bred horse who fell and broke his right front leg last week, was right on the brink of being the greatest money winner ever produced in the Golden State. He was 16th on the list of the world's money leaders and threatened to soon pass the present California king, On Trust, who is sixth on the list. On Trust was retired to stud this week. With several major stakes races coming up at Santa Anita this season, Your Host had an excellent chance of advancing his position. But now due to a very regrettable accident, the only hope is that he can be saved for a successful stud career . . . (which is a pretty good job)

California racing thus loses this week two of its brightest stars, Your Host and On Trust. Their presence will be sorely missed.

Guess it's time for you to be missing me, so—farewell.

Globetrotters to Play at Pan-Pacific Jan. 20, 21

Those rootin', tootin', razzle-dazzle, daffy-dilly wizards of basketball, Harlem Globetrotters, accompanied by three Class "A" professional outfits, pay us their first visit of the 1950-51 season at the Pan-Pacific Auditorium Saturday and Sunday, January 20 and 21st.

They'll play twice on Saturday, once in the afternoon, starting at 2 p.m., again in the evening, at 8 p.m. and Sunday matinee.

No basketball club in the history of the sport can come anywhere near matching the Globetrotters' exploits of last season—viz., winning 151 out of 153 games during their regular schedule; sweeping the Cuba Invitational Tournament at Havana, three straight; beating the sensational 1949-50 College All-Stars, 11 games to 7, in a spectacular cross-country duel—a flying series, in which 19 games were played in 18 cities from Coast to Coast.

Then, as a fitting climax, came the invasion of Europe and North Africa, in which nine countries were visited—England, France, Belgium, Italy, Portugal, Switzerland, Germany in Europe; Algeria and Morocco in North Africa.

More than half a million people witnessed the 73 games they played abroad.

Thursday, Jan. 18, the Globetrotters won the 3,500th game of their existence.

At the finish of the 1949-50 season, the Trotters had won 3,241 games, lost 245, tied one—that's a 23-year mark. They won the world pro turney in Chicago in 1940; they were the first to play the College All-Stars at the Chicago Stadium in 1940, before a crowd of 21,835 fans.

Making the coast-to-coast romp this year are the Harlem Globetrotters, the famed New York Rens, the Boston Whirlwinds and the speedy Sphas of Philadelphia, woh played here last year.

The roster of the Globetrotters, 1951 edition,: Captain, Babe Bresley; Marques Haynes; Frank Washington; Clarence Wilson, Reece "Goose" Tatum; William "Rookie" Brown; Ermer Robinson; William "Pop" Gates and Bob Dowery.

Saturday afternoon schedule, 2 p.m.: Trotters vs. Sphas, Rens vs. Boston; Saturday night, 8 p.m.: Trotters vs. Boston, Rens vs. Sphas. Sunday afternoon schedule, same as Saturday matinee.

Globetrotters Set For Tour Of Golden State

LOS ANGELES (Special)—Basketball's most magnetic and colorful players—the Harlem Globetrotters—are all set for their annual rip-roaring tour along the Golden Coast of California.

The first two games of this madcap jaunt will be played at Pan-Pacific Auditorium in Hollywood the afternoon and evening of Saturday, Jan. 20 followed by another game at the same place the next afternoon. From here the fabulous Trotters will take their cage circus on to San Jose, San Francisco, Sacramento, Lodi, Oakland, Fresno, San Diego, and back to Los Angeles.

Included on the Globetrotters spectacular shows will be the Boston Whirlwinds, New York Rens, and Philadelphia Sphas—plus an added array of top-ranking entertainers.

From all indications, the Globetrotters will continue attracting record-breaking crowds in California just as they have been doing throughout the East and South this season. During their dash to the Coast, the Globetrotters broke attendance marks in four cities on successive nights. In Chicago, they played before 11,000; 10,000 in Kansas City; 5,000 in Wichita; and 10,000 in St. Louis—a total of 36,00 in four nights. That is simply one reason why they are known as basketball's greatest attraction.

California cage fans will see the Trotters at their strongest and such great stars in action as Reece ("Goose") Tatum, Marques Haynes, Bill Brown, Capt. Babe Pressley, Ermer Robinson, Pop Gates, Frank Washington, and Hank Singleton.

Here is the schedule for this historic tour: Jan. 20 and 21, Los Angeles; Jan. 22, San Jose; Jan. 23 and 24, San Francisco; Jan. 25, San ose; an. 26, Sacramento; an. 27, Lodi; Jan. 28, Sacramento; Jan. 29, Oakland; Jan. 30, Fresno; Jan. 31, Long Beach; Feb. 1, San Diego; Feb. 2, Los Angeles Shrine Auditorium.

While in the Hollywood area, the Globetrotters probably will get a chance to preview their own movie—"The Globetrotters Story"—a full-length Columbia movie in which they are starred. It is scheduled for release to the public the latter part of February.

Rams' "Tank" Younger Set Many Records While At Grambling

By COLLIE J. NICHOLSON

GRAMBLING, La. (Special)—Paul "Tank" Younger, former Grambling College halfback and presently a member of the U. S. Army who worked his defensive wizardry for Joe Stydahar's Los Angeles Rams during the past season, spent six days here last month renewing old acquaintances and talking football.

The big, likable fullback, who scored 60 touchdowns while at Grambling to set an intercollegiate record, completed his second successful years as a cash-and-carry-the-ball player for the Rams in the league championship game in Cleveland on Dec. 24.

Cleveland won the contest 30-28 on "Golden Toed" Lou Gronza's last minute field goal.

"Tank" Younger went to the Rams after breaking a whole sheaf full of records at Gambling.

He led the nation rushing in 1947, gaining a total of 1,207 yards and scored 19 touchdowns. During his four-year career he lugged the football nearly a mile and half, accounting for 2,313 yards, and scored 60 TDs.

Stylahar used Younger sparingly as a ball carrier last fall and he scored only two TDs. The big fellow stoodout as a defensive player and received deserving recognition as one of the top line-backers in the league.

Following the Los Angeles-Chicago playoff game for the western division title, won by the Rams 24-14, veteran Chicago mentor George Halas was quoted as saying, "Younger is one of the few remaining good defensive players in professional football."

Earlier in the season Coach Stydahar called Younger, "the most improved player on the squad."

Ski School For Youngsters To Open Sat., Jan. 27

Spurred by the recent blanketing of Southern California's mountains by powdery snow, the staff of the first annual Ski School for Boys and Girls today were making final preparations for the first session of the school on Saturday, January 27, at Griffith Playground Riverside Drive at Los Feliz Boulevard beginning at 11:30 a.m.

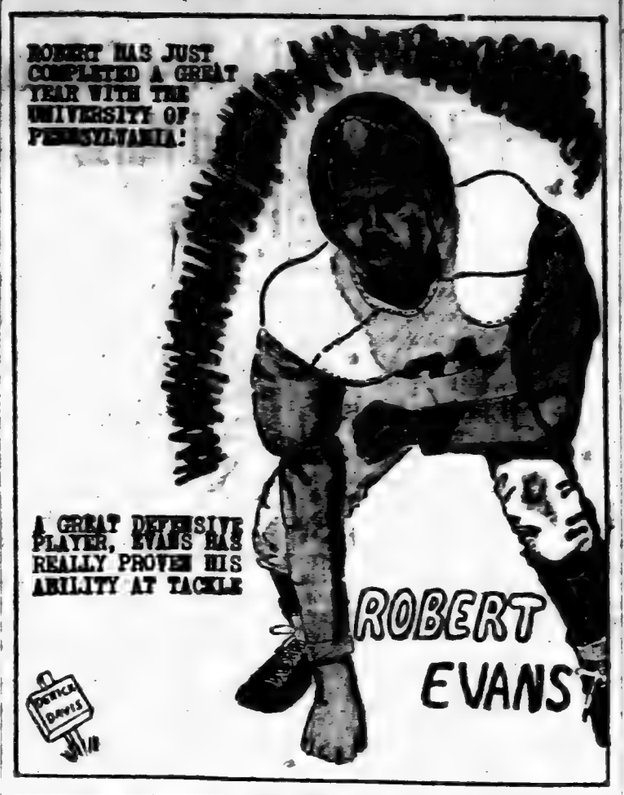
Open to all boys and girls of high school age or under the big ski school is being sponsored by the City Recreation and Park Department and the Los Angeles Junior Chamber of Commerce.

Members of the National Ski Patrol the skiing counterpart of the Red Cross, will be instructors for the series of four classes. Youngsters attending the sessions must furnish their own skiis and equipment, the sponsors reported.

The January 27th lesson will consist of "dry-land" instruction. The youthful ski enthusiasts will be transported by bus to the Big Pines resort for the February 3, 10, and 17 classes.

Instruction for the non-profit classes will be free, with the only cost to youngsters enrolled a fee of $4 for transportation. Registration blanks and parental consent forms are available at all Los Angeles municipal playgrounds and at the office of the Junior Chamber of Commerce, 1151 South Broadway, Los Angeles 15.

Following is the bus pickup schedule for the January 27th ski class:



South District: Manchester Playground, 8800 South Hoover Street, 10 a.m.; Exposition Playground, 3981 South Hoover Street, 10:30 a.m.

Joe Louis Presents Award To "Sugar" Ray Robinson

NEW YORK CITY—Joe Louis, former world heavyweight champ, had the honor of presenting the Edward J. Neil Memorial Plaque for outstanding service to Boxing through 1950, to "Sugar" Ray Robinson at the Silver Anniversary Dinner of the Boxing Writers Association Jan. 9th at the Waldorf Astoria.

At the same Dinner, Publisher Nat Fleischer presented the Ring's championship belt and "fighter of the year award" to Ezzard Charles.

Much emphasis was put on "Sports as a contributing factor toward curbing Delinquency," and more than 300 guests attended the Dinner.

Loyola Coach Speaks at Huskie Fete

Jordan Oliver, the highly successful Loyola University football coach, was the main speaker Tuesday night at East Los Angeles Junior College as the Huskie athletes received their awards at the annual fall sports banquet.

Revealed for the first time was the winner of the annual Most Valuable Player Award. Louis "Hustler" Williams, leading scorer, leading ground gainer, and All Southern California fullback, was a unanimous choice. The "Hustler" powered through ten opponents for a total of 1009 yards, a new Huskie record in 145 trips with the pigskin.

As Most Improved Player during the 1950 season big 220 pound defensive end, George Morrow, was given the cup. Morrow completed his junior career by rising from Mark Keppel high school "C" team to the starting lineup at ELAJC.

For the best scholastic record during football season, reserve end Harold Bertrand, former Garfield basketballer, who never played football before, received an individual trophy. All of the above named players had their names engraved in the Huskie Hall of Fame. Presentation was made by Dr. C. T. Shirley, dean of atheletes.

The returing Huskie football captain Bob Hughes also came in for an award. Hughes played end on offense and did the punting for the 1950 ELA eleven.

Announced co-captains of the 1951 Huskies were John Mayer, defensive end, and Phil Johnson, right half back. Both are former Garfield stars who played regularly in 1950 for East Los Angeles.

Coaches Al Hunt and Clyde Johnson presented the varsity football letters. Cross country and junior varsity football letters were presented by Coach Ray Smith. Coach Howard Ploessel presented water polo letters.

Medical Pharmacy's Rufus Johnson Sets Scoring Pace

Ending in a three-team tie for first place last week, the Los Angeles Municipal Basketball Association's AAA league offers local casaba fans some of the fastest triple A basketball in the Southland.

At the end of two week's play, the quintets sponsored by Kelbos Bar-B-Q, Associated Dairies, and Veterans Service League are leading the league with two games cinched and none lost.

High-point men in the 10-team loop are Rufus Johnson and Chuck Clustka, Hoopster Johnson, wearing the Medical Pharmacy colors, has a big 37. Clustka, former UCLA standout and ace bucket-man of the Associated Dairies team, has racked up 35 points.

According to the City Recreation and Park Department, who sponsors the municipal hoop association, all games are played in the Loyola high school gym. There is no admission charge.

Throughout the rest of this month, KFI-TV will televise the games on Monday and Thursday nights. The Los Angeles AAA league will be the only basketball telecast in this area, the Recreation and Park Department announced.

Hot Rod Show

Called the "most unique automotive display in America," the fourth annual Hot Rod and Motor Sports Show has been set for a four-day engagement at the National Guard Armory, Exposition Park, beginning January 25.

Managing Director Robert M. Barsky revealed today that the show this year will be completely new and different from previous performances, with foreign sport cars, custom-built automobiles, motorcycles, racing speedboats and airplanes sharing the spotlight with the home-made hot rods, built with loving care by Southern California's young motor enthusiasts.

Outstanding Fillies And Mares Featured Sat. at Santa Anita

Probably the greatest array of fillies and mares ever gathered for a single race will vie Saturday at Santa Anita Park in the renewal of the famed $50,000 added Santa Margarita Handicap.

This mile and one-eighth classic will see five champions of their division in action.

Heading the list is Alfred Gwynne Vanderbilt's distinguished duo—Next Move and Bed O' Roses, recently turned 4-year-old fillies. Next Move was named 1950's champion 3-year-old filly. Bed O' Roses won top honors as the best of her sex among 1949 2-year-olds.

Calumet Farm will shoot for a repeat victory in the Santa Margarita, won last winter by the stable's fine mare, Two Lea. The latter was the champion handicap mare of 1950 and the best 3-year-old filly the preceding season. Bewitch and Wistful, also carrying the devil red silks of Calumet, won title honors in other years and they are being pointed, along with Two Lea, for the Saturday special.

Opposition for these five brilliant matrons will likely come from Mrs. James N. Crofton's Special Touch, Mrs. Thelma Sneed's Fair Regards, Mrs. Connie Ring's Zenoda, M. J. Sanford's Messalina and other Western-owned fillies and mares.

Beginning next week, Santa Anita Park goes on its usual five-day a week—Tuesday through Saturday—racing routine. First of the big $10,000 turf specials.—the Santa Anita Maturnity, is shaping up for Feb. 3.

Jeff Basketballers Still Going Strong

Going into last night's game with University high school in the quarter-finals of the all-city tournament, Jefferson high had won over 20 straight games without defeat this season.

Led by their great center, 6-foot, 7-inch J. C. Gibson, who dropped in 41 points the other evening, the Democrats are shattering records right and left. They defeated Roosevelt 92 to 27 Monday night to break the old team scoring mark of 80 points in one tournament game set by Washington in 1949. Gibson's 41 points was also a new record. Last week they beat Garfield 101 to 18 to tie the all time scoring mark established in 1945 by Marshall.

The team has at least eight good fast tall players, all of which are good shots. Gipson wound up the regular season play with an average of 22.1 points per game. Mack Taylor finished with 17.2.

MINISTERS TAKE STAND ON LOS ANGELES HOUSING

Unqualified support of the new 10,000-unit low-rent public housing program of the Housing Authority of the City of Los Angeles was expressed this week by the Interdenominational Ministerial Alliance. In letters to Mayor Fletcher Bowron, the City Council and the Housing Authority Commissioners, the ministerial group congratulated the city government for its support of the program.

"Low rent public housing is vitally necessary to the future of our city," the letter to the mayor pointed out, "and the plight of the family of low income which cannot afford decent private housing is becoming increasingly a source of concern."

The group of prominent ministers deplored the "obvious attempt to harass the work being done," and stated that there are many, many people in this city who are happy that you have taken a forthright stand on public housing and that you have been unmoved by the propaganda which has been loosed against this program."

The Alliance assured the City Council that "your overwhelming support of the program of the Housing Authority of our city is encouraging to everyone who believes that representatives of the people have the responsibility to 'promote the general welfare.'"

Commenting that it is "almost unbelievable that there are those who argue in favor of retaining the slums and sub-standard homes which infest our city," the Alliance told the Council that "it is difficult to understand how any citizen could ignore the plight of our families of low income who cannot afford decent private housing."

"As a result of your action," the letter to the City Council concluded, "Los Angeles will become a better city—more of its citizens will share in the heritage which is the right of all Americans."

The ministers praised the Housing Authority for its policies of "filling vacancies in your housing developments on the **basis of need and refusing to propogate discriminatory practices.**"

They also congratulated the Authority on its method of procedure in selection of sites for the new program. "We sincerely hope that your program will go forward rapidly," the letter to the Authority stated, "and that you will not be deterred by the obviously planned propaganda which appears in the press from time to time."

The Interdenominational Ministerial Alliance is composed of 108 ministers, representing 12 different denominations with an aggregate membership of approximately 75,000. The Rev. G. W. Reed is president of the group.

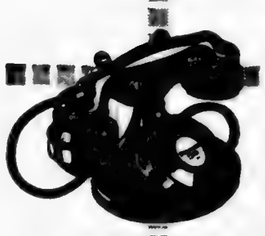
Willie Lewie is the pastor and ordained Elder, graduate Thomas Willie High and Payne College, Payne's Theological Seminary, post graduate work in Chicago. Eagle Editor Arouses Enthusiasm At Second Baptist

Given ten minutes to tell of the advances made in the fight for first class citizenship for the Negro people of America, together with the further advances needed to be made, Mrs. Charlotta Bass, editor of **The California Eagle,** aroused the congregation of the Second Baptist Church to an enthusiastic pitch for further struggle at the morning service last Sunday.

"We must keep on working and struggling and striving," she said. "The fact that fewer persons were lynched last year than in the year before, that restrictive covenants can no longer be enforced, and that in some of our business places Negroes are now employed as clerks and in administrative positions, does not mean that we can now sit down and fold our hands, and rock ourselves to sleep. We must keep on fighting, and fight harder than ever to win our goal."

The Rev. Dr. J. Raymond Henderson, pastor of the church, urged Mrs. Bass to come back again when she could speak as long as she wished. Members of the congregation echoed a hearty "Amen."



Reed College Of Religion

The second semester of the Reed College of Religion will begin Monday evening, January 29, at 7 o'clock at the Greater Cornerstone Baptist Church, 1020 E. 14th place. Registration of students for the ministerial department will continue to February 5.

The mid-term commencement of the school will be held in the Free Will Baptist Church, 1411 E. Washington Blvd., Rev. Theodore McGlover, pastor, Tuesday night, January 30, beginning at 8 o'clock.

LA First Colored Head Nurse Passes

After lingering for three weeks since the next day after Christmas, Mrs. Willie B. Bruce, retired registered nurse, and prominent business woman, passed at her home, 725 E. 24th street last Monday, Jan. 15.

She was Los Angeles' first colored head nurse, serving in this position at the then famous Dunbar Hospital on E. 15th street. She handled many important cases on the staffs of a number of the best known physicians, of both races.

During the war, she was presented a plaque at the Ambassador Hotel, in recognition of her work as a senior hostess at the Avalon USO.

The remains will lie in state at the Angelus Funeral Home, following the completion of funeral arrangements upon the arrival of a surviving relative.

Congregation Participates

The Sunday evening service at Neighborhood Community Church at 47th place and San Pedro St., was unique in the manner in which it was conducted. Pastor Collins chose the First Psalm as his subject and after a very brief lecture, requested congregation discussion. There were questions and answers and a general discussion thoroughly enjoyed by all.

G. Mansfield Collins, Assistant to the minister who usually conducts the Sunday evening service, was at the White Memorial hospital, getting acquainted with his new son, G. Mansfield Collins, Jr., who made his appearance early Saturday morning, January 13th. Mother and son are doing nicely.

A class in Bible Study will be organized at Neighborhood in the near future. Rev. Collins announced that he will devote one hour each week to the class when it has been organized. Churches Observe World Religious Day

The Baha'i Community of Los Angeles will be one of hundreds throughout the United States to participate in the second annual observance of World Religion Day on Sunday, January 21st. The event will likewise be celebrated throughout Canada Great Britain, Germany, India, Pakistan, Burma, Australia and New Zealand by Baha'i communities in those countries.

In Los Angeles the Baha'is are sponsoring a public meeting to be held in Stanley Hall, 1057 No. Stanley Avenue, just south of Santa Monica Blvd. at 8:15 p.m. A panel discussion of world crisis issues and their solution will be featured, followed by an open forum question period. This year's theme: "World Religion is the Path to World Unity" will be developed in all its vital aspects.

Panel speakers will include Virginia Foster and Willard Hatch, members of the Los Angeles Spiritual Assembly, Charles Wolcott, well known composer and musical driector, John Keith, Los Angeles business executive, Charles McAllsiter, Gertrude Jacobi and Isabel Downing. Churchill Ross at the "Voice of the World" will pose the questions dealing with our situation and David Bond of motion picture and television will be the moderator. Greg Mitchell, popular radio baritone, will be heard in a special composition. The public is cordially invited to attend. There is no admission fee and no collection.

"The Baha'i World Faith, in embryonic form, has already demonstrated its effectiveness in one hundred countries of the world," Willard Hatch, Secretary of the Local Assembly points out. "It has fashioned a social unit from people of every religious background, from every economic strata, of every shade of skin-color. This world Faith has brought the laws, the agencies, the institutions and spiritual energy to break down the prejudices that have separted men. Its power stems from the written teachings of its Founder, Baha'u'llah, whom the Baha's believe speaks with the same power and authority with which a Moses and Jesus spoke in the past."

Dr. Herbert T. Gibbons, American historian, wrote of the teachings of the Baha'i Faith: "Taken together, they form an unanswerable argument and plea for the only way that the world can be made over. If we could put into effect this program, we would indeed have a new world order."

America is the people in it. The future of America is what e people will make it.

A bunch of papers in the esident's top desk drawer won't ake the future of America. The ur Freedoms won't. The At- ntic Charter won't. The Moscow greements won't.

The future of America is made your backyard. And mine. And e backyard of the jerk down e street.

The Four Fs and etc., will end so many bunks of scrap if e American people forget they e fighting to make a world here they can live in blazing ality the magnificant vistas ese documents open up for all manity.

O K

Take the CIO convention. The ople there were allies of the ture. They believe in it. They t it. They say to hell with the oll-tax. They say we'll elect a egro to our highest office and Dr Goebells and Herr Hearst' rangle if they feel like it. They y a man's what's inside him nd what he does and whose use he loves. A man's not what e Klan tells you to think about s skin

But the CIO convention, un- rtunately, isn't the whole merican people. It is the health- st strongest freest part, but r all of the people.

The CIO convention makes you el good, but there are a thou- nd and one other meetings in merica today that should sound agle calls i nthe heart of every emocrat who believes with Lin- oln, that eternal vigilance is the rice of liberty.

Take an example

Take the Watts hall of the ousemaids International Union r Ersatz. Got it? Well, crowd up with 100 or so good Amer- ans who haven't the vaguest otion they are storming over the ee shoreline of dirt for their en graves for freedom's grave.

Row after row they sit. Good onest faces. Guys who work ay to you in the yards, as ong as at Lockheed. Guys who ugh their heads off at Bob ope and walk around all day h a sing 'Pistol Packin' Mama.' They've probably all won ough on Joe Louis.

Some got kids in the air over urope. They sing "The Star pangled Banner" loud and mean hard.

But last Friday, row after row, ey were Hitler's gang. They ere saying "Amen" behind very fascist outburst of a sawed ff little squirt named Oliver de ong, out to build himself as a ne hundred per cent Super- merican fuehrer.

He told the folks they had etter watch out or their daugh- r would be gobbled up by the lack monsters. He said that race roperty restrictions were the will f Heaven and the Constitution. e said the dirty New York Jews ight want Negroes for neigh- ors but not a gold plated patriot ke him, by God!

The people applauded and left eling as if they had acted to rotect the sanctity of their omes, their children, and ahem e race.

This meeting isn't alone, either Los Angeles or the country.

Oliver De Long isn't one guy. e's a prototype for all the gut- r politicians in the nation who ave decided to make a little unding change out of corrupt- the minds and hearts of de- nt Americans, filling them with e crumby fantasies of the itler legend and the Dixie tra- ition.

And the Oliver De Hoags are eally stooges. They are stooges r whom? Not mystery men. Not houls floating around in space. ut flesh and blood major Amer- an fascists. Guys with records hose stench would run the San uentin gas chambers for the ext millenium. Big, important No. 1 American fascists.

Hank Ford and Irenee duPont. AM president Campbell.

Just names? No connection ith the bitter day-to-day truggle against De Hoag and ob.

No Irenee duPont told the Na- onal Association of Manufac- urers that there is one job big- er than beating Hitler-beating oosevelt. And at the same con- ention a stooge of his remarked s how the country'd be better ff if Hitler were here to run

And Hearst hired Mussolini for ears. He was Hitler's running ate during European jaunts. He ollows Goebbel's propaganda ne closer than even Schickel- ruber's personal sheet, "Beo- achter Volkszeitung."

The American people are a ature. We cannot abandon this reat people to the propaganda f their deadly enemies. Hitler's fth Column in America.

We know the "race" jive aloney. They don't.

We gotta help them under- tand. We gotta answer De Hoag. k, Watts, this is Our war. The

Lover Man

Eugene (Muscle Man) Johnson is this week's lover man. And he's quite a guy. He weighs about 158 lbs., 6 ft. tall with dark hair and eyes, and personality plus. Oh yes, he's a sailor in Uncle Sam's Navy, although I can't see why. But really he's a swell guy.

I want all you kids to know that Reynold Burbank and I are very serious about our engage- ment. We are truly in love and plan to marry some day. I know folks in love wake up some day, but my day hasn't come and I haven't woke up yet.

Heard William Reed has whizzed in again once more. Thought he went back to Wash- ington.

Well, kids, I have to make it short this week, final exams and all that, you understand.

I'll see you next week. Until then don't forget the conserva- tory of gossip, CE. 2-9822 or CE. 2-8447. Bye now.

PROF. HERMAN

TO ASSIST YOU IN SOLVING THESE PROBLEMS

NO OFFENSE

Are you easily offended? Do you permit your feelings to be hurt? Are you one of the many sensitive folk that have to be dealt with kid gloves. If so, then try to overcome this sensitiveness.

Never permit yourself to feel that you have been singled out and have become an object of special conversation, or discussion. People usually have more pity for these sensitive souls than censure.

Have you abilities that have never been recognized? Has recognition come to you slowly? Don't get discouraged or give up, wait a little longer, for the coveted treasure lies just around the corner.

• • •

Dear Prof. Herman: I have been reading your column for quite a few years, and it seems to me that in answering other people's problems you have been able to help so many others as well. I just hope you continue to do this work. I shall be writing again soon for a private reply. Sincerely yours, G.J.

• • •

R.R. I wrote to you some time ago and never saw my question in the column. Will you please explain why.

Answer: The column is limited to a certain amount of space, and oftimes the numerous amount of questions received surmounts the space, therefore many of the letters have to be answered privately or if there is no name or address, not at all. I hope you will understand that in a case like this, it can not be helped. That is why I suggest your writing in for a private reply, sending three questions along with the 25 cents, your complete name, address and birthdate in care of this paper for a prompt reply.

• • •

B.W. Will we get a divorce?

Answer: Concentrating upon your question, I find that you have applied for a divorce, but the case hasn't come up as yet and you are beginning to have doubts regarding the matter. If you and your husband would talk things over again you could reach a better understanding and try to make a go of your marriage.

• • •

I.Q. What will be the outcome of this situation?

Answer: Probing into the matter I find that you will no doubt be able to remain in the house for another 30 days. In the meantime try to find something else. Advertise in the daily paper if necessary, because I don't think you will go given any more time.

Florida A & M Delegation to Save Martinsville 7

NEW YORG, N. Y.—A people's delegation to Virginia to save the Martinsville Seven, innocent Negro victims of a jimcrow frame-up now facing death in the electric chair on February 2nd and 5th, will meet in Richmond, Va., on Sunday, January 30, to urge Gov. John Battle to stay the execution and free the men.

The delegation will be sponsored by the Civil Rights Congress, the Virginia Committee to Save the Martinsville Seven and a committee of national union leaders and prominent citiens.

The Martinsville Seven were alleged to have raped a white woman a year ago. They were convicted by an all-white jury in a series of one-a-day trials. Twice in 1950, national and world-wide protests saved the men from death.

Court Modifies Man's Sentence

John C. Newton, a gas service station operator, was one of the first recipients of a rare court bequest of the young year when he appeared before Superior Judge Edwin L. Jefferson with counsel after receiving a 90-day sentence for an assault with a deadly weapon charge.

Atty H. Leonard Richardson, who represented Newton, told the court and the Deputy District Attorney in charge of the prosecution, that it was imperative that the sentence impose upon his client on December 14 be modified in order that the business he owned jointly with his wife, Mrs. Ollie Mae Newton at 4903 Central Avenue, could be kept going.

Mrs. Newton addressed a letter to the court, complaining that she could not find competent help to assist her in operating the service station, and adding that the place was losing money and business as a result of her husband's management of the place. Atty. Richardson's modification request of sentence was granted in the manner of permitting Newton to serve only weekend days of his sentence in jail, the remainder time was allowed for him to operate his business for the support of his wife and two minor children.

City Council Commended By Housing Council

A resolution commending the City Council for its prompt opposition to the recent taxpayers suit attempting to halt the City's 10,000 unit low rent housing program, was adopted Thursday evening by the Executive Board of the Citizens Housing Council.

Commenting on the Resolution of the Board, Msgr. Thomas J. O'Dwyer, president, deplored the efforts of "narrow, self-seeking interests which are trying to destroy public housing.

"These people," Msgr. O'Dwyer stated, "have no regard for the welfare of the community and no vision of population pressures of the near future. As one of the nation's principal industrial areas engaged in defense production, Los Angeles is attracting an ever increasing labor market for which adequate housing must be provided."

The City Council adopted a resolution instructing the City Attorney to take whatever action he deemed necessary to cooperate with the Housing Authority and others named in the suit to vigorously oppose this attempt to delay the program. In its resolution the City Council cited the pressing need for public housing for veterans, and families of low income in the City.

MARCH OF DIMES PLEA TO COMMUNITY FOR AID

For the first time in the history of the March of Dimes the East side or Central district has been asked to participate in the National March of Dimes campaign for infantile paralysis.

We are all aware that the dreaded disease is non-discriminating. It was with undivided attention we heard the facts and figures that are needed to get this drive out of the red. Los Angeles is in the red, as far as her contributions are concerned. Perhaps it will be timely to point out that Los Angeles has the largest number of respirator cases in any city. We have one hundred and eight. Of this number, most of the patients will have to remain in these respirators the rest of their lives.

Last year we had to borrow back from the National organization a million dollars to help care for our own polio victims.

To get down to cases, it will be hard to find an individual who can stand the sudden and unexpected drain on the family finances that Polio demands.

Another thing that we must remember is that Polio does not confine itself to any age limit. It is surprising to know that Polio strikes twenty-five to thirty per cent of cases the age groups over fifteen years. There is an averages of 33,000 cases, with a horrifying total of 100,000 in the three year period from 1948 through 1950. Patient care alone for 1949 in the hospitals was thirty-one million dollars.

With luck (that is if no epidemic arises) the patient care for 1951 will reach $1,500,000. This means we must raise a million and a half dollars.

The V. I. P.'s (Volunteers in Polio) for the different districts are going all out to raise these funds There are square dances, rodeos, breakfasts, dances, flower sales and any thing at all that can and will help raise the necessary funds.

The largest ambulance in the world, the fully equipped Polio ambulance, complete with the "girl in the Iron Lung" will be on display in all the different areas to help raise these funds.

We will have the ambulance on display in our area the seventeenth of February.

To quote from one of the most dynamic speakers we have ever heard, "Don't ever let anyone deprive you of the great privilege of service," we ask you not to pass one of the March of Dimes Volunteers in Polio without putting your bit in the tin.

March of Dimes Poster Girl Guest of Honor

Four-year-old Joya Moore, 1951 March of Dimes Poster Girl, will be one of the guests of honor at the organization's fashion show in the Waldorf-Astoria Hotel in New York City on Tuesday, January 30.

Joya will be introduced to the large audience by Helen Hayes, distinguished actress who is Women's Activities Chairman of the March of Dimes, annual fund-raising appeal of the National Foundation for Infantile Paralysis. Miss Hayes also will introduce 12-year-old Larry McKenzie, the 1951 March of Dimes Poster Boy.

Joya, who lives in Detroit, Michigan, was stricken by polio in October 1949. The Wayne County Chapter of the National Foundation for Infantile Paralysis provided assistance for care, and Joya has now recovered except for weakness in her shoulder and stomach. She still is receiving treatment.

More than $94,000,000 have been used in the treatment of polio patients. March of Dimes, January 15-31.

Sudan Workers Strike Railroads

ALEXANDRIA — As railway workers throughout the Sudan began a three-day strike in protest against the anti-trade union cast of the government, the British governor-general issued an "anti-Communist" decree obviously aimed against the trade union movement and the militant organizations fighting for national liberation.

The decree bans all associations which the government may claim to be "inspired by Communist doctrine or conducting Communist propaganda," and provides for jail sentences of three years for members of such associations and seven years for leaders.

The rail workers had announced that they would go on strike on January 2 in protest against the government's repression of trade unionism, but they took immediate action with the arrest of their general secretary. They are also demanding a 75 per cent increase in wages, pointing out that wages have not been raised since the war.

New Dietary Discovery Now At Thrifty Drug Store

After years of scientific research, medical science has finally perfected a formula which contains all of the essential vitamins and minerals necessary for good health in one tiny capsule.

The new product is known as Allen's Formula 25 and its existence was revealed this week by Thrifty Drug Stores with the announcement that this product is available at all of their retail outlets.

It was pointed out by Manny Borun, vice-president of Thrifty Drug Stores, that all of these vitamins and minerals have been available in some form earlier but had never before been combined into one easy to take capsule.

A need for a diet supplement of minerals and vitamins is usually indicated by any of the following symptoms: chronic colds, nervous tension, mental exhaustion, tiredness, and appetites that run to non-energy foods. The need to relieve these symtoms was the germ that started scientists working on Allen's Formula 25.

Until the perfection of the new astounding Allen's Formula 25, scientists in attempting to discover the combination of nutritional factors that would blend ALL essential vitamins and minerals, have never achieved a perfect diet supplement. People who suffered from deficiencies resorted to various types of pills at irregular intervals in a patch-work effort to feel better.

HENRY J. KIRKSEY . . . New Manager

Charlotta Bass Steps Out Of Eagle Management

After 40 years of editing and publishing the California Eagle, Charlotta A. Bass is this week turning over the active work of publication of the oldest Negro paper west of the Rockies to Henry J. Kirksey, who will assume the duties of publisher and general manager.

Mr. Kirksey is a graduate of North Carolina College, where he majored in economics, and he has had wide experience in teaching and managing trade schools.

A veteran of World War II, he rose through the ranks from private to major in field artillery.

His wife, Mrs. Audrie M. Kirksey, and their two children came with him recently from the Middle West to establish their home in Los Angeles.

Mr. Kirksey's plans for the California Eagle include an intensive circulation drive and an increase in the staff to service the community more adequately. Announcement of new staff members will be made in the issue of Feb. 1.

Threat to Blow Up IPP Headquarters Received Thru Mail

A threat to blow up the Los Angeles County headquarters of the Independent Progressive Party was received last Saturday by Jack Berman, local director of the party. Issuing what it called a "first and last warning," the letter, written crudely in pencil, stated that "this is no joke—we mean business—I hear grenades make a big mess of things." The threat of violence was signed by "The League."

Branding the actions as typical of hoodlums and cowards, who would like to see mob rule in the United States, Berman stated his party's intentions of demanding a full investigation by police and post office officials.

"This morning, whether by coincidence or not, some person or group threw a bomb through the window of the county offices of our party in San Diego," Berman stated. "This act," he continued, "coupled with the letter we received means serious business, and cannot be dismissed as merely crackpot schemes. They have got to be pegged for what they really mean—by-products of the witch-hunts and war hysteria, that can only result in vi-

The SIDEWALK

By C.A.B.

This is a digest of the McCarran Act as a white man, Herb Porter, sees and feels that it affects the rights of all the people, but particularly the Negro people. Mr. Porter calls his article, "THE McCARRAN ATTACK ON THE NEGRO PEOPLE."

You know, there's one place the Negro is seldom discriminated against, that's where there's going to be trouble. He's always one of the first invited in then. This time is no exception. The McCarran Act, like every reactionary move in this country, carries a special threat to the Negro.

The reactionaries have tried to slip another rotten sucker-play over on the people. They've jammed through Congress the most repressive law in our history. It's a law that's aimed at you and me, at every workingman, every unionist, at every Negro and minority-group member, at every progressive and independent, at every freedom-loving American. They've tried desperately to sell the people on the "Big Red Lie" that the McCarran Act is aimed at only a few Communists. But, after soothing you with that idea, they start calling everybody a Communist or "Red" who dares fight for peace, for better wages, for Negro-white equality, for the rights of the people.

They've tried to get you to agree to letting them slap the handcuffs of a new slavery on you, by telling you that

Willie McGee May Burn

High Court Decision May Doom McGee

WASHINGTON.—For the third time, the U. S. Supreme Court has refused to review the case of Willie McGee, Mississippi Negro father of four children, who faces death for allegedly raping a middle-aged white woman in December, 1945.

The date of execution may be set within 30 days.

The Civil Rights Congress, which four times has saved McGee from death in the last five years, has announced that its attorneys will go into the federal courts immediately "to avert a Mississippi electrocution of this innocent victim of a jim-crow frame-up."

"In refusing even to consider the case of Willie McGee," CR commented, "two weeks after a similar refusal of the innocent Martinsville Seven, the Supreme Court has again put the official

FLASH

WASHINGTON, D.C.—Hot from the wires comes the news that President Truman plans to establish a war-time Fair Employment Practices Commission.

The action comes, it was reported, after six months of intensive behind-the-scenes with leading statesmen, labor leaders and representatives of national Jewish and other minority groups.

A draft for such an order, the American Jewish Press learned this week, is making the rounds at Capitol Hill and has the approval of leading statesmen. Modeled after the World War II emergency measure created by the late Franklin D. Roosevelt, Truman's emergency FEPC ruling will be stronger than FDR's 1941 Executive Order 8802.

According to information available here, the new FEPC may be placed under the government's top-ranking manpower agency and directed by Charles E. Wilsno, one-time chairman of the President's Civil Rights Committee ,and author of "To Secure These Rights."

A tip-off to the President's contemplated action came in his annual budget message to the 82nd Congress. He told the representatives that "even less than in other times can we now afford to discriminate in employment against the millions of workers in our labor force who are members of minority groups."

Mrs. E. Gordon To Shed Mate

Popular modiste Eva Gordon Dean filed suit for divorce in Superior Court here Friday in her initial effort to shed the marriage tie she entered into in 1946 with George H. Dean, Northern California businessman. Mrs. Dean charges her mate with desertion and cruelty.

Atty. Earl C. Broady prepared the complaint in his offices at Adams and Central Avenue. The couple were married after a whirlwind romance in August of 1946. They were separated in August of 1949. Before her marriage Mrs. Dean, known professionally as Eva Gordon, operated a highly successful modiste and women's style shop in Crystal Center on Avalon Blvd.

Station K Man Named Postmaster of Day

Postmaster Michael D. Fanning, president of the St. Augustine-Westview Hospital Fund named W. L. Johnson, postal carrier from Station K, as honorary postmaster, and Melvin Taylor clerk at the Terminal Annex Post Office, as honorary assistant postmaster for the day on Tuesday, January 16.

The honor was given as a reward for their efforts in selling the greatest number of tickets for the benefit dance held at the Elks Ballroom at 34th and Central Avenue on November 24. Johnson was top man and sold 680 tickets, and Taylor took second honors with 490 ticket sales. In addition to their honorary positions held for the day, Johnson received a $25 savings bond and Taylor was awarded a dishmaster. The amount of $2,348 was raised at the affair and was presented to the St. Augustine-Westview Hospital Fund.

The two prize winners started their honorary duties of the day with a press conference in Postmaster Fanning's office.

World Notorious Case May End in 'Lynching'

The Martinsville Seven, innocent Negro victims of a Virginia jimcrow frame-up, face death in the electric chair on Feb. 2 and 5. All over America and throughout the world, the case of the Martinsville Seven has become notorious as the latest example of American government's cold war against its colored citizens.

The Negro people, and millions of white Americans who are determined to rid our country of jimcrow, have learned from Scottsboro down through the Trenton Six, Willie McGee and Lt. Gilbert cases, that such legal lynchings can be stopped only by the aroused protest of the people. That is why the Civil Rights Congress, Virginia Committee to Save Martinsville Seven, and committee of national union leaders and prominent citizens decided to sponsor a delegation of people's representatives who will meet in Richmond, Va., on Tuesday, January 30, to urge Gov. John Battle to, first, stay the Martinsville Seven's death sentences, and, next, permanently free the men.

The Martinsville Seven were framed by local police, convicted by all-white juries in one-a-day assembly line trials, and meted out sentences of death never given by the courts of Virginia to white men for the same alleged offense. Twice, the higher courts of Virginia refused to reverse the decision. Twice, the U. S. Supreme Court, highest

Armed Forces Segregation Is Discussed

Last Sunday, Jan. 21, the discussion of segregation in the armed forces of the United States was discussed by James Hicks, Afro-American Newspapers; and E. W. Kenworthy, of the New York Sunday Times, over the ABC network.

It developed that in the Marine Corps, which comes under the Navy, there are "whites and Negroes fighting side by side" in Korea; the same situation is true in the Air Force; and the Navy proper is also doing a "completely democratic job."

But in the Army, according to Hicks, "the situation is bad, very bad." Some men have been integrated into the 24th, the 35th, and the 27th regiments, and a committee is working to have the entire Army made thoroughly democratic, with no segregated units.

"When you make a man feel that he is a separate part of the Army," said Hicks, "it's not something that will raise his morale or build esprit de corps. The young Negroes out there in Korea today, fighting under the banner of a segregated regiment, want just one kind of Army, a democratic Army."

Doctor Held On Narcotics Sale Charge

Arrested on a narcotic peddling charge in her medical offices at 424 Pico Blvd., Santa Monica, on Thursday, Jan. 25, Dr. Mary E. Norment, 32, said she "needed the money."

Det. Lt. Bob Guggenmos of Santa Monica police said Dr. Norment had been under surveillance ever since Police Chief H. W. Hutchinson ordered a narcotic cleanup last November.

Dt. Guggenmos and Insp. Blanchard of the State Narcotic Bureau entered the office a few minutes after an undercover man had purchased three vials of morphine solution. They said they

Ask Police Probe in S.C. GI Brutality

COLUMBIA, S. C.—Investigations of a case of severe police brutality to a Negro soldier in Saluda County, S. C., are being demanded of the Justice Department and the Department of the Army by the South Carolina State Conference of branches of the National Association for the Advancement of Colored People.

The demand followed an unmerciful beating by two policemen of Pvt. Joe B. Wright, Jr., aged 19, resulting in a fractured skull and partial paralysis in the left side. Eugene A. R. Montgomery, executive secretary of the NAACP State Conference, reported after investigation of the case that Pvt. Wright was arrested without reason, brutally beaten, and was in such "bad shape" that he had to be flown from the Station Hospital at Fort Jackson, his base, to Walter Reed Hospital in Washington.

"This is the third incident that we know to have occurred in Saluda County within the past nine months," Mr. Montgomery reported. He cited the whipping of John McKinney and his wife by a masked group, and the burning of a cross in the front yard of John L. Daniels after he had voted in the July primaries despite threats.

61 Rural Libraries Grew From a Dime

Sixty-one rural communities in South Carolina and Alabama have built libraries for Negroes, as a result of a Negro school teacher's aid to a white boy years ago. The story is told in a February Reader's Digest article condensed from The American Magazine.

Willie Lee Buffington, the white boy, now a professor at Paine College, Augusta, Ga., had little in his youth in Saluda, S. C., except a goal and a friend. The goal was education, the friend was Eury W. Simpkins, Negro teacher, who encouraged Willie and even helped him financially.

Later Simpkins got a new school building and found himself without books. Willie, "with one thin dime and a lot of faith," decided to help. He bought five two-cent stamps and wrote to five ministers asking each to send him one book. Four didn't reply; the fifth sent Willie 1000 books, and Simpkins loaded his shelves. There was an overflow, and neighbors in Saluda volunteered to build a small library. From that beginning the 61 rural libraries for Negroes have been built, and Willie has stacked each with at least 2000 books.

What is the 'League,' and whom does it represent? These questions must be everyone's concern, and must be answered."

"Our party since 1948 has offered the American people a program for peace, freedom and security," Berman concluded, "that is not only our legal right, but we intend to continue to work in behalf of these principles. We are going to demand that protection be given to all of our headquarters, to guarantee that all political parties can freely and democratically continue to exist."

In addition to informing the police department and post office officials, the Independent Progressive Party called upon civic and political leaders of Los Angeles to publicly condemn the actions that occurred in San Diego and Los Angeles, and to urge immediate investigation of the incidents.

CRC has called "on all Americans who would end the government's official policy of jim-crow to immediately wire, write, and phone Gov. Fielding L. Wright, State Capitol, Jackson, Miss., urging he grant executive clemency to Willie McGee."

The alleged rape of the woman took place while a sick child admittedly was in the same bed with the woman, and two other children and her husband were in an adjoining room.

In July, 1950, the Civil Rights Congress sent a national delegation directly to Jackson, Miss., to urge a stay of execution. Twelve hours before McGee was scheduled to die in the electric chair, CRC attorneys won a stay from Supreme Court Justice Burton in Washington.

A world-wide protest movement at the time against McGee's imminent death brought over 14,000 cables, telegrams and letters from every corner of the globe, Governor Wright revealed.

Is it not clear that the growing Klan violence in the country is being encouraged and supplemented by all branches of government on all levels?

That it is not confined to southern states is evidenced by the Trenton case. That it is not confined to state governments is evidenced by the Lt. Gilbert case, one of 37 similar Korea jimcrow frame-ups of innocent Negro soldiers.

Leon Giles in Key GOP Post

The appointment of Leon M. Giles, able and energetic Republican Party leader, to membership on an important policy-making committee of state-wide significance may be a harbinger of a progressive trend among top level party leaders to upgrade Negroes in party council deliberations. Negro GOP leaders have long clamored for admission into party policy-making meetings.

The vice presidency Giles held on the Los Angeles Republican Assembly has been taken over by another Negro, Marcus Neal.

Giles will serve January 27-28 at the state central convention meet in San Francisco.

Oil Company Pays Santa Monica Man

Not many persons can boast that they had bested the powerfully rich Standard Oil Company in a law suit for damages. But, a Santa Monica resident, Melvin R. Snowden, last week had much to crow about, plus the acquisition of a sum of $850 in the nature of damages won in a Municipal Court action.

Snowden of 1814 Eighteenth street, Santa Monica, took the facts concerning a beating he suffered at the hands of a Standard Oil Company attendant last March to the law offices of Atty. Walter L. Gordon, Jr., where it was prepared for a suit for damages.

Atty. Theodore Schaffer, junior associate in the office of Atty. Gordon presented the arguments on behalf of his client Snowden before the court and successfully stood off the defense offered by the oil company lawyers. The court awarded Snowden $850 to assuage his discomfiture.

Snowden said he is employed near the Standard station at Crenshaw and Santa Barbara Blvds., where he went to purchase fuel for his car. An argument developed between the station attendant and Snowden over the former's refusal to wipe some oil drippings off the latters car. This was followed by the attendant taking a healthy swing at Snowden.

The blow struck Snowden in the eye breaking his glasses. The attendant then invited Snowden into an alley where he promised to give him a further beating. Since the beating and prior to the trial, the attendant known only at "Paul," has committed suicide. The case marks Atty. Schaffer's second successful case he has handled since recently passing the state bar examination.

Baha'i World Faith

"The Renewal of Civilization" is the subject on which Mrs. Shirley Warde will deliver her lecture at the public meeting of Bahai' World Faith, to be held at Los Angeles Headquarters, 331 South New Hampshire, on Sunday afternoon, January 28th, at 3:30 p.m.

The Word of God is revealed today by Baha'u'llah (a Persian name meaning Glory of God). The world religion which is called the Baha'i Faith, and its purpose is none other than the creation of a world civilization. It offers to mankind a rebirth of spiritual life, together with laws and principles adequate to embody that new spirit in a universal, all-embracing World Order.

Biased Defense Chief Approved by Senate

WASHINGTON — Despite his openly expressed opinion that the Democratic party should have the right to exclude Negroes, former Governor Millard F. Caldwell, of Florida, this week won the approval of the Senate for confirmation as Director of Civilian Defense.

With most of the liberals absent, only 15 senators were present on January 16 to vote unanimous approval following a hearing on the preceding day at which Clarence Mitchell, director of the NAACP Washington Bureau, opposed Mr. Caldwell's confirmation on the grounds of his anti-Negro record as governor of Florida.

In a documented statement before the committee, Mr. Mitchell charged that the appointee had attacked a Supreme Court decision invalidating the "white primary" in the Texas case of 1944. He quoted the former governor as saying that the decision should be resisted with "well directed energy." He further charged that Gov. Caldwell had failed to take action against the lynchers of Howard Jesse Payne in 1945 or against a sheriff who was unable to account for the disappearance of a Negro veteran while in his custody.

At the hearing, Caldwell defiantly re-affirmed his belief that a political party "should have the right to select (its) membership," defended his record, and asserted his adherence to the provincial southern custom of withholding courtesy titles from Negroes of whatever station.

Present at the hearing were: Senators Richard B. Russell, chairman, (D. Ga.); John C. Stennis (D. Miss.); Wayne Morse (R. Ore.); William F. Knowland, (R. Calif.); Estes Kefauver (D. Tenn.); and Ralph Flanders, (R. Vt.).

Plans for Concert Tour Announced

Hair trigger actioned landlords eager to oust their low paying and slow paying tenants in order to get in on the rent skyrocketing scheme of things in vogue since rent decontrol, had better control their over zealous desires, or perhaps they might find themselves on the end of paying heavy damages to evicted tenants.

Last Thursday Mr. and Mrs. Edward Grubbs, Sr., landlords to tenant Knealand G. Stone, learned this bitter lesson when hailed into court. Stone represented by Atty. H. Leonard Richardson had the Grubbs' hailed into court where he sought damages for forcible entry and claim and delivery for articles of furniture and personal effects held by his landlords.

It appears, Mrs. Grubbs ordered Stone's house invaded and his effects held for non-payment of rent. It developed, however, that Stone had mailed the rent to Mrs. Grubbs, who in turn had turned it over to his son. Stone wants the court to award him $1,000 in damages, $300 for personal property, $50.00 and cost of court. Judge Gallegher has the amount he will award under advisement.

Marshall Probes Bias Charges In Japan

NEW YORK—Thurgood Marshall, special counsel for the National Association for the Advancement of Colored People, began top-level conferences last week on the subject of the treatment of Negro servicmen in Japan and Korea.

Mr. Marshall arrived in Japan on January 14, and spent the first few days after his arrival checking racial problems in the Tokyo area. After preliminary investigations, he began discussing his findings with General of the Army Douglas MacArthur, the Inspector General, and other top officials of the Far East Command.

Reports of alleged discrimination against Negro GIs continued to come into the NAACP national office after Mr. Marshall's departure. The total number of court-martial cases in which the Association is intervening at the request of officers and enlisted men convicted in Korea has risen to thirty-nine.

Tenants Win Rent Suit from Landlord

Betty Martina, head of the Betty Martina Studio of Dance and Allied Theatrical Arts, 10302 Graham Avenue at 103rd Street, announced plans for an early summer children's concert tour. The concerts are to be staged in nearby towns and will be sponsored by local art groups. The tours will be so arranged in order not to keep the children away from home overnight.

Miss Martina sai dshe will select about a dozen or more of the best dance talent in her classes, with several more outstanding pupils to fulfill the solo roles in the routines she is fashioning for the concerts. In addition to the dancers, she will spotlight several children with promising voices.

The school is ready to accomodate older persons who seek to follow an immediate professional career in any of the theatrical arts. Refresher courses in the art of classic, rhythm, exotic, Afro-Cubano, tap, acrobatic and native dancing can be arranged at the studio.

Bass, U.S. delegate to the meeting of the committee of the Defenders of the Peace that planned that Congress, were the principal speakers at a meeting held last Saturday at the St. John's Methodist Church, Watts.

Both speakers stressed the need for stronger and more vigorous fighting on the home front to secure the rights of real citizens of America. Mrs. Bass spoke especially on the need for better housing conditions.

Rev. Hicks, pastor of the church, welcomed the participants to the meeting.

4 Years in Prison For Refusing to Serve in US Army

Donald Ernes Koch, age 25, S. New Hampshire avenue, was sentenced to four years' imprisonment for his refusal to be inducted into the United States armed services.

In a personal statement submitted to the Court, Mr. Koch said in part:

"Why am I refusing to be inducted into the armed forces of our country at this time?

"It is my conviction that war in itself is totally reprehensible, negating every facet of human culture beyond a blind, brute self-preservation.

"On this basis, then, if warfare is to have any validity for a human being aspiring to moral integrity and high character, certainly these minimum conditions must be met before willingly accepting military service.

"a. We must be absolutely and unquestionably fighting for freedom, justice and humanity, without ulterior motives of personal or national gain in any form.

"b. We must genuinely, with complete sincerity, have explored every alternative peaceful course of action—and we must be continuing to hold all doors open.

"c. We must be under real attack.

"At this time I do not believe these minimum conditions have been met by my country. The war into which I am being drafted is taking place 6,000 miles away from continental America, on foreign soil, and was initiated without Congressional debate and subsequent formal declaration. As such, it violates the fundamental democratic process for which this nation stands. This is a civil war in Korea in which we have forcefully intervened on the side of the South, without having heard one word of testimony from the North—testimony which was not only offered, but earnestly solicted for hearing before the United Nations in advance of the outbreak of hostilities. The vulnerable and highly suspect position of the United States in the eyes of the Asian peoples as a result of this intervention is now terribly enhanced by the consistent refusal of my country's representatives to accept the invitations to peaceful mediation of the conflict advanced by the representatives of India through the United Nations Assembly.

"As a patriotic American, with a strong belief in the democratic principles and ideals it stands for, my duty to my country is meaningless unless it means to accept social responsibility, to search unceasingly for truth, and then to do everything I can toward maintaining in American affairs a high moral conduct compatible with these ideals.

Therefore, I must now oppose military service or stand guilty before my own conscience of wilfully betraying my religious convictions, my belief in democracy, and thus my fellow-Americans.

Red Cross Fund Drive

Returned to a war-time basis, the Los Angeles Red Cross has set its 1951 fund raising goal at $3,600,000—representing a 76 per cent increase over the amount successfully raised here last year—Earle M. Jorgensen, volunteer general chairman of the fund drive here, so annonunced at a joint meeting of campaign to leadership and members of the executive committee for the local chapter.

The campaign chieftain underscored the following Red Cross programs, greatly expanded because of the Korea crisis and the country's civil defense preparedness effort, as the top reasons for the boost in the 1951 campaign marks:

1. Operation of the nation's No. 1 blood service center.

2. All-out participation in the civil defense preparedness program.

3. Training the civilian population in "self help" techniques through first aid and home nursing classes.

4. Service to the armed forces.

All these services must be financed by Red Cross through contributions given during the annual fund raising time.

Today in Los Angeles Red Cross has nearly 100 first aid classes in session simultaneously. Educational classes in home care of the sick and injured are operating on a day and night schedule throughout the territory governed by the local chapter.

The SIDEWALK

(Continued from Page 1)

the handcuffs are intended for somebody else, and they're just going to try them on you to see if they'll work. They'll work all right, once they're on. But, you'll never get them off, because these fascists are going to throw away the key. If you let them deprive any of your fellow-Americans of their rights, you will have let them take away your rights, too. How would you ever be able to speak up again if you let them get away with a law preventing everybody from speaking up?

This law is loaded with buckshot. It might hit a few Communists, but it would cripple the rest of the people at the same time. The McCarran Law isn't aimed at just the Communists—it's aimed at all the peoples.

The McCarran Act attacks the Bill of Rights in a vicious and determined attempt to annihilate it. The Bill of Rights has always been the legal foundation on which to build the fight for the people's rights. Even though the Negro has never gotten fair treatment in this country, and the Bill of Rights has never been fully lived up to, even though many attempts have been made at lynching Negro rights with brutally discriminatory laws—there has always been the steadfast rock of the Constitution to smash these malignant laws against. Even though we don't always win, we know we CAN win! But, if we let the McCarran Law obliterate the Bill of Rights, one of our greatest legal weapons will be destroyed.

The second threat in this new type of Fugitive Slave Law is the damage it would do to the Negro's allies and the defenders of his rights. One of the main aims of the McCarran Act, is to choke off the defense of civil rights, one of the greatest and most basic concerns of the Negro people, because they have always felt these attacks against civil rights the first and the worst.

The Act tries to choke off these defense forces legally. It tries to make a crime of defending yourself. Many of the organizations that they allege are "subversive" or Communist are fighting for Negro and labor rights. But you are called a "subversive" or "Red" if you fight for Negro rights, too, even though it's in self-defense. This is because you would then be working for some of the same things these other persecuted groups work for.

Not only does it try to hurt these defenses by direct legal action, but also by psychological action i nattempting to scare them, and to smear them if they won't be scared. It tries to enforce a new kind of Jim Crow, a kind that says anything that fights back is tainted with reason. Sure, it's not true, any more than the Jim Crow lies about Negroes are true. But, if we don't fight back hard and quick, this lie technique will work here just as it does in Jim Crow.

These attacks not only try to choke off the organizations, but they try to scare off the lawyers, the strong contributors, and the supporters by slinging mud at anybody who lines up on the side of equality and justice.

The McCarran Act tries to take away every weapon of defense that the Negro, the Jew, the Mexican-American, the Nisei, every minority-group member, has in the struggle against persecution, but it makes his enemies stronger and more powerful.

The third method of attack on the Negro by this act is in its unionbusting attempt. And, of course, the unions they strike at first are the progressive unions. These are, naturally, the unions that have done the most to secure for their members from minority groups equality of job opportunity and conditions. An example of this is the "screening" of the maritime unions' personnel. Here Negro workers were lopped off the roster regardless of their political leanings. The fact of being a Negro is enough to convince the brass of "ba dsecurity risk." This has happened already in the Marine Cooks and Stewards, and in the Marine radio operators' union.

It's been a tough fight to achieve Negro-white unity and to win allies to the cause of equality and to get some help from them. This act tries to take these allies and their unity away. It tries to do this because of the fear of the fascist-minded ones of real Negro-white unity on a mass scale. That's because then the Negro won't be a minority, nor will the Jew, or the Mexican-American, or Filipino, or Nisei, or any minority person. Then the minorities banded together will be a majority, and their fight for equal rights for all of the people will be won.

A fifth vicious weapon the McCarran Act puts in the hands of the anti-minority, anti-progressive reactionaries, is the encouragement and positive help it gives to such hate groups as the Ku Klux Klan. By their attempted slaughter of progressive and civil rights defense organizations the act tries to remove the antidote to the poisonous disease of hate the Klan-type monsters are spreading around the country. Without the influence of the progressives to check them, there would be nothing to stop these fascist groups from having their way. We have seen this already in renewed anti-Negro police brutality, and in the actions of our Federal Government itself... They never could have pulled a raw deal like the Lt. Gilbert case during World War II, and they would have been afraid to try.

The main over-all purpose of the McCarran Act is to stifle protest against war. War, again, is especially dangerous for the Negro people. In war, the reactionaries have an easier chance to obliterate the rights of minorities with the excuse of national danger. When you fight back, they can scream that you're a traitor. If you want your rights, it's called desertion under fire, and they're ready to shoot you. Well, the Negroes, the other minorities, and the progressives have fought too hard for every step of progress to be willing to have it thrown into the ashcan for an artificially-concocted profit-minded war that will benefit the few, but harm the many. And the Negro will be in the vanguard of those to be harmed, as usual. They want the Negro to die forcing American democracy on others when we don't even have it her at home.

The McCarran Act is no new drive against Negroes and progressives, but it's a personification and an intensification of all the old drives rolled into one. To defeat the McCarran Act would one of the greatest victories since the Emancipation Proclamation.

With real unity of all freedom-loving Americans, Negro and white, Jewish and Christian, of every political philosophy, we can all get together and beat out this fire of fascism—NOW!

Travel Bureau Opened

A new enterprise was launched in Norfolk, Va., recently, with the opening of Mason's Foreign Study and Travel Bureau under the direction of Mrs. Vivian Carter Mason, nationally and internationally known club woman and lecturer.

Non-Citizen Released

Ernesto Mangaoang, a leader of the Cannery Workers Union, Local 7C, held in King County Jail, Seattle, Washington, since October 22, was ordered released on January 4 by Judge Bowen, of Seattle. Mr. Mangaoang was one of the 48 rearrested in deportation proceedings during the week of October 22 and has been held under the most inhuman conditions in the County Jail.

The other non-citizens still being held are Harry Carlisle, Frank Carlson, David Hyun and Miriam Stevenson, in Los Angeles; Knut Heikkinen, in Duluth, Minnesota; and John Zydok, in Detroit. Appeals have been filed in all those cases.

Say You Saw It in the EAGLE

EUROPE AS I SAW IT

The following is the eleventh installment of a series of articles to be printed by THE CALIFORNIA EAGLE, describing the experiences, impressions, and first-hand knowledge gained by Charlotta Bass on a two-months' tour of three European countries—France, Czechoslovakia, and Russia.

Last August when I was delegated to attend the committee of the World Congress of the Defenders of Peace at Prague, Czechoslovakia, treading on foreign soil for the first time in itself was a thrill. But there were many even more exciting experiences in store for me.

In an earlier chapter I have mentioned that almost immediately upon my arrival at the Youth Conference, meeting in its second session also at Prague, I was hailed by a Methodist minister who had done denominational service in Pasadena, Calif., and remembered having met me at a church service in the California city.

But one of the things I shall never forget was, directly in front of the visitors' and observers' gallery where I had been invited to sit, was a table with a seating capacity for about 14 or 16 students. These were Africans from different sections of the African continent. Some were in native attire. Others in English and American fashion.

They appeared to be very serious. Most of them were taking notes on what was being said by the various speakers.

I observed that there was a friendly relationship among these African students and the other students, especially those from Costa Rica, Czechoslovakia, Korea, the Philippines, Iran, and that, as I thought, the little new country of Viet Nam. Notes were passed from one table to another as well as the exchange of significant glances.

I mentioned Viet Nam as one of those countries I had heard little about. I don't believe it was in the geography book when I studied geography.

But at this Youth Congress I soon learned that Viet Nam was to play an important role in the rapidly developing world war drama. So I started to find out something about the history of Viet Nam. And this is what I discovered.

A LITTLE HISTORY OF VIET NAM

Viet Nam is a little country and until recently was practically unknown. But the world exploiters of the people's rights and goods, learned that Viet Nam like India and Africa, had much that they wanted and could use to enrich their coffers.

Viet Nam was used for the first time 183 years before the coming of Christ. It includes three countries: Tongking (north), (Annam (center), and Cochinchina (south).

GEOGRAPHICALLY

Viet Nam forms the eastern part of the Indochinese peninsula, extending to the south of Asia between a chain of mountains bathed by the Chinese Sea, ending at the mouth of the Mekong river, the longest one in the peninsula—2,025 miles.

Viet Nam, say the historians, though it appears to be a new country, has behind it 3000 years of glorious history and brilliant civilization. For 1000 years it fought for its independence. And it seems that it must fight again.

Like Korea, Indonesia, and most of Africa, as was brought to light by the youth from some 80 or more nations at the Prague conference, Viet Nam is fighting again, or rather is continuing the age-long struggle for complete freedom and the dignity of human life in its country. These countries would develop their own resources, retain their culture, respect their boundaries and the boundaries of the surrounding nations, if let alone to decide their own destiny.

Not only was the present situation in Korea and Viet Nam opened wide for world observation, in order that the people rather than the politicians in Great Britain and the United States may decide who are the aggressors in Korea and Viet Nam, but Africa, too, came in for its treatment for relief from colonial oppression.

It was brought out that an American correspondent gave a snap-shot of public opinion in the **Economist**, November 28, 1942, in which he stated, among other things, that the lack of enthusiasm for Anglo-American post-war collaboration when sought from the British side, is due to the fact that it is a veiled attempt to perpetuate the supremacy of the white race to maintain imperialism and to defeat the subject nation's passionate desire for freedom.

What the Peace Committee and the World Youth Congress hoped to achieve at the Prague meetings, was overwhelming support for the Stockholm Appeal for peace, and to map plans for the Sheffield meeting, October 19. These plans carried. But American and British imperialist protests against a peace meeting where it was so greatly needed, reached fever heat at the time, and the Sheffield meeting had to move on to Poland.

Neither the desire nor the determination to win a lasting freedom from colonial slavery in the so-called British African colonies or in the Dutch and other slave pirate gold-digger states has not lessened one whit.

As the delegates to the Youth Congress reported on signatures secured in their different countries for the Stockholm Peace Appeal, French Africa reported that information furnished by the African Democratic movement, emphasized two points. The first that illiteracy is often so high that a large percentage of the population sign by putting their finger prints on the petition, and secondly, that in hundreds of villages or tribal groups, the appeal was approved and adopted at village meetings or tribal gatherings. The minutes of such meetings were presented to the Congress.

Mr. Mory Keita from the Ivory Coast, signed the Appeal as counselor.

Other representatives from the other countries, especially the Dark and Brown republics, impressed me they were imbued with a deep but unemotional determination to win their freedom and liberty from the white exploiters who had come to their countries to ravage their mines, take over their lands, and make them slaves. These countries were: Korea, Costa Rica, Cuba, India, Indonesia, French Morocco and the Philippines.

(This is the last installment of Mrs. Bass's articles on "Europe As I Saw It," to be published in **The California Eagle.** The readers of the **Eagle,** however, and the friends of Mrs. Bass have insisted that they be given the story in its entirety. Yielding to these demands, Mrs. Bass will publish in the near future her observations on Europe in a pamphlet form. The pamphlets will be distributed locally and nationally, and wherever anyone interested wishes to read them).

News From Europe and Other Countries

"EISENHOWER, GO HOME!"

PARIS—In response to a call for a patriotic strike to protest against the United States-imposed German rearmament and the placing of French armed forces under command of American Gen. Dwight D. Eisenhower, large crowds of workers' delegations from numerous factories and public services in the Paris region turned the fashionable Champs Elysees district into their own.

Street Crowded

Soon after midday the workers' delegations began arriving and continued to increase until the broad streets and avenues leading towards the Champs Elysees were crowded with delegations who strongly protested the police barrages banning Frenchmen from their own streets to please a foreign general. For several hours the crowds chanted "France for the French!," "Eisenhower go home!" "We want peace!"

Pushed and driven from the broad avenues by the police, the crowds managed to infiltrate through side streets and reformed towards L'Arc de Triomphe. For the submerged police cordons, it was like trying to catch quicksilver. Clashes began to occur when workers' delegates, standing on benches, cafe chairs, or hoisted on their comrades' shoulders, addressed the crowds, pointing out the danger of the American war plans for the French people who have been ruined and bled white by two world wars.

More than 273 delegates, particularly from the Renault Motor Works, were arrested and pushed into police vans. They were released at 9 o'clock the next night.

NEGRO PRIEST HEADS DIXIE COMMITTEE

NEW ORLEANS — Very Rev. Clarence Howard, S.V.D., Negro assistant provincial of the Society of the Divine Word, has been appointed vice-chairman of the Race Relations Department of the Catholic Committee of the South.

Father Howard was one of the leaders of a workshop session at the January 22-24 CCS convention in Columbia, S. C.

FARMER GROSSES $9,000

LILLIE, La. — The model balanced former of Union Parish, Louisiana, is 55-year-old Cliff Jones of Lillie, says R. J. Courtney assistant state extension agent of Louisiana, in a report last week to the U. S. Department of Agriculture.

By fitting cotton production into a diversified farming program, says the report, Mr. and Mrs. Jones have worked their way up from share-cropping to ownership of a 180-acre farm.

JAPANESE C. P. GROWS

TOKYO—"The wave of purges of progressives in Japanese industry has not affected the strength of the Japanese Communist Party" stated the chairman of the provincial executive of the party, Etsuro Shiino. "A large number of Communists are being born in workshops where no Communists are supposed to exist," he added.

POLICE ATTACK WAR VETS

ROME — Police brutally attacked a group of 200 war veterans and war widows who were about to place floral wreaths on the tomb of the Unknown Soldier in Giazza Venezia. The "crime" of these citizens was that the wreaths bore inscriptions calling for peace.

W. GERMAN YOUTH PREPARE FOR WORLD YOUTH PEACE FESTIVAL

BERLIN—The Central Bureau of the Free German Youth in Western Germany has called upon all its members to immediately start preparations for the Third World Youth Peace Festival to be held in Berlin next summer. Together with representatives of different youth organizations, festival preparatory committees are to be formed in every town and factory, in every school and university. The National Council of the National Front of Democratic Germany has declared its wholehearted support of the decision to hold the festival in Berlin.

MALAYAN STUDENTS FIGHT

SINGAPORE — Following its widespread arrests of students in Chinese schools in Malaya, the British colonialist government has enacted a new law which empowers the director of education to declare any school "unlawful" and order it to close down. Already 18 such schools have been closed as a result of which 3,750 children have been flung into the streets.

This law, and the decision to suppress the Chinese language as a medium for teaching, are vigorously condemned in a protest statement of the student section of the Malayan People's Liberation League here. The students call for "unity of action between Chinese-speaking and non-Chinese-speaking sections of the population" to defeat the British imperialists' efforts to impose thought-control over all students.

STALIN HONORED

RIO DE JANEIRO — In honor o fthe 71st birthday of Joseph Htalin, Brazilian democrats in the borough of Tijuca in Rio de Janeiro, erected a huge sign bearing Stalin's name on a hill top in the city. The letters were made of combustible material and burned throughout the night of December 21, arousing great enthusiasm among the people, who could see it from a considerable distance.

SOUTH AFRICAN FASCISTS

LONDON — Banners declaring "South Africa is a Black Man's Prison" were carried by colored and white demonstrators outside South Africa House, seat of the South African government's representative in Britain. The London section of the South African Indian Congress organized the demonstration in protest against South Africa's racist policy.

The demonstrators planned to present a petition to Dr. Donges protesting against the inhuman white dictatorship in South Africa, and demanding that in South Africa, too, the principles of the United Nations should be applied.

FRENCH DESPERATE IN VIET NAM

BANGKOK — In spite of current successes claimed by the French imperialists in the fighting around Hanoi, capital of North Viet Nam, French officers heer for talks on the policing of the Siam-Indochina border say that the new French commander-in-chief in Indochina faces insoluble problems.

On the contrary, the national liberation forces have grown and achieved great victories in North Viet Nam (Tonkin).

WEST GERMANS RESISTING REMILITARIZATION

BERLIN—The national resistance movement in West Germany—spurred by the growing ruthlessness and brutality of the imperialist occupation armies—is taking more active forms.

In the South Baden town of Schopfheim in the French zone, one the initiative of the town council, mass meetings were organized by political parties, churches, trade unions and youth organizations, in protest against remilitarization. Although only 60 percent of the voters participated in the recent district elections, 90 percent of the population took part in the present polling, rejecting remilitarization by an 88 percent majority.

Their example was followed in many towns of West Germany. In Luebeck, tenants ordered to evacuate flats refused to obey, raised the black flag on buildings, and with the help of picketing workers fought back the police. In the town of Verden the inhabitants of six houses likewise refused to leave their flats, while the town and district councils refused to assist the British military authorities in ejecting them.

In the Rhineland districts of Erkenlenz, Geilekirchen and Heinsberg, where seven villages were evacuated recently and their fields turned into airdromes and parade grounds, the peasants of Gillrath, Straten, Nacherrath and Riesohlen, threatened by the same fate, expressed the determination not to leave their villages even when faced by military action.

"Our fields are for the benefit of men and not of American war machines," they wrote in a letter of protest to Minister of Interior Lehr.

At Achim, British military experts, starting preparatory work for the building of parade grounds and barracks, were driven out by the indignant population.

The sentiment prevailing now in Western Germany admits of only one solution—to get Adenauer to start negotiations with Grotewohl immediately for the setting up of an All-German Constitutional Council which would put an end to the wanton deeds of the imperialist occupants.

YEMEN TO RECEIVE LOAN

ALEXANDRIA—Full us of his trip to the United Nations has been made by the Yemen deputy foreign minister, Mohamed Al Amri, to conclude agreements for tightening the bonds between his country and the Anglo-American sphere.

The discussions by Mohamid Al Amri at the British Foreign Office concerned the "consolidation" of relations with Britain. The British government has been claiming territory which is also claimed by the Yemen, and in 1949 British aircraft based on Aden bombed Yemenite villages.

WORLD PEACE COUNCIL

GENEVA — The World Peace Council will meet between February 21 and 24 to discuss the fulfillment of the resolutions of the Second World Peace Congress and the peaceful settlement of German and Japanese problems, it was announced here after a two-day session of the council's presidium.

The council was set up last November at the World Peace Congress in Warsaw and it includes prominent personalities from all countries.

CIO GOES TO EUROPE

NEW YORK—The Congress of Industrial Organizations (CIO) is sending three rightwing labor "ambassadors" to Europe to try and sell the aggressive policies of Wall Street to European workers.

One of the so-called ambassadors will be Walter Reuther, president of the once-militant United Automobile Workers' Union and labor favorite of the United States State Department.

PROGRESSIVE CUBANS WIN VICTORIES

HAVANNA — The progressive trade union movement of Cuba has recently achieved significant victories against the pro-imperialist "labor" movement controlled by the government. Some time ago the leaders of this reactionary movement ordered its affiliated dock workers not to load sugar onto the ship "Hellenic" destined for the Peoples' Republic of China. Stevedores of the port of Cayo Juan Claro held a meeting and decided that if the "Hellenic" called at that port they "would load it because it was taking sugar to the heroic and liberated Chinese people."

Afterwards stevedores of Cayo Juan Claro refused to load a ship which was trying to get away from a strike in the port of Caibarien. Later on, elections took place in the Deckworkers' Union of Cayo Juan Claro and the progressive ticket defeated the government-controlled candidates by 100 to 22 votes.

PROFITS FROM REARMAMENT

PARIS — The world's leading monopolists are happily anticipating huge profits from the West's rearmament program, according to views expressed at a press conference at the close of the recent two-day session of the International Chamber of Commerce in Paris.

Philip D. Reed, one of the spokesmen for the conference, is president and chairman of the board of the General Electric Company in Paris—(part of the Morgan interests and one of the world's biggest monopolies.)

Leading business men at the conference expressed the hope that the rearmament program "might be an impetus toward greater productivity," which in plain speaking means a greater exploitation of workers and hence greater profits.

IRENE JOLIOT-CURIE

PARIS — Under increasing American pressure to heighten war preparations in France and speed up the persecution of the peace fighters, Nobel prize winner Irene Joliot-Curie, daughter of the renowned discoverers of radium, has been excluded by the government of France from the new French Atomic Energy Commission. Mme. Joliot-Curie was one of the five members of the old atomic energy commission.

Her exclusion follows the dismissal of her husband, the leading peace fighter Prof. Frederic Joliot-Curie, from his post as High Commissioner for Atomic Energy, on American orders last spring.

It is reported here that the French government is planning further repressive measures against all supporters of the peaceful application of atomic energy working on atomic research.

DENMARK FACES ECONOMIC DISASTER

After the first few days of jubilation in the Danish reactionary press over the so-called "strength in unity," allegedly achieved by the Brussels meeting of the Atlantic Powers, a much more sober view is now prevailing. Papers of various shades, but belonging to or supporting the present Conservative-Liberal coalition government, are beginning to ask the painful question: How is Denmark going to pay for the consequences of the Brussels decisions — the extended military service, the accelerated pace of rearmament, the conversion of still more industries from peace to war production?

Conservative papers like **Aftenbladet** are saying quite frankly that "it is no secret that Danish political circles find it impossible to understand how the money is to be obtained" for increased rearmament. In actual fact, this paper bluntly admits "there are no resources whatsoever from which to obtain it."

TRIAL OF THREE BISHOPS

PRAGUE — The trial of three former church heads in Slovakia who actively supported Hitler in setting up his puppet so-called Slovak State in March, 1939, and who used their positions as religious leaders to carry out the Hitlerite policies in Slovakia, opened in the State Court at Bratislava.

The indictment charges the three former bishops with participating in and helping in every way the criminal regime of the priest Josef Tiso, set up by the Nazis as head of their puppet so-called Slovak State who was executed after the liberation.

As the supporters of Tiso, all the accused are held responsible for the crimes against the Slovak people committed by the fascists, including the infamous Tiso concentration camps where 3,000 Slovakians, including priests, were held without trial.

BRATISLAVA — The Catholic Bishop of Spis admitted before the State Court in Bratislava that when he was vice-chairman of the State Council of Hitler's puppet Slovak state, he knew of the extermination of Jews in concentration camps and helped deport Jewish families to their death.

NEW YORK—Twenty painters and sculptors were awarded prizes totaling $2,000 on Tuesday, aJnuary 16, for their entries in the first annual "Art of Democratic Living" show held at Freedom House, 20 W. 40th St., New York City. The Hon. Mrs. Edith S. Sampson, alternate representative in the United States delegation to the UN was among those present.

U. S. LEBANON SECRET TREATY

DAMASCUS—The United States is stubbornly pressing the Lebanon Government to sign a secret supplement to the draft of the Lebanon-American treaty on "friendship, trade and naval transport," Telepress learns from well-informed French sources in the Middle East.

Under the stipulations of the American draft, Lebanon would be obliged to open its territory for the free transit of the "friendly party's troops," and to grant this "friendly party" unlimited rights in the use of port installations, airfields, railways and all means of communication. Lebanese troops could also be sent beyond the country's frontiers "if necessary."

The Americans particularly insist that they should be allowed to maintain American troops in Lebanon for the protection of stores and installations owned by American corporations in the Beirut region and in the Sidon port, and of the Trans-Arabian oil pipe-line which ends at Sidon.

APPEAL TO GERMANS

BERLIN—An "apeal agains rearmament and for peace" addressed to all Germans whether of the East or West, to their leaders, and to the occupying powers, was issued in Hanover.

The appeal points out that "German rearmament" does not protect against war but "provokes it" and calls on the occupying powers to make the disarmament of Germany the base of their own disarmament and of peace. It declares that a conference of the Big Four would mean the "last chance for Germany to reach unification without rearmament and without war."

The appeal will be distributed throughout Germany in petition form.

U. S. CONTROL OF LIBERIA

NEW YORK—The decision of the United States to send a military mission to Liberia demonstrated President Truman's basic agreement with Republican leader Senator Robert A. Taft's demand in his foreign policy speech that the United States should maintain land troops in Africa "where we hold valuable land bases."

While Taft hid his cynical motives behind his "peace" demagogy, Truman a few days later openly blurted out the real interest of Washington and Wall Street in Africa. America must maintain control over Asia and Africa in order not to "lose the sources of many of our most vital raw materials, including uranium which is the basis of our atomic power," the President declared.

ARABIAN OIL PIPELINE

ALEXANDERIA — The United States has addressed a note to the Lebanese government demanding bases for the "protection of the trans-Arabian pipeline," the Lebanese paper, An-Nidal, reports.

The line, which runs from Saudi-Arabia and terminates in Lebanon, is the huge new American pipeline whose construction was concluded recently and through which oil began to flow last month.

WITZIESHOCK VICTIMS WITHOUT BAIL

CAPE TOWN — Following an armed police attack on the Witzieshock reserve on November 27, in which 17 Africans were slaughtered by the stormtrooper police of South Africa's fascist government, 108 Africans have been held in jail for over a month and denied bail, although bail is allowable on the charge on which they are held—"public violence."

Defense Counsel is applying to Supreme Court for bail for the 108 prisoners. He announced that the dependents of those killed and wounded by the police would sue the Minister of Justice and the police force chief in a civil action for damages.

The 108 victims of Premier D. F. Malan's fascist terroristic policy against the African people have been gravely hampered in their defense by the fact that 13 of the 14 African leaders in the territory have been jailed for three months without trial by a government proclamation.

The people of Witzieshock reserve are still living through days of terror and uncertainly as police patrols continue to harass them, and most of them have relatives dead, wounded, or in jail following the November police raid.

PEKING NEW YEAR'S CELEBRATIONS

PEKING (NCNA)—The second New Year's Day after the founding of the People's Republic of China was widely celebrated in the capital. Red archways and lanterns decorated the streets and doorways of many institutions and organizations. Gay holiday makers with their beautifully-dressed children thronged the streets, department and grocery stores.

During the last few days of the old year, the stores did three to five times their normal business. Clothes, cakes, candies and cigarettes were in great demand. To meet the New Year's sale, goods poured in from Shanghai, Tientsin and other industrial cities.

Workers held meetings and performed yangke dances in the Palaces of Culture and factories. They reveiwed their successes of 1950 at these meetings and they pledged even great successes in production in the New Year.

The "Service to the Youth Department of the China New Democratic Youth League" was jammed with students and young people who enjoyed themselves by displaying their skill in shooting paper-made Truman, MacArthur, and other warmongers. The photograph exhibitions showing the growing strength of the Chinese People's Navy and Air Forces and the fighting Korean people also drew huge crowds of spectators. Many spectators carefully studied a big map showing the offensive of the Korean People's Army and the Chinese volunteers.

Fine arts workers in the capital specially designed more than 30 varieties of New Year pictures which portray the happy life of the people and new villages after liberation, the heroism of model workers and the fight against American aggression in China by the people and the heroic Chinese people's volunteers. Innumerable copies of these pictures have been sold and several millions more are being printed. The biggest orders have come from the villages.

"The Liberated China," a color film jointly produced by Chinese and Soviet film workers, is being shown in the leading cinema houses together with a newsreel on the victory of the Chinese volunteers in the West front in Korea. They are shown to packed houses every day.

Peasants in the suburbs also celebrated the New Year. They sent cartloads of food, vegetables, peanuts and fruits into the city in exchange for clothes, sugar and other goods they need. Numerous consumers' and supply and villages have placed big orders with the city department stores since the rural population who have sold their good harvest are demanding more and more industrial goods.

A Report on the Legislature

By Assemblyman
Augustus F. Hawkins

The California State Legislature recessed on Tuesday, January 23, to reconvene March 12, with the two major controversies over the continuation of the Child Care Centers and the Wage Increases for State Employees temporarily settled. However, battles looming over these two problems, as well as several other highly controversial questions, will face the legislators when they take their seats again in March. The recess will provide a much needed period for the lawmakers to discuss the various legislative proposals with the people.

Child Care Centers Temporarily Continued. Among emergency action already taken was the continuation of the Child Care Centers until June, 1951. Bills to extend this aid to the children of working parents must be fought out in March if this badly needed program is to continue in the future. Fifteen of the Centers are located in our East Side community and almost 14,000 children are involved throughout the State in htis bitter legislative controversy.

State Employees Wage Increase Passed by Assembly. As the Legislature recessed, a bill granting a 10% wage increase to State employees had been passed by the Assembly and was awaiting action by the Senate and the Governor. What their action would be on this particular bill could not be surmised, but it seemed reasonably certain that a pay raise of at least 5% and possibly the entire 10, would be granted State employees in keeping with existing law which states that employees of the State shall have wages equal to that received for similar occupations in private industry.

Social Welfare Still a Big Problem. While war legislation such as civilian deefnse will receive top consideration and most probably additional money at this Session of the Legislature, two major battles are expected over bills to provide aid to needy disabled persons and to increase old age pensions. Although a joint committee has already opposed liberalization of social welfare programs at this time, the people will have an opportunity to vote on the McLain pension program at the next general State-wide election.

Racial Discrimination To Be Fought. Another battle is certain over the passage of Assembly Bill 2251, Rumford and others, prohibiting discrimination in employment, and Assembly Bill 25, A. F. Hawkins, outlawing discrimination in automobile insurance. Governor Warren, in Assembly Bill 1902, by Maloney, has recommended the creation of a commission to investigate these problems.

California to Get New Political Districts. Also still pending when the lawmakers return in March is the redistricting of Assembly and Congressional districts. Public meetings are scheduled by the committee in February in Los Angeles, San Francisco, San Diego and elsewhere.

• • •

It was generally believed that some liberalization could be expected in unemployment insurance of $5.00 per week and also that no new taxes would be voted. Instead it was surmised that there would be slight increases in the present tax structure.

But paramount in the problems facing the Legislature is the high cost of living which was described this week by Assemblyman Hawkins as "the greatest threat to our Democracy. While old age pensions," he said, "have gone up $35 since 1940, the increased cost of living has taken all but $3 of this amount. Again, wages have increased about 60% but wage earners today are actually worse off, for the dollar will purchase less than 57c of goods and services. The result of this condition is malnutrition, disease, crime, slums, and social unrest. It is this problem—the high cost of living—which is the Number One State problem facing this Legislature and which threatens our Democracy from within.

Statement of Principles of the American Peace Crusade

Our country and all humanity stand now at a critical turning point in history. After five years of promises of peace, we are heading toward war; and yet the world cries out that it wishes peace; the supposed "enemies" we fear insist that they wish negotiation; our own people have suddenly awakened to the very great danger, and are demanding as never before some way to peace.

It is time to head this universal call. It is high time for Americans to lay aside whatever differences they have of philosophy, religion and social and political convictions for the supreme objective of saving America from the threatened catastrophe of wars with the peoples of Europe and Asia. We are convinced that there is still time. We are convinced that the American people, Negro and white, are more prepared today than ever to unite and act for peace.

The principles on which we take our stand are simple and conform to the most urgent national interest—PEACE.

We affirm that the co-existence of many social systems is possible and necessary; we maintain that all problems between our country and the Soviet Union are fully capable of being solved by negotiation. Sincere efforts to understand each other by the people of both the United States and the Soviet Union are essential for speeding such negotiations.

We affirm that peace can be achieved only by recognizing that great social changes are in process in the colonial countries; we insist that the crisis in Asia can be resolved by abandoning the attempt to ignore the Chinese People's Republic, and recognizing its right as the only government in being in China to sit in the United Nations and to carry on normal trade and diplomatic relations.

We declare that the way to peace cannot lie in the fearfully burdensome armaments race in which we are engaged together with the peoples of Europe. The military revival of a reactionary Germany is not the answer. The answer lies in negotiation, in atomic arms control, in new plans for verified and mutual general disarmament, in a fundamental American-Soviet settlement.

We maintain that a program of full use of our technological resources, including atomic power for peacetime development is the alternative to the present waste of the genius and toil of our people for destruction. A new era of peaceful trade, expanded economic relations, and cultural and scientific exchange awaits us—if only we can achieve a peaceful settle of the crisis.

We call on all like-minded men and women from all walks of life to join in launching a new and great AMERICAN PEACE CRUSADE, in forming a center for peace action and education that will help to stimulate the search for peace on all levels.

As a first step in these anxious weeks, we call on all Americans of good will to join in taking part in a People's Referendum for Peace, a national straw vote on the basic issues of foreign policy which will determine whether or not the world will be plunged into destruction.

We also propose a People's Peace Lobby to be held in Washington on March 1st, so that our Senators, our Congressmen and and our President can learn of the will to peace among all Americans, regardless of creed, color, occupation or political opinion.

To help give this movement form and substance, together with the many other movements for peace, we propose a People's Congress for Peace to be held in the mid-west, the great heart of our country, in the spring of 1951.

The conscience of America will not permit us to evade our responsibility to humanity, to our loved ones, and to ourselves. We cannot wait for peace—we must win it through our own efforts.

Appoint Monnet Davis Ambassador to Israel

WASHINGTON, Jan. 15 (JTA)—President Truman today nominated Monnet Davis to the post of U.S. Ambassador to Israel. The nomination has been sent to the Senate for confirmation.

Davis, who succeeds James G. McDonald, is now U.S. Ambassador to Panama and was formerly Minister to Denmark. At one time he served as U.S. representative on the United Nations Economic Commission for Asia and the Far East. Immediately following the termination of World War II, he served in Washington as director of the Office of Foreign Service of the State Department.

Baskeet Home for Aged, One Happy Family

Feeling that the Eastside of Los Angeles in particular was in need of shelter for homeless aged men and women, four years ago Mrs. Lila Baskeet established the "Baskeet Rest Home for the Aged" at 1600 East 49th street.

Mrs. Baskeet, the mother of two little girls, ages two and seven, has turned her fourteen-room house into a haven of rest for old people who are homeless or are not happy with relatives, who don't care to be bothered with them.

Meager investigation of the Baskeet Home revealed that those who seek and find shelter there are one happy family, and look on the young woman, Mrs. Baskeet, as a mother who looks after their every need. The oldest inmate in the Baskeet Home is 93 years of age.

Earlier, the CRIF—the representative council of French Jewry—circulated among all Jewish organizations in France a statement emphasizing the importance of the U. N. genocide convention to the Jewish people.

So Sorry, There's No Baking Soda Now

In a recent edition of the Eastside Journal there appeared a short story announcing that baking soda is now plentiful and available at local markets.

Operatives of markets in this area have informed this newspaper that the release issued by the manufacturers is incorrect. There is still an acute shortage on the shelves of local markets.

THE BASKETT HOME FOR THE AGED, 1600 East 49th street, conducted by Mrs. Lila Baskett, is interracial in character and numbers among its guests members of all races and nationalities—Mexican, Japanese, Negro, Caucasian. Her own two children, one seven years of age, the other two, are members of the Baskett Home family. Mrs. Baskett won first prize for running the best conducted home of this kind. The prize was presented by Mrs. Cerumba, general supervisor of Los Angeles County Board and Care Homes, and Mrs. Brady, welfare worker. In the presentation Mrs. Cerumba stated that Mrs. Baskett is an outstanding person in the care of the aged, and a humanitarian at heart.

High Court Rules LA Judges Must Run in Spring Elections

The State Supreme Court ruled this week that 11 judges of the Los Angeles Municipal Court whose terms expire next June 30 will have to seek re-election at the general election in the same year.

The judges are Joseph L. Call, Ray P. Brockmann, Leo Aggeler, Charles Newell Carns, Leo Freund, Charles P. Johnson, Louis W. Kaufman, Ben Rosenthal, Robert Clifton, Lowell Matthay and Kenneth L. Holaday.

The jurists had asked the high court to compel the City Clerk to furnish them with declarations of intention to become candidates at the city election. The City Clerk refused to furnish the forms on grounds that as a result of the court reorganization plan voted last November the judges were to be continued in office and would not have to stand for re-election until the general State election in 1952.

Under its ruling the Supreme Court holds that the new system will not begin to function before Jan. 1, 1952, as it pertains to the Los Angeles Municipal Court. Until that time the election of judges will be governed by the law under which the court was established.

AJC Joins Fight in Behalf of Negro GI

NEW YORK CITY (AJP — The American Jewish Congress was credited this week with being the first "outside organization" to come to the aid of a Harlem committee organized to seek justice in the killing of a Negro exserviceman by two white policemen.

The ex-GI, John Derrick, was killed by the two policemen recently amid charges by the National Association for the Advancement of Colored People that the victim was unarmed and made no attempt to pull a revolver as the officers had charged. Also missing after Derrick's death, witnesses charged, was upwards to $4000 in cash the former soldier was said to have had in his possession.

At a large protest rally here, speakers lauded the American Jewish Congress as the first "outside of Harlem group to offer us aid." The AJC has joined the GI Johnny Derrick Committee which this week was successful in having Mayor Vincent Impellitieri transfer the two policemen responsible for Derrick's death to a precinct outside the Harlem area.

Representing the AJC at the Derrick rally was Morris Padgug.

Hearst, Pegler Rapped by Yiddish Daily

NEW YORK (AJP)—The "Day" lashed out with full force against Westbrook Pegler and his boss, publisher William Randolph Hearst.

Commenting on Pegler's wave of allegedly anti-Semitic columns, the "Day" says that Peg isn't alone in the blame; that Hearst, who is still personally in control of a vast newspaper empire despite old age, is equally at fault.

The "Day" claims that authoritative sources have informed them that Pegler met with Hearst before he launched his anti-Semitic campaign, and that Hearst agreed to support his latest move.

The paper asks Hearst these questions:

Do you think that the anti-Semitic slurs that you print in your papers are in acord with the principles of Americanism your press is always shouting about? Do you think that the race hatreds and the poisonous lies of your Peglers harmonize with the ideals of American democracy and freedom? Is it not true that the filth which Pegler uses is the most outrageous affront to American democracy?

Israel Has Summer Jobs for American College Students

NEW YORK (JTA)—The Jewish Agency office announced here this week that American students in engineering and allied fields are being offered three-month jobs in Israel this summer, where they can get practical experience in their chosen fields under a "summer work program."

Most of the openings are in civil and agricultural engineering soil conservatio nand surveying, the announcement said. Participants will be assigned to jobs with various public and private institutions in Israel from June 1 to September 1. Applications will be accepted from the Jewish Agency up to March 1. They must be accompanied by letters of recommendation from university instructors.

FANS FILCH FAITH'S PHOTOS

HOLLYWOOD.—Word has been received here that New York fans of Faith Domergue have been filching her still pictures nightly from the lobby displays at the Globe Theatre, where her RKO Radio picture, "Vendetta," is having its Broadway premiere. Since the Howard Hughes film opened two weeks ago 18 pictures have disappeared. The topper came when some fan walked away with a large hand-colored art picture of Miss Domergue valued at $15.

See 100,000 Jewish GI's by July, 1950

NEW YORK (AJP) — The prospect of an estimated 100,000 Jewish servicemen in the armed forces of the United States by July loomed this week.

The 100,000 figure was advanced on the basis of a continuing draft and the recalling of reservists to the colors. The estimate did not include the prospect of the proposed induction of 18-year-olds into the armed forces, which would boost the 100,000 rigure by more than 15,000 on the basis that 3.8% of inductees in the overall draft are of Jewish faith.

An estimated 500,000 Jewish men and women served in the armed forces of the United States during World War II, according to figures compiled by the National Jewish Welfare Board.

Seek to End Job "Racket" In California

SACRAMENTO — A bill is being prepared by Assemblyman Richard Dolwig (R), South San Francisco, in a move to stop a $20,000,000 a year racket in State Unemployment Insurance. The bill is aimed to kick loafers off the unemployment rolls. Dolwig explains his bill as follows:

Under the present act if a person works 18 months and is discharged without good cause (which entitles the worker to benefits), the person can file a claim based on earnings during the first four of the last six quarter-years worked.

Often his earnings have been high enough so that he gets the full $25 a week benefits for the maximum period of 26 weeks.

At the end of the six-month loafing period, they file a second claim for benefits, based on their earnings during the fifth and sixth quarters that they did work.

If, during these last two working quarters they earned $1300 or more, they can get $25 a week for 26 more weeks.

Thus, without working, an unscrupulous person can draw unemployment benefits for a total of 12 months out of 18 months.

To correct this, the bill provides:

Any wages earned prior to the filing of the first claim and not used in the computation of the first award of benefits may be used for the computation of a second award of benefits, provided that between the two benefit periods the employee has earned sufficient wages to meet the eligibility requirements of earning the basic wage amount to qualify for benefits, at present $300. The minimum base wage to be earned would be raised to $600.

U. S. TO RECRUIT FROM ASIAN COUNTRIES

WASHINGTON—A government decision has been reached on replacing the badly-mauled "United Nations forces" in Korea by new non-American troops to be recruited in Asian countries.

The reasons for this step were reviewed by Secretary of Defense George Marshall at a recent meeting of the "National Security Council." If this solution was not adopted, Marshall said, the evacuation of "United Nations forces" from Korea would be unavoidable.

The plan provides for taking fuller advantage of the willingness shown in this respect by Chiang Kai-shek, the Japanese Yeshida government and some other Asian governments. It is pointed out here that, under Washington's agreement with Yoshida, a Japanese army of 110,000 men is to be created by March this year.

If this American plan for "maintaining order in Asia" with Asian armies is put into operation, military circles here believe, the Americans will be able to evacuate a considerable part of their infantry from Korea without weakening the "United Nations forces" in the Far East.

Court OK's Suit By Union Against Women of Pacific

COMPTON — The preliminary examination of charges of burglary of one of a trio of accused men in Municipal Court here Monday, turned into a courtroom skirmish between the defense attorney and one of the arresting officers on the witness stand. The issue was momentarily digressed for the purpose of introducing some hot phase of police brutality.

Atty. Earl C. Broady representing Covialeski Lavert Thomas, 23, one of the three men captured in the act of burglarizing a large market at 400 Compton Blvd. on January 6 here, asked Det. Conway, one of the arresting officers while on the witness stand to explain how his client sustained the swollen bloodshot right eye, broken skin on face and bruised body.

First, Atty. Broady got the slant of brutality in the record when he asked the officer if he had noted any marks or other evidence of a beating about the person of Thomas when he placed him under arrest and turned him in at the jail. He received a "no" reply. Asked if he later saw the bruises and markings, the answer was "yes."

It developed that there were four officers in on the arrest of Thomas and his two accomplices. Two, Dets. Conway and Norrell were assigned to the investigation. Det. Norrell did not appear in court. Atty. Broady stated afterwards, that the nature of the beating given his client was sufficient to cause grand jury investigation.

When arrested, the trio were held under an unusual excessive bail of $25,000. The lawyer intimated that this was done in order to prevent the man getting out and secure proper counsel to represent them. Thomas is a former Chaffee Junior College athlete.

Others arrested with Thomas in the burglary were eBnnie Carr, 29, a press operator and Wilton R. Thompson, 25, white, a body fender worker. Thomas was ordered held for trial and his bond reduced to $2.000. He faces arraignment in Dept. 41 of the Superior Court on February 7.

Nothing Better Than Good Food, Says Ohio Man

If a man isn't able to eat the foods he likes he's in mighty sorry shape—imagine going through life without being able to enjoy a fine big platter of bacon and eggs. That is the way Joseph N. Demillot, 3414 E. 5th Street, Dayton, Ohio, used to be, but since he has been taking HADACOL, he says he feels just fine and is able to enjoy lots and lots of fine foods. Mr. Demillot found that taking HADACOL helped his system overcome a deficiency of Vitamins B1, B2, Niacin and Iron.

Here is Mr. Demillot's statement: "My first bottle of HADACOL convinced me that HADACOL was what I needed for the gas on my stomach at nights. I could not keep food on my stomache, but after the first bottle I was going great. Now I eat bacon and eggs, and other foods that never would stay with me. I also can sleep well at nights. Thanks to HADACOL. I will never be without it, and can recommend it to all who suffer with the above ailments that I had. I know because I hav suffered for quite some time."

In a telegram to the museum, Andrew Ritchie, director of painting and sculpture for the New York institution, requested arrangements for exhibition there of the huge painting and revealed plans to build a special outdoor wall against which to display the painting.

75,000 Telephones Added in South

More than 75,000 telephones were added in Southern California exchanges of the Pacific Telephone and Telegraph Company during 1950, a mid-century year of continuing expansion that was highlighted by increased telephone activity of all kinds.

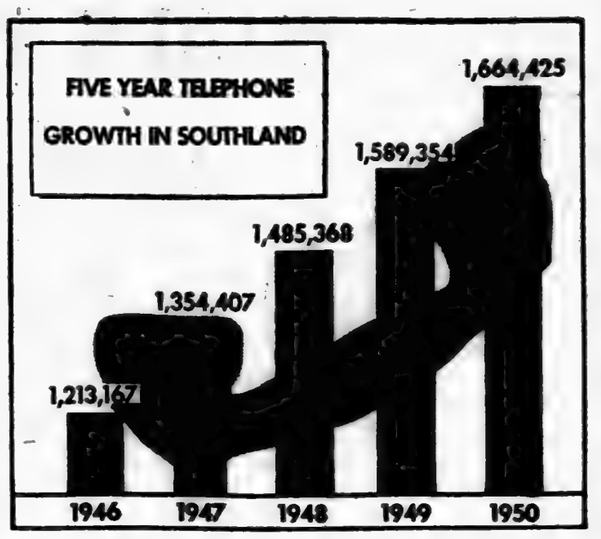
According to Manager Earl S. Ricker, who made the announcement today, the company's tremendous post World War II expansion program has accounted for an increase of more than 608,000 Southland telephones and a total served in Pacific Telephone's Southern California area today of 1,664,500. There were 15,924 added in the Los Angeles exchange during 1950 and 252,717 gained in the five-year period for an increase of 43 per cent, making a total of 843,681 in service here.

In his year-end review, the manager stated that Pacific Telephone has spent in excess of $322,000,000 during the past five years for gross construction of communications plant to provide Southland telephone subscribers and users with more and improved service.

Moreover, he said, the company's in-service plant investment in Southern California now is nearly a half-billion dollars, close to double the in-service investment of five years ago.

During 1950, Pacific Telephone expended more than $53,000,000 in gross construction, which was channeled into huge quantities of central office switching equipment, new buildings and building additions, poles, underground conduit and an estimated 504,000 miles of wire in cable, Earl S. Ricker pointed out.

Durin gthe mid-century marker, too, he said, subscribers and users of the service placed nearly 10,000,000 daily calls in the Southland, 500,000 more than a year ago and almost 3,500,000 more than in 1945.



Here in the Los Angeles exchange, telephone users placed a daily average of 5,652,627 calls in 1950, as compared with 4,159,725 in December 1945, the manager stated.

He declared that Pacific Telephone's unprecedented expansion program is continuing at record levels, that the company plans to expend another $53,000,000 during 1951 to provide still more equipment and facilities for more telephones and improvement and extension of the service.

"Your telephone company here is well equipped to do its full part in meeting the national emergency," he said; "as a result of its record five-year construction program and its integration into the business of thousands of additional, well-trained employees who are eager to get on with whatever job may be set for them."

HONOR 16 STUDENTS

Sixteen students at Tennessee State College, Nashville, will be listed in the 1950-51 edition of "Who's Who in American Universities and Colleges," it was announced by Dr. Virginia S. Nyabongo, student personnel director.

Newsman May Seek Council Seat for Watts District

A test of the strength of the Negro vote in the 15th Councilmanic District in which the large Negro-Mexican area of Watts is located, will be made at the May primary elections, it was learned. Named for the leather-hided test tube has been Lawrence F. LaMar, widely known newspaperman.

LaMar has been a resident of the district for about a year. He has been connected with the two newspapers serving the area, namely, the Star-Review and the Watts Spotlight News, since coming to the district. In his capacity of a newspaper reporter, LaMar has experienced many of the problems peculiar to the peoples of the 15th Councilmanic District.

Spokesman for the group backing LaMar stated they were amazed by the apathy of certain members of the City Council toward voting down a proposal to add two new districts to the lawmaking body, purely because of fear that a seat might become electible to a Negro office seeker. They intend to elect one such person on a purely nationality basis. In so doing, they deny they are being racial merely because they are asking the Negro voters to support their candidate.

In addition to the large Watts section, the 15th District also takes in the beach areas of San Pedro and Wilmington. Interested persons who have conducted surveys of the district's population are of the opinion that it has been sadly neglected by political as well as economical and social representation. They are also thoroughly agreed that a Negro would be in position to know the needs and desires of the populace better than the present councilman.

Marshall to Report on Mass Court Martials in Korea

A first-hand report on mass courts-martial of Negro soldiers in Korea will be given Los Angeles residents Friday, Feb. 16, 8 p.m. at the Second Baptist Church, 24th and Griffith.

Thurgood Marshall, speical counsel for the National Association for Advancement of Colored People, will describe his investigation of wholesale trials and convictions of members of the 24th Infantry.

Charges aaginst Negro soldiers were in most part brought by white officers. Trials were hurried and apparently carried on without the defendant having adequate help in preparing his defense.

Case receiving the widest publicity in this country was that of Lt. Leon Gilbert, who had refused to lead his squad into a death trap. Gilbert was sentenced to death by a court martial, and world-wide protest against the sentence caused President Truman to change the sentence to 20 years at hard labor.

Present campaign of NAACP and progressive groups is to have Truman set Gilbert free.

The Philadelphia Cotillion Society awarded its Cross of Malta to Dr. Ralph Bunche, former UN Mediator in Palestine and now director of the UN trusteeship division. He had just returned from Norway where he had been presented with the Nobel Peace Prize. The cross was pinned around his neck by Marian Anderson, who had received the same award at the society's first ball a year ago. The cross was inlaid with diamonds set in platinum.

The first part of this year's ball consisted of a two-hour long ballet, "Frozen Fire." The Cotillion Society is a charity organization which holds a ball of most ambitious proportions each year.

IPP Starts Chain Letter for Peace

The City Terrace Club of the Independent Progressive Party has started a chain letter which it is asking everyone to copy, send to President Truman, your Congressman, your Senators, and to at least five other persons anywhere in the U.S., asking them to do the same. Morris Kominsky is the chairman of the club.

The letter follows:

I am writing this letter because I feel that none of us wants to die uselessly. War solves no problems. No one can win a third war. It is better to save the lives of millions of fine young men, better to prevent the killing and horrible maiming of millions of people, and better to avoid the breaking of millions of hearts and the spilling of oceans of blood and tears—it is much better than to "save face."

There are no differences between countries that cannot be settled peaceably.

In the name of sanity, I urge that President Truman call upon the United Nations to sponsor a conference among the great powers; that this conference be open to the public; that the entire proceedings be radiocast and telecast; that the conference stay in session, no matter how long it takes, until the following have been accomplished:

1.) Agreement for complete and universal disarmament.

2.) Agreeemnt for a worldwide program to wipe out hunger, disease, slums, poverty and ignorance.

The genius of mankind is capable of accomplishing these aims, if honest and decent leaders will make a start.

Very sincerely yours,

• • •

Send copies of this letter or a version of it in your own words to:

1.) President Truman.
2.) Your Congressman.
3.) Your Senators.
4.) At least five other persons anywhere in the United States, urging them to do likewise.

DON'T BREAK THE CHAIN! KEEP IT GOING!

March of Dimes Thanks Day At Roberts

"Give Thanks for YOUR Good Health, then GIVE to the March of Dimes." That is the slogan being used at Camp Roberts, California, in connection with a special "March of Dimes Thanksgiving Dinner" planned for February 2.

As another method of raising funds for the 1951 March of Dimes campaign, First Lieutenant Chas. P. Smith, Food service officer for Combat Command A of the 7th Armored Division, originated the idea for the dinner. The suggestion was taken up by the Post Menu Board, which augmented the plan, and was then approved by Colonel Anson J. Smalley, the chairman for the Camp Roberts March of Dimes drive.

The plan calls for a special "Christmas-type" dinner, with roast turkey and all the "trimmin's," to be served in every mess hall at Camp Roberts. The March of Dimes contribution cans will be placed in each mess hall, so that men may contributed to the drive as they enter the hall. All contributions will be strictly voluntary, with the extras of the meal provided by the food supply service as its part in the drive.

Here is what will be served for the "March of Dimes Thanksgiving Dinner": Roast turkey, dressing, mashed potatoes, giblet gravy, buttered peas, salad, bread and butter, ice cream, cherry pie, coffe, nuts and candy.

A Missourian Speaks His Piece

Mr. S. A. Ott, of Joplin, Mo., who hails from the same clime whence cometh our President, has things to say about our present political shenanigans.

From his tone and photograph, Mr. Ott was not born yesterday, but he is still a wise old owl and what he says makes sense.

In a very decent manner, Mr. Ott undresses both of the major political parties, showing what they are underneath.

Democratic candidates and their workers during a political campaign, he declares, use time and money expressing their opinions of the Republicans, sometimes in villifying words, trying to convince the people that they are right and should be in control of the government, while the Republicans are all wrong.

Both the Democratic and Republican parties are permitted freely and unmolestedly to express their political views and opinions, regardless as to their sincerity or honest purposes.

But the so-called "Communist" leaders (some of whom are good tax-paying citizens), says the Missourian, are deprived of their freedom of speech and thrown into jail.

"I ask why such unjust, unconstitutional discrimination?" he writes. "We, the common working class Americans, carry an enormous tax burden to support such a program, as well as to support an Un-American Activities Committee to witch-hunt for Communists, but never to investigate the un-American activities of either the Republicans or the Democrats."

Why not grant the Communists the same constitutional rights and freedoms enjoyed by the Democrats and Republicans, and when either gets out of line, apply the same punishment to all?

Mr. Ott further opines that Wall Street owns both the Democratic and Republican parties, and cracks the whip which both major parties obey.

"But," says he, "the people labeled 'Communist' are more often plain American people who understand and who have suffered under a capitalist system. They have no desire to destroy our government, nor to change our democratic way of life, but only to correct the evils and the abuses in our democratic system that threatens our existence."

And for these desires, like the desire to repair a much-loved home, they are labeled Communist and subversive.

We Are Surprised . . .

We are surprised and considerably disappointed at the reported attitude of United States representatives in the United Nations when the Chinese proposals for a cease-fire period in Korea were presented.

Instead of seriously considering the proposals that might end in peace in Korea, the cessation of loss of American lives, and the end of war economy in the United States, U. S. representative Warren R. Austin took it as a personal affront that a majority of the nations voted to study the proposal for 48 hours.

Instead of taking advantage of a proposal that might end the Korean conflict, Austin instead fumed because his demand for a ruling that China be branded an aggressor.

Warren was deeply hurt because Great Britain, France, Canada and the Scandinavian countries voted to consider the peace offer.

After all, Warren must have reasoned, the United States has poured millions of dollars into Marshall Plan aid to these nations and therefore they should have heard their master's voice and gone along with his position. Warren must have thought that the United States has bought the allegiance and support of those nations.

It is worthy to note that only two classes of nations, and those in the minority, supported Warren's position.

First are those nations generally recognized as being dictators: Turkey, Greece Argentina and a few other South American countries.

Second are those nations directly under the thumb of big money interests of the United States: the Philippines and several small Central American and South American countries.

Careful and sober consideration by the American people of the Chinese cease-fire offer should bring the realization that there is nothing underhanded or evil about the proposals.

Actual text of the proposal, undistorted by editorializing too often found in the commercial press, is given below, just as it was received by the United Nations:

"1. If the principle that all foreign troops should be withdrawn from Korea has been accepted and is being put into practice, the Central People's Government of the People's Republic of China will assume the responsibility to advise the Chinese volunteers to return to China.

"2. Regarding the conclusion of the war in China and the peaceful settlement of the Korean problem, we think that we can proceed in two steps.

"First step: A cease-fire for a limited time period can be agreed upon in the first meeting of the seven-nation conference and put into effect so that negotiations may proceed further.

"Second step: In order that the war in Korea may be concluded completely and peace in East Asia may be insured, all the conditions for the conclusion of the war must be discussed in connection with the political problems in order to reach agreement upon the following:

"The steps and measures for the withdrawal of all foreign troops from Korea;

"The proposals to the Korean people on the steps and measures to effect the settlement of the internal affairs of Korea by the Korean people themselves;

"The withdrawal of the United States Armed Forces from Formosa and the Formosa straits in accordance with the Cairo declaration and Potsdam declaration;

"And other problems concerning the Far East.

"3. The definite affirmation of the legitimate status of the People's Republic of China in the UN must be insured."

Acceptance of these proposals on their face value, if only long enough to see if the offers are made in good faith, could in no way endanger our positions in Korea—if that's what Austin is worried about.

If Austin is upset and angry because the United Nations, for the moment, seems to be out from under the thumb of the United States—we ask only whether the United Nations is a democratic body composed of nations of the world, or merely an implement to put into effect the policies of the United States throughout the world.

And last, if Austin is spiffed because the nations of the world refused to jump through the hoop and brand China as an aggressor—we ask only: "Which foreign nation first landed troops and equipment in Korea—the United States or China?"

We urge Austin to withdraw his stubborn resistance against the majority of the nations in the U.N. We urge Austin take advantage of any and every honorable opportunity offered to end the slaughter of American boys in Korea, and to restore a normal economy in this country, where the rush to war has driven prices to new highs, heavily increased taxes on the working people, decontrolled rents and created a hysteria in which any person who speaks out for peace is branded a "subversive."

Key Issues

There are many key issues that face our country in 1951, states the Independent Progressive Party. Chief among them is this question: Shall we have peace or war?

Among us, in our own country, there are peace-loving people. They understand what means lead to the end that makes for peace, and would travel that path if their movements were not obstructed.

They understand, too, that peace will not come by saying, "Presto, Chango."

In order to establish a lasting peace in the United States, and in other countries over which we seek control, we must get to the bottom of the evils which our congressional and senatorial representatives so easily pass over. Such as the denial of civil rights to all citizens, the blockade against a Fair Employment measure, which keeps Negroes and Mexican-Americans from obtaining jobs in key industries, and many other forms of discrimination against something like 15,000,000 Americans.

The Independent Progressive Party is the only political party or organization that has gone all-out in the fight against job discrimination.

In our own state of California, year after year we send representatives to Sacramento to devise and make laws that will protect the civil rights of all the citizens, and secure to all life, liberty and the pursuit of happiness.

They not only pass these issues by, but attempt to throw dust in our eyes in their made stampede to see which ones can scream "Communist" loudest, while the real obstructionists to the peace are not attacked.

How long will Senator George Malone, Senator Tydings, former President Hoover, Senator Taft, and others in that category, expect us, the plain people, to believe warnings such as this: There is a carefully-planned propaganda for the recognition in the United Nations of the Chinese Reds.

"There are so-called Americans in government positions," says Senator Malone, "working for that recognition at the very time Chinese Reds are slaughtering our American boys in Korea."

By implication the senator, and the others like him, say we should continue to slaughter our youth on the battlefields of Korea.

Attempting to securt any justice in the state of California, we are met by the same obstructionist methods. Governor Earl Warren is himself a past master at these methods. Let any complaint be made to him, let even the State Legislature make any move toward correcting an evil, and Governor Warren will "appoint a committee to investigate."

And while that committee "investigates," little children die of starvation, and men and women are rendered jobless and homeless through discrimination.

The great issue before the American people today is beyond doubt: Peace or war? Like maddened wolves the warmongers are clamoring at our very doors for an even greater slaughter than that of Korea. They are demanding an all-out surrender to the war god, the sacrifice of all that we hold dear.

Shall we let them enter? Shall we meekly bow to the will of those who would profit by our sacrifices? Or shall we demand that those war demons be driven from our midst? And that the angels of peace and mercy shall enter and reign?

This question can only be answered by the people of America. By you and me. We must pray for peace. Yes. But we must also work and fight for it. For only through prayer and determined effort will the answer of peace come to pass.

RAPHAEL KONIGSBERG

TIME FOR COURAGE

RAPHAEL KONIGSBERG

Justice Brandeis, one of the greatest scholars and statesmen this country ever produced, once said: "The greatest menace to freedom is an inert people." This is not merely an opinoin, but a historical fact . . . and points to part of the explanation for the mistake many people aremaking in over-estimating the strength of American recationaries.

Because many Americans are themselves inert—indifferent to crises in national and international affairs or unable to determine how they can serve in such crises, because they are uninformed or unaware of their responsibilities as citizens—they tend to underestimate their own power and overestimate the strengh of the oppositoin.

Once the majortiy of us wake up, cease being inert, and learn who the real enemy is (the giant corporations and their official flunkeys) and discover the enemy's real objectives (to make us all slaves serving the privileged few)—then we can get a true measure of our own power and how it can be applied in solving our own and our country's problems.

Then what seems to be the "overwhelming" power of the ruling class can be seen in its proper perspective, and much of theri present activities will be revealed as evidence of weakness and not strength.

Much of this awakening occurs when we begin to understand that by keeping quiet, by meekly conforming to the regimentation which the official terrorists are trying to impose on us, we cannot gain anything substantial for ourselves and families. By "going along" we are in effect sacrificing permanent securtiy for a very temporary gain.

Individually we may win some temporary conveneince or comfort, but not for long. Because true security for the individual can only come when all of us are secure. No one person himself in the world today can, by his own efforts, guarantee his own security, let alone his family's. Thus, by helping to create a secure society for all Americans we will be doing the most and best to create it for ourselves and loved ones.

Time to Fight

Certainly this means paying a price, a great price in some cases. But will it mean any greater sacrifice than millions of freedom-loving people have had to pay in the past? Than the Negro people have had to pay for centures? What makes other Americans ;thnik they can "get it wholesale?"

Certainly times are tough. But are they any tougher than Americans faced at Valley Forge? Or during the Civil War? Any tougher than the Allies faced at the start of World War II? Are the odds any greater against us than the Chinese people faced against the combined danger of Chiang-Kai Shek and U.S. arms?

Let's get together then, and gain strength from each other, and added courage from an understanding of certain basic facts of life in 1951:

1. We who want peace and a democratic America are not alone. Hundreds of millions of people throughout the world are on our side. Look at the millions in the World Partisans for Peace, and the influence they have already had in staying the atom-itchy hands of our militarists.

2. We are all naturally concerned with the price we will have to pay for refusing to collaborate with American fascists, refusing to knuckle under and accept regimentation. It may mean loss of jobs, increased social prejudice, imprisonment and worse. But all these prices many are already paying—and all the rest of us will have to pay anyway if we allow the fascists to take full power. And it will be for nothing but service to fascism.

Whereas, if we are willing to fight now (not wish later on that we had) it will be a real investment in freedom and security for our families and neighbors. And the sooner the more of us fight back, the less will be the price we will have to pay and fewer of us will have to pay it. Today, fighting back is the only way to save ourselves and our nation.

3. People are fighting back already, and protesting, all over America. They don't like what our government is doing at home or abroad, and they are saying so. It is easeir to talk to people today. In markets, on streetcars, in private homes, everywhere, Americans are talking and thinking.

And many must be learning what America's history so eloquently proves: that there are times when it is a greater loyalty to American ideals to refuse to conform to the dictates of evil men in power, hat it is a greater patriotism to oppose the anti-democratic conduct of governmental officails.

We who fight for our rights and the rights of all people are the better Americans.

LETTERS TO THE EDITOR

Los Angeles, Calif.
Dear Editor:

It is obvious more than 15 million Negroes and millions of other good Americans are supporters of FEPC. In view of this fact, those who are against FEPC and show it by precept and example, should know they are causing disuntiy among the citizens of America. Every public official who advocate discrimination because of race, religious or political beliefs sought to be impeached.

How long must ignorance cause people to suffer? The pathetic state America is in is largely due to the profession of being a Christian Nation, the most of the public officails profess to be religious, yet when it comes to the "Golden Rule" they are found wanton. Lest these forget, the hypocrtie and the infidel are in the same category as far as God's judgment is concerned.

St. Matthews 23:23-33; Revel. 21:8.

BISHOP H. A. SHORT.

Los Angeles, California
December 28, 1950

Dear Friend:

You may not fully realize it, being a modest unassuming chap, but hearken to me, as one who has the evidence, you, indeed, are in a class by yourself when it comes to defintiely proving your commendable status, and inestimable value, as a friend.

Incidentally, it must be stressed you adequately deserve this laudatory tribute your generosity has duly inspired and evoked.

Obviously, the joyous, festive Holiday Season will always be revered and made exceedingly memorable and heartening to us fortunate recipients of gifts, when thoughtful men of good will, like yourself, rising nobly to unprecedented heights, in the beneficent realm of philantropy, make us unexpectedly the beneficiaries of their benevolent impulses and zealous proclivities ni perennially essaying the promotion of our happiness and best interests.

Since you, indeed, are inherently incomparable, gratitude, herewith, prompts me to designate you, unreservedly, my very best friend.

Having won my unqualified endorsement, and endeared yourself to me immeasurably, by your constant solicitude for my welfare, through the years, I shall assuredly, always adequately treasure and cherish the inestimable privileges, gratuitously accorded me, of your esteemed acquaintance and close assocaition.

Sincerely yours,
FRANK J. DONOVAN

LABOR ON THE MARCH

By PENN

". . . doth protest too much, methinks."
(Hamlet, Act III, Scene 2, Line 242)

Many people at the last meeting of the Los Angeles CIO Council recalled Shakespeare's words when President Clarence Stinson left the chair to outline the council's position on the increasing police brutality against Negroes and minorities in the harbor area.

(The position, if it could be called one, is to see no evil, hear no evil, and speak not against evil. It is to do nothing about the arrests, beating and killing of Negroes by sadistic police officers.)

When a person, or a person speaking for an organization, begins to defend himself or it against accusations that have not yet been made—there is a fair chance that those unmade accusations have truth in them.

Defense before attack indicates at least one of two things.

One—an awareness that something that should have been done has not been done.

Two—that something that should be done is not going to be done.

When Stinson had finished apologizing for the cops and blaming the "Reds" for everything, most listeners realized that the high-salaried officers of the council are guilty on both counts.

Although he generally touched on the many cases of police brutality, Stinson got down to specifics on the Sam Jones case. Jones, a Negro laborer, was beaten to death by harbor police several weeks ago.

Stinson ignored the testimony of Nathaniel Ray, who was with Jones at the time of the killing and who was also beaten by police. He ignored testimony to the effect that Jones was a sober, industrious man, who would not have spent his small wages—needed to feed his family—on hard drinking.

Stinson, instead, apologized for the cops involved. "The police are sore," he said. He explained that the police were "sore" because of the group protests against beatings . . . because of the "heat generated."

His story of the killing of Sam Jones was that of the police.

"A knife was pulled." Stinson parroted the cops' story. A fight over a knife started in the police car, he explained, and somehow when Jones, Ray, and the two officers scrambled out of the car, all three people "somehow fell on Jones and ruptured his liver."

Up until this time, Stinson had not mentioned that Jones and Ray were Negroes. But now he said, "I think they were colored."

His solution for tension around the waterfront is simple.

"They'll have to move somebody away from the harbor," he said.

Stinson charged that the "Commie-front" organizations "take these incidents and enlarge on them."

It is to the shame of CIO leaders that militant fights against these "incidents" (as Stinson dimissed them) have been abandoned.

Instead of mobilizing the strength of the membership behind them and demanding that discrimination and police brutality end, the present leaders go to the police department and, hat in hand, plead with police spokesmen for an explanation they can try to sell to the membership.

Albert T. Lunceford, secretary of the council (and the real boss of Los Angeles CIO) joined Stinson's "much protest" and assured delegates that the police department will "consider" recognition of a civic organization to solve police brutality.

Most abject sight, particularly for Negro trade unionists, was that of John Dial, once a rank and file leader of his people and now a pie-card, who jumped up when Stinson pulled his string and uttered a hearty "Amen" to Stinson's whitewashing hogwash.

And so it stands.

How many more Negroes must be roasted, threatened, intimidated, beaten and killed before CIO will stop talking and begin fighting for fair practices—not only in employment—but in daily living—in just plain, breathing living?

A Call for Peace

The Southern California Peace Council has issued a statement calling for a settlement of any and all existing conflicts and difficulties between our own and any other nation that would plunge us into another world war.

The California Eagle joins the Council in its statement, urging a stop to the preparation for war when peace should be our ultimate goal.

We know the nature of the sentiment build-up for war that is going on in some of the newspapers and over the radios.

Our youth, the flower of the nation, are being called upon to sacrifice their lives on the battlefields of Korea.

If we love our country and our people, as we say, we must stop this march of murder.

A call has gone forth to all the peace forces to join in a demonstration for peace, January 27, in Los Angeles.

It is hoped that the same force and enthusiasm will be exhibited in this demonstration for peace as has been shown by those who call for war on Korea, China, and Russia.

Those of us who feel that what the world needs is peace, believe that **all** foreign troops should be taken out of Korea, and that a conference including Great Britain, France, the United States, Russia, and the People's Republic of China should be called.

We believe that those grand old men in and out of Congress who agitate for war, and the throwing of the atom bomb at either Russia or China, should be sent to the front to do some of the fighting, if we must fight.

We say we want peace, but not peace at any price. What is the price we are being forced to pay because of the stubbornness of our members of Congress, and our tenant in the White House? Do we need more loved ones killed? Crippled? With both feet and both hands gone? What peace shall we eventually gain by these methods?

We are not fighting for any principle. There is no injustice involved, which we must make right. In truth, the injustice to be corrected is one that we ourselves have perpetrated on the people of Korea. Then why not be honest enough and courageous enough to say we have done wrong? To admit our mistake? To work for a real and a lasting peace?

Can Any Good Come Out of Washington?

Washington, the nation's capital, has for so long been also the seat of injustice and discrimination against its Negro citizens, that one has been tempted to ask the above question: Can any good ever come out of Washington?

The answer is yes. After long and earnest struggle, some good has come out of Washington only recently.

Mrs. Mary Church Terrell, chairman of the Coordinating Committee for the Enforcement of District of Columbia Anti-Discrimination Laws, writes of the victory at Kresge's 5 and 10-cent store.

"On January 12 the manager of the 7th and E street Kresge store assured representatives of the Coordinating Committee that from that date on no one would be discriminated against because of color at the sit-down lunch counters at all Kresge stores in Washington. This victory closes our eight weeks' campaign to end discrimination at Kresge."

Before this, Negro patrons were forced to go to the end of the lunch counter, and **stand** in order to be served at all. Mrs. Church, in her letter telling of the victory and thanking all who shared in making it a certainty, urges everyone to urge their friends to "SIT DOWN. DON'T STAND UP!"

This victory in Washington came about because of the determination of a few people. They distributed leaflets, wrote to the district office of Kresge's, sent delegations to that office, urged the boycotting of Kresge's store, and **finally won.**

Why cannot we do the same here in California? Some say there is no discrimination of that kind in California? At least not in the vicinity of Los Angeles?

The young Negro recently clubbed to death by two policemen near San Pedro, was going with a friend to find a place where they could eat in peace. There are such instances reported every day. There are other forms of discrimination everywhere. And there will be until we here in Los Angeles, in California, show the same determined spirit as those fighters in Washington—fighting for real democracy in the capital of the United States of America, instead of shedding blood for a fake democracy 6000 miles away.

and to my many friends and fighters for democracy, and the right of survival and peace.

Seventeen years ago when I joined the American League Against War and Fascism, and later the American League for Peace and Democracy, I never dreamed that the fight would be brought to my very doorstep—even the privacy of my bedroom. I suppose midnight raids are not new to our local gestapo, but when the blow came it was staggering

Fight Begins

I realize now that the fight has just begun, and my feeble though earnest attempts to stop fascism, injustice, and oppression her and abroad were just preliminary.

I have always loved this country and felt it was my own, although I did not come here voluntarily (I was very young at the time), but neither did any of you who were born here.

I grew up in this country, married a native American, and have a "one hundred per cent American" now going to college in L. A.

Impelled to Join

I was impelled to join in the struggle that is traditional of this country, to keep it great and free. I wanted my son, and other sons and daughters to relazie the benefits of their rich heritage.

I knew that as long as fascism was allowed to spread anywhere, it threatened us at home.

Then I saw native manifestations of that national disease, and I found large groups of people opposing and fighting it, and there were those in power using every foul and unjust means to defeat and crush them. I was warned several times "not to get involved." I was vulnerable. I did not spend much time worrying about it. (I was relatively unimportant and one can't deny one's conscience.

Know Strength

I know the strength of the American people, the Constitution, the Bill of Rights and an historic background that would never allow it to be betrayed or destroyed by a dangerous amend-

Dear Mrs. Bass:

As editor of **The California Eagle**, I am writing you seeking your aid as a mother to her son. I am a young man 35 years old, colored, light brown complexion, brought up on a farm, finished school in the 8th grade, studied in the Baptist Church, becoming a Bible student. I am honest and trustworthy and a willing worker. I was born on the 11th of August in the sign Leo.

It had always been my desire to study physiotherapy and try to do something for my race. When I think of the millions of colored youths that are going astray in the U. S., it grieves my heart as I know there are many organizations that are trying to curb these [illegible] from vice to the true light of the church which has done a great deal to help.

I think the quickest way to get to the hearts of these youths is through the colored motion picture industry, by making educational and sensible pictures which will help to curb crime and vice among our colored youths, instead of fickle-minded and uncultured pictures. I here say that I would like to have employment on a farm with a nice family, colored or white.

I would like to help my family, especially my sisters, I would like to see them through school.

God's blessings with you.

Respectfully,
Wm. James Sutherland

Dear Mr. Editor:

May I dedicate these few lines to my baby brother who fought in World Wars II and III. He reenlisted after World War II for overseas duty because he liked the Philippine Islands so much. They promised that to him. But after he had enlisted, they told him the USA overseas was closed for colored people.

But when the No. III war broke out, they shipped him to Soule. He is going through the hardest of this war. They have shipped him back to Japan now. His name is S/Sgt. Richard Perry, Jr. By the help of God nothing has happened to him. I ask of the readers of this newspaper, please help me to pray for him. Not only for him but for every one of our boys who are fighting in this war.

I will have to agree with Mr. S. A. Ott: the Democrats and the Republicans fight against each other in the wide open light, but the moment a Communist Party member speaks his honest, sincere views, they bind him down in prison.

But yet this is American democracy—a freedom to speak and choose whatever you please. If so many of our people would forget the foolishness of the world, and understand life, we would go 100% farther. One of our greatest mistakes is, that we don't love and cooperate with each other. Instead we are cutting, shooting, and lying about each other.

We have got to clean our hearts up. Cooperate. Stick together. Fight together. Sing together. And love together to make this a better world for a Negro to live in. We have got to create some power that will stand forever.

Dear Correspondent, this is my fight. Please tell me what will I have to do to join your organization? I am willing with all my soul.

Your sincere friend
Carlton Perry.

Products were selected according to Manischewitz with a view to filling gaps in Israel's diet.

Full details will be published in this paper in the near future.

NASHVILLE.—Lack of confidence in the administrative and personnel policies of Hubbard Hospital administration was expressed last night by the Citizens Committee on Hubbard Hospital, according to Rev. A. L. Porter Jr., chairman of the group.

The committee was established at a community meeting held at the Pleasant Green Baptist Church following incidents at the hospital which led to the firing and arrest of hospital service employees.

The committee's action was based upon information from patients who have been served by the hospital and from personnel connected with the institution. The committee has completed a preliminary investigation which, in its opinion, reveals that certain administrative and employment policies of the administration warrant the lack of confidence which the community holds in practices of the hospital administration.

YOUNGER RESIGNS

The resignation of Evelle J. Younger as chairman of the Republican Central Committee of Los Angeles County, tendered by him because of call to duty in the United States Air Force, was refused by the Executive Committee at a meeting held Wednesday, January 17, it was announced by Roger Arnebergh, secretary of the committee.

The committee unanimously extended a vote of confidence to Younger, and adopted a resolution declaring that the Executive Committee would designate an acting chairman in accordance with the rules of the county committee. Younger stated that he is ordered to report for active duty with headquarters U.S.A.F. in Washington, D.C., on or about February 23.

OUR ECONOMIC STATEMENT

Some such statement is being circulated: "Our economic system as operated is a legalized scandal."

We do not like to believe such statements, but now that we are beginning to see vacant store fronts, hear about little businessmen being forced out of business, realize the tragic tax burden being imposed upon us, we begin to think that there is something to such a statement.

The 190 conventions held here was another record, one more than the previous top number of 189—also set in 1949.

Colorado Solons Prepare to Vote On Fair Employment Practice Law

DENVER (AJP)—Amid reports that Negroes and other minority groups in Denver were "subject to flagrant widespread job discriminations" Colorado legislatures this week were disclosed as being in agreement on passage of a Fair Employment Practices Act.

Two bills, differing only in enforcement strength, are in the process of drafting by the state legislature for presentation in the House of Representatives. Both the minority Democrats and Governor - elect Dan Thornton gave approval to the proposed legislation during the past November campaign. The millionaire cattleman governor told Robert S. Gamzey, editor of the Intermountain Jewish News, local English-Jewish weekly, that he was "for a workable, feasible FEPC."

Patterned after existing FEPC laws in New Jersey and New York, one proposed act would make it a misdemeanor to violate its provisions and would include fines or a prison term. Republicans, however, were reported chief opposers to the "teeth" aspect of the proposed FEPC rulings.

Denver Democrat Elvin R. Caldwell, who drew up the FEPC act, said he probably would consent to amending the bill in the hope that "we can always try to strengthen it later if the need proves itself."

The other proposed FEPC bill patterned after a weaker Connecticut law was backed by Rep. Earl Mann, a republican from Detroit.

Meanwhile, the Intermountain Jewish News reported that Mickey Freed, regional director of the Anti-Defamation League, told an FEPC drive organizational meeting representing all faiths that 'confidential information available to the Anti-Defamation League reveals that Jews and other minority groups in Denver are subject to flagrant and widespread discrimination."

The ADL director said, "the proposed FEPC law which the newly-organized Colorado Committee for Equal Employment opportunities is determined to place on the Colorado statute books in this month's sessions of the state legislature will go far to remedy this intolerable situation."

The impending passage of a state FEPC act, it was learned, has been the goal of minorities throughout Colorado for more than 10 years.

The Bomb—Let's Face It!

By ROY O. GILBERT, M.D.
Los Angeles County Health Officer

Fear of the effects of atomic warfare is something new to the American people and many individuals have yet to adjust themselves to the ominous shadow that it casts over their lives. It is nothing of which to be ashamed. Everyone has fears of one sort or another and, in some measure at least, most people learn to live with them. One cannot ignore a thing like atomic fear and it is not conducive to inner peace to bury all thought of it deep within the subconscious mind where it may spread its insidious poison. Nor can many of us run away to remote places and many of us would not do so if we could. It is our problem and it is up to us to meet it with courage and resolution. Understanding and preparedness will help us to do so.

In the opinion of many of our leading atomic scientists, the atomic bomb, although catastrophic to a terrible degree, will not wipe out the human race or come anywhere near doing so. It is even stated that a number of 1,000-pound T.N.T. bombs, like the block busters of World War II, would be much more devastating than the atomic bombs in cities such as our where the buildings are largely composed of steel and stone or reinforced concrete and brick. This is an important factor since Major De Seversky, one of the nation's foremost aeronautical experts, has published reports of his visit to Hiroshima and states that he actually spoke to inhabitants of that city who had been in a concrete building just three blocks from ground zero—that point on the earth directly underneath the bomb—at the time of the explosion. Although there was no warning whatsoever, most of these individuals survived.

The atomic bomb is a fearsome thing, the most powerful weapon of warfare that the misguided ingenuity of man has yet invented but protection against its destructive forces is not impossible. Civil defense committees are organizing rapidly and work on the planning of adequate shelters and necessary medical services goes on unceasingly. But the individual also has a grave responsibility. H[e] should understand what to e[x]pect and help himself and o[th]ers as much as possible. To [a]in this task, a pamphlet of pr[ac]tical information has been p[re]pared by the Los Angeles Cou[n]ty Health Department, 808 Spring St., Los Angeles 12, a[nd] a copy of it will be mailed [to] anyone who sends in a card [or] request.

Whether, like Hamlet, we b[e]lieve that "there is a divin[ity] that shapes our ends" or whe[th]er we feel there is much we c[an] do to help ourselves, it is certa[in] that, for our own welfare a[s] that of others, atomic fear is [one] things that we should face [up] to and handle constructively. Such an attitude may be t[he] means of sparing us great mi[s]ery later on.

Pedestrian Hazards

Year after year, two-thirds [of] those killed over the nation i[n] traffic accidents are pedestrian[s]. Most of those who meet dea[th] while crossing streets are [in] tempting ot cross between inte[r]sections where drivers do n[ot] anticipate the presence of pede[s]trians. The greatest number [of] fatal pedestrian accidents occ[ur] during the hours of darkness.

Motorists must always stop f[or] persons walking across streets [at] intersections or in marked cros[s]walks in the middle of the bloc[k]. Utmost care should be used i[n] passing other cars which ar[e] stopping or slowing down as the[y] may be doing so to allow an un[-]seen pedestrian to cross th[e] street.

TURN-ABOUT IS FAIR PLAY. Give pedestrians the same cour[te]sy you expect when you chang[e] from the role of driver to pedes[-]trian.

Many lives can be saved i[n] this area each year if drivers will:

1. Drive cautiously where pe[-]destrians are crossing the road[-] way.

2. SLOW DOWN—ESPECIALLY AT NIGHT!

November, 1950, has been de[-]signed as PEDESTRIAN SAFETY MONTH in the Los Angeles area. The Boy Scouts are sponsoring this campaign. Give them your cooperation.

Pacific Town's Dance Is Season's Topic

By WINI ORR

Thursday found us all a dither at the prospects of attending another of the Pacific Town Clubs very select dances. Certainly it was raining with the gusto that only a California "Mist" can attain, but it certainly did nothing to dampen the spirits of the scintillating women and their handsome escorts who filled the El Sombrero Ballroom to dance to the music of the two orchestras.

There seems to be something about coming in out of the rain and "unveiling" on just ordinary rainy days, but this particular night the jewels sparkled and the gowns were resigners choices as the top business and professional men o fthe city took their ladies wraps.

Celestus King was os handsome in his evening clothes as he admired his Leonayn (she was one of our selections for the Representative Ten Best Dressed Women), and it might be fashion wise to mention now that at least three of our selective ten were gowned in white, namely, Mrs. David Williams, Mrs. Horace Clark and Mrs. King; the Walter Millers; Mrs. Clayton Russell, Lilla and Tony Moore; Dr. and Mrs. Wayne Howard (he is the top man in our book for any treatment of the eye); the very prominent Walter Gordons, hotel man Horace Clark and his Betty. (We have already mentioned how lovely Betty looked in white starched lace:) popular newspaperman Chester Washington and his lovely Alma; the Bill Keers (happy birthday Catherine) Golden State Life Insurance Kelly Williams and it had been a really long time since we had the pleasure of a long chat with Mrs. Williams who looked simply lovely; Sadie Louise and Dewey Davidson; Arthur and Thelma Houston in from their ranch at Corona, which proves the rain was no handicap to this affair; the A. M. Benjamins, he is the very successful conductor of a cleaning establishment and Fannie, besides organist for the Indepent Church is right hand woman at Conner and Johnson Funeral Home too; Mae Castleman, representing the pretty side of Real Estate and let's not forget our Isidore Brown either; Sterling and Jennie Wagoner, (that's our own "Pauncho" and his giftshop Senor); Pat and George McCloud; the Otto Johnsons Robert Britt, Sr.'s; Ernie and Lula Bendy (that Dynamite Jackson); Dr. and Mrs. Jerene Webb, Dr. and Mrs. Griffith (he is Pharmacist at the Taylor Medical Bldg.); and Dr. and Mrs. P. Taylor; Dr. and Mrs. J. D. Fowler, Lucille and Wilbur Ashford, Ruth Epps, Hazel Washington, Nat and Juanita Watts, and we could just go on naming the different ones we said "hello" to.

Of course there were any number of pre-dance affairs, outstanding perhaps was the wonderful cocktail party the Edward Atkinsons had at their Hobart Avenue home, entertaining the Wilfandel club and their escorts.

Batchelor-Interior decorator George Mosby had a small select group of friends in for Hor's D'Ouerves and cocktails. His apartment is certainly the last word in modern Chinese furnishing and the perfect setting for the sophistication that George likes.

With the gradual lifting of her head Society returns to normalcy after the Hectic Holidays. The scenes are ever shifting and the whirl is frantic as visitors to our shores are extended the hospitality Southern California is noted for, and the Home Folks go about their every day enjoyment of living

The past week for us couldn't have been more varied as we went from one delightful affair to the other so that we might bring to our readers the very best the Social scene has to offer.

Out to the Academy Award Theatre to pre-view the new Errol Flynn picture "Kim" and which we found exciting and full of thrills. But wait—it wasn't Mr. Flynn who gave us the goose pimples, but little Dean Stockwell who litterally steals the flicker right from under the dashing Errol. Make this a must when it is released.

If we don't move on we might forget to tell you so many other little things that came up during the week, but as you have gathered this Pacific Town Club Seventh Annual Mid-Winter Formal was the last word in elegance.

Our mail brought us an invitation to the wedding of Joyce Elaine Finney to Herbert Alvin Howard Jr. who happens to be the son of our very oldest friend, Theresa Lindsay. Independent Church of Christ will be the setting and the date is the Eleventh of February.

J. L. and Argralia Earls aren't content with their respective business, so they have bought themselves a sandwich stand on Avalon. Mrs. Earls has her own thriving beauty shop in South Los Angeles and J. L. has been in the liquor business for several years, so now they are branching out. Good luck.

The ever busy Zenith Charity and Social Club enjoyed a distinctly unique evening as the guests of Dr. and Mrs. Thomas Roy Peyton.

No doubt Dr. Peyton is best known for his specialized field in the Medical realm, but what most people do not know is that the man is an accomplished pianist and we are inclined to believe, a bit of a humorist too. To top his many talents, Dr. Peyton's book, "Quest for Dignity" is now published. The first edition is out, and the critics are giving it top praise. People like Mrs. Eleanor Roosevelt, Dr. Harry Bacon (Temple University, Philadelphia); Dr. Glen Lukens, of the University of Southern California, have read "Quest for Dignity" and are unanimous in their praises of the Doctors Biography. The Los Angeles Times also did a review on the book.

While we are talking about authors in our town, we had a nice note from Grace Bush, composer, poet, lecturer, and pianist, who is at home now and available for lectures. Mrs. Bush has just completed a two months tour of the south and did programs at some of the colored colleges in Arkansas, Oklahoma, Florida, (including Cookman College in Daytona). So keep a look out for announcements of her appearances and don't miss the treat.

In the lighter vein we had the pleasure of wishing our good friend Juliet Ball oll of the good things, on her engagement to Billy (Rookie) Brown of the fabulous Harlem Globe Trotters Basketball Team. Billy has just starred in the not yet released Columbia film "The Globetrotter Story." The kids certainly make a handsome couple and from all indications will be very happy as Billy only has eyes for his Juliet. We think he's a lucky guy.

Can't remember when we have had as much fun as we did out to the Potomac Avenue home of the Bob Walkers. He owns the Central Riding Academy and they really have the art of hospitality at their fingertips. Eunice has just gotten over a bout with pneumonia, but seems good as new.

Hardly able to keep her tired eyes open, Virginia Johnson and Bob were over to the Walkers until the wee hours as a wind up to Virginia's birthday. Bod had managed to do the almost impossible and actually surprised Virginia with a party of which she had no knowledge at all.

Mostly everybody sooner or later and we are inclined to think it was later, dropped over to wish the Virgil Bensons happiness at their reception. It was one of those very informal affairs with lots of refreshments and didn't break up until almost dawn.

Just prior to his leavetaking for Mexico City this Monday past, the re-nowned Reverend Clarence Cobb from Chicago was the dinner guest of the Reverend and Mrs. Clayton Russell at their beautiful West Thirty-Sixth Place residence. The fabulous Rev. Cobb is heading South of the Border for a six week vacation and is taking his cook and chaffeur with him to the land of sunshine (that is the OTHER land of sunshine). Must say the Russells certainly entertained lavishly and the food was something to dream about, and we did just that, what with it all being a lovely midnight buffet. After all there were services Sunday night and after that the choice friends of Reverend Cobb gathered to chat and visit and wish him God-Speed on his trip.

Guests: Mrs. Charity White, Rev. Mattie Thornton, assistant to the Rev. Cobb in Chicago; Dr. Emmett Wallace from Oklahoma and brother to Dr. Andrew Wallace of our town; Mrs. Andrew Wallace, Horace and Betty Clark, the Celestus Kings, Sr., Mr. Hadnot, of Chicago; Leonard Senters, Mrs. Bernice Brown, Mr. and Mrs. Roland Wood, Laguna Beach; Harold Russell, Faye Myrick, Grace Fagan, Darlene Webster, the Willy Smith's (he is ace trumpet player with Harry James); Jacqueline Freeze, and Mrs. Hall of Chicago.

A small party honoring bride-elect Lexi Anthony and her fiance, John Henry was given by the relatives and close friends of the betrothed couple last Saturday night at the home of Mr. and Mrs. William Warren, sister and brother-in-law of the prospective bridegroom. Guests were Messrs. and Mesdames: Sanford Hollis; Arthur Rosser and Miss Mozelle Mack.

Can't seem to go to press without mentioning the Zenith's and we really don't mind as we are proud to belong to a club that bears the name "Charity" and means just that. The girls, in a body bought their Saturday night dinners from Isaphine Newton. There isn't anything unusual

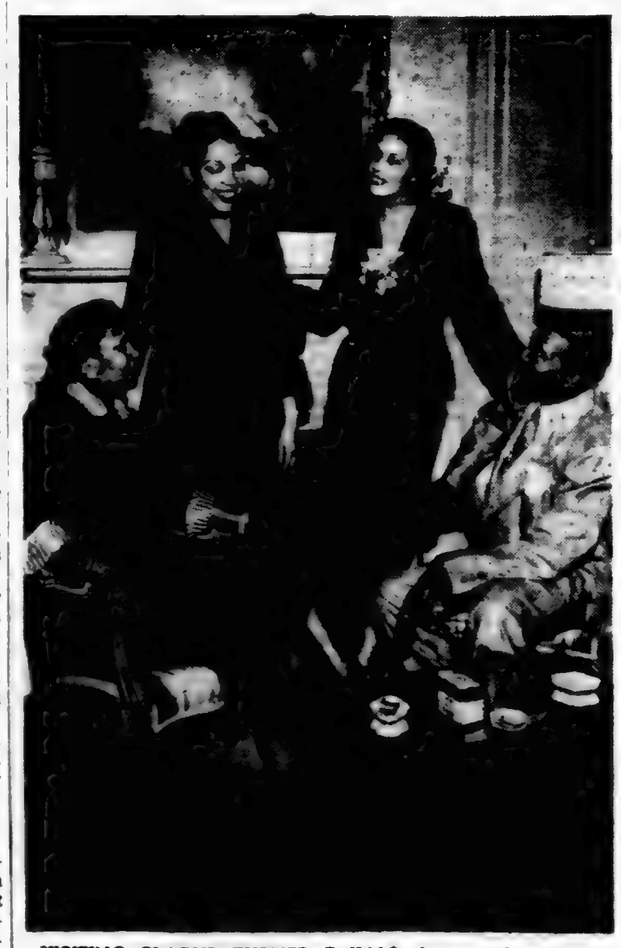
about buying a good dinner out, but in this instance the Charity was to help buy two artificial limbs for Mrs. Newton, who lost her legs thru a faulty operation. The dinner was sponsored by a group who call themselves the Angels of Mercy Club, and they are.

The Eastside Benevolent Society wish to extend their thanks to Mrs. Margaret Pett, Mamie Everly and Aleen Thomas for the services they gave at the annual banquet.

We wish to congratulate The Eagle on its new maanger, Mr. Henry J. Kirksy. It shouldn't be necessary to remind the old timers in our own that the **Eagle** is the oldest Negro owned and operated newspaper on the West Coast, and has in the past been one of the best and will be in the future. We hope to work with the new staff and bring to you the best in news.

Couldn't miss running this little paragraph we saw in this weeks Time magazine: "Virginia": The National Association for the Advancement of Colored People clamped a boycott on a scheduled Richmond concert by Negro Singer Marian Anderson. Reason: White people were being discriminated against. All the choice center section seats had been reserved for Negroes."



The Special Activities Committee of the local NAACP will hold a social meeting this Thursday night (that's tonite). Mr. Williams, our West Coast director will be on hand.

We certainly have a cute title for the column, sent in by—well, maybe we will wait until next week and use it, and perhaps we will have a little more on the person who submitted it. We have to get with this new setup here in the office and then we will better know which way to go. One way or the other, we feel the **Eagle** is in capable hands.

Remember Gladys Turner? She left for New York about six years ago and we hadn't seen her since we came home from the City, and so it was really a pleasure to visit with the present Mrs. de Kalb of New Jersey. She is personal secretary and traveling companion to Anita Loos Author of the never-to-be forgotten "Gentlemen Prefer Blondes." They have been in town for a few weeks, while Miss Loos confers with writers about her new story "Happy Birthday" which one of the major studios is preparing to film. They leave this week for New York and will return a little later in the spring when shooting starts on the story. Glayds handles all of Miss Loos personal mail and has finished a secretarial course since we last saw her which helps make the job easy.

Leola Reese entertained Les Dames for their first meeting in the new year, with one of the most delicious dinners it has been our pleasure to enjoy. (Oh my calories). Gertrude Gipson picked up her gavel as president of the prominent women for the first time.

For now, we leave you with this one thought: Keep reading the **EAGLE.**

MR. and MRS. WILLIAM WHITE, JR.

Cobb-White Nuptials Spoken by Candlelight

LOS ANGELES—A quit but impressive ceremony in the picturesque confines of historic old Israel C.M.E. Church, Washington, D. C. united pretty Marcelyn Rose Cobbs, daughter of Dr. and Mrs. P. Price Cobbs of this city and William W. Whyte Jr., of New Haven, Conn. in holy matrimony. The Rev. J. L. Burton, pastor of the church officiated. Entering the candlelit chapel of the picturesque old church on the arm of her father, the bride was a vision of queenly elegance in an imported French satin gown lavishly trimmed with Venise lace. The decollette neckline was artistically designed into the old fashioned berthacollar. Generously trimmed with the Venise lace it enhanced the fitted bodice and flowing skirt. From a matching tiara fell an ilustion veil of white nylon net also edged with the Venise lace. She complimented her attire with satin slippers and pearl accessories, and carried a cascade of camellias and sweet peas. This was held in tact with tiny satin ribbons.

Styled also similar lines as that of the bride, the gown worn by Cammille Lee, maid of honor, was of pink satin and nylon net. Her bouquet was also of camillias and sweet peas.

The bride's mother chose an aqua blue crepe gown as her attire. The entire bodice was adorned with tiny crystall beads. The slightly flared skirt featured two floor length back panels. Mrs. Cobbs wore an orchid corsage, as did the groom's mother.

Her gown of lush bronze cerepe also featured a back panel interest. She complimented her attire with gold accessories and navy blue pumps.

Currently working on her Master's Degree in Education at Howard University, the new Mrs. Whyte was graduated from that institution in June, 1949. She is a member of Delta Sigma Theta Sorority. The groom is a graduate of the Engineering School of Howard University.

The couple is at home to friends at 2101 New Hampshire Ave., Washington, D. C.

GREATNESS

It has become a habit of this writer in the past few months to comment on those things which seem to crop up during the course of most musicians' lives.

Most of us want recognition or greatness in some form during a lifetime and set out to gain ends often forgetting the means. Let us start with the definition of the word "great." "Something or someone that is eminent, able, and honored, as a great man of extraordinary magnitude or intensity," is great.

Most of us have heard of persons who fit the definition, but how many of us are able to judge true greatness? Oh yes, you will say he holds a B.A., M.A.,Phd., PDQ., and maybe B.O. You will say he has been abroad and rubbed noses with kings and queens, and you Mr. John Q. Public will stumble over many people(often missing someone with the potentialities of being truly great), to speak to or shake hands with the "great one." You may smile, but isn't this true?

Is one great because he is able to hang several pieces of paper on the walls of his library from various universities? No! Education is just part of the game. Humbleness, kindness, sincerity, love of humanity, personality, and God are the important remaining qualities for the making of great men and women. Which bracket do you fall into?

INTERVALS

Ask Anti-Bias Interpretation of Ry. Labor Law

WASHINGTON — A request that interpretations written by the Senate Labor Committee for the new amendment to the Railway Labor Act be clarified to insure safeguards against racial discrimination was made last week by Clarence Mitchell, director of the Washington Bureau of the National Association for the Advancement of Colored People.

Mr. Mitchell wrote John Thadd Scott, chairman of the National Mediation Board, citing a proposal by Sen. Herbert H. Lehman of New York that the committee's interpretation of the amendment be made clear. The interpretation said, among other things, that "if an employee is denied membership or is eligible for membership only on terms and conditions not generally applicable to other members, he cannot be requested to give up the job because of failure to join a labor organization."

"Our interpretation of this language," Mr. Mitchell states, "is that (1) colored workers will not be required to join segregated locals, or be forced into Jim-Crow auxiliaries; (2) unions which act as the collective bargaining representatives for a craft or class cannot charge colored members a higher fee than white members, and (3) no unions may make agreements with employers barring colored persons from jobs, training, or other benefits solely because of race."

The NAACP official asked Mr. Scott to "indicate whether your interpretation is the same as ours."

Okay Suit In Garment Workers Case

Superior Court Judge Julius V. Patrosso today held that the International Ladies Garment Workers Union had stated a cause for action in its $500,000 suit against Gladys Mead Selvin, doing business under the name of Women of the Pacific.

The complaint states that Women of the Pacific induced Anita Sportswear Co. to breach its contract with the Union which had been in effect since 1947, had induced the employees of the firm to resign from the Union, had instructed the company not to deal with the Union in any way and had done other acts maliciously for the purpose of causing dissatisfaction and unrest in the Union and in an attempt to destroy the effectiveness of the Union.

Judge Patrosso held that the Union should supply the Women of the Pacific with names of employees who resigned. Attorney David Sokol filed an amendment for the Union, listing the names of the employees who allegedly were coerced into resigning.

The Court overruled objections that the Union had no right to sue for damages under the Taft-Hartley Act.

Humanists Meet

A. Brownstein, former labor mediator, was the principal speaker at a meeting of the Humanists held at 2307 South Union avenue, last Sunday morning. His subject was: "Humanism, a Faith or a Movement."

7TH DISTRICT STREETS IN 'BAD CONDITION'

Recently submitting a report to the City Council entitled "Suppemental List of Critical Deficiencies in the Street and Highway System of the City of Los Angeles," Lloyd Aldrich, the City Engineer, brought to the attention of the Councilmen that the total of the critical deficiencies in the State and Highway System for the entire city of Los Angeles totals $122,829,600.

In the 7th District great rapid strides have been made to cut the deficiencies down in the past few years when the storm drains were put in on Santa Barbara Ave., from Normandie Ave. to Sixth Ave. and the Santa Barbara Ave. tracks were lowered and the boulevard widened; the paving of Central Ave. the entire length of the street and the lighting obtained on the street, and man other major improvements have cut down the critical list of deficiencies in the 7th District to a large degree in the past three years through the constant application and cooperation with other governmental agencies of Councilman Don A. Allen, and due to his long service in the State Legislature, many of these major improvements have been accomplished.

There yet remains approximately one-third of the deficiencies to be taken care of in the next few years, to the extent of $2,192,700.

Heading the list, of course, is the opening of Exposition Blvd. from Gramercy Place to Crenshaw Blvd., which should take place sometime this summer, at the total cost of $346,000, and this will also provide for the widening of Rodeo Road from Gramercy Place to Cimarron, eliminating that bottleneck.

$154,000 will be requested to provide a heavy type pavement on Colisum Street from Seventh Ave. to Santa Barbara Ave.

A connection to Hoover St. at Exposition Park from Figueroa St. has been estimated to cost $299,700.

The extension of Hill St. from Santa Barbara Ave. to Vernon Ave. has been figured at $238,000.

Coliseum St. west from Santa Barbara Ave. to La Brea Ave. has been figured at $160,000.

In addition to these items, Councilman Don A. Allen has requested information of the City Engineer's office to investigate the critical situation as pertaining to storm drains at Western Ave. to 39th St., Coliseum and Crenshaw Blvd., the re-paving of Hoover Street from Santa Barbara to Vernon Ave., as well as several small but numerous portions of streets on the east end of the district. Also in addition to the aforementioned items, which affect the 7th District, other items affecting the 7th District in part and shared with other districts amount to $3,941,800. They are:

Exposition Blvd., Hill St. to Hope St., lying in the 10th and 7th Districts—$185,000;

Exposition Blvd., Figueroa St. to Vermont Ave., which will remove the poles from the center of the street to the curb—$260,000.

Los Angeles Street, from 23rd St. to 37th St., opening and widening which affects both the 10th and 7th councilmanic districts—$816,800;

The widening and improvement of Normandie Ave. from Vernon Ave. to Slauson, which affects the 10th, 7th and 6th councilmanic districts, and which still remains in the distant future approximately five or six years before completion—$2,180,000.

A street-rail and grade separation at Vernon Ave. and P.E. Railway Co., which has been a dangerous situation for many years, affecting both the 7th and 8th districts, has been estimated at $500,000.

As most of these items will eventually be paid for out of the State Gasoline Tax Funds, they will be in progress over the next few years as rapidly as those funds become available.

With the constant maintaining of secondary streets, both from the paving and lighting standpoint, and the acquisition of Parks and Playgrounds, it has promised to be a major undertaking.

These measures will all be planned in the future as in the past by the assistance of Councilman Don A. Allen so that the interruption of normal business is held to a minimum.

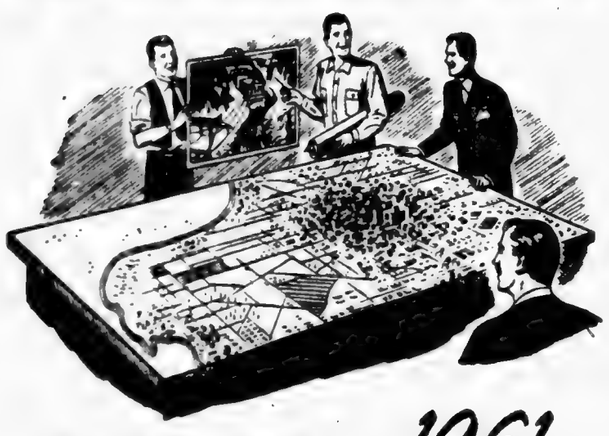
Old? Not Until 100



With the passage of time, the life span keeps stretching out. Many an individual today, who reaches the age of 65, hears only of the life expectancy at birth and does not realize that at this age he can look forward to approximately 14 additional years of life.

If he survives these, another seven may be forthcoming and if this hurdle is safely passed and he attains the age of 85 or 86, there is the possibility of still another four. At this reckoning the statistician ceased his labors but the fact remains that, in the United States, it is estimated that one person out of every 100,000 lives to be 109.

Power Potential

Canadian rivers are estimated to have one-fourth of all the potential hydroelectric power in the world.

LOS ANGELES CITY-OWNED DEPARTMENT
WATER AND POWER

Building NOW for 1961

PLANNING AND BUILDING for the city of the future—the Los Angeles of 1961, 1971, or 1981. That is the challenging responsibility imposed on your Los Angeles City-Owned Department of Water and Power by the continuous growth of Los Angeles. This fact is the keynote of the vast program of expansion of water and power facilities, of which the accomplishments of 1950 are typical.

EARNINGS SUPPORT $50,000,000 IN IMPROVEMENTS. Last year your Department furnished all the water and electricity you could use at surprisingly low rates. At the same time, it invested $50,000,000 in additional improvements for the future, for *your* future. This investment is being paid for out of current and future earnings.

IMPROVEMENTS IN YOUR WATER AND POWER SYSTEMS. The new Baldwin Hills reservoir will go into service in 1951, adding 293,000,000 gallons of pressure regulatory storage. The reservoir and new main trunk water lines which have been completed from Franklin Canyon to Baldwin Hills and beyond to Century Boulevard, form a $10,000,000 improvement. Other reservoirs were modernized, new pumping facilities built, and additions made to the purification system. And 145 miles of new water mains went in. *Power* from the giant $42,000,000 Owens River Gorge project will begin to flow into Los Angeles in 1951 over a new 258-mile 230,000-volt transmission line. This will add 112,500 kilowatts of needed energy. A new $58,000,000 steam generating plant is to be started this year, and orders have been placed for two of the four huge 100,000 kilowatt generators. Power receiving stations were improved and new distribution stations and industrial transformer stations went into service. More than 500 miles of new power distribution lines were installed.

Sarah Vaughn Elected No. 1 Girl Vocalist

NEW YORK.—Sarah Vaughan, the gone gal with the magic voice, has for the fourth consecutive year been elected America's No. 1 girl singer in the annual popularity polls of both "Down Beat" and "Metronome," the two leading music trade journals.

Just as in past years, Sarah topped both polls by a decisive margin, rolling up a majority of double the votes of her closest competitor, Ella Fitzgerald. The incomparable singing star has literally dominated every major popularity poll ever since she first gained nationwide recognition a little more than three years ago. Her first major recognition had come with her winning of the 1947-48 "Down Beat" and "Metronome" polls.

The February issue of "Metronome" pays fitting tribute to Miss Vaughan as the "Queen of Song" by spotting one of her latest pictures on the magazine's front cover.

Eunice Davis New Singing Sensation

NEW YORK.—Harlem's newest blues sensation, lovely Eunice Davis, last week hit the jackpot by being signed to a two-year contract as an exclusive recording artist for Derby Recording Company.

Writing lyrics always has been her greatest ambition. Among her compositions was a lusty blues number titled "Rock Little Daddy," which she took to Larry Newton of Derby Recording Company. He liked the number and agreed to wax it with Freddie Mitchell's Band.

On the day of the recording session Freddie Mitchell showed up at the studio minus his vocalist, but time and recording sessions wait for no one. Prexy Newton of Derby asked Miss Davis to sing the lyrics of her blues "Rock Little Daddy" so that hte band could hear the melody. When he heard Eunice Davis sing the lyrics his decision was made. "Here," he said, "is truly an outstanding singer. Eunice Davis must record for us." It now looks as though the talented young lady is headed for success. She just signed a management contract with John Levy, personal manager of Billie Holiday.

Flames and Benny Carter On New Disc

NEW YORK.—The Three Flames, who were just recently signed to a Columbia recording contract, presently find themselves in the unique and highly desirable position of having hit records on two major labels.

The Flames started off with a bang by turning out a solid hit, "Succotash Baby," for their first Columbia release and simultaneously are scoring with their waxing of "I Don't Want to Take That Chance" on the MGM label.

Prior to signing with Columbia, the Flames had been under contract to MGM and now both disc firms are giving the group some heavy nationwide promotion. Benny Carter's band provides the musical backing for the Flames on "Succotash Baby," while Milt Buckner's crew is in the background on "I Don't Want to Take That Chance."

HARLEM'S NEWEST singing sensation . . . Eunice Davis seems to have been the recent upset in New York's vocal department. Her first waxing "Rock Little Daddy" is slated to be a "natural."

March Of Dimes Show Monday At El Sombrero

Certainly at the present time there is no worthier cause, nor one more needy, so why not combine your efforts, attend the show and at the same time you will be giving to the fund that will help fight polio.

NAPIER QUITS FILM VILLAINY

HOLLYWOOD.—Alan Napier, a man who has been easy to hate on the screen, is through with movie villainy for the time being. Signed by Producer Sol Lesser for the RKO Radio picture, "Tarzan's Peril," Napier plays his first sympathetic role since 1947, that of a kindly British district commissioner in Africa.

HEADS MARCH OF DIMES SHOW . . . Eythel Gordon, attractive wife of the city's prominent Atty. Walter Gordon Jr., will head the mammoth March of Dimes Show at the El Sombrero Monday night under the sponsorship of the National Council of Negro Women.

GRAINGER'S NEXT IN ENGLAND

Roy Milton Reopens At Last Word

Featuring the music of Roy Milton's Solid Senders and his great revue, beautiful Club Last Word, 4206 So. Central Avenue, reopens this Friday night for the duration of Peace or War.

The plush nitery has been closed for the past several months.

Under the new management, popular prices will prevail at all times, with a minimum cover charge ,top rate beverages, good food and the best of entertainment.

Indicative of this latter is the singing of Milton's sterling aggregation as the initial attraction.

Roy boasts of one of the nation's outstanding musical crews with such artists in his lineup as Camille Howard, Johnny Bogers, Freddie Clark, and Jack Kelson. Each is a great star in his own right.

Maestro Milton with his inimitable vocalizing and drumming adds nightly to the band's prowess.

There will be three complete shows nightly at the Last Word, and plans are being to broadcast a portion of the dance music each evening.

Kay Armen and Ralph Young Meet Sinatra

LOS ANGELES.—Kay Armen, known along radio's giveaway trails as the singer on "Stop the Music," will answer some questions herself when she appears as guest star on "Meet Frank Sinatra," to be presented by Tintair, the home hair coloring, over the CBS radio network Sunday, Jan. 21, at 2 p.m. (PST).

Miss Armen, who is a leading recording artist as well, will be joined by talent guest Ralph Young, an up-and-coming young singer whose recent recordings have caught the attention of disc connoisseurs.

HERE THEY ARE: Louis Armstrong, the trumpet king of swing, and his All-Star combo, will appear in another in the series of impresario Gene Norman's famous "Just Jazz" concerts, Tuesday, January 30, at the Pasadena Civic Auditorium.

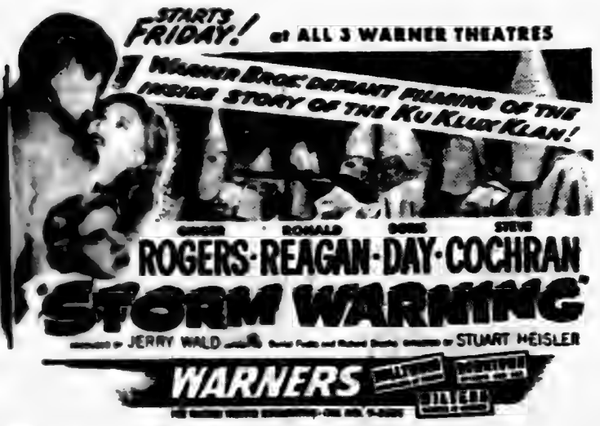
FEELING BETTER . . . Sidney Poitner, noted actor who is shown here in his doctor's uniform from a scene of one of his late pictures, recently had to call in an MD but reports from the big city now have it that Sidney is much improved.

HOLLYWOOD.—Jane Greer, back at RKO Radio in "The Company She Keeps," after several months of idleness, lost a pound a day during the first 12 days of work. Her doctor has placed her in a special diet to regain the lost poundage.

Tallulah Bankhead Makes Record Debut As Vocalist

Stage and screen star Tallulah Bankhead makes her recording debut as a vocalist with a Columbia recording of "I'll Be Seeing You" and "You Go to My Head."

Accompanying Miss Bankhead on her first commercial singing recording are pianist Joe Bushkin and his Swinging Strings.



Miss Bankhead regaled her recording studio audience with quotations from Shakespeare between "takes," notably "If music be the food of love, play on . . ." from "Twelfth Night." Although she repeatedly thanked the assembled musicians, engineer and recording director, Mitch Miller, for their patience and co-operation, Miss Bankhead announced that she would be happy to return to the stage and acting!

Advised early in the session to stand close to the mike so that her song lyrics would be heard as distinctly as possible, the famous actress replied, "Don't worry about my diction—you can hear me in left field!"

Miss Bankhead, a self-styled "Alabama hillbilly," arrived for her recording stint attired in slacks and sweater, took her shoes off during the session.

Don't Do It, Jeff

When they got rid of Jeff Cravath everyone thought that U.S.C. would be able to go out and get a coach without too much trouble. It was supposed thta good coaches would fall over themselves at the opportunity to come out to the land of sunshine. After all, the University of Southern California is supposed to have lots of stature and much prestige is connected with the position of head football coach.

Art Lewis

But now, after observing the Ray Eliot episide, no coach in his right mind would accept the post, at least not a top-ranking coach, which is what they seem to want over at Troy.

Ray Eliot, while not the top coach in the land, is a good ont and probably would have done well at SC. But at that Mr. Eliot didn't do too badly for himself. The plane trip out here and back probably resulted in a nice increase in salary for him at Illinois. Other coaches seeking pay increases would do well to follow his example.

Of course, I suppose that the SC alumni groups, who seem to be in control of the situation, know who and what they want. But if they can't get it, then what?

At the rate that they are progressing they may be ultimately compelled to beg Jeff Cravath to come back.

The Eagle Eye

Abe Saperstein, Harlem Globetrotter mentor, was more than a little interested in the recent all-city high school basketball championships in which Jefferson high walked away with all the honors. Always on the lookout for possible talent, he was particularly impressed by J. C. Gibson, six foot seven inch center of the Democrats.

As an owner, coach, manager, scout and promoter, Saperstein has won international acclaim for over 24 years of activity with the Globetrotters. His other team, the New York Rens, is in many cases a proving ground for the Trotters and often contains outstanding young high school graduates. Hence his interest in Jefferson high. He is also a famed figure in baseball, his diamond Globetrotters holding rank as one of the best of th enation's barnstorming nines.

He had a hand in the development of such men as Satchel Paige, Luke Easter, Dan Bankhead and others. As a scout for the Cleveland Indians, he engineered the signing of Paige, Easter and others. Easter, by the way, is traveling with the Globetrotters this season as team secretary.

Only Californian on the team is Ermer Robinson from San Diego. He is the brother of Ivan Robinson, formerly of San Jose State and currently attending Long Island University. Ivan will be remembered as one of the outstanding members of the Omega team of the local inter-fraternity series. Ermer is now in his sixth season with the Globetrotters. His one-handed push shot is regarded as the best in the game and with it he has averaged around 23 points a game during his 'Trotter career.

For those of you who missed their great performance here last week, you can see them when they return on Feb. 22 to play at the Shrine Auditorium.

Jersey Joe Walcot gets his fourth try at winning the heavyweight title in Detroit on March 7. Charles is at least a busy champion. He probably wants to get the most out of it while he still has it. . . . Logically. Echoes of the Charles-Oma fight are still coming in. But as he has said himself, "What do they want, a killer-type champion?"

"I've fought everyone suggested. I do my best each time, what more do they expect?" Over at the Olympic Auditorium they still say that a Charles-Clarence Henry fight is still "in the making." Henry, meanwhile, is in the east where he is scheduled to fight Bob Satterfield.

THE HARLEM GLOBETROTTERS relax, above, with friends at an informal dinner party given Sunday at the close of their 3-game Los Angeles stand. Left to right they are (seated) I. Jackson, manager; Henry Singleton, Pop Gates, Stan Bergstein, (standing) Frank Washington, Bill "Rookie" Brown, Harry Hannin, associate producer; Marquis Haynes, Abe Saperstein, owner and coach of the Trotters; Bob Davis, local actor; Phil Brown, producer of the Globetrotters' motion picture and at whose home the affair was given; Clarence Wilson and Will Jason.

Globetrotters To Return To Los Angeles On Friday, Feb. 2nd

Those razzle-dazzle Harlem Globetrotters will return to Los Angeles on Friday night, February 2, for one night only at the Shrine Auditorium.

As was the case at the Pan Pacific recently, the Trotters will be accompanied by three fine pro outfits: the New York Rens, the Philadelphia Sphas, and the Boston Whirlwinds. Pairings for Friday, February 2, have not yet been announced.

Owner-manager-coach Abe Saperstein, the busiest hombre in pro athletics, hopes that the inimitable Reece "Goose" Tatum will be back in the line-up for full duty by that time. At the moment, the Golden Goose has his left hand in a cast; he broke it at Pueblo, Colorado.

Leave it to the Goose to make a joke out of it. If you ask him how-come his hand is in a cast, he looks at you solemnly, without a twinkle in his eye, and says:

"Well, I was in the mood for a smoke; I reached out to get a cigar—and a big 300-pounder stepped on my hand."

The Globetrotters consider the Shrine Auditorium their "home" arena in Los Angeles; they have played there for many years—ever since they first started coming to the city of the Angels.

At the time the Trotters left here Sunday afternoon for the North, following their engagement at the Pan-Pacific, they had rolled up 83 straight wins for the season, with no defeats—a grand total of 3,504 victories since they started in business, 24 years ago.

Their schedule this season calls for 301 games, which is far above and beyond the nearest competitor, and smashes their own mark by many games. In addition to their customary swing of the U.S.A., there's the invitational tourney in Havana, Cuba; a trip to Europe, again; and an invasion of South America.

SANTA ANITA—Special Touch, the 4-year-old daughter of imported Alibhai, showed her fast California heels to some of the greatest of her sex from all parts of the country in winning the Santa Margarita Handicap. Taking the lead at the break she never looked back. Jockey Wee Willie Shoemaker knew his filly as he had ridden her in four races and won them all. It was a great victory for the California bred. She ran the 1⅛ miles in 1:48 3/5, paying in the mutuels $13.20.

This Saturday the main event will be the San Felipe Stakes for 3-year-old colts and geldings at seven furlongs, and carries an added value of $50,000. We are very happy to learn that Fred Purner, ace publicity director of Santa Anita, is recovering from his illness and hope to see him up and around in the near future. The day's attendance was 41,000 and the mutuel handle was $2,369,154.

CALIENTE IN OLD MEXICO—Running the fastest six furlongs on the new strip this year was Starburn in capturing the featured event, the San Marino Handicap, by two lengths over the fast-closing He Kuene and the tired favorite, Cuffie. Always close to the pace, Starburn took the lead at the turn for home and won going away, paying in the mutuels $11.60. The time was 1:11 flat.

In the secondary, Katie Pease won an upset victory to the surprise of about 7500 lovers of the sport of kings . Jockey Jack W. Martin took the daughter of Beauty Flag to the front and scored a wire-to-wire victory, bringing thrills to the longshot players when she rewarded the big mutuel of $73.20. It was the first time that she had ever gone the distance and the public held her very lightly.

Big V Lady, second choice in the mutuels, made a game try to catch the winner but failed by a neck. The form players were all smiles as the first four favorites on the 12-race card came home in front, but the last eight brought woes to them. The daily double combination of Hill's Glory, winner of the second race, and La Jolla Hiker, winner of the third, paid $13.40. Both horses were the public choices.

In the quinela, which was changed from the last race to the tenth for the convenience of the patrons, paid $130.80 when Katie Pease was first and Big V Lady finished second. Hill Prince still remains the favorite in Walter C. Marty's future book on the Santa Anita Handicap. The feature for this Sunday will be the Inglewood at one mile. Post time, 12:25.

Angelites Gun Club To Build Clubhouse

Work will begin just as soon as a suitable site is found, and the necessary plans drawn. At present the club meets at the field house in South Park, 51st and Avalon. The next meeting will be Feb. 1, at 8 p.m.

Atty. Marshall Denton Jr., president of the Angelites, invites every man interested in this type of activities to come out and join the group. Very interesting moving pictures about hunting and fishing will be shown at the meetings, in addition, refreshments will be served, and there is no charge of any kind.

Ike Williams KOs Zannelli In Fifth

World lightweight champion Ike Williams, attempting to prove false the reports that he is slipping, scored a 5th round knockout over Ralph Zannelli, New England welterweight champ, in a scheduled 10 round non-title match in Providence, R.I. Monday night.

This was the first time Zannelli had been knocked out in 16 years of boxing.

The knock out blow, a hard right cross, was so vicious that it caused Zannelli to twist his knee as he fell and he had to be carried from the ring on a stretcher.

Williams weighed 143¼, Zannelli, 147.

Bob Satterfield Stops Brothers

Bob Satterfield, Chicago light-heavyweight, moved into a possible match with Clarence Henry of Los Angeles last Friday as he scored a second round technical knockout over Elkins Brothers in New York.

After being knocked down three times, Brothers was helpless after 56s. of the 2nd round and the fight was stopped. Satterfield weighed 182½, Brothers 189¾.

Dean Johnson was selected as a forward on the second team and Charles Hill made the same squad at a guard position.

Sam Owens, Manual Arts, gained a first team berth at guard. Don Carlson Toiler coach, calls Sam "one o fthe finest guards to ever represent Manual Arts."

ELAJC Drops 8th Straight Game

Coach Dave Taylor's East Los Angeles Junior College basketballers dropped three more hoopfests last week to run their losing streak to eight, and makes it but four wins in nineteen games for the current campaign.

Results last week:

Tuesday,	ELA 69	USC Frosh	72
Friday,	ELA 43	El Camino	66
Saturd'y,	ELA 61	Long Beach	86

It was the same old story, lack of height and lack of a center. The ELA Huskies trailed throughout all three contests.

The crowning blow came in Saturday night's clash at Long Beach when letterman guard Bob Schwartz fell and broke his arm. Schwarz is the fourth casualty among the original starting five.

Feature of this week's play will be the northern invasion by the San Diego Knights. The league leaders from the Border city are top heavy favorites to rout the Huskies. Bob Brady, the San Diego sharpshooter who leads all Southland point makers, may have a battle on his hands for individual scoring honors with Larry Lumpkin of ELAJC who ranks fourth in this area.

In 19 games this season Lumpkin has scored 291 points for an average of 15.3 per game.

Jeff's Basketball And Football Teams Honored At Sports Banquet

Highlighting the first semi-annual all sports banquet held at Jefferson high school Tuesday night was the awarding of 28 varsity football and 17 varsity basketball letters.

In a season which saw Jefferson emerge as a power among the city schools in both of these major sports, several outstanding achievements were accomplished including the winning of the all-city basketball tournament with an over all victory string of 26 straight games without defeat, the winning of the trophy as the most outstanding team in the Milk Bowl football carnival, the losing of only one football game during the entire season, and that to the city champs, Fremont, by only one point and the breaking of eight of the nine listed basketball records of the city schools.

Tribute to All!

Individual stars of the all victorious basketball team were placed in the background as coach Larry Hanson, head of the Physical Education department, gave tribute to his men as a team working together. However, if a star is to be named, it would have to be J. C. Gibson, the 6-ft., 7-in. center, who scored over 400 points during the season for an average of 22 per game. In one tournament game he scored 41 points to set a new record. Gibson is 18 years old and will not be among those returning next season. Also among the missing next season will be the rest of the members of the starting team, Mack Taylor, Algin Sutton, Charles Hill, and Dean Johnson.

Hill and Johnson were named the team's most valuable players.

The team averaged 80 points per game and in one game scored 101 points to tie the record set by Marshall in 1945. Their 26 victories added to the last three games won last season boosted their total string to 29 straight, a new Jefferson record. They have lost only 5 games in the past three years which is quite a tribute to coach Hanson considering the fact that Jefferson was seldom heard of in basketball circles in years gone by.

MACK TAYLOR

Also in Football

The Democrats stood out in football, too, with three of their players making the All-Southern League team and two of them being placed on the all-city team. End Rommie Loudd and halfbacks Thelton Henderson and Jerry Drew made the all-league team while Drew and Loudd made the all-city as well.

Fullback Corace Bailey was voted by the team as the most valuable player and end James Cary the outstanding lineman. Thelton Henderson was elected team captain for the year and Marvin McMahan was selected by the coaches as the most improved player on the squad.

The coach of the football team is Richard Ragus. He is assisted by Mike Marienthal, former great UCLA athlete.

On hand to greet the more than 200 in attendance was Sam Balter, noted sports commentator who echoed the words bannered across the length of the room. "Assembled here is the greatest galaxy of athletes in the history of high school athletics."

The complete list of football lettermen follows:

Ends James Cary, Rommie Loudd, Vernon Strait; Tackles Eddie Gibson, Aaron Hatch, Elvan Hymes, Alvin Martin; Guards Alfred Buruse, James Lawson, Henry Patterson, Don Wilson; Centers Frank Jones, Malvin Lewis, Andy Velasquez; Quarterbacks Tom Davis, Marvin McMahan, Willie McMahan; Halfbacks Jack Casonhua, Jerry Drew, Thelton Henderson, Joe McKnight, Jessie Skaggs; Fullbacks Corace Bailey, Robert Chappell, Robert Stokes; and Managers Stephen Hill, John Long, Eugene Thomas.

Fisk Drubbs Xavier

The Fisk Bulldogs stunned a capacity home crowd with their most convincing win of the season when they handed Xavier's Forty-niners their first conference loss, a 38-29 drubbing that almost turned into a rout, Monday night in Nashville.

Bolanos Seeks Revenge For "Foul" Loss to Chavez

Enrique Bolanos, who claims he was the victim of a "foul" conspiracy when he dropped a decision to Eddie Chavez up in San Jose last month gets a chance to rectify matters at the Olympic Auditorium on Tuesday next, January 30.

It seems that no less than four rounds were taken away from the Mexican idol because of alleged low blows.

Now this, according to Manager George Parnassus, is too wierd to be credible. Mister P., a fast man with an alibi, insists that he has no alibi to offer for the Chavez defeat. Nothing but the bare facts.

Parnassus points out that in Bolanos' long and honorable ring career, here and elsewhere, he has never before suffered so much as the loss of a single round because of fouls inflicted upon the person of his opponent.

"And all of a sudden," complains George, "up in San Jose—which happens to be Chavez' home town—an eagle-eyed referee finds him guilty of comitting fouls in FOUR rounds, and takes those four rounds away from him. Now, I ask you!"

Mr. Parnassus isn't "asking" you; he's telling you that there was something rotten in Denmark—up in San Jose, Denmark.

The referee's actions, said Parnassus, served a dual purpose—(a) they took four rounds away from Bolanos, (b) they convinced Enrique that he had no chance to win, hence deprived him of incentive.

Yet the fact remains that this same Eddie Chavez, prior to his meeting with Bolanos, scored decisions over Maxie Docusen, Manuel Ortiz and Carlos Chavez; in none of which fights he was aided by the referee. That is, there were no fouls charged against his foes.

In his only local appearance, about a year ago, Chavez won an easy victory over Chuck Wilkerson at Ocean Park. He had speed, skill, cleverness, a lightning left—but not much of a punch.

Boxing men say that the San Jose kid has since acquired a wallop; this we will see on Tuesday next.

Bolanos is training hard for this return bout. With a local referee on the job, one who doesn't spot "invisible fouls," he is certain he can give Senor Chavez his lumps and erase that spot from his record.

UCLA Footballers To Be Feted at Annual Gridiron Banquet Tonight

UCLA's 1950 football players and coaches will be honored at the traditional Bruin gridiron banquet which is slated for tonight in Kerckhoff Hall on the Westwood campus, it was announced by Wilbur Johns, UCLA athletic director.

The 1950 Bruin varsity and freshman football award winners will be signally honored at the pigskin banquet. Johns announced that 39 varsity players and 24 Bruin frosh gridders received letters and numerals, respectively, for their labors this past season.

The 39 UCLA varsity football lettermen for 1950 follow:

Whitney Arcenoeux, Jim Buchanan, Don Cogswell, Werner Ehcher, John Florence, Ed Flynn, Chuck Fraychineaud, Howard Hansen, Leo Hershman, Joe Horta, Roy Jenson, **Ike Jones, Luther Keyes,** Herb Lane, Ray Lewand, Cliff Livingston, Bruce MacLachlan, Francis Mandula, Joe Marvin, Xavier Mena, Ed Miller, Hal Mitchell, Donn Moomaw, **Bob Moore,** George Morgan, Ted Narleski, Gayle Pace, Darrell Riggs, Dick Short, oJe Sabol, John Smith, Ernie Stockert, Breck Stroschein, Bob Watson, Guy Way, Julie Weisstein, Bob Wilkinson, **Dave Williams** and Boz Zelinka.

The Right Reverend D. Ormonde Walker, presiding bishop of the Fifth Episcopal District of the Africean Methodist Episcopal Church, will deliver the sermon at the morning worship hour Sunday, January 28th at the First A.M.E. Church, 8th and Towne Avenue, according to an announcement by Rev. Alvia A. Shaw, pastor of the church. The bishop is in Southern California at this time for the Council of Bishops of the A.M.E. Church convening in Los Angeles February 22, 23, and 24th, and will remain in the area until that time.

THE RIGHT REV. D. ORMONDE WALKER, presiding bishop of the Fifth Episcopal District of the First AME Church.

Bishop Walker presides over one of the most extensive districts of the A.M.E. Church connection. The Firth District is comprised of most of the states west of the Mississippi. Since his elevation to the Bishopric there has been a noticable expansion of the church's activity and program especially on the West Coast.

The Bishop is accompanied on the trip by his wife, Mrs. Eva Walker, who is district supervisor of the Women's Missionary Society of the Fifth Episcopa District and also the leader of the church's fund raising drive for the Douglas Hospital at Kansas.

Neighborhood Friendship Day

"Your Flowers While You Live" is theme next Sunday at Neighborhood Community Church, 47th Place and San Pedro Street. During a period alloted for this purpose, worshipers will have an opportunity to pin a flower on a friend. Flowers will be available at the church and may be secured from the "Loyal Sons and Daughters," one of the church organizations. This day was instituted several years ago at the suggestion of Mrs. Alene Brunner Morris and has proved to be an elevating influence in the lives of those who participate.

Sunday evening Rev. Gamaliel Mansfield Collins, minister of music, will present the choir in concert. Music will be a feature every fourth Sunday evening in the church auditorium. An invitation is extended to all.

On Tuesday evening, January 24, Rev. Collins was guest speaker at the Triangular Church of Truth, of which Mother Woods is pastor. Rev. Collins was supported by two choirs from Neighborhood. Many members of his congregation were in attendance.

Dr. Marion Observes 28th Anniv. At 1st AME Zion, Sun., 3 Services

Sunday, January 28, marks the 28th anniversary of the ministry of Rev. D. S. H. Marion at the First AME Zion Church, Pico and Paloma streets. It will be observed with three special services and sermons during the day.

Dr. Marion will preach his own anniversary sermon at 11:15 a.m. There will be special music by the Senior Choir, Mrs. Jean W. Holmes and Mrs. Anna L. Carson, in charge. DON'T MISS IT. The sermon subject will be: "Acquaintance with God."

Dr. Marion's pastorate began in Athens, Georgia, at the Union Temple AME Zion Church. From there he went to Smith Memorial AME Zion Church in Duquesne, Illinois, and from there to St. Mark's Temple at Indianapolis, Indiana. During his six years at St. Mark's Temple, he finished four years' college work at Butler University, and got the B.S.L. degree.

From Indianapolis he went to the old historic Logan Temple AME Zion Church at Knoxville, Tenn., where he spent six years. They paid off a long-standing mortgage debt of $500 during his ministry. During the depression, he entered the General Church School Convention in 1934, which was said to be one of the best up to that time.

Rev. Marion went from Knoxville to the old out-standing historic church of Alabama, at Montgomery—the "Old Ship" AME Zion, and during his six years there they paid off a $10.000 mortgage debt of 25 years' standing. He entertained the Bishop's Council at the Old Ship Church in 1941. Many repairs were made on the Old Ship Church, and the parsonage was refurnished.

At St. Mark's Temple, in Indianapolis, Dr. Marion built a six-room, all modern parsonage, and furnished it. At Smith Memorial Church, Duquesne, debts were paid and the parsonage refurnished. At Union Temple, in Athens, Ga., Rev. Marion's first appointment, he entertained the annual conference, it is said, with record-breaking success. Many repairs were made. He attended school at Knox's Institute during his pastorate in Athens. During his six years at Old Ship Church in Montgomery, he attended the Minister's Summer Institute at Tuskegee Inst., Ala., and received a degree there.

Rev. Marion came from the Montgomery Church to the First AME Zion Church in Los Angeles, November 18, 1944, and is now serving his seventh year. We think his labors here speak for themselves, as the membership of the church has been doubled, nine new clubs and boards set up, and others re-vamped. A Junior Church, with a Young People's Choir and Junior Church officers, has been organized. These young people have complete church services once a month, and they are doing a fine job. The Class Leaders Board has been doubled. We found nine, and now we have 18 leaders.

If you want to hear just a word about money raised here, just think of the O'Connor explosion three years ago, when our church and parsonage were wrecked and we had to raise almost $20,000 for the repairs. It was done in five months.

But the most outstanding thing in Rev. Marion's ministry is the way he looks after and cares for the sick and the old people of the church and community.

Rev. Marion made over a thousand visits to the sick, poor and needy in the hospitals and in the homes during the last year, and he has made over a 100 during and since the Xmas holidays. He goes out of his membership to give, and render service, when he is called upon, or when he thinks it is needed.

Rev. Marion would appreciate a note of appreciation or a card from those who have received some help from his ministry. Come to one of the services, Sunday, Jan. 28th, 11:15 a.m., 3:15 p.m. or 7:45 p.m. You will be blessed.

The Rev. H. C. Cornelius, pastor of the Magnolia Baptist church, one of the leading and most progressive young ministers of the city, will preach Sunday, Jan. 28th at 3:15 p.m. His choir, ushers, deacon board, and entire church, have been invited to come with their pastor and worship with us at the First AME Church, at Pico and Paloma Streets. Don't miss the treat.

This is a special service for our Steward Board. Mr. Joe Marshall, president and our three Stewardess Boards, Mrs. R. B. Lindsey, Mrs. Matilda Collette, and Mrs. Louise L. Carter, presidents. Everybody is kindly invited to come. 7:45 p.m. 30 minutes of song and praise service, the Senior Choir, and the class-leaders in charge. Mrs. Elizabeth Gray, Mrs. Margaret McClain, Mr. T. W. Collins, in charge, with Mrs. Jean Willa Holmes directing the songs. 8:15 p.m. sermon by the pastor, subject "Is It Wrong?"

Dr. Marion is being boosted by some of his friends all over the connection, for the Bishopric, in 1952. Let us pray for him.

Dr. Marion has just closed a two year term as president of Inter-denominational Ministers Alliance, and got it out of the red.

Installation of Officers, Good Shepherd Bapt. Ch.

Last Sunday morning at the 11 o'clock service the new body of officers who will serve for the year 1951 were duly installed into their respective positions by the pastor, Reverend Grant Harris.

The installation was one of the most impressive and inspiring services that has been held at the Good Shepherd Baptist Church. The pastor emphasized the importance of good and qualified leaders, because the church is pioneering upon a very progressive movement by the purchasing of property located at 53rd and Figueroa Streets which will be the site for the erection of the new Good Shepherd Baptist Church.

Rev. Harris and his congregation are to be highly commended for their outstanding accomplishments in such a short period of time.

Wesley Methodist Observes 14th Anniv.

Last Sunday was the climax of a great week's celebration of the fourteenth anniversary of Dr. E. W. Rakestraw as pastor of Wesley Methodist Church. All services were largely attended. At the morning worship Dr. Rakestraw lifted his large audience to a great spiritual height by a masterly sermon on "The Obvious Hand of God."

One of the most impressive services of the day was the installation and consecration service of Sir Jules Haywood as minister of music and J. W. Sanford as organist. After leaving the altar they were officially presented to the Chancel Choir. J. W. Sanford took his place at the organ console and Sir Jules Haywood conducted his Chancel Choir in a marvelous rendition of the Hallelujah Chorus from the "Mount of Olives" by Beethoven.

Frederick M. Roberts was master of ceremonies at the special anniversary vespers at 6 p.m. when tributes were paid Dr. and Mrs. Rakestraw for their great ministry at Wesley Church. At the reception which followed Dr. and Mrs. Rakestraw were presented a check representing love gifts from members and friends.

Sunday Dr. Rakestraw will speak at the morning worship from the subject "In Tune With the Infinite." Dr. R. M. Davis, associate minister, will deliver the vesper message. At 8:00 p.m. Dr. Rakestraw in company with Rev. L. L. White and Dr. Charle Warren of Oakland and Rev. Hamilton Boswell of San Francisco will leave by the Sunset Limited for Houston, Texas, to attend the quadriennial conference of city pastors of the Methodist Church.

Laymen's League In Conference

The executive board of the Southern California Conference reported the closing of a successful year's work at a meeting held recently in the Second AME Church, Rev. Jesse L. Glover, pastor. There are forty churches in the district, and the league has visited all but four.

The presidents of the leagues told of their accomplishments for the year, beginning with the host president, Mr. M. E. Webb. Mr. and Mrs. Coley W. Stafford, branch presidents, were presented. Since this marks the 100th anniversary of the establishment of African Methodism on the Pacific Coast, Mr. Stafford said, "We are determined to revive the dynamic, burning spirit of African Methodism, spiritually, culturally, economically, and socially."

He spoke of the meeting of the Bishops Council to be held February 19 to 23. The District President Jones, of Kansas City, Kansas, the National President Attorney S. H. Dudley, of Detroit, Michigan, are expected to attend.

Credit for the splendid financial condition of the League was given to Mr. Benjamin Ingram, of San Bernardino.

A delicious turkey dinner was served at the close of the meeting. Mrs. Dora Fant was chairman of the affair, assisted by Mrs. Roberta Davis, Lula White and Callie Sims.

Rev. A. K. Quinn, presiding elder of Pasadena; San Diego district; Rev. Conquest, Rev. Cryer, of Ocean Side, gave encouraging remarks. Mrs. Katie Johns, of St. Stephens AME Church, Chicago, was one of the visitors.

PROF. EMIL HOLLAND, JR., and his choir are featured in some oustanding records released this week on BLUE RECORDS. All lovers of Gospel and Spiritual music will be inspired by these recordings which include solos by Willie Woolridge and Juanita Smith.

terms of actual military op-
tion.
Soldiers at the front must aim

d demagogy at the very rot-
essence of that treasonable
nspiracy against minorities in
erica which is the denial of
tional unity and the attempt

nt war effort.
Thus it is with real alarm that
note a dispatch via Associated
gro Press which indicates a
licy on the part of the U.S.
my, under pressure of reaction-
political influences, to strip
Negro Press of its most re-
onsible and patriotic crafts-
n.
George Coleman Moore, news
tor of ANP; L. O. Swingler,
naging editor of the Memphis
rld; Louis Martin, editor-pub-
her of the anti-Ku Klux Klan
chigan Chronicle, one of the
tion's most significant Negro
rnals; and Cliff Mackay, the
naging editor of the Atlantic
ily World have all been re-
tly inducted or are soon to be
ucted into the Army.

We must add to this list THE CALIFORNIA EAGLE'S militant managing editor, John Kinloch, who left for service in the Army yesterday.

There is no question of the patriotism of these writers. As a matter of fact, they stand out as those who have written most vigorously in defense of this anti-Fascist war and have most relentlessly.. pursued.. the.. home-front saboteurs of that war.

However, it is my considered opinion that a coordinated attack is being made upon the most vital sections of the Negro Press through the political machinations of these rancid, political forces in our country who are the stooges of native Hitlerism and the spokesmen of reaction at home and appeasement abroad.

It is no accident that these forces parade under the very slogan of all Hitlerites everywhere in the world. They are out to save us from bolshevism. Their secret weapon is the red smear.

I am here to ask some questions, and I believe I've got some answers coming.

Why is it that managing editors, whole staffs of other local and national newspapers have NOT BEEN STRIPPED as has the EAGLE, the Michigan Chronicle, Associated Negro Press, and the Atlantic Daily World?

What careful selection makes it possible for Negro newspapers which fail to ferret out Fascists, fail to fight the Klan, fail to support the war, fail to mold national unity for victory, to exist complacently with starrs loaded with draft-age writers and "publishers"?

The EAGLE has given eight men to the war. Its editorial department has been cleaned out.

I want to know whether it is a policy to strip newspapers which vigorously battle our country's enemies at home and at abroad, while cautiously caring for the civilian status of disrupters, defeatists, and draft-dodgers.

I ask this question not in the intrest of my business, which has certainly suffered, but in the clear defense of what Mr. Wallace aptly terms "the struggle to win this war IN THE MINDS of men."

Upon leaving for the Army, John Kinloch made the following statement:

"The war we are fighting against Fascism is worth every sacrifice. I am glad to serve in any way. Wherever Hitlerism is fought, whether on the battlefields or in the shipyards, Congress or the City Council, the FIGHT IS NECESSARY and worthwhile."

John Kinloch died fighting bravely with his white brothers in a mixed regiment, to which he volunteered in 1945. The EAGLE is still carrying on for those principles for which he gave his life, although its wings have been clipped and the upward road has been made rugged and bitter since his going.

"TO A FRIEND"

Men with small minds capture
just a day in life,
They cry their hearts out for
eternal scorn.
They do not know their goal of
strife,
Nor even for what they were

Men with minds of hate and
dissipated height,
Are too wrapped up in themselves to even know the score.
Though they may attempt with
all their might,
To me they'll always be just
another bore.

Room count was held, with Mrs. Thomas' room the winner.

HOT ROD SPORTS SHOW OPENS TODAY AT ARMORY

NOW IT'S THE UNO-WHEEL . . . Lovely Frances Leyden warily tries out the Uno-Wheel, an invention by Bob Nilsson that will be a feature display at the fourth annual Hot Rod and Motor Sports Show, January 25-28 at the National Guard Armory, Exposition Park. The one-wheeled motorcycle will attain a speed of 60 m.p.h.

Upwards of 75,000 Southern California motor sports fans are expected to flock to the Los Angeles National Guard Armory, Exposition Park, this week to see the fourth engagement of the Hot Rod and Motor Sports Show, on exhibit there starting today (Thursday) and closing Sunday night.

In addition to the display of home-made hot rods built and raced by members of the Russeta Timing Association, sponsors of the event, the unique display will feature foreign-built sports cars, motorcycles, racing boats, aircraft and the latest automotive developments. From the world of racing, Henry Banks, 1951 AAA driving champion, will be on hand to discuss his recent triumphs with his fans. Ralph de Palma, all-time racing great, will run films of the 1950 Indianapolis "500."

Ab Jenkins' gigantic "Mormon Meteor," holder of almost every automotive record for speed and endurance, will be a regular display at the show. The 200 m.p.h. juggernaut is powered with a 750-horsepower airplane engine.

The Army, Air Force and Marines will join in the exhibit to display the latest in weapons of war, including several of the tanks now being used in Korea, cut-away, full-size models of the newest jet engines and exhibits of Uncle Sam's latest rifles, machine guns and small arms.

The show will close Sunday night with the giving away of a $4000 Jaguar XK-120 British sports car. This sleek import is the world's fastest production automobile, with a clocked speed of 132 m.p.h., using standard gasoline. This and the new French-built Simca Supersport will be two of the most unusual of the foreign cars on display.

Bruins Go North For Two Games

Now that ten days of final winter examinations are over, Coach John Wooden's UCLA basketball players are looking to their next pair of games with Arizona and University of San Francisco this weekend in San Francisco's Cow Palace.

Before ending the first half of the Bruin cage schedule the Wooden "firehouse five" split the cross-town "crucial" series with USC by dropping the first contest, 34-53, and coming back to take the second, 57-44.

Trojans Lead

After four Southern Division contests the Trojans lead UCLA and Stanford by one game with a 3-1 record. The Bruins and Indians have split in their first four starts while California brings up the rear with only one win in four games.

Leading the Bruins in their comeback against the Trojans six-foot-four Los Angeles flash, was sophomore Dick Ridgway, the who connected for 13 points in the Friday night opener and then ran away from the opposition to tally 23 the following evening at Pan Pacific Auditorium.

Ridgway now leads the Southern Division scoring race with 78 points. Stanford's Ed Tucker follows with 77 while Cal's Billy Hagler has 67. The Uclan forward whom many fans claim will ultimately break Bill Sharman's Southern Division one - season scoring record of 238 points, is currently 12 digits behind the four-game pace set by the SC star last year.

Cooled Off

Although UCLA cooled off considerably from their 73.6 scoring pace for the first dozen contests, the team still ranks as the Coast's high scoring aggregation with a 69.6 mark.

By splitting with the Twogood-coached Trojans Wooden maintained his win-loss superiority over SC. The record now stands at six wins and four losses against Trop for Wooden-mentored quintets.

In the freshman cage scramble Coach Ed Powell also continued his domination over the Trobabes. Powell, who coached the Bruin yearlings two seasons ago to an 18-1 win-loss record, won a pair of preliminary walkaways from the Trobabes, 72-41 and 69-35, to finish with a 10-1 mark at midseason. Powell now has won five out of six tilts with the Trobabes.

After a two-day practice layoff on Monday and Tuesday this week, Wooden sent his Bruins back to limited drills until next Monday, when the hard cage work begins for the Bay Area engagements.

Rizzuto Wins Award

Phil Rizzuto, great New York Yankee shortstop, was named the winner of the Hickoff Professional Athlete of the Year Award Monday as Ezzard Charles, heavy weight boxing champion, finished third in the balloting behind Ben Hogan, who placed second.

Ray Robinson was listed as fifth.

The 32-year-old Rizzuto, who polled 162 points as compared to 156 for Hogan and 102 for Charles, thus became the first recipient of this annual award and received a $10,000 diamond studded belt.

North Carolina Star Invited to Games

DURHAM, N. C.—North Carolina College's Donald Leake, holder of the national junior A.A.U. 60-yard hurdles title, was invited to participate in the **Philadelphia Enquirer** games in the Quaker City last Friday.

The 20-year-old senior from Gary, Indiana, represented NCC in the 70-yard hurdles against such top flight competition as Penn State's Jim Burdhes and Tom Mitchell of Georgetown.

The speedy Leake has compiled a respectable record in his specialty in A.A.U. competition. In winning the national junior 60-yard hurdles title at New York last year, he set a new standard for the event, breezing over the barriers in a record time of 0:08. He took second place in the 70-yard hurdles at the **Evening Star** games last year. The winning time for the event was 8.8.

In CIAA competition, Leake has to his credit a 14.5 mark for the 120 high hurdles, posted during an open meet held here last April. He blazed through the 220-yard low hurdles at a 24.5 mark in the Alabama State Relays held last year.

Leake also participated in the **Evening Star** games this year, recently held in Washington, D. C.

Shaw U. Dumps 2 Foes

RALEIGH, N. C.—Shaw University's Bears gained strides in the already-toughening CIAA cage race by notching a loop victory while dumping two foes in games played here last Thursday and Saturday nights.

Coach Brutus Wilson's netmen toppled Tuskegee Institute's Golden Tigers, 64-49, in an interesectional tilt, and edged cross-town rivals, St. Augustine College, 54-49, after a gallant uphill battle sparked by the second-half performance of Captain Thomas Daniels.

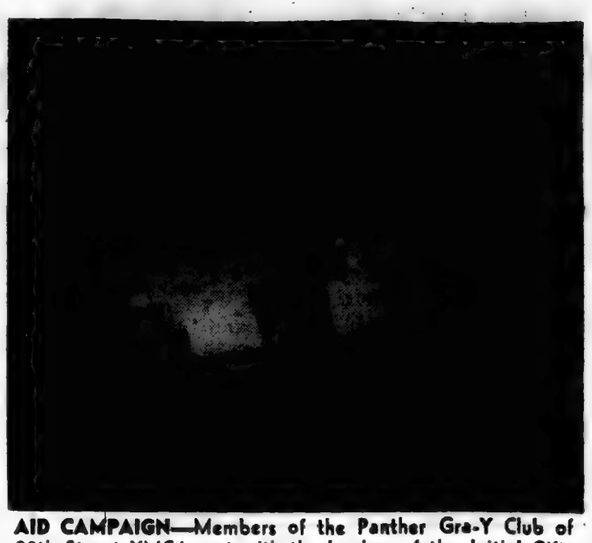
Star 3-Year-Olds to Vie Saturday in San Felipe Stakes

Initial test of the winter racing season for the 3-year-old division will be forthcoming Saturday at Santa Anita with the running of the $50,000 added San Felipe Stakes.

Conditioned solely for colts and geldings in the sophomore class, the San Felipe is a seven-furlong sprint and serves as an admirable preview for the $100,000 added Santa Anita Derby on Feb. 24.

Some of the fastest 3-year-olds in training are expected to go postward in the San Felipe, including the new California pride, Mrs. Nat Goldstone's Gold Capitol. The latter, winner of the recent Starlet Stakes and the California Breeders Championship, will be seeking his third straight stakes triumph.

The San Felipe will also see the debut of Mrs. Frances Genter's Rough 'n' Tumble, one of the outstanding juveniles of last season. Rough 'n' Tumble was a stakes winner in Chicago and finished third in the famed Belmont Futurity to the 1950 champion, Battlefield.



Other top-notch colts and geldings prepping for the San Felipe are Frendswood, Gold Note, Interpretation, Phil D., Sponsor, Replete, French Dandy, Mohammedan, War Pep and Good Loser.

These were the favorite spaces in the 28th Street YMCA building for all the boys and these were the facilities almost closed last year by the campaign failure. The boys urged the campaign leaders to put the campaign over this year and give them "a break." Shown in the picture are: Panther Club members: Wesley Pierson, John Johnson, Charles Green, Raymond White, Lionel Cobb and their spokesman, Melvin White. Listening to Melvin's plea are: Lorenzo Bowdoin, Branch Chairman; Dr. P. Negro, White Students In Christmas Pageant

NEW YORK—With a solemn pageant depicting the birth of Christ and the flight of the Holy Family into Egypt, Negro and white students closed the Christmas season for parishioners of the Catholic Church of Our Lady of Lourdes.

The church remained in total darkness throughout the pageant.

As the Wise Men's offerings were recalled by the narrator (St. Matthew II, 1-13) the frist of three richly costumed kings moved from the center aisle towards the Child in the manger. Attended by a train-bearer, he knelt, then offered his gift.

The African king's part was played by Ernest Sampson of the Bronx.

Eighth grade students of Our Lady of Lourdes School, on the Sunday within the Octave of the Epiphany, annually presentthe pageant which began in the parish 18 years ago.

Washington Is Ready for Democracy

By MOSS H. KENDRIX

If I should write a letter to "Democrary, U.S.A." and mail it to Washington — the Nation's capital, it would likely be forwarded to some other American city or be returned to its sender marked, "Address Unknown."

The fact is, the City on the Potomac does not practice "Democracy Unlimited." On the other hand, Washington, with its beacon-position in world affairs, should be the known and advertised capital of praticed democracy.

I can point to many personal experiences that are to me self-evident of the growing acceptance of democracy in the District of Columbia. Fresh in my mind, and contradictory, too, is a recent case involving my wife and me.

We had shopped all morning in a downtown department tsore. The natural desire for food drew us to the store's snack counter, where we awaited our turns for seats. Once seated, we learned that our money was not good enough.

But if we wanted to beserved, we would have to move to another section of the counter, where no seats were provided. We elected to sit it out, and for an hour and a half "white" shoppers rushed in at both sides of us.

No one seemed to be the least bit concerned over our presence, nor did anyone resentfully depart or refuse service because we occupied seats at that eat-counter. People in Washington seem to be too busy to worry over such minor matters.

They eat in the government cafeterias, at the YWCA, the bus terminal, the Union Station, uptown drug stores and dinner clubs without any notice of Negro patrons. They sit where they wish on street cars and buses and share taxicabs.

Thousands of people of the two races work side-by-side in Uncle Sam's employment, and in private and commercial service. Traffic is directed by Negro policemen, and many "white" homes are saved by colored firefighters.

Some of Washington's first-class hotels serve Negroes in support of their beliefs that color is not a factor in their business. While other such hotels have turned away East Indians, for instance, for fear they might be accommodating American Negroes.

What Washington needs is a tangible program to give implementation to the democracy for which it is ready. President Truman was right, when he said on Christmas eve that "democracy is the harvest of faith."

Washington needs only to exercise its "wisdom," "humanity," and "courage" to bring to that city the reality of a truly democratic Nation's capital. The people of D. C. are ready and it can happen in this year.

As a citizen of Washington, without any ties-of-pressure, I call upon Mr. Truman to use his executive influence to prompt the coming of a fuller democracy to Washington—the city to which all the Free World looks for guidance in this Age of Crisis.

Therefore, I call upon the President of the United States to make one of his first official acts of 1951 that of the appointment of a Presidential Commission to Make Democracy Work in the District of Columbia.

Such a commission should be comprised of representatives from all areas of Washington life—races and creeds. It should have as its objective the creation of an atmosphere in which all persons of good conduct can share the blessings of democracy.

If you believe this suggestion to be germane and sound, why not drop a note to the President at the White House, stressing the solgan, "Let Washington Get Together to Make Democracy Work in the District of Columbia."

Washington is ready for democracy.

Teenager Gets Appetite Back; Thanks Hadacol

HADACOL Supplies Vitamins B₁, B₂, Niacin and Iron Which Her System Lacked.

According to Sara Loraine Beck, Box 253, Coker, Alabama, when a person is only 15 years old and feels terrible, can't eat or sleep the way they should, it's mighty bad. That is the way Loraine says she used to feel, but that was, of course, before she started taking HADACOL. Loraine found that taking HADACOL helped her system overcome deficiencies in Vitamins B₁, B₂, Niacin and Iron, which HADACOL contains.

Here is Loraine Beck's own statement: "I was run-down, sick and skinny, and weighed only 90 pounds before I used HADACOL. I would not eat because I had no appetite. Now I weigh 123 pounds and have an appetite. I feel a lot better. I have been taking HADACOL 10 months and am still taking it. I am 15 years old. HADACOL has done me lots of good."

THE STUDY OF THE MIND

One of the most interesting sciences man has ever known is the study of the mind. For many centuries man has been seeking and digging into facts exploring the behavior of the mind and body.

The idea of mind as the main topic of psychology has been expanded to include the activity of mind and body. Regardless of what mind is, or how it functions, it is clear that physical responses give many cues to our psychological lives. It is believed that psychology actually grew out of the field of religion, as it is not only interested in mental behavior, but physical behavior as well.

Today we find that intelligent people everywhere have a much clearer picture of the proper field of psychology. The reason is that psychology has been applied to the problems of their everyday life.

L.J. Dear Prof Herman: I have nosey neighbors, who have begun to tell things that are untrue about me. I don't visit them, how can I avoid them and stop their wagging tongues?

ANS. I am of the opinion, the best way to get along with neighbors is to be polite and friendly with them . . . just ignore the gossip that has been said about you, since you are innocent. It has been known down thru the ages that people will talk, regardless. There is nothing you can do to stop them, it is just the nature of mankind.

• • •

C.O. I now realize I was wrong and am willing to change for good, will she return?

ANS. Your lucky stars indicate your wife still cares for you deeply and has often wondered if you realized your mistake. I am of the opinion there still may be a chance for happiness together again, if you will let her know how you feel about your misconduct. Do so at once, to save your marriage.

L.L. What are badlands?

ANS. Fact finding charts indicate badlands as being an arid area, barren of vegetation, which presents a fantastic appearance through erosion. The best examples are in certain sections of the Black Hills of South Dakota and Wyoming. They also occur in Colorado, New Mexico, Arizona, Nebraska and Utah.

S.B. My husband has been ill for the past three months. What should we do with him?

ANS. It appears to me your husband is a mental case, therefore, I suggest your getting him into a hospital or institution at once. There he will receive the proper medical attention for his condition.

A DISCHARGE FROM THE U.S. ARMY

By Capt. George S. Wuchinich, D.S.C.

NEW YORK — Whenever a prominent American general or banker goes abroad these days we know it's not to pay social calls. Eisenhower's pictures take over the front pages of the press as he tours western Europe; the last time it was John Foster Dulles in a trench at Korea. Now we know that 50,000 or more Americans, flung into the pit of death and wounds returned that call. Bankers and generals don't travel abroad for the health of the common variety American.

Dulles is traveling to Japan—but Eisenhower is in the midst of his mission which has a far more sinister purpose: to re-arm the German Nazis. The worst criminals, cannibals, bloodsuckers and monsters of the human race are joyful at his arrival, for they see themselves formed again into another armed fist to try anew where they failed under Hitler.

These are not strong words. The truth demands greater condemnation. American generals in western Germany, including U. S. High Commissioner, have begun butter-cupping, wining and dining with Nazi generals whose first love is a concentration camp adorned with corpses, shattered bones and flayed bodies.

The New York Times of January 9 reports a meeting of American, British and French brass along with civilian top-hats and states that for the first time German generals "will be negotiating as equals with Allied generals."

They met around a table, much as butchers do over a slab of meat. On the western German or Bonn side are the two most experienced: Generals Hans Speidel and Adolf Von Heusinger; the first, former chief of staff for the devil, Rommel; the second, chief of operations for the madmen of the gang known as the German General Staff.

So, now it's coffee and cookies and how-do-you-do with the same monsters who turned on the gas ovens and pulled limbs apart. The German people by overwhelming voice have risen against this conspiracy, and if any people see through Eisenhower's mission—that it is to saddle the Nazis on their backs—they do.

But, I want to speak my share for the American people; particularly those who lost 300,000 sons in World War II and in our family one was killed; not to forget the 700,000 who were maimed because of Nazis and their damned general staff of Hitler.

Are we to fight shoulder to shoulder with men who tried to tear down all that civilization meant, who killed, tortured and murdered priests, preachers, artists, men, women and children indiscriminately? Whose hands are bloodied with the deaths and sorrows of 50 million people.

The full hand of American bipartisan policy, domestic and foreign, has been played out and stands exposed. The bluff is over. Americans are expected to buddy-up with evil incarnate.

The plan won't succeed. Eisenhower's mission will fail. German people refuse a third slaughter, peoples of Europe and Asia refuse barbarism, and will reject these organizers of Nazism, with the same degree of strength they showed in destroying Hitler.

All this leads to an interesting letter I received from the Adjutant General, C. Beall, Jr., at Washington. The letter, dated 2 January, 1951, under order of the Secretary of the Army reads:

"By direction of the President, you are hereby discharged from your commission as captain, Army of the United States, effective this date."

On 20 November, 1950, I received a first letter from the General, three pages long, titled —Accusations — in which some person or persons unknown, accused me on 21 separate counts of various and sundry acts, supposedly making me unfit to be an American.

When I replied asking for specific information; dates, names of accusers, and stated I would send my full reply upon receipt of the information, the discharge notice came instead.

If the war in Korea was just, I would not be sitting here at a typewriter. I would be in uniform back with a paratrooper unit, a volunteer, just as I was in 1941, fighting for my country and my people; who, in the last analysis, awarded me my rank and my decorations.

With what has been going on since FDR's death, and now with the complete expose of Eisenhower's mission, as a captain I would be compelled to stay at attention while some Nazi general inspected our unit. I would have to eat at the same table and shake the hands of those who held a whip, who beat, tortured and killed innocents. **And I would have to do their dirty work.**

The Adjutant General must have decided I would be a dangerous influence. Sure, he is right. I am dangerous to Nazis and to all who are inhuman, who believe themselves supermen, who promote war, who love themselves in blood and high profits at the expense of people's lives. Them I will not serve.

Nor do I think the American people will serve these aims. Eisenhower's plan calls for 100,000 American boys to go to Europe, human flesh to be tossed about by Nazis. The blood of our dead and wounded and of the world's people cries out against this travesty of American democratic traditions.

Americans — Let your Congressman and Senator know. You want no part of Nazism—Demand Eisenhower's return, stop the sending of our sons and daughters into the embrace of death—Europe or Asia, wherever it may be.

BLOCK WARDENS SYSTEM SET UP

The Los Angeles City Recreation and Park Department is preparing now to assume responsibility for the administration of the city's block warden system.

The Board of Recreation and Park Commissioners accepted the assignment in behalf of the Recreation and Park Department, subject to enactment of an ordinance, now being prepared for submittal to the City Council, which will give extraordinary duties to various City departments, including the Department of Recreation and Parks.

Designation of the Recreation and Park Department to handle the block warden service is consistent with the general policy of having Los Angeles' civil defense program set up and administered by municipal departments.

The block warden service will be a volunteer organization consisting primarily of a block warden with assistants in each block of the city. Duties of the block warden include channeling of information concerning civil defense to residents of the block, promotion and conduct of self-help training programs, and organization of residents within blocks for instruction and self-help.

Block wardens will be organized into neighborhood groups, and neighborhoods in turn will be organized into community units under community wardens.

The entire service will be under the direction of Americ Hadley, supervisor of recreation in the Department of Recreation and Parks, who was named Chief Block Warden by Mayor Bowron. Hadley will assume his duties immediately and will work under the direction of Admiral Robert W. Berry, Director of Civil Defense, whose appointment was recently announced.

A native of Holly, Michigan (a suburb of Flint), Hadley has resided in Los Angeles since 1931. He is married, has three children, lives at 5000 Glen Iris avenue, Eagle Rock. He is 44 years of age.

The East District Office will be located at the Lou Costello, Jr. Recreation Center, 3121 Olympic Blvd.

Minister Accused By Tenant Denies That He Is Father Of Her Child

In a bitterly contested paternity suit, Division Two of the District Court of Appeal, one of the highest tribunals in the State, handed down a decision Tuesday vindicating and clearing the name of Reverend Edgar S. Johnson, well known and prominent minister of the Tabernacle Baptist Church, 950 Hemlock Street, Los Angeles, California.

Reverend Johnson was declared not in any way to be related to a child bearing the name of Leroy A. Hill, Jr., born December 5, 1949.

Early last year, Mrs. Ruth V. Hill brought suit in behalf of the minor child and alleged that Reverend Johnson was the father and sought support and attorney fees at the hearing. She received the complete cooperation of her husband, Leroy V. Hill who told the court that he had no relationships with his wife between January 1st, 1949 and the middle of March, 1949, at which time the child was conceived. Mrs. Hill testified that she was a tenant living in Reverend Johnson's home and claimed Reverend Johnson had relationships with her during this period while her husband was at work.

To further boster their charges, the Hills had blood tests made

Mrs. C. A. Bass, Editor of the CALIFORNIA EAGLE, today strongly condemned the editorial policy of the Los Angeles Sentinel which supports a minstrel show being given in a public high school in Santa Monica.

In reply to the editorial which termed objectors to the show as "narrow minded," Mrs. Bass pointed out that the perpetuation of stereotypes in whatever form effects Negroes in job opportunities, housing, and in the struggle for Negro rights.

She added that in the Sentinel's frantic effort to gain respectability it was forgetting its responsibilities as a Negro newspaper.

Police Arrest, Frisk Youth; Fail To Make Charges Stick

Haywood Smart, of 3203 Wadsworth street, told an EAGLE reporter this week that last Saturday evening at about 8:30, while en route to a used car lot at 130 South Main St., to purchase an automobile, he was accosted by two police officers.

The officers stopped him for questioning, searched and frisked him and finding on his person a wallet and his car keys, were about to let him go when they discovered a CRC membership card in his wallet.

One officer remarked, "So, you are one of those Communists!"

Smart retorted, "Because I fight for my rights, does that make me a Communist?"

An effort to get evidence for a drunk charge failed, since there was not the semblance of liquor on the young man.

The officers placed him under what appeared to be arrest, and took him to the Police Dept. in

Two Women Burn in Willowbrook, One Dead

Willowbrook this week furnished the setting for two tragic accidents.

Seventy-year-old Mrs. Mattie Josephine Shaw of 1910 E. 122nd St., was the victim of a tragic blaze which burned her small home. Despite her screams help did not arrive in time. When police arrived the aged woman was dead.

Mrs. B. Riley, 1601 E. 131st street, was seriously burned in an explosion that nearly demolished her home and landed her in the General Hospital where she is slowly recovering.

Not Suicide, But Accident

Mrs. Betty Rozier Riley, wife of Raney Riley and mother of a two-year-old son, Glenn, was seriously burned in the early evening last Saturday, when there was an unaccounted-for blast and explosion in the living room of her home.

Mrs. Riley had paid a visit to her mother, Mrs. Rozier, who

Dr. Cooley, with Mrs. Cooley and their daughter, Carolyn, had gone to Badger Pass for the weekend. They were out on the playgrounds of the famous winter resort, chatting with friends, while hundreds of others were skiing, getting ready to ski, or playing in the snow. Governor Refuses to See Delegation

By RUDY E. COLE

RICHMOND, Va.— As pickets walked around the state house in Virginia in prayerful vigil, and around the White House in Washington in one last effort, the Martinsville Seven began to die today in the largest mass execution of this state's history.

• • •

Protests were still coming in to Governor John Battle from all over the world in what has been described as the worst legal lynching ever to be held. Up until the last minutes attorneys for the NAACP were arguing in Federal District Court that only Negroes die for rape in Virginia. They sought a court order to stay the execution until a new appeal could be filed.

• • •

Delegation after delegation flooded the Governor's office withotu success. He pointed out that the Supreme Court has ruled on the case and that even though it was true that only Negroes die for rape in his state it was still no basis for halting the executions.

The CALIFORNIA EAGLE learned exclusively today that 82-year-old W. E. B. DuBois, leading Negro scholar and historian and one of the founders of the NAACP, will announce his engagement to author Shirley Graham at a testimonial dinner which will be held in New York before the end of the month.

Dr. DuBois was very recently a candidate for the United States Senate, running on the American Labor Party ticket.

Hero On the Home Front Is James Blake

Reverend and Mrs. Ulysses Blake, parents of 16-year-old James Blake, are receiving congratulations for their hero son this week.

The Blake family, which numbers sixteen, resides at 4311 Woodlawn Avenue. Last week there was a fire in the rear of the home and the family was panic stricken. The head of the family, Rev. Blake, was at that moment attending church services, so sixteen-year-old James took over as head of the household and led his mother and thirteen brothers and sisters to safety, thus avoiding certain disaster. Now James is a hero of the home front to the Blake family.

Writ Denied Doctor

Dr. Mary E. Norment, arrested last week on a charge of dope peddling, has been bound over for trial.

The doctor's bail was set by Judge Lowell Matthay in Department 41 of Superior Court at $1500.

A petition for a writ of habeas corpus was denied Dr. Norment which means that she must stand trial.

Dr. Norment was arrested in her Pico Blvd. home last January.

Biology, the science of life, has rendered the Negro people a great service, as a matter of fact—all people—by providing all along time's lane that there is no superior race.

This, however, does not mean that efforts have not been made to prove that Negroes spring from an inferior racial background of culture. Arguments have been advanced that environment changes all living things.

There always have been and perhaps always will be many arguments by scientists, biologists and non-biologists, and other scientists on the subject, but in my humble opinion even heredity is changed by environment.

Take, for instance, the history of the Negro in the United States. He was the victim of a horrible slave trade, in which he was snatched from his home in Africa, sometimes betrayed by his own friends and sold in the slave markets of the world.

The Africans sold as slaves in the United States were not born slaves, nor did they thrive under slavery. They endured slavery because only a few survived to tortures of the slave ships—handcuffed together, chains riveted on their legs, packed spoon-fashion in a space so small there was no room to stand, even to sit, no sunlight, no sanitation, contracting fearful diseases.

The survivors of these indescribable conditions were the ones who became the chattel slaves of the men of wealth of America, who endured the hardships of slavery, and who became the ancestors of the Negroes in America today, still suffering a form of slavery but rapidly awakening as did their ancestors, to the necessity of a struggle if they wish to win complete freedom.

In the treatment of Negro history the Negro people themselves bear a great responsibility. The discharge of this responsibility will have a real effect, I believe, upon this nation's future. The minority groups in all the world are watching America in the test for the promulgation of the civil rights so long promised the Negro people, but especially emphasized in President Truman's 1948 campaign platform.

While his loyalty is being put to the same test with the other Americans, the Negro must see to it that the over-all promises of civil liberties, equality in everything,

WIDF Dissolved By French Govt.; Illegal, Says WIDF

The Women's International Democratic Federation, the international organization which has been coordinating virutally all the movements for peace in the world, has been dissolved by the French government according to a dispatch just received in the EAGLE office. The dispatch was signed by Eugenie Cotton, president of the WIDF, who was herself only recently released from prison where she had been confined by the government because of her views on world peace.

The dispatch follows:

On January 26, 1951, the official Gazette of the French government announced the dissolution of the Women's International Democratic Federation.

This decree is signed by M. Henri Queuille, Minister of the Interior who refers to—among others—a Law of July 27, 1940,i.e., a law passed by the Petain Government at the time when France was occupied by the Hitlerian fascists, with the object of banning the existing Democratic organizations.

Complaint Against Foreman For Gun Threat Is Refused

"It's all right for a frightened man to threaten a union member on a picket line with a pistol."

That was the gist of the opinion given by Assistant City Attorney H. D. Taylor, when he refused to issue a complaint against Ray Reinhart, foreman at Modeline Lamp Co., for using a pistol to force his way through a picket line at 120 N. Beaudry, where the plant is located.

According to Trini Flores, against whose chest Reinhart pushed the .45 calibre pistol, Taylor further said had Reinhart shot and killed Flores, it would have been a manslaughter case instead of murder.

Workers at Modeline, members of Furniture Workers local 576, have been on strike for more than seven weeks. They walked out when Bernie Roberts, owner, declared in contract negotiations that he was going to cut wages by 30 per cent to new hires.

About a hundred union members picketed Roberts home a

is his lot. The government of the United States is spending billions of dollars to free Korea from Chinese aggression and to breathe new life into the Nazis and Fascists of Franco's Spain and Hitler's Germany, to defeat what it describes as Communism.

Already we recognize Fascism coming out in the open, defeating every peace effort by the people.

The Negro people suffer greatest from all forms of Fascism in fighting this new trend of an old evil. Yet in the face of this suffering they have produced outstanding leaders in the world of literature and art.

We need only mention Paul Robeson, Marian Anderson, Langston Hughes, Dr. DuBois, and scores and scores of others, and men and women of all races will rise to do them honor.

This we have done, we the Negro people, slaves not quite a century ago. We have advanced this far through fearful obstacles, against every opposition. We shall go farther in the next century of our liberation. This we confidently predict. We shall take our place beside that of our white brothers, as we should, and lead with them in creating that new world where there shall be no war, and no rumor of war any more.

and sought to establish that the blood tests made it impossible for Hill to be the father of Leroy A. Hill, Jr.

Reverend Johnson's Attorney, Walter L. Gordon, Jr., introduced considerable evidence at the hearing to show that Mrs. Hill and her husband were living together at all times as man and wife at the time she claimed the child was sired by the pastor.

Evidence was further introduced to show that Hill was a deacon in the church and was disgruntized with the pastor and that he and other elements in the church were causing a disturbance and that these charges were conceived for the purpose of breaking up the church.

Several times Gordon and Reverend Johnson had to seek to have restraining orders brought because of persons threatening violence to the pastor at the church.

The high court held that where the husband had access to his wife the child was conclusively presumed to be the husband's child.

"This is as it should be, since in the absence of a presumption that is conclusive, uncontestable and uncontradictable, an innocent man whose only defense might be his uncorroborated denial of improper relations with the mother of a child could easily be made the victim of blackmail by the collusive false testimony of a husband and wife who are living together and having normal sexual relations," Justice Emmit Wilson wrote.

When the explosion occurred, Mrs. Riley was seated in the kitchen of her home and tried to get out through the back door, but was unsucessful. She then ran through the living room, which was in flames.

She received first and second degree burns, and is recovering slowly but satisfactorily at the Geenral Hospital.

Relatives of Mrs. Riley told **The California Eagle** that the report of attempted suicide was false and erroneous.

City Hall. Since every other effort to place a charge against Mr. Smart had failed, when the officers got to the City Hall they produced a prostitute who had been picked up earlier and tried to convince her that she knew Mr. Smart.

But this, too, failed.

Determined to find something on which to hold the young Negro, these officers kept him waiting while they searched the record and came up with some evidence which they hoped to call a draft evasion back in 1946.

But this, too, would not hold.

The record showed that Mr. Smart was caught out without his draft card, which he had inadvertently left at home, on the occasion when he was stopped. But he produced it later to the satisfaction of the FBI who apologized for the inconvenience they had caused him.

It took all of this to convince these officers that try as they would, they could not trump up a charge against a young Negro American whose only offense had been to walk the streets in a free American city with his head up.

ILWU Leader to Speak at Trade Union Defense Meet

Key note speaker at the Trade Union Defense Conference, at the Case Hotel, Friday evening, Feb. 2, will be William Lawrence, regional director of the International Longshoremen's & Warehousemen's Union.

The conference, called by the Trade Union Defense Committee, will concern itself with plans for repeal of the Taft-Hartley law, the McCarran Act, the Magnusson Act and the Smith Act.

"All this legislation has been used in attempts to weaken and destroy organized labor; in most part by applying laws to officers and leaders of unions," Marva Bovington, executive secretary of the committee, said today.

A dramatization of the arrest of Gus Brown under the county's "Communist registration" ordinances, originally intended for television, will be presented. All television stations in the area had refused to sel ltime for the presentation of the skit.

Brown, Judge Stanley Moffatt and radio commentator Averill Berman will take parts in the dramatization.

Although two others arrested under the county ordinance were released under rulings that the ordinance was unconstitutional, Brown will appear in the El Monte Township Court Feb. 5.

Credentials being returned to the committee by delegates from unions indicate a large turn-out for the Friday night meeting.

Toy Gun Used As Weapon

It was a narrow squeak for Walter Richardson in escaping conviction of a charge of felonious assault when he appeared in Superior Court last week. Only the shaky testimony of the complaining witness saved him from perhaps doing a hitch.

Atty. Earl C. Broady appeared for Richardson, the complaining witness was Ervin Jordan. Jordan told the court he had been subjected to an assault by Richardson who he said was armed with a gun and only escaped serious injury when he fled the scene where a gambling game was in progress and took réfuge in a nearby store.

Mr. Broady demonstrated to the court that the weapon was no more than the ordinary toy guns sold children along with other Hopalong Cassidy cowboy regalia.

Judge Clement D. Nye heard the case. The court found Richardson not guilty.

Berman Moves To KFOX; On Air Mondays

Averill Berman, only liberal news commentator still on the air in Southern California, will be heard every Monday night, starting Feb. 5, over station KFOX (1280 on the dial) from 8:15 to 8:45 p.m.

Berman is jointly sponsored by the International Warehousemen's & Longshoremen's Union, Local 26, and the Los Angeles Radio Committee.

Until Monday of this week, Berman was broadcasting every afternoon over station KWKW in Pasadena. The station cancelled the contract for his air time a week before his last program on that station.

Before that, for 3½ years, the Los Angeles Radio Committee had kept Berman on station KGFJ.

In December, 1950, KGFJ cancelled his radio time without giving a reason for doing so.

"Averill Berman's broadcasts will continue to deal with matters of prime importance to working men and women," Olive Deuerlein, executive secretary of the Los Angeles Radio Committee, said.

"Nowhere else can radio listeners hear undistorted analysis of the problems that are facing the United States and the world today.

"We urge everyone in Southern California to listen to the Berman broadcasts and to let Berman and station KFOX know their reaction to the programs."

May Testify In Civil Exams Case

The Los Angeles Urban League may testify before the Grand Jury if cases in their files indicate irregularities in Civil Service examinations and certifications, according to Wesley R. Brazier, Acting Executive Director.

Tre current sensational allegations involving the Board of Education before the Grand Jury, charging "fixing" examinations to eliminate those undesirable to supervisors of the telephone operators for the Board of Education, has stimulated complaints which the League is now investigating prior to presenting to the school authorities and the Grand Jury. Mr. Brazier states it is possible that some complaints may have repercussions in many areas not heretofore uncovered. He requested those persons who feel that they have justifiable grievances, to register such complaints with the Urban League immediately. The League Executive cautioned against wild and baseless charges. These statements will be received through the regular League channels of the office at 2510 South Central Avenue and should be filed no later than February 8. Brazier said it is important that any inequities be rectified but it is equally important that public officials not be maligned unjustly.

In-service workers may also use the facilities of the Urban League, but are advised to first seek relief through the procedures established by the agency for whom they are working.

Central Area Aids Praised

Residents of the Central Avenue area who helped in the recent Christmas Seal Sale were lauded today by John H. Matthews, president of the Combined Christmas Seal Fund of the Los Angeles County Tuberculosis and Health Association.

We are now approaching our goal of $500,000," Matthews said, and there is every reason to believe we will reach it, provided those who have not paid for their Seals will do soon soon.

"Our campaign could not have been so successful without the aid of people in this community who not only helped publicize the drive but also placed merchandisers in stores.

Among those named by Matthews, who pointed out that "there are certainly many more who deserve recognition," was Dr. S. S. Brown, who headed the group placing the merchandisers.

Total receipts from merchandisers placed along Central Avenue amounted to $25.00.

A five-man jury will select from the list of nominees the man in the building industry who has achieved most "in unselfish service to the community" during the past year.

Marshall Interviews Convicted Soldiers

NEW YORK — Thurgood Marshall, special counsel for the National Association for the Advancement of Colored People, today reported by cable from Tokyo that he had "almost completed preliminary investigations" in Japan and has requested permission to proceed to Eighth Army Headquarters in Korea for further investigations of courts martial of Negro GIs.

Mr. Marshall said that he talked with all but two of the 39 convicted officers and enlisted men who have appealed to the NAACP for assitsance. His investigations, he reported, indicated that the suspicions of racial discrimination in most of these cases is well grounded. The NAACP lawyer will investigate all courts martial which occurred in Korea in order to get an accurate racial breakdown of such cases.

Following receipt of many complaints from Negro troops, the NAACP decided to send Mr. Marshall to Japan and Korea to make an on-the-scene investigation, as well as to act as defense counsel for such accused GIs as requested his services. He left New York on January 11 and is scheduled to return to San Francisco on February 14.

Accidents Kill Most Children

With the completion of their month-long educational campaign to prevent child accidents, Childrens Hospital officials today urged parents to continue the relentless fight to protect their children from this greatest killer.

"Safety for the children of America cannot be attained by a month campaign," Dr. Merl J. Carson, medical director of the hospital, stated today. "It is everybody's full time job and the program is never completed until accident hazards are depleted. However, we believe that the past month's project was far reaching and effective and we trust that it marked an awakened interest in many areas."

Dr. Carson repeated that accidents are the leading cause of death and an outstanding cause of disabling and permanent injury among children.

"It is true that excellent results have been accomplished in other fields of child health but they have not been duplicated with respect to child safety," he added. "Every parent, every adult, must meet this challenge of major importance for a completely effective child health program. Protect, educate, and prevent home accidents."

The hospital will continue to make its booklet, "Safety, Your Child's Heritage," free to those who request it. The 16 page, illusarted booklet shows eleven leading causes of accidental death to children. Persons may have the booklet by writing "Child Safety, 4614 Sunset Boulevard, Los Angeles."

The hospital conducted its campaign with the cooperation of the Prudential Insurance Company and the Los Angeles Chapter of the National Safety Council.

America Must End Race Bias Dr. Bunche Says at Testimonial

NEW YORK — America must put her "interracial house in order if she is to be the leader of world forces for freedom. Dr. Ralph J. Bunche, 1950 Nobel Peace Prize winner and Director of the UN Trusteeship Division, told an audience of 1,400 here last week at a testimonial dinner in his honor.

The dinner, held at the Hotel Commodore under the auspices of the Legal Defense and Educational Fund, Inc., of the National Association for the Advancement of Colored People, brought persons from all parts of the country together to pay tribute to Dr. Bunche on his return from Oslo.

Sponsored by a committee of outstanding Americans of both races, the testimonial was under the chairmanship of Judge Robert P. Patterson, former Secretary of War, and the vice-chairmanship of Hon. William H. Hastie, judge of the United Circuit Court of Appeals, and Ralph E. Samuel, president of the Federation of Jewish Philanthropies of New York. A drive for $250,000 was announced by Judge Patterson, who also reported that $30,000 of this sum had already been contributed.

Dr. Bunche Honored

Dr. Ralph J. Bunche, of the United Nations, was honored with a testimonial dinner in New York on Wednesday, Jan. 24, given by the National Association for the Advancement of Colored People. Dr. Bunche was surrounded, and virtually mobbed, five minutes after he had finished his speech—by autograph seekers.

Dr. Buncho also received the Nobel Peace Prize because of his successful efforts in bringing peace to the disputing factions between Israel and the Arab nations. He was also given the Spingarn award in Los Angeles, at the annual convention of the NAACP.

Bias Brings Disintegration Says Granger in Article

NEW YORK — "Our fatal insistence upon race as a dividing factor has produced a **disintegrated** society," writes Lester B. Granger, executive director of the National Urban League, in his article "Does the Negro Want Integration?", in the February issue of **The Crisis,** official organ of the National Association for the Advancement of Colored People.

"Our job today," Mr. Granger states, —"for Negro and white Americans alike—is to prevent further disintegration and promote a positive **integration.** . . . The future of America as a nation depends upon our increasing and supporting" those who are dedicated to this promotion of integration. Negro and white citizens who may not see the damaging implications of segregation." Mr. Granger asserts "have no role to play in producing the democratic Negro citizen in the American democracy of tomorrow."

The author emphasizes that mere breaking down of physical barriers imposing segregation is not in itself the accomplishment of integration, but merely the opening of doors to that end. The spiritual nature of integration, he states, requires that after physical barriers are removed, "those who have previously been debarred shall move forward freely to take advantage of their new opportunities . . . (and) new responsibilities."

Also features in the February **Crisis** are "Books by Negro Authors, 1950," an annual bibliography by Arthur B. Spingarn, NAACP president; "Prelude to Our Age," a Negro history poem by Langston Hughes; "The Chico Story: Black and White Harvest," by C. Wilson Record and "Dixie Without Magnolias," excerpts from a series of articles written by Daniel Guerin for the Paris newspaper **Combat.**

Protect Negro Troops NAACP Asks Congress

WASHINGTON—A three point program to protect Negro draftees from segregation and discrimination in the armed services was laid down by Clarence Mitchell, director of the Washington Bureau of the National Association for the Advancement of Colored People, in testimony before a subcommittee of the Armed Services.

Appearing before the subcommittee on January 24, Mr. Mitchell said that the new selective service law must provide that:

1. All new units be organized without racial segregation.

2. No privately owned Jim Crow establishment be used for the housing or feeding of armed services personnel; and

3. Racial designations be eliminated from all forms and records of military personnel.

In his testimony, Mr. Mitchell cited the continuing segregation of Negro troops in the United States Army, the humiliations and mistreatment imposed upon Negro soldiers assigned to the South for training, and the increase in the number of racial designations in the army records.

News From Europe and Other Countries

BRITISH WANT AFRICAN ARMY, AFRICANS WANT FREEDOM

ALEXANDRIA—The announcement that Britain is seeking to recruit and train an army of 500,000 African Negro troops to be at the disposal of the Anglo-American war bloc in Africa and abroad, comes as no surprise to military circles at this British Middle East war base. It is well known here that large numbers of British officers have been in Africa for some time, seeking African recruits for their colonial army.

Their recruiting methods are notorious. An example was the report from Makurdi in northern Nigeria in September of a raid on the villages and farms of the Munchi tribe in Tiv province, carried out by British district officer John Taylor. Three hundred male adults were seized at gunpoint, forced into a train and transported to the far northern town of Kano for training in the British colonial army.

The report circulating here emphasizes that the British imperialists have no intention of creating a self contained African army, but a series of service units to be attached to the existing imperial formations for service in the colonies and in the Mideastern and Far Eastern battle zones. This is a clear indication of their well-founded fear of the consequences of arming the African peoples. This fear is hidden behind their comments that the Negroes will make good fighting men if properly handled, and their attempt to parade the glorious record of nearly a half million African troops in the anti-fascist war as a precedent for dragooning them as mercenaries in the present anti-Soviet crusade of western imperialism.

South Africa's fascist Premiere Daniel F. Malan is vigorously opposed to British plans for arming Africans knowing that any military organization of the African liberation movements which are spreading throughout the continent would annihilate him and the other handfuls of white supremacist exploiters of the 180 million black peoples. Malan is proposing instead that the African people be placed in unarmed auxiliary units as is the case in South Africa. Southern Rhodesia is also reported to be opposed to the arming of the Africans.

CRUSHING DEFEATS OF FRENCH

PARIS—The first [illegible] People's Army communiques received by the Viet Nam News Service here, report crushing defeats and severe losses inflicted on enemy troops in the fighting of January 13 to 15. An army spokesman declared that the victories during these days in North Viet Nam will inaugurate a series of other great victories in the Red River delta. Commander-in-Chief of the People's Army, Gen. Vo Nguyen Giap, stressed in a congratulatory cable to the troops the importance of these victories—the first in mobile warfare fought on the open plains.

Baocuc was captured in a 12 hour battle on the night of January 13 and 14 during which 200 enemy were killed or wounded and all officers and arms were seized.

At the same time Vietnamese troops almost completely annihilated the third French reinforcement groups northwest of Vinhyen. The group was under the command of Colonel Venuxems and was composed of three African and one draftee battalions.

On January 15, People's Army units repulsed a French column from Vinhyen and inflicted heavy losses on two French reinforcement columns numbering 1,000 men, on the move from Phucyen. Many enemy troops, including a captain, a lieutenant and two second lieutenants, and a great quantity of arms were captured.

The fall of Baochuc resulted in the surrender of Chavang and the garrison of 30 men.

FLU EPIDEMIC HITS ENGLAND

LONDON—The flu epidemic which is now raging in England has everybody, including the number of American entertainers who are here, worried; and every precaution is being taken to get the sickness under control. Doctors and undertakers are both rushed doing what is their professions.

Every war usually has its "epidemic" of illness, so it is with the war now in progress, and we can only hope that the flu will soon be brought under control here.

U. S. TO SET UP ARAB LEGION

WASHINGTON—A decision to render every assistance to the government of Saudi Arabia to set up and equip an "Arab Legion" in that country was reached at recent talks held in the United States State and Defense Departments on the subject of military aid to Saudi Arabia.

Top military and Near Eastern experts have drawn up a scheme for creating a new Arab Legion of 25,000 to 30,000 men. This force would be considerably stronger than the British-sponsored Arab Legion of Jordan, which is commanded by an Englishman, Glubb Pasha and which at the height of the Palestine war had only 12,000 men.

The new American-sponsored Arab army in Saudi Arabia is to be equipped with the most modern American arms, including tanks, aircraft and artillery, and will be commanded by American officers.

FIRST FILM STUDIOS

PRAGUE—The building of the first film studios in Slovakia will be finished this year in Bratislava. Here among other things Slovakian film workers will produce puppet films for which there is a world demand.

Seventy new cinemas will be built in Bohemia and Moravia and 134 in Slovakia. The number of traveling cinemas which were increased from four to 26 last year will be further increased. Twenty-four foreign films will be translated into Czech this year. For the first time a Slovakian color film will be made.

HAVANA PEACE CONFERENCE

In Havana Cuba where there are 39 mothers' committees, a provincial conference was held. The mothers sent letters and telegrams to the president of the republic demanding that Cuban youth not be sent to Korea.

CYPRUS DENOUNCES FASCIST LAWS

NICOSIA, Cyprus. The publication by the Cyprus government of a new series of laws totally suppressing human rights, civil liberties, and freedom of the press is condemned by all sections of Cyprus people as a new fascist attack on the democratic movement.

Protests are being submitted to the British colonial administration from all popular organizations demanding the abolition of these and other anti-democratic laws.

INDOCHINESE FORM UNITED FRONT

RANGOON. Steps were taken to form a united front of all Indochinese peoples fighting the French imperialists at a conference held last year, states delayed reports from the Viet Nam News Agency. The meeting held between November 20th, 21st and 22nd in Viet Nam was attended by representatives of the Viet Nam (Laos and Cambodia National Fronts.

They elected a preparatory committee to study the problems of the formation of a untied front and issued a manifesto which was signed by Hoang Quoc Viet for Viet Nam, Prince Souphanouvong for Laos and Sieu Heng for Cambodia.

The manifesto declared: "In the light of past and present fighting experience of the three peoples, the meeting affirms the three countries have common aggressive enemies—French colonialists and American interventionists. To defeat them and to gain complete independence and unity, the three peoples must closely unite and help one another in protracted resistance."

POLAND SIGNS TRADE AGREEMENTS

WARSAW. A new trade agreement between Poland and India has been signed in Delhi.

It provides for the export of metal products, bicycles, enamel ware, pipes, china, chemicals and tinned foodstuff from Poland and iron ore, pepper, tea, raw hides, pharmaceutical raw materials and vegetable oils from India.

Another trade agreement between Poland and Egypt was signed in Warsaw providing for the import of cotton, phasphorite and woolrage from Egypt and processed food, chemicals, metal goods, wood industry and mineral products from Poland.

GOVERNMENT FOR PEACE

AMSTERDAM. In a statement on the current government crisis in Holland, which led to the resignation of Premier William Drees Social Democratic Government, the Dutch Communist Party declares that the crisis is an expression of the growing confusion of the war camp and the growing inability of ruling circles to solve the questions placed before them by the American course of war preparation.

Holland is impoverished by the prolonged and costly colonial war the statement declares, and the country is faced with financial crisis owing to a complete lack of raw materials in its own country and the formidable balance of payments deficit.

There is a growing pressure of the labour movement for higher wages which, among other problems, caused a serious crisis in the leadership of the Social Democratic Party just before the outbreak of the cabinet crisis, the statement adds.

Holland, the Communist Party declares, needs a government for peace and maintaining the standard of living; a government for higher wages and price controls; a government for an independent policy.

JAPANESE WANT EARLY PEACE

TOKYO. There are clear indications that the Japanese people want an early peace in Korea and a place for China in the United Nations, but conditions under American occupation make it more and more difficult for public opinion to find expression because of continuous suppression of left-wing newspapers. At the same time all commerical press acts simply as the mouthpiece of Americans.

It closed its second year of business early this month with total assets of $1,508,066 to place it high among the Negro-owned agencies throughout the country.

Carolina NAACP Branch Sets Gov. Byrnes Straight

COLUMBIA, S. C., Jan. 25—Governor James F. Byrnes, who in his inaugural address disavowed the "interference" of the NAACP, has been informed that "the National Association for the Advancement of Colored People does not consider it interference in resorting to due process of law (through the courts)."

In a letter addressed to the recently-inaugurated governor, James M. Hinton, president of the South Carolina Conference of NAACP branches, demands Mr. Byrnes that "you were the most distinguished member of the highest court in our judicial system and we do not believe that you considered it interference on the part of an individual, organization or racial group if they sought relief through due process of law."

Herman (Mike) Holiday, Art Student, Endorses Hubbard Dianetics

Herman M Holiday, "Mike," at present a student at Jepson Art Institute, "one of the best in LA", is now a certified Hubbard Dianetic auditor. He says that Dianetics is the greatest thing that ever happened to mankind, but thinks that it will take men some ten years or more to understand it.

"Mike" became interested in Dianetics when he attended Hubbard's first talk at the Shrine auditorium. He told Hubbard then that he wanted to make sketches illustrating points in his book, but Hubbard doubted that he was capable of doing this at that time. So Hubbard arranged that he have processing free and after some 70 to 80 hours he arranged for a professional course.

In Holiday's search for meaning for his own life three ambitions evolved as result of his own suffering and reach for better things—to become an artist, write a book, study and teach in field of human relationships.

At present continuing art studies, fine arts—oil painting, and while waiting to put his time and services at disposal of Dianetics at Hubbard's direction, is doing a "missionary" job for the Foundation by talking to Negro ministers, social workers, etc., and trying to set up group lectures.

Background of "Mike" Holiday

Born in Germantown, Philadelphia, youngest child of six, two sisters, three brothers; father a junkman, very religious, "a great man"; mother died when he was 11, father remarried; after several attempts, ran away from home at 15. One brother was an untrained artist, used to draw cowboys and Indians, could "see things" to draw in trees; at first Holiday thought brother was crazy, then began to admire and copy; but brother would crack pencil over knuckles and say it was wrong, which discouraged him; bored by art at regular school drawing trees and plants, and he always wanted to draw people.

Worked at odd jobs in Atlantic City, dishwasher in hotels, bellhop, shoeshine at Eddie's prizefighter (friends teased by always saying he was sure to be knocked out)—became addicted to gambling. This both a result of reaching for better, and a cause since it drove to better jobs.

Army, not overseas, out in '43. N. Y. Post Office married. Write-up in N. Y. papers in '43 on his fire tragedy, wife home from hospital with new baby, house caught fire—only crying of baby saved the two. Asthma began at this time, all their mutual savings lost, everything just new, no time for insurance. It was believed this was a hate job since they were only Negroes in the neighborhood where discrimination strong. Holiday does not believe this but resented real estate man who knowingly sent him into this neighborhood. Address was East Elmhurst, Long Island.

Job at Post Office was as guard checking identification, had much time on hands, used to being active, so tried to occupy time, found himself sketching people who came in. Kept this up, began to get encouraging comments. Finally decided to take course i naccounting to better himself, but one of his encouragers said what for? If pencil always in his hand must be because that was what he was meant to do. Tried to get into Art Students League and Pratt Institute but they were full and year's wait ahead.

Meanwhile asthma worse,

PM Fanning Confirms PO "D" Appointment

Michael Fanning, Los Angeles postmaster, confirmed the appointment of Leslie E. Scott, former assistant superintendent of Station D, 1219 W. Jefferson Blvd., to superintendent, and Wilbur W. Mason, a former clerk at D who has been a clerk-in-charge at Terminal Annex and was brought back to the local branch, as assistant superintendent.

Scott has been with the post office for thirty years. Shortly after his discharge from the Army in 1920 he went to work as assistant carrier at Station D. He attended the local schools in Pasadena, his birthplace, and the University of Southern California, majoring in Liberal Arts. Mason, upon completion of his undergraduate work at UCLA, entered the postal service as a clerk at the Terminal Annex in 1935. He is the son of the late Dr. and Mrs. E. J. Mason, pioneer family of Los Angeles.

In a letter to Fanning Dr. E. I. Robinson, president of the Los Angeles branch of the National Association for the Advancement of Colored People, stated, "This organization has appreciated through the years your lack of racial bias in advancing personnel in the post office. We were pleased to learn of the appointment of Leslie Scott and Wilbur Mason as superintendent and assistant superintendent of Station D. We commend you highly."

Council On African Affairs In L. A.

A Los Angeles committee to Establish a Council on African Affairs, will hold a convention on February 18, from 2 p.m. to 5 p.m. at the Academy of Arts, 1363 West Adams Blvd., Los Angeles.

The National Council, in New York, is daily pointing out the connection between events in Africa and Jim Crow in this country. For example: 35,000 white persons govern six million Africans in Anglo Egyptian Sudan, while 4,163 votes elected a congressman in a district in South Carolina, which has a population of 300,000. Most of the 300,000 persons are negro's disfranchised.

The response to our weekly study sessions, indicates that members of social, church, business, professional, labor and other organizations are equally anxious to participate and develop a forward moving program. A few of those who have expressed their interest in the Council are: Dr. T. P. Cobb, Atty. H. Simmons, Atty. Curtis Tayloe, Mrs. Charlotte Bass, Francis Williams, Rev. J. J. Hicks, Jeni Le Gon, Atty. H. McBeth, Andy Razaf and many others.

We urge those that are interested, to come early as the purpose of the organization will be made very clear thru a cultural exhibit of the African people's dress, art, and habits. Also thru a truthful and poignant portrayal of a day in the life of a Nigerian family, enacted by Miss Adori Ulasi, and other native African students.

Bicycles Cause Many Injuries

Butch and his wayward bicycle rated top priority among traffic problems this week as the Federation of Community Coordinating Councils launched a cycling safety, program designed to standardize peddling habits according to law and common sense.

With a pointed reference to statistics, the council noted that 910 bicycle deaths were recorded in the nation in 1941, highest figure in the past 20 years. The toll had dropped to 500 by 1949, but in that year more than 25,000 non-fatal injuries were suffered by bicycle riders.

The Eyes Of The World On Us

Perhaps only the Scottsboro case attracted greater world attention than that of the present Martinsville Seven, condemned to die in a Virginia gas chamber today, the victims of the Southern lynch law.

The latest release says:

There was a "death vigil," starting Tuesday, 4 p.m., and continuing day and night through Thursday, before the White House to urge President Truman to intervene to save seven Negro men slated for execution on Friday, victims of Southern lynch law.

The seven, known as the Martinsville Seven, were charged with the rape of a white woman in 1949, tried by an all-white jury and convicted in a case closely paralleling the Scottsboro case which shocked the civilized world nearly two decades ago.

A statement to be submitted to President Truman declares, in part: "While the United States government offers itself as protector of civil rights on a world scale, the State of Virginia, without objection from the Federal government, is about to execute seven innocent Negro men."

Other organizations participating in the death vigil have urged that actions on behalf of the Martinsville Seven be held in capitol cities of Europe and Asia. Among those leading the Washington vigil will be writers Howard Fast and Dashiel Hammett.

A national caravan to free the Martinsville Seven will join the "death watch" after calling upon Gov. John S. Battle at Richmond to stay the executions.

The New York council of the ASP will submit a formal statement at the White House requesting President Truman to intervene immediately on the grounds that the Virginia authorities have abrogated constitutional rights and Federal laws in the case of the Martinsville Seven. The President's intervention is being urged under the Federal Civil Rights Act which empowers the Federal government to step in when local authorities fail to uphold constitutionally guaranteed rights.

Resolutions from all over the world have gone to Gov. Battle urging freedom for the seven Negro men whose alleged victim, a former inmate of a mental hospital, has disappeared since the trial and conviction attracted world attention and protest.

Forty-four Negroes have been executed by the State of Virginia on charges of rape; no white man has ever drawn the death penalty on this charge.

Leading intellectuals and members of the clergy in the United States have protested the sentencing of the Martinsville Seven, among them: Rev. D. V. Jemison, president of the National Baptist Convention; Baptist Morning Ministers' Conference of Philadelphia, largest local group of ministers in the United States; Rev. Jack R. McMichael; Rabbi Jonah E. Caplan; Rev. Charles A. Hill; Rev. George L. Paine; and Rev. Charles B. Ackley; Wallingford Riegger, Martin Wolfson, Donald Ogden Stewart and David D. Huber in the fields of theater and music; Henrietta Buckmaster, Thomas Bell, Daniel S. Gillmore of the Daily Compass, and Mrs. Maude Trotter Steward, editor of the Boston Guardian, among authors and journalists; and almost 1,000,000 trade union members represented in international trade unions and locals, among them the Detroit U.A.W. locals, Mine, Mill and Smelter Workers, Fur and Leather Workers Union, U. E., and Packinghouse and others.

Even while you read this the "death watch" is being held before the White House. Keep one here, in your own hearts. Pray, if you ever prayed, that justice will be done. That those seven young Negroes will be saved.

ORGANIZATIONS SWING INTO ACTION

The New York Council of the Arts, Sciences and Professions made public the names of prominent individuals who have addressed a plea to Gov. John S. Battle of Virginia to order a retrial for the Martinsville Seven slated for execution on Friday.

Noting that the seven Negro men were tried by a white judge and an all-white jury on a charge of rape for which no white man has ever been executed in the state of Virginia, the signers of the appeal declared:

"We are deeply concerned over the seven Martinsville Negroes condemned to die early in February. We appeal to you most earnestly to stay the execution of these men, in light of the facts about their trial that have come to our attention. They were tried by a white judge and jury in a state where the population is one-third Negro, and were given the extreme penalty on a charge of rape for which no white man has ever been executed in the state of Virginia. Now when the world looks to us to treat our minority peoples in the traditions of democracy and justice, it would seem most judicious to grant executive clemency in this case and to use your influence to bring about a retrial in which no shadow of a doubt as to equal treatment of the Negro people will obtain."

Signers of the plea to stay execution and order a new trial are: Robenia Anthony, Thomas Bell, author; Rabbi Jonah E. Caplan, Henrietta Buckmaster, author; Daniel S. Gillmor of the Daily Compass, Rev. Charles A. Hill, David D. Haber, educator; Rev. George L. Paine, Wallingford Riegger, music; Donald Ogden Stewart, theater; and Martin Wolfson, theater.

How About These Questions?

The campaign to abolish discriminatory rental policy at the Wyvernwood housing project in Boyle Heights has been directed to Ben Weingart, president of the Consolidated Hotels, Inc., who is said to have the actual management of the project.

Phil Rosenberg, chairman of the Eastside IPP, sent the following questions to Mr. Weingart:

1. Does Wyvernwood **now** have Negro, Mexican-American, Jewish or other minority residents? If so, how many?

2. Will Wyvernwood homes and apartments be available for rental (upon vacancy) to Negro, Mexican-American, Jewish and other minority families?

3. Will your firm immediately make public its policy of "no discrimination" at the Wyvernwood project?

The people of all Los Angeles, not only of East L. A., are asking these questions. Many of the boys now in Korea came from families who have been refused homes in this project. How about them? How about all the questions that people have been asking ever since that project was started?

Howard's First Negro Medical Dean Eulogized

The January issue of the Journal of the National Medical Association is the Adams Memorial Number, dedicated to Dr. Numa P. G. Adams, first Negro dean of Howard Medical School, who died in 1940.

Dr. Adams came to Howard at a critical time, June, 1929. Reforms were being initiated in medical education. Negro medical schools were falling farther behind. Many persons, including influential Negroes, thought the time was not ripe for a change-over to a Negro dean. Four prominent Negro physicians turned the job down.

When President Mordecai Johnson of Howard, in the face of pressure for another white dean, finally prevailed upon Dr. Adams to accept the position, storms raged around the new appointee's head. Unequipped by gift or inclination for political maneuvering, some of Adams' straight-forward decisions were unpopular. He stepped on white and colored toes. He insisted that white visiting professors from neighboring medical schools adjust their hours to fit Howard's schedule instead of compelling Howard medical students to attend evening classes.

His policies prevailed. And today he is honored as one of the great leaders in medical education in the country.

TIME FOR COURAGE

Part III

In previous articles we have emphasized that opposition to tyranny has always been the greater loyalty in every nation—and that today this means that we who want to save American democracy, and improve it, must fight against the advances of fascism.

How then, are we to fight—we, the average citizens, the parents, workers, artists of America? What specifically can we do?

It is doubtful that anyone can furnish a complete and detailed blueprint which will be the perfect guide for each responsible citizen. And the best that can be done in a discussion such as this is to offer some general suggestions—which each person can adapt to his own interests and capacities.

To begin with, there is much we can learn from our country's true history, and that of other countries—particularly the fact that in this nation, as elsewhere, it is the common people who have been the source of its power and riches. (This will be a source of pride and strength for us.) We should read such books as Shirley Graham's biography of Frederick Douglas, Howard Fast's historical novels, John Howard Lawson's "The Hidden Heritage."

We must also arm ourselves with the truth about the world's daily events. This will be found only in such publications as the California Eagle, Peoples' World, National Guardian, and the new Negro monthly, "Freedom." And in the radio programs of an Averill Berman.

Reading and study are very important, but we can't devote all our time to it. There's much urgent work to be done . . . the neverending tasks of making democracy work.

Work to Be Done

Whatever our personal inclinations and skills may be, long experience has proved that the most effective way for any citizen to discharge his duties is to do so in an organized manner, joining his strength and time to that of his neighbors. In this way we all obtain the greatest returns from our investment.

Today this means participating in the work of those organizations fighting for such democratic programs as FEPC and peace . . . organizations like the NAACP, the Independent Progressive Party, the Civil Rights Congress.

True, many of us are not organizationally-minded. In that case, we can make important contributions to the common struggle by such activities as:

Writing the President and our Congressmen overy time an important issue develops—like the fight to free the Lt. Gilberts, the Hollywood Ten, or to pass FEPC, or abolish Jimcro, or bring our troops home from Korea—

Joining delegations to the city council to protest police brutality, or fight for public housing, or to oppose universal military training—

Attending such meetings as those at which Charlotta Bass and Jackie Clack reported on the World Peace Congresses—from which we can get hope and courage—

Sending a spare quarter or dollar to such groups as the Civil Rights Congress which, in fighting for the lives of the Willie McGees and Martinsville Seven, is fighting for our lives.

Talking with our neighbors about the problems that disturb us—and urging them to demand rent control and reductions in the criminally-high cost of living. Ask them, too, if they wouldn't rather form a peace committee now than mourn a slaughtered son?

Whatever form our contribution takes is a matter for each person and his conscience. There is, however, a basic philosophy, a foundation, on which we must all build our lives today:

1. Every American has a personal responsibility to assist in safeguarding American democracy, which means our liberties and lives. No one else will do it for us.

2. Every American who fails to do his part and thus allows fascism to win will be forever condemned, just as history condemns those Germans who (by not fighting back) allowed the Nazis to conquer, and bring tragedy to mankind.

3. No American can by his own efforts insure his security. No American can be secure unless all Americans are secure. Only by joining with our neighbors to secure peace and security for our nation can we expect to have any for ourselves and loved ones.

A program such as this promises the greatest reward of all—the assurance of a life well-lived.

LETTERS TO THE EDITOR

Dear Mrs. Bass:

It is early to be renewing my subscription, but I read your request in this week's issue of the **EAGLE**, and am enclosing my check of four dollars. I sincerely hope there will be many, many more years of life for the **EAGLE** in our city.

I telephoned your office Saturday after I read your letter to Walter White. Our minds seem to think on like trends on this subject. After I read my **Ebony** article, I planned to write the editors and remind them that since it is their policy to keep strictly in the middle, it is only in fairn sseth

to that policy and their readers that they get a reply—but quickly—from either Paul himself, his wife, Dr. DuBois, or any equally qualified person.

In reading your article I was tempted to enclose it in my letter to **Ebony,** but so many people want to read it ,that in my letter I shall merely refer it to them.

It seems to me that Negroes, no matter what their economic, social, educational, and political levels, are all agreed on the wrongs that need righting. But the methods to obtain these rights—that is where the differences appear.

I cannot take up any more of your time. I wish you and your endeavors the greatest of success as always.

Very sincerely,
Nettie Strauss ??
(Miriam Fogel's daughter)

Pittsburg, Calif.

Dear Editor:

I've just finished reading your paper. I'll have to admit that this was the first time that I have had the chance to read it, and I think it is a wonderful paper.

It is one paper that faces facts, and brings things out into the open so that the public can really see what is going on. I think it would be a shame to let a paper like this die. I am enclosing $2.25 for 6 months' subscription.

I for one, as the president of the Pittsburg Branch of the NAACP, would be glad to do all that I can to see that this paper stays alive, so I am asking your views of starting the **California Eagle circulating here in Pittsburg.** I would like ot see 100 papers a week here. Through the **Eagle** I think the Pittsburg people would get some of the facts. I am asking for a speedy reply.

(The writer for got to sign his or her name to the above letter, so we cannot write a personal "Thank You." We say here, however, that the **Eagle** will greatly appreciate any efforts made anywhere for a circulation drive, and 100 copies sounds good to us. Editor.)

Dear Mrs. Bass:

In regard to the publicity given us, Troop 970, by your paper, "The California Eagle," we, as a troop, would like to express our thanks and appreciation.

Sincerely yours,

Mrs. H. L. Worthy, Leader.

Dear Mrs. Bass:

May I congratulate you on your "answer to Walter White's Smear of Paul Robeson."

I appreciate the time you gave me on the telephone. The following letter I wrote to Mr. Walter White. A copy was also mailed to Mr. Ben Burns of **Ebony Magazine.**

Dear Mr. White:

Your article "The Strange Case of Paul Robeson, in the February issue of Ebony Magazine, gives rise to many questions in my mind.

Mr. White, what exactly is the purpose and the aim of this article? Is it a campaign to discredit Paul Robeson among the Negro people?

I have never met either Paul Robeson, or you, Mr. White personally, but have been a White reader of Ebony for a long time. To uphold my opinion of Ebony, I do expect to see published in the near future, a rebuttal by Mr. Paul Robeson.

You, Mr. White, as Executive Secretary to the N.A.A.C.P., certainly can and should be utilizing your time and energies in promoting your people during these difficult and trying times. What have you done to help moderate White hostility toward Colored Americans?

In your article, Mr. White, you ask "What made great singer turn toward Communists?" It would, to my mind, be of greater value if you were to ask, "What makes anybody turn to Communism," and in a positive way, find what we could do here in our great country to insure that all people live in domestic tranquility.

I fully agree with you Mr.

LABOR ON THE MARCH

By PENN

We are a little tired of the alleged fight against discrimination that most CIO and AFL unions carry on, particularly in the south. There are exceptions, of course, and few things make us happier than to see or hear of an actual situation where a broad and decisive blow is made against jimcrow.

But the one-shot "onslaughts" against discrimination, in which some dramatic element is used, only one or two people affected, and a phony conclusion drawn, make us a little sick at the stomach. More important, of course, than the state of our health is the fact that these "dramatic miracles" do nothing to wipe out jimcrow, nor even educate the person who "sees the light."

Latest of these "dramas in prejudice" that has crossed our desk is an editorial printed in the "Butcher Workman," official organ of the AFL butchers' union.

In this gem, a man called (but not) Silas Judson goes through the following:

"Judson was quite intelligent; was an active member of our organization; took part in civic enterprises and boasted he was 100 per cent American—except that he had a feeling the Negro should be 'kept in his place.' He could never believe they should b allowed to sit in the union meeting or to attend schools with white. In fact, he openly contended the Negro is an 'inferior type' and that 'God never intended him to be the equal of the white man.'

"Some years later we met Silas Judson again. Said he had rheumatism which was keeping him from getting good jobs. He thought it a shame that Negroes were being hired in Memphis while white members were loafing.

"We made another trip to Memphis later . . . his hands looked cramped and twisted. His face showed signs of excruciating pain. Rheumatoid arthritis was taking its horrible toll. We told Judson to have hope and a remedy would be found.

"He said he would kiss the hand of that man.

"A short time ago we saw Silas Judson again. He expected to go back to work. His doctors had treated him with Cortisone, the new miracle drug for arthritis. We asked him if he would still kiss the hand of the man who discovered Cortison. 'I sure would,' Judson replied.

"We showed Judson the picture of Dr. Percy Julian, the great Negro chemist who discovered Cortisone. He looked at it a moment in silence and said, 'To me this Negro, next to, Christ is the greatest man that ever lived.'"

Very pretty. Very pretty indeed.

With all honor to Dr. Julian, we still are interested in whether or not Judson immediately launched an all-out fight for equality for Negroes, both in his union and in the community.

Did Judson change his thinking about Negroes sitting in union meetings? Did he fight for the right of Negro children to equal education, in the same modern schools that white children go to in the south?

Did Judson acknowledge that he was wrong when he openly contended that Negroes were "inferior types," did he retract his statement about God's "intentions" about Negro-white relationships?

Or did he just change within himself, without speaking out for Negro rights?

We have no argument with Judson's conversion, if it were a conversion. But we do consider an impossibly slow method to win full democracy for any minority group.

How many Judsons will have to be benefited directly by how many Dr. Julians to wipe out discrimination in the AFL, the CIO and in the south?

CHINA AND THE ATOM BOMB

The most important thing about the New China today is the fact that it exists.

This reality is the most important one in the world today—this reality that 475 millions of the colored populatio of this earth, after more than one hundred years of war and struggle, have thrown off the double yoke of colonial exploitation and their own warlords.

The New China is not being allowed to exist by virtue of any friendly grace on our part. This nation, the United States, exists by virtue of our revolutionary struggles. New China exists by virtue of her.

Europe is shrinking before our eyes until that little part of the world which stretches from the Mediterranean to the English Channel and which has contained and controlled so much of the world's history, begins to look like a peninsula on the vast Asian continent.

I repeat—this is the most important historical fact of our day—the tremendous surge of the Asian peoples toward national liberation and self-determination.

In one short year the people's government of China has solved the age-old problem of China's misery and starvation. Flood and famine, famine and flood, have haunted the Chinese people for as long as any of us here in this room can remember. And in one short year the people of China have reclaimed and put under irrigation seven tenths of the land which was formerly under water. This year, for the first time in China's history, no one will starve.

It is the most reckless folly to suppose that these 475 million people who are creating the future with their own hands, who have lived intimately with war and starvation and toil and danger—that such people can be intimidated b ytalk of using the atom bomb against them.

For one thing the atom bomb, while an instrument of horror, is relatively meaningless as a military weapon against China, with her vast population and her widely spread-out industry. While England, for instance, could be obliterated in a day of atomic attack, China would survive, and the hands of her farmers and her newly trained industrial orkers would continue to build and to re-build. For another thing, the tonnage of bombs which have been dropped on Korea is estimated to equal the destructive power of eleven atomic bombs—without noticeably frightening the Chinese.

No, you cannot frighten these people. It is very difficult to scare people who have suffered for four thousand years with talk of a new weapon, no matter how horrible it is—especially when for the first time in their national existence, they are unified in the peace which they have won, and for the first time no one is going hungry.

I do not believe that it is necessary to discuss here the morality of this country opening up atomic warfare. Therefore I have confined myself to its futility. However, I should like to give you a side-light on how the Asian people feel about the bomb. A Chinese friend once asked me why the bomb was dropped on Japan and not on Germany. He then enlightened me. It seems that most people in China believe that the bomb was dropped on Japan because the Japanese, being a colored race are therefore an "inferior" race, and that it was all right to make this experiment in mass murder on an "in ferior" race instead of the white superman of Nazi Germany.

Whether this is the fact or not, is beside the point. The point is that by our use of the bomb we not only destroyed thousands of civilian lives, with results on future generations in terms of cell mutation which cannot yet be estimated—but also we served a poor notice of our intentions toward anyone in the world, anywhere, who might conceivably oppose us in political theory, in their choice of government, in their choice of a way of life.

The government of China belongs to the people of China, not to us. And still we persist in recognizing the disreputable Chaiang Kai Shek as the legitimate head of government. This is interfering in the internal affairs of another nation and is contrary to American tradition in diplomacy.

The Chinese people are troubled by this, but they are not frightened by it. They are troubled, though they are not frightened, by the fact that the American Seventh Fleet is guarding Formosa for Chiang Kai Shek, when the island of Formosa doesn't belong to Chiang Kai Shek. It belongs to the Chinese people by treaty agreement. They are troubled by this act of President Truman's in sending the American Seventh Fleet into Chinese waters, which they regard as an agression on Chinese territory. But they are not frightened.

In the words of Madame Sun Yat Sen, who is vice-chairman of the government, the Chinese "have known war for over a hundred years. So, to us, peace is a treasure. We will struggle to maintain it. We will protect it at all costs."

Madame Sun Yat Sen thanks America for our help and strength in times past, and she says:

DEMAND WAGE INCREASE

SAN FRANCISCO—Demands for an immediate wage increase will be presented to members of the Marine Cooks and Stewards Union for discussion in all ports this week.

National offices of the Union in a complete rejection of the wage-price formula, declared that the soaring cost of living the past three months and the fallibility of the so-called wage-price freeze made wage increases for seamen mandatory.

MCS President Hugh Bryson pointed out that prices were frozen at their highest point at a time when price increases far outdistanced wage increases in maritime and every other industry.

In all-out condemnation of the wage freeze Bryson said, "It will take a lot of red tape to get a few pennies while price increases will mount into nickels, dimes and dollars."

SUPPORT LT. GILBERT

A pledge of support was sent to Lt. Leon A. Gilbert by the Los Angeles CRC. Two thousand signatures have already been mailed to President Truman on pettiions asking for full freedom. The CRC plans to collect at least 30,000 more during History Week.

Lt. Gilbert was sentenced to death by court martial in Korea for refusing to take his troops to certain death. He is a veteran of World War II, and it has been brought out since the court martial trial that the court consisted of biased white members.

SLAVERY TO SLUMBER

This article, by a Negro American who is proud to be both, is the result of convictions reached after 27 years of having a role in the American minority drama.

If it inspires its sanctioners to higher endeavor and challenges its slanderers to productive action, it will have served its purpose.

* * *

I seek with earnestness the day when every member of my race is deeply proud of being an integral part of the greatness of America. That day will come, for sure, when the Negro rises to the general enlightenment which is inevitably within his reach by virtue of democracy. No other form of government promises so much to the unpopular — no other group is more eligible for this valued promise than my people.

Since emancipation our advancement has been noteworthy. Formal education and practical training have brought to thousands of us an equipment for useful — sometimes enviable — lives. And this tendency toward advancement steadily increases. Negro colleges are as crowded as any in America, and in the last decade many white colleges have received a growing influx of Negro students.

This higher learning alone promises a future far brighter than any period through which we have yet come. However, general advancement will be realized only after certain obstacles are removed from our upward climb, obstacles the presence of which the Negro himself is guilty, and which he alone can remove.

Foremost of these self-inflicted dangers is the death-dealing suggestibility to which we have succumbed. The status of slavery and all its dastardly consequences reduced our forefathers to a misery whereby every accusation spit at them was deeply engrained. They soon saw in themselves all the faults of

White, when you say that "Many people have ceased to think in terms of liberals versus reactionaries or Democrats versus Republicans, when it comes to Negroes, but instead ask categorically, 'How do you stand on Paul Robeson in order to find out exactly what the Negroes political beliefs are." Do you think it may be because they fear the weight of 15 million people, and Paul Robeson, am an who may lead those people, in the country of their birth, to the fulfillment of their Constitutional rights?

I have on one occasion, heard Paul Robeson speak, and there was absolutely nothing subversive in this speech. He told of his love for the United States, and of the blood and sweat his ancestors gave to help build this country. He thanked the people of this city for his welcome, and the kindnesses extended to him, and asked that they not only be kind to him, but also be kind to all his black brothers and sisters.

Mr. Paul Robeson's deep sincerity inspired my trust in him. I am confident that he is fighting for a principle—to establish the equality and the freedom of his people, and all people, are entitled to under the laws of our great Constitution.

I cannot understand why, if you have been friends with Mr. Paul Robeson for over 30 years that you did not get together with him for verification of your many conjectures. If this had been done, then perhaps you could have written in a positive way to help build the morale of your people.

Too, I cannot understand why in all the Colored Magazines I have read, I have never read anything authored by Mr. Paul Robeson. It is because of the outside influences that may be governing the policies of these publications?

In your article you, Mr. White, ask too "Why did Paul Robeson voluntarily give up an annual income estimated to average $200,000.00." Could it be because Paul Robeson, challenging the best of his people presented a greater opportunity for service to mankind than the pursuit of personal wealth?

Some people aspire moral strength because of their physical weakness. Paul Robeson has proven to have great moral strength as well as physical strength. He refused to pocket degrading insults while his bank balance increased.

Instead of prosecuting those guilty of slandering him, he is pursuing the more difficult task of enlightening his people who accept the obligations of their country, and should seek the advantages of full citizenship.

If we were all to work toward the actual fulfillment of our Constitution, and Bill of Rights, ours indeed would be the greatest country in the world, and others would SEEK our guidance.

To you Mr. White, I would say, do not act to lower the morale of your people but instead, help to establish the equality and freedom for all people as Mr. Paul Robeson is so obviously trying to do.

Sincerely,
HANNAH WEISS DANIELS

Jan. 29, 1951

The Hon. Governor Battle,
State Capitol,
Richmond, Va.

Honored Sir:

I am writing you as a native of the great state of Virginia over which you have the distinct honor and tremendous responsibility of being governor. I was educated in Virginia, and wherever I have gone have never lost my genuine affection for my native state. I feel geratly impelled to write you in behalf of the seven young men from Martinsville, Va., who are scheduled to die on the second and fifth of February, respectively, for the alleged rape of a white woman.

I am well aware that many people and organizations are appealing to you in behalf of these men. I am aware that some are demanding that you revoke their sentence of death. It is my opinion that this is the wrong approach. I would not lend my efforts to anyone who would demand anything of you. My request, therefore, is not in the form of a demand, but rather a most earnest and sincer prayer that you will exercise the prerogative of your office as the governor of our great state and commute these men's sentences from death to life imprisonment. If you do that, you will see to it that the ends of justic are certainly satisfied, and that mercy is extended these unfortunate men. I am not only praying this of you, but I am praying that God might touch your heart and direct you to this decison.

With every good wish to you, personally, and for your continued high leadership of the great state of Virginia, I beg to be,

Yours sincerely,
(Rev.) J. Raymond Henderson,
Minister in Second Baptist Church, Los Angeles, Calif.

Lieutenant Leon A. Gilbert
c-o Mrs. Kay M. Gilbert
c-o Davis Fullen
Manchester, Pa.

Dear Lt. Gilbert:

We were privileged to read your letter of thanks to our National Executive Secretary, William L. Patterson.

We are in complete agreement with Mr. Patterson in his belief that when the courts and government officials do not, or will not, act in te cause of justice, the case must then be decided by the highest court in the land—the people.

We in Los Angeles, have turned to the people. We are confident that, allowed t olearn the true facts in your case, that sovereign body will rule NOT GUILTY, UNCONDITIONAL RELEASE AND RESTORATION OF YOUR STATUS AS A COMMISSIONED OFFICER.

Some 2,000 have already sent in their verdict in the form of signatures on a petition.

It is our custom, Lt. Gilbert, to celebrate Negro History Week, not only by commemorating the great contributions made to our democracy by Negro men and women, but by a continued struggle today for justice and freedom for our Negro brothers and sisters.

We pledge ourselves that during Negro History Week this year, we shall send to the President of the United States, 30,000 signatures of Negro and white Americans of Los Angeles, demanding your freedom.

We further pledge ourselves to fight untiringly with the same spirit shown by black and white Abolitionists before and during the Civil War, for the absolute freedom from pimcrow and discrimination against Negroes and for unity of all peoples.

In this case, Lt. Gilbert, you have become the symbol of the fight against white supremacy here at home, and against those who rule by discrimination everywhere. Because white supremacy finds its most powerful supporters in ou country, we here have the responsibility of erasing it from existence. The eyes of the world are upon us.

Keep your courage high Lt. Gilbert, truth and justice will always prevail when the people will it so.

Dear Mrs. Bass:

The above is my new address. I expect to be here for some time now, so please start sending the paper to this address. Firsthand news about America is rather hard to come by here ,and my friends and I will be waiting expectantly for the paper to arrive.

Here are some notes I took on the trip.

Second day out I dug up my old guitar and we started strumming a few American folk tunes, songs from Spain, and some Russian army tunes. We became very popular at once.

Naples. The first thing you see of Naples is still Vesuvius. The second, the American Mediterrean fleet, aircraft carriers, cruisers, destroyers, submarines, etc. The third, fourth, fifth, sixth, seventh, ete, are shiny, bright red coca-cola ads. The next an exhibition guarded by eight carabinieri, showing how prosperous the Marshall Plan has made Italy. Then hordes of starving children, and finally wall after wall covered with whitewashed doves with the legends: "Pace" and "Contra La Bomba Atomica!"

If you want any info on Israel, let me know.

Fraternally,
Toni S. Wood

WOMAN FOR COUNCIL

"The Los Angeles City Council needs a woman's heart and humanitarian influence," Mrs. Sally B. Moody, 4251 Hazeltine avenue, Sherman Oaks, said in explaining why she had filed as a candidate for councilwoman in the Second District.

President of Animal Allies, Inc., Mrs. Moody has been working for humanitarian causes for the past 10 years.

Mrs. Moody said: "It is high time that we get some humane people on the City Council. I feel that a councilman should be interested in problems outside of his immediate district, and represent the entire community. I will fight for improved recreational facilities for the young and for greater efficiency in city government. Waste and needless expenditures must be eliminated."

LA MAR'S COUNCIL CANDIDACY

Even though his campaign has barely reached the announcement stage, lauditory and active support has been reported favorable to Lawrence F. LaMar's announced candidacy for the nomination for the seat in the City Council from the 15th District.

"I want to know definitely, what the people want, and not what I think they want and ought to have," he told the committee urging his making the race.

Slavery to Slumber

(Continued from Page 4)

which they were accused by thoughtless masters.

Even today this suggestibility among us is dangerously common. No people can sustain recognition when plagued by self-doubt and self-disparagement. If a man's mind is clear, let it guide him to accomplishment and in so doing show him his own merit. Then the slumber of the whole world becomes powerless in marring his integrity and self-appraisal. But if we proceed in slumber — doubting our capacities, denying our racial heritage, our confirmation as a lesser race will sound its death-note, with us heading the list of patrons.

Our second danger is our practice of over-indulgence in artistic talent. Our singing has entralled millions. Our dancing is personified rhythm. Of these talents we should be abundantly proud. Honored though they are, they become shameful time-wasters when indulged in for the sole sake of folly. Nothing constructive comes of entertainment, no matter how spectacular, when folly is the keynote. What good have we done if the world lauds our showmanship, then frowns when the show is over?

The third danger lies in our impatience with our economic and social status. We complain bitterly of the lack of opportunity for better employment and social recognition. In this complaint we are justified, in part at least. Without question, we are the sub-citizens in many areas of our country—depraved, unpopular. In seeking a cause, however, no single element can be named. Ours is a plight caused by a complexity of factors which, when examined, can be attributed more to circumstance and lack of vigil on our part than to any force from without.

And how many of the chronic grievance-mongers have attempted faithfully to improve our preparedness to a point where our presence on a desired job or in a desired community would be an asset? Or in our present state, how many of us have not found, through comparison with conditions in lands abroad, that we are blessed indeed to be who and where we are?

Military duty has taken me to three continents since the outbreak of World War II. In North Africa I found colonials subjected to economic conditions which make my people in America seem wealthy. In Europe I saw poverty and misery unequaled anyplace in America. At present in the Orient I find a prevalence of poverty and disease which inspires pity for the sufferers and constant gratitude that I and my people are Americans.

This gratitude deepens with my conviction that some day democracy, with our support and constant vigil, will fully embrace all my people.

Institute on February 7

"Persons, Parents and Pedagogues" will be considered by the Reverend F. G. Scherer, Eugene, Oregon, at an Institute session for local teachers to be held February 7 at 7:45 p.m., in the Berendo Junior High School auditorium, Los Angeles.

The session is sponsored by the Veneral Disease Council, and Mrs. Hazel Vorkink, consultant in parent education, will act as chairman.

Reverend Scherer, pastor of the Fairmount Presbyterian Church in Eugene, is a memberof the Board of Directors of the American Social Hygiene Association and was formerly director of the Division of Social Hygiene Education of the Oregon Tuberculosis and Health Association. An outgrowth of his years of work in the field led to publication, recently, of a booklet, "The Family Looks at Life." As associate minister of the First Presbyterian Church, Portland, several years ago, his special asignment was personal and pre-martian counseling.

World Protests Execution Of Martinsville Seven, Feb. 2, 5

Statement of Abdoulaye Diallo, vice-president, WFTU, and secretary-general, Sudan Trade Union Federation:

"The Martinsville 'affair' shocks all honest men. This injustice' serves openly a policy of racism. It covers the methods of lynching, it makes itself an accomplice to an abominable crime against seven innocent young Negroes, condemned to death, without having had the right to defend themselves fully.

"The African people join their protests to those of the anti-racists of the world, and express their solidarity with the victims of racism.

"Let our protests reach the American ambassadors and the United Nations! Let us intensify our fight against all racial discrimination, while uniting with all men worthy of the name, without distinction of the religions or politics they belong to!"

Telegram to President Truman and Governor Battle, Virginia, by Union of Polish Youth:

"In the name of over 100,000 young Poles all Polish youth vigorously protest against the barbaric decision which was handed down—the execution of the seven innocent Negroes.

"Polish youth understands well that these gangster methods of the Ku Klux Klan are closely linked with the preparations to incite a new criminal war.

"The Central Committee of the Union of Polish Youth, expressing the most heartfelt feelings of all Polish youth, which has suffered so much in the struggle with Hitlerite barbarism, demands the immediate stay of execution and a full pardon for the seven innocent Negro youths."

(Translated from French.)

"Mr. Truman
White House
Washington, D. C.

"The French Committee of Democratic Youth in the name of all the progressive youth of France, raises an indignant protest against the rejection by the Supreme Court of the U.S.A. of the appeal of the seven innocent Negro youth of Martinsville, who have been falsely accused, and who are to be executed.

"The youth of France think that the condemnation to death of the 'Martinsville Seven,' as well as those of 23 other innocent young Negroes, is part of the campaigns inspired by the imperialists destined to intimidate the Negro people who more and more are taking a position for peace and democracy.

"The youth of France are convinced that a torrent of protests from the entire world will prevent this monstrous crime of the warmongers, and that a new victory for peace will be achieved."

Sixty-two members of the Council of the French Union have addressed a letter of protest against the sentencing to death of seven young Negroes in the State of Virginia (U.S.A.) in the town of Martinsville.

The text of the letter follows:

Mr. President Truman,
The White House,
Washington, D. C.,
U.S.A.

Dear Mr. President:

We have learned with great emotion of the sentencing to death of seven young Negroes in Martinsville.

Following the rejection of the appeal of these seven youth unjustly condemned, we are addressing ourselves to you asking that you intervene so that this monstrous crime may not be realized.

Our consciences are revolted at the thought that seven young human lives are in peril solely because of the color of their skins is different from those of the men who have judged them. This is why we vigorously protest against such a verdict, and ask you to pardon these seven young men.

Sincerely yours,
Counselors of the French Union

Churches Appeal For Martinsville Seven

NEW YORK, N. Y.—Dr. D. V. Jemison, president of the National Baptist Convention of the United States, which numbers 4,000,000 Negro Baptists and 27,000 churches in every state in the union, has written to Gov. John Battle of Virginia urging commutation of the death of the Martinsville, Virginia, Seven.

The distinguished Negro church leader, who is also a vice-president of the World Baptist Alliance said. "It does strangejj liance said, "It does seem strange that many of our people in authority will sanction one thing, because of personality, and deny another thing, because of personality."

The seven men, innocent Negro victims of a jimcrow frameup, face death in the electric chair on February 2 and 5th unless a last-minute writ of habeas corpus is granted by a Federal Court in Virginia.

The charge against them is alleged rape of a white woman in January, 1949. The woman, whose contradictory testimony is the only "evidence" against them, has disappeared. Since 1908, 44 Negroes have been executed by the State of Virginia for alleged rape, while not a single white man convicted of the same charge has ever bee put to death

Lee Merriwether Elected VP-AVC

In a precedent-setting action a local veteran was elected to the state vice-chairmanship of a major veterans' organization Sunday at Fresno. Lee A. Merriwether, past chairman of Wendell Willkie chapter, American Veterans Committee, was unanimously elected to the second highest state post of the liberal veterans organization at the fourth annual state conference held at the Hotel Californian, Fresno, Saturday and Sunday. Merriwether will be the chief executive of the Southern California region.

He is chairman of the public relations committee for Wendell Willkie chapter and a field industrial relations secretary of the Los Angeles Urban League.

Chapter chairman Edgar Johnson was appointed to the State Planning Committee, AVC's state policy-making board. Chapter members R. Ronald Thompson, who assisted in the drafting of a new state constitution, and international representative William Black also attended the two-day conference.

Merriwether's new position corresponds to that of National Vice-Chairman W. Robert Ming, former NAACP legal counsel and now associate professor of law at the university of Chicago.

AVC is the only veterans organization composed exclusively of World War II vets and completely interracial. Its constitution forbids racial discrimination or segregation within its ranks and is on record as being opposed to same in our democracy.

The convention indorsed two Wendell Willkie-sponsored resolutions supporting the NAACP in its investigation of alleged discriminatory treatment of Negro servicemen in Korea and a resolution asking Congress to ease immigration laws to permit adoption of children of wartime GI's and foreign women by competent American families. The resolution further asked Congress to extend relief aid to these children and their mothers.

Resolutions opposing a state bonus, requesting enactment of a rent control law, were also adopted by the convention. Members were asked to give financial and moral aid to the Tallahassee, Fla., chapter which is raising funds to construct an interracial clubhouse.

Work On Subterranean Garage Started Yesterday, Feb. 1

Culminating more than two decades of activity to bring the project from a planning into a actual state, ground was broken today for the world's largest subterraneon garage in downtown's Pershing Square.

Only last week an emergency permit to proceed with the garage's construction was granted by the National Production Authority. This was necessary under the government's thirty-day moratorium on commercial building.

The NPA emergency permit assures City Park Garage, Inc., builders of a safe supply of critical materials.

Ford J. Twaits Co. and T. S. Construction Engineers, Inc., the builders of many downtown landmarks, and Morrison-Knudsen, Inc., world's largest contracting firm, are joint venturers in City Park Garage, Inc. Stiles Clements is the architect.

Estimated cost of the garage structure, including the new park, which is financed entirely through private capital, with no additional drain on taxpayers, is $5,000,000. It will have three floors, and a 2000 car capacity.

TAGLIAVANI SCORES AGAIN

Under the auspices of Mary Bran, Italian tenor Ferruccio Tagliavani sent the Philharmonic Auditarium into a tumultous wave of applause and exclamations. Through each number silence like that of death, hung as a cloud over the filled house, then at the conclusion of each the auditorium seemed to be lifted into the air on wings of an unseen power.

As his first presentation, the artists of the Metropolitan Opera Company sang "O Paradiso from L'Africaine" by Meyerbeer. Perfect pitch, control, and pianissimo were in evidence at this starting point.

Control was demonstrated by Tagliavini in O del mio dolce ardor in contrast to Girometta the las in the second group. E lucevan le Stelle from "Tosca" by Puccini took the highest honors in the opinion of this writer. Such sobbing quality one has never heard! Other arias were from "Manon" by Massenet and Serenata from "Pearl Fishers" by Bizet.

The audience went into a frenzy when the singer sang in his concluding group Sorrento and another Neopolitan song. It was impossible to count accurately the number of encores, but it can be said that the audience pressed the artist on to the point of almost utter exhaustion. Such graciousness has never been exhibited in many a year at this auditorium.

As the crowd streamed out of the hall one could honestly say that the golden voice of the age had been heard.

Autobiography

Fifty years ago Giuseppe Verdi died leaving the world something more valuable than even money; his music. Born in Parma, Italy in 1813 and the son of a grocer, Verdi produced his first opera at La Scala in 1838. Rigoletto still commands great popularity. Il Trovatore and La Traviata, Un Ballo in Maschera and Don Carlos show unmistakable symptoms of the more spacious and dramatic manner of Aida, which was written at the suggestion of the Khedive of Egypt and was first performer at Cairo on a sumptuous scale in 1871. Othello was a logical development of Verdi's new style, and Falstaff in 1893 was his last opera. His most important work, apart from opera was the Requiem written in 1874. In 1901 the world gained a great man who will live forever in the minds of the nations.

What A Membership In the YWCA Means

The Young Women's Christian Association, for many years an established service in the community, for the purpose of helping women and girls become better acquainted and better adjusted in life has thrived morally and financially on the support and cooperation of the people in the community. As Woodlawn Branch approaches another year; the Membership Committee, with Mrs. Josephine Ladd serving as chairman, would like to have you stop and ask yourself this question, "Am I using our community service to the fullest extent?" "Am I just a volunteer who pays an annual membership, or do I work with the organization to help strengthen the program?"

In order to maintain this essential character as a Christian woman's movement, inclusive of a cross section of the women and girls, it is necessary to keep our minds on this objective in all decisions. Our day by day work, the content of our programs, the curricula of our training groups, Jesus, to share his love for all the people, and to grow in the knowledge and love of God?" This purpose is not used to exclude any, but keep all of us moving in a chosen direction.

These beliefs become realities through services for the teenagers from 12 to 18 years of age, both in senior and junior high schools, through clubs, special interest groups, camp and conferences. For the Young Adult from 18 to 35 in training for committee leadership, making a better home, or meeting new friends. Through the Residence services housing facilities are made more effective. For the woman over 35 it means development of Christian fellowship and leadership through committees, classes, special interest groups.

Men and boys are encouraged to become associates and to participate in our activities.

None of these services can be offered without the gracious volunteer. The requirements for staff and volunteers, our relationships with the social agencies, Community Chest, church groups and YMCA, are all related to our main objectives.

MEMBERSHIP in the YWCA MEANS:

"A belief that social relations can be improved, and a belief that life moves in fated cycles and nothing can be done about it.

"A belief that women are people and have a special contribution to make to the world and community.

"A belief that Christianity and sound democracy depend on the inclusion and participation of all kinds of people and that those who participate in any organization must, for their personal growth, have channels through which they can carry some responsibility for the organization.

"A belief that only faith in God and humble devotion to the teaching of Jesus enable a group to hold to such a philosophy without yielding to discouragement, and that we are strengthened by our purpose "to seek understanding services and leadership."

What does this experience mean to you? Does it mean enough for you to renew your membership today?

The Membership Committee appeals to you so that they might be able to meet one-half of its 1,000 quota by the end of January.

Mr. B at Mocambo

America's singing star, Billy Eckstine, is currently packing them in at the Mocambo, after completing a fabulous stay at the Las Vegas Desert Inn and twon concerts in Honolulu.

Tekstine, whose career actualy began when he was eight years old and jazzed up a religious hymn at a Sunday school party, was recently presented well-earned trophies and awards for 1950 popularity polls, as the nation's number one male vocalist, from Downbeat, Metronome, Courier and Cash Box, as well as special awards from the Metropolitan theatre operators and the MGM Record Company.

During the Mocambo stint Billy is presenting his newest MGM releases, "If" and "Bring Back the Thrill"—his all-time favorites, "Caravan," "The Show Must Go On" and "Fool That I Am"—as well as the new material written for him by Sid Kuller.

Speaking of Records

Comedienne Charlotte Greenwood, who stars on Broadway and on Columbia records in Cole Porter's new musical, "Out of This World," proved to be a recording veteran of considerable seniority. Queried during the New Year's Day recording session as to any previous waxing stints, Miss Greenwood recalled that she had indeed made records before.

"Yes, when I was in vaudeville . . . just for a lark, I recorded two songs that were big hits then, 'Dinah' and 'Carrie' . . . They were both on one of those little round records. . . ."

Recording director for Miss Greenwood's debut recording session was the late great comedian, Frank Tinney, who had acquired recording equipment for a hobby.

The "little round records" on further investigation turned out to be cylindrical records of the pre-Twenties vintage!

Jose Ferrer Takes Lead in 1950 Oscar Derby

CALIFORNIA MORTICIANS ASSOCIATION Invades the Southland. The news isn't as bad as it might be interpreted, quite the contrary as there was good news over the week end when the Southern Section of the association entertained at the annual Mid-Winter Meet. Convening from points as far north as Sacramento and delving down to San Diego, the members of CMA met to elect their new officers and to discuss ways and methods pertaining to the improvement of the association. With a membership of sixteen members, all leading business men in their respective communities, the organization was started locally in 1938. CMA has been a state-wide organization since 1947.

Throwing open her lovely home for the members, (altho business kept her from participating in the meeting) our own Fannie Benjamin (Conner-Johnson) saw to it that there was nothing to be desired for the comfort of the guests. Starting in the early twilight hours with cocktails and an array of appetizing hors d'ouerves, served by smartly uniformed maids, the first part of the session called the "Social Hour" got under way. As the members and their guests assembled there were pictures made and a good deal of banter exchanged.

At the closed meting the new officers who were elected are: Charles Baker, Oakland, California, President; Dennis McG. Mathews, Los Angeles, Vice-President; Lee E. Grigsby, Los Angeles, Recording Secretary; Mrs. Fannie Mae Woods, Pasadena, Treasurer. Outgoing president James P. Tate of San Diego has been president of the organization for the past two years.

Members of the California Morticians Association are: Cecil L. Finley and Samuel Colman, San Francisco; Ted Thompson, Sacramento; A. Fouche, Oakland; Fred Valentine, Pasadena; local members represeqnting the outstanding Funeral Homes in the are: S. J. Johnson, Jr., A. Bowdoin, John L. Hill, Leon Harrison, A. A. Robinson, Martin L. Dinkins, Robert H. Taylor, Melvin Martin, Luther M. Hudson retired(), Fred Roberts (corresponding secretary), hohorary member, L. G. Robinson.

Here on a vacation from Chicago, Illinois, Charles Crook, third Vice-President of the National Negro Funeral Directors Association, installed the officers.

After adjournment, the party moved over to the Oasis Club on South Western for diner. Among those who enjoyed the hospitality of CMA were: Hazel Prince, Shrine Kemp, Puffy Hill, Louise Frazier, Arzella Valentine, Wilma Martin, Ruby Hubert (teacher in the San Diego Public School System), Mrs. Fouche, Mrs. Coleman, Mrs. Fred Roberts, Irma Hopkins, Louise Robinson, Mrs. Thompson, and we think a couple we may have missed in the general moving around. All in all a wonderful time was had.

STRIKE UP THE BAND . . . HATS OFF TO THE NATIONAL COUNCIL OF NEGRO WOMEN who sponsored one of the most excellent filled shows in behalf of the MARCH OF DIMES it has been our privilege to witness. The El Sombrero Ballroom, donated for the occasion, was filled, if not to capacity. The thing that impressed us the most was the fact that the so-called Social and Club women in Los Angeles were absolutely conspicuous by their absence. There was a wonderful crowd and a SPENDING one we might add, but it was the man-on-the-street and the stranger element who supported this wonderful affair. WE want to tell you that it will be awhile before you get a chance to see and hear Harry James and Louis Armstrong stand side by side and thrill a room full with their terrific trumpets, backed by the James band.

Altho Ethel Gordon headed the entertainment committee, let the light shine where it should and give JULIUS (STUFF) CROUCH a whole bunch of orchids. We personally saw the guy out with a handful of invitations passing them to his tremendous following and we saw the folks there. Not only did he verbally promote the affair, it was his contacts with the various artists who came, that made the show the success it was.

President Ann O'Ferral tells us that at press time there was a net of almost six hundred, and we say it should reach a thousand dollars. We saw Mrs. Wayn Howard of the IMedica Auxiliary real busy with her Posies Fight Polio, getting all the little "helpings." Members of the local press were well represented. Making up a "HEN" party, Los Angeles business women were represented by Leontyne King. (King's Liquors); Hattie Brown (Brown's Hotel); Anita Wynn (Wynn's Service), and Millie Hobart, former Chicagoan now running her own sandwich stand. The drive isn't over so it is not too late to give.

Thanks to Noreen Forney for taking the interest in us she always has. Constructive criticism is always appreciated.

THE CATHEDRAL CHOIR is to be highly complimented for putting on one of their successful musicals. On last Sunday evening they presented in recital the soloists of the choir, namely Thurston Frazier, bass; Jeanne Jackson, contralto; Cecil Doughty, tenor; Jay Loft-Lynn (he is practically a Bop Hymnist), baritone; Mary Louise Jones, soprano. Each artist rendered four or five numbers, and we think the audience requested numbers after the prepard program were the outstanding ones. Notably Mary Louise Jones singing the "Lord's Prayer" with the Cathedral Choir in the background, under the capable hands of Albert McNeil. Fannie Benjamin acted in her usual capacity of organist and accompanist. She also donated lovely corsages and bouquets for the lady artists.

WE CAN'T HELP but be pleased at having been chosen by the Men's Committee of the INDEPENDENT CHURCH OF CHRIST to produce and stage the Annual Easter Fashion Show. Park View Manor will be the scene of this tremendous Easter Parade, so make it a "must." Understand Jay-Loft Lynn will head the program. He knows how.

HEADS OF THE various committees on the March of Dimes campaign met at Alonzo Boydoin's to discuss further plans for the drive. Among those who were present: Gaynell Miles, L. A. Pan Hellenic Council; Lillian Summers, League of Women Voters; Marjorie Green, Publicity Dept. Golden State Life Insurance; Beulah Arnaud, Chairman of Clubs for the March of Dimes (and we add doing a fine job); Paul Marcus, local office of the National Foundation for Infantile Paralysis; Alice Long, Dept. of Employment; Ruth Jurgens, El Monte chairman; Claudia Whitmore, co-chairman Sigma Gamma Rho Sorority; Frances Vaughn, right hand helper to her father, Mr. Bowdoin; Ann O'Ferral, President of National Council of Negro Women; Ethel Gordon, chairman entertainment committee; Mrs. A. Bowdoin; Clinto Arnold, Public Relations City Housing; Caroline Hays, Director of Volunteers for National Foundation in the local branch; Esther Berling, State Office of the March of Dimes; Marian Clack, assistant to Mrs. Hayes; Gilbert Lindsay, ex-chairman with Mr. Bowdoin who heads the central districts. Read elsewhere the lists of the donors who have responded so far.

Vi Wilson hid herself away from the "SUNSHINE" of California back to the cold, cold winter of Massachusetts to finish an engagement she has there. Home for the holidays, Vi visited with her mother, Mrs. Mattie Wilson, at their South Gramercy Avenue home for si weeks. Miss Wilson is a member of the Synco-Eettes, a four-piece all girl unit, now playing in Roxbury, Massachusetts.

Almita Spencer out from Chicago to avoid that cold weather and to enjoy the UNIQUE weather on the West Coast.

BILLIE HARPER MILLER, the present Mrs. Curtis Miller, gave her God-Daughter a very different wedding shower. Inviting seventy of the young peoples parents friends, Billie held a can goods and staples shower for the young folks. Gee, we almost forgot to say who the god-daughter is. She is Joyce Finney who weds the son of the Gilbert Lindsays, Herbert Howard, February tenth.

CONDOLENCES to the family of Doctor Mahlon Cooley who passed away this last week. Corner and Johnson is in charge of arrangements.

SO FOR NOW don't forget the BVA Ground Hog Dance. Cottons and Jeans and comfort.

Boy Scouts Will Be Guests At Jamboree; Stars Headliners

All Cub Scouts, Boy Scouts, and Explorers are invited to be guests of the May Company at the annual May Company Jamboree, staged for Scouts of the Los Angeles Area Council as celebration of Boy Scout Week, the district activities chairman, announced today. The Jamboree, two big two-and-a-half hour shows, this year will be held Saturday, February 10, in the Shrine Auditorium in downtown Los Angeles.

Headlined by such stars as Bob Hope and Dale Evans, the Jamboree will also feature two cowboys—the "King" himself, Roy Rogers, and Rex Allen, movie and radio personality. Allen, who was born and grew up on an Arizona ranch, turned to radio and then to the movies after an exciting rodeo career.

Tickets for the two big Jamboree performances—for Cubs in the morning and for Scouts and Explorers in the afternoon—are going fast and Scouts should contact their unit leaders for instructions on obtaining these tickets.

High spot of the afternoon show will be the official Boy Scout Week radio program, to be broadcast from the Auditorium over a nation-wide NBC hookup at 1 p.m. and featuring Bob Hope, Roy and Dale, the Mitchell Choirboys, and others. The broadcast will also carry a message from Chief Scout Executive Arthur A. Schuck, speaking from New York.

Arts and Sciences To Elect Board

The Southern California Arts, Sciences and Professions Council's first convention held in December, has lived up to our greatest hopes as a spur to renewed activitiy and in opening up fresh avenues for work. In consideration of this it is felt by the Administrative Board that the soundest choice for chairman of the Chapter can be made only after the discussion on program and reorganization now under way has taken concrete form.

The nominations for the Executive Board and all other officers appears on your ballot. Please vote for 4C by placing an X in front of your choice for the Executive Board. All ballots must be in the A. S. P. office not later than Feburay 8. Counting will be done at 3 p.m., February 8, at the ASP office.

Jacquet Jumps Into Oasis

Illinois Jacquet, probably the most recorded man in the business, Jacquet being represented on practically all major labels, will be jumpin' with his band at the Club Oasis, 3801 S. Western, starting Friday, February 2.

Jacquet began his music career as a drummer in a small neighborhood band with his four brothers. Soon afterward he switched to the saxaphone. When he was 18 years old, he was playing with a group that included Nat Cole. Lionel Hampton heard Illinois and 25 minutes later he had him in a recording studio making their first discs.

His third term with a "name" band was a year with Count Basie, during which time he was featured on a number of records with the Count and zoomed even higher. Then he toured the country with Norman Granz' "Jazz at the Philharmonic" and at the close of the very successful nation-wide concert tour, formed his own sextette again. They recorded for Apollo, Savoy and Alladin. In 1949, RCA-Victor offered Illinois Jacquet an exclusive recording contract, which he signed, and is still recording with RCA.

BARN DANCE . . . For a while it appeared that Long Island University's fine basketball team featuring three Negro players would not play the University of Arizona in Tucson. It seems that equal accommodations for the Negro stars, Sherman White, Ray Felix and Leroy Smith, were not at first offered. However, at the threat of canceling the game, the Arizona officials changed their minds.

Art Lewis

The game was played last Monday and the fans accepted all of the players very well. The only thing that happened out of the ordinary was that Long Island lost the game, 62-61, and the coach, Claire Bee, blew his top.

LIU had won 16 straight games prior to leaving New York for a trip to the west. Their first western game, played against California last week in San Francisco, was lost 69-67 because "our boys were tired from the long trip," said the coach.

The game with Arizona was lost because of bad officiating, Bee said. Referee Kisner "deliberately took the game away from us. He intended to do it and he did it," he continued.

Three Fouls in Three Minutes on White

The referee called three fouls on one of the colored boys, All-American Center Sherman White, in the first three minutes. White eventually fouled out of the game in the second half with 12 minutes to play and with LIU out ahead by 11 points. It was at this point that Arizona came to life and went on towin the game, their 3rd straight victory on their home floor.

Nineteen fouls were called against LIU players and 24 against Arizona, which brings out the fact to us that there were TWO teams on the floor and each had the benefit of the "foul" decisions, so-called.

Coach Bee was obviously perturbed over two consecutive losses in the west but we do not think that he should have popped off the way he did. Perhaps the officials were a little over-zealous in some of their calls, but it does not help his team in any way to blame the loss on them. Instead, it shows poor sportsmanship and tends to take away some of the glory of the LIU team.

And while it is true that in many cases officials do make unnecessary and bad decisions, it should be left up to others to make the accusations. That's what sports writers are paid to do (it says here).

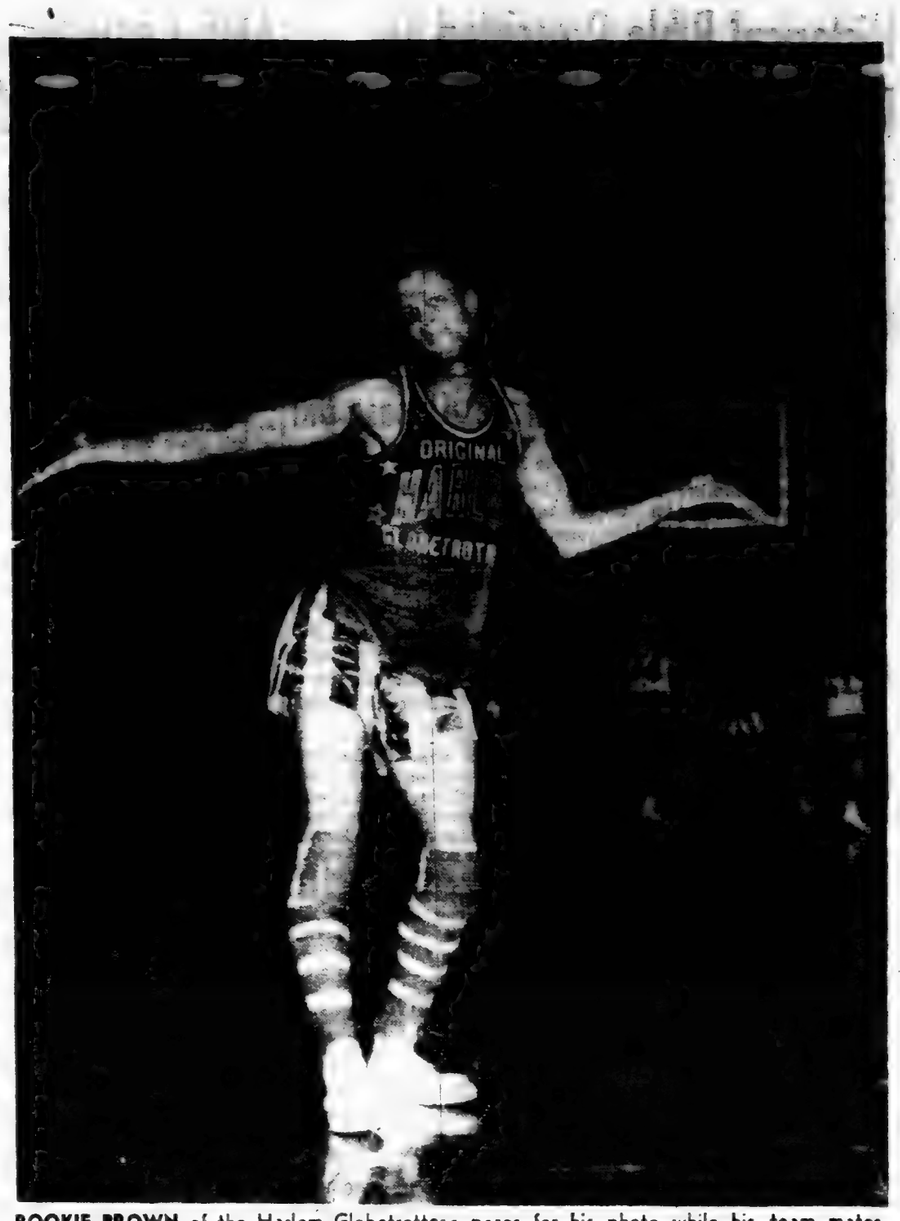
Perhaps Coach Bee should have done what Mike Mazurki did.

He Knew Just What to Do

A few minutes before the Manhattan College five stepped out to play its first game of the season a few years ago, the players gathered in the dressing room to elect their captain. The choice fell on the giant 220 pound Mike Mazurki. Noted as the greatest two fisted eater in the history of the school, Mazurki led his team into the court, reported to the officials that his side was ready and then joined Coach Neil Cohalan and the starting five on the side line.

"What do I do now, coach?" asked the bewildered Mazurki.

"You know what we always do before a game," answered the coach a little sharply. "We say a prayer, of course. Now that you're captain it's your job to lead it. Go on!"



The tongue tied Mazurki looked around at his waiting teammates in silent stupefaction. As much as he strained, his mind was a complete blank. Not a single simple prayer could be remembered at this moment.

At last a light dawned. Not for nothing had Mike Mazurki earned his vaunted reputation as a big eater. Bowing his head he whispered gravely, "We will now say grace."

Joe Louis Down To 208½ Pounds

Training for his fight next Wednesday with Omelio Agramonte in Miami, Fla., Joe Louis this week is reported to be down to 208½ pounds, his lightest fighting weight in several years.

Louis weighed 218 when he fought Ezzard Charles last year, and 214 when he fought Cesar Brion in Chicago. He was down to 210½ for the Freddie Beshore fight.

The Harlem Globetrotters Are Back Again, Meet Sphas Tomorrow Night At Shrine Aud.

Globetrotters, master funsters of basketball, will play the Philadelphia Sphas at the Shrine Auditorium tomorrow night—their last local appearance until the game with the College All-Americans in April.

Following the Shrine game, the Trotters head for San Bernardino where they play Sunday night. Then on to Arizona, Texas and Oklahoma for a busy schedule of games; they'll wind up in Chicago on February 23rd for their annual classic with the Minneapolis Lakers in the huge Chicago Stadium.

Owner-coach Abe Saperstein wants to win this year's game with the Lakers; in the past five years, the Trotters have won two, lost three. Victory this year would tie the score, 3-all.

The Shrine game is one of the high lights of the Western tour each year; it was at the Shrine Auditorium years ago that the Globetrotters broke in here, in Los Angeles. The Harlemites have a soft spot in their hearts for the big auditorium.

Saperstein is in hopes that Reece "Goose" Tatum's broken left hand will be completely mended by Friday, and that he'll be able to shed his cast. Cast or no cast, the Golden Goose will partake in the comedy routines and train with the team.

There's another minor casualty, big Luke Easter the home-run king, complains that he's so dog-goned tire of signing autographs, his hands go into a Saint Vitus dance the minute they get hold of a pen or pencil. Luke says he'd like to rubber-stamp his autograph in future.

Friday night's schedule at the Shrine Auditorium: the first game, starting at 8 p.m., will feature the New York Rens against the Boston Whirlwinds; the finale, of course, will be the Globetrotters against the Philadelphia Sphas.

Between the games there will be high-class vaudeville and variety acts.

Tickets for the game may be procured at Southern California Music Company, 727 South Hill, all Mutual ticket agencies, and on Friday—the day of the game—at the Shrine Auditorium box-office.

L.A. Golden Glovers Favored to Repeat

"The Los Angeles Golden Gloves Champions, who annexed the National Title in Chicago Stadium last March will be favored to repeat in 1951." This statement was issued in Los Angeles by Arch Ward, Sports Editor, of the Chicago Tribune, just before enplaning for the windy city last Thursday. This report was given added weight by word from San Diego, where capacity crowds witnessed the Golden Gloves boxing tournament last Wednesday and Friday.

According to the experts the talent in all classes is superior to any ever to appear in the harbor city. Kirby Seals, heavyweight, and Felix Franklin, welterweight, members of the National Champions in 1950, are among the contenders from San Diego who will appear at the Hollywood Legion Stadium February 7, 8 and 10, in the eighth annual Golden Gloves.

ALBERT CRUZ, of Los Angeles, voted the outstanding sportsman of the Tournament of Champions at Chicago in 1950.

Bakersfield, Santa Maria, San Diego and Phoenix, Arizona, will compete with metropolitan Los Angeles boxers in the West Coast's greatest amateur boxing event.

It will be three nights of championship bouts as in previous years. On Wednesday night, February 7, finalists will box for the Los Angeles novice titles. On February 8, the Los Angeles novice champions will meet the San Diego novice winners for the Southern California beginner's championship. On both the 7 and the 8, preliminary rounds and semi-finals in the open Golden Gloves will be held. On Saturday night, February 10, the open Golden Gloves finals will be held to determine who will represent the Pacific Coast in the Tournament of Champions at Chicago Stadium, February 26, 27 and 28.

Boxing coach, Art Martell, and trainer, Leo Pope, who were in charge of the 1950 champions, will again be in the corners of the West Coast's defending champions.

Jeff's J. C. Gipson Named Los Angeles Player Of Year

From a host of Los Angeles City basketball talent, J. C. Gipson, high-scoring center from Jefferson High School, was selected All-Los Angeles City Basketball Player of the Year for 1951 by the Helms All-Southern California Board of Basketball.

Gipson, star member of Jefferson's All-Southern League and All-Los Angeles City championship basketball team, averaged 22 points per game in Southern League play and scored over 400 points during the '51 campaign. The only sophomore to make the first three All-Los Angeles City basketball team, Gipson stands 6'6" and weighs in at 179 pounds.

In recognition of his selection as Los Angeles City High Schools Basketball Player of the year for 1951, J. C. Gipson will have his name engraved upon the Paul H. Helms Trophy, which is lodged in Helms Hall, and will be recipient of the Helms Athletic Foundation's Player of the Year medal award. Presentation will be made at Helms Hall on Saturday morning, February 10, 1951, at which time the Fourteenth Annual All-Southern California Board of Basketball (Los Angeles City Section) Awards program will be held.

The All-Los Angeles City First Team is made up of three seniors, one junior and a lone sophomore. Flanking J. C. Gipson, tallest of the All-City selections, are Duane Robbins, North Hollywood, and Dennis White, Hollywood, two top-flight forwards. And at the guard posts the Helms Board selected Algin Sutton, Jefferson and Gus Tassopulos, Los Angeles, both of whom were standouts in their respective leagues.

Duane Robbins, North Hollywood's fine forward, was selected Valley League Player of the Year, and Duane's coach, Al Lundy, called him "the best forward in the city." Duane scored 204 points in 11 games for the Huskies and was the only junior to be selected on the All-Los Angeles City First Team.

At the other forward, Dennis White, Hollywood, was a standout performer in the Western League. He was chosen Player of the Year in his league. White led Western League scorers with 190 points in 12 games and turned in a good job of defensive work. Dennis is a senior, stands 6'1" and weighs 151 pounds.

Algin Sutton, Jefferson, was named by the Helms Board to fill one guard position. A great team player, Sutton was called the "spark" of the Democrat's attack by Coach Larry Hanson. Sutton scored 219 points in 22 games as well as being sharp on defense.

Gus Tassopulos, Los Angeles, rounds out the All-City First Team at the remaining guard spot. Tassopulos is regarded by his coach, Horace Bresee, as the second best basketball player he has coached in his 25 years at L.A. High School. Gus was the highest scoring guard in the city this season and his total of 165 points in 12 games is the third highest scored by a guard in city basketball history.

J. C. Gipson, Jefferson, is the biggest man on the All-City First Team, standing 6'6" and weighing 179 pounds. Guss Tassopulos is the smallest man, measuring 5'9" and tipping the scales at 127 pounds.

Here are the All-Los Angeles City Team selections, made by the Helms All-Southern California Board of Basketball:

To Be or Not to Be Considered a Popular Champ, That's the Question—Ah, Romeo!

BY TED YATES

NEW YORK, (IPS.):—Pity poor Ezzard Charles.

He has come a long way. He's met them all, big 'n' small, and he's fi"t the battle o' Jericho in and out of the prize ring. It goes without saying that he's the greatest but most underrated pugilist of all time.

After his recent bout here in Madison Square Garden, where for eight rounds he tried, but in vain to catch up with and tag one, Lee Oma, party of the first part, Charles almost became the party of the second part, save for the fact that he switched—not to Calvert, but—to Oma's head. The Buffalo playboy was up until the ninth round carrying a pretty clear head on his shoulders. So clear that he waved, winked and blinked to many of his favorite gentlemen of the press at ringside, who had picked Charles to floor him inside of seven rounds. But that was the mistake Oma made.

He forgot to duck. After a wink, blink, he didn't think, Charles nailed him a one, and a two, and a three rights to the head. Oma winced. It was too late to cover. The Cincinnati champ who had looked like an ameteur—not even a good Golden Glove aspirant because of Oma's refusal to mix and the challenger's weird style of boxing—making Charles fight his fight—had finally connected. All the booes that had been directed at Ezzard seemed foolish now that the end was at hand. It happened in the 10th. The 9th stanza was the going-away-party tendered Oma by Charles. A keen observer could tell then that the end was drawing nigh.

And it was a ring wise Referee Ruby Goldstein that saved Oma's head for, perhaps, a better or more convincing pounding come another day.

Yet with victory his, Charles moaned.

He spoke of Stphen Foster, the great composer, whose music was not appreciated until he was long dead.

Charles can learn here that his works of the manly art (of defense, that is) are highly appreciated. It is only the weary customers who are tired of seeing the hams-what-am who have been 'accused' of fighting, when these fans once knew a Brown Destroyer, (Joe Louis, who else?) They also knew or had heard of the Mamassa Mauler. (Hear ye! 'Tis Jack Dempsey!) those two great who stalked their prey and—well—that was yesterday year. Worry not, dear Ezzard, thou art this year's "fighter of the year." Hold ye on to yon belt.

The fans all still want to know whether Louis can actually whip Louis. They saw their idol go down once before (Remember Max Schmeling?) They believe in these frozen nights, off nights so to speak. But you, dear Charles, are not to have an off night. You had conquered the Dark Destroyer, therefore you made yourself the victim of a legend: To the victor go the spoils. To be or not to be "the Champion." That is not the question. Ah, Romeo! Where art thou? Tell Ezzard that he can, and he will be acclaimed the world's greatest heavyweight should he kayo the Joe from Jersey (Walcott); stop Rex Layne, and conquer Rocky Marciano, and or decision Roland La Starza.

There it is, Charlie my boy.

After that, they'll say, "You thrill me with shivers of joy."

On The Turf

SANTA ANITA—Phil D., a colt that was bought for a mere $1,500, proved one of the biggest bargains of the year when he captured the $50,000 added San Felipe Stakes last Saturday, beating some of the best three-year-olds in training and now a big factor for the $100,000 derby. Jockey Ray York set the son of War Dog-Ellie down turning into the home stretch where he overtook Rough 'n' Tumble and held the fast-closing Gold Note safe to win by a half length in the good time of 1:22 4-5, paying $12.60. Gold Note was second and Rough 'n' Tumble third.

This weekend the world's richest race will be the feature attraction at beautiful Santa Anita. The gross value of the Maturity will be between $190,000 and $200,000. This will exceed the previous top figure of 1949 when it was $137,200. Eleven horses are expected to start.

One may include Christopher Chenery's "horse of the year" for 1950, Hill Prince. It will cost owner Chenery $10,000 if the big horse goes. Hill Prince worked the full distance in 2:05 1-5. This will be the Prince's first start since Hollywood Park, but the clockers report that he is fit and ready.

NEW CALIENTE IN OLD MEXICO — Wickford Point was the winner of the featured handicap billed as "The Inglewood" at one mile. Although the real winner was Starburn as he was first to pass the wire, apprentice Jockey Donald Richards claimed foul. He said that Starburn was veering out in the final strides. The stewards gave the race to the hard-knocking Wickford Point and placed Starburn second.

Wickford Point is one of the most consistent horses on the grounds. In his last six starts he has won three and had been in the money three other times. The Point carried 110 pounds to 120 for Starburn. Backers of Wickford Point received $12.20. The daily double combination of Kiljoy, a first starter at the border course, and winner of the second race, and Russian Chief, victor of the third, paid $188.00.

The quinela backers of Mon Songe and the favored Pals Snip received $58.80. This Sunday General Manager Walter C. Marty has another fine card of 12 races lined up for the fans. The feature will be "The Champion," secondary "The Pasadena" and the third "The Mexicali." Post time will be 12:25. Hill Prince remains the favorite in the winter book for the Santa Anita Handicap.

Frequently persons attending our morning worship arrive at 11:00 o'clock to find the service half over. It may be our fault in that we have not too emphatically stressed that morning worship at our church begine at ten o'clock instead of eleven."

Historical Bible Presented To Rev. Hydes At Unity Service Sun.

A sacred treasure, a large Bible bearing the date 1882, was presented to the Rev, Foster H. Hydes, pastor of the Trinity Independent Church, 4709 South Avalon Blvd., at a union service at which members of the congregation of the People's Independent Church of Christ were guests of the Trinity Church last Sunday evening.

The Bible had been originally presented to Mrs. Alleana Yates, president of the Hospital Corps, by an employee with the instructions to pass it on to some worthy person. Mother Nannie Harris, connected with the Mother Church from early days, and president of the Pasadena Literary and Art Club, consecrated the Bible preceding its presentation. Rev. Hydes became the third and final possessor.

Deacons Balentine, Mason, and Canada led the devotional exercises at the beginning of the union services. The Cathedral Choir and the N. P. Greggs Gospel Choir, under the direction of Albert McNeil, with Mrs. Fannie E. Benjamin, organist, rendered the services in song.

The closing remarks were made by the Rev. Clayton D. Russell, pastor of the People's Independent Church.

Gems of Thought

GEMS OF THOUGHT CONFIDENCE

By mutual confidence and mutual aid Great deeds are done, and great discoveries made.
—Homer

There is a confidence necessary to human intercourse, and without which men are often more injured by their own suspicions, than they could be by the perfidy of others. —Burke

The presence of mistrust, where confidence is due, withers the flowers of Eden and scatters love's petals to decay.
—Mary Baker Eddy

Society is built upon trust, and trust upon confidence in one another's integrity. —South

If we are truly prudent we shall cherish those noblest and happiest of our tendencies—to love and to confide.
—Bulwer-Lytton

To trust God when we have securities in our iron chest is easy, but not thankworthy; but to depend on Him for what we cannot see(as it is more hard for man to do, so it is more acceptable to God. —Feltham

Donahue Players At YMCA; 1951 Support Fund Campaign Opens February 11

Next Sunday afternoon's meeting of the YMCA Forum will feature the Donahue Players, according to announcement by Rev.

REV. M. FREDERICK MITCHELL

M. Frederick Mitchell. The Forum meets on alternate Sunday afternoons at 4:30 o'clock at 28th Street YM

The annual drive for sustaining membership to provide a Support Fund for 28th Street Branch of the Young Men's Christian Association is scheduled to open Sunday afternoon, Feb. 11 at the Branch building, 28th St. at Paloma. According to Dr. P. Price Cobbs, General Campaign Chairman, a force of two hundred workers is being organized to add to the Initial Gifts Divisions to raise a total of $18,000 by February 26.

The YMCA of Los Angeles and its 23 branches remain outside the Community Chest and each Branch, including 28th Street Branch, must raise the funds to support its youth program and services from the community in which it is located.

Neither the YMCA of Los Angeles nor its 23 Branches have ony sources of income to finance youth programs and services except the Support Fund Campaign. The campaign enrolls the members of the community who want to see YMCA service available to the youth of the community and who because of their concern are willing to pile up a Support Fund for YMCA youth services.

The YMCA in Los Angeles serves the youth of the twenty three districts in which it operates without regard to race or national background. 28th St Branch, because of its location background and organization is primarily devoted to the service of Negro youth and looks to their parents and friends for support. The Branch Board of Managers is quite certain that this constituency is able and willing to furnish the funds needed to operate 28th St. YMCA and experts to prove this during the campaign.

Nothing Better Than Good Food, Says Ohio Man

If a man isn't able to eat the foods he likes he's in mighty sorry shape — imagine going through life without being able to enjoy a fine big platter of bacon and eggs. That is the way Joseph N. Damillot, 3414 E. 8th Street, Dayton, Ohio, used to be but since he has been taking HADACOL, he says he feels just fine and is able to enjoy lots and lots of fine foods. Mr. Damillot found that taking HADACOL helped his system overcome a deficiency of Vitamins B1, B2, Niacin and Iron.

Here is Mr. Damillot's statement: "My first bottle of HADACOL convinced me that HADACOL was what I needed for the gas on my stomach at nights. I could not keep food on my stomache but after the first bottle I was going great. Now I eat bacon and eggs, and other foods that never would stay with me. I also can sleep well at nights. Thanks to HADACOL. I will never be without it, and can recommend it to all who suffer with the above ailments that I had. I know because I have suffered for quite some time."

Richest Of All Turf Events To Be Run Saturday

Richest horse race in the history of the turf will be down for decision Saturday at beautiful Santa Anita Park.

It's the fourth running of the far-famed Santa Anita Maturity and the gross value of the classic figures to be in the neighborhood of $200,000. Greatest throng of the 50-day winter season, more than 35,000 is expected to see the Maturity.

Designed exclusively for 4-year-olds at the classic distance of a mile and one quarter, the Maturity will draw one of the most brilliant fields in training, including Christopher T. Chenery's mighty Hill Prince, 1950's "Horse of the Year."

Scholarship To Fullerton Junior College Student

Miss Virginia Pfeiffer, Hollywood producer, gave a complete scholarship of $300 through the Educational Extension Club of Orange County.

Mrs. Ruth Fox, Dean of Pledges, announced the gift at a recent regular meeting at the home of Mrs. Mildred Kelley, 308 South Evergreen, Santa Ana, California.

Miss Pfeiffer designated James Goodwin as the recipient of the scholarship. Goodwin, a former student at Fullerton J. C., is now a law student of Boalt Hall at the University of California at Berkeley. He was the first Negro to be elected representative-at-large in the history of the institution. Recently he was elected president of the freshman law class.

Students must pply for the regular scholarships granted annually by the club; but any person desiring to give a complete scholarship may name the recipient.

This marks the second scholarship given through the club this year.

PROF. HERMAN The Astrologer

TO ASSIST YOU IN MAKING WISE DECISIONS

AQUARIUS
January 21st - February 20th

Aquarius is the eleventh sign of the Zodiac, the stone Garnet, the flower, Crocus. If you were born under this sign you are endowed with an understanding of human nature and love for mankind.

The mind of the Aquarian is broad in scope, ingenious and highly resourceful. The ability to rationalize and concentrate is strongly developed and you are always able to see both sides of a question at the same time.

These people are modest and unassuming, quiet and even shy at times, but never personal in their attitude with others. Oftimes it is found difficult to approach and understand people born under this sign because of this outer cloak they form.

If you are interested in knowing more about your Horoscope, or if you are born under another sign, why not write to Prof. Herman for your 1951 reading today.

• • •

T.R. — Dear Prof. Herman: I read your column each week and find it very interesting. Would you please advise me regarding this problem. Will I find success and happiness in my marriage?

ANS.—I find your mate to be interested in your welfare. He is doing everything he can to make you happy. Since you have entered into this marriage, why not try to make the best of it. Sometimes love comes after marriage, it may be so in your case.

• • •

V. E.—Is he true to me?

ANS.—I find that you are endowed with many fine qualities and when you find them lacking in others you are apt to distrust them. Don't let this ruin a growing friendship and bring you unhappiness. Dismiss your doubts, have a little more faith and confidence in him and he will prove his love to you.

• • •

K.—Will be find a place to live soon?

ANS.—Concentrating upon your question I find that you have been offered several places, but they were not in the location you desired. If you are able to remain where you are for another month, you may find just the thing you have in mind. Don't get discouraged, your lucky stars indicate a change soon.

Yorty Writes Pres. Truman for FEPC

During the past three weeks, Congressman Yorty's Los Angeles Office has been besiged with calls from organizations, and direct visits from persons who had been handicapped by discriminatory practices in job employment, having to do with vital defense work.

Field Representative Eleanor Chambers and her Assistant Ethel Bryant ,after a thorough investigation, reported their findings to Congressman Yorty. Immediately the Congressman made an appeal to President Truman. His letter follows:

"Dear Mr. President:

The change-over from peacetime production to war production is, of course, causing transitional unemployment in the city of Los Angeles as in other industrial centers.

I am sorry to report that information coming to me from my district indicates that minority groups are being affected disproportionately, and that there appears to be widespread discrimination involved in the hiring practices of industries with defense orders.

Because I know that the President disapproves of racial and religious discrimination, I hope that a Fair Employment Practices Commission can be established by executive order to assist minority groups in obtaining equal employment opportunities.

It is unthinkable that this great democracy should permit unfair discrimination against patriotic minority groups, whose sons and daughters are fighting far away to protect the freedom of persons fortunate enough to be in the United States.

With very kindest regards.
Sincerely,
Samuel Wm. Yorty

Newcombe's Answers Aid March of Dimes

BROOKLYN, N. Y., Jan. 31—Special—Ace Brooklyn Dodger pitcher Don Newcombe boosted the school's March of Dimes drive when he answered the students' questions at St. John's Prep here.

Don gave an informal talk to the student body, after which he answered questions. For each question asked by a student, St. John's Prep added one dollar to the March of Dimes fund. For each perfect answer by the Brooklyn star, two more dollars were added. By this method, $50 was added to the $623.50 already collected at the Prep.

The school is conducted under Catholic auspices.

New Hoarding Spree; Selective Buying More Vital Than Ever

By Sidney Margolius

A new buying stampede has broken out. Some families have been raiding stores particularly for sheets and towels, other cottons goods like men's shirts, pots and pans and other houseware. Electric irons and vacuum cleaners were being grabbed up. The rush to buy was so hectic for a while that one day last week the world's largest store, Macy's in New York, didn't have a single bedsheet for sale. In some stores it's now hard to find white shirts on the counter. All over the country sales have been booming as the result of the new rush.

One reason is that consumers are aware that prices this Spring will move up to a new and higher plateau. Because of the current rush to buy, manufacturers and merchants are beginning to push up prices faster and further than had originally appeared likely. Pricesof used cars, which had sagged a little as the result of curbs on installment credit, now are again jumping up, which is unusual in mid-winter. The 1947 models of popular cars that were selling for as little as $725 two months ago are now commanding more than $800. Prices of shoes are moving up steadily. The standard $2.98 housedress is beginning to disappear from retail racks; they're beginning to reappear at $3.29 and $3.59.

Another reason for the renewed determination of people with extra cash to get merchandise while the getting is good is the constant barrage of warnings from Government officials and businessmen of cutbacks in the production of civilian goods, that shortages are on the way, etc. Every time the papers headline that copper, for example, is going to be allocated, thousands of women beat it to the stores to lay in copper-clad pots and pans.

Businessmen themselves are stocking up on all the hard goods, especially metal items, they have room to warehouse or cash to pay for.

Is this new buying spree necessary? Should you too rush down to the stores with whatever cash or credit you have?

Actually, while prices are going higher in the months ahead, some of the purported "shortages" may be a little exagerated. Undoubtedly when you know prices will be higher in March and you know definitely you will need a certain item, it's necessary to beat the price rise. But trying to buy ahead is a game which a wage earner just can't compete, and it may not be too necessary to try.

The scare over cotton goods is due to the short cotton crop this year. But next year's is expected to be larger. Woolen goods are definitely in short supply, but there's plenty of rayon available to provide enough clothing. Metal items are of course the critical spot. But in appliances the only real shortages so far are automatic washing machines and refrigerators, and here too you can still get almost any brand you want with a few weeks wait. Certainly vacuum cleaners are not really scarce, and would be one of the last appliances to disappear.

But the important thing for a wage-earner's family to realize is that it's not how MUCH goods you can stock up that counts, but how wisely you SELECT; that is, how serviceable, useful and durable your purchases will be if any severe shortages should arrive.

It doesn't pay to buy the cheapest lines of merchandise these days; the so-called "low-end" goods. In times of rising prices manufacturers frequently conceal the price boost by keeping an item at the same price but reducing the quality. Now if you take a pretty pair of shoes and eliminate the perforations or other fancy details, it won't affect their basic wearability. But if you take a pair of low-priced shoes without any detailing to eliminate, the only way the manufacturer can reduce the quality is to skimp on materials and workmanship.

On the other hand it doesn't pay to buy the highest-priced goods either, for they generally offer only extra style details or frills but no more basic quality than the medium-priced lines.

This writer has prepared a list of specific qualities in various lines of merchandise that can serve as a guide to which grades and types will give you good service for the price:

Housedresses: 80-square percale, gingham, chambray.

Sheets: 140-count muslin.

Men's Shirts: poplin, oxford cloth (must be cut roomy because of tendency to shrink); chambray, and 2x1 broadcloth of 13x60 thread count.

Men's and Boys' Suits: Worsted cheviot, serge, homespun, also tweed if closely woven.

Men's and Boys' Coats: melton cloth, closely-woven cheviot and tweed.

Work and Sports Clothes: Cotton gabardine, twill, jean cloth and similar material with a ribbed weave.

Rayon Dresses: Faille, jersey, sharkskin, gabardine and other ribbed materials.

Women's Coats: Cheviot, venetian, jersey, tweed, homespun (if closely woven) and mouton fur.

Men's Socks: Solid-color mercerized lisle.

Women's Hosiery: 30-denier nylon in 45 or 51 gauge.

Completely Cured

"Do you guarantee results in your nerve treatment?" asked the prospective patient.

Council Adopts Res. On Negro History

A resolution presented by Councilman Don Allen, of the Seventh District, commending the Authors Club of Los Angeles for initiating Negro History Week, was unanimously adopted by the City Council of Los Angeles last week.

The resolution in part follows:

WHEREAS, from the first man to fall in behalf of freedom for this nation at the Boston Massacre on March 5, 1770, who was a Negro by the name of Crispus Attucks, down through the years to the present time, to the awarding of the Nobel Prize to Dr. Ralph Bunche, a Los Angeles educated man of the Negro race; and

WHEREAS, the constant struggle for freedom and advancement in science, arts, letters, education and in every other field in the walk of life has marked with a rich historical lore the things that can come to any man or woman of all races, colors and creeds under a free democracy;

Be IT RESOLVED that this City Council does hereby congratulate and commend the Authors Club of Los Angeles for its constant endeavors in this work, down through the many years, and also wish them continued success in their undertakings.

Respectfully submitted,
Don A. Allen, Councilman
Seventh District.

Fight Starts to Abolish Housing Project Jim-Crow

A campaign to abolish discrimination at the Wyvernwood housing project in the heart of Boyle Heights has been initiated by the Eastside club of the Independent Progressive party according to a statement released by Phil Rosenberg, chairman of the club.

Rosenberg announced that the IPP club became interested in the Wyvernwood project, where a similar anti-discrimination campaign was conducted a few years ago, after learning that the lily-white housing development had been purchased by Harry Jaffe, prominent Eastside real estate operator, for a reported $5,000,000.

With a change in its ownership the IPP club felt that the campaign to break the discriminatory policy against Negro, Mexican American, Asian, Jewish and other minority people at Wyvernwood should be reopened especially in view of the democratic composition of the Eastside community.

Accordingly, a communication was directed to Jaffe three weeks ago inquiring as to the present racial compositio of the residents and what the policy of the project will be under his ownership.

Rosenberg revealed that Jaffe had telephoned representatives of the club on several occasions in which he stated his concern over the communication sent by the IPP and that he wished to take appropriate action to take up this issue with people in the community.

"However," declared Rosenberg, "Mr. Jaffe has delayed taking 'action' for the past two and a half weeks which is certainly incompatible with the demands of our membership and interested community people for immediate action.

We urge all interested parties to write Mr. Jaffe at 7607 Beverly Blvd. or call him at YOrk 7229." Rosenberg said, "and tell him to drop the discriminatory practices at the Wyvernwood project."

The Patch Bag

A most practical patch bag can be made from a yard or two of mosquito netting. This enables one to see the contents from the outside, and there is no necessity for emptying the entire contents to find the exact piece of goods wanted.

Legal Fight Begins to Restore Two Children to Mother

A nationwide campaign to raise $25,000 to continue the legal fight of Mrs. Jean B. Field to regain custody of her two children was launched here this week by the newly-formed "Jean Field Committee."

The committee, with headquarters at 1850 N. Western Ave., Los Angeles, GRanite 0172, will fight the case in two states, California and Oklahoma.

Mrs. Field, of Compton, lost custody of her children, Jay, 13, and Mary Kaye, 10, on Dec. 14 when Judge Harold W. Schweitzer ruled that Vernon C. Field, the father, of 2308 N.E. 22nd St., Oklahoma City, should have temporary custody of the children pending a final decision.

Field had abandoned his family in Anadarko, Okla., in 1940, leaving a note which read: "I no longer want the responsibility of a wife and children. So here it is in your lap. Sorry, but that's the way it is."

The case is believed the first in America in which a mother's fitness was determined by her political views and concepts of social democracy. Sole evidence of the mother's "unfitness" consisted of two letters and depositions by the paternal grandparents. The grandfather is J. Walker Field, assistant attorney general of Oklahoma.

The letters, written by Mrs. Field to her children while they were visiting in Oklahoma City last summer, criticized America's entry into the Korean conflict. The depositions declared that Mrs. Field had taught her children to regard Negroes and whites as social equals.

First fund raising event of the new committee will be a musicale and party Saturday night, Feb. 17, at 3252 Barrington Ave., West Los Angeles.

On a national scale, the committee is drawing up plans to organize branches throughout the country, with emphasis on Oklahoma.

Statement issued by the new group reads:

"We feel that every American is horrified at this attempt to punish a mother for bringing up her children according to her own belief. We are certain that everyone who has heard of this case is indignant at this attempt to deprive a mother of her children because the ideas which she expressed to them in private may not happen to agree with the official policy of the Government at this time, and we are equally certain that many people will wish to aid in raising funds to carry this case to the Supreme Court if necessary."

Attorney for Mrs. Field is William B. Murrish, of the Los Angeles law firm of Margolis & McTernan.

HINT SCANDAL IN PEE-WEE DIVORCE

VISIT ANGEL CITY—Mr. and Mrs. C. A. Franklin of Kansas City, Missouri, are climaxing an extended Western tour as the guests of the John A. Somervilles. Mr. Franklin is the editor and publisher of the largest weekly in the middlewest, The Kansas City Call newspaper. The couple have spent nearly two months in a tour of the west which included an extended stay in Tucson, Arizona.

WIFE THREATENS EXPOSURE OF "OTHER WOMAN"

It was learned this week from usually reliable sources that Mrs. Anita M. Crayton of Berkeley may "blow sky-high" the divorce of Pee Wee Crayton, famous guitarist, if he does not come to her terms.

Sources close to Mrs. Anita Crayton say that she has threatened to expose a woman who "has been posing as Crayton's wife," if he does not meet her terms, which include a house in Berkeley and $100 monthly for her child.

Crayton allegedly reported that he does not have that type of money and will not be able to meet those terms. He reveals that he is willing to give up the house as he stated in his filing action.

Crayton filed suit for divorce recently through his attorney Crispus Wright. The Craytons were married June 10, 1938, in Yuma, Arizona, and from this union, a girl was born. She is now 6 years old. Crayton is charging grevious mental cruelty and says that he is willing to give his wife their joint property.

Widow Wins Round In Estate Tiff

Mrs. Josie Williams, widow of wealthy Andrew Williams who died last August in Alabama while visiting relatives there, was victorious in the first round of her fight to gain full administration of her husband's estate. It involved the recovery of a $4,000 automobile claimed by her daughter and son-in-law as a "gift" from the dead man before leaving the state.

Atty. Earl C. Broady, who represented Mrs. Williams in her legal tilt with Mr. and Mrs. Joseph Woods, the daughter and son-in-law, listed the contested automobile among the assets of estate comprising several pieces of real property, trust deeds and notes valued upwards of $55,000. A probate court refused to order Mrs. Woods to turn the car over to the widow.

Mr. Broady then brought suit in another court for the return of the car and for damages. The matter went to court in Division 36 of the Municipal Court Monday before Judge Odemar. At the conclusion of a lively court battle, the judge ordered the return of the car to the widow and ordered the Wood's to pay $270 for use of car and cost of court.

Dynamite Jackson Sues for Share In Liquor Store and Cocktail Bar

RESUMES PRACTICE. Dr. Loyce Evans, prominent foot specialist and socialite returned to her office in the Davis Medical Building on West Jefferson boulevard this week after an absence of four months. The highly capable chiropodist, who in private life is Mrs. Oliver Odom, gave birth to a nine and a half pound boy in late November. Dr. Evans also maintains offices in the Medical Building at M.G.M. Studios.

LABOR OFFICE IN L. A.

A branch of the U. S. Department of Labor 's Office of the Solicitor was opened in Los Angeles this week, the first such branch to be opened in Southern California.

The new office is located on the twelfth floor of the Furniture Exchange Building at 1206 Santee Street. George E. Duemler will be in charge.

Charging that Abraham (Al) Austin with whom he had conducted a partnership liquor business for the past seven years has repudiated the partnership agreement and had engaged in conduct that was detrimental to the business, Ernest Bendy, better known as "Dynamite Jackson," last week filed an action in Superior Court asking for dissolution of the business and an accounting.

In his complaint, filed through Attorneys Miller and Sinclair, Mr. Bendy, who as Dynamite Jackson is a former heavyweight champion of California and is now licensed boxing referee, charged that he, Austin and Jack Bloom entered into an agreement to open an off sale liquor store at 5501 Central avenue, known as Dynamite Jackson's Liquor Store, in 1943.

Later and in 1945, the trio opened a cocktail lounge known as Dynamite Jackson's Paradise. Both places are still open and are among the most popular business establishments of their kind in the community. Bloom has since retired from both establishments

Produces Evidence

Mr. Bendy exhibited numerous advertisements, cards and other publicity material in which he was named as a co-partner with Austin and Bloom in the conduct of both stores. He also produced numerous pictures taken of business banquets attended by all three in which he was referred to as a partner. Austin, it was learned, now claims that Mr. Bendy was only an "employee" and denies that he ever had any interest at all in either of the places of business.

Mr. Bendy charged that Dynamite Jackson, the name under which he campaigned as a heavyweight boxer had a large value in the community and that his contribution to the partnership was the use of that name and the performance of services, first in the off sale and later in the on sale of liquor establishment. He also said that his activity in community and civic affairs helped to further the business interests of the partnership and that as a result the business is now worth in excess of $100,000. He claims a share in the business but it was learned that Mr. Austin denies any such interest and claims that he is only an "employee."

Claim Misconduct

Basic of the alleged misconduct in business affairs, as claimed by Bendy, is that Austin has per-

Bass, publisher and editor of this foremost publication.

According to the sponsoring group, the dance will serve as a "kick-off" to the "Negro History Week" recently proclaimed by Mayor Bowron. Admission is $1 or 3 months subscription to the Eagle.

The committee is headed by Isaac Laidley, trade unionist, and Jack Berman prominent Eastside community leader, who will also act as the master of ceremony for the evening.

Sprinkling Costs $200

It rained teardrops from her eyes the night Mrs. Bessie Furlow Sellers, 782 East 47th Street, showered her with water from a lawn hose. Miss Theresa Taylor, 341 East 52nd Street, told Municipal Judge Walter Odemar in winning an award of $200 damages last week.

Miss Taylor told the Court that last October 23 she visited a male friend who lives on Mrs. Sellers' property. When they were leaving Mrs. Sellers suddenly pointed the hose at them and gave them a good sprinkling, in fact she was just about flooded out.

She further testified that when she inquired of Mrs. Sellers why she had wet her she was informed that she intended to soak her male companion.

Miss Taylor was represented by Attorneys Walter L. Gordon, Jr., and Theodore Schaffer.

The SIDEWALK

By C.A.B.

New York Communists have pledged themselves to get 5,000 new subscribers for THE WORKER by February 25.

It is easy to understand why the Communists have assumed this responsibility.

THE WORKER, so-called Communist organ, defends the rights of all people and political parties, including the Communists, which it contends is a bonafide political party entitled to the same respect that is enjoyed by the Republican, Democratic, Progressive, and other political parties.

People who believe in the ideology their party stands for, it seems are willing to fight to the death to defend that ideology.

The Negro newspaper has a specific duty also to perform. Unlike THE WORKER, its mission is political to a certain degree, but specifically racial. It is an established fact that the laws that govern our country and our people are not applied the same for Negroes as for whites. If they were, seven young Negroes would not have been victims of the electric chair in a Virginia prison last week on circumstantial evidence, and another group of six young Negroes would not be pining away in a Trenton, N. J., prison now.

Negro children, possible victims of the same fate as the Martinsville Seven and the Trenton Six, would not be denied equal educational opportunities in the South and in many places in the North and West.

Negro newspapers that speak against a Fair Employment Practices Act and favor minstrel shows that hold Negroes up for ridicule and scorn, should be tried for treason in the courts of public opinion.

I am not advocating the destruction of people or of concerns. I am calling for a newspaper doctrine that will contend for enforcement of laws that defend the rights of all people, and newspapers that will not sell the Negro people down the river to fatten their coffers.

I am calling for readers of newspapers willing to stand up and be counted on the side of truth and peace.

It is easy to follow the lead of the Slaveocrats who scream "Communist" or "Red" to keep you frightened and bound to the past—to that period of slavery from which some have not yet been released.

You can have freedom and peace. Or you can persist in slavery.

Subscribe for a newspaper, The California Eagle, that is fighting for all the freedoms that are man's heritage and God's promise. And you shall be free indeed.

Seven Executed as Victims Of Dixie White Supremacy

THE DEAD:

Francis DeSales Grayson, 39, father of five children, furniture worker.

Frank Hairston, Jr., 21, tobacco warehouseman.

Booker T. Millner, 21, gravestone setter.

John Clabon Taylor, 21, hotel worker.

Howard Lee Hairston, 21, tobacco warehouseman.

James Luther Hairstone, 22, his half-brother, tobacco warehouseman.

Joe Henry Hampton, 22, lumber yard worker.

The last three of the Martinsville Seven paid with their lives for Dixie justice Monday as they were executed in the State of Virginia's electric chair at Richmond during the early morning hours.

The three who died on Monday were John Clabon Taylor, 21, a hotel worker, who was strapped in the electric chair in the pale green state penitentiary death chamber at 7:33 a.m. He was dead at 7:41.

James Luther Hairston, 22, tobacco warehousemen, went to the chair at 7:52 a.m., was pronounced dead eight minutes later.

Francis DeSales Grayson, 38, father of five, was pronounced dead ten minutes later.

Prison officials said the men made no statements. There were no witnesses except official watchers.

The other four who died were electrocuted on Feb. 2. The men were convicted for alleged rape of a wife of a department store manager in Martinsville, Va., on Jan. 8, 1949.

The campaign to save the seven Negroes reached world-wide proportions, unequaled since the Scottsboro case.

The Martinsville case dates back to the night of Jan. 8, 1949,

War Perkins, Disc Jock, Dies in Phillipine Isles

By Phyllis Scott

War Perkins died last week in the land which gave him the greatest happiness he had ever known—the Philippines. War Perkins—the unpredictable, the amiable, the human dynamo—undeterred by mistakes but always driving toward his goal. A man who wanted so much to blaze new trials in so little time.

He achieved that goal: the organization of the largest and modern recording company in Manila and on the entire islands. A performer as well as a participant he worked with indefatigable energy to set up a company with top recording stars.

Perkins often talked of getting a fresh start in a new place where competition would not eliminate a man solely on the basis of race. Like any person with loads of imagination and ability he kept searching for new ideas

Court Bans Texas Bias

FORT WORTH, Texas — The United States Circuit Court of Appeals this week decreed that Negro citizens of Harrison County must be allowed full participation in all the voting machinery of the county, thus victoriously terminating a battle for the franchise waged in Texas by the National Association for the Advancement of Colored People for more than a quarter of a century.

Reversing a lower court decision, the appeals court ordered that Harrison County Negroes must be given full rights of membership in the Citizens Party or any other political group. The opinion stated that the primary election of the Citizens Party "has effectively controlled the election of candidates" for county offices for over fifty years and asserted that the exclusion of Negroes from the party must be characterized as the type of discrimination forbidden by the Constitution of the United States."

$15,000 Sought For Injuries

Carl Bloice, 11, of 2700 Rimpau Blvd., is suing through his mother, Mrs. Opal Warren for $15,000 for injuries he suffered in a safety zone at 25th and Santa Fe. According to the suit filed through his attorney Crispus Wright, one George Bass Vidrian hit the youngster with a panel truck. Another child, Doris Henkinson was injured at the same time.

The suit alleges that Bloice suffered bruises, contusions and other serious injuries when struck by the truck. Vidrian filed an answer to the suit this week saying that Bloice did not take proper care in avoiding being hit.

Owner Must Cough Up Back Rent

Landlady Gertrude Taylor lost the decision in a suit involving over-ceiling rents, but she was credited with presenting one of the "most unique" defenses yet heard, according to Frank L. Hirst, chief trial attorney for the Office of the Housing Expediter, who today announced the successful completion of 10 legal actions against landlords with the recovery of a total of $5,084.96 in judgments and pretrial settlements.

Mrs. Taylor, who rented four rooms of her six-room home at 1409 South Hooper Avenue, argued the government had no jurisdiction over her property as it didn't fall under either of the two rent control regulations.

The landlady applied the "neither fish nor fowl" theory that the premises involved didn't fall under the housing regulations because the rooms were part of her private abode and that they were not affected by the rooming house regulations because they were rented unfurnished.

Federal Judge James M. Carter, however, held the rooms were

when the Martinsville police raided East Martinsville, the Negro community. They hunted for men with mud on their shoes. They had been set on their hunt by a 32 year old white woman who went into the Negro community that Saturday night and emerged with claims that she had been "raped" by 13 or 14 men.

For two days police terrorized every Negro home in and around the Danville and Western Railroad tracks where the alleged "attack" was said to have taken place. At the end of two days, the police had seven men in jail.

There, the police terror continued. The men were told about the unusually large Sunday crowd gathered around the jail in the courthouse square. Confessions" were thrust before the men. We'll turn you loose to the mob," the police threatened, handing over pens. They signed and were spirited out of Martinsville to jails in nearby Roanoke, Stuart and Chatham in southern Virginia.

mitted bookmakers to use the liquor store as a place to take bets. He said arrests for bookmaking have been made in the store in past year. Because of the use of his name in connection with the store, he said, his own reputation was made to suffer.

On two prior occasions, Mr. Benry said, Austin and Bloom had attempted to oust him from the business but had desisted after complaints from community leaders.

In their original agreement, Mr. Bendy said, Austin and Bloom had agreed to list him as a licensee after a five year period but had refused to do so despite repeated demands on his part. It was as a result of his demand that they do so that one of the prior attempts to oust him was made, he said.

Mr. Bendy said he had remonstrated with Mr. Austin over book making activities in the liquor store and had told him that such activities would endanger his position as a licensed boxing referee, the only Negro in California to hold such a position. He said that he also expressed the belief that it would prevent his advancement in that field. Austin, he said, refused to make any promises to discontinue bookmaking activities.

Mr. Bendy said that he first became aware of the fact that Austin denied his partnership interest in the businesses when Austin began to refer to himself as the sole proprietor and in response to inquiries asserted that Bendy was merely an employe.

Fight Levering Act

Citing forty different reasons why the Levering Oath Act is unconstitutional, Attorney Wayne Collins this week filed a Writ of Mandamus in the California State Supreme Court in behalf of the dismissed and suspended teachers and public employees who refused to sign the oath.

The plaintiff teachers, Herbert Bisno and Leonard Pockman, professors at San Francisco State College, John Horowitz, instructor at San Francisco City College and Edward Hanchett, teacher at Commerce High School, all dismissed, request reinstatement to their jobs and back pay.

Among the unconstitutional aspects of the Levering Act, the petition states that the Act sets up martial law and a quasi-military state, drafts public employees into a civil defense setup under threat of losing their jobs, compels conformity under durees, creates a new classificatio of public employees and violates the rights of free speech and privacy.

It is expected that because of the constitutional issues involved the Court's ruling will affact the cases of the more than 100 nonsigners of the Levering Act throughout California.

Court Drops Charge On Bookmaking

FRED THOMPSON

Fred Thomas, 29, of 4411 Crocker Street, had all charges dismissed against him and was completely vindicated in Division 4 of the Municipal Court at his preliminary hearing February 1, 1951.

Thomas, proprietor of a magazine and record shop at 402 East Vernon, was charged by local vice officers with being the operator of a highly successful bookmaking establishment that had been successfully running for a period of months. The officers testified that numerous persons went in and out of his place and seemingly never came out with any merchandise.

Numerous slips of white paper found in his establishment were identified as being betting markers.

Thomas, through his attorney, Walter L. Gordon, Jr., claimed that even with his evidence at their disposal the officers still had failed to prove a case and successfully prevailed upon Judge Leroy Dawson to dismiss all charges.

he returned to college to prepare himself for the legal profession. Though he did well, he was restless for the magic and excitement of creating talent—molding a finished product from raw material.

Opportunity at last came to him when his passport was finally approved for setting up his business in Manila. Just as though Destiny had pre-arranged his course, Perkins worked tirelessly to get his affairs all straightened out before his final departure from this country.

With Red Tape behind he immediately began training his artists and soon was known through out the islands. Last Thanksgiving he returned to the States to get his wife and visit with his mother. His spirits were high and his plans definite.

"Are you sure that you're doing the right thing by picking up and leaving this country, War?" I asked.

"Phyllis, if you could experience it, you would know that it is the best feeling a Negro could have. They treat you like a man over there. . . . I'm not running away. I have fought and tried to do things to help erase the race problem. . . . I'm tired now. I want to live the rest of my life in dignity and peace."

War Perkins found Peace and God in the Philippine Islands, 5000 miles from his Los Angeles home. He leaves to mourn a mother, Ella Perkins, and a stepmother by the same name; his wife, Trudy; and three children.

Largest judgment was against Abram Milhander, 2803½ Vineyard Avenue, for $1,000, former owner of an apartment house at 2831½ to 2835½ West Boulevard, who was ordered to return bonus payments of $250 ea each of four tenants.

Biggest pre-trial settlement was with Ferd Zimmerman, 130 North Avenue 64, who refunded $1,187.96 to two tenants. In a second settlement, Violet Lyons, owner of the premises at 4377½ Camero Avenue, refunded $600 to a former tenant.

Unions Fight Together Against Anti-Labor Laws

Representatives of 24 Los Angeles labor unions met last week and pledged themselves to an all-out fight for repeal of anti-labor legislation.

"We will protest and urge others to protest the bold attempts under 'legal' guise to further a police state idealogy, until the ground swell of public opinion forces the repeal of these vicious laws," a policy statement unanimously adopted read.

Anti-labor laws are designed "to frighten the workers of the United States into subdued, quiet wage slaves who accept price increases, wage cuts, higher taxes and eventual destruction of unions," the statement charged.

The conference closely followed the theme outlined by Chairman Al Caplan of ILWU local 26, who said at the opening, "We are seeking a realistic, trade union approach to anti-union laws in this meeting."

He stressed the last three words of the Pledge of Allegiance, ". . . justice for all" and said this should be the aim of the confertnce. "We are seeking the solidarity of trade unionists no matter what union or political belief."

ILWU Regional Director Bill Lawrence was keynote speaker. He described the discussions on "screening" at the recent ILWU coast-wide caucus at Longview.

"Taft-Hartley was not enough to break the unions," he said, "Union-busters had to bolster T-H with more and increasingly vicious legislation, including the Magnuson act, the McCarran act, the Los Angeles county and city registration ordinances."

He blasted the Magnuson "security screening act" an an attempt to destroy militant water front unions in particular.

"Let them try to take it away from us!" he shouted in speaking of ILWU hiring hall provisions. He described the hiring hall as the backbone of the maritime and waterfront unions and those unions as the backbone of organized labor in California.

He charged the McCarran act could be used to throw unionists in concentration camps on an accusation of "sympathy."

The same, he said, applied to the Los Angeles county and city registration ordinances, under which Furniture Workers' leader Gus Brown was being persecuted.

Many of the 133 trade unionists who attended the conference hit the deck to tell of personal experiences under the anti-labor laws.

Joe Johnson, MCB Wilmington port agent, revived the old slogan that built the waterfront unions and the labor movement in California—"An injury to one is an injury to all."

He scored the "unholy alliance between CIO labor fakers and the employers that is trying to lead us into war."

Johnson drew applause when he said, "What's good for the unions is good for the country." He described the screening of MCB members.

"An anonymous phone call is enough to cost a worker his job," he said, "and the appeal set-up means nothing. The admiral has the right to overrule the appeal board, if it should be decided by the worker."

James Allen, AFL carpenter, rose to charge that "the bosses in America are trying to ride to Fascism on the backs of the Negroes."

He called for full cooperation between Negro and white workers. He urged all workers to close ranks and stop the march of the country down the road to Fascism.

"We can't fight back as one guy," he said, "but we can fight back the way we're starting here tonight."

Speaking of four of the Martinsville Seven, who had been electrocuted that day, Allen labeled the executions "legal murder, legal lynching."

He urged an all-out fight for fair employment, for peace, and against the drive to war.

Other speakers included Trini Flores (Furniture local 576), Goldman Rattler (UE), Irving Rowen (NMU), M. (Mickey) Puhak (ILWU local 2, San Francisco), Louise Johnson (Union Information and Research), Wendell Phillips (AFL Teamsters) and A. Bowers (AFL Laborers).

Action other than adopting of the statement of policy included:

Support of the Switchmen's walkout. A telegram was sent:

"Congratulate you on your ill health. Hope you will remain ill until you feel better."

A telegram was sent to President Truman urging him to grant the 40-hour week to rail workers and to stop injunctive proceedings against the union.

Another telegram asking for clemency for the remaining three of the Martinsville Seven was sent Truman.

Attendance rolls showed that 133 unionists represented 11 AFL unions, six CIO unions and seven independents.

Henry Gray, Real Estate Dealer, Dies

Los Angeles was shocked in the sudden passing of Henry B. Gray, 4322 Sunset Drive, on Monday, February 5, at 7:00 a.m. Mr. Gray was prominently known here as well as Chicago in civic, political and charitable activities. He was a real estate broker and just recently was conspiciously located on the ballot for the 56th Assembly District.

Mr. Gray was born in Atlanta, Ga., December 6, 1895, the son of Rev. and Mrs. David Gray. He received his early education in the public schools of Atlanta and completed his college work at Walden College, Nashville, Tenn. He did graduate work at the University of Chicago.

He is survived by his widow, Mrs. Alberta Gray of Los Angeles, his mother, Mrs. Lula Gray, sisters Ellen Mardess, Princella Rankin, and Beulah Anderson all of Chicago, Illinois; David Gray Jr., William Gray, and Lillian Redding of Atlanta, and Josie Bain, wife of the Rev. John C. Bain of Los Angeles, California.

Funeral services will be held at the Bowen Membrial Methodist Church Monday, February 12, at 1:30 p.m. Conner-Johnson officiating.

No 'Freeze' On Recruits For Navy

The Navy Department recently emphasized that its current restrictions on recruiting is not a "freeze" but a quota system necessitated by limitations of facilities at available recruit training centers. As additional facilities became available, quotas will be regulated accordingly.

The Navy also pointed out that no quota has been placed on the enlisting of persons with enough previous Navy, or other military service to make recruit training unnecessary.

Navy enlistees who enter the service from this area are being sent to the training center at San Diego.

DOORBELL SAVES FAMILY

Bloomfield, N. J.—The persistent ringing of their doorbell awakened the occupants of a two-family home. They found nobody at the door but a fire in their cellar. Fireman concluded that the fire had short-circuited the doorbell.

Polio Effort Needs Many Volunteers

The greatest single effort to raise money for the fight against infantile paralysis will take pace tonight, Thursday, February 8, between the hours of 7 and 9 p.m. Sirens and bells will announce the opening of the gigantic drive. Members of the Parent Teachers Association will go from door to door collecting funds to fight polio. All persons who wish to take part in the fight against polio are asked to turn on their porch light to show that they are ready with a gift.

This effort, "Mother's March on Polio," can raise $1,500,000 for the Los Angeles County March of Dimes, but it must have the backing of every citizen of the County. Volunteers are urgently needed to aid the Parent Teachers Association in visiting homes.

An urgent call for such volunteers with cars was issued by Mrs. Gaynelle Miles, general chairman of the Women's Division. "Anyone with a car who can assist in this work will be making an important contribution to the health and welfare of all of us," Mrs. Miles pointed out.

Volunteers who wish to offer their assistance may contact Mrs. Mae Glover, chairman of the Mothers' March, RE. 7909; Mrs. Miles, RE. 6982; Mrs. Lillian Sommers, chairman of the Volunteer Committee, RE. 2-8851 or Mrs. Josephine Ladd, co-chairman of Volunteers, LO. 60053.

Lorenzo Bowdin, general chairman for the Central Division, reported that excellent results are being obtained in the district. "So far," Chairman Bowdin reported, "Well over $100 has been turned over to our treasurer, Paul R. Williams and this does not include the amount received at the Benefit held by the National Council of Negro Women."

Bowdin and his vice chairman, Gilbert Lindsay, praised the work of Mrs. Ethel Gordon, Julius Crouch and others who had cooperated to provide the excellent entertainment for the Benefit at the El Sombrero. They also singled out for honorable mention Miss Beal of 2610 Juliette Street who raised over $41 through door-to-door solicitation.

The local campaign heads also announced that the Mobile Field Service Unit will be on display for an entire day during the campaign. Detailed announcements of the time and place will be made next week.

Red Cross Drive

Mrs. Vanilla Strickland, Red Cross fund chairman for the East area, this week appointed four colonels and two co-colonels to serve in the coming Red Cross drive, which begins March 1.

Air Force Drops Probe of Pilot

DETROIT.—A loyalty probe by the Air Force of Capt. Charles A. Hill Jr., a young Negro fighter pilot who won the Air Medal three times in World War II was dropped on Monday.

Air Force Secretary Thomas K. Finletter dropped the disloyalty proceedings against Capt. Hill without comment. Hill had been accused because his father, the Rev. Charles A. Hill, a Detroit minister who received 100,000 votes for the City Council last year, was alleged to be associated with subversive organizations.

Capt. Hill said Monday that the dismissal of the charges "should teach somebody a lesson."

LA Chapter CAA, to be Organized Feb. 18

All those who are interested in organizing a Los Angeles Chapter Council of African Affairs, are urged to attend a meeting to be held at the Academy of Arts, 1363 West Adams Blvd., from 2 to 5 p.m. on Sunday, February 18.

The meeting is being called by the Los Angeles Committee to establish a Council on African Affairs, of which Dorothy Morrow is acting secretary. The Committee points out that few people know that the Negro was the first artist; that Cheops, a Negro, built the Great Pyramid, one of the seven wonders of the ancient world, and many other facts that have been buried in oblivion concerning Africa and the Africans.

Among those serving on the Committee are:

James Allen, Mrs. Charlotta A. Bass, Franklyn Blake, William Black, Jay Brooks, Cleophus Brown, Dr. T. P. Cobb, Atty. Hugh Goodwin, Rosemary Haskell, Rev. J. J. Hicks, Mrs. Cora Johnson, Joe Johnson, Leo Johnson, John Lee Jeni LeGon, Atty Hugh McBeth, Sr., Vivian Moon, Lillian Moore, Sidney Moore, Byron Morrow, John Rogers, Anne Scepan, Bob Sherwood, Atty. Herbert Simmons, Laura Slayton, Bill Smith, Atty. Curtis Taylor, Shirley Taylor, Lawrence Turner, Frank Whitley, Frances Williams, Adele Young.

'Keep Rhodesia White'—In Africa

CAPE TOWN—White Rhodesians, alarmed by the increase in the number of Africans who have received the franchise, are taking steps to "defent white Rhodesia." (In 1948, 258 Africans were permitted to vote; the figure now stands at 425).

An organization called the "White Rhodesia Council" was recently formed in Salisbury and has circulated a pamphlet urging the whites to "keep Rhodesia white," and pressure on the government has led to the introduction of a bill which would raise the qualifications necessary for the franchise. The bill increases the property and income qualifications and will probably remove from the lists the majority of Africans now registered as voters.

Following the disclosure that the "United Nations Youth Association of South Africa" practices white chauvaism, five of the 12 young people who were to have toured Europe on behalf of the association refused to go on the tour.

"The association is in no way entitled to call itself the 'United Nations Youth Association' because it is not representative of the United Nations organization, nor does it propagate any of its ideals," said J. Lee, former member of the Association's National Council and convener of the tour group, in his letter of resignation.

BLS Plans Housing Survey

A survey of the volume, cost and characteristics of new housing—part of the Bureau's regular program of housing statistics—will begin in the Los Angeles Area next week, Max D. Kossoris, director of the Western Region of the U. S. Department of Labor's Bureau of Statistics, reported today. The Los Angeles Area which includes all of the cities and towns as well as the unincorporated areas of Los Angeles and Orange Counties is one of the 15 major metropolitan areas for which the Bureau regularly collects information on construction trends and activity.

All information is kept strictly confidential and is released only in the form of statistical summaries.

Results of the survey will be useful to all those interested in homebuilding, particularly builders and suppliers of building materials, an dto public officials as a guide in making policy and administrative decisions.

The most important information developed will be monthly estimates of the number and the average construction costs of nonfarm dwelling units started in the areas.

Troops to New Guinea

CANBERRA — The Australian Government has decided to strengthen the Australian garrison in New Guinea in order to prevent by armed force the expected occupation of West New Guinea (Irian) by Indonesia in case the dispute over Irian is not solved by negotiation.

The dispute over Irian, held by Holland and claimed by Indonesia, has been dragging on ever since the establishment of the United States of Indonesia. Holland and Indonesia originally agreed that the dispute should be solved by December 31 of last year, but no solution is yet in sight and the West New Guineas issue has been one of the contributing factors in the current Dutch Government crisis.

Ban on Coca-Cola In Los Angeles

LOS ANGELES—Spurred by a similar campaign launched in the East and a series of articles appearing in the local "Spotlight News," prominent citizens here agreed Monday night to ask Negroes citizens to stop buying Coca Cola until the nationally known concern decides to hire Negroes as salesmen, stenographers and clerks.

Publisher Claude Durham, Jr., who has engaged in other militant campaigns, said that Attorney H. Leonard Richardson, who headed a campaign once against the Heinz Pickle Company, would lead the fight.

Members of the Committee indicated that they would follow closely the pattern laid down by the National Fair Play Committee in New York where the "Stop Drinking Coke" slogan originated a month ago.

Mr. Richardson hinted that the Hucksters, a group of Negro salesmen employed by national firms, would assist the Committee in forcing the Coca-Cola Company to practice the principles of FEPC within its organization.

Weekly Reminder: A delayed alarm is a part of almost every fire that gets out of control. Experts agree that most big fires which kill people — especially the 7 percent of fires that cause most loss of life and 75 percent of the damage — could be controlled at the minor stage.

A fire multiplies 50 times in eight minutes. Thus our aim: call the fire department instantly; keep little fires from growing big.

Crowd Ignores Klan; Hears NAACP Speaker

AIKEN, S. C.—Defying Ku Klux Klan threats, several hundred citizens crowded the Friendship Baptist Church here to hear Clarence Mitchell, director of the Washington Bureau of the National Association for the Advancement of Colored People, and South Carolina officials of the NAACP, report on efforts to get full and fair employment on the H-bomb project being developed near this city.

The Atomic Energy Commission and DuPont officials had earlier assured an NAACP committee that employment would be offered without discrimination, Mr. Mitchell reported. He noted, however, that Negroes had not been included in the initial hirings and urged colored citizens to file applications for employment immediately.

THE CALIFORNIA EAGLE

A National Tragedy

Freedom and justice are every man's heritage, we hear so often.

Not just Negro citizens, but many Americans who believe in, not only the letter but also the spirit of the law, feel that the Justice Department of our government, in the case of the Martinsville Seven young Virginia Negroes who paid with their lives for the commitment of a crime never satisfactorily proven against them, committed a crime against the justice they are supposed to uphold.

Appeals for clemency from all over the nation and from many parts of the world, reached John S. Battle, governor of Virginia. The National Association for the Advancement of Colored People warned the Virginia governor that the execution of the seven young men would be considered throughout the Orient, Africa, Korea, and other "dark" continents as another demonstration of American color prejudice.

Negroes are no more crime dodgers than they are draft dodgers. They believe that the tenets of the Constitution should be followed and respected.

When the governor of Virginia met a committee of citizens visiting him to ask that the seven be given life terms instead of the electric chair, calling to his attention the fact that no white man in the State had ever been lynched or executed for a similar crime, he, the governor, freely admitted that no white man in the history of Virginia had ever been hanged or electrocuted for rape.

The bitter end to Governor Battle's determination to uphold an all-white jury's decision and put to death the seven practically "young boys," came when the Justice Department refused to intervene.

Not only the NAACP but most organizations and churches in America appealed to Gov. Battle and the Justice Department; some in strong words, others in pleas for mercy, to spare the lives of the Martinsville Seven.

Among the nationally-famous names on this list are former Councilman Benjamin J. Davis, of New York City, and Pettis Perry, formerly of Los Angeles, now chairman and secretary of the National Work Commission of the Communist Party. But to no avail.

From California a message was sent by the Rev. J. Raymond Henderson, pastor of the Second Baptist Church, representing the many messages from other churches and pastors. And from 75 residents of Watts and the Southeast areas came a message from Congressman Cecil R. King, who pledged over the long-distance wire to Ray Cox, chairman of the Watts-Woodcrest club of the IPP, that he would do "everything in my power to get a group of Congressmen to see President Truman Saturday morning to discuss executive clemency for the three remaining members of the Martinsville Seven."

The first four had gone to their death on Friday morning.

All this is but a very, very small bit of what was done by the thousands and even millions all through America, and all over the world, in an attempt to touch the hard heart of the governor of Virginia.

But the prayers, the tears, the all-night vigils, the messages, the letters went unheeded.

The seven young men of Virginia were sent to their death by a stubborn governor, determined to uphold the boasted "white supremacy" of the South. They have won the crown of martyrdom, of martyrdom to a bigoted ruler of one of the states in the United States.

But America—the United States of America? The death of those innocent young men will forever be a dark blot upon the pages of American history.

Give Your Blood To The Red Cross

The American Red Cross has issued an appeal for blood donors to its blood bank to help save the lives of our boys fighting in Korea.

Whether we approve or disapprove of some of the program of the Red Cross, and even whether we approve or disapprove of the war in Korea, the ugly fact remains that our boys are there in Korea. That they are fighting and dying. That perhaps, we, you and I, can save lives by donating gladly some of our blood to mingle with that being shed so freely for us.

The Armed Forces have asked the Red Cross to use its resources to collect blood to save the lives of battle-wounded servicemen.

It is our duty and our responsibility to heed this call, and to furnish all the blood we can at this time. The time and effort it would take to discuss the merits and demerits of this request, would be wasted. For our boys would be dying while we were talking.

It is up to us to do all we can to support this drive for blood which the American Red Cross is conducting.

The Korean War

That horrible war in the little country of Korea is still going on—up and down the peninsula, now the United Nations troops retreating or "withdrawing," and the Chinese and North Koreans winning, only to be replaced by other troops of the UN driving the Koreans out of their cities and towns.

Every day we hear over the radio, or read in big headlines of the number of Chinese "Reds" that have been killed. The number is given gloatingly, as if the narrator were smacking his lips at the torture inflicted by our troops upon the people of another nation and another color.

For the majority of those boys fighting in the UN army in Korea are American boys. And "boys" is the correct name for them. Few have reached the voting age. Few were anything more than careless, happy, free teen-agers a few short months before.

Yet these boys are forced to shoot to kill, to "shoot anything that moves" in some instances—mutilating little children, babes in the arms of their mothers, the mothers themselves dying by the roadsides in a vain effort to escape the rain of fire and shell that is being poured upon them out of the sky by American aviators.

We are praying for peace. Why does not God answer? Are we praying amiss? Deep down in our hearts, are we thinking longingly of the bags of money we can and are accumulating because of the high prices and high wages this war has brought on? Do we hope unconsciously these conditions will continue?

What are we really praying for? For peace? Or for victory for "our side"?

The people of Pottstown, Pa., have united in praying a prayer that should be a model for all prayers for peace. They are truly beseeching God to send peace to all the world, but they are also praying for an understanding heart, that "we may know and appreciate what others believe, and that we may grant them full power to believe as they will."

Such a prayer will be answered—"an understanding heart to grant to others the privilege of believing as they wish."

All the mothers of the world should unite in such a prayer. Pray for peace, for understanding hearts, and pray that our boys will be brought home soon. There should be a crusade for peace of this kind in America, in the world, by the mothers of the world.

Who will be first to join the peace crusade?

Drink No More Coke

The National Fair Play Committee of New York City has inaugurated a movement which is spreading rapidly throughout the state.

It is that of boycotting the giant Coca-Cola Bottling Co., by **refusing to drink any more coke.** They expect to achieve a victory in the state of New York by March 15. That victory is the employment of Negroes by the Coca-Cola Co. To date that big corporation, whose coffers are filled by the nickels from Negro boys and girls as well as from white youngsters, has refused to employ Negroes in any capacity except the most menial.

Soft drink concerns look forward to that date (March 15) as the beginning of the heavy-selling season, Judge Charles E. Toney, chairman of the Fair Play Committee, pointed out, and the goal of the boycott is therefore to so cripple Coca-Cola's sales in Negro areas that executives of the world's biggest soda corporation will gladly institute FEPC in their plants.

"No longer will we wait for the Dixiecrats and backsliding Republicans to solve a problem New Yorkers can solve for themselves," declared Judge Toney, speaking for New York. "And neither should we tolerate the empty promises of the big city politicians of the North on a matter so vital to the future of Negro Americans. What's the use of counseling Negro boys and girls to study salesmanship, marketing, stenography, and advertising if there's no opportunity for them to have and hold jobs in private industry?"

The Coca-Cola Bottling Co. in Los Angeles, which operates on Central avenue, employes about 30 Negroes, we were told, out of a total of some 600 employees. There is one man in this number who acts in a supervisorial capacity, and the others are engaged in stapling, janitorial work, etc.

This, no doubt, is a much better showing than that offered by the Coca-Cola works in New York City. But perhaps that showing would be even better if we urged the management of the plant that manufactures and bottles the favorite beverage of L.A.'s boys and girls, to employ more Negroes in a clerical capacity than it is doing now.

Anyway **The California Eagle** extends greetings across the miles to the boys and girls, and the men and women in New York, who will go thirsty rather than enrich a corporation which refuses to hire Negroes in its factories and offices, who have pledged themselves to **drink no more coke** until men and women are employed upon merit only, and not upon the color of their skin or their religious or political beliefs.

Negro History—and Murder

As the American people celebrated Negro History Week, the American government permitted the legal murder of 7 Negroes in Martinsville, Virginia.

As we honored the contributions of the Negro people toward the building of this great land—the American system of justice electrocuted seven innocent Negroes at the very moment it freed dozens of Nazi monsters about whose guilt there is no question.

While even Supreme Court justices refused to stay the execution of the seven Americans who had committeed no crime—Eisenhower, shining knight of Western civilization, found it in his heart to offer wholesale foregiveness to Nazis guilty of the most barbarous crimes in history.

The American President can easily violate his oath of office and declare war on the colored people in Korea, sacrificing thousands of Negro soldiers in the process—but he could not find it within his vast powers to do the perfectly legal and just act of saving innocent men in Virginia.

The U. S. Senate can threaten the colored people in India with starvation for refusing to follow American leadership in provoking war with China—while it ignores the failure of American leaders of "world morality" to protect colored people in the South.

Wonder how the Voice of America broadcasts will explain this latest manifestation of the "American Way of Life"—seven human beings legally murdered to satisfy treasonous prejudice? This American way of life which the State Department insists must be adopted by all other countries. They will probably have a special broadcast stating that the awarding of the Peace Prize to Ralph Bunche in Stockholm proves how highly Negroes are honored in Washington.

Can there be any sharper exposure, than that given by the above events, the wide gulf separating the rulers from the people of America? How contemptous they are of our needs and aspirations!

The People's Answer

The presidents and clergymen, the justices and generals, may ignore the official murder of seven innocent Negroes, but the American people won't.

We know we can no longer expect any justice from those who are capable of such deeds. They have long since forgotten what justice means—they who defile the word every time they utter it. They have placed themselves outside the pale of humanity.

We know that we must depend only on ourselves for justice, and all else that makes a good life. We will have justice only when we fight for it, black and white together. We will produce the programs and the leaders to guide us to victory. We can do it, for we have done it before, again and again.

In the Civil War period we produced a Frederick Douglass, an Abe Lincoln, a Harriet Tubman. Their ideas and forces won. And it was Lincoln who said: "Without the military help of the black freedmen the war against the South couldn't be won." (We can add: Without their help the promises of the American democracy will never be realized).

And during the Reconstruction days that followed, it was the new freedmen, black and white, serving as legislators, educators and justices, who gave the South the most democratic government it ever had.

But the promises of that period were betrayed by the rising money power, and the achievements of the freedmen wiped from the history books taught our children. Just as today the same money power is betraying the promises of our victory in World War II, and is trying to erase from the recorded history of that war the contributions of Negro soldiers and civilians.

Yea, the present rulers may ignore the Negro genius, sweat and blood which have helped nurture this mighty nation—but the people won't.

For we will not only re-write the history books to tell the truth. Together, black and white, we will make history, and . . .

Justice will be done.

Lyrics, Fred M. Brooks, Sr.

PLEASE, NEVER LEAVE ME

Just seeing you has done wonders for my heart,
And I am truly hoping that we shall never again have to part.

The remembrance of your sweet kisses tells me most of what has been missed,
And I can see clearly through burning embers
You, lying in the folds of my arms,
And I am surrounded by your lingering charms.

Beloved! My beloved! Please surrender to me
And your love I shall hold dearly as the stars shine from above.
Let's not live in a world of make believe, when our love is so real,
And I am sure that you will never leave.
So remember through eternal life,
It will always be my dearest wish
That you will some day soon become my wife.

—Fred M.Brooks, Sr.

HOW COULD YOU BREAK MY HEART

Through each day constantly my thoughts are upon you
Since we've been apart.
Oh, how could you break my heart?
If only you would believe there has not been any rest
Since first you left me,
Then through your tears
I'm sure we'd be together for the remainder of our years.

From the memories of our romance
There is recalled the bliss
Of your wonderful kiss.
And from my breast there comes the cry,
That you belong to me.
For if you would take the time
You could see very plainly
My face wracked with pain.
So while you are away, Beloved,
Remember that I shall pray
That you will come to me one day.

LETTERS TO THE EDITOR

Dear Mrs. Bass,

Your generosity in donating the valuable space in your paper for news items of Senior Service Girl Scout Troop 970 is certainly appreciated. I am positive the time your staff must have to devote to sifting the items sent in by me is time consuming, since I am not a newspaper reporter and know nothing about such writing. I do know that publicity is important to the girls and gives them diginity to be recognized as doing a job for agencies. Many of the tasks they perform are duggery and it affords them an opportunity to prove that teen-agers can beof service to the community. Thank you for providing the much needed spark of publicity.

Sincerely yours,
Mrs. Hampton L. Worthy
Leader of Troop 970

(No trouble at all. Glad to get your news. Keep on sending it —Editor.)

Dear Mrs. Bass:

We would like to tell the Eagle readers the true facts about the Modeline strike.

We have been on strike for nine weeks for the following reasons:

1. The boss, Mr. Burney Roberts, has insisted on 30 per cent wage cut (applying to new hirings).

2. Firing of a worker on the negotiating committee.

3. He has refused to arbitrate and sign a union contract.

Prior to the strike we considered ourselves a happy group because we were composed of all the minority groups such as Negroes, Japanese, Mexican-Americans, Jewish, and men and women.

We were happy because we solved our problems unitedly with respect and love for each other.

Our furniture local 576 has a fighting record.

From its inception it has fought for justice for all minority groups.

The boss, Berney Roberts, has hoped and schemed to antagonize one minority group against another.

He has slandered, lied, and thrown suspicion all for the purpose of creating disunity.

Thus hoping to break the spirit and solidarity of the strikers.

However, all his maneuvering has boomeranged against him.

After he has failed to break the spirit of the strikers he has resorted to hiring mostly Negro people to scab for him, hoping that in that manner he will arouse racial hatred.

But the strikers were one step ahead of him and refused to become bait for his disgusting schemes.

This only tended to unify the strikers more.

Contrary to the boss's concept of trying to use Negroes as scabs.

We know that the Negro people have been in the forefront for peace, democratic rights and for unionism.

The proof of the heightened struggle and leadership of the Negro people is shown by the hatred and injustice the bosses are meeting out against the Negro people as exemplified by the execution of the Martinsville Seven, and continued imprisonment of Lt. Gilbert, Trenton Six, the Ingrams, Wesley Wells, Willie McGee and the rest of the legal and illegal lynchings.

We want to appeal to all the readers of the Eagle, especially the Negro readers, to support our just strike, by coming out on the picket line to show to the misled Negro people who have taken our jobs that the vast majority of the Negro people are on the side of unionism and progress.

Mrs. Charlotta A. Bass, Editor
The California Eagle
Dear Mrs. Bass,

May I congratulate you on your answer to Walter White's smear of Paul Robeson.

I think much should be said in your next issue for the purpose of letting the Negro people know what this is all about—the leader of the greatest organization in the world trying to smear the greatest leader ever was born!

Sincerely yours,
Eugene Henderson

NAACP URGES BAN ON S. A. LOAN

NEW YORK — Reconsideration of the fifty million dollar loan to the Union of South Africa by the International Bank for Reconstruction and Development, "until South Africa ceases its definance of the United Nations with respect to South West Africa and abandons its dangerous and vicious racist policies," was urged this week by the National Association for the Advancement of Colored People.

LABOR ON THE MARCH

By PENN

Despite efforts by the employers, who realize too well that in disunity there is weakness, signs are increasing that Negro and white workers are more and more realizing they face the same problems.

We do not minimize the fact that Negroes face the sharp brunt of the attack—that they are refused jobs because of color, that in too many cases they are hired only for dirty, back-breaking and low-paid work, and that advancement, if at all, is slow.

But what we see as a ray of hope is a growing cooperation between all workers of all colors, whether organized into unions or not.

We see the formation of the Negro Labor Council in Los Angeles, in which Negroes and Whites are working together to improve the lots of all.

We quote from a "Pledge of Unity" that will soon start circulation in Los Angeles:

"We Negro and White workers, both in unions and unorganized, recognize the problems facing all working people today.

"We realize that Negro men and women particularly, feel the hardships of discrimination in employment and in advancement on the job.

"We know minority groups are refused any kind of a job in many industries and that their seniority rights are ignored in many others.

"Realizing that an injury to one is an injury to all, we pledge our full support to the work of the Negro Labor Council in its fight to destroy discrimination and segregation."

The work of this council is not planned to exclude unions—far from it, since it is the idea of union members primarily. However, the council hopes to wipe out all kinds of job discrimination—and where a worker doesn't have a union to fight for him or her, the council can move.

We find, too, that this cooperation between Negro and White workers extends beyond the fight for equal job opportunities.

They are working together for an end to every kind of Jim Crow, for full democracy for all races, colors and creeds, for peace in the world.

They are together realizing what is going on in the United States. They weep together at the legal lynching of seven men in Virginia. They protest the courts martial of battle-weary soldiers in Korea whose sin is that their skins are colored. They see the new-slow, now-fast steps taken by those in power to keep themselves in power and to grind down any who differ.

Nearly 150 people cheered and applauded last week end at a trade union conference when Jim Allen, a Negro carpenter, plead for unity of all workers, all people to stop the march of the nation down the road that Hitler's Germany travelled.

"The bosses in America are trying to ride to Fascism on the backs of the Negroes," Allen charged. "We can't fight back as one guy," he said, "but we can fight back the way we're starting here tonight."

Joe Johnson, leader of the Marine Cooks & Stewards scored "the employers who are trying to lead us into war."

Other speakers, both Negro and White, urged full cooperation to protect the rights of all workers.

And the cooperation is growing. It will grow more.

POTPOURRI

VERY EFFECTIVE

The following item appeared recently in the society column of the Washington Evening Star:

"The Henry Luces, who entertain a slew of Chinese nationalists including former Premier T. V. Soong and his wife who is more beautiful than her sister-in-law, Mme. Chiang Kai-Chek, have moved into a gorgeous New York apartment at the foot of East 52nd Street. Richly decorated, its two-story drawing room that overlooks the river is done entirely in pink with a few touches of red. Clare must have selected the color as no other shade is so flattering to woman's skin. The walls are lined with pink brocade, the furniture upholstered in shades of pink with the exception of a couple of red velvet chairs, and the huge brass chandelier hangs by a red velvet cord. The walls of the library are a deep burgundy. The elegant parquet floors came from a chateau in France. Very effective setting for the dynamic ex-representative from Connecticut.

HAVE WE ENOUGH DOCTORS?

The American Medical Association—which claims to know the answer—says only one town of three in the United States has a physician. The AMA Journal came through with this significant item on Jan. 20, in an editorial which said that "of the approximately 42,000 places (cities, towns, villages, whether incorporated or unincorporated) in the United States with a population of 100 or over, counting all physicians, between 16,000 and 17,000 places have one or more physicians."

The only hope now in sight for the other 25,000 or 26,000 places is the program of Federal aid to medical education, supported by all organized labor and indorsed by the medical schools . . . but violently opposed by the American Medical Association.

BUZZING OVER PROBE

Washington last week was buzzing over an investigation of a juicy defense scandal—or so it seemed. The story went that the Navy, which has 9500 Waves and women marines, had ordered 1,350,000 summer uniforms for them. Enough for about 142 dresses to each girl.

Two years ago as part of a regular long range plan, the government made a deal with a New York firm to supply up to 1,350,000 uniforms over a two-year period, if, as and when they were needed.

Divide 142 by 2, and you get 71—still a good many dresses for just one girl to wear in one year.

"VETERANS FOR PEACE"

An organization of ex-servicemen, called "Veterans for Peace" has been established in New York following the formation of similar groups in California and Chicago. This new peace group includes many former members of the American Legion, the Amvets, and the right-wing social democratic American Veterans Committee, members who left these organizations in protest against their pro-fascist and reactionary policies.

"Veterans for Peace" started its life with demands for peace in Korea, the immediate dismissal of General MacArthur and a Big Five Power Peace Conference. These demands were presented to the people of New York thru tens of thousands of leaflets distributed, in the major districts of the city including the large Negro area of Harlem.

DEMO WOMEN MEET

The Democratic Women's Division will meet in the Green Room of the Hayward Hotel, on Tuesday, February 13, at 11 a.m. There will be reports on the Legislature by Assemblyman Julian Beck, Augustus F. Hawkins, and William H. Rosenthal.

YORTY ON PRICE CONTROL

Legislation which would remove the prohibition which now prevents control of food prices below the parity level was introduced in Congress February 2, 1951, by Rep. Sam Yorty, Los Angeles.

"The patriotic individual farmers of the nation are willing to accept the same controls placed upon everyone else in spite of the attitude of the farm lobby," Yorty said. "I do not believe that farmers wish to be singled out for special treatment."

Yorty asserted "the people are bewildered" by the price control order because the administration "designated a period for the highest possible prices as the point at which to freeze them."

Since the outbreak of war in Korea, he declared, price increases have amounted to a "sickening orgy of selfishness."

American consumers, Yorty continued, are willing to pay war costs on a pay-as-you-go basis but "they insist that we stop sending some to the battlelines, and some to the breadlines, while rewarding others with undeserved financial security and opulence."

ENTERTAINED AT DINNER were members of the faculty of the Bible Evening School. Host was the Victory Baptist Church. Teachers who were guests of honor are C. Harold Chrisman, Mary Creswell, William Carson Lantz, and Howard Swancy.

SUTHERLAND IS BIBLE SCHOOL GUEST SPEAKER

The opening night of Bible Evening School, at 4802 McKinley, Monday, February 5, was a signal success. A large crowd representing various churches and organizations was present. The guest speaker, Dr Samuel Sutherland, brought a challenging message on "All out mobilization for Christ." Councilman Kenneth Hahn was present to inspire and encourage us in this endeavor. Attorney Francis Ables was the master of ceremonies, and the aim and object of the school was explained by Rev. A. A. Peters, pastor of the Victory Baptist Church. Dr Ione Lowman, the librarian of the Bible Institute, presented the school its first book for the building of a library. The choir was directed by Mr. Jester Hairston.

More than 100 persons enrolled on the first night. Anyone interested in training of this type, can still enroll Monday and Tuesday nights, February 12, 13. Classes are held at the Victory Baptist Church, 48th and McKinley. The Spring Semester will be from February 5 to May 29. Courses in Bible Exposition, Personal Evangelism, Teacher Training and Chapter Summary are offered this semester.

The Bible Evening School is non-sectarian, non-denominational and fundamental, it will hold to the historic Christianity of the New Testament. Instructors are being supplied by the Bible Institute of Los Angeles.

The Rev. A. A. Peters is Dean of the Bible Evening School.

The public is invited to attend any one, or all three events, to help pay tribute to the great contributions of the Negro people and to the history and culture of the United States.

Memorial Service For Seven Dead

On Monday, February 12, 142nd birthday of the birthday of the great Emancipator, Abraham Lincoln, and the second week since the death of the Martinsville 7, the Civil Rights Congress will sponsor a memorial service for the seven men who died at the hands of Dixie Justice.

There will be no music ad no singing at this memorial service, only a bleak observance in silence and a principal speaker who has not been named as yet.

Not only will the meeting be a memorial service for the Martinsville 7, but it will be used as a sounding board for the saving of Willie McGee, who faces death in the electric chair and the saving of the Trenton Six. The second trial of the Trenton Six began on the day of the execution of the last of the Martinsville 7 men.

The meeting will ask that there be no more "Sam Jones" killings in the United States. The announcement of the memorial meeting was made by Mrs. Marjorie Robinson, executive secretary of the CRC.

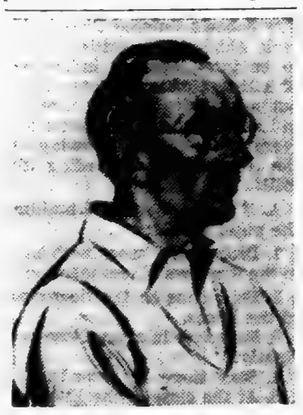
FORM 'MOTHERS AGAINST DISCRIMINATION' GROUP TO FIGHT LOS ANGELES HOSPITALS



"Mothers Against Discrimination" is now a permanent organization, it was announced here this week. This is the group that has been fighting discrimination and Jim Crow in Los Angeles hospitals.

The Committee was first formed of irate mothers who went to the Queen of Angels Hospital to protest this Hospital's refusing to let Mrs. Lois Rambos nurse her newborn child because that child's father is a Negro. The mothers left the Hospital with the Sister Superior's assurance that no such discrimination would be allowed in the future and that all mothers, regardless of nationality, would be placed in rooms according to time of their admission to the Hospital.

Since that time, the Committee has received reports from all over Los Angeles County of discrimination in most of the other hospitals in this area. These undemocratic practices are carried out not only against patients but also against Negro doctors and nurses. This is true, to a lesser degree, of members of other minority groups.

Because of these reports and because they realized that the fight has just begun, the mothers have now made their Committee permanent. In order to bring this new organization and its purposes to the public, the Committee is planning a tea, the tentative date being set for February 18, the last day of Negro History Week.

For more information about "Mothers Against Discrimination" call PLymouth 4-1659.

CLIFFORD CURZON, celebrated pianist, plays his only Los Angeles concert in Philharmonic Auditorium on February 16. This artist is among the top ranking keyboard virtuosos of the world.

A PRAYER

By MARGERY RYERSON

From all forms of race prejudice,
Good Lord, deliver us.
From meddling in the affairs of
other nations more than we
would want them to meddle in
ours,
Good Lord, deliver us.
From flaunting our riches in the
face of a poverty stricken world,
Good Lord, deliver us.
From ever strengthening the bad
government of any foreign nation for the advantage it will
give to us,
Good Lord, deliver us.
From thinking our way of life is
best for all peoples.
Good Lord, deliver us.
From pretending to fight for
other nations whenwe are really fighting to make the world
safe for ourselves and our
trade,
Good Lord, deliver us.
From denying to any people, even
on some tiny island, those
things which we ourselves
value, as, the right to make
their own laws and choose
their own rulers,
Good Lord, deliver us.
From using our guns to make
more people homeless,
Good Lord, deliver us.
And teach us to know that all
peoples of the world are proud
and have something to give,
that they act their best and
we can work together when we
treat them as equals and friends.
Amen.

News From Europe and Other Countries

Sweden, Finland Oppose War Plans

STOCKHOLM—A dismal report on the political situation in Sweden and Finland has been submitted to the United States Intelligence headquarters by former Chief of the United States Intelligence Service in Scandinavia, Hugh Cumming, whose official position is that of political adviser of the United States Embassey in Stockholm.

Cumming warns American political and military circles not to to be optimistic with regard to the possibility of the successful inclusion of Finland and Sweden in the American war plans in Europe. He came to the conclusion that in both countries the vast majority of the population is opposed to war. Sweden is opposed to war in general, and particularly to war preparations on Swedish territory which would be inevitable in the event of a new war.

With regard to Finland, Cumming points out that although it is true that certain elements in the population are anti-Soviet and favour revengist ideas, nevertheless it would be incorrect to regard these ideas seriously since they do not appeal to the great majority of the Finnish people, the report continues.

The majority of the people, Cummings says, are convinced that Finland under all circumstances must avoid participation in a new war. Finns fear that their country would become a battle-field and be turned into a wasteland.

Amsterdam Stops Nazi

AMSTERDAM—The Amsterdam population prevented recently the scheduled appearance here of Nazi orchestra conductor Paul van Kempen. Van Kempen gave a number of concerts for the German Wehrmacht during the occupation of Holland.

He had been engaged as guest conductor for 12 concerts by the reactionary directors of the famous Dutch Gebouworkest. Thousands of people immediately protested and a protest committee was formed. The Amsterdam burgomaster and the Dutch government declared that there was no objection to the appearance of Van Kempen.

At the beginning of the Sunday noon concert, the public sharply protested and skirmishes took place with 300 detectives and policemen present in the hall. Outdoor demonstrations were also held and finally the members of the orchestra refused to play.

Draft Reaching Childless Men For Induction

WASHINGTON — Married men, aged 19 through 25, who have no children, will apparently be called by local draft boards very soon. Members of the House Armed Services Committee seem ready to give tentative approval.

All men with dependents now are deferred from the draft by presidential order. There were hints that President Truman may be asked to change the ruling so that the childless married men can be inducted.

Draft boards have already started calling in men who married after being classified 1-A. The Defense Department has said draft boards should also call men married since the start of the Korean war.

MARINE STEWARD LEADER Joe Johnson is shown speaking for racial unity at the trade union defence conference held last week. See story elsewhere in the paper.

German Youth Reject Atlantic Army

The Free German Youth (F.D.J.) of West Germany has sent an open letter to all deputies of the Bonn (West German) parliament warning them that German youth refuse to follow any schemes which would inevitably lead to a third world war.

"The so-called equality in the 'Atlantic Army' does not mean equality in life but in death" emphasizes the letter. After demanding that all youth organizations serving remilitarization purposes be dissolved the letter goes on to demand that instead of preparations for war, "the disastrous conditions of youth in West Germany—the number of unemployed is over 900 thousand—should be tackled and young Germans given work and proper trade training."

In Bremen (British Zone) Evangelical youth have expressed strong opposition to the rearming of West Germany while at a recent youth meeting in Lower Saxony (U.S. zone) a resolution was carried also rejecting all war preparations in West Germany.

Following the letter of Otto Grotewohl, Prime Minister of the German Democratic Republic, to Dr. Adenauer of the Benn government calling for joint talks on the setting-up of an All-German Constituent Council, the Central Committee of the F.D.J. has appealed for discussion of the letter by youth organizations in Western Germany including Trade Union Youth, the League of Catholic Youth, Protestant Youth, Falcons, Nature Friends, Scouts, etc.

Calling for the expression of opinions on the Grotewohl letter to be addressed to the Adenauer Government as well as to the Government of the German Democratic Republic, the F.D.J. appeal in particular declares that the letter contains proposals for every German, "simple, understandable proposals as to how representatives of East and Western Germany can meet for joint talks to discuss the road which leads to ending the division of Germany" and to removing the threatening danger of world war.

BOWLING ALONG

By Lewis Russ

Hi Folks! Here we are back on the ball again and now lets see how the strikers and sparrers have been bowling along.

In the Atomic Mixed Foursome Bowling League, Harold's Bombers maintain their slim lead as they pounded the pins Monday night to roll over Garcia's Super Service two games to one at the Harlem Sport Center. Art Harold mowed the wood down to lead his team with a 215 game and a 553 series. Ed McFall of Garcia's was lots of trouble all the way chucking a 225 game and a 553 series.

Temptation Drive Inn walloped Fleishman's Clothiers 3 games to none. Alvin Griffin with a new look in a lighter ball found the spot for a 216 game and a 553 series. Ozia Flowers wheeled upon a 132 series and a 466 series.

Shelton Bail Bonds, The Sporting Four, coasted to an easy win over Busy Needle three games to none. Floyd (timber tilting) Lawrence had another good night as he whaled the maple to top the League with a 243 high high game and a 611 high series. Kat Porter bowled well topping the women with a 171 high game and a 475 high series.

In the Sunset Bowling League, Roberson Motel rolls on to hold the top spot. They blasted the wood Friday night for a three game total of 2835 series and downed hustling Garretts Sports three games to none. This is really bowling and the best this house has seen for many a moon. Every player boasted of a better than a 500 series. A few to mention Larry Lawrence, 230 high game and a 594 series. Al Griffin, 204 and a 591 series. John Millon, 225 and a 578 series.

Personal Linen rocked the timber to blank Empire Furniture three games to none. Arthur Harold racked up the stuff for a 217 game and a 594 series. Chester Jacobs had a 504 series.

The staggering Rogers Credit defeated Benjamin's Cleaners two games to one. Milton Pope shot a 223 game and a 562 series.

The Los Angeles Senate of the National Bowling Association announces its first Annual Bowling Tournament February 3 and 4, Saturday and Sunday at the Harlem Sport Center.

Korean Children Help People's Forces

KOREA—Many young Korean lads and girls have risked their lives in occupied areas to help the Korean People's Army and the Chinese volunteers.

When Sunchun, in North Pyungan, was in enemy hands, these gallant children took part in dangerous underground activities and conducted secret reconnaisance and liaison work. They had many ways of ascertaining the movement of enemy troops and of passing information on to the Korean People's Army in the vicinity.

One of the youngsters secretly followed a group of enemy troops and discovered where they were holding a Korean patriot as a captive. He waited until the enemy went away and freed the prisoner.

When Sunchun was liberated, the young folk there supplied the Korean People's Army with valuable information which led to the discovery of motor vehicles, ammunition, weapons and stray enemy soldiers. In addition, the children collected more than 100,000 kilometers of telephone wire abandoned by the enemy and turned it over to the People's Forces.

TOKYO—The Japanese liaison office for the World Federation of Trade Unions (WFTU) and 10 national trade unions have issued a statement expressing their strong protest against the French government's order to close the WFTU headquarters in Paris.

The statement says that the step proves the growing strength of the WFTU and the nature of the warmongers. It says: "We firmly believe no steps can destroy the WFTU. The Japanese workers united under the WFTU banner will fight on courageously against war, rearmament and a separate peace."

Phillips 66'ers Meet McGees Feb. 11

The Phillips 66'ers, National A.A.U. champions, and the Fibber McGee and Molly basketball teams will clash at the Pan Pacific Sunday night, Feb. 11 as a special feature of the annual Silver Skates Derby.

It will mark the only appearance of the year of the great Phillips basketball squad in Southern California.

Championship skaters, who learned their art on indoor rinks, will be seen in action that night. It will be the fifth annual Silver Skates Derby and the entry list is one of the largest and best in the history of the event that has produced so many national champions.

Emanuel Babayan, of Pasadena will be the defending champion in the open mile race. He holds the national indoor records for three-quarters of a mile and also the mile. Despite that distinction he will have to smash his own marks to defeat Bill Disney of Los Angeles who has been doing some phenomenal skating.

Preliminary skating events will be held at the Pan Pacific at 7 o'clock with the basket ball game getting under way at 8 p.m. Headed by seven foot Bob Curland the Philips team won the championships last year and are favorites to repeat. No other team in basketball can boast of the phenomenal marks set up by that squad.

Finals of the Silver Skates Derby will be held at the end of the basketball contest. The wooden court will be placed on the largest sheet of indoor ice in the world and the skaters will race around the basketball island.

Tickets for the sports carnival are on sale at the Pan Pacific.

Jeff High Drills For Atomic Bomb

Jefferson High School has begun atomic bomb drills in all classrooms following a city wide directive from the Los Angeles City Schools Defense Director Dr. Jack Abbott. The drills are not to be interpreted as indications of a threat of immediate attack, but as a precautionary measure in line with the civil defense program of the state. Following are the instructions regarding the drill:

A. If **inside** the school building the pupil should:

1. Drop to his knees with back to the windows. Knees together.
2. Fold arms on the floor close to the knees.
3. Bury face in arms. Close eyes tightly.
4. Stay there 10 seconds.
5. At the close of the 10-second period, follow the next instructions without question and immediately.

a. This instruction may come from any adult and its nature will depend upon circumstances and the extent of damage to buildings.

B. If **outside** the school building the pupil should:

1. If any protection is within a step or two, crouch or lie down behind building, yard bench, curb, or in gutter.
2. If in the open, drop to the ground, curl up with back to the blast.
3. Stay there 10 seconds.
4. At the close of the 10-second period, follow the next instructions without question and immediately.

a. This instruction may come from any adult and its nature will depend upon circumstances and the extent of damage to buildings.

The drill should be conducted by each individual teacher and care must be taken to explain carefully to students that the purpose of this drill is to provide maximum protection in case of a surprise attack and that no advance signal will be given. The teacher should instruct pupils carefully as to the quickest and safetest manner to achieve the desired protective position.

Throughout the district teachers will use the one word **DROP** to indicate the beginning of the drill for their classes. Again, it should be explained that this word is used only because **no** realistic device is available. In the case of an actual surprise attack, **the only evidence will be an extremely intense flash of light.** In such a case ,the teacher should shout the word DROP while protecting herself.

RALPH EDWARDS, seated, received thanks from Margaret Hopkins for starting fund raising campaign for heart research. Standing from left to right: Madeline Feeney and Carroll Ray King. The Los Angeles Heart Association is raising $250,000 to carry on research and education.

Puerto Rican Prisons

SAN JUAN—Inhuman conditions prevailing in Puerto Rican prisons caused an inmates' revolt on Saturday in the Rio Piedras penitentiary, the largest of the island. National guardsmen rushed into the prison yard and opened fire against the prisoners, wounding several of them. The penitentiary's cafeteria, warehouse and pharmacy were destroyed by a fire started by the revolting inmates.

Conditions in all Puerto Rican jails and especially in the Rio Peidras penitentiary have caused a storm of criticism against the government in the last few months. Last October 112 prisoners escaped from the Rio Piedras penitentiary and were savagely tortured after recapture.

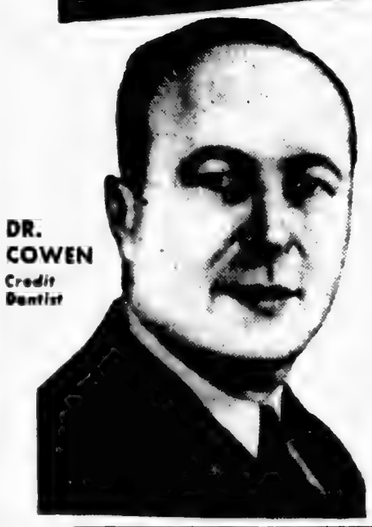
Arab League Supports U.S.

WASHINGTON—Azzam Pasha General Secretary of the Arab League, has assured President Truman and Secretary of State Dean Acheson of his full support to American policy in the Middle East. This reassurance, Telepress learns from well-informed sources here, was given at Azzam Pasha's meeting with Truman and Acheson at the end of December.

The three discussed all issues concerning the political situation in the Middle East. Truman and Acheson primarily wanted to hear Azzam Pasha's opinion on why some Arab countries are hesitating to accept American assistance and what measures should be taken to overcome this attitude.



Azzam Pasha expressed the opinion that British and French intrigues are the main reason for the Arab countries "hesitation." These two powers, he said, "are sowing seeds of suspicion" to discredit the activities and plans of other countries."

Azzam Pasha advised Truman and Acheson to devote increased attention to the activities of the Hashimites who, he said, are supporting Britain and spreading confusion far beyond the borders of Iraq and Jordan, the countries which they control. It was Azzam Pasha's belief that it was there that all conflicts and dissension between the Arab countries originate.

New Title

Seems like we can't get to spring this new face for the for the column we have been contemplating, but we thought we would announce that we would like to get in touch with Lucy Dunn, Publicity Chairman of the Wadsworth P.T.A. for submitting "WINI'S O'ERHEARINGS" as that to us and our judges, seemed the right title for our scribblings. Sort of a combo of our name and our business. Just as soon as the office settles down and we know just what we are going to do, we intend to put on the new face and adopt it as our tag. So please Miss Dunn send us a way to reach you, and perhaps we can find out what your preference is for a reward, by the way of our saying "Thank You" for the interest. Thanks to the other contestants, also IT'S THIRTY for now—REMEMBER THE MARCH OF DIMES IS NOT OVER. SO DON'T LET UP ON YOUR GIVING

A Circle In The Social Square

By Mr. Roundhead

Well, well, well, guess who's back?

Whose? mine, of course.

But as Tony Sheen once said, "so what?"

Then again, others have said the same thing. For instance all the girls who were asked to knit socks for their boy friends for the coming Alpha "sock hop" said in very loud voices, "SEW WHAT?"

Of course, my girl friend is very cooperative. She gives me socks every now and then.

Once Clayton Moore had a pair of socks. But one day out on the golf links he got a hole in one so now he wears shoes.

SCOOP OF THE WEEK

Fay Hill and Hayward Thompson have set the date. They are to be united on May 12. Fay made the announcement Sunday at a luncheon at her house. But Hayward didn't pass out any candy, in fact, he didn't even pass out. Brave man, that boy.

BROOP OF THE WEEK

His initials are B.O. and he offended a very good friend of his last week. She has been trying to catch up with him for quite a long time. Her initials are M.U.M. . . . I wonder if M.U.M. and B.O. will ever get together.

SCRAMBLED HASH PLEASE

Lorraine Norment, who gave a little shindig the other p.m. on the hill, says that an even finer one will be given by her club, The Blazons, Saturday night at the Omega house. It's one of those pre-Valentine deals. My heart is sweet, so look for me there. I have a round head.

Julius Boyd has one, too. But his is prettier than mine. At least that's what Ruby McClendon says.

THREE REASONS why the Alpha Phi Alpha Collegiate dance will be a success are shown above with Howard Willis who is telling the girls a few of the details about the event to be given on Sunday, Feb. 18. From left to right are Howard Willis, kneeling, Gloria Taylor, Donzella Coulter and Cozetta Eubanks.

JOTTINGS FROM A NEWSGAL'S SCRATCH PAD:

Was more than shocking news in getting the report of the death of Eddie Hartman, known to soooo many as "Stumpy" of the terrific comedy dance team "Stump and Stumpy." . . . STOP, LOOK AND READ! There is a wonderful opportunity awaiting for a young, interested and talented fella that has any comedy talent, or that is able to read lines.

One of the city's noted band leaders is packaging a swelluva TV show. Remember, if you think you're on the ball with comedy antics, then call DU. 4-6983 and tell them this columnist referred you, nuff said. . . . Odessa Calloway, the 25-year-old amateur golfer, is "ONLY" suing Joe Louis for $100,000 damages, claiming she was struck in a "brutal" manner in Cleveland's Majestic Hotel. . . . Leonard Reed to head the TV and radio department of the Ben Waller Enterprises.

Tallula Bankhead in town with "The Big Show" for a beeeg TV deal . . . Ha! when Jimmy Witherspoon chirps "Ain't Nothin' Finer Than a Careless Love Affair" reminds us to tellya that there ain't nothin' finer than the newly decorated and enlarged Club Oasis, where congenial Joe Abrahams and Bill Robinson hold forth as proprietors.

BVA's reeel happy over their recent Barn Dance and Ruth Mills, president of the large organization, wants to thank all of their many friends. . . . Juanita Hall, who does the terrific role of "Bloody Mary" in "South Pacific" will return to the cast after her recuperation period from a major throat operation. . . . The death of War Perkins, the Angel City's first Negro disc jockey, who died this week in Honolulu.

Sure hated missing the wonderful Press Party at the new nitery, "Silver Frolic," but with our chum Wini covering for us we knew it was safe. Wini tells us that Herb Pines, owner of the spot, served nothing but IMPORTED champagne and the best of fried chicken. . . . Monette Moore, glamoring the place, comes out with ooooh! soooo many changes, emcees the show.

Johnny Burton has you drooling all over the place with his terrific tonsil tickling and amazing acts. All-girl combo provides the kinda music that makes you wanta jump whether you're a bug or not. . . . Aha, handsome Larry White says "a sweater worn on shapely Melba Fouppe always looks as though the opportunity is so much appreciated." . . . Duke Ellington Concert tomorrow night at the Shrine anxiously awaited by the thousands of fans of the Duke. . . . Robert Bruen, the latest to be added to the new super record stor of Dolphins. Again it's "two to one" here that Dolphin gives out with even two radio shows with two disc jockeys. Now what else will the fella dig up?

NOTES, NEWS AND NONSENSE:

Sarah Vaughn will no doubt be the next among the other name artists that will invade Europe this spring. . . . Wendell Franklin having soooo much company these days, hardly has time for anything and that's rather unusual, donya think? . . . Bob Phillips suave personality heading Gale attractions. . . . Folks raving over the new Hi Hat Grill with Rose of New York in charge.

Rose is widely known in New York, owning a place of business directly across the street from New York's famed Waldorf-Astoria. Rose and her hubby are really making a business name for themselves here on the coast. . . . On the infant-ticipating list Dorothy Redd Cloud, also Bertha Lamb. . . . Larry Darnell due on the coast very shortly. . . . I understand that the only person to pull Edward Mouton out of that daze he's in is pert and pretty Pat Lane.

Mary Bran presents Joseph Rickard in first Negro Classic Ballet at the Philharmonic Saturday, February 24. . . . Amanda Randolph getting all kinda raves from members of the press for her original style of entertaining. . . . Dinah Washington to do a short for RKO when she hits the coast this summer.

SUDDEN THAWT: A man who saves for a rainy day gets a lot of bad weather reports from his relatives. . . . Officier Scott and the Missus ringsiding at the Mocambo and enjoying the mellow vocalin' of Billy Eckstine. And speaking of Mr. B., his latest waxing of "IF" a mood creator. . . . Our visit to the Johnson Bath House as usual left us feeling like a million when Maude finished that wonderful massage. Nothing like it for that "pickup."

Enjoyed the celebration Tuesday night over at the Nat Cole's manse where friends of the Coles came over to celebrate the first birthday of their one-year-old "Nathalie" affectionately called Sweetie. Though Sweetie was tucked away fast asleep, Mom Maria and Pop Nat had a few of their close friends over for wonderful food and drinks.

Chatted with lovely Jerry Nicholas, Dr. and Mrs. David Daniels, Leonlyne and Celtus King, Rev. and Mrs. Clayton Russell, Charity White, Harriet Wadely, Marion Ford, who is expecting her little angel in just a few weeks, Carlos Gastel, manager of the King Cole Trio, Charlette Charity, charming sis of Mario who has added a bit of color to her locks and gee, we could go on and on but space just won't permit, sooo let's just say that the rumpus room of the Coles was jumping until the wee hours of the morn.

Looks like that time again which brings us to a closing thought for the week with special attention for the ladies, "No lady can e'er again be modest with her upper stratum for the simple reason that the merchandisers have robbed her of her mystery to the point where the boozum is as much a part of the daily reading life as the weather report.

MAX BAER VS. CARNERA AGAIN

Max Baer's recent announcement that he will return to the again, this time as a grunt and groaner, proves that he is a rt man. He knows where the money is.

If you don't believe it, look at the crowds that fill the Olympic Wednesdays for wrestling and leave it practically empty for ts on Tuesday nights.

Art Lewis

Baer is 42 years old and has never wrestled before. Even so, his contract calls for a 26-week tour and the nice little sum of $100,000.

One of his early opponents will be the big Italian, Primo Carnera, from whom he won the heavyweight boxing title in 1934. Carnera, who has been doing pretty well in the wrestling ring himself, was almost broke when he quit boxing, but now is in the chips.

Since it seems to be the fad for boxers to go into wrestling, look for Joe Louis to go into it the next time he "retires." He'll still need the money.

Want to Lose Weight?

Fifty-nine-year-old Harry Wills, former "Brown ther" of the ring begins another of his annual fasts next Satur- in New York. Weighing at present 245 pounds, he plans to about forty of them in the next thirty days. His method? e simple . . . he merely quits eating. All he does is drink er

Since he does this every year, I wonder what he eats during other eleven months to get himself up to 245 pounds.

Joe Louis, who once weighed 225 pounds, got his weight down 08 pounds for his fight last night with Omelio Agramonte ily doing four or five miles of road work, 15 minutes of calis- ics and playing ping pong. He did this in addition to his lar gym work. His diet consisted of a little more than water, ever, but those stacks of pork chops and potatoes for breakfast e made a thing of the past.

So those of you interested in losing weight have two choices, king water or doing hard road work. Me? I'll stick to ping g.

How About Aragon, Ike?

Ike Williams, who has not defended his world's lightweight n since December of 1948 when he outpointed Freddie Dawson, surely lose it if he doesn't come to an agreement with some- very soon. John L. Davis, the most logical contender, won't e to terms as long as Ike's managers insist on 10% of his re earnings should he be victorious. And why he hasn't signed eet Art Aragon here in L.A. is still a mystery. He was offered 00 or 40% of the gate. The fight has been mentioned for March ut as yet there are no signatures.

Williams has defended the title only five times since 1947, if he doesn't put it on the block soon, the NBA will remove om him. Personally, we'd like to see someone else have the nce at wearing the crown; yes, even Art Aragon.

A fighting champ is the best champ. And Aragon has had fights in seven years, an average of better than one every months. Last year, he had ten fights. His next fight will be 20 at the Olympic with the newest of the Latin favorites, El scripto. After that, maybe it'll be Ike Williams

But for Williams, if not Aragon, it had better be someone, but

Globetrotters Might Replace PCC in the Rose Bowl

As a recent visitor form Chicago told me last week, the story g around the east is that the Pacific Coast Conference can't the Big Ten because we live such easy lives out here.

Maybe that's why the PCC moguls want to get out of the Rose l. Life is getting easier for them all the time.

The Harlem Globetrotters are scheduled to play a game in the owl in April . . . but it's only basketball. Too bad. Otherwise, PCC might have tried to get them in the Conference. They've 98 straight games this season and will probably continue winning ways out in Pasadena.

The Trotters are to meet the College All-Stars on April 9th portable floor that will be placed in the south end of the Bowl. A crowd of record breaking proportions will be expected.

Motta Plans To Use His ecret Weapon' On Sugar Ray

EW YORK—"Sugar Ray nev- much as blackened a La ta eye," boasted Jake, the dleweight champion who de- his title in an all impor- bout against the world's erweight champ February Valentine's Day. And there nothing but love in LaMot- eyes as he said it. "Believe he continued "I hurt him rty and he knows it. I hurt in the body here—" Jake ted to his kidney—"and he it for days afterwards."

Thether Robinson ever had lotta in a bad place was a y question to LaMotta. Fun- he felt insulted "You know er than that," he sneered. body ever had me down, not in training."

aMotta says Robinson beat him in only two fights, both in New York, out of five. But he had Robinson "on the deck" all the time. "Once the bell saved him and he had to be dragged to his corner. Another time I had him out on his feet against the ropes but didn't know enough to finish him."

His secret weapon, Jake confesses, is his special diet which has taken "years and years of study" to compile. "Nothing makes weight but food. If you know your mathematics then you know that if you put in a little less than the body consumes you're bound to lose weight." He believes his theory on dieting will beat Sugar Ray's "sugar" diet any day. On February 14 we'll see!

On The Turf

By GEORGE A. RAMSEY

SANTA ANITA—Great Circle, who was bred in California and foaled in Kentucky, was sold for $16,500 as a two-year-old in the L. B. Mayer sales, picked up

GEO. A. RAMSEY

$144,305 in winning the Maturity last Saturday.

The richest race in the world, this brought the bargain colt's all-time winnings to $248,895, not a bad investment. Although Bed o' Roses had moved up to Great Circle at the head of the stretch and looked an easy winner, then she faltered badly and only inherent gameness enabled her to save third place.

Bed o' Roses was moving strongly when her leg gave way and pulled up lame. Like a great race horse she showed her gameness. Jockey Wee Willie Shoemaker gave Great Circle a perfectly-gauged ride. As a mild outsider he paid $21.70.

This Saturday, beautiful Santa Anita will offer as the feature event the Santa Susana Stakes for filly three-year-olds at seven furlongs and it carries an added value of $50,000. Some of the best fillies in training will go postward for the rich stake.

CALIENTE, Old Mexico—With jockey Wee Willie Shoemaker as guest of Caliente with his very pretty wife, the management presented him with a pocketbook and engraved plaque. Jockey Shoemaker, as you may know, tied Walter Miller's world record of 388 winners last year. More than 6,500 lovers of the sport of kings gave him a big hand when he was presented by the popular Judge George Shilling, presiding stewart of New Caliente.

The feature event was won by the good three-year-old colt, Sir Jay, who proved that he is about the best on the grounds. He has won two out of four starts. The secondary was won by the former stake horse, War Allies, paying in the mutuels $6.80.

The daily double combination of No Apology, winner of the second race, and Golstreworth, victor of the third, paid its lucky holders $255.60, while the quinela backers of War Allies and Gala Sue, who finished in that order, received $47.60.

Form players had a bad day but well-played second and third choices scored handily. This Sunday, General Manager Walter C. Marty has arranged another fine card of 12 races with three features.

The main event will be "The Lincoln" at one mile. Secondary, "The Emancipation" six furlongs, third "The Rushaway" one mile and one-half.

Ponder now rules as favorite in the future book for the Santa Anita Handicap. Great Circle was cut to 8to 1. Coaltown remains at 4 to 1. Micheo, Gailwest, Boomerang Boy and Wonder Why II are 500 to 1. Perilant is 1000 to 1.

Texas College Wallops Sam Huston

TYLER, Texas—The Texas College Steers continued their drive for second place in the Southwest Conference basketball title chase by walloping the Sam Huston Dragons in both games of the mportant series here, 81-63 and 73-52.

At this writing the Southwest Conference seems to be girding itself for one of the toughest stretch drives in history for the cage title. Arkansas is leading the pack undefeated but the Lions still must meet Southern, Bishop and Langston on successive week-ends, to say nothing of taking on the unpredictable Prairie View Panthers at Prairie View. Bob Lee's Southern Jaguars are in second place with only one loss, closely followed by Texas College, Bishop and Langston, who have each lost two conference tilts.

Trojans Meet Stanford At Pan Pacific

With All-American candidate Bob Kolf leading a determined defense, SC's keenly effective basketball team risks its Southern Division PCC lead against Stanford this weekend.

Games will be played at 8:30 Friday and Saturday nights at the Pan-Pacific auditorium.

The Trojans will try for their third six-game winning streak of the season by going for a double victory over the Indians, tied with UCLA for second place in the divisional race.

By out-defensing Santa Clara and USF last weekend at the San Francisco Cow Palace, SC ran its current win streak to four straight.

Kolf and running mate Tom Riach spearhead a Trojan defense that has held the opposition to less than 50 points a game—the best record in the West.

Forwards Bruce Bennett and Bob Morton have taken over the major role in Troy's offense. Center Jerry Pease, with 163 points, is still seasonal high scorer.

By soaring to 16 wins in 18 games, Coach Forrest Twogood's basketballers have qualified as the highest ranked team in the West.

Stanford's brilliant offense, a definite challenge to the Trojan defense, is geared to the sensational scoring of Forward Ed Tucker, transfer from Compton College.

Also, top hands in Coach Everett Dean's attack are veteran Guard Jim Walsh and Center Jim Ramstead, who helped break an SC winning string over Stanford that extended to 11 straight last season.

Other key men in the Indian camp are Forward Jack O'Sullivan and Guard Bruce Iverson.

With six road games following this week's final home stand, SC needs a pair of victories to keep championship hopes alive. UCLA's Bruins, pre-season favorites to win their third title in a row, wind up with a half dozen home games.

The Trobabes play SC's jayvees and East LAJC in preliminary games at 6:30.

Some 30 car-driver teams are expected to vie for big purse, with 50-lap feature topping races.

Herman Faces Lopez At Olympic Tuesday

Freddie Herman, who has lost his last three starts by very close margins, will meet Joe Lopez of Sacramento next Tuesday in the main event at the Olympic Auditorium.

Herman, it will be remembered, is the lad who almost upset John L. Davis last December. He repeatedly had Davis on the verge of going down in the first three rounds, only to tire in the later rounds and lose by a decision.

Lopez holds wins over Chief Archie Whitewater, Rudy Cruz and Bobby Why.

EMANUEL BABAYAN of Pasadena will be the defending champion in the open mile race of the annual Silver Skates speed skating races at the Pan Pacific Sunday night, Feb. 11. The famed Phillips 66'ers will clash with the Fibber McGee and Molly basketball team the same evening.

Bears and Bruins to Tangle February 9, 10 in Cal Gym

LOS ANGELES, Calif.—Nibs Price's University of California basketball team will seek its first victory over a UCLA quintet coached by Johnny Wooden when the Bears and Bruins tangle in resumption of Pacific Coast Conference Southern Division play Friday and Saturday (Feb. 9-10) in the Cal gym.

On the heels of impressive 76-55 and 75-60 victories over Santa Barbara and Pepperdine Colleges last weekend Wooden's "firehouse five" will probably rule slight favorites.

The Bruins have won their last eight contests over California in driving to division championships the last two seasons. The last Bear win a 41-37 thriller to clinch the title on Feb. 27, 1948.

USC's Trojans currently hold down first place in the Southern Divisios with three wins and one loss on the slate. UCLA and Stanford are tied to one game back while Cal has one win in four starts.

Dick Ridgway, the Bruins' sensational sophomore who is now becoming a threat for All-America honors, continued to stretch his record as the highest scoring sophomore in UCLA history by ringing up 34 points against Santa Barbara and Pepperdine, 25 against the latter.

His 285-point total for 18 games gives him 15.8 average per contest. His percentage from the floor is a flossy .394 but still not tops for the Uclans, Captain Eddie Sheldrake, last year's "Little All-America" guard, leads his team mates with .443. The team percentage is .385, one of the highest in the country.

Although Ridgeway will be protecting his narrow divisional scoring lead against Stanford's Ed Tucker the Bears will have to keep their eyes on several other "hot" Bruin scorers. Other high-percentage artists at hitting the hoo pare guard Don Johnson with .441, forward Jerry Norman with .426 and center Gene Williams, the former Cal freshman performer, with .382.

Last weekend marked the return to action of Norman, who was suspended from the squad recently for his erratic practice performances. He saw little action in the two games, however, and rang up only eight points. He now stands third with 181 points behind Johnson's 201.

UCLA's probable travel squad for the northern trip follows: FORWARDS—Jerry Evans, Gene Logan, John Matulich, Jerry Norman and Dick Ridgway; CENTERS—Grover Luchsinger, Dick Thompson and Gene Williams; GUARDS—Art Alper, Fred Holzer, Don Johnson, Barry Porter, Bob Pounds, Captain Eddie Sheldrake and Andy Thomas.

Starters for the two contests will probably be Ridgway and Sheldrake at forwards; Luchsinger, center; and Sheldrake and Alper, guards. With Norman in the line-up Sheldrake usually moves back to his old guard position.

Inside Story Of Manhattan Col. Basketball Fix Attempt Revealed

NEW YORK (Special) — The high integrity of a Manhattan College basketball star and prompt action by the college and police authorities have exposed what is called the latest attempted "fix" of games at Madison Square Garden. The scandal has renewed the cry to return the game to the more wholesome atmosphere of the campuses.

Hero of the story is Junius Kellogg, 23, a Negro sophomore from Portsmouth, Va., former GI and Manhattan's leading scorer. Others in the cast of the story that runs like a movie are Henry E. Poppe and John A. Byrnes, co-captains of last year's Manhattan squad, and three men accused of being members of a gambling ring. All are under charges of conspiracy and bribery.

The latest episode of the "annual" scandals in Garden basketball, according to Assistant Dist. Atty. Edward F. Breslin, started when Poppe called on Kellogg in his dormitory some days before the recent game with De Paul and offered him $1,000 to "throw" the contest. The Virginian ordered Poppe to get out of his room.

Gives Coach Information

Kellogg said he debated with himself during the night about what was best to do and in the morning told his coach, Kenneth Norton, of the incident. The college advisory committee on athletics immediately swung into action and notified police authorities who decided that Kellogg should pretend to go along with the "fix."

When the expected call came from Poppe several nights later, it was said, college officials, Prosecutor Breslin and police were already keeping vigil. This time young Kellogg acted as if the money bait had worked while he talked to Poppe, who told him the technique for "tossing the game as well as the ball."

Kellogg was to be told by Poppe the final point spread desired by the gamblers just before the game with De Paul, it is charged. Poppe even appeared briefly on the Manhattan bench before play started and while Coach Norton was in the dressing room. Poppe later was arrested at his home and the other arrests followed.

Poppe and Byrnes were accused by the police of taking bribes of $5,000 each to "throw" three games last season—Manhattan's games with Siena College of Loudonville, N. Y., Santa Clara of California, and Bradley University, Peoria, Ill.

President Commends Kellogg

Brother Bonaventure Thomas, F.S.C., Manhattan president, commented on the scandal: "Manhattan College has co-operated completely with the police and the district attorney's office and will continue to render every possible service in reference to this unfortunate incident. I share with the advisory committee and our faculty the shock of the news that our athletes should be approached in a manner so dishonorable in connection with the spirit of integrity and fair play for which we stand.

"I wish to commend particularly Junius Kellogg for his personal integrity."

'I'm Willing To Race Thompson Anytime,' Says Sam Jethroe

NEW YORK — There are two sides to every story—especially involving $1,000 a loser must put up, and Sam Jethroe, the Boston Brave fleet outfielder, disagrees with manager Leo Durocher on the $1,000 and the whole incident in general. It all started like this: Leo Durocher had opened his big mouth and yelled "Nobody in a baseball uniform can beat Bobby Thomson running. I'll back my outfielder against any other player to the tune of $1,000—the loser paying that sum to charity." Durocher says Jethroe backed out of the match race (which happened last season). But Jethroe has a different story.

"I am willing to race Thomson any time or any place. And I was ready to race him then too," says Jethroe. "What's more, I'm pretty sure I'll win."

But according to Durocher—Jethroe begged off the first time with the regrets that he had a bad heel. Jethroe says "that part's true. Sure, I had a sore foot but I was ready to go anyway."

Began at Polo Grounds

The whole thing started in the Polo Grounds. Jethroe says he had stopped into the Giant clubhouse to say hello to Hank Thomson. Some Boston writers noticed him and one said this would be a good time to settle an argument over who was the faster, Bobby Thomson or Jethroe. Durocher immediately said he was willing. But both Jethroe and Thomson said such a race might help at the box office and felt each were entitled to $1,000 regardless of the winner. However, the Giants didn't go for the deal. They offered each $500. So they forgot it.

Jethroe, who stole 35 bases last season to lead both major leagues in that forgotten department, respects Thomson's ability to pick 'em up and lay 'em down. But, "one thing I want to get straight," he insists, "I'm not afraid of running against anyone. I can't see how Durocher figured I backed out."

So the Braves and the Giants continue at war. The Giants boosting Thomson, the Braves boosting Jethroe. And no one's done anything about the $1,000.

ELA Hopes To End Losing Streak Soon

Coach Dave Taylor's East Los Angeles J.C. basketballers, despite dropping their twelfth and thirteenth games in succession last week, see a bright spot in the schedule this week. After bowing to Pasadena City College, 60-51, in a hard-fought game last Wednesday and being flattened, 90-36, by the UCLA frosh on Friday, the Green and Whiters feel that they may be able to end the string of defeats when they meet L. A. Valley's Monarchs on the Garfield floor tonight.

Churches Condemn. Segregation

RACE CONDITIONS IN U. S. A.

NEW YORK—"How indifferent to race problems can we remain and still be on the safe side of sin?" was a question put, by a priest, to members of the New York Province of Catholic Newman Clubs at their 32nd annual meeting here. Attending the convention were delegates from 41 clubs representing 40,000 Catholic students of secular colleges.

Interracial justice, an aspect of the current Newman Club theme of "Courageous Catholicism," was the subject of a panel discussion conducted by the Flying Trio. The group consists of: Father Joseph F. Cantillon, S. J., librarian of St. Peter's College, Jersey City; Archibald F. Glover, Brooklyn civil engineer; and Julian J. Reiss, white business man of Lake Placid, N. Y., who pilots the plane in which the three Catholic educators travel.

Segregation effects from the Negro's viewpoint were discussed by Mr. Glover who recommended the reading of Negro newspapers. "Few know what the Negro thinks," he declared.

"Catholic schools should teach that segregation is a sin," Dr. Reiss said.

Concentration on Northern segregation problems was recommended by the priest when Southern problems were mentioned. "Look to your own backyard," he advised, saying: "This is a cesspool of American life. And it stinks."

CATHOLICS OF SOUTH

COLUMBIA, S. C.—Assailing segregation, the Catholic Committee of the South last week went on record for the "ultimate integregation" of both races "in the religious, economic and cultural life of the nation."

The resolution was adopted at the final business session of the three-day convention called for provisions for "all, regardless of race, color or language," to enjoy their rights and privileges as "creatures made to the image and likeness of God."

Monday afternoon there was a closed meeting of the archbishops, bishops, abbots and almost 200 priests—a meeting devoted to social problems generally. But as the clergy got down to hitting the nail on the head in frank discussion of the South's problems of all kinds it was evident that all minds were on means of bringing about racial understanding, justice and integration.

METHODISTS

HOUSTON, Texas — Segregation within their denomination was denounced as "un-Christian and a betrayal of our faith" by 168 leaders of the church from across the nation in the closing session of the institute for city pastors held here this week (January 30-February 2).

Although the meeting was held for the purpose of discussing the problems of the city church and how to solve them in the light of modern social conditions, discussion of the age-old question of segregation stole the show in the last hour of the conference.

Among those setting the stage for the unanimous resolution calling on the church to abolish all segregation within its ranks were: the Revs. D. L. Ridout, Dover, Delaware; L. S. Moore, Philadelphia; L. V. Winfield, Houston; R. S. Mosby, Dallas, K. L. Jackson and J. O. Williams, Baltimore, and Mrs. David oJrdan, Louisville. Dr. Love stated that, to offset the charges that Negro leaders favored a segregated arrangement in the church, he had given a statement, over his signature, declaring his stand against all forms of discrimination and separation on the basis of color, within the church.

The conference committee on resolutions, headed by Dr. Leon S. Moore, Philadelphia, was ordered to prepare a memorial to the 1952 General Conference, to meet in San Francisco, requesting abandonment of the Central Jurisdiction and the outlawing of segregation in the church.

Sessions were held in Sloan Memorial Church, the Rev. J. S. Stripling, pastor, with Trinity East Church, the Rev. L. B. Felder, pastor, serving as hosts.

Trinity Baptist Burns $10,000 Mortgage, Sun.

Trinity Baptist Church, 3421 S. Cimarron, will burn its second mortgage of $10,000 this Sunday night at 7:30 p.m., according to a statement made by the pastor, Dr. Jonathan L. Caston.

This special service was made possible by the church membership and friends when the fifty clubs assigned $100.00 quotas exceeded their goal last Sunday.

Dr. Ralph Mayberry, Executive Secretary of the Los Angeles Baptist City Missionary Society, gave the message of the morning and the pastor dismissed all who were not interested in the reports to be made by the leaders. From the beginning it was apparent that the goal would be reached. This week the church mailed its check to the Myer Brothers Construction Co. completely wiping out its indebtness on this second mortgage.

Trinity now has assets in real property over the $150,000 mark and owes approximately $30,000. The pastor and officers wish to express their thanks to all who have helped in any way to make this success possible.

Christian Science Text

The practical benefits which accrue from gaining a spiritual concept of God are pointed out in the Sunday Lesson-Sermon on "Spirit" in all Christian Science churches.

This declaration from Ezekiel (39:29) is the Golden Text: "I have poured out my spirit upon the house of Israel, saith the Lord God."

In Revelation it is recorded: "And I heard a great voice out of heaven saying, Behold, the tabernacle of God is with men . . . And God shall wipe away all tears from their eyes; and there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain: for the former things are passed away" (21:3, 4).

In "Science and Health with Key to the Scriptures" Mary Baker Eddy gives this comforting assurance: "Take heart, dear sufferer, for this reality of being will surely appear sometime and in some way. There will be no more pain, and all tears shall be wiped away. When you read this, remember Jesus' words, 'The kingdom of God is within you.' This spiritual consciousness is therefore a present possibility" (p. 573).

Louise Beavers Guest Star of Jordan High P.T.A. Group

Louise Beavers, star of stage nd screen, has accepted an in- tation to deliver the dramatic arration titled "Pages From Jor- an's Picture Album" to be pre- ented as part of the Jordan igh School P.T.A. Founder's Day rogram in the school auditor- ium at 2:30 p.m. on February 13.

The presentation of Jordan's P.T.A. past presidents, of whom there have been eight since the chapter founding in 1937, will precede the main address of the afternoon which will be delivered by Mrs. Gertrude Rounsavelle, member of the Board of Educa- tion and state past president of the P.T.A.

The program has taken on the aspects of a combined Founder's Day celebration and reunion since the notification to Mr. Faus- tinia Johnson, program chairman, that many past officials of the school and the P.T.A. are plan- ning to attend.

Mr. Walker Brown, principal of the high school from 1937 to 1940, Miss Neddie Bennett, who was his vice-principal, Miss Mary Frick and the principals of all of Jordan's contributing elementary schools are expected to attend.

Of special interest to many Watts citizens will be the pres- ence of Lizzie Wetmore, oldest of Jordan's P.T.A. founders, who is also slated to deliver an in- spirational reading on the after- noon program.

Miss Wetmore is one of a group of four persons including Caro- line Knecht, Ione Rider (present Watts City Librarian), and Mrs. Johnson who were the first per- sons in Watts to intercede for the establishment of a P.T.A. at the high school.

In addition to the guests of the day, Mrs. Johnson has issued a special invitation to all members of the Watts community to at- tend both the P.T.A. business session and the program. Visitors need not be members of the local P.T.A. or any other organization to attend. The organization is interested in securing the attend- ance of all Watts community groups and urges friends of Watt's Spanish speaking citizens to encourage their attendance.

Members of the Jordan High School Student Body Cabinet will be on hand to greet the school's adult guests. They will assist in the program under the direction of Jordan Student Body Presi- dent, Willie D. Smith.

Mrs. Theresa Hutcherson, new- ly selected president of the P.T.A. will be presented during the busi- ness meeting.

The Founder's Day program will conclude with the cutting of the birthday cake and a "get acquainted" hour which is sched- uled for 3:45 p.m.

This will be the opportunity for the citizens of Watts to meet all of the present and past P.T.A. officials at the program, past faculty members who aided the P.T.A. formation, the principals of the elementary schools, play- ground directors of the area, ministers of Watts and their con- gregations, the public agency heads of the community and offi- cers of many Watts social clubs.

The collection bears the title "Gandhi's India" and will be on display for sev- eral weeks.

Alpha of Georgia Chapter of Alpha Kappa Delta National Honorary Sociological Fraternity, is offering two $25.00 cash awards for the best sociological paper written on "The Impact of War on Marriage and the Fam- ily." One of the awards will be given to the best paper sub- mitted by a college student and the other to the best paper re- ceived from a graduate student. The awards will be presented during the June commencement exercises.

Our present world conditions may be traced to the rejections of truth as the basis of interna- tional relations. Dr. Matthew S. Davage, noted Methodist church- man and educator of Nashville, Tennessee, told a large audience of students and faculty members representing the six Atlanta Ne- gro colleges.

Addressing the ninth annual University Center Convocation sponsored by Atlanta University, Morehouse College, Spelman Col- lege, Clark College, Morris Brown College and Gammon Theological Seminary, Dr. Davage offered as one of the answers for a better world that "this bewildered gen- eration needs to hear and heed the truth." He warned those in the audience of the danger of retrogression, stating that follow- ing the cycles of civilization we are now returning to the caves in that some of the nation's best engineers are working on plans for moving the population un- derground in order to survive possible attacks by air in the event of war. He urged more concern about the basis values that can come to our aid in the midst of frustration and despair and the confusion of propaganda and by the turmult of warring ideologies.

GOLDEN WEST REALTORS INSTALL OFFICERS AT WINFANDEL CLUB

A very gala occasion was the eleventh Installation Banquet of the Golden West Real Estate Board Inc. which was held at the Winfandel Club house last Wednesday evening. Long a tradition in Los Angeles, this affair is the means whereby not only brokers and salesmen get together, but leading citizens from the business and professional worlds congregate in happy fellowship.

The club house was decorated with stocks and gladioli. After invocation by Rev. Henry W. Allen, a delicious four course turkey dinner was served. One of the oldest incorporated Negro Real Estate Boards in America, it was founded some years ago by H. A. Howard, outstanding business man who saw the need for such an organization whose basic principles are integrity and solid business ethics.

Allen A. Woodard 3rd, Chairman of the Board, presented Mrs. Emily Johnson, retiring president and mistress of ceremonies. Maceo Crutcher, president of the Detroit Realty Board brought greetings. Remarks were given by representatives from the Libetry Escrow, Land Title Insurance, Orange Bldg. and Loan and the Superior Escrow Co., sponsors. Floyd C. Covington, head of the Urban League for many years and now Racial Relations Adviser of the F.H.A. made presentations of awards honoring Clarence R. Johnson, Racial Relations Officer of the P.H.A. who was called to Washington, and Mrs. Velma Grant, for her contribution in creating better housing for minority groups. She was responsible for such projects as Carver Manor and now she is working on a very fine project in San Bernardino.

Principal speaker was Councilman Ed Davenport whose interesting message and ready wit won his audience completely. Mrs. Bernice Lawson, well-known musician who is on the staff of USC, State College and also Jefferson High, had charge of the program. Young Charles Spears, one of her pupils played Minuet in G by Paderewiski like a master. Special selections were rendered by William Valentine, talented young basso and Atwater-Kent Foundation Award winner. Brief remarks were made by Mrs. Marguerite Scully, Carnation Milk executive and Gilbert Lindsay, well-known in the political world.

Edgar J. Johnson, secretary-treasurer of the Golden State Insurance Co installed the following officers: H. A. Howard, President; Clarence O. English, 1st. Vice-President; Clyde J. Broadnax, 2nd Vice-President; Lowell Steward, Secretary; Lobelia Dingee, Financial Secretary; Bernard C. Herndon, Treasurer; Emily Johnson, Parliament and Billie Lynthecom, Public Relations. Members at large on the Board are Maynard Ammons and Pauline Stokely.

Hearts and Flowers with Eye Appeal

By BETTY BARCLAY

Without a doubt, the most sentimental day in all the year is Valentine's Day—the day of "hearts and flowers." So let's set our party table accordingly, with a gay bouquet and a delicious holiday dessert that's both appealing to the eye and easy to prepare, highlighted as it is with gelatin hearts in any of the popular Valentine-red flavors—raspberry, cherry or strawberry.

St. Valentine Hearts

1 package fruit-flavored gelatin (any red flavor)
2 cups hot water
1 sheet cake

Dissolve gelatin in hot water. Pour into shallow pan to a depth of ½ inch. Chill until firm. Cut hearts from gelatin with cooky cutter or sharp knife, using paper pattern. Cut cake into oblong pieces, about 2 x 3 inches. Place gelatin on top of cake. Serve with custard sauce or whipped cream, if desired.

GAVILAN SAYS HE'LL GET WELTER TITLE

NEW YORK CITY—Certain he's in line as the next world's welterweight champion, The Keed, Mr. Gavilan, is already practicing how he'll walk and talk as The King. He figures when Robinson and LaMotta meet February 14th in Chicago, Robinson will win the middleweight championship. That leaves the welterweight title free. Gavilan hopes to claim it. Then, as Champion, Gavilan will defend the title against Charley Fusari, which is what Abe Green, the NBA Commissioner, wants, says Gavilan.

About Johnny Bratton, who used to be a Chicago terror, Gavilan isn't worried. He doesn't consider Bratton a serious contender. Meanwhile, Bratton, who wants to fight Gavilan in Chicago, sports a blue mink necktie, gift of his manager Hymie (The Mink) Wallman. Bratton came to town for the Gavilan-Young fight last week.

Five-Day Bride Wants Annulment

Because nowhere in court files last week could there be found a briefer record, the five-day marriage history of Mildred and Edmond Wiggins has topped all the suddenly ended ones of Hollywood. Through her attorney, James N. Reese, Mildred, according to the complaint, has sued her husband, Edmond, for divorce. She charges him with wilful and inexcusable desertion.

They married on January 7, the young bridegroom, a GI, standing smilingly erect in his natty new uniform. Five days later, at the end of his grudgingly permitted "leave" he returned to his outfit. He never rejoined the pretty, shapely, surprised young woman.

Hence she has charged him

Bathing Landlord Must Pay $1,200

A bathing landlord who regularly appropriated the use of his tenant's tub found he left a ring of evidence which cost him treble damages of $1,208.70 plus costs for collecting over ceiling rents.

The landlord, Lewis Newton, 177½ East 45th Street, spurned the offer of Stephen D. Monahan, trial attorney for the Office of the Housing Expediter, to settle the case moments before the trial began before Federal Judge Harry C. The mother is 25-year-old Mrs. Cecilia Sanders and the baby is tiny toddler Carla Sanders. The father is 32-year-old Eugene Sanders, a brick-mason.

The only word the mother has had about the tot came on Jan. 7, when the father told the mother over the telephone that she could have her baby back if she would come away from the home of her grandparents and move with him from the city. Also in this conversation he told the mother that Carla had been ill with pneumonia and that

Husband Says Ex-Chorine Is Cruel

The hectic-two year marriage of pretty Ethel Sissle Gordon and well-known Attorney Walter L. Gordon Jr., hit the rocks this week as Gordon filed for a divorce from his wife, charging cruelty.

The couple, whose romance and subsequent marriage shook the base of Los Angeles society not more than two years ago and separated two families, has been feuding and fighting for nearly a year. According to Gordon who issued a statement concerning the marital rift, "the crackup was due entirely to emotional disturbances that have been prevailing for the past year."

Mrs. Gordon, former chorine, and active in social circles, is the former wife of Noble Sissle, (noted bandleader for a score of years) and is the mother of two children, a boy and a girl ranging in ages from 9 to 11 years. Gordon, too, was formerly married to Mrs. Ann Gordon of Texas. To this union was born three children, a set of twins, a boy and girl and another son.

The emotional crisis precipitated into the rift one day last

BITTER BATTLE OVER $50,000 BRUCE ESTATE LOOMS

A bitter battle over an unincumbered estate totalling over $50,000 is scheduled to open here next Tuesday, Feb. 27, because the late Mrs. Willie B. Bruce, who passed at her residence, 725 E. 24th street, Jan. 15, left no will.

Sole owner, the retired registered nurse, and Los Angeles' first colored head nurse, had also left no instructions as to notifying her nearest relatives in case of emergency.

Hence national papers throughout the country, featured the unusual story that up until shortly before her burial Jan. 22, no living relatives could be found, and that her property, and valuables accumulated by self-sacrifice, and ability as a businesswoman, might go to the state. Thus seven Walter tract lots, and two Menlo tract lots with an apartment house, a bungalow court, and a ten room residence, would be merely added to the California exchecquer. Besides a bank account, jewelry, and valuable personal belongings, she had war bonds, and owned a half interest in a 160 acre tract of land in Florida. She and a white business woman, co-owner, had been dickering with the government on

Negro History Week has become a momentous event in the growth and advancement of democracy in our nation and all over the world.

But as we celebrate the occasion in many places and ways, we notice that there is a rising tide of unrest and fear that our own deception of a free America and a free people, broadcast across the world, is about to overtake us.

Featured on a Negro history program at Royce Auditorium, UCLA, last Friday evening, was Dr. Howard Thurman, noted theologian and historian.

Dr. Thurman used as his subject, "The Climate Atmosphere of Modern Life."

Patiently and as painstakingly as the mother who seeks to have her child understand the difference between true and false standards, Dr. Thurman, in a provocative manner, created among his listeners a thinking state of interest and apprehension.

At no time did he mention the war in Korea or the threat of a third world war. Nor did he mention Communism as such, which has become the theme song of American radio, press, and in many cases, the pulpit.

The speaker radiated to his audience the danger of thought control, and the denial of human and property rights to some people—especially the dark peoples of the world. These peoples know that full freedom must not be a gift from nations and individuals who prescribe their way of life apart and different from the masters, the owners of the earth, he said.

"These dark peoples of the U. S. A. are measuring their strength with the yardstick of freedom used in other countries, and they are arriving at the conclusion that the rule doesn't work both ways. What is freedom for the white world they have discovered is slavery, repression, police brutality, military discrimination, colonization schemes to deprive them of their national heritage," declared Dr. Thurman.

He charged America with the responsibility of recapturing the lost confidence and trust of all her citizens before it is too late.

The colored American has great cause to doubt the sincerity of his white brother who is in reality more oppressor than brother.

But the American Negro is exhibiting God-like patience in the face of his oppression and persecution. Invariably the non-white American and non-whites everywhere in the world will break through the conspiracy of deception and decide who, among the nations and peoples, are their friends, their fellow citizens, and their brothers.

The trend of the non-whites' thinking, opined Dr. Thurman, is along this line. And to further emphasize the speaker's prediction that minority groups of the earth are stirring in the struggle for freedom, comes this personal experience of a Negro who looks at his native land in this article published in the February 14 issue of the National Guardian.

I haven't been to Russia, England, China, Austria, Germany, France, Norway or Sweden, but I have seen plenty of these United States, my native land, my "home of the brave," my "land of the free." I've seen enough

Eastside residents have been asked to underwrite the operations of the Los Angeles chapter of the American Red Cross for 48 hours and 20 minutes during 1951, Mrs. Vanilla Strickland, local campaign chairman, said this week.

That is what the $20,300 local quota of the chapter's $3,600,000 goal will accomplish, she said. To carry out the war-expanded responsibilities of the local Red Cross in 1951 will cost approximately $7 per minute, day and night, throughout the year. The fund drive will begin Monday.

murder, disgracefulness, miscarriages of justice and bigotry in the South (and occasionally in the North) which could well put so-called totalitarian and fascist countries to shame for lack of ability to compete with such inhumanity.

I remember when I was very young, I saw my people terrified, seeking refuge in the hills and cornfields, running desperately to escape the yoke and wrath of the white people who burned their homes and killed their kinsmen, showing no regard for women and children.

I saw a Negro woman school teacher in Georgia fall to her knees on the witness stand while testifying of the brutal way her husband was murdered before her eyes by white men, because he had saved enough money to buy a decent home and a new car, which not so many of the white people of the community had.

I saw the hate in the eyes of the children of an Alabama woman who had been raped by seven white boys as she made her way from church. Of course, these boys were never brought to justice. They are at large right now, probably committing more such crimes.

I saw the Congress of the United States completely ignore the fact that a great Negro leader, William L. Patterson, was attacked and called a "black son-of-a-b—h" by a Georgia Congressman (at a congressional hearing) who holds his seat in Congress illegally.

I saw a judge reinstate a Southern white cop on his job with the police force in Little Rock after the 25-year-old officer brutally beat a helpless, unarmed 70-year-old Negro.

I saw two white men get only three years after raping a five-year-old Negro girl; I saw a white policeman slay a Negro soldier, in the uniform of his country. I saw him pump bullet after bullet into the unarmed man as he lay prostrate and helpless on the ground.

I saw a noted white authoress, who had spent a good deal of her time in China, declare that if she had her choice she would rather be anything except a white person, because being non-white she would not have to account for the exploitation of the white people upon the non-whites. I saw still another noted white authoress, a Southerner, stand before a Chicago college faculty and student body and declare that in China (before the Communist People's Government took over) white Americans had set up business enterprises with signs in the windows reading, "CHINESE AND DOGS NOT ALLOWED" (does that give you some vague idea as to why we are being run out of Asia?).

I saw white lynchers go scot free, and white murderers in mock trials boast of murdering Negroes and go scot free. I saw white women accuse innocent Negroes of crimes which white men have committed upon Negro women since the beginning of the plight of the Negro in America. The innocent Negroes are always lynched (either by mob or by "law") and the white men always go free.

I saw Negro murderers of Negroes go free while other Negroes have been struck dead or sentenced to lengthy prison terms for as little as refusing to say "yassuh boss" to white folk. In the North, I saw a white woman who wrote pro-Negro articles for a Negro newspaper and who addressed Negroes by their proper titles and respected them as men and women, confined to an asylum—ruled insane for believing in humanity and decency.

Oh, democracy, the unforgivable sins that are committed in thy name!

No, I have never been to Russia, England, China, Austria, Germany, France, Norway or Sweden, but these things I saw—in America.

BLAME THE WEATHER for the early start of the silly season. As evidence, this is what happened on the streets of Los Angeles last week. Mary Lou Miner and Shari Goodman, selected as Misses Push and Pull of 1951, wheeled "babies" Harry Monty and Jerry Moren up and down crowded streets stopping traffic as they went. Yep, the "babies" are midgets all right. Any similarity between all this and the Eversharp-Schick slogan—"Push, Pull, Click, Click" is purely intentional. ning many cases before the U.S. Supreme Court involving basic principles of constitutional law including the Restrictive Covenant cases.

Marshall went to Japan with the permission of General of the Army Douglas MacArthur following requests for assistance sent to the N.A.A.C.P. by some 54 Negro servicemen who charged that army authorities had discriminated against them in courts-martial hearings and sentences.

General MacArthur granted the attorney permission to continue his investigations at the front upon presentation of Mr. Marshall's preliminary findings. Among the cases being considered by Marshall is the one involving Lt. Leon Gilbert, the young Negro officers who was sentenced to death by army authorities in Korea. His sentence was subsequently commuted to life imprisonment by President Truman after attorneys for the National Association for the Advancement of Colored People had argued in behalf of the lieutenant before the Board of Review in Washington.

Drastic reductions in the sentences imposed upon 21 Negro servicemen court martialed in Korea have been reported by the U.S. Army's Judge Advocate General's office, before which the convicted men were represented by NAACP attorneys.

Four men who had each received a 10-year sentence were exonerated. The life sentence which had been imposed upon Private J. P. Morgan was reduced to 5 years and suspended. The one-year sentence given Private Mahlon Moore was also suspended. Six other GIs had their life sentences reduced to 20 years, another to 15 years, and still another to 10 years. The sentences of two who had each received 25 years were reduced to 15. Four victims who had been sentenced to 20 years imprisonment each had their sentences reduced by 5 years, another by 10 years.

These cases are among those investigated in Japan and Korea by Thurgood Marshall, who for the last month has been probing the circumstances surrounding the courts martial of Negro officers and enlisted men of the 24th Infantry Regiment.

Commenting on the reductions in sentences thus far gained, Walter White, NAACP executive secretary, said: "The NAACP will continue to work for the complete exoneration of every man who has been victimized by racial bias or an unfair trial as determined by the investigations of our legal department."

"she should be ashamed" to let the child become ill. The distraught mother and family have searched throughout the city and through their lawyers, Sherman and Moss, 8565 S. Broadway. The search for the child has extended to Mississippi where the parents of the father reside.

According to the mother she left her husband in December when he refused to provide clothing and the amenities of life for she and the child. At that time they were living in a trailer house in Watts. Previously she had filed for a divorce but had been talked out of it by her husband, who then moved the family into the trailer.

Some weeks after the two separated the Sanders sold the trailer and moved elsewhere. On Christmas day he came to the home of his wife's grandmother. He was invited to share Christmas dinner with the family. As they were seated about talking, the baby asked to go to the bathroom. The father offered to take the child.

After it seemed that they had remained in the bathroom overly long the mother went in search of the child and the father. She found the window open. Sanders had placed the child outside the open window while he walked out the front door. The baby was not wearing a coat or jacket at the time and the day was chilly.

The mother reports that several times she has left her husband and always returned; on the last occasion of her return home she reports that her husband purchased a gun and told her that it was a gun to keep her straight. He called it, she said, "A Cecilia Getter."

The young woman reports that she became so worried and frightened and on "top of other things," she decide, dto leave a final time.

The young mother has tried to trace her husband through his work, but this has been unavailing. At one time during the telephone conversation on Jan. 7 the mother related that the father said the baby was in Washington, D. C.

Since that time the father has called at the grandfather's home and talked with him, but the family could not get a line on his whereabouts.

A picture of the missing tot will be found elsewhere in the paper.

the legal ceiling in rents from June 1949 to May 1950 from his tenant really put him in hot water.

Judge Westover found him in "wilful violation" and besides ordering restitution to Mrs. Luther, dampened the spirits of the landlord by assessing further payment of $805.80 in penalty to the United States Treasurer plus costs.

Testimony revealed that the tenant paid $85.00 per month instead of the legal $45.50 and that the rental agreement allowed the defendant rights to the bath.

Part of the evidence submitted by the rent attorney were phoney rent receipts the landlord left behind after completing one of his baths.

We have the word of Dr. Du Bois that his activities on behalf of peace are not in violation of the law, since he was associated with an American organization supported by American supported by American funds. Democrats Ask School Probe

Los Angeles County Democrats have appealed to California Attorney General Edmund G. "Pat" Brown to investigate charges made against the Los Angeles School Board of mismanagement in the city public school system. In its regular monthly meeting last night (Tuesday) in the State Building, the Democratic County Central Committee overwhelmingly recommended that an impartial agency, such as the Attorney General's office, sift the charges. The group referred to recent statements by Los Angeles school principal Ione Swan, which alleged possibilities of corruption in the Los Angeles school system.

Four other resolutions were resoundingly okayed by the Democrats. One condemned the Glendale City Council for its appointment of Stanley E. Lord as Director of Civil Defense for the city, asserting that he was the leader and instigator of a raid on the La Crescenta Democratic Club and was subsequently convicted of a criminal offense in connection with the raid. The Glendale City Council was asked to reconsider the appointment.

Other resolutions approved included commendation of President Truman for his recommendation of a loan of grain to avert starvation in India; praise of the appointments of F. Joseph Donohue as Chief Enforcement Officer of the Office of Price Sta-

The letter claimed that former members of Local 246 now belonged to Local 801-C, and that now the CIO wanted to bargain for city workers.

A check of city yards discloses that only a handful of Local 246 members ever joined Local 801-C, and that several of those have returned to Local 246.

"The CIO is no great threat to our union," Business Representative Sideney Moore said. "City workers realize what Local 246 has done for them in the past on wages and working conditions, and they're not being fooled or led away by the nose because of red-baiting—and that's the only thing the CIO has offered them."

Moore recalled the strike vote taken by the local in December, in which city employes voted overwhelmingly to hit the bricks unless the wage increases recommended by the city's own Bureau of Efficiency & Budget were approved by the city fathers.

Shortly after the strike vote, the city council voted an increase in pay to about 5,500 city workers.

The letter from the CIO, which asked the council to hand over city employes to Local 801-C on a platter, has been buried in the personnel committee.

This will permit Hitler war scientists who since the end of the war have been working on jet engines in Argentina, to return to West Germany to continue their work.

Mission To Japan

TOKYO—The primary aim of the American mission to Japan, led by Ambassador-at-Large John Foster Dulles, has been achieved with the agreement that the United States will maintain military bases in Japan regardless of the form the eventual peace treaty may take, and with the statement by Premier Shigeru Yoshida that the Japanese government will undertake to rearm.

As the Tokyo correspondent of the **London Observer** points out, "Dulles came here to secure what Washington believes to be essential for the security of the United States in the Pacific."

New Georgia Law Takes Funds from School If Negro Student Admitted

ATLANTA — (CNS) — In the event state supported schools of Georgia decide to admit one single Negro as a student, they will all be dropped at once from the "common school fund," it was revealed this week. This was voted unanimously by the Georgia Senate which has given the state authority to withhold funds from "common schools and from units within the university system in the event traditional barriers against mingling of the races were lowered."

To date, the state appropriations bill is recorded at $207,505,703.00. The segregation clauses provide that all common school funds will be withheld in the event a Negro is admitted to any one or more schools, and that all colleges and university funds will be stopped if any unit within the university system admits a Negro. In the House-approved version, however, if one unit is forced by law to accept Negroes, that one alone will suffer a loss of funds, the others will not be affected. But this was ruled out by the Senate and reverted back to the original stand: no Negroes allowed at all.

It was supporters of Governor Herman Talmadge who requested, and insisted on, this legislation. In fact Roy V. Harris, August politician and Talmadge man is quoted as saying "if you one Negro in they could close the law school or the medical school while their own schools would still operate."

Mr. Harris admitted this meant Georgia would have to give equal facilities if they expected to maintain segregation. However, "you cant give them equal facilities in one year," he insisted, "or even five or ten. With some counties having 70 percent Negro population, to build enough school houses would 'bust' the county and the state too!"

LA Hides Slums; 67,445 Slum Houses In LA

Los Angeles probably displays more skill in hiding its sub-standard houses, than any other principal city in the country.

That was the startling statement made by Clinton Arnold, of the Public Information Department of the Los Angeles Housing Authority, who spoke on the housing conditions in Los Angeles at a meeting of the local chapter of the Atlanta University School of Social Work Alumni Association, held at the home of Miss June Jefferson, 2634 So. Hobart Blvd, last week.

There are 67,445 sub-standard houses in Los Angeles, according to Mr. Arnold. We pass them every day unnoticed.

What is being done about it? Mr. Arnold stated that the L.A. City Housing Authority has been authorized ot build 10,000 units of low-rent public housing. They will be made available to low income families, soiely on the basis of need and not race, he said. He urged the Alumni Association to make it known to the mayor, the city council, and the Housing Authority commissioners that the 10,000 housing units must be made available to help alleviate the housing conditions in Los Angeles.

Mr. Arnold also showed fidms to present the situation more graphically.

The third and final series of talks on housing will be presented by Mr. Floyd C. Covington, Racial Relations Secretary of the Federal Housing Authority, on March 12. The host for that evening's meeting will be Mr. Wesley Brozier, 1425 East 123rd street.

Intimidate Martinsville Community of 10,000

MARTINSVILLE, Va.—"Intimidation has been the order of the day here" since the national and world-wide protest against the executions of the Martinsville Seven and "it's a Knock On Any Door proposition in Martinsville today", the local correspondent of a national newspaper, reports.

He continues, "The 10,000 Negroes who must live in Martinsville are silent, but this isn't to mean they've forgotten. Every one of them died a little bit those two days when the boys were strapped to the chair up in Richmond."

The article went on to say that "nearly every one of the Black Belt town's Negro population turned out to see the Martinsville Seven go to their graves. "It has been said in this town for many weeks. "This week perhaps was the saddest remembered in many old minds."

Referring to Ruby Stroud Floyd, the white woman whose false charge of rape sent seven innocent men to a legal lynching, the Amsterdam News reporter declared, "Never very bright, it is doubtful that she will be able to overcome the omnipresent fact that seven human lives have been snuffed out to protect her questionable name. Before the Martinsville case reached its present pitch, the white population many times mentioned that Ruby would never come to any good.

"Deserted by her husband, once a mental patient, she scrounged a living by selling second-hand clothes to poor Negroes . . . It's not difficult to imagine why Ruby Stroud is conveniently away."

Going on to describe the funeral services, held in five filled churches, the correspondent writes that there's no doubt that Martinsville's Negroes "thought of the sham of a trial those boys had—with hanger-on attorneys appointed by the state, and their prayer was — Dear God, how much longer will this go on?"

The Martinsville Seven, now known throughout the world as the Martinsville Martyrs, were put to death by the State of Virginia despite protests from all parts of the country and every major nation in the world. The Supreme Court refused to review the case, and President Truman declined to intervene for them.

Their deaths brought to 52 the number of Negroes electrocuted in Virginia since 1908 for so-called rape. No white man convicted of the same crime has ever been given the death penalty.

NAACP Sunday, February 25

NEW YORK—Plans for observance of NAACP Sunday on February 25 are being made by congregations in all parts of the country, it was announced this week by Rev. Walter P. Offutt, Jr., church secretary of the National Association for the Advancement of Colored People.

We feel that we have every reason to be proud of the many accomplishments of the NAACP," Rev. Offutt said. "We also believe that these accomplishments have to no small degree been made possible by the love and loyalty of our churches throughout the nation."

The Rev. Mr. Offutt has requested that churches of every denomination give financial support to the civil rights program of the Association and to have their "prayers, sermons and songs" on NAACP Sunday aid the campaign "to make democracy a strong, working reality."

A permanent mural display depicting activities at Los Angeles International airport was unveiled last week by the audio-visual section of the city schols.

Urban League Vocational Drive Underway March 12

"Korea Days" in our public schools will feature the 19th Annual Vocational Opportunity Campaign, sponsored by the Los Angeles Urban League, March 12 through March 16.

Graduating classes of junior and senior high schools will be given professional and technical guidance by experts in business, professional, vocational, and entertainment fields. The programs will be practical and include every facet of the particular occupations, with special attention given to the requirements for success. The Urban League has advised each class of the subjects under discussion in order that the young people may come prepared to project any questions they choose. Posters, stickers, and school papers will carry announcements in order to insure the full participation on the part of all students.

The program at Jefferson high school is perhaps the most elaborate. The Jeffersonial graduates will hold panels, and several students are preparing presentations in order to lead the discussions. This method is expected to involve full participation on the part of the students themselves.

The Lafayette junior high, Fourteenth and Naomi, will conduct its assembly program Monday, March 12. The Jordan High School program, East 103rd Street, will be held Tuesday, March 13. The program at Carver Junior High, McKinley and Vernon, will be Wednesday, March 14. Jefferson High School "Korea Days" will be March 15 and March 16.

Settle Bias Suit; $400 Given Four

Four suits charging Lena V. Peluffo, owner of El Paseo Cafe, 51 Olvera street, with discrimination were dropped today when the plaintiffs received $400 in an out-of-court settlement.

The plaintiffs in the action were Manuel D. Talley of 1614 East 48th place, Shalmir Green of 1808 East 102nd street, William J. Roberts of 637½ East 29th street, and Essie Cotterell of 2949 Somerset Dr.

The four had charged that on two occasions last October, members of their group had sought service at El Paseo and on each occasion were refused solely because of race. Following this, the group sought damages and a court order restraining the restaurant from discriminating.

The terms of the settlement also called for a written statement committing the restaurant to a policy of nondiscrimination. In compliance with these terms, a statement prepared by the attorney of the cafe owner, in part read:

"My client's policy in connection with the operation of her business is to treat all patrons equally and without regard to creed or race. It is her policy at all times to comply with both the letter and the spirit of the law as embodied in Sections 51 and 52 of the Civil Code of the State of California."

An added note of interest was injected into the controversy when the Boyle Heights Community Service Organization sent a letter to Mrs. Peluffo expressing opposition to discrimination.

The complainants in this case were jointly represented by Richard W. Petherbridge, brilliant young newcomer in the field of law, and Loren R. Miller, long regarded as one of the leading civil rights attorneys in California.

A Spur To Fight For Peace

Premier Joseph Stalin, in a recent interview published in **Pravda**, the official newspaper of the Soviet Union, outlined his plan by which the nations of the world could secure a permanent peace, and particularly how the slaughter in Korea could be ended.

Stalin fixed responsibility for the present world crisis on the United States, but at the same time called for renewed efforts for peace. He showed how the vast peacetime projects of the Soviet Union disproves the charge that the USSR is mobilizing for war, and that therefore the excuse for the billions of dollars being spent on armament by the United States is altogether without foundation.

Premier Stalin also accused the United States and Great Britain of controlling the United Nations, and of turning this international organization "into an instrument of war." He said that the war in Korea can end only in the defeat of the interventionists, and that the American and British troops are fighting only half-heartedly at present—a cause for the many defeats the UN troops have suffered.

In spite of all this, however, Premier Stalin declared that war "cannot be considered inevitable," but he warned that it may become so, "if the warmongers succeed in entangling the masses of the people in lies."

The mere statement that the USSR does not consider war "inevitable" has given a bright ray of hope to the progressive forces the world around. True, the State Department in Washington has dismissed—or tried to dismiss—the interview of Premier Stalin on the key issues of today, as being only "one more misstatement," the people of the different nations of the world have taken heart in the struggle for peace. They feel that if the great USSR is actively endeavoring to end the war in Korea, and to bring about a lasting peace, that peace will come, in spite of all the obstacles put in the way by the State Department in Washington.

Premier Stalin has given a new spur in the world-wide fight for peace, and the progressive forces everywhere are taking new courage for the struggle.

Two Great Americans

Two great Americans will speak in Los Angeles this week-end.

Charles P. Howard, nationally famous attorney and leading figure in Negro fraternal and political life, will speak in the Embassy Auditorium this evening, February 22, at 8 o'clock.

Mr. Howard had for years been a prominent member of the Republican party. But three years ago, in 1948, he forego all the prestige he had won in that party, all the financial benefits, and cast his lot with the newly-formed Progressive Party. He saw nothing in either of the two old political parties to make him believe America could be saved by their programs.

Mr. Howard is now vice-president of the Progressive Party of America. He made the keynote speech at its convention last summer in Philadelphia. He said then he felt the full value of human dignity for the first time. For it was the first time in his life he had been so honored by any political party.

The struggle of the Negro people for equality and freedom will be the theme of his talk in the Embassy this evening.

The second great American whom the people of Los Angeles will be privileged to hear is Thurgood Marshall, of the National Association for the Advancement of Colored People.. He will speak at the Embassy tomorrow evening, Friday, Feb. 23.

Mr. Marshall has only recently returned from an inspection tour of the Korean war front. Many of the Negro GIs fighting some three to six thousand miles from home, had written the NAACP letters telling of discrimination in the army. They told of courts martial for trifling offenses, and severe sentences handed out to them, while white GI's were given only light sentences, or let go entirely.

The case of Lt. Leon Gilbert is one instance. Sentenced to death for refusing to obey an order which would have led his men to certain death, his sentence was later commuted to hard labor for 20 years.

Mr. Marshall will report on his findings on the Korean battle front.

Both these men, Thurgood Marshall and Charles P. Howard, are not only great Negro leaders. They are great American leaders. They should be heard by all who wish to see America progress, and who hope to bring peace to a war-maddened world.

Something Rotten In L. A. School Board

The Los Angeles Board of Education is sinking deeper and deeper into the filth that arose about rigging civil service exams, of which it has been accused by the 1950 Los Angeles County grand jury.

In a report of that grand jury, it states that the Board of Education has not only arranged examinations in favor of its friends. It has rigged those examinations to "discriminate against colored, Jewish, Oriental, and applicants of middle age."

It was bad enough to be accused of favoring friends. For some reason or other that seems to be a not-too-uncommon occurence among politicians. Or city or school administrations, even if not rated as being political. But to be accused of rank discrimination and racial bias, is a blot on the school administration it can not soon live down.

"It is significant to note that over a period of 33 years no such applicant had been employed in this department (telephone).

"It is inconceivable that an elective group such as the board of education, should conduct a hearing (on the conduct of the examinations) in the apparently prejudicial manner in which the hearing in this case was carried on.

"The conclusion is readily gained that a whitewash was being conducted and the accusers were on trial rather than the accused."

The grand jury issued no indictments. It left it up to the people of Los Angeles to clean up the mess on election day, April 3.

Let us hope we do a good job.

Work For All

There would be work enough for the two men—Homer Saddler and Frank Wallace, of the International Ladies Garment Workers Union—but **they are Negroes.**

In the story told in another part of the **Eagle,** their union, Local No. 97, AFL, has a rule by which Negro members of that union are given only the most menial jobs, jobs which pay little, and which are difficult and distasteful to perform. White members of Local 97, however, are given the better jobs and the jobs that pay higher wages.

Yet the ILGWU, AFL, is loud in its condemnation of Communism. As are all unions that wish to curry favor with the boss, and that are afraid of losing their jobs if they dare even to peep that there might be some truth in the rumor that in the Communist countries no one need tramp the streets, looking for work.

All the stuff those two jobless men hear about slave labor in Russia, rolls off them like "water off a duck's back" as they tramp the streets of Los Angeles, looking for a job, and are being turned down time after time because their union will not qualify them for a job. Why? Because they are Negroes.

How can one expect such men to be absolutely loyal to a government which permits such practices? No matter how many loyalty oaths they sign, no matter even how loyal they themselves really are, is it not too much to expect them not even to listen to a whisper concerning the land where there is no discrimination, no jobless?

If we wish to fight Communism in truth, we definitely must see to it that such conditions as those at the ILGWU, Local 97, are forever put out of existence. If this American government is to command the respect and loyalty of its citizens, it must measure up to the hopes of those citizens.

There is no use to cry "Communist" to every one who speaks well of Russia, and then give American citizens, black or white, a deal so raw that the citizens of those European countries wonder why Americans do not rebel against their intolerable conditions.

There should be jobs for all, work for all who can work in America as well as in the USSR, if this government can win the loyalty it is trying to gain by force.

RAPHAEL KONIGSBERG

Doctor DuBois vs. Killer Krupp

Dr. W. E. B. DuBois, great American scholar, outstanding historian of democracy, leader of the fight for peace, has just been indicted by a federal grand jury in Washington as a "foreign agent."

Alfred Krupp, munitions maker, murdered and enslaver of millions, without whose help Hitler could never have devastated Europe, has just been freed from prison.

The rulers of this nation, self-annointed leaders of "western civilization, Christian morality, and world democracy," welcome the un-Christian, undemocratic Killer Krupp as an ally—and they persecute Dr. DuBois, representative of world culture and democracy.

They free Krupp and rearm the Nazis because they need the help of such creatures in the war being planned. Knowing they cannot expect the support of any good men and women in such a war, they sent their great mouthpiece Eisenhower to plead with the Nazis to "let bygones be bygones."

Washington, preparing for global war in the face of the opposition of all decent human beings, salvages the inhuman fascists everywhere—for these are the only ones who will favor such a war. In doing so, Ike's "gang" must eliminate all that a DuBois represents, for people like him will fight hard the attempts to destroy democracy.

The Administration must try to annihilate the people's leaders and their moral, political and cultural weapons. Remember how Hitler's lieutenant shouted: "When I hear the word culture I reach for my gun!"

Foreign Agents

Dr. DuBois vs. Killer Krupp—truly the battle of the century! They personify the two worlds which do exist today—the world of peace and democracy and the world of war and fascism.

It is very significant that the freeing of Krupp occurs at the time of the quisling war budget and tax program, the provocation of China, the threatened starvation of India, the recognition of Spain, the building of another string of bases around the USSR, the admitted failure of the Marshall Plan, and the continued aggression in Korea.

Related to these actions, the indictment of DuBois and the reinstatement of Hitler's financier prove beyond all doubt that Washington and Wall Street have finally decided to dispense with further pretenses and to openly and brutally speed up its plans for world war.

It follows "logically" therefore, that they will consider Dr. DuBois a "foreign agent." A fighter for democratic principles is indeed foreign to an undemocratic war. Culture and art and humanity have no place in such a war. Such men and ideas are not only foreign to such barbaric plans, but a positive hindrance to them. So they must be crushed.

What particular blasphemy it is that the persecution of Dr. DuBois should occur at the time of Lincoln's and Washington's birthdays, at the start of Negro History Week. America's reactionaries, having tried for generations to destroy the record of the Negro people's contribution to America, now seek to destroy the scholar who has done so much to restore that history.

Dr. DuBois vs. Killer Krupp—the eternal fight between good and evil, between democracy and fascism. On which side would Lincoln and Washington be? Whom would they consider the foreign agents, the enemies of American democracy—Dr. DuBois? Or the men who beg the destroyer of harmony to help them destroy America?

ACT FOR PEACE

Herbert C. Holydridge, retired Brigadier General of the U. S. Army, has thrown his hat into the ring for President of the United States.

In endorsing his candidacy, Rev. Clarence Duffy, a priest in the Roman Catholic Church, states: "In order to survive, as well as to prevent a world holocaust involving mass murder, flaming havoc and atomic destruction, we must have a new party geared for peace, based on justice. . . . A party must have a leader and a program. I suggest Herbert C. Holdridge."

NEW FREEDOM

TALLAHASSEE — Negroes in American life will prosper in proportion as they cease thinking that their case is hopeless. Professor Merle R. Eppse, teacher and author, told the chapel audience at Florida A and M College Wedensday, February 14, at the noon assembly. Mr. Eppse is chairman of the division of Liberal Arts and professor of history at Tennessee A & I College in Nashville.

His well prepared speech — "Our New Emancipation and Reconstruction"—was a highlight of the annual observance of Negro History Week.

"The new freedom that has come upon us demands a new type of leadership to cope with affairs. Freedom from chains is not all the freedom needed," he declared.

PROPOSITIONS

The decilison to place the propositions for the Auditorium and Music Center on the April 3 ballot and to urge its approval by the public, was made in the best interest of the community, executive members of Greater Los Angeles Plans, Inc., were told yesterday.

"To delay this important decesion might mean Los Angeles would be without these badly needed facilities for another generation," LeRoy M. Edwards, general chairman of the campaign committee told GLAPI members.

A Few Words to My Brothers

A spoken word, alone, is only a sound that soon drifts to a nothingness in the oblivion. But a spoken word combined with proper action, is Power.

The spoken word, "let's hang that fellow," alone was powerless But with action applied, the victim was soon hanged, regardless of law.

Now, we have many spoken words to stop the war, and for peace. Many are spoken in sincere prayer.

Now, we have millions of signers to petitions. Many thousands of words in letters to U. S. Congressmen, Senators and the President, asking for peace. Yet the Wall St. warmongers carry on. **Why So?** It's because we don't apply proper action. And it seems as yet, no one knows what is proper action. It seems the laboring classes and the common masses don't realize that they are the U. S. Government. And that **our 435 Congressmen, 96 Sentors, and President, are Our Servants—Not U. S. Government. Awake impoverished ones to realize who you are, and the power of all governmental power is vested in you, to command and demand. Use Your Power. It's constitutional.**

It seems we fall for the B.S. they put out, of taxing the rich and favoring the poor. You should realize the Truth, that the laboring class Pays All the Tax. That the Wall Streeters never produced a dollar or paid a dime tax in their lives. The plodding workers pay it. Plus the wasteful luxuries of the rich.

We should realize that our U. S. servants are serving our enemies, instead of us. And that very few of them have the intelligence of a rat. And those that want to serve us are overridden and helpless. And then we fall for the propaganda put out against them and defeat them in the next election. Like with Marcantonio, the best friend Congressman we ever had. And Like Huey Long, the greatest poor man's friend that ever lived. And when the Wall Street faction found they could not turn the voters against him, they assissinated him. . . .

The above is your legal rights, and the only quick and safe way to stop the war and save the slaughtering of our young and bring about "peace be still" instead of our destruction. . . .

LETTERS TO THE EDITOR

To the Editor of THE EAGLE:

We are a group of steelworkers who work together and shoot the breeze together sometimes at lunch. We are all around draft age and most of us are vets. We want to sound off about a few things that we've been talking about lately. Frankly, it looks like this country is in a pretty bad situation. So far, the politicians and big generals (like MacArthur) have been deciding everything for us. Now maybe its time they listened to some of us in the shops for once.

FIRST of all, we don't like the beating we have been taking in Korea. It ought to be stopped! About everyone here is wondering what business we had in Korea from the start. They say we should clear out while some of our men are still alive.

We agree that peace is a fine thing, but putting us into another world war is a strange way of getting it. Drafting all the 18 year olds won't help any. This will just lead the way to drafting of vets and we don't want that either! The only reason for drafting everybody is to send them over to "Mac" in Korea to be killed.

There must be a more sensible way out of this. Maybe some people want it this way but we don't see what's in it for us. The top leaders of our country should find a more peaceful way of negotiating with China and Russia than by trying to bomb them off the map (while we get a few ourselves). It would be a good thing if they listened to the ideas of the people for a change. Matters couldn't be made much worse.

We have written the above message to President Truman. Already ten of us in the plant have signed it and we know others will be signing it too. If anyone from some other shop has some ideas along these lines, we would like very much to hear about them.

Dear Mrs. Bass:

I am always interested and impressed with your poems and editorials. Of course I scrapbook some.

I was very impressed the week of February 15, 1951, with "Forgotten Women" by Miss Nancy Rainey Bradford, with whom I am personally acquainted. She has been my customer in business for years. I am hoping more writers will get busy, as we all enjoy your poem section.

Yours always for continued success.

Dear Sir:

A million thanks to you for the fine help given us during the recent X-Ray Survey in Los Angeles County. It really was appreciated.

Attention is now being centered on a big follow-up program to see that (1) the persons we found to have TB and heart disease and cancer are given proper medical attention, and (2) to try and coordinate the entire scattered tuberculosis control groups in the county to eventually provide more efficient service.

For your information, 1.861.-974 chest films were taken by the Survey. So far, 38.000 of these people have been found to need further medical attention because of X-ray evidence of TB, heart

LABOR ON THE MARCH

By PENN

Labor "leaders"—meaning the top brass whose high salaries are paid by union members and who devote themselves to "policy making" and licking the boots of big business—have little trouble finding something to talk about that will get them space in the newspapers.

They could get more space if they would stand up for increased wages and better conditions for their members, but that wouldn't be a "favorable" press. Newspapers would stop calling them "labor statesmen", instead they would be treated harshly as "radicals" and "labor bosses."

This would destroy their "respectability," for which they have been striving since Gompers, first president of the AFL, began receiving invitations to lunch with industrial tycoons and was invited to serve on governmental agencies.

One of the latest "respectable" positions that labor statesmen have discovered (except for approval of wage freezes and the okey of breaking the rail workers' strike for a 40-hour week) is support of what is known as Point Four of Truman's foreign policy.

Point Four is a program under which $34½ million dollars of tax money will be spent this year to develop the "backward" areas of the world—principally those areas where the people have been exploited, starved and beaten down by American and British financial interest.

Jacob S. Potofsky, head of the CIO Amalgamated Clothing Workers, and Lewis G. Hines, AFL pie-card, are maintaining the respectability of their organizations by serving on an administrative board, where they rub elbows with Harvey Firestone, chairman of the rubber outfit of the same name; James W. Gerard, former ambassador to Germany; Charles L. Wheeler, representative of huge shipping and lumber interests, and others of their ilk.

Instead of demanding that tax money be spent to help the millions of members of minority groups in this country, many of whom live in squalor and privation, these AFL and CIO brass-hats sprain their necks nodding approval of spending the money in foreign lands to help natives to "produce more food, more clothing, more materials for housing and more mechanical power to lighten their burdens" and to enable them to attain "freedom and dignity and the fullness of life." (The quoted words, believe it or not, are President Truman's.)

Labor leaders could point out, if they were interested in the welfare of the wage earners of the nation, that the same money, and more of it, could be spent in the U.S. to help create those conditions for our own people, particularly in the South.

They could call Truman's attention to the fact that twelve million Negroes in the South would like to attain "freedom and dignity and the fullness of life."

Point Four outlines improvement of health and sanitation for the "backward" areas of the world; it would expand educational facilities and train more teachers in these areas.

Look South, Mr. Potofsky! Look South, Mr. Hines!

Count the outdoor privies, the dirty streams from which people get their water. Count the doctors and hospitals that "serve" minority groups. Count the teachers and look at the ramshackle, outdated schools that Dixie provides for more than a quarter of its inhabitants.

Potofsky, CIO stalwart, devoted a large part of a recent issue of The Advance, official organ of his union, to a plug for Point Four.

Speaking of the people of these "backward" areas of the world, The Advance says:

"Those people don't want to starve; they want a decent standard of living. They don't want charity; they want work. They are human beings and have a right to human dignity. They want to live, and they want to see their children grow up healthy people with a brighter future than their parents had when they came on this earth.

We agree with Potofsky. We agree that all the peoples of the world are entitled to food, dignity, health, peace, security and freedom.

But we would like to see that our own people, the millions of them that need all these things, have them too. In fact, we would like to see these aims become a reality first for people whose blood and sweat have gone into the building of this nation.

Packinghouse Workers in Wage Increase Agreement

In a statement adopted by the national emergency conference of the United Packinghouse Workers of America, CIO in Chicago last week it was learned that such workers are expecting a wage increase from major companies.

According to a release received by this newspaper, the employees and the unions both AFL and CIO have reached a wage increase agreement.

At this point, union members say, the workers in the packing houses are still barred from seeing in their pay envelopes, and more importantly, in the form of meat and bread on their tables and clothes on the backs of their families, the hard won results of their collective bargaining. They are presently denied the benefits of their collective bargaining because of the wage freeze imposed by the order of January 26, 1951, issued by Eric Johnston, Economic Stabilization Administrator. This is so inspite of the fact that prices since the order of January 26, 1951, have continued to rise

The Economic Stabilization Agency, which froze their wages, but still permits prices to rise, operates as part of the Office of Defense Mobilization. The head of the Office of Defense Mobilization is Charls E. Wilson, head of the world's largest electrical manufacturing corporation.

The Economic Stablization Agency, itself, which froze their wages is headed by Eric Johnston, several times head of the U. S. Chamber of Commerce.

A Part of the Statment Reads!

"This Emergency Conference, therefore, accepts and approves the terms of the agreements made with the major packing companies and recommends to the locals that the agreements be ratified. Since the agreements will expire after March 25, 1951, unless approved by the Wage Stabilization Board, are faced with the necessity of resuming on that date our struggle with the packing companies for a decent wage. We therefore place in the hands of our executive officers full power and authority to take strike action if and when necessary to secure for the packinghouse workers of this country a decent wage level.

Wage rates now being paid shall be increased 9 cents per hour and the existing three (3) cents per hour spread between the authorized wage rates for the various job classifications now in effect in the bargaining units covered by said Master Agreement, shall be increased to three and a half (3½) cents per hour, but no authorized wage rate now in effect shall be increased more than 24 cents per hour hereunder; provided such increases are lawful under any applicable regulation, order, or approval issued by the Wage Stabilization Board hereafter but not later than March 25, 1951 . . .

"Such increases shall be effective on February 9, 1951, or on the earliest date thereafter that such increases become lawful under any applicable regulation order, or approval issued by the Wage Stabilization Board.

World News

People's Party Wins In Gold Coast Election

LONDON — The Convention People's Party has already secured an absolute majority of the African seats in the new Gold Coast parliament, and also the release from prison of their leader Kwame Nkrumah and seven other political prisoners.

The British government had included various safeguards in the new constitution, hoping to prevent an absolute majority of the Convention People's Party and insure that the "moderates" would prevail. It did not expect that the CPP would secure 90 percent of the popular vote.

After this tremendous victory, the Daily Telegraph correspondent cabled from Accra, "Sir Charles Arden-Clarke, the governor, will find it difficult to refuse the demand which the CPP will almost certainly make to be given all eight African seats in the Cabinet."

The New York Herald Tribune's Paris edition carried a headline reading "pro-Russians sweep the polls on the Gold Coast" and with typical disregard of the facts quoted British Labor and Tory members of parliament who attributed the people's victory to African "witchcraft".

The leader of the Convention People's Party, young, American-educated Kwame Nkrumah, was jailed for sedition over a year ago for demanding "full self-government now"—the popular slogan of his party since its inception and in the present election.

Nkrumah became the leader of the Convention People's Party at its establishment in June 1949. He had led the more militant wing of the United Gold Coast Convention, founded in August 1947.

The militant wing broke away from the "moderates" headed by successful business and professional men who placed the interests of a handful of African bourgeoisie above those of the working class and peasantry. It was the young, militant wing which formed the Convention People's Party.

A few months later general strikes and a boycott of British goods took place in the Gold Coast in protest against the refusal of the authorities to listen to the demands for self government.

The governor of the colony retaliated by invoking martial law restrictions, breaking up peaceful public meetings and jailing political and trade union leaders. Scores of Africans were killed by British police in this and earlier efforts to destroy their political militancy.

Nkrumah, while still in jail and unable to participate in the election campaign, was elected Accra member in the new parliament by an overwhelming vote in which all his opponents lost their deposits. His release means that the British authorities can no longer prevent him from taking his seat in the legislature as head of the victorious Convention People's Party.

Irish Want No War Lorraine Robinson Seriously Injured

DUBLIN—Peace committees of Dublin and Belfast have issued a joint statement strongly protesting the sending of American, Dutch and Belgian military personnel to Northern Ireland for training under the North Atlantic war alliance.

The statement also demands that British occupation forces be withdrawn from the six North Irish counties which are partitioned from the rest of the country and that "Irish people be left to work out their own affairs." The Irish people want no part of General Eisenhower's war plans the statement says.

'Defend Peace!' Cry German Women

BERLIN—The League of Democratic Women has addressed an open letter to American women urging them to help defend peace.

The letter states: "Because of the guilt we bear in allowing the outbreak of the second world war, we take it upon ourselves to turn to American women so that they do not tomorrow place upon themselves a similar guilt. The torches of war which were lit yesterday by your government in Korea are to be carried to Europe tomorrow. Through you government all preparations are being made in the western zone of Germany for war against the Soviet Union.

"Help us prevent a new world war. The fight for peace can be stronger than the will to war of the women and mothers of the world help defend that peace."

The letter concludes: "American women are the deciding factor. We call on them to fight with us to end American intervention in Korea."

Italians Teachers Strike

ROME—High school teachers of the city of Terni, an industrial center north of Rome, have not been paid their salaries for four months.

Meeting on Tuesday last in a general assembly, the teachers decided unanimously that unless all back salaries are paid them by the end of February they will begin a strike until the government administration pays up the salaries.

While these teachers agitate for their rightful due parliament is debating a bill to allocate 50,000 billion lire, approximately 400 million dollars, to be spent immediately for rearming.

Canadian Citizenship Act Is Faulty

OTTAWA—The present session of the Canadian parliament will vote on a proposed amendment to the Citizenship Act which threatens to deprive Canadians who do not agree with the policies of the present government of their citizenship rights.

The amendment "to prevent the retention of Canadian citizenship by persons who have renounced their allegiance or have shown by their conduct that they are not loyal to Canada," will give Viscount Alexander, British government representative and not a Canadian citizen, the power of deciding whether a Canadian is loyal to his country.

The National Committee of the Labor-Progressive Party (the Canadian Communist party organization), in a statement calling on all Canadians to fight against the amendment, declared:

"This is an example of the way the St. Laurent Government is establishing a police state. It is doing the bidding of such warmongers as Rhys Sale, president of the Ford Motor Company of Canada, who in two recent speeches has called—in the name of the armaments profiteers—for the gagging of any Canadian who does not slavishly follow the government's pro-Truman, pro-MacArthur line."

The L.P.P. statement declares that "to fight for the letter and spirit of the United Nations Charter would be sufficient grounds for declaring you disloyal to Canada."

NORTON AIR FORCE BASE

Approximately 1,700 more civilian employees will be hired immediately at the Norton Air Force Base in San Bernardino for jobs in aircraft repair, supply and warehouse work, Brig. Gen. Edmund C. Langmead, commanding general, announced this week. The new quota has been authorized by headquarters of the Air Material Command.

Korea Mission Accomplished, Marshall Returns to U.S.

NEW YORK—Special Counsel Thurgood Marshall of the National Association for the Advancement of Colored People was scheduled to return to the United States this week after spending eight days in Korea, conferring with servicemen and officials of the Far East Command in Taegu, Suwan, Pusan, Kumhae, and the rear and forward headquarters of the 24th Infantry Regiment.

In a communication received last week at the NAACP national office, Mr. Marshall reported that he left Haneeda Air Base in Tokyo for Korea on Sunday morning, February 4, with a party composed of the Deputy Inspetcor General of the Far East Command, Colonel D. D. Martin, another full colonel and two lieutenant colonels, the Deputy Judge Advocate General, and two male stenographers. On arriving in Taegu, the party was met by the inspector general of the Eighth Army and taken to headquarters for a special briefing on tactical battle positions as of that day, and for conferences with the staff of the inspector general and the chief of staff of the Eighth Army.

Mr. Marshall, Col. Martin and another officer went on to the headquarters of the 25th Division, leaving the remainder of the party in Taegu to take statements from all of the enlisted men and officers in cases being handled by the NAACP. Mr. Marshall conferred with General Bradley, Major General Kean, Major General Milburn, and staff officers at Divison Headquarters.

From Suwan, the NAACP counsel proceeded to rear headquarters of the 24th Infantry, and to the forward headquarters, directly behind the front lines, where he saw the regiment's commanding officer, Colonel Colby. At the rear headquarters he checked records of and conferred with defense counsel for all the court martial cases with which the NAACP is concerned. Later he proceeded by jeep to Kumhae, where he checked other court-martial records.

In his memorandum, Mr. Marshall expressed his intention "to go all the way up and talk to the men on the line" before returning to Tokyo. He is scheduled to return to this country about February 22, landing at San Francisco. En route to New York, he will address a series of mass meetings arranged by local branches of the NAACP.

NAACP WINS REDUCED SENTENCES

Drastic reductions in the sentences imposed upon 21 Negro servicemen court martialed in Korea have been reported to the National Association for the Advancement of Colored People by the U. S. Army's Judge Advocate General's office, before which the convicted men were represented by NAACP attorneys. The 21 were among 39 GIs who had appealed to the NAACP for assistance.

Four men who had each received a 10-year sentence were exonerated. They are Corporal Verlon S. White, and Privates Bernell Gordon, Willie Martin, Jr., and Hardy E. Sanders. The life sentence which had been imposed upon Private J. P. Morgan was reduced to 5 years and suspended. The one-year sentence given Private Mahlon Moore was also suspended.

Six other GIs had their life sentences reduced to 20 years, another to 15 years, and still another to 10 years. The sentences of two who had received 25 years were reduced to 15. Four victims who had been sentenced to 20 years imprisonment each had their sentences reduced by 5 years, and another by 10 years.

The 10-year sentence of one convicted private was upheld by the Judge Advocate General's office.

These cases are among those investigated in Japan and Korea by Thurgood Marshall, NAACP special counsel, who went to the Far East last month for the purpose of probing the circumstances surrounding the courts martial of Negro officers and enlisted men of the Twenty-Fourth Infantry Regiment who had sought the aid of the NAACP.

Commenting on the reductions in sentences thus far gained, Walter White, NAACP executive secretary, said: "The NAACP will continue to work for the complete exoneration of every man who has been victimized by racial bias or an unfair trial as determined by the investigations of our legal department."

American Soldiers In Korea Hunt Way Out

KOREA (NCNA)—The burning question in the minds of the American GIs is how they can get out of the war as quickly as possible. This concerns them more than why they are there at all.

American prisoners of war disclose that cases of "self-inflicted wounds" are increasing among the American troops in Korea. They agree that at least one or two such cases occurred each day in their regiments. One regiment was reported to have 1,000 on the "sick-list" in one day.

This urge to get away from the war is not confined to American troops. The prisoners of war say that the U. S. Second Division suffered such heavy losses in fighting that it had to be replinished with Syngman Rhee's troops who at one time formed practically 75 per cent of the division. But these puppet troops had a knack of "changing into civilian clothes and scramming at the first sign of fighting."

Hundreds and thousands of American troops, British troops and Turkish troops are now "out of the war" far behind the fronts in North Korea. These POWs are housed, fed and clothed at a time when the Koreans are living in caves in the hillsides as a result of American bombing. American planes have so obliterated towns and villages, killed farmers and slaughtered the livestock that it is not easy for the Korean people to house and provision the POWs. Trucks sent out for food, tobacco and medical supplies for these prisoners are constantly being strafed from the air.

Among the American prisoners of war, educated in the "American way of life," are farm boys from Texas, students of medicine, engineering, journalism—from a dozen different American universities — and soft-spoken Negroes from Chicago and Louisiana.

Indonesian Strikes

THE HAGUE—Strikes against foreign, especially Dutch colonialists, are spreading throughout Indonesia.

In the Eastern part of the island of Sumatra over 156,000 agricultural workers are on strike for increased wages and better working conditions.

More than 15,000 textile workers are on strike in Bandoeng, on the island of Java. On same island the workers of Soerabaja have stopped work in protest against the dismissal of one of their leaders.

Strikes are also taking place at Medan on the island of Sumatra.

Fort Dix Bans Jim Crow

WASHINGTON — Segregation at the reception center at Fort Dix, N. J., has been abolished. James C. Evans, civilian assistant to the secretary of defense, has informed Clarence Mitchell, director of the Washington bureau of the National Association for the Advancement of Colored People.

The NAACP has spearheaded the fight against Jimcrow at Fort Dix and throughout the armed services. It has repeatedly called upon the Department of the Army to eliminate all segregation and discrimination in line with the recommendations of the President's Committee on Equality of Treatment and Opportunity in the Armed Services.

Ex Slave Dies At 108

WASHINGTON, D. C. (CNS)—Sidney E. Justice, 108 year old slave, died here this week, two days after the birthday anniversary of Abraham Lincoln, the man who freed him with the Emancipation Proclamation. Mr. Justice, who was born in 1843 at Hillsboro, N. C. on the property of Ham Justice, leaves a third wife, Molly; five sons and daughters, forty grand children and fifteen great-grandchildren.

Australian Students Demonstrate For Peace

SYDNEY, Australia—The Congress of the National Union of Australian University Students held here at the beginning of the month demonstrated the strong desire of students for peace. Despite efforts of government officials to turn the Congress into a recruiting rally for the armed forces, the Congress passed a resolution opposing conscription, and also called on all student organizations to initiate discussions around all proposals for peace.

One of the highlights of the Congress was the open forum led by the Australian Student Labor Federation on the proposals of the Warsaw Peace Congress.

The Congress was attended by 400 delegates representing all Australian universities and some technical and teachers' colleges. Delegates from New Zealand were also present.

Other Congress resolutions condemned the racist policies of the South African government toward non-white students. It urged the Australian government to remove the restrictions on travel overseas. (Australians are not allowed to visit the New Democracies, the Soviet Union or People's China), and reaffirmed its previous resolutions on democratic rights and called for strong action to defend student liberties "in view of the Communist Party Dissolution Act."

Burma May Rejoin Commonwealth

RANGOON — Inspired reports are being circulated here to the effect that Burma should rejoin the British empire.

The newspaper, **The Nation**, which often expresses the official government policy, carried an article by former speaker of the Burmese parliament [illegible] Hlaing, in which he describes Burmese independence as premature." He states that some members of the British Labour Party have "suggested" that Burma should rejoin the Commonwealth in order to obtain more "willing assistance" for developing her economy with guarantees that her "sovereignty and independence" would be respected.

Burma is already recipient of American "aid" under which military strategic projects are being carried out and American capital is crowding British capital in exploitation of the country.

A step toward resuming her Commonwealth ties is seen in Burma's acceptance of an invitation to attend the British Commonwealth Conference now taking place in Colombo, Ceylon.

Dutch Women, Dockers Attacked By Police

AMSTERDAM—Two bus loads of dockworkers on their way to Amsterdam port to unload an ammunition ship were met by a multitude of women who exhorted them to return. When the workers, after a discussion with the women, refused to go any further and expressed a wish to return home, the police were called out. They attacked both the workers and women, wounding many of them.

Democratic Dutch papers compare this event with similar happenings almost exactly 10 years ago, when Dutch workers went on a general strike against the Nazi occupation, thus marking the rise of the Dutch resistance movement.

Engines To Formosa

Chiang Kai-shek's bandits on Formosa are to receive a large shipment of Rolls Royce Merlin aircraft engines from the Pacific Airmotive Corporation. The company making the announcement said it was the second shipment of engines to be sent to Formosa in the past two months.

WFTU Delegates Win

RANGOON — The labor movement here won a victory when it forced the government to back down on the initial refusal of visas to the World Federation of Trade Union (WFTU) delegates to the all-Burma Trade Union Congress now in session.

Parisian Workers Celebrate Strike Against Fascism

PARIS — Seventeen years ago on Sunday, Feb. 11, a Parisian workers' general strike successfully barred the road to fascism which corrupt reactionaries, financed by Hitler's and Mussolini's agents, were attempting to establish in France.

Hundreds of thousands of Parisian patriots of all creeds, led once more by working-class organizations, commemorated the anniversary in a powerful demonstration from the historic Place de la Bastille to Place de la Republique.

Behind the leaders of the mighty CGT, the Communist Party, the Unitarian Socialist Party, the veterans of two world wars and of the Spanish civil war, youth and women's organizations and many other progressive groups carrying red and tricolor flags, the demonstrators marched past during four solid hours, acclaimed by an immense crowd singing working-class and patriotic songs and clamoring protests against the present government's reactionary policy. Crowds also shouted their demands for peaceful reconstruction and social progress ensuring genuine national independence.

The main slogans repeated on thousands of streamers and placards were: Struggle against fascism and war; fight for political unity of Communist and Socialist workers; fight for trade union unity.

The ending of the colonialist war in Viet Nam and the release of imprisoned peace fighters symbolized by young navy engineer Henri Martin, were demanded with utmost vigor by hundreds of thousands of men and women.

Just as unity of action in the general strike between Socialist and Communist workers had ensured an anti-fascist victory 17 years ago—and had simultaneously forged trade union unity on a national scale in the reconstructed CGT, it was strongly emphasized at Sunday's demonstration that only through close democratic unity can France be restored to the state of an independent, progressive country striving for world peace and its own prosperity by rejecting the imperialist war planners' yoke under which the country is at present staggering.

Frozen Woman Keeps Limbs

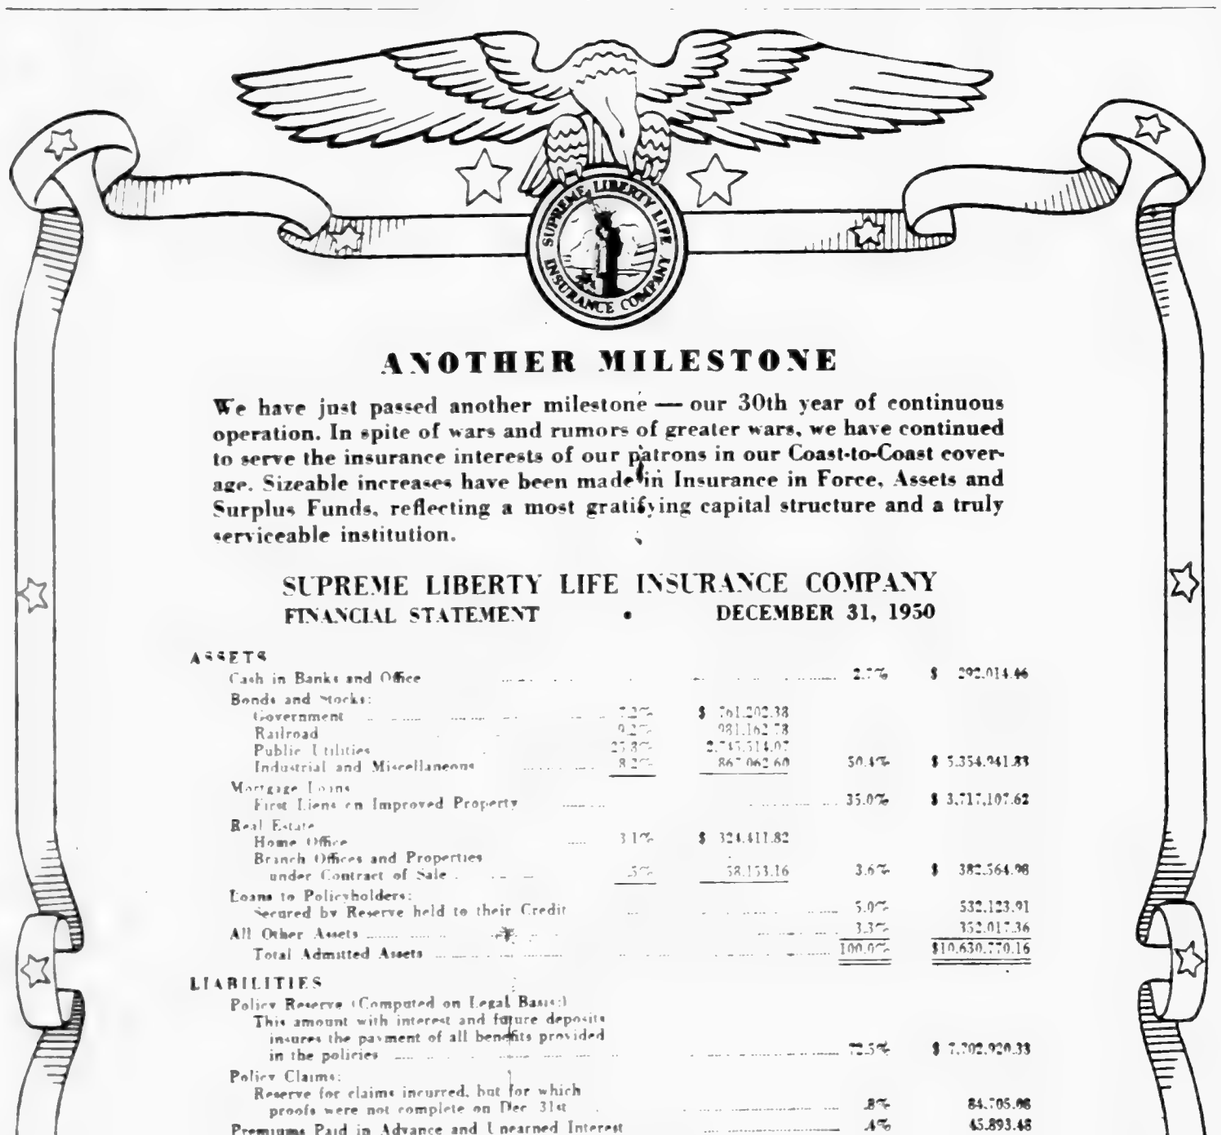
CHICAGO (CNS) —Mrs. Dorothy Mae Stevens, the Negro woman who made national headlines last week as the "deep freeze girl" when discovered frozen in a Chicago alley, has again upset medical history. She will keep her arms and legs which doctors feared would have to be amputated.

When first examined, doctors doubted the 23 year old Mrs. Stevens would live. Her temperature was 64 degrees, 35 degrees below normal. The lowest temperature of a patient who survived was recorded at 75 degrees.

The amputation of her limbs was discarded when doctors removed bandages and found no trace of gangrene on arms or legs. They were surprised to find the flesh in good condition.

First Negro On Record Firm

HOLLYWOOD—Austin McCoy, well known pianist, composer and arranger has been appointed to head the rhythm and blues division for Mercury Record Corporation. Announcement of the appointment came from Irving Green of Chicago, president of the corporation.



This is the first time in recording history that a Negro has been selected to fill such a responsible position with any of the major companies.

Urban League On Air

The National Urban League went "on the record" this week for the overseas broadcasts of the United States Department of State Voice of America division. League executive director Lester B. Granger, recorded his views on race relations in the nation. The interview was directed by Ben E. Wilbur, domestic special events director for the Voice of America.

'MARINE HYMN'

The tune of the Marine's Hymn, first sung by the leathernecks after the Mexican War in 1847, occurs in an old Spanish folk song and in the French comic opera, "Genevieve de Brabant" by Offenbach.

1,000 Enrolled at Jordan Evening Adult School

Over 1,000 residents of the community are presently enrolled in classes at the Jordan Adult School. Although several classes are nearly filled, registration is still open to all adults and it is not too late to take advantage of the opportunities offered.

The Commercial classes are the most popular, especially typing, office practice and Real Estate Law. More students are needed in shorthand and bookkeeping. Homemaking subjects, such as dressmaking, millinery and knitting still appeal to the feminine desire to make attractive articles of clothing for themselves and other members of their families.

At the Will Rogers Memorial Park Clubhouse, a class in home arts on Friday evenings gives instruction in lampshade making, draperies, and other skills of home decoration.

Whenever the community leaders desire to prepare themselves for the defense program, there will be classes available at Jordan Evening High School to train them. The Red Cross First Aid Class is now held every Monday and Wednesday.

The School is located at 2265 East 103rd Street.

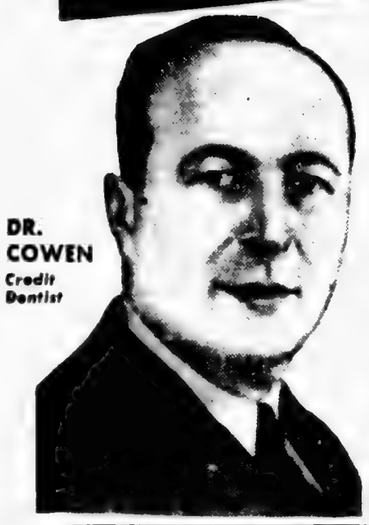
CONCERTS AND MORE!

Finally concert conscious music groups, sororities and fraternities and even religious groups are presuming that in one season they can present concert personalities in Los Angeles' tmeple of music, The Philharmonic, with success both musical and financial. Someone's coffers will be filled—for at least the Philharmonic's Board of Managers are content with the outlook. The series of local sponsored presentations in the music hall is unprecedented in music annals.

The obvious conclusion is simply that Los Angeles' needs another music hall of equal imporance as the West Fifth Auditorium. Perhaps the new Music Center being planned by Greater Los Angeles Plans, Incorporated, will fill the need or maybe conservative Wilshire Ebell Theatre will let down the rather subtle barrier they have placed against race artists.



We actually have no proof of the foregoing statement regarding the Ebell Theatre's treatment of race musicians, nevertheless, we are cognizant of several rather "unusual" situations in which they have managed to make the facilities unavailable. And So . . . Joseph Rickard's First Negro Classic Ballet appears under the impressario Mary Bran on Saturday evening, February 24th. We hope sincerely that the group will fare better than their Assistance League performance last season. If you will remember we raved about the group then . . . we'll be there, however. Soon in March, the 4th to be exact, soprano Georgia Ann Laster will present a Song Recital under the new impressario Edwin Stone. Miss Laster is the distinguished young woman who won the Atwater Kent Foundation Award several seasons ago and appears on UCLA 1951 Artist Series this year. Her Philharmonic debut will actually mark her formal entry into concertizing. We sincerely hope that locals will encourage this effort on the part of a serious artist.

Marian Anderson comes again on the 18th . . . while Roland Hayes appears in the Pasadena First Methodist Church under sponsorship of the Scott Methodist Church; incidentally Independent Church's Cathedral Choir and Orchestra appeared in Pasadena's Holliston Avenue Methodist Church last Sunday in Braham's "Requiem" with Gwendolyn Harriel, soprano and Cecil Doty, baritone . . . McNeil, conducted with Fannie Benjamin, at the console.

St. Paul Baptist Church will make its entry into concert sponsorship with the presentation of the famous Fisk Jubilee Singers and their equally famous Echoes of Aden Choir at the Philharmonic soon . . . while AKA will present Hazel Scott, pianist at the same concert hall in the not too distant future. On Palm Sunday evening the Music Department of the Independent Church will present Debussy's L'enfant Prodigue"—a one act opera at 7:30 with ballet . . . featuring Bernice Peterson, Harvey Huggins, and George Comfort.

Luther Carpenter's Male Choir and the Albert McNeil Choir were the only two race groups in the Bureau of Music's Choral Contest Finals held Monday the 12th at Venice High School. (It was a contest!!) . . . The McNeil Choir appeared in formal concert last Sunday evening in the First Friends Church of Whittier before almost 2000 people . . . The concert was sponsored by the Whittier First Methodist Church. Fred Thomas, baritone now under Columbia Concerts Management, will make his Town Hall Debut on March 18th. He sang last Tuesday evening on the Met Auditions of the Air

MOTHER PROTESTS SON'S BEATING BY POLICE

Charging gross abuse of police authority, Mrs. Lillie Albright of 5926 Makee avenue, today sent a letter of protest to Chief of Police William H. Parker and other city officials protesting the arrest and mistreatment of her son, William Albright, 16-year-old student at Jefferson High School.

The letter indicated that the boy was arrested Tuesday, January 9 about 8:30 p.m. on unfounded charges of robbery. He was held in Georgia Street Jail until the following afternoon without being permitted to communicate with his mother, according to the Albright letter.

The youth indicated that he was kept awake and grilled for hours with as many as five officers taking part in the questioning at once. The Albright boy said that he was repeatedly threatened and verbally abused during a five hour inquisition.

A statement from Richard W. Petherbridge, attorney for the Albright family, revealed that the young lawyer has been unable to get any information from the police as to where the robbery is supposed to have taken place. "Our principal concern is about the manner in which this case has been handled," said Petherbridge. "The Albright boy was in the company of others all during the evening when this robbery, if there was a robbery, is supposed to have taken place. He could account for every minute of his time. His story could have been checked within a few minutes and William could have been released to his mother at once. Our complaint is that the boy's story was not checked and that he was instead subjected to finger printing, "mugging" and a grilling by the police."

Mrs. Albright, in her letter to Chief of Police Parker, indicated that it was not until she had secured the professional services of Attorney Petherbridge that the investigating officer in the case stated that he did not believe the Albright boy could have been implicated in the crime with which he had been charged, and he was released to his mother.

Civic organizations are seeking information to reveal if this kind of activity on the part of the police is commonplace, and if so, a campaign to correct the likelihood of such occurrences is contemplated. Persons having information concerning such cases are being urged to contact the Community Service Organization, 2307½ E. First St., or by calling ANgeles 3-7083.

Newsman Tells His Own Success Story

Throughout the years there have been numerous success stories of how this man or that man started from nothing and finally achieved prosperity. But the best of all success stories is where a man in a run-down condition finally gets to where he feels wonderful again. William Bogard, newspaper reporter in Sulphur Springs, Texas, has such a story to tell. Yes, now that Mr. Bogard is taking HADACOL, he says, "I wish I could tell my story to every man and woman in the country who is now suffering as I was suffering." Mr. Bogard was suffering a deficiency of Vitamins B_1, B_2, Niacin and Iron, which HADACOL contains.

Wm. Bogard

Here is Mr. Bogard's own statemen telling how HADACOL helped him:

"Two years ago, at age 40, I was convinced that nothing remained for me in life. The most encouraging words I ever heard were: 'Maybe you will get straightened out after a while.' The only thing that really mattered to me was how I felt and the fact that my apparent decline had brought my many dreams and aspirations in total ruins before my feet.

"I heard and read many stories and testimonials concerning HADACOL, but, unfortunately for me, I didn't take any of them seriously. I considered these testimonials to be from fictitious people with imaginary ills who talked solely for money. How wrong I was! In spite of my wariness, I decided to give HADACOL a try. I took great care that no one knew I was taking it because I feared their ridicule.

"I took three bottles of HADACOL before I began to 'feel' its effects. After that, my progress was steady and sure. My appetite picked up. I not only ate at meal time, which I had not been doing before, but I enjoyed in-between-meal snacks of delicacies which I had long since forgotten.

"I wish I could tell my story to every man and woman in the country who is suffering as I was suffering; I wish I could let them know and make them believe that what I say is all truth and none fiction."

Remember HADACOL is sold on a strict money-back guarantee. And so inexpensive. Trial-size bottle only $1.25. Large family or hospital size, $3.50. If your druggist does not have HADACOL, order direct from The LeBlanc Corporation, Lafayette, La.

NEGRO HISTORY WEEK CELEBRATED

Last week marked a new high in the celebration of Negro History Week. UCLA's Royce Hall housed hundreds of spectators fo rthe celebration on Friday, Feb. 16.

Dr. Howard Thurman, noted religious figure, spoke on the Negro and his contribution to the world, and vocal artist Ella Belle Davis, dramatic soprano, entranced most of her audience with her pleasing vocal productions. Miss Davis chose as her contribution to the west coast observance, a song by Handel, two songs by female Negro composers, one of which was "Ode to the Dark Virgin" by Florence Price, and the other "By the Sea." As her aria the singer chose an aria from an outmoded 17th century opera and closed with the spiritual "Oh What a Beautiful City."

When this writer said that Miss Davis entranced most of her audience, it was meant to support the fact that although Ella Belle Davis is a nationally-known artist from the east coast, it causes one to wonder why one of our own local artists was not chosen to perform on this occasion.

This evening that was spent commemorating the week of Negro history makes us realize that the Negro cannot lie down on the job and every year talk about B. T. Washington, George W. Carver, and of those who gave us a push in the right direction. We need more men like Howard Thurman, William Grant Still, Ralph Bunche, and Langston Hughes.

We need those persons who will unselfishly endeavor to place our people on a higher plane and raise the standard socially, culturally and musically. Yes, you John Q. Public can do these things. If you do not help the great men, they can do nothing. Choir directors can do their part by using more music composed by Negroes of a higher caliber, and people can put worthy Negroes in political offices where they can be properly represented.

So you see by helping each other, little by little eventually history books will carry facts of the works of Negroes in all forms of industrial, legislative and administrative building and the Metropolitan Opera Co. will employ Negro singers. Won't you help instead of hinder?

10,000 JOIN CATHOLICS

WASHINGTON — According to Catholic religious news more than 10,092 adults have joined the Catholic church during 1950. The total number of Negro Catholics served throughout the country is about 400,000. The report was issued by the very Rev. J. B. Tennelly, S.S., secretary of the Commission for Catholic Missions Among Negroes.

Fisk Jubilee Singers In Concert, March 11

Fisk Jubilee Singers, once termed "a quartet built out of Roland Hayes," will give their only Los Angeles concert Sunday afternoon, March 11, at Philharmonic auditorium, under the joint sponsorship of St. Paul's Baptist Church and Irwin Parnes Independent Concerts and Artists.

The program will feature Joseph James, bass-baritone star of the Broadway production, "Lost in the Stars," and the Echoes of Eden choir.

Perhaps the only chorale ever to save a college, Jubilee Singers originated in 1871. Fisk University, then only five years old, faced financial ruin. To keep its doors open, Rev. George L. White, treasurer and professor of music, decided to take a group of musically gifted students on a concert tour of the North. Borrowing money on his own responsibility, he set forth in defiance of a veto by the Board of Trustees and with scarcely enough provisions to last beyond the Ohio River.

Concerts paid barely enough to take the Singers from one town to another. In Cincinnati, they netted about $50, but the Great Chicago Fire broke out that very night, and the singers turned their much needed money over to the Relief Fund.

Finally, they attracted the attention of Henry Ward Beecher, whose public sponsorship earned them an invitation to sing at the Peace Jubilee in Boston and the Philadelphia Academy of Music. Soon they were invited to sing at the White House in Washington.

The first tour, which lasted three months, established the fame of the Jubilee Singers and literally saved Fisk University.

Juvenile Officer Tells Strides in Crime Fight

By WINNI ORR

With the beautiful Wilfandel Club House as the setting, the Los Angeles Chapter of the Deltas Links served breakfast to 50 leaders of Philanthropic organizations and the ladies of the press, last Saturday morning.

At the speakers table, with president Vada Somerville, Marie McPherson, Cornelia Bradley, Josephine Bodgette Smith, Mrs. Alma Rickman (President of Inland Bay Area Chapter) and also for the occasion, was Mrs. Solomon Spaulding, National Vice President of the Young Women's Christian Association and Lt. Harry England of the Juvenile Division of the Los Angeles Police Dept.

Mrs. Spaulding gave a very interesting report of her observations taken at the recent White House Conference on Childhood and Youth, and on the nation's

It was Lt. England's report that was of particular interest. He referred to the group the recent studies the Department has been making in the hope to combat Juvenile Delinquency, the important part that law enforcement plays in the community leads. It was interesting to learn that in order to give the officer on the beat as keen a knowledge of human behavior as possible, a decision was made by a committee from the Department to recommend that all Judges who must deal with youth in the future have some sociological training to better understand their job. We also learned, there has been a definite effort to establish at the Juvenile of Southern California a feeling of confidence in the Police Department where community problems are involved. These services are made available to the personnel of the depart-

Now the funds are depleted and so this must be postponed for some time until the proper channels are tapped for this exceedingly worth while venture. Incidentally, Lt. England says that the term "delinquency" is not to be used in the majority of these cases that come of, but that they are referred to as "deviant conduct."

It was all most informative and interesting.

As the ladies took their places at the place marked, Camilla decorated table, to enjoy the delicious breakfast, we saw: Gertrude Hicks, active in so many outstanding Charity organizations. Hilda Allen; Mary Johnson, president of Child Guidance; Mary Lou Roberson, Irene Morris Ann O'Ferrall, National Council of Negro Women, Doll League president, Fannie De Mann, Marian Gordon; Ursula Morrell, Mamie Duffy, Sojourner Truth, Yolanda Stovall, Rhetha Beck, Hortense Graham, Freda Shaw Johnson, Mrs. Jerome Johnson (Medical and Pharmaceutical Auxiliary), Flora Grant (representing the Lullabye Guild and many more.

Representing the press: Sara Lee Griffin, Minnie Lomax, Libby Clark, and Jessie Mae Beavers.

Congratulations are in order to the Links on their six month birthday, and with the strides they have already made we feel they will indeed liv up to their purpose of being a Civic, Social and Philanthropic Organization in a never crowded field. Service

Baby Shower

By NELLIE F. SLATON

Many ooh's and ah's accompanied the opening of gifts by Dorothy Redd Cloud at a baby shower given for her by Ruth L. Redd and Nellie Slaton Saturday, May 17, at the residence of Kathryn Kinney.

The shower was enlivened by clever games conducted by Ruth Redd. Lucky prize winners were Verna Dauterive, Minnie Saunders and Earline Tate.

The yellow and white color scheme was enhanced by a yellow clothes line strung across the room with the future "Little Cloud's" yellow and white clothes pinned on it.

Dorothy Cloud looked very lovely in her blue crepe two piece dress set off with an elongated corsage of white carnations.

Invited guests were Eddie Armstrong, Vera Gatwood, Virginia Harvey, Verna Dauterive, Katherine Kenny, Earline Tate, Marion Patterson, Frances Cloud, Frances Redd Pepo, Zepha Cooper, Mrs. E. S. Redd, Minnie Saunders and Charletta Jackson. Gifts were also sent by friends unable to attend.

WINI ORR

LAMBDA OMICRON and LAMBDA CHAPTERS of OMEGA PSI PSI FRATERNITY scored at the Zenda Ballroom with one of the outstanding affairs of the entire social season with their Annual Starlight Formal Dance.

ONE OF THE BEST ATTENDED dances of the winter season, but was also the best mixed as far as the various age groups went. We did think from hearing with different ones of the older set that they wanted just a few more waltzes. Never-the-less a seemed to be having a wonderful time.

HIGHLIGHT OF THE EVENING was the crowning of the queen, Signora Howard, daughter of Doctor and Mrs. Waldo Howard of Houston, Texas. Dr. Howard is one of the founders of the Omega Fraternity. Joe Reed crowned the lovely girl with a crown of baby orchids and then led her in the Omega Dance.

Glimpsed About

GLIMPSED: the D. C. Montgomery's (certainly was a glamorous gal THAT evening); our very oldest and best friend Chris Armstrong with Archie Thurston practically all of our club, the Zenith's, Argralia and J. L. Earls, Lydia and Lionel Adams, Chris Morris, Eula and J. P. Earls, Jennie and "Pancho" (Sterling) Wagoner; the Allan Woodards third; Harriet Beal, (who was having a "LOOKING" good time; Alice Edwards; the Luther Beasons; Myrt Hughes; Theresa and Gilbert Lindsey; Jeanette Peront; the senior Robert Britts; Dr. E. I. and Mrs. Robinson; Omega man Fentriss so elegant in his mid-night blue tails; newly weds Hester and Ted Hughes, taking all head turns as they passed, looking like respective ads from Esquire and Vogue (his red plaid dinner jacket the last word); Signora Howard, Queen for the evening, beautiful in' billowy white tulle and carrying an armful of long stemmed red roses.

PRIOR TO THE DANCE we were the cocktail guests of the Lincoln Shumate's who entertained in their West Twenty Seventh Street apartment. The room was dazzling with the beautifully gowned women, and debonaire men. Enjoying small talk over the appetizers and frosty drinks were Dr. and Mrs. Arthur Mitchell; Dr. and Mrs. Welles Forde; Dr. and Mrs. Howard Allen and sister-in-law Miss Allen; Dr. and Mrs. Robert Woods, Dr. and Mrs. J. P. Taylor, Sherman Waters and of course the charming Anita and Lincoln.

REGULAR MEETING OF THE WILFANDEL CLUB was as usual an outstanding event. Speakers for the occasion were two of our local School Marm Principals, Edna Cohen and Berniece Barnum. Guests of Leontyne King who enjoyed the artistry of William Valentine and the other artists were: Mrs. Charity White; Isidore Brown, Alamita Spencer (she is wintering here); and Betty Clark.

Washington Resurrects Old Laws to Fight Discrimination in Capital

Old laws passed in 1872 and 1873, against discrimination in the capital of the nation—Washington, D. C.—are being resurrected and are being applied to the present laws which would segregate Negro and white customers in a restaurant—if Negroes are permitted to eat in those restaurants at all.

Mrs. Mary Church Terrell, prominent educator, Rev. Arthur F. Elmes of the People's Congregational Church, Miss Essie Thompson and Mr David Scull (white), have brought a suit against the Thompson restaurant, 725 14th St., N.W. They were refused service, they state in their complaint, last February 28, 1950.

Although the case is a year old now, it is only being heard in court. Arguments were heard in the municipal court of appeals on February 19. Widespread inteerst has been shown in this case.

The Coordinating Committee of Washington is making a survey of the restaurants of the capital city, and is asking all interested to boycott those restaurants which cater only to "white" customers.

Dance Is Planned for Berman

Third annual dance of the Los Angeles Radio Committee will be held Saturday evening, March 10, at the Musician's Hall, 817 N. Vine St., Hollywood, it was announced this week.

Aver l Berman, widely known liberal radio commentator who is sponsored by the committee and International Longshoremen's & Warehousemen's Union Local 26, will speak briefly at intermission.

Entertainment and refreshments will be included in the evening's program. Proceeds will be used to pay costs of Berman's news commentary, heard every Monday night from 8:15 to 8:45 over Station KFOX (1280 on the dial).

Averill Berman's new program includes interviews with union spokesmen on topics of the day. Executive Secretary Olive Deuel said, "and we urge every working man and woman to tune in KFOX at 8:15 every Monday."

Basket Teams To Play for Top Spot

Under the guidance of Coach Johnny Wooden and sparked by phenomenal Captain Eddie Sheldrake UCLA's second place basketball team challenges for the top spot in the Pacific Coast Conference Southern Division by meeting the California Bears Friday and Saturday (Feb. 23-24) in the Bruin gym.

Wooden, who has lost only one out of 37 home court starts since coming to UCLA three years ago, masterminded his quintet to 56-48 and 90-67 wins over Stanford last weekend to pull within a single game of league-leading USC.

Sheldrake, a guard member of United Press' 1950 "Little All-American" team for men under five-feet-ten, at the record book on fire Saturday night by racking up 38 points to break Trojan Ralph Vaughn's 12-year-old mark of 36.

Ed, who has spent most of the season as play-maker instead of scoring leader as in the past, came through during the illness of forward Dick Ridgway, division scoring leader. "Dead-eye Dick," however, managed to boost his total by hitting for 29 points during his brief appearances.

Ridgway now has a season total of 359 points in 22 games for a 16.3 average. His 152 points in conference play leads California center Bill Hagler by 22 points.

Let us labor for that larger comprehension of truth, and that more thorough repudiation of error, which shall make the history of mankind a series of ascending developments.

'Sugar Ray' Urges Aid to Cancer Fund

Pound for pound he's the World's greatest champion, that's the fit description for recently crowned middleweight champion Ray Robinson. In Chicago last week, after he annexed the title from Jake La Motta, the Bronx Bull, Robinson went on record to tell the world at large (addressing "WW", Walter Winchell to you!) that he was a full-fledged member of the Damon Runyan Cancer Fund Club.

Others are doing their share to aid the Runyan Fund, the Heart Fund and the March of Dimes. Dinah Washington, the reigning star of blues and ballads; the celebrated Ravens quartet among them.

You too can aid these worthy charities and while you may not be in the position—in an artistic sense—to lend your talents, you can forward one dollar to Universal Attractions, 347 Madison Avenue, New York, 17, N. Y.

Make your check or money order payable to etither of the three of the above organizations mentioned, and Universal. Attractions will send you (free) an autographed picture of either Dinah Washington or The Ravens.

Give one dollar and name one. It's as simple as that.

There is no reason you cannot contribute to the Damon Runyan Fund, the Heart Fund, or the March of Dimes. The money contributed is used to combat diseases that may strike home, who knows?

Give, give now, give heartily.

Sportsmen's Show Shifts to Pan Pacific

With Gilmore Stadium in the process of being torn down, the Sixth Annual Sportsmen's, Vacation and Trailer Show will shift to the Pan-Pacific Auditorium for its 1951 showing, officials have disclosed.

General Manager Mel R. Morrison and Producer H. Werner Buck selected the Beverly Blvd. plant for its proximity to the Gilmore arena.

The annual outdoor classic is billed April 12 through 22, and again will highlight displays of the latest in sports and recreational equipment along with professional stage programs.

"We feel certain that the public will welcome a change of scenery for the 1951 Sportsmen's Show," the two young impresarios pointed out. "Actually, we'll have more exhibit space under the Pan-Pacific roof.

Brilliant 3-Year-Old Field In Saturday's Santa Anita Derby

One of the most brilliant fields of 3-year-olds in its colorful history is expected to parade postward Saturday in the $100,000 added Santa Anita Derby.

Interest in the mile and one-eighth fixture, first important distance test of the new year for the sophomore division, is the highest it has been in several seasons. This is due to the class displayed by the contenders in prepartory races at the Santa Anita winter season to date.

Considered an outstanding candidate for the big Derby is Mrs. Frances Genter's Rough 'N Tumble, which roared from off the pace to capture the mile and one sixteenth Derby Trial last week in a highly impressive performance. This colt, a son of Free For All, was third in last year's Belmont Futurity and has given every indication that he likes to carry his speed over a route.

Other prime candidates are W. C. Martin's Phil D., a bargain buy as a yearling which has blossomed into a top runner with recent victories in the San Felipe Stakes and the Hollywood Laddie Stakes.

Included in the California-bred eligibles which are being pointed for the rich Saturday headliner in the hopes of emulating victory of Your Host in 1950, are Mrs. Nat Goldstone's Gold Capitol, triumphant in the California Breeders Champion Stakes; K. T. Potter Ranch's long-striding chestnut colt, Interpretation; Your Host's younger stablemates, Gold Note and Lion; and Mr. and Mrs. R. S. Ross' Pat's Own, a clever stakes winner as a 2-year-old.

Carrying the banner of Eastern owners in the Santa Anita Derby, in addition to Rough 'N Tumble and Phil D., are Alfred Vanderbilt's Good Loser, Frank Frankel's Frendswood, Clifford Mooers' Aegean, Calumet Farms' Replete and possibly I. J. Collins' Mohammedan. The latter won a mile test recently but developed a slight tendon injury. He may be recovered in time for his Derby engagement, however.

Also counted as strong Derby possibilities are Isidore Bieber's Nothirdchance, W. E. Chisholm's Owner's Venture, H. W. Collins' Sponsor, Robert Lehman's Prospect, Mr. and Mrs. D. S. Jeppson's Hindu Star and Mission Stable's French Dandy.

Junius Kellogg to Receive CYO Award

CHICAGO (Special) — Bishop Bernard J. Sheil, Senior Auxiliary Bishop of Chicago and Director-General of the Catholic Youth Organization, today announced the awarding of the CYO Club of Champions medal to Junius Kellog, Mathattan College basketball star who exposed the recent "fix" attempts of games played in New York's Madison Square Garden.

Kellogg will fly to Chicago on May 22 to receive the award at the 19th Annual Sportsmen's Dinner to be given by the newspaper men of Chicago to honor Bishop Sheil.

In announcing the award, Bishop Shiel said: "By his staunch devotion to the ideals of Christian Sportsmanship, Junius Kellog of Manhattan College has set a stirring example for the youth of our nation. The late George Cardinal Mundelein, the Archbishop of Chicago would indeed have been proud of this splendid son of his alma mater."

The CYO's Club of Champions award is given annually by Bishop Sheil who is called "the Apostle of Youth," for outstanding effort in the cause of youth. The award has been given in previous years to General Dwight D. Eisnehower, Jackie Robinson, the late Babe Ruth, Ted Lyons, Arch Ward and other notables.

In a telegram sent by Kellogg to Bishop Sheil accepting the award, he said: "It is the greatest honor of my life. However, I know that I did no more than any other Manhattan College student or athlete would have done."

Two Stars in $19,000 Bribe; Third Held

NEW YORK.—Three of Long Island University's star basketball players were arrested this week for receiving gambling bribes to fix games. Of the three, two were Negroes, Sherman White, star center of the team who was chosen by the Sporting News as the basketball player of the year and Leroy Smith. The third player was Adolph Bigos. To date seven players from Long Island, New York U and CCNY have been caught in the expose.

It was only after 13 hours of solid grilling that the players finally broke down and admitted that they had accepted bribes to try to fix the LIU-Kansas State game Dec. 2. LIU, an 8-point favorite, barely won, 60-59.

Coach Clair Bee of Long Island said that he had asked each member of his team if he had accepted a bribe and each one said no.

Bee was quoted as saying: "Oh, my God! This is awful. I was afraid something was wrong when the kids didn't come home from the dormitory." He told other friends he could not talk—he was too choked up. He went into his athletic offices and couldn't be reached for further comment.

Globetrotters Meet Indianapolis Lakers In Basketball Titanic

CHICAGO, Ill. (Special)—Basketball's two most celebrated professional aggregations — the Harlem Globetrotters and Minneapolis Lakers — are nearing their big showdown. The great quintets clash at Chicago Stadium on Friday night, Feb. 23, in the feature of a huge double-header and already the big building is on the verge of a sellout.

To say that Chicago and environs is in a dither over the game is putting it mildly. The game stacks up as one of the top attractions of the year in the nation's 2nd largest city. One hears on the streets of the Loop: Who's going to win? And where can one get tickets?

It's a great battle every time these two teams meet. The Lakers have a slight victory edge in the series, three games to two, and they snapped the Trotters' 113-game winning streak last season. This year they'll be meeting in the Harlem's 117th game of the new campaign and up to the present time the Trotters are still unbeaten.

The Trotters can tie their 113-game winning streak by beating the Boston Whirlwinds Feb. 19 at Oklahoma City and break it the next night against the same team at Wichita, Kan. They will utilize these games, as well as others at Kansas City and St. Joseph, Mo., the next two nights to ready themselves for the Lakers' assignment.

The Globetrotters of Abe Saperstein have made good in another league. Their full-length Columbia movie, "The Harlem Globetrotters," has been previewed prior to general release and has elicited high praise from all who have seen it.

This is a season that will take its place as the most exciting in the Trotters' history. Following their regular schedule, they tour the nation coast to coast in an airplane world's series with the College All-Americans in April, then head for South America for another extensive tour and from there to many parts of Europe and Africa.

But right now, it's George Mikan and the Minneapolis Lakers that's holding the attention of the most fabulous court ensemble ever put together.

Baseball All-Stars Clash Sunday at Wrigley Field

Stage is set for 1951's first pro baseball game of the year, on all-star clash Sunday at Wrigley Field, played for the benefit of the medical fund of the Southern California Baseball Association, largest semi-pro organization of its kind in the county.

After scanning the list of the Triple A players secured by the Association's Players Committee, managers of both teams, Fred Haney of the Haneys and the Hacks Skipper, Stan Hack come out with a flat prediction of victory in Sunday's 2:15 contest.

Haney, who will be assisted by Bill Sweeney, another popular Coast League manager, points to the wealth of power in his lineup. In the outfield alone, Haney can choose from the likes of Ed Sauer, Frank Kelleher, Clint Conatser, and Al Lyons, while Lou Stringer, Jack Graham, Chuck Stevens, "Nippy" Jones, Bud Hicks, Murray Franklin and Steve Mesner are available for the four infield posts.

Mike Sandlock, Cliff Dapper, Bud Heslett and Roy Partee are listed among his catchers, and when it comes to a mound corps, Haney can reach out and choose from Johnny Lindell, Red Lynn, Hal Gregg, Jack Salveson, Jack Paepke and Pinkie Woods.

Not one bit impressed by the Haneys "who's who," the Hacks brain trust, Manager Hack and Jackie Warner, his assistant and Los Angeles Coach, claim the opposition hasn't a thing on their squad.

Norman Besse, Red Adams, Chuck Eisenman, Red Embree and Manny Perez are ready to climb the mound, with Ed Malone, Nelson Burbrink, Ray Cash, Jim Steiner and Rube Novotney ready to don the catching paraphernalia.

In the infield such outstanding pros as Elbie Fletcher, Dale Coogan, George Vico, Al Glossop, Bill Schuster, Nanny Fernandez, Eddie Bockman and Ray Hamrick are ready to throw up an iron-clad defense.

Hack can select his "Dream outfield" from Les Layton, Cece Garriott, Clarence Maddern, Max West, Cliff Aberson, Fletcher Robbe, Stan Spence and Don Lang.

Majority of the AAA stars have been playing winter league ball and are in tip-top condition for Sunday's charity game.

Motley Officially Named NFL's Leading Gainer

Big Marion Motley, powerhouse for the Cleveland Browns this past season, was officially named Monday as the leading ground gainer of the National Football League for 1950.

The 238 pound Motley carried the ball 140 times for a total of 810 yards and an average of almost six yards per carry.

In second place was Frank Ziegler of the Philadelphia Eagles who carried the ball 173 times for 733 yards.

SANTA ANITA—Great Circle, the winner of last year's Del Mar Derby, is now the big horse for the Santa Anita $100,000 handicap. In Walter C. Marty's future book he can be had at 4 to 1, with All Blue, winner of the San Antonio Handicap last Saturday second choice at 5 to 1. All Blue will pack about 116 pounds in the big race while Great Circle will pack 120. The race is wide open and a surprise winner may turn up before the race.

The feature attraction for Saturday will be the Santa Anita Derby at 1¼ miles. It carries an added value of $100,000, and the best three-year-olds on the grounds will go postward for this rich event, such as Rough 'n Tumble, Phil D., Gold Capitol, Gold Note, Sickle's Image, Aegean and others. A full field may face starter William Mill's gate.

NEW CALIENTE IN OLD MEXICO—It was a great race the feature attraction at Caliente with the leading jockeys of the country honoring the late Ice Man George Woolf in the annual Memorial Handicap.

And it was Jockey Hank Moreno who took the honors with the longshot, Badge of Valor. A crowd of 7000 lovers of the sport of kings were on hand to witness the fourth running of the George Woolf Memorial purse. Bust Out, who closed with a cyclonic rush, was second, and H Molly was third. The winner paid $24.40.

Two goodies were sprung on the public. Hi Hurry, from the R. C. Ellsworth Stable, making her first start at the border course, scored an easy victory paying as the favorite $5.00. Wa Stew, another newcomer, ran six furlongs in the fast time of 1:1 flat to catch the favored Cuffie at the wire, paying $16.40.

The daily double backers of Flag's Son, winner of the fourth race, and Donalyte, victor of the fifth, received $65.80, while the quinela holders of the combination of Pigeon Flight and Somo who finished in that order, were rewarded with $83.20. Intermittent rain and flashes of sunshine greeted the fans during the afternoon.

This Sunday, General Manager Walter C. Marty has arranged another fine card of 12 races with three features. Main event will be "The Delaware" at one miles, Secondary, "The White Legs," one mile and five furlongs. Third "The Cape Cod," six furlongs. The daily double is now the fourth and fifth races, while the quinela remains the tenth. Great Circle is now the favorite in the future book.

Layman's Intertest Motivates Matters of Bishop's Council

By Benjamin Ingraham

Never before in the history of African Methodism has there been such tension, perhaps with one single exception. The laymen's interest is the "whole" interest. There is no part of the church separate and distinct from laymen. The minister receives the two orders of the church because of and not in spite of, the lay brethern. The great matters coming before the Bishops Council, if settled with equity and justice, will give moral uplift to the people. The doings of African Methodist have great influence upon all people, and especially those of African descent. Clarification of the Laws in dispute are needed, and a clear declaration of the true authority over all schools and colleges are demanded.

Work Lauded

The Southern California Conference is blessed with a great lay leader, one that has within his firm grasp the true concept of the Christian Church. Coley W. Stafford, President of the Southern California Laymen's League champions the Christian emphasis. The subject of his preachment is the laymen and the deepened spiritual life. Stafford began a work in Southern California that has spread like fire in seventeen (17) months. He spearheaded his drive through Southern California with evangelistic services directed by his lay preachers and evangelists, and he was used ministers in a number of his campaigns. His contribution however is lay preachers. Reference is often made to Dwight Moody in this phase of work. Stafford's theme everywhere is "Back to Methodism." Besides he has captured the spirit of the Missionary Preacher. He has gone to the waste places carrying the Gospel of Christ and money. The voice of the Missionary Preacher is one we believe never seen it on Stafford has organized Laymen Leagues in churches the length and breadth of Southern California; inland at El Centro to the coast of San Diego and, to Valverde and Poioma on the border of the California Conference; from San Pedro and Long Beach on the Pacific to the desert at Barstow in San Bernandino County, having visited or organized every church in that county. President Stafford's church thinking goes deeper than Methodism.

Board Behind Him

Although Stafford has led in re-kindling the spiritual life and fire in the breast of the Sons and Daughters of Allen, Stafford believes that all communicants of the Christian Church should unite in fellowship. His executive board is soundly behind him; the special committees are functioning, and the finance committee is operating according to plan. The legislative staff has offered fifteen (15) Bills and Revisions of Legislation for review, as well as a full course of Lay Group Study covering sixteen (16) subjects in four groups.

In all, Coley W. Stafford has brought new meaning to African Methodism. The man's life is deeply spiritual, and he believes that by Christian example, and not by rigidness of laws, will come the purging light to shine in darkness. The matter of the church every going into court is odious to Coley Stafford, regardless of the cause. In his thinking, such doings represent moral collapse. He believes that the moral emphasis alone penetrates the purposeful meaning and end of life; he points, then, to the church as the ONE institution that must give its cloak when its coat is demanded. President Stafford's whole talk is lifting laymen out of ignorance. He demands a study of A.M.E. Law. Finally, he believes if one would have a burning heart then it can come only from an enlightened mind.

Mind Christian Science Bible Lesson Subject

The fact that there is only one real Mind—the Mind that was in Christ Jesus—and that this Mind, understood, destroys sickness and sin is stressed in the Sunday Bible Lesson in all Christian Science churches.

This declaration from Psalms is the Gold Text: "The counsel of the Lord standeth for ever, the thoughts of his heart to all generations" (33:11).

Scriptural selections in the Lesson-Sermon include this admonition of Paul to the Romans: "Be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God" (12:2).

In a correlative passage from "Science and Health with Key to the Scriptures" Mary Baker Eddy declares, "If man is governed by the law of divine Mind, his body is in submission to everlasting Life and Truth and Love" (p. 216).

The Rose Bowl event is endorsed by the Pasadena Christian Businessmen's Committee, and 100 laymen from Southern California churches are serving on various planning committees. The one-hour program, which has been carried each year by a nation-wide radio network, is to begin at 6 a.m., just nine minutes after the March 25 sunrise.

Day Of Prayer For Complete Freedom Of American Negro

In the adjourned session of the National Baptist Convention, Inc. convening at Hot Springs, Ark. Feb. 20-22, and representing 25,000 churches with more than 4,000,000 members of the Negro group, one of the most dynamic resolutions ever to be considered by any religious body was presented. It was presented by the Rev. Dr. J. Raymond Henderson, minister in the great Second Baptist Church at Los Angeles, Calif., and president of the Western Baptist State Convention of California.

The resolution will seek to have Jan. 1, 1952 set apart as a DAY OF PRAYER FOR COMPLETE FREEDOM FOR THE AMERICAN NEGRO. It will seek to have the day so proclaimed by the president of the United States and governors of the several states. It will seek to have this day memorialized by a Congressional address to become a part of the Congressional Record. Every Christian in America will be asked to utter a special prayer on that day. White ministers, particularly in the South, will be asked to preach special sermons on the question of "Freedom For All."

"The Day will be not primarily for the sake of the Negro, but for the salvation of America," says Dr. Henderson, "for unless America courageously and in Christ-like spirit gives the Negro his complete freedom, and speedily, her moral prestige as world leader will grow even more ludicrous, and her pretensions of democracy increasingly fail to impress other nations."

IN CONCERT—Juanita Smith, of Prosperity Baptist Church is featured along with Willie Woolridge and the Holland choir in the GOSPEL IN SONG concert Sunday afternoon, Feb. 25th, at Will Rogers Park Auditorium.

Lounge. We all know Angelle DeLavallade, the former Mrs. Edward Stratton, and those of us who really know her know that she is quite good with those Creole and Mexican dishes. With her in the venture is Marie Cornish who will handle the Southern Dishes the two plan to feature. Opening night this past Monday found crowds of the Cafe Society folks out to wish the girls success. All of the ladie were presented with Baby Orchids in pretty little plastic lapel vases which will be kept as souvenirs of the opening. We enjoyed wonderful food and spent hours chatting with gangs of people we hadn't seen in awhile. Lena Torrence home from New York and trying to plan an immediate return, such contacts as that gal made. But then New York should be for her; Lovely Juliette Ball (soon to be Mrs. Billy Brown of the famous Globetrotters); Melvin Bright; Joel Fluellen; J. C. Heard; Jack and Sue Jones, who have just gotten their grip on the nwe business they have at Washington and Central, the New York Cleaners; pretty, pretty Millie Bruce, and it seemed we had just left her on our TV set at home; Johnny Lowe; Mabel Beverly and Fred McLain; Bob Hopkins; Gertrude Gipson and Elledge Pendland; Baby Simmons (she looks wonderufl and so well rested and is deep in plans for the New Cresbar which is being whipped into shape); Johnny Cornish; Dr. Delo Gray, the FRIENDLY DENTIST, who was celebrating his birthday; Paul Hickman on a recess from his "MILOMO ROOM" and giving the other fellow a play in the best sporting manner; John Collins, enjoying a night off from his "IVIES CHICKEN SHACK"; the grand guys from the airport, Rocky Wilson, Nelson Le Blanc, and Caesar; Bob Merrill, the little tailor with the big heart; Mrs. Eddie Atkinson resplendent in a stripped beaver coat; and our gal Libby Clark; and just so many milling around table hopping and having a wonderful time.

SUNDAY WE HIED OURSELVES over to the Holliston Methodist Church in Pasadena to hear and support the Cathedral Choir of the Independent Church in their marvelous concert. The choir, under the direction of Albert John McNeil, did the Brahms Requiem. Notable is the fact that this is the third time a Negro Choral group has attempted this difficult work on the Pacific Coast and One of the Three Choirs in America. Believe us it was an inspiring afternoon, one that left you in the clouds of the dreamer for the rest of the day. Leaving the Cross and Crown Breakfast, Ethel Taylor, Grace Fegan (Fegan's Auto for His and Watts Taxi), John Ingram, Harriet Beal and your scribe, all enjoyed the outing.
